SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS.

CLASS VII.—EDUCATIONAL APPLIANCES, MODELS OF SCHOOLS, SCHOOL FURNITURE AND BOOKS.

- Letters cut out of paper, sent on loan by the Subdivisional Officer of Jahánábád district.

CLASS VIII.—MAPS, CHARTS, AND GEOGRAPHICAL APPARATUS.

- Map of Shárfá, sent on loan by Baboo Sarat Chandra Dás, through the Deputy Commissioner of Darjiling.
 Economic geological maps of Monghyr district, by Mr. Lockwood, C.S. Sent on loan by the Collector of Monghyr.

CLASS IX.—SPECIMENS OF WORK DONE BY PUPILS IN SCHOOLS.

- Carpet work, 12 pieces, made by the pupils of the Eden Female School at Dacca.
 A piece of carpet made by Syama Sundari Dasi, daughter of Baboo Ananda Mohan Dás of Dacca.
 Six specimens of carpet and needlework done by Uriya girls from 8 to 10 years old, who have been in school for a few months only. Sent from the Municipality Girls' School of Cuttack. Price Re. 1-4, 1-3, 1-4, 1-2, 10 annas, and Re. 1 respectively.
 The Hindi Alphabet (*Barn-mala*), a specimen of calligraphy in Hindi of an Oráon student, lithographed by Oráon Christians. Presented by W. Kiefel, Esq., German Evangelical Lutheran Mission, Ranchi. Sent through the Local Committee of Lohardaga.

CLASS XI.—STATIONERY AND ARTISTS' MATERIALS.

Style (*Lekhan*).—This, and the leaf of the palm-tree were the only stationery formerly used by the Uriyas for writing purposes. The blade is used for cutting the palm-leaf to the required shape, and the fine round point for writing. Presented by the Rájá of Talcher through the Cuttack Local Committee.

Ditto sent for sale by Govind Bindhári Rái of Kandpára. Cuttack. Price Rs. 5.

Ditto sent for sale by the Rájá of Ranpur, Cuttack. Price Re. 1-6.

Ditto purchased by the Cuttack Local Committee. Price 4 annas.

CLASS XIV.—MUSICAL INSTRUMENTS.

A Collection of Musical Instruments lent by Raja Sourindro Mohun Tagore, Mus. Doc., C.I.E. :—

KACHCHHAPÍ VÍNÁ.—A very classical instrument, popularly known as the *kachud setár*. It owes its name to the shape of the gourd, which is flat like the back of the *kachchhapa* (tortoise). The present name "*setár*" (literally "three wires") was given to it by Amir Khushru (a poet and musician of the 13th century), on account of the number of wires with which it was then mounted. The wires now used in it vary from five to seven. The instrument is said to have been the favourite of Saraswati, the Goddess of Music. The specimen exhibited is the handiwork of Sukhlal, a celebrated instrument-maker of Dacca.

KACHCHHAPÍ VÍNÁ.—The specimen exhibited is made of ivory.

KACHCHHAPÍ VÍNÁ.—The specimen exhibited once belonged to the household of the Rájás of Bishnupur in the district of Bankura, once very famous for the encouragement given by it to the practice of Hindu music. A present to the exhibitor from the late Keshab Chandra Bhattacharya, a renowned musician of Bishnupur.

KINNARI VÍNÁ.—The hollow of this instrument is, in some specimens, made of eggs, and in others of precious metals. In construction, tuning, &c. resembles the *kachchhapi vinda*, though smaller in size. This instrument was in former times used by women, and is said to be the offspring of the *kinor* of the Jews.

MAHATI VÍNÁ.—This is the most classical, and perhaps the most difficult of the musical instruments of the Hindus. Its invention is ascribed to the pious sage Nárada, who used it to accompany his hymns to the Deities. It consists of five main wires and two side wires, the latter being used for the purpose of giving an artistic accompaniment to the performance. The instrument is said to be the mother of several varieties of stringed instruments used in ancient and modern Europe. The instrument is called in India the "*bin*," a corruption of the term "*vinda*."

NADESVARA VÍNÁ.—A very modern instrument, being a combination of the *kachchhapi vinda* and the violin. The instrument is tuned as upon like the *kachchhapi*.

SAUKTIKA VÍNÁ.—A variety of the *kachchhapi Vinda*. The hollow of the instrument is made of mother-of-pearl.

SURBAHAB.—This is an enlarged variety of the *kachchhapi Vinda*, devised about 60 years ago by Ghulam Muhamamad Khán, a noted musician of Lucknow. The instrument is specially adapted for the playing of the *alapa*, i. e. the expression of a melody in all its phases. The specimen exhibited can be taken into three pieces and packed in a circular box. It was manufactured by Ram Chand Mistri, of Calcutta.

TRITANTRI VÍNÁ.—A variety of the *kachchhapi vinda*. The hollow of the instrument is flat, and in some specimens made of wood. That exhibited belonged to the late Babu Ashutosh Deb, Calcutta, a well known

musician. The instrument was subsequently presented to the exhibitor by the late Babu Sarat Chandra Ghosh, a member of the house of the former owner, and was made by Madhu Mistri, formerly a famous *setár*-maker of Calcutta.

TRITANTERI VÍNĀ.—The specimen exhibited was manufactured for the exhibitor in Brussels, under the direction of Chevalier Victor C. Mahillon, Superintendent of the Royal Conservatory of Music, Brussels.

(2) *Played upon with an Iron Jawa (plectrum).*

PRASARANI VÍNĀ.—This is a modern instrument, constructed on the principle of the *kachchhapi Vínā*, but without side wires and with a subsidiary finger-board. It is mounted with three wires, respectively tuned as the F, C, and G of the lower octave.

SURSEINGARA.—This instrument is a mixture of the *mahati*, *kachchhapi*, and *rudra vinas*, devised by the celebrated *vínā* player, Piyár Khán. The instrument is, like the *rudra vínā*, placed against the shoulder of the player. It is mounted with six wires, and to its narrow end is attached a hollow gourd to increase the volume of sound produced.

(3) *Played upon with a Wooden Jawa.*

(RUDRA VÍNĀ.—Now known as “*rabáb*” among Muhammadan musicians of Persia and Afghanistan, and “*rubáb*” among those of Arabia. It is mounted with six strings made of cat-gut, and is said to be the prototype of the mandoline, Spanish guitar, and other instruments of a similar construction. The instrument has no frets arranged over the finger board.

SE₁₀₀ CL—An instrument much used by musicians of the North-Western Provinces of India. It was formerly used in out-door royal processions. Like the *rudra vínā*, it is mounted with cat-gut strings, which are, however, tuned on a different principle. Unlike the *rudra vínā*, it is mounted with side wires, varying in number from seven to eleven.

Lett

(4) *Played upon with the Bow.*

CL A **SARANGI.**—A very old instrument, called by some European writers on Hindu music the “Indian violin.” The surface of the instrument is like that of the violin, and there is a hollow gourd under it. The instrument Map is known among Muhammadan musicians as *kamarcha*.

CL A **SARHANGI.**—So called on account of the figure of a fish (*mina*) attached to the end of the hollow. In all other respects it resembles the *esrar* or *on₁₀gús*. The back of this instrument ought to be made of one entire piece of gourd, but this being rare, a wooden back is frequently used.

CLASS **ANGA.**—This is a large stringed instrument, producing a deep bass sound, used in the native orchestra. A modern instrument, constructed on principle of the *esrar*, of which it is merely a large variety, without Carpet wo; side wires.

Dacc-This instrument is generally used to accompany dancing and light A piece of *es*, and is peculiarly adapted to the female voice. The *sarangi* is mounted D_{as} four cat-gut-strings and side wires of brass, the number of the latter S₁ varying at the will of the player. Rávana, the monster-king of Lanká (Ceylon), is said to have been the originator of instruments of this description.

T **SURSONG.**—The instrument is merely the *esrar* without the side wires. It is a modern invention, said to have been made by Sebarám Dás, of Bishnupur, in the district of Bankura, Bengal.

SWARAVINA.—Popularly called the “*surbín*.” The instrument is classical, and somewhat resembles the *rudra vínā* in appearance. The *surbín* is mounted with four strings, and is capable of producing three octaves of sound.

TAYÚS OR MAYÚRI.—The instrument derives its name from the figure of a *mayura* (peacock—*Persian*, *tayús*) which is attached to the hollow. The addition of the figure constitutes its sole difference from the *esrar*.

(5) *Played upon with the Tips of the Fingers.*

MAHA TUMBURA.—A large variety of the *tumbura* (*vide* 25). Generally used in native orchestras. The specimen exhibited is the work of Ram Chand Mistri, of Calcutta.

MOCHANGA.—A very classical instrument, somewhat resembling the head of a trident. The instrument has to be held with the teeth, by the left hand, while the wire is gently tapped with the fore finger of the right. Only one note is produced, the pitch of which can be regulated by the use of wax, or of a paste of flour over the wire.

TUMBURA OR TUMBURA VINA.—So called after the celestial musician Tumbura, who invented it. The instrument is at present mounted with four strings, which serve the purpose of an unvarying accompaniment to vocal music. The object of the *tumbura* is mainly to indicate the key-note adopted. The instrument has been in use in various countries, in the east and west, from ancient times, under different names, and with varieties of construction and modes of tuning.

FLUTE—(*bansi*), made of bamboo, presented by Mr. Burnell, of Udaliya, district Chittagong.

FLUTE—(*bansi*), made of bamboo, purchased by the Local Committee, Chittagong, price 4 annas.

FLUTE—(*murali*), made of bamboo, purchased by the Local Committee, Chittagong, price 2 annas.

FLUTE—(*pinak*), made of bamboo and played with the nose, purchased by the Local Committee, Chittagong, price 2 annas.

JHANJARI—made of reed and played with the hands, purchased by the Local Committee, Chittagong, price 8 annas.

KHANJANI—made of wood and skin and played with the hands, purchased by the Local Committee, Chittagong, price 4 annas.

Two thighbone trumpets (*kanti*), mounted in brass, made in Bhután. Sent on loan from the Padong Monastery, near Kalimpong, through the Deputy Commissioner of Darjiling.

One pair of cymbals (*rams*), on brass mounted case, made in Bhután, sent on loan by Tenduk Pálgar, of the Bhutia Basti, Darjiling, through ditto.

One pair of silver mounted trumpets (*gyaling*), made in Bhután, and used in Buddhist worship. Sent for sale by Nim Sring Munshi, of Kalimpong. Price Rs. 200.

One pair of copper trumpets (*radu*), made in Bhután. Sent for sale from the Kyansa Monastery, near Kalimpong. Price Rs. 60.

Drum (*dumru*), made of two skulls, made in Thibet, purchased by the Deputy Commissioner of Darjiling for Rs. 5.

Bell (*tipu*), made in Thibet. Ditto for Rs. 5.

Cymbal (*tingsa*), made in Thibet and struck with a horn. Ditto Rs. 5.

Bell (*tipu*), made in Bhután. Sent on loan from the Padong Monastery, near Kalimpong, Darjiling district.

Ditto, smaller, made in Bhután. Sent by Chusan Gempu, of Padong Kalimpong, Darjiling district.

One set of horse-bells (*yarga*), 16 in number, made in Thibet. Sent for sale by Tenduk Pálgar, of Bhutia Basti, Darjiling. Price Rs. 5.

Steel wire for guitar (1) for the *setár* and (2) for the *támburá*; sent for sale by the Mahárájá of Keonjhar (Cuttack), price Rs. 4-2 and 1-2. These wires enjoy a high reputation throughout India.

CLASS XV.—SCIENTIFIC INSTRUMENTS.

- 1 Astronomical Instrument (*alad najúmi*), more than 200 years old; the pattern said to have been brought from Central India. Lent by Maulvi Fazli Rahman of Patna.

SECTION C.—HEALTH.

CLASS XX.—HOSPITAL APPLIANCES.

Ivory stethoscope. Sent by Babu Nand Kishor Dás, of Cuttack. For sale. Price Rs. 8-2.

Set of four surgical instruments made by Etwari Mistri, of Chapra, and exhibited for sale by the Civil Surgeon of Saran. Price Re. 1-8 each.

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE USE OR DECORATION OF DWELLING-HOUSES.

CLASS XXIII.—FURNITURE AND UPHOLSTERY.

A toilet table slab, with scroll work back and sides for two basins, made of stone obtained from the quarries in the Kajra hill, in the Monghyr district, under the management of Messrs. Ambler & Co. For sale, price Rs. 18.

A circular teapoy of stone, top-beaded, exhibited by ditto, price Rs. 3-8.

A balcony of stone, flowered and pierced, exhibited by ditto, price Rs. 12.

One octagonal and one elliptical stone chair. Purchased by the Local Committee of Shahabad, at Re. 1 each.

CLASS XXIV.—GLASSWARE OF ALL KINDS.

No glassware of any importance is made in Bengal outside Patna. The manufacture of glassware in Patna has been carried on for many years. Of late it has received an impetus from the large demand for table ornaments and other articles. The following specimens of Patna glass manufacture have been received:—

Paper-weight (*chapa*), an imitation of English glass sent on loan by Munshi Muhammad Amir of Patna through the Local Committee.

Glass draftsmen (*chauser*), sent by ditto.

Chessmen, sent on loan by Rái Káshi Prashád, of Patna.

Icepail (*barafdan*), sent for sale by Munshi Muhammad Amir, of Patna, price Rs. 17.

Water-goblet (*súrahí*), sent by ditto, price Rs. 12.

Looking-glass, price 1½ annas.

The Local Committee have also sent the following articles for sale:—

Manufactured by the firm of Husain Bukhsh.

			Rs. A. P.	Rs. A. P.

CLASS XXV.—STONE UTENSILS, POTTERY, PORCELAIN, AND EARTHENWARE.

(a)—Stone utensils.

Three platters (*thālī*) and 6 saucers or plates (*tastaris*) of stone, made from the quarries in the Jamālpur hill by the local stone-cutters. Purchased by the Collector of Monghyr and sent through the Monghyr Branch Committee.

Surāhi and a jar with cover, sent on loan by Rājā Rām Bahādur.

Cup, with cover and tray, sent on loan by the Gya Public Library.

Leaves of stone, ditto ditto ditto.

Jar with cover, ditto ditto ditto.

Cups, sent on loan by the Gya Public Library.

Tray in variegated stone, ditto ditto.

Hulcks, ditto by Babu Kanhya Lal Dheuri, Gyawāl.

Stone pot and a Sasseram stone pestle and mortar. Presented by Babu Rāj-rājeswari Prasad, of Surajpur, Shahabad.

Ditto, presented by Mr. C. B. Caspersz, Subdivisional Officer of Sasseram.

Two stones for rubbing sandal wood. Presented by the Rájá of Dhenkanal (Cuttack).

Two stone cups, ditto.

(b)—Pottery.

Two goblets (*suráhi*)—Made at Harispur, in the district of Tippera, and purchased by the Local Committee of that district. Price 4 annas.

Two cups (*bati*)—Purchased by the Local Committee of the Tippera district. Price 2 annas.

Three *kalkis*—Purchased by the Local Committee of the Tippera district. Price 2 annas.

A collection of 55 specimens of Sewan pottery. This pottery is an imitation of that made at Azimgarh, in the N.-W. Provinces, and has been much improved of late years by careful supervision. The specimens exhibited are made by Badri Kumhar, the most skilful potter of the district, and were purchased for exhibition by the Branch Committee of the Saran district. Prices varying from 6 pie to Rs. 4.

Tea-pot (*chahdáni*) and butter-pot (*makhaddni*).—Manufactured by Bándh Kumhár, of Sitamarhi, and purchased by the Branch Committee of that place. Price 4 annas each.

Collection of Murshidabad pottery (10 pieces), purchased by the Local Committee of that district. Prices varying from 3 pies to 1 anna.

A collection of earthenware purchased for Re. 1 by the Local Committee of Chittagong, consisting of three large earthen plates (*shanaks*), two small earthen pots (*talans*), two large earthen pots (*gajis*), and one large earthen pot (*taila*).

Earthenware pipe bowls (*chhilam*). Sent by the Patna Committee. Price $3\frac{1}{2}$ annas.

A collection of earthenware, purchased by the Local Committee of Muzaffarpur, consisting of 1 sugar-bowl, 1 flower-pot, 1 spittoon, 1 *bakhnae*, 1 *abkhora*, 2 *surahis*, 1 *kukka*, 1 *chhilam*, and 1 *gilas*. Prices varying from $\frac{1}{2}$ anna to 8 annas.

A collection of earthenware, consisting of an oil-pot, a dish, a cup, two betel-pots, six small cups, and four smoking-bowls. Purchased by Babu Uma Charan Ganguli, Subdivisional Officer of Satkhira, Khulna district, for Rs. 2-1.

(c) Lacqueredware.

A collection of lacquered articles, made by Jadubindhu Mistri and Brajakánta Nuri, of Ilambázár, in the district of Birbhum, purchased from Indra Náráin Khandait, and sent by the Local Committee.

The following is the list of articles received, with prices at which they are sold at the place of manufacture:—

				Rs.	A.	P.
Lacquered articles (<i>gálar jinis</i>)	2	0	0
Glove-box (<i>dastánár báksha</i>)	0	12	0
Card-box (<i>taser báksha</i>)	0	5	0

Ladies' work-box (<i>suchsutár báksha</i>)	2	2	0
Envelope-box (<i>khámer báksha</i>)	2	12	0
Solitaire-board with balls (<i>takhtá</i> with <i>guli</i> or <i>bhántá</i>)	0	4	0
1 ring-stand (<i>angulidan</i>)	2	8	0
Elephant (wood and lac) (<i>háthi</i>)
Paper-weights (<i>kághaz-chapa</i>), viz., (a) frog, (b) fruit in plate (<i>beng</i> and <i>phal</i>), (c) 2 ditto of different kinds	1	0	0

					Rs.	A.	P.
Inkpot (<i>dawat</i>)	0	1	6
Two cups and saucers (<i>pirich-paydla</i>)	0	1	0
Paper-cutter (<i>kāghaz-kata</i>)	0	4	0
Six fruits of different sorts (<i>phal</i>)	0	6	0
1 flower-vase (<i>phuldāni</i>)	1	0	0
1 table (<i>mez</i>)	7	0	0
1 picture-frame (<i>chhabir pharma</i>)	1	11	0
Two goblet-covers (<i>gelaser dhakna</i>)	0	6	0

(See also Section XXXV, Toys).

CLASS XXVI.—METALWARE, HARDWARE, AND CUTLERY.

(a)—Brass Manufactures.

A large collection of brassware in ordinary use in Bengal. Sent by Babu Tarak Nath Parāmanik, of Calcutta.

Cup consisting of nine cups (*ganja khora*), made by Lal Mahmud, of Chilmari. Thirteen articles, made of *bedha*, a mixed metal consisting of zinc (*rang*) and copper (*tamba*), in the proportions of 100 to 27 (*sao sathais*) or 100 to 25 (*sawai*), made by Moti Kansari of Sewan. These exhibits were purchased by the Chapra Branch Committee for prices varying from 10½ annas to Re. 1.

Spittoon (*pikdān*), ditto, ditto. Local price Rs. 20, selling price Rs. 35.

Collection of 16 bell-metal articles, manufactured by artisans of Murshidabad City, purchased by the Local Committee of that district. Prices varying, according to the weight of the article, from pies 3 to Rs. 13.

A collection of brass and bell-metal manufactures, consisting of a glass, a cup, two dishes, and a *pauhi*, purchased by the Local Committee of Rajshahi. Price Re. 2-7, Re. 1-9, Re. 0-13, Re. 0-9, Re. 1-2, respectively.

Aftaba and *chilamchi*, purchased by the Local Committee of Dacca at Rs. 15-12.

A tea-urn of brass, sent by the Local Committee of Patna. Several artisans at Patna are engaged in the manufacture of similar urns, for which there is a constant demand among the better classes of Hindus and Muhammadans.

An ewer (*jhari*), or a pitcher with a long neck and a spout attached to it, used for keeping water. Lent by the Mahārāja of Darbhāngā. These articles are made by the braziers of Darbhāngā, Madhubani, Jhanjhapur, and Madhaipur, in Darbhāngā. Price Rs. 6.

Ditto, with a short neck and a spout (*hathar*), sent by ditto. Price Rs. 5-2.

Ditto (*subarna*), sent by ditto. Price Rs. 5-10.

Ditto (*madhari singhi*), sent by ditto. Price Rs. 2.

Ditto (*jhari*), purchased by the Local Committee of Darbhāngā. Price Rs. 3-9.

Ditto (*subarna*), ditto. Price Rs. 3-2.

Two betel-boxes (*panbata*), made of brass, ditto. Price 13 annas each.

The following articles, used as cooking utensils, and made of brass cast into moulds by the braziers of Kishanganj, have been sent by the maker through the Deputy Collector of the Kishanganj subdivision, Purnia district:—

Large ladles (*bara dabua*).

Ladles, moderate size (*chhota dabua*).

Ladle, small (*chhota dabua*).

Brass large ladle (*petal ka bara dabua*).

Brass spoon (*petal ka chamach*).

Two brass spoons and two brass ladles, purchased by the Local Committee of Purnia, at 8 annas and 12 annas each respectively.

Four *bilauri sarposh*, purchased by the Local Committee of Purnia. Price 12 annas, 10 annas, 8 annas, and 10 annas respectively.

- Plate of bell-metal, presented by the Rájá of Khandpára (Cuttack).
 Two ditto, presented by the Rájá of Daspallá (Cuttack).
 Four bell-metal cups, presented by the Rájá of Dhenkháhal (Cuttack).
 Water-pot of brass (*garu*), presented by the Rájá of Khandpára (Cuttack).
 Bell-metal plate (*thála*) and 1 water-pot (*lotá*), sent for sale by the Local Committee of Puri. Price Rs. 11-8 and Rs. 5-4.
 Two water-pots (*garu*), sent for sale by the Mahárája of Keonjhar. Price Rs. 5 and Rs. 4-13.
 Dish cover (*tastari-ki-jhapti*), made by ladies of the family of Babu Naik Singh, of Munjá. Purchased by the Local Committee of Muzaffarpur for Rs. 5-8.
 Inkstand with a brass inkpot. Purchased by the Local Committee of Shahabad for Rs. 5.
 Cup, purchased by the Local Committee of Nadiya from Tárak Nath Karmakár of Senhat for Rs. 4.
Hukka manufactured by Hira Lál Singh of Murshidabad and exhibited for sale by Fuzlu-i-Dali. Price Rs. 16.
 Liquor-horn pointed in brass (*dammo*), made in Bhután. Sent for sale by Tenduk Pálgar, of the Bhutia Basti, Darjiling. Price Rs. 20.
 Ditto ditto ditto smaller. Price Rs. 10.
 Cooking pan (*karáhi*), 7 well-bucket (*dol*), 6 drinking-vessels (*gelás*, *abkhora*, and *lotá*), 1 washing basin (*chilamchi*), 1 betel-nut knife (*sarota*). Lent by Messrs. Burrows, Thompson, and Mylne, of Bihia, Shahabad.
 Six bell-metal drinking tumblers (*power-gelás*), purchased by the Local Committee of Lohárdágá at Re. 1 each. These are made at Lobárdágá, and are named after the Deputy Commissioner, to whose order they were first made. The tumblers are getting into use among the natives of the district.
 A brass *sarposh* or cover for a *chhilam* for smoking. Presented by Babu Rájárájeswari Prasád, of Surajpura, Shahabad.
 Two ditto, purchased by the Local Committee of Shahabad at 8 annas each.

(b)—Iron and Other Manufactures.

- Dáo (*dáo*), made by the blacksmiths of Gupti, in the district of Tippera, and purchased by the Branch Committee of that district. Price Rs. 5 and Re. 1.
 Table-knife (*churi*), ditto ditto. Price 12 annas.
 Pen-knife (*kalmtarás*) ditto ditto. Price 6 annas.
 A *dáo*, manufactured by Meches living in the Western Duárs. Purchased by the Deputy Commissioner of Jalpáiguri for 8 annas. Used by the Meches for cutting trees, lopping branches, and clearing forests, as well as in digging earth for cultivation.
 A sacrificial knife (*khánrá*), a *kukri* with chased blade, and a plain *kukri* made in Nepal. Presented by Colonel Gajraj Thapa of Ilam, Nepal, through the Deputy Commissioner of Darjiling.
 Sikhim knife with silver mounted handle (*ban*), made in Sikhim. Purchased by the Deputy Commissioner of Darjiling at Rs. 15.
 Ditto, with silver mounted scabbard, No. 2, ditto, at Rs. 13.
 Ditto, brass mounted, No. 3, ditto, at Rs. 8.
 A collection of cutlery made by Tárak Nath Karmakár of Senhát, district Nadiya, and purchased by the Local Committee:—
Khánra (sacrificial knife). Price Rs. 7.
Katan (ditto). Price Rs. 7.
Dao (bill-hook). Price Rs. 2.
Janti (betel-nutcracker).

Pair of forks and 1 pair of spoons made of buffalo-horn by Muhammadans of Monghyr, purchased by the Collector, and sent through the Local Branch Committee.

Pocket-knife made by Prem Chand Mistri, of Kanchannagar, and sent for sale through the Burdwan Local Committee. Price Rs. 1.
The maker occasionally supplies the Government Stationery Office at Calcutta with knives and scissors. The industry is purely indigenous. He has also sent the following articles:—

					Rs. A.	Rs. A.
Pair of pen-knives (1 blade)	Price	0 9
Pen-knives (2 blades)	"	0 13 &	0 9
Ditto (3 blades)	"	1 2 &	0 13

(*thokri*), presented by Umes Chandra Ray of Nayapará, Chittagong.

(*pankha*), exhibited by Bagolá Charan Das, of Noapara, Chittagong.

Baskets, made by respectable ladies of the Saran district, and lent for exhibition by the Maharájá of Hatwa.

Pair of cages—(*pingra*), made of hollow bamboo by Manglu Mirshikar of Manwan, and said to be a speciality of that place. Purchased by the Local Committee of Saran for Rs. 2 each.

- Thirteen specimens of basketware, manufactured by a native lady. These baskets are made of a kind of grass known as *siki*, which turns white when dry, and is dyed various colours. Purchased by the Branch Committee of the Sitamarhi subdivision. Prices varying from 2 annas to Re. 1.
- A collection of basketware consisting of 3 sets of table-mats, work-boxes of different patterns and sizes, pieces of variegated matting (*chatai*), and 7 fans (*pankhá*), made of *siki* grass and fine bamboo chips by the semi-aboriginal Doms of the town of Monghyr. Purchased by the Collector of Monghyr and sent through the Local Branch Committee. Considerable ingenuity is displayed in the manufacture of these articles, for which the town of Monghyr has of late become known. The basketware of Monghyr was highly admired at the Melbourne Exhibition of 1881.
- One *petara* or *jhail*, price Rs. 3-8, and 1 *jhampi*, made of cane by Rájmoan Betuá. Purchased by the Local Committee of Pubna. Some of the best work in cane is done in the village of Májlipará, in the town of Pubna.
- Two octagonal baskets of small size (*athkhona thokri*) and a small *samua* of elastic wickerware. Purchased by the Local Committee of Chittagong for Rs. 2.
- Grass basket and flower basket (*siki bati phuldani*), made by Bráhma and Káyasth ladies and used for keeping flowers and articles of every-day use. Presented by some Tírhutíá Bráhma and Káyasth ladies of Darbhángá. Figures of elephants, horses, and other animals are also made of *siki* grass.
- Dagra* and *chalni*. Purchased by the Local Committee of Darbhanga. The *dagra* and *dagri* are used for cleaning grain and keeping articles used for food; the *chalni* is a flour sieve. Price 2 annas.
- Nine ornamental baskets (*chengári* and *petári*) made of *siki* grass by respectable Rájput and Bráhma ladies, used for keeping dolls' clothing, ornaments, and other articles. Purchased by the Local Committee of Hajipur. Prices vary from 2 annas to 12 annas.
- A collection of basketware, purchased by the Local Committee of Purnia, consisting of

	Rs. A. P.		
Baskets (<i>petára</i>)	Rs. 0	2	0 to 0 8 0
Betel-box (<i>báttá</i>)	0 1 0
Straw-made articles (<i>bara dáli</i>)	0 8 0
Flower-pot (<i>sáji</i>)	0 6 0
Lamp-stand (<i>chirághdan</i>)	0 6 0
Straw-made box, large (<i>barká petara</i>)	0 5 0
Ditto small (<i>chhota do.</i>)	0 5 6
Straw-made box, small size (<i>chhota petara</i>)	0 5 6
Small baskets (<i>chhotá dáli</i>)	0 2 9
Straw water-pots (<i>lota</i>)	0 6 0
Straw baskets (<i>dáli</i>)	0 6 0
Dishes, straw-made (<i>dannis</i>)	0 1 0
Small dishes (do.)	0 0 6

The colored straw-made articles are generally fancy goods, as they are scarcely strong enough for every-day use. In Purnia they are made in the Arraria subdivision, and are the only articles of female workmanship.

Three *kains* baskets and 2 *kains* fans. Presented by Babu Ganes Prasád Sing, the Cuttack Local Committee, and the Baramba State.

Three grass baskets. Sent for sale by Babu Nand Káshor Das, of Cuttack. Price 11 annas, Re. 1-8, and Re. 1-8.

Two grass baskets. Purchased by the Local Committee of Cuttack at 9 annas each.

A fancy bamboo cage. Sent on loan by the Gya Public Library.

Three palm-leaf fans. Presented by the Baramba State (Cuttack) and 1 by the Raja of Dhenkanal (Cuttack.)

Palm-leaf basket. Presented by Babu Hari Mohan Sen, Deputy Magistrate of Diamond Harbour district, 24-Parganas.

Palm-leaf tape, presented by ditto.

CLASS XXXI.—DECORATIVE WORK, INCLUDING CARVING AND ARTWARE.

A collection of Monghyr wood-carving, consisting of 1 ebony cabinet, 1 writing-box, 1 pen-tray with inkstand and envelope-case, 1 work-box, 2 rulers, 1 watch-case, and 1 cribbage-board with pegs. Made by Biru Mistri and Pedru Mistri of Monghyr. Purchased by the Collector of that district and sent through the Local Branch Committee. Monghyr wood-carving has acquired the same reputation in the present time as Monghyr cutlery formerly possessed. The wood chiefly used for the manufacture is the ebony obtained from the *Diospyros embryopteris* (Kend) found in the hills, and the palmyra (*Borassus flabelliformis*—Vernacular, *tar*), which is extensively planted on the sides of tanks.

A collection of Monghyr wood-carving, consisting of 1 ebony cabinet, 1 small ebony box, and 2 snake pipes. Presented by Ali Khán, Khán Bahadur of Husainabad, district Monghyr.

Basket of sandal-wood (*dali*). Sent on loan by Maharájá Rádhá Prasád Singh of Dumraon, Shahabad.

CLASS XXXII.—CARPETS, HANGINGS, TAPESTRY, FURNITURE STUFFS, *MATTING, PAPER-HANGINGS.

A carpet (*kámdár satranji*). This and the three following specimens of carpeting are manufactured by Tepra Nasya of Kelnaband, in the district of Rangpur, from cotton produced in the district, the thread being generally spun by the women of the weavers' families. The blue and yellow threads are dyed by the weavers with country indigo and yellow arsenic. The green and light blue threads are coloured by a mixture of indigo and extracts of certain plants. The red threads are imported. Exhibited by Babu G. E. Ray of Tezhát, in the Rangpur district.

A carpet (*philpia satranji*.)

A carpet (*bhatpania satranji*.)

A carpet (*nil sufáid*.)

Two pillows embroidered with glass beads. Manufactured by the wife of Babu Biseswar Sahai, and lent for exhibition by Chaudhuri Rudra Prasad Rai Bahádur of Muzaffarpur.

A canopy, 2 screens, 2 plate-covers, and 2 *palki*-covers embroidered by Chamru Shaikh of Murshidabad, and lent for exhibition by Maharani Sarnamayi, C.I.E., of Kasim Bazar, in that district.

Flowers made of paper cuttings. Made by Srimati Akhoy Kumári Dási and Manoram Gupta of Raipura, Dacca.

Embroidered hangings. Made by Syma Sundari Pál. Presented by Srináth Ráy of Bhagokul, Dacca.

Six pieces of matting (4 sitalpáti side-pillows and 2 ear-pillows, *kanbalis*). Presented by ditto.

Three pieces of grass matting. Sent for sale by the Local Committee of Puri, price Rs. 2-8, Re. 1-6, Re. 1-2.

Stamped floor-cloth—(*jazim*). This floor-cloth is stamped by Maula of Sewan. The cloth is first steeped in water impregnated with *kara* (*Terminalia chebula*) and then stamped with the required pattern in ink. The dye is *geru* (a kind of red ochre), gum and *al*-wood (*Morinda citrifolia*). Purchased by the Branch Committee of the Saran district for Re. 1.

- A mat (*madūr*) manufactured by Shaikh Karim of Nayagaon, in the district of Rajshahi, and exhibited by the Local Committee of that district. Price Re. 1-11.
- A mat (*madur*) manufactured by Bhujia Bairagi, of Bhaisha, in the district of Dinajpur. These mats are made from a plant called *mutka* to supply the local demand, and are used by natives of all classes. Exhibited by the Branch Committee of the Rajshahi district. Price Rs. 2-8.
- Woollen rug (*rumden*). Made in Thibet. Sent for sale by Nem Sring Munshi, of Kalimpong, Darjiling district. Price Rs. 30.
- Two saddle-cloths (*rum*). The larger one used under, and the smaller one upon the saddle. Sent for sale by Tenduk Palger, of the Bhutiā Basti, Darjiling. Price Rs. 125 each.
- Bamboo matting (*chatāi*). Purchased by the Local Committee of Chittagong at Re. 1.
- Carpet sent on loan by Muhammad Abdu-s-Sālih of Kura, through the Local Committee of Gya.
- Dari*, sent by ditto. This article has been used as a bed for the last 20 years, and is sent to show the durability of a good *dari*.
- Carpet from Bhabhua. Presented by Babu Rājrajewari Prasād, of Surajpura, Shahabad.
- Dari* from ditto. Presented by ditto.
- Dari* from ditto. Presented by Babu Atul Behāri Maitra, Subdivisional Officer of Bhabhua.
- Two woollen carpets. Purchased by the Collector of Shahabad at Rs. 2 each.
- Moth* matting. Purchased by the Local Committee of Darbhāngā.
- Three cotton carpets (*satranjis*). Purchased by the Local Committee of Hājipur at Re. 1-2 each.
- Cotton carpet. Purchased by the Sitamarhi Local Committee at Rs. 12-5.
- A cotton carpet (*dari*) sent on loan by Mirza Muhammad Hussain of Purnia.
- Three pieces of bamboo mat. Purchased by the Local Committee of Cuttack, at 6 annas.
- Pillow (*balish*), used by the hill men of Chittagong. Presented by Mr. Burnell, of Udaliya.
- White pillow (*sada takiya*). Made by the ladies of the family of Diwan Raghubans Sahai, of Jaintpur. Price Rs. 2-8.
- Silk pillows (*reshmi takiya*). Made by the ladies of the family of Sheo Saran Sing of Kolna. Price Rs. 4-8 and Re. 1-12.
- The following rugs (*tumshi*), made in Thibet by the women of that country, have been purchased by the Deputy Commissioner of Darjiling at the prices named, which are those prevailing in Thibet:—

A collection of cotton fabrics, consisting of a piece of cloth, three single and five pairs of handkerchiefs. Presented by Babu Grish Chandra Pal of Santipur, and sent through the Local Committee of Nadiya. Santipur was the seat of muslin manufacture under the East Indian Company; it has still a great reputation for its *dhutis* and *sāris*, colored or uncolored, with cotton or silk borders. Some of these are embroidered in the Dacca flower pattern. The blue cloth called Nilambari is greatly admired.

Dhuti purchased from Kisori Lal Kirtana of Santipur by the Local Committee, Nadiya, at Rs. 15.

Four handkerchiefs, ditto, at Rs. 12.

Sari, purchased from Niharamani Dasi of Santipur, at Rs. 11-12.

A collection of cotton cloths, purchased by the Local Committee of Pabna. Cotton cloths are manufactured in almost all parts of the Pabna district; but the village of Dogachi, near the town of Pabna, where the Hindu weavers have followed the industry hereditarily, has earned a wide reputation for turning out the finest cotton and silk fabrics in the district. The trade, although not thriving as of old, is still prospering, owing to superiority of the cloths produced as compared with English cloths.

The collection consists of:—

One pair (<i>ananda lahori</i>)	Rs. 5 8 0	made by Pitambar Paramanik.
Ditto (<i>patpati sari</i>)	„ 6 8 0	„ Sarbananda Paramanik.

 Country cloth (*motia than*). Presented by Mr. Harding, Subdivisional Officer of Tejpur, Darbhánga.
 Two *kokti* cloths. Sent on loan by the Maharájá of Darbhánga. This cloth is made in the Jaráil and Háti parganas of Darbhánga by common weavers working their ordinary looms, out of thread made from brown *kokti* cotton produced in the locality and resembling Nankin cotton. The Tirhutia Brahman women excel in making thread of the finest description from this cotton. There are different varieties of the cloth, the coarsest *thans* selling at prices from Rs. 5 to Rs. 6 each. The size of the *than* is generally from 32 to 40 cubits, by $2\frac{1}{2}$ to $2\frac{3}{4}$ cubits. These *kokti* thans are extensively used by the Tirhutia Brahmans in the shape of *dhutis*, *saris*, winter *chadders*, and coats. Imported piece-goods have greatly injured the manufacture, which until lately was highly valued in Tirhut and the adjoining countries. The cost of the *than* No. 20135 is Rs. 17, and that of No. 20134, Rs. 15.
- Handkerchief (*rumál*). Presented by Babu Rám Tahal Panjiar, Vice-Chairman of the Rosera Municipality, Darbhánga.
 Dusters (*jháran*). Purchased by the Local Committee of Purnia. Price Re. 1-8.

Stick of betel wood. Made by Sukha Mistri, and exhibited on loan by the Mahārāja of Hatwa in the district of Saran.

A walking-stick (*chhari*). Sent on loan by Nawab Wilayat Ali Khan, C.I.E., of Patna. This is a specimen of neat workmanship. Made by the owner's workman; it is the custom for wealthy men to keep in their employ artisans for the manufacture of curiosities and knick-knacks.

Three sticks, 1 of ivory, 1 of deer and buffalo-horn with an ivory knob at the top, and 1 of buffalo-horn. Sent for sale by Babu Nand Kishor Dás of Cuttack. Price Rs. 6, 8-4, and 6-4, respectively.

Three sets of four ivory studs. Sent for sale by Babu Nand Kishor Dás of Cuttack. Price Re. 1 each set.

Two ditto of horn, four in number. Sent by ditto. Price 8 annas per set.

Sleeve-buttons of ivory, six in number. Sent by ditto. Price 8 annas.

Two sets of ditto of horn. Sent by ditto. Price 4 annas each set.

Snuff-box (*nasdani*). Sent by ditto. Price Re. 1.

Four snuff-boxes (*nasdani*). Sent for sale by Babu Nand Kishor Dás of Cuttack. Price Rs. 12 each.

One ditto. Sent by ditto. With the ten incarnations of Vishnu carved upon the rind of a bael fruit. Price Rs. 10.

Paajama strings (*izarband*). Sent for sale by the Patna Committee. Price, Rs. 4-8.

Leather bag. Made of leather tanned in the country at Jadabpur, 24-Parganas. Purchased by the Local Committee. Price Rs. 2.

Bag (*tora*). Made by the ladies of Diwan Raghubans Sahai's family. Used for keeping articles for worship. Price, Rs. 2-4.

Bag (*tilak batua*). Made by the ladies of the family of Babu Rambhajan Sing of Munari. Used for keeping earth for marking the forehead. Price Re. 1.

Lime-pot (*chunauthi*). Price 3 annas.

Brush (*ghaphani*). Price 5 annas.

SECTION F.—RAW PRODUCTS AND MANUFACTURES FROM PRODUCTS NOT INCLUDED IN OTHER SECTIONS.

CLASS LVIII.—HIDES, HORNS, HAIRS, BRISTLES, &C.

- One piece of rope; made of yak's hair (*putka*). Brought from Thibet. Purchased by the Deputy Commissioner of Darjiling. Price 8 annas.
 One pair bison-horn, 1 pair buffalo-horn, 1 pair elk-horn, and 1 pair deer-horn. Purchased by the Local Committee of Cuttack. Price Re. 1-12, Rs. 2-4, 14 annas, and 13 annas respectively.
 Boar's tusk. Presented by the Local Committee of Puri.

CLASS LIX.—LEATHER AND MANUFACTURES OF LEATHER.

- One Thibetan saddle, complete (*tega*). Made in Thibet. Sent for sale by Tenduk Palger of Bhutia Basti, Darjiling. Price Rs. 125.

CLASS LX.—COTTON, RAW, AND THREAD.

- Dacca twist, from which the celebrated Dacca muslins are made. Sent for sale by Messrs. Nitái Charan and Jagabandhu Basák of Nawábpur, Dacca. Price Rs. 10.
 Tape and string. Sent by the Local Committee of Patna. Price Rs. 2.
 Twine. Sent by ditto. Price Re. 1.
 Cotton ropes. Sent by ditto. Price Rs. 15.

CLASS LXI.—COTTON MANUFACTURES.

See Class XXXVIII.

CLASS LXV.—MANUFACTURES OF JUTE.

See Class XLI.

CLASS LXVII.—OTHER FABRICS AND MANUFACTURES THEREFROM.

- Yarn made of plantain fibre. Sent for sale by Nitái Charan and Jagabandhu Basák of Nawábpur, Dacca. Price Rs. 5.
Sabe rope. Made from *sabe* grass. Purchased by the Local Committee of Darbhángá. Price 2 annas.

See also Catalogue of Raw Products.

CLASS LXVIII.—PAPER.

- Jute paper (*pater kaghaz*). Made in the Rangpur district, and presented by Babu P. N. Ghosal of Mahiganj.
 Native paper; made at Munshiganj, Dacca, by Meghu Kágazi and others, sent by the makers, through the Local Committee.
 Four sorts of country paper presented by C. P. Casperz, Esq., Subdivisional Officer of Sassaram, Shahabad.
 Country paper, made at Berhampura and Kanhauli. Purchased by the Local Committee of Muzaffarpur. Price 2½ annas.

Bhutia paper, 130 sheets. Made in Bhután from the bark of a tree. It is lasting, and is said to be less liable to become worm-eaten than other descriptions of paper. Purchased by the Deputy Commissioner of Jalpaiguri for Rs. 2. Specimens of Daphne paper (*yigsha*)—Made in Thibet. Purchased by the Deputy Commissioner of Darjeeling at 8 annas.

CLASS LXIX.—IVORY, TORTOISE SHELL, SPONGE, AND SHELLS.

See Class A, Section VI, for Ivory manufactures, and Class E, Section LII, for Shell Manufactures.

CLASS LXXXI.—OTHER PRODUCTS AND MANUFACTURES NOT SPECIFIED.

Polishing leaf (*kharsan patra*). Presented by the Local Committee of Cuttack.

SECTION G.—MACHINERY AND IMPLEMENTS, MEANS OF TRANSPORT, APPLIANCES AND PROCESSES USED IN THE COMMON ARTS AND INDUSTRIES, INCLUDING MODELS AND DESIGNS.

CLASS LXXXVII.—ARTILLERY, ARMS, AMMUNITION; WAR MATERIAL.

Sword with siver-mounted scabbard (*khiring*)—made in Bhutan, sent on loan by Tamkota Mandal of Peydong, Kalimpong, Darjiling district.

Gold and siver worked dagger (*patu*)—mounted with torquoise, made in Bhutan. Sent for sale by Pedong Mandal of Peydong, Darjiling district. Price Rs. 220.

Brass dagger (*phurbu*)—made in Bhutan, used for laying ghosts. Sent for sale by Peydong Monastery, Darjiling district. Price Rs. 20.

Dagger (*patta*); gold and siver mounted, made in Bhutan, sent for sale by Nem Sring Munshi of Kalimpong, Darjiling district. Price Rs. 100.

Ditto (*khichung*), ditto ditto. Price Rs. 60.

Sword (*patang*), in silver scabbard, ditto, ditto. Price Rs. 100

Kukri with siver scabbard, made in Nepal. Sent for sale by Hari Dás Pradhán of Darjiling. Price Rs. 30.

Thibetan gun with powder flask (*menda* and *jachay*), made in Thibet. Sent for sale by Tenduk Palger of Darjiling. Price Rs. 35.

Bow with two arrows (*dhamuk* and *tir*), tipped with bambóo, and eight tipped with iron, with a bambóo quiver. Purchased by the Deputy Commissioner of Darjiling. Price Rs. 16.

Bhutia sword, made in Bhutan, ordinary quality. Purchased by the Deputy Commissioner of Jalpaiguri. Price Rs. 2-8.

One large and one small musket, one large and one small pistol, and one dagger. Sent on loan by the Maharájá of Deo.

Rifle-grooving tools and bullet-mould, made by Bachu Lohar. Sent on loan by Messrs. Burrows, Thomson, and Mylne, of Bihia, Shahabad.

A collection of arms, consisting of 1 rifle, 1 hand-musket, 4 swords, 2 cutlasses, 1 long knife, 1 *khanjar*, 1 pair of knives, 1 mace, 1 axe, and 1 *kowa-tári*. Sent on loan by Maharájá Rádha Prásad Sing, Bahádur, of Dumráon, Shahabad.

A collection of arms, sent on loan by Mahārājā Rajendrá Kisor Sing, Bahádur, of Bettia, Champaran district, consisting of—

Sword with ivory handle (*zulfikr nagadan*).
 Sword (*talwar, taloa*).
 Sword from Khorasan (*kirich, Khorasani*).
 Persian swords (ditto, *Ispahani*).
 Sword (*talwar*).
 Sword (*kirich, shikargar*).
 Ditto (*shoshun patta*).
 Ditto with gold on blade (ditto, *nushiidar*).
 Long sword (*saif*).
 Sword (*talwari niwazkhani*).
 Ditto (*nagdaun*).
 Ditto (*talwar, sirohi*).
 Ditto (*nagdaun*).
 Ditto (*shoshun patta*).
 Knife (*chhora*).
 Nepalese knives (*daḍbia*).
 Afghan ditto (*jhabia*).
 Bhutan ditto (*gupti*).
 Choppers (*tabba*).
 Dagger (*gupti jabar takia*).
 Afghan dagger (*kanja*).
 Knife (*chhuri*).
 A state sword (*kirich*).
 Slaughtering-knife (*kharag*).
 Dagger (*kattar*).
 Sword (*talwar*).
 Matchlocks (*banduk, lahori*).

Dagger (*chhora*), purchased by the Local Committee of Monghyr.

Match lock, 1 bill-hook (*kathuri pharsa*), arrows (biforked and flattened) and 1 dagger, presented by the Rájá of Dhenkánal through the Local Committee of Cuttack.

Two axes (*pharsa and tabla*), and 2 arrows, presented by the Rájá of Talcher, through ditto.

Ten arrows presented by the Baramba State, through ditto.

Arrows (*baktra or sanja*) with a coat and helmets, and a waist-belt in the form of a snake.

CLASS LXXXIX.—OCEAN, COAST, AND RIVER NAVIGATION.

Model of ship (*jahaz*), purchased by the Local Committee of Chittagong. Price Rs. 5.

Model of country dug-out boat (*dingi*), ditto. Price Rs. 2.

CLASS XC.—CARRIAGE AND VEHICLES, WHEEL-WRIGHTS' WORK.

Ekka, or ordinary two-wheeled vehicle, used in Behar and the North-Western Provinces, sent for sale by the Local Committee of Patna. Price Rs. 12.

Palanquin (*ghampan*), sent on loan by Mahārājā Radha Práshad Sing, Bahádur, of Dumraon, Shahabad.

CLASS XCI.—WORKSHOP MACHINES AND TOOLS.

A collection of implements used by goldsmiths of Behar, presented by Mahārājā Radha Práshad Sing, Bahádur, of Dumraon, Shahabad.

CLASS XCII.—BLACKSMITHS' WORK, LOCKS, SAFES, &c.

- Lock with duplicate keys (*tala*) manufactured by Kali Charan Kamar, of Sonamukhi, in the district of Bankura, and exhibited by him for sale. Price Rs. 20. Local price Rs. 15.
- Nepalese lock, manufactured by Sukka Mistri of Chapra, and lent for exhibition by the Mahārāja of Hatwa.
- Secret lock (*tala*), sent on loan by Moulvi Abdul Aziz, of Behar.
- Two padlocks, purchased by the Local Committee of Gya. Price Rs. 2.
- Locks with keys, purchased by the Local Committee of Muzaffarpur. Price Rs. 3.
- Lock (*tala*) made at Lowapur, purchased by the Local Committee of Hajipur. Price 4 annas.
- Bit (*kanta lagam*), sent for sale by the Rājā of Ranpur (Cuttack). Price Rs. 2-2.
- Padlock, sent for sale by Bidjadhur Ojha of Cuttack. Price Rs. 20-8.
- It consists of two parts, the lock and the bolt. The lock has a shutter worked by a secret spring over the key-hole, and a similar false shutter on the back. The distinguishing mark between the real and false shutter is that the former has two lines about its edge, which the latter has not. There is a ring attached to a rod, which reaches into the interior of the lock, and there are two side pins. On the reverse side the bolt has two grooves, one on either side. To open the lock, pull the ring tightly, so that about a quarter of an inch of the rod comes out. Turn the rod by means of the ring about 45 degrees to the right and leave it in an angular position,—in any other position it returns to its former place, then press simultaneously the right-hand pin and the false shutter to the left. The shutter over the key-hole opens. Turn the shutter 180 degrees, a key-hole with four cells opens. Press down the key-hole by means of the key, and turn it about 45 degrees. Take out the key, turn round the shutter to its former place, another key-hole appears, apply the key to the hole and screw it down as far as it can go. Then pull the bolt, it separates from the lock.
- Padlock (*kulap*) purchased by the Local Committee of Cuttack. Price Re. 1-2.
- To open the lock, hold it with the bolt downwards. The knobs marked A being pulled to the left, the face remote from the bolt opens, presenting an aperture to the view. Apply the key to the aperture and give it a horizontal motion; the lock opens.

CLASS XCIII.—CARPENTERS' WORK, JOINERY, &c.

- Wooden bracket, manufactured by Kangali Charan Dās of Kankina, in the district of Rangpur, and lent for exhibition by Babu M. R. Ray Chaudhari of Kankina.

CLASS XCVII.—TOBACCO AND IMPLEMENTS USED IN THE CONSUMPTION THEREOF.

- Hubble-bubbles (*hukka*), presented by Moulvi Fazl-ul Ali, Superintendent of the Chittagong Madrissa. The *hukka* consists of an inner vessel to hold water and an outer vessel for ornament. A short tube is fixed in a hole at the top of the vessel, and on it is placed the earthen *kalki* or receptacle for tobacco, which is lighted with a live coal. The smoke is drawn through a long tube (*nal*), fitted to another hole, and filled with water. Earthen *hukkas* are made in Phatikcheri, and are used by Musulmans.
- Ditto, ditto. These *hukkas* resemble those described above, differing slightly in workmanship. They are exhibited by the Local Committee of Chittagong, by which they were purchased. Price Re. 0-7-6, 0-6-6, and 0-6-6, respectively.

Hubble-bubbles (*hukka*), presented by Moulvi Fazl-ul Ali, Superintendent of the Chittagong Madrissa. The only peculiarity about this *hukka*, of which the price Re. 1-2, is that it is constructed for four persons to smoke at once.

Two smoking tubes (*nal-pakwam*), sent on loan by Babu Rup Lal Raghu Nath Das through the Local Committee of Dacca.

Wooden bowl for smoking (*nariyal*), a polished woodwork, sent on loan by Moulvi Taffazzul Husain Khan, of Behar.

Pipe, long (*satalik*), for smoking tobacco, made of iron-wire wrapped up in cloth, and embroidered with silk and lace work, purchased by ditto, at Rs. 8-8.

Ditto, short, purchased by ditto, at Re. 1-8.

Ditto of khas-khas (*Andropogon muricatum*), purchased by ditto, at Rs. 3.

Two hukka stems (*batta or gatta*), made of sisu wood (*Dalbergia sisu*). by Ramdhyam and Kanhya of Lalganj, who are noted for their manufacture. The stems are fixed on a cocoanut shell and used for smoking tobacco. There is a large demand for this article, chiefly among the lower classes, about 224,500 being sold within the district last year. Purchased by the Local Committee of Hajipur at 10 annas and 6 annas.

Hukka snake (*naicha*), presented by Babu Ganesh Prashad Sing, of Cuttack.

CLASS CVIII.—SPINNING, WEAVING, AND ROPE-MAKING.

Weaving apparatus (*tanterbans*), presented by Mr. Burnell, of Udaliya, in the Chittagong district.

CLASS CIX.—COTTON-PRINTING.

Six specimens of calico-printing, executed by Mángui Dás Chhipigar, the only printer at Hajipur. An engraved block is used. The colours are fast, red being that obtained from al (*Morinda citrifolia*) locally produced. The cloth is used for covering floors, and as wrapper by the poor in the cold weather. Purchased by the Local Committee of Hajipur at 6 and 8 annas.

(See also Class XXXVIII, *Cotton Fabrics*.)

CLASS CXXXII.—SPIRITS.

Spirit of ripe plantain (*kadali mad*), presented by the Baramba State (Cuttack).

SECTION K.—ETHNOLOGY, ARCHÆOLOGY, & NATURAL HISTORY

CLASS CXLIV.—ETHNOLOGICAL COLLECTION.

An ethnological collection, consisting of cloths, ornaments, musical instruments, arms, &c., of the Sántals, contributed by Rájá Rán Bahádúr Singh of Jámátará; zemindar of Pabia; zemindar of Jánjuri; S. S. Jones, Esq., B.C.S.; Babu Táresh Chandra Pánde; Babu Daríá Lál Ghátwál and the Deputy Commissioner of the Sántál Parganáas.

CLASS CXLVI.—WEAPONS AND IMPLEMENTS OF THE CHASE.

Bow (<i>kamta</i>) used for killing birds	} Purchased by the Local Committee of the Chitta- gong district.
Spear (<i>ballam</i>) for pigs	
Do. (<i>shar</i>) for kids	
Do. (<i>konck</i>) for fish	
Trident (<i>tenta</i>) for fish	

A pair of hog-spears (*barcha*) made by Parshan Mistri of Monghyr and purchased by the Local Branch Committee.

Dagger (*chhora*) ditto ditto.

Satnala used to catch birds and fieshes, sent on loan by Babu Rup Lal Raghu Nath Das through the Local Committee of Dacca.

Three hunting-knives; 1 sent by Aperti Chaudhri and 2 by Babu Nand Kishor Das of Cuttack. Price Rs. 8-4 each.

CLASS CXLVII.—IMPLEMENTS CONNECTED WITH FISHERY.

Net (*jal*) made by Tufan Manji of Latifpur, in the district of Rangpur, and presented by Babu C. N. Ghosal, of Kanungotola. The net is made of *rangkura* or rhea fibre, and costs 8 annas.

Do. (*oki jal*) purchased for 6 rupees by Local Committee of the Chittagong district.

Fishing-trap. (*chai*) made of bamboo wicker and used for shallow water, presented by Mr. Burnell, of Udaliya, in the district of Chittagong.

Fishing-trap (*polo*) used in shallow water, the hand being thrust through the neck and the fishes caught. Purchased by the Local Committee of the Chittagong district for 12 annas.

Ditto *beng chai* } These are used in shallow running water; the fishes enter at & *beng-khan* } the slits and cannot escape. The *beng chai* being open at both ends catches fish going up as well as down stream. These nets were purchased for 12 annas each by the Local Committee of the Chittagong district.

Harpoon, manufactured by Ghura Mistri of Chapra, used for catching fish and tortoises, exhibited on loan by Babu Indra Kumar Singh, of Chapra.

A collection of fishing-lines made by Ráhá Mistri of Tapagram, sent by Lalá Ban Behári Kupia of Bardwan, through the Local Committee:—

Cotton fishing-lines, 800 cubits long, with hooks. Local price Rs. 8, for sale at Rs. 8-8.

Four	ditto	400	ditto.	Local price	Rs. 16,	for sale at	Rs. 18.
Four	tasar lines,	75	cubits each	Ditto	1-4	ditto	1-8.
Four	ditto	150	ditto	Ditto	3	ditto	3-4.
Four	ditto	70	ditto	Ditto	2-12	ditto	3.
Four	ditto	175	ditto	Ditto	3-12	ditto	4.
Four	ditto	175	ditto	Ditto	4-8	ditto	4-12.
Four	ditto	150	ditto	Ditto	5	ditto	5-4.
Four	ditto	200	ditto	Ditto	6	ditto	6-4.
Four	ditto	200	ditto	Ditto	12	ditto	12-8.
Four	ditto	275	ditto	Ditto	21	ditto	22-8.

A net for catching fish, made of rhea fibre by Rana Manji of Pakárpur, near Jalpaiguri, purchased by the Deputy Commissioner of Julpaiguri at Rs. 12. The strength of the net is said to be increased by wetting it for a couple of hours and drying it once.

Model of *bihudi jal*, purchased by the Local Committee of Chittagong at Rs. 8. This net is used in tidal canals and small rivers. The ends are fastened to the shore with bamboos and ropes; the mouth is kept open by the two side bamboos made to stand erect. Fishes run into the long chamber, to the opposite side of which is affixed another circular net, into which *buka* and other fish-eating fishes are attracted by the fishes caught in the *bihudi*.
Dham jal, ditto at Rs. 2-8. The four corners of the net are attached to the thin ends of the four bamboos. The thick ends of these bamboos are fitted into the hollows of the two short bamboos tied crosswise with the handle or lever of the net. This net is drawn up by pulling the string attached to the furthest end of the lever with the load of fishes.

Four nets for fishing, purchased by the Local Committee of Mozaffarpur. Price Rs. 6-8 (2 are Rs. 3-8).

Fishing-rod and a bow, sent on loan by Mirza Muhammad Husain, of Purneah. These articles are made of selected bamboos when ripe. The selected bamboo is first taken from the bamboo clumps where it grows, and shape it by putting it in fire. When brought into proper shape, common oil is poured through it, and it is exposed to night dews, which give the article a reddish colour and make it strong.

CLASS CXLIX.—OTHER NATURAL HISTORY SPECIMENS.

A four-horned scalp of a wild animal found in the Tarái near the Chalsa Hill.

It is unquestionably the head of a herbivorous quadruped, and is supposed to be the head of a species of wild goat or of wild sheep, or of a kind of deer, sent on loan by Babu Gobind Prashad Sukul, Deputy Magistrate, through the Deputy Commissioner of Julpaiguri.

Leaf insect from the Monghyr Museum, sent on loan by the Collector of that district.

BOMBAY ARTWARE COURT.

SECTION A.—FINE ARTS.

CLASS I.—PAINTINGS AND DRAWINGS.

SIX LARGE PICTURES.—Copies of wall paintings from cave 17, Ajanta, Khandesh. The copies are made by a staff of trained students of the School of Art, who reside at the caves. The copies as they are completed are sent to the India Museum, London.

CLASS V.—PHOTOGRAPHS.

PHOTOGRAPHIC ALBUM OF NAVÁNAGAR.—Lent by H. H. Jám Shri Vibhájí Sáheb, K.C.S.I., Chief of Jámnagar.

CLASS VI.—WORKS OF ART NOT SPECIFIED.

FOUR PLASTER OF PARIS BUSTS.—Two are of the late and the present Diwáns (Ministers) of Bhávnagar, Azam Gaurishankar Udayshankar, C.S.I., and Azam Sámaldás Parmánandás. The other two are of two British officers (Civilians) of the Bombay Presidency, the Hon'ble Mr. Peile and Mr. Percival. The former was the Political Agent of Káthiáwár, and the latter the Joint-Administrator of the Bhávnagar State during the minority of His Highness the present Mahárájah Sáheb. Lent by His Highness the Mahárájá of Bhávnagar. Modelled by Vállá Hira.

THREE LIFE-SIZE FIGURES OF GUJRÁTHIS MADE IN WOOD.—Maker, Lállá Mansuk. Lent by H. H. the Gackwar of Baroda.

GANPATI.—Plaster of Paris and painted. Lent by Pránshankar Keshavráam, Baroda.

PLASTER OF PARIS MODEL OF DATTÁTRAYA.—Lent by the Baroda Committee.

POONA FIGURES.—These are so well known as to need no description. Those exhibited are distinguished for their truthful modelling and life-like representation of the people of the country. They differ from Lucknow figures, where the dresses are modelled and painted, in that the dresses are made up of actual pieces of cloth.

Bápuji Supekar Jingar and Kálurám Gavandi were the first to open shops in Poona, about forty years ago, for the sale of these figures, and they were succeeded by Tátá Vevhári, Sitáram Joshi, Dáji Náráyan, Sakharám Shet Sonár, Raghopant, and Mároti Gurav.

The figures are made up of clay, which is bought at 2 annas a head-load from the local Mahárs, with an admixture of chalk, which costs about 3 annas a *shér* of 80 *toldas*; shreds of country-made paper obtained for 2 to 3 annas a *shér*; ginned cotton at 5 to 6 annas a *shér*. The pigments used are orpiment (*hartál*), bought at 5 to 6 annas a *shér*; red ochre (*songeru*), at 1 to 1½ annas a *shér*; crude iodide of mercury imported from Europe (*hingul*), at 2 annas for a small packet; verdigris (*jangál*), purchased for its own weight in copper coin; and white lead. The *gomutra-pevdi*, or the bile of the cow, used as a yellow pigment, is bought locally for its own weight in copper coin, and the blue (*níl*), an English pigment resembling indigo, at the same rate, carmine, which is bought for its own weight in silver, and white lead. The mordants used in mixing the pigments are glue (*siras*) and isinglass. The cloth for the

dressess of the figures is obtained locally. The annual outturn is valued by the Poona Municipality at about Rs. 10,000, and the average monthly income of a clay figure-maker is said to range from Rs. 20 to Rs. 25.

The following are the samples purchased for the exhibition, at a cost of Rs. 63-8, the maker's name being Sakhárám Náráyan Sonár.—[27661.]

TWO MOLIVÁLAS.—Faggot-bearers.

TWO GOSÁVIS.—Ascetics.

BHISTL.—Water-bearer.

GAVLI.—Milkman.

TWO BHANDÁRIS.—Toddy-drawers.

CHÁMBHÁR.—Cobbler.

CHÁMBHÁRIN.—The wife of a cobbler.

BHIKÁRI.—Beggars.

VAIDU.—The Indian mountebank, who professes to cure every disease and to possess every Indian drug.

A GROUP OF BEGGARS.—Showing how they go from door to door singing songs and begging alms.

GÁBODI.—Juggler.

KHÁTIK.—Butcher.

SONÁR.—Goldsmith.

BHÁJIVÁLI.—Dealer in fresh vegetables.

CALICO-PRINTER.—

SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS.

CLASS IX.—SPECIMEN OF WORK DONE BY PUPILS IN SCHOOLS.

A complete collection of the works of the students in the Sir Jamsetji Jijibhai School of Art, Bombay, showing the course of instruction.

CLASS XIV.—MUSICAL INSTRUMENTS.

SUNDARI.—A stringed musical instrument resembling a lyre. Maker, Chhota Náráyan. Price Rs. 25. Lent by H. H. the Jám Sáheb of Jám Nagar (Navánagar), Káthiáwár.

SITÁR.—A stringed instrument. Maker, Chhota Náráyan. Price Rs. 15. Lent by H. H. the Jám Sáheb of Navánagar, Káthiáwár.

BIN.—A stringed instrument, much esteemed by the natives, designed by Babu Kisori Mohan Bose. Maker, Karsan. Price Rs. 500. Lent by H. H. the Jám Sáheb of Jám Nagar.

MUSICAL INSTRUMENT.—Used by the aborigines of Gujráth. Lent by H. H. the Maharájá of Baroda.

TABLA AND BAHYA.—Two drums. Maker, Murár Jetha. Exhibited by the Central Committee of Baroda. Price Rs. 30.

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE USE OR DECORATION OF DWELLING-HOUSES AND OTHER BUILDINGS.

CLASS XXIII.—FURNITURE.

The use of furniture in native houses is of modern date, having been adopted from the Europeans. Demand for good furniture is solely created by the latter, and the bulk of the articles manufactured is for their use. The East India Art Manufacturing Company in Bombay, under the management of Mr. Wimbridge, the School of Industry at Ratnágiri, the establishment of Mr. de-Forest at Ahmedabad, are all actively employed in constructing

art furniture of superior design and finish, which has resulted in superseding the clumsily-fitted and badly-finished Bombay blackwood furniture. Specimens from these three establishments are exhibited in the Court.

It may be stated as regards the Ratnagiri School of Industry that it is now the property of the District Local Fund Committee of that district. It was originally started as a School of Industry by Mr. Arthur Crawford, C.S., in 1863. It then developed into a saw-mill company in the share mania of 1864-65, which collapsed and was wound up in 1872, and the whole concern was then bought up by the District Local Fund Committee. It is fitted with a 20-horse power steam engine, vertical, circular, bent and fret saws, turning, morticing, and planing machines, and in fact all the tools of a large workshop. From 80 to 100 lads of all ages and castes are there taught free, in reading, and writing, arithmetic, drawing, and mensuration. All are passed through the workshop under the head carpenters or *mistries* in charge of the different machines, and the last class is expected to know the steam-engine, to draw to scale, to make plans, working drawings, and estimates. The workshop establishment is separate. The whole is superintended by an European mechanical engineer. The school turned out over Rs. 50,000 worth of furniture last year, besides an immense amount of woodwork for the Public Works Department, and the establishment rather more than paid its way, school included. The speciality of the school is art furniture, in which, while the best skeletons of Chippendale and Adams are preserved, all inlaying and ornamentation are strictly oriental, the drawings being made by the students. Furniture is supplied to all parts of India and Europe.

Of pure native furniture is a bed (*charpoy*), a four-legged stool (*bajoth*), and a child's cradle (*párru*), all of painted lacquered work. These are contributed by the Gondal State in Káthiáwar.

Some of the articles which claim to be included under this head are placed in Class 31, Carving and Artware, as more appropriately belonging to it.

BRIC-A-BRAC CABINET.—Made for His Highness the Thakur Saheb of Bhávnagar by the East India Art Manufacturing Company, Bombay. Lent by Mr. E. Wimbridge.

DRAWING-ROOM CABINET.—Makers, East India Art Manufacturing Company, Bombay. Price Rs. 425. *For sale.*

DRAWING-ROOM CABINET.—Makers, East India Art Manufacturing Company, Bombay. Price Rs. 200. *For sale.*

From Ratnagiri School of Industry.

CABINET—(inlaid).—Price Rs. 300. *For sale.*

EARLY ENGLISH—(Adam's style) **INLAID SIDEBBOARD.** Price Rs. 450. *For sale.*

OBLONG CHIPPENDALE INLAID TABLE. Price Rs. 50. *For sale.*

OBLONG CHIPPENDALE INLAID TABLE. Price Rs. 50. *For sale.*

OBLONG CHIPPENDALE INLAID TABLE. Price Rs. 50. *For sale.*

COZEY TABLE (inlaid). Price Rs. 35. *For sale.*

COZEY TABLE (inlaid). Price Rs. 35. *For sale.*

OVER-MANTEL (Adam's style) inlaid. Price Rs. 125. *For sale.*

OVER-MANTEL (Adam's style) inlaid. Price Rs. 125. *For sale.*

PÁLNA.—A cradle. Maker, Dungarsi Devaji. Lent by the Gondal Darbar.

PALANG.—A bedstead. Maker, Dungarsi Devaji. Lent by the Gondal State, Káthiáwar.

A CHAIR.—Maker, Háji Mahamed. Lent by the Gondal State, Káthiáwar.

BAJOTH.—Two cots. Maker, Háji Mahamed. Lent by the Gondal Darbar, Káthiáwar.

A BOX.—Containing secret drawers. Maker, Virji Ladha. Lent by the Gondal Darbar, Káthiáwar.

DHOLIO.—A cot. Maker, Dongarsi Devaji, of Dheraj. Lent by the Gondal Darbar, Káthiáwar.

КАРАТ.—Lacquered Cabinet. Maker, Krishna Sutár and Gopál Chitari, of Sávant-vádi. Price Rs. 45. Purchased.

The cabinet is shaped so as to fit into the corner of a room, painted in panels and medallions with groups of Hindu deities and equestrian figures, the former on a black and the latter on a red ground, the panels being divided by painted borders representing flowers. The side pillars and miniature railing at the top and the centre are of turned lacquered wood.

КНУРЧИ.—A chair. Maker, Mistri Keshav Lavji. Lent by His Highness the Mahárájá of Baroda.

CLASS XXIV.—GLASSWARE.

Very little glass is produced in the Presidency, and that principally is manufactured at Kapadvanj, in the Kaira district, and is remarkable for its iridescent properties and good colour, resembling old Venetian.

The shapes, too, of the little vessels and cups, a large collection of which is exhibited, are very quaint and beautiful.

At Kapadvanj the workers (*shishaza*) are all Musalmáns, numbering about 70, who have been following this craft for several generations. Most of them are poor, and consequently have to borrow money for the purpose of carrying on their work. The materials for making glass are—*as*, an alkaline earth obtained locally, impure carbonate of soda (*sájjikhár*), and a variety of dark flinty sand from Jeypur.

The glass is made in large earthen furnaces in form like huge slipper baths, the floor sloping forwards to holes prepared to receive the melted glass. The materials are mixed together in certain proportions placed in the furnaces, and when raised to a white heat the molten mass is run into a trench, where it remains till it is cool; it is then broken up into small pieces, re-melted, and shaped into bangles and small vessels, which are mostly used as toys.

Mr. Spry, the present Collector of Kaira, is endeavouring to develop the industry at Kapadvanj.

Glass bangles are made at Shivápúr, 16 miles to the south of Poona, on the Mahábleshwar-Satára road. There are four establishments of Lingáyat Kácháris, employing about twenty-five to thirty men. Broken bangles are bought from the Márvádi *Phutáne vállás*, or hawkers of parched grain, who collect broken bangles in exchange for grain. The local kánsárs, or dealers in glass bangles, also sell for an anna a pound the broken pieces they collect while fitting bangles on women's wrists. The Shivápúr workers in bangles borrow the small capital they require from the Poona money-lenders at Re. 1 to Rs. 2 per cent. per mensem. They generally sell the bangles on their own account, and are also employed by the kánsárs, or dealers in bangles, who supply them with broken bangles for the purpose of re-making them into new, for which they are paid $1\frac{1}{2}$ to 2 annas per pound. Glass was formerly obtained from Gutur, in the Nizám's territory; but owing to a sufficient supply of broken bangles being obtainable in the local market, the supply from this source has ceased. Shivápúr bangles fetch about Rs. 5 per maund of sixteen *shérs*, each eighty *tolás* in weight. A workman can make from two to two-and-a-half *shérs* of bangles in a day, for which he is paid 6 to $7\frac{1}{2}$ annas.

Glass bangles are manufactured at Chinchni near Tárápúr, in the Máhim *táluka* of the Thana Collectorate, by Samshudin Alibháí, and nearly thirty to forty other persons, who are Musalmáns by caste, residing in the same place and speaking the Musalmáni and Maráthi languages; very few of them can read and write. They have been residents of Chinchni for a long time. The art of manufacturing a better variety of the bangles was first introduced some fifteen or twenty years ago by Alibháí Golammohidin, whose son Samshudin Alibháí has made the collection received. The value of a dozen bangles is from annas 4 to annas 6 and 7 on the spot, and more than annas 12 per dozen in Bombay. According to what has been ascertained, each worker earns about Rs. 100 a year. Bangles are chiefly purchased by merchants in Bombay.

The set exhibited by the Huzur Deputy Collector of Thana through Mr. Mackenzie is made by melting, in a common furnace, broken globe lamps, broken China glass bangles, and the native-made glass of Kapadvanj in the Kaira Collectorate.

COLLECTION OF KAPADVANJI GLASS.—Presented by A. H. Spry, Esq.

COLLECTION OF GLASSWARE FROM KAPADWANI, KAIRA.—Presented by Rao Bahádur Chunilál Venilál, District Deputy Collector, Broach.

BANGLES, RINGS, AND PENHOLDERS.—Exhibited by the Huzur Deputy Collector Thana. Maker, Samshudin Ahbhái of Chinchni. *For sale.*

CLASS XXV.—POTTERY.

The pottery in the collection is mostly soft glazed ware. Glazed pottery is still made at Halla and Tatta in Sind, although nothing to the extent it was formerly, when glazed tiles of lovely colour and design were extensively produced for the incrustation of the mosques and tombs, especially those of Tatta, which are now in ruins. In the collection from Sind are some very beautiful specimens, good in design and effective in coloring, from a light golden yellow to a dark rich brown. The large vases and plaques are from Halla, which show that the potters are capable of turning out pieces of extraordinary size. From the pottery works in Bombay, which are no longer connected with the School of Art, but are still carried on under the management of Mr. Terry, a large collection is exhibited, wherein the forms and colouring are more numerous and varied than in that of the Sind ware. The adaptation of some of the ornamental decoration from the Ajanta Caves to the ware is most effective. A few pieces in imitation of Sindware are sent from Bhavnagar. The black varnished pottery, similar to that made at Azimgarh, with painted silver and gilt ornament, is from Pattan, in the Gaekwar's territory. Though rough in character, it is very effective for decorative purposes.

COLLECTION OF POTTERY FROM HALLA, SIND. *Not for sale.*

COLLECTION OF POTTERY FROM THE ART POTTERY WORKS, BOMBAY.

FOUR SPECIMENS OF POTTERY FROM PATTAN, BARODA STATE.—Presented by Rao Bahádar Chunilál Venilál.

COLLECTION OF POTTERY.—Lent by H. H. the Thákur Sáheb of Bhavnagar.

COLLECTION OF POTTERY FROM PATTAN, BARODA STATE.—Maker, Bhukan Kalyan. *For sale.*

COLLECTION OF STONE UTENSILS.—Lent by the Dhrangdhra Darbar, Káthiáwár.

KUNDI, DAVÁNI.—Round mortar. The stone of which the article is made is obtainable from the bed of the Machha river, which flows past Morvi. The articles are not procurable in market, but are made to order. Price Rs. 8. Lent by the Morvi State, in Káthiáwár. Maker, Jetha Meghji.

KHAREL NE DASTO (6).—Oval mortar and pestle, carved (small). Maker, Jetha Meghji.

MARBLE BOX.—Exhibited by the Katch Council of Administration. Price Rs. 50. *For sale.*

MARBLE FRAME FOR LOOKING-GLASS.—Exhibited by the Katch Council of Administration. Price Rs. 35-9-1. *For sale.*

FLOWER VASE.—Exhibited by the Katch Council of Administration. Price Rs. 114-0 4. *For sale.*

TWO MARBLE CUPS WITH SILVER WORK.—Exhibited by the Katch Council of Administration. Price Rs. 25 and 5 respectively. *For sale.*

ADALI.—Round dish carved inside and outside. Price Rs. 40. Maker, Jetha Meghji.

COLLECTION OF CARVED MARBLE WORK.—Lent by the Gondal Darbár.

WÁTKO.—Bowl, carved. Price Rs. 10. Maker, Jetha Meghji.

TRAN PUTLIO.—Three Graces. Price. Rs. 30. Maker, Jetha Meghji.

SHIKÁRNI PACHHAL LAGELA KUTRÁO.—Dogs in search of game. Price Rs. 30. Maker, Jetha Meghji.

MARBLE INKSTAND.—Exhibited by the Katch Council of Administration. Price Rs. 8. *For sale.*

A BÁJOTH.—Maker, Jadhav Govind. Lent by the Gondal Darbár, Káthiáwár.

COLLECTION OF STONE UTENSILS.—Lent by His Highness the Jám Sáheb, of Jámnagar, Káthiáwár.

CAMBAY STONES.

There are about 100 merchants at Cambay who deal in agates, and about 2,500 to 3,000 artisans are employed. The stones are obtained from Ratanpore Hill, in Nandore subdivision, Morvi in Káthiáwár, and Kapadvanj in Kaira, at Rs. 3 to Rs. 50 a seer, according to the size and quality. A maund gives 3 to 5 seers of the dressed stone. The artisans, who are Kanabis, are paid according to the workmanship of each sample, and their income averages from Rs. 7 to Rs. 60 a month. Much of the ware is sent to China, Jeddo, and Bombay. The annual outturn ranges from two to three lakhs of rupees. The Cambay Darbár imposes 5 per cent. export duty on the articles.

FIVE KAGAZ TARESH.—Paper-cutters. One of green moss stone, two of red stone, one of stone imported from Europe, and one white agate. Maker, Kálidás Ishwardás. Price Rs. 25 for the set. *Not for sale.*

12 SETS OF PIECES FOR JEWELRY-BOXES.—Two of moss stone, four of yellow (*jurad*) stone, four of bloodstone, one of pinkish colour, and one red. Makers, Kálidás Ishwardás and Kandás Jibhai. Price for the set Rs. 173. *Not for sale.*

KARU.—Armlet, made of bloodstone. Maker, Kálidás Ishwardás. Price Rs. 10. *Not for sale.*

THREE KAGAZ TARESH.—Paper-cutters of moss stone. Maker, Kandás Jibhai. Price Rs. 7-8. *Not for sale.*

In addition to those purchased for the Exhibition, a large collection of articles made by Kandás Jibhai and Becharlál Motilál from Cambay is exhibited. *For sale.*

CLASS XXVI.—METALWARE, HARDWARE AND CUTLERY.

COPPER AND BRASSWARE.

Násik and Poona are known for their copper and brasswares, which are much used by the Hindus. The Násik vessels are preferred to those of Poona owing to their superior finish. Násik being a place of pilgrimage, many Hindus visit it for religious purposes, and when they return to their homes they generally take with them a number of copper and brass pots as presents to relatives and friends. At the thread and marriage ceremonies among Hindus of higher classes, a set of copper, brass, or silver drinking pots and cups are given to the boy who is to wear the sacred thread, or to the bridegroom. A great demand is thus created annually, and the industry is well supported. Poona brass and copper-workers, of whom there are 3,000 to 4,000 in that city, have of late commenced imitating Násik work to a small extent. Rough pots used for culinary purposes

and brass figures are largely made at Poona, the annual outturn amounting to about twenty-five *lakhs* of rupees. At Amod, in Kaira, there are about twenty-five to thirty workers in brass, whose outturn amounts to about two thousand rupees a year. At Shikárpur and Lárkhána, in Sind, a large trade amounting to Rs. 1,29,350 a year is carried on, the workers being Mahomedans and Hindus. As copper and brass vessels are in general use among the natives, workers in these metals are found in most of the larger towns of the presidency. The dealers at Násik and Poona are generally Maráthas or Deccan Kásárs by caste. Besides the dealers, there are three sets of workmen who earn their livelihood as workers in brass and copper—(1) Tábats, makers of large articles, (2) Kalaikars, makers of small articles; and (3) Charkávalás, workers on the lathe or polishers.

Násik Tábats came from Ojhár, about twelve miles north of Násik, to which town they are said to have come three or four hundred years ago from Chámpáner, the ruined capital of the Panch Maháls. It is curious to note that the males have changed their dress, wearing a Dekkan turban and jacket instead of those worn by their castemen at Ahmedábád, Baroda, Surat, and Bombay. Their women have, however, kept their own Gujaráthi *sádis*. They worship the goddess Káli, for whom they have erected a temple in the Tábati Ali, near Malhár Gate, and by general subscription have bought for the goddess, at a cost of Rs. 500, an octahedral *devhára* or canopy of carved wood elaborately decorated with panels of pierced tracery. In the principal hall of the temple are paintings on the walls representing some of the scenes of the Mahábhárat and Rámáyan. Násik Tábats live in one-storied houses, and are thrifty, hard-working, sober, and skilful. Among them there is the peculiar custom of holding marriages once in every four or five years only. On these occasions all the girls between five and eleven are mated. During the performance of the marriage ceremonies, which last for two or three weeks, they close all their shops and stop all work. The origin of this system cannot be traced, but it has the advantage of minimising interference with their work, as well as feasting charges.

There is no trade guild, but at Násik the caste influence is very great. In marriages the bridegrooms have each of them to pay a caste fee of Rs. 6 or Rs. 6-4 (if the bride is a widow) towards a fund for charitable and religious purposes. At Násik there are five families of Konkani Tábats, who belong to Cheul and Revdanda in the Kolába district. Unlike the Gujaráthis the Konkani Tábats use animal food, and drink liquor. The six workshops of the Musalmán Tábats, which are situated near the Trimbak gate at Násik, form a peculiar feature among the row of Hindu shops. The Moslem Tábats came from Chándvad, where a settlement was patronised by Maháráv Holkar, in the middle of the last century, when he opened a mint in that town (about 1755). From 1819, in which year the mint was closed, the Tábats of Chándvad took to working in copper and brass, for which there was a considerable demand so long as the Bombay-Agra road remained the highway of trade. Since, however, the introduction of the railway, the Agra road has fallen into disuse, the demand for Chándor brass and copper work has ceased, and the Tábats that have remained in the town are badly off, with only a local demand for their wares. The Chándor Musalmán Tábats are said to be converted Gujaráthis from Nagar in Márwád. They use vegetable as well as animal food, and, like their Gujaráth fellow-workers, live in one-storied houses.

Poona workers in brass and copper pots are mostly Konkani Kásárs, Panchál, and Maráthás, while those of Amod have a tradition of having come down to that town from Chámpáner like their Násik brethren. The Pálanpur workers in copper and brass are mostly the natives of Messana in the Baroda territory, from which place they migrated about 200 years ago.

At Poona most of the copper and brass-workers live in Shukravár Peth. All the copper or brass used in the presidency for the larger articles which are shaped on anvils comes from Europe in sheets of three varieties of thickness—thick, medium, and thin—and about four feet square. They are bought at Bombay near Páyduni by Kásárs and other dealers, and are sold or given to be

worked by Tām bats. The sheets differ little in price, copper costing Rs. 44 to Rs. 45, and brass Rs. 34 to Rs. 35 a hundredweight, with two rupees extra,—one for brokerage and the other for carriage.

The sheet of brass or copper is handed over to the workman, who lays it on the floor and on it he traces with a compass the shape of the article to be made, and cuts it out with scissors or a chisel. The metal is then softened in the fire and hammered, first on a hollow stone anvil, and as it assumes a hemispherical shape it is hammered on a bent iron bar-anvil, and again softened and hammered three or four times till it is beaten into shape. Each vessel is generally made of two pieces, a lower and an upper, separately beaten into shape and soldered with brass, borax (*savāgi*) and chloride of ammonium (*navasāgar*). The men work in bands of five or six, dividing the labour between them, some marking the rough shape, some shaping the neck, others forming the lower portion of the vessel, and the rest giving the whole a rough polish. The polishing given to cooking utensils is rough scrubbing, with a mixture of powdered charcoal and tamarind pulp, followed by hammering with a small hammer till the whole surface is covered with little facets.

Another set of workers in brass at Nāsik and Poona are the Kalaikars, tanners, who are Panchāls by caste. They speak Marāthi, and call themselves "*A'rya Somādvanshi Kshatris*." They are believed to be the original followers of Budh, and have, owing to the persecution of the Brāhmīns, professed Hinduism. The Nāsik Kaliakars are said to have come from Bedar. Their proper craft of tinning copper and brass pots has of late failed them. They owed their position as specialists to the belief that the heating of chloride of ammonium (*navasāgar*) brought on a household the wrath of the gods; but this feeling has to a great extent passed away, and as tinning is a very simple process, the need of a special class of workmen has ceased. Kalaikars differ from Tām bats by casting pots as well as beating them into shape, and by making small instead of large articles.

Specimens made by Gyānu, who is a Kalaikar, represent those usually cast or beaten into shape by the Kalaikars.

The lathe-workers of Nāsik belong to different castes. Five of them are (1883) Kalaikars, four Thatere Pardeshis, two Marāthās, one Shimpi, and one Koli—making thirteen in all. As they have to polish pots for Tām bats as well as the Kalaikars, they have pretty constant work and are fairly well-to-do. They generally make no pots and are the hired servants of the Kāsārs or dealers. The Thatere Pardeshis, who have their head-quarters at Rāipur, Nāgpur, and Benares, say that they have been settled for centuries at Nāsik, and that their forefathers were warriors. Only one of them has opened an establishment like those of the Kalaikars. The Marāthā and Shimpi lathe-workers have been settled in Nāsik for a few years only. The Koli says he is of the same caste with the Kolis of Sarvatirih, Takit, and Belgāv, in Nāsik, and that his forefathers have been settled as polishers in Nāsik for eight or nine generations.

The process of polishing on the lathe is simple. The vessel is fixed to the lathe with resin wax, and the wheel is turned by a labourer; the polisher sitting close to the vessel, presses against it a sharp-pointed tool, called *rāndha*, which he rests on a small iron guide bar, and which, as the pot whirls round, scrapes its outer surface. Except one man, who has a coppersmith's shop, the polishers are all skilled labourers without any capital, each earning on an average from Rs. 8 to Rs. 15 a month. One Kalaikar at Nāsik, named Gyānu, who casts pots, has imported an English lathe, his work is truer and far superior as regards finish than that produced on the native lathe, and his articles consequently command a better sale and fetch higher prices. At Poona there are half a dozen English lathes at work.

•
From Nasik.

GADVA, Mar.; LOTA, Guj., Hind.—Used for holding water for washing the feet, washing the mouth; for religious performances; performing ablutions

(*sandhya*); and also for drinking. Local price Rs. 2-5-6. Purchased. Maker, Gangáram Dullabh.

TAMBIA, *Walyácha-támbya, Mar.*—So called from its having a circular fillet at top and bottom. Used for the same purposes as the above. Price Rs. 2-4. Purchased. Maker, Gangáram Dullabh.

TAMBIA, *Gangá-jamni.*—Made in two sections, one of brass and the other of copper, which are soldered together, and named *gangá-jamni* from its having been compared to the confluence of the Ganges with the Jamna at Alláhábád, where the whitish water of the former runs side by side with the dark coloured water of the latter, producing—before they intermingle—a phenomenon much admired and revered by the natives. Price Rs. 2-15-6. Purchased. Maker, Gangáram Dullabh.

TUMBI, *Mar., Hind.*—Used for the same purposes as above. Price Rs. 2-1. Purchased. Maker, Bábáji Káshirám.

KALASI, *Mar.*—Used for the same purposes as above. Price Re. 1-0-3. Purchased. Maker, Gangáram Dullabh.

KALASI, *Gangá jamni.*—Or copper and brass soldered together. Price Rs. 2-0-3. Purchased. Maker, Gangáram Dullabh.

SURAI, *Mar. SURÁHI Hind.*—Price Rs. 2-14-3. Purchased. Maker, Bábáji Káshirám.

HANDA, *Mar.*—Price Rs. 2-11-9. Purchased. Maker Gangáram Dullabh.

LOTI, *Mar.*—Price Rs. 2-3. Purchased. Maker, Rávaji Báburáv.

TAMBIA, *Mar.*—This shape is very nearly the same as that of No. 104, which is sometimes called *Walyácha támbyá* when a distinction is to be drawn between the two. This shape is now obsolete, and made only to order. Price Rs. 3. Purchased. Maker, Sitáram Govind.

KAMANDALU, *Mar.*—Used by *sanyásis* (ascetics) as a drinking-vessel. The shape is nearly obsolete. Made only to order. Price Rs. 3. Purchased. Maker, Sitáram Govind.

PÁRSI TUMBI.—Named from being used by the Pársis only. Not found made for sale, but always obtainable by order. Use as above. Price Re. 1-8. Purchased. Maker, Sitáram Govind.

JAGANNÁTH.—Named after the ascetics of Jagannáth who introduced the shape on the western side of India. Used as a drinking-vessel by the Gosávis only. Made to order. Price Rs. 3. Purchased. Maker, Gyánu.

MANAKARNIKA.—A name given to a drinking-pot. Price Re. 1-8. Purchased Maker, Sitáram Govind.

TUMBI, *Mar.*—Used as a drinking-vessel. Generally preferred by the ascetics. Price Re. 1-2. Purchased. Maker, Bábáji Káshirám.

VÁNIA Tumbi, *Mar.*—So named from being used by the Banias (Vánias), or the traders, as a drinking-vessel. Price As. 14. Purchased. Maker, Bábáji Káshiram.

APKORA, *Mar.*—It is a diminutive form of No. 104 and No. 105. Price As. 14. Purchased. Maker, Gangáram Dullabh.

JHÁRI, *Mar.*—Used for drinking purposes. Price Re. 1. Purchased. Maker, Bábáji Káshirám.

PHULPÁTRA, *Mar.*—Named from its resemblance to the corolla of a flower (*phul*). Used as a drinking-cup. Price Re. 1-8. Purchased. Maker, Gyánu.

RÁMPÁTRA, *Mar.*—Named after Rám, the deified King of Oudh. Price As. 9. Purchased. Maker, Gangáram Dullabh.

MUMBAI PÁTRA, *Mar.*—Named from its being introduced from Bombay (Mumbái). Price As. 10. Purchased. Maker, Gangáram Dullabh.

- JAMB, *Mar.*—Price As. 12. Purchased Maker, Gangáram Dullabh.
- PYÁLA, *Mar.*—This soldered variety is called *gangá-jamni*. This cup has a cover called *tabakázi*, cost As. 4. Price Re. 1-6. Purchased. Maker, Bábáji Káshirám.
- PANCH PÁTRI, *Mar.*—Used as a drinking-cup. Price As. 12. Purchased Maker, Thákur Rámji.
- BATLAI, *Mar.*—Used for storing milk. Made only to order. The shape was introduced from the north. Price Re. 1-10-3. Purchased. Maker, Gangáram Dullabh.
- KÁSÁNDI, *Mar.*—Used as above. Price Re. 1-12. Purchased. Maker, Gangáram Dullabh.
- KÁSÁNDI, *Mar.*—Used as above. Price Rs. 2-0-6. Purchased. Maker, Rávji Báburáv.
- TOP, *Mar.*—Used as above. Price As. 14. Purchased. Maker, Tukáram Rámchandra.
- BAHU-GUNI, *Mar.*—Used as a cup for drinking milk. Price As. 14. Purchased Maker, Tukáram Rámchandra.
- TÁT, *Mar.*—Used as a dining dish. Price Re. 1-12. Purchased. Maker, Tukáram Rámchandra.
- VÁTI, *Mar.*—Used as a dinner-cup in which the curry-stuff is served. Price As. 8. Purchased Maker, Tukáram Rámchandra.
- CHAUPHULA, *Mar.*—Used for keeping cardamoms, cloves, mace, nutmeg, catechu pills, and other ingredients of *pán-supári*. Price Rs. 4. Purchased. Maker, Gangáram Dullabh.
- PÁN-SUPARICHÁ DABÁ.—For *pán-supári*. Price Rs. 5. Purchased. Maker Gangáram Dullabh.
- PÁN-SUPARICHÁ DABÁ.—Price Rs. 4-4. Purchased. Maker, Bábáji Káshirám.
- DABÁ BADÁMI, *Mar.*—For *pán-supári*. Price Rs. 3-7. Purchased. Maker, Tákur Rámji.
- PÁN-PUD, *Mar.*—Used for keeping betel-leaves (*pán*). Price As. 14. Purchased. Maker, Bábáji Káshirám.
- DABI (*a pair*).—One for keeping slaked lime and the other for catechu. Price As 8. Purchased. Maker, Gyánu.
- PIKDÁNI.—A spittoon. Price Re. 1-4. Purchased. Maker, Bábáji Káshirám.
- PIKDÁNI.—A spittoon (another shape). Price As. 13-6. Purchased. Maker, Bábáji Káshirám.
- KHAL-BATTÁ, *mortar and pestle*.—Used for pounding *pán-supári* when required for the aged who have lost their teeth. Price Rs. 2-11-6. Purchased. Maker, Gangáram Dullabh.
- KALAMDÁN, *Pen-box*.—Contains two ink bottles, one for red and the other for black ink, one bottle for gum arabic, one for sand, a compartment for pens, and a lower compartment for paper, &c. Price Rs. 2. Purchased. Maker, Gangáram Dullabh.
- DAUT, *Mar.* *Ink-box*.—Used in the vernacular branches of Government offices. Contains bottles (brass) for black and red ink, gum and sand. Price Rs. 4-8. Purchased. Maker, Bábáji Káshirám.
- SAMAI, *Mar.*—An open lamp. Price Rs. 2-0-3. Purchased. Maker, Bábáji Káshirám.
- SAMAI, *Mar.*—An open lamp (another pattern). Price Rs. 2-9-6. Purchased. Maker, Bábáji Káshirám.

KARANDA (KUNKVÁCHA), Mar.—Box for keeping red powder which is applied by native women—both married and unmarried, not widows—to their foreheads. It has two compartments: in the lower is placed the red powder, made by mixing turmeric (*halad*), carbonate of soda (*gáipadkhá*), and lemon juice, in certain proportions; and in the upper is fixed a mirror to the lower lid, and a small box to the upper lid for keeping bee's-wax, with which the red powder is made to adhere to the forehead. Price Rs. 2-1. Purchased. Maker, Gyánu.

KARANDA (KUNKVÁCHA), Mar.—Another pattern of the above. Price Re. 1. Purchased. Maker, Gangáram Dullabh.

SORYA, Mar.—Used in making *sherai*, an article of food resembling macaroni. Price Re. 1-14. Purchased. Maker, Bábáji Káshirám.

DABI (ARGAJÁCHI), Mar.—These are air-tight boxes in which perfumed pastes (*argajás*) are kept. When required, a small quantity is taken out with the index finger and applied to the back of the hand. Price Rs. 2 for the pair. Purchased. Maker, Gyánu.

SHENAVI PÁTRA, Mar.—Drinking-cup. A new shape introduced by the Shenvis or Gaud Bráhmíns and named after them. Price As. 7. Purchased. Maker, Gangáram Dullabh.

CHAUKI, Mar.—A brass stool used in worship. Price Rs. 4. Purchased. Maker Bábáji Káshirám.

KAMAL, Mar.—A stand for idols, named from its resemblance to an open lotus flower, which it is meant to represent. Price Re. 1-4. Purchased. Maker, Gangáram Dullabh.

KAMAL, Mar.—Used in worshipping idols. Is fixed to a Garud, or the half-man half-bird charger of Vishnu, the Protector of the Hindu Trinity. Price Rs. 4. Purchased. Maker, Dámu Anyá Párah.

KAMAL, Mar.—A stand for idols fixed on a rat, the animal which carries Ganesh the God of Knowledge. Price Rs. 4. Purchased. Maker, Dámu Anyá Párah.

KAMAL, Mar.—A stand for idols fixed on an antelope. Price Rs. 4. Purchased, Maker, Dámu Anyá Párah.

KAMAL, Mar.—A stand for idols fixed on a bull, which is the vehicle of Shiva, the Destroyer, of the Hindu Trinity. Price Rs. 4. Purchased. Maker, Dámu Anyá Párah.

KAMAL, Mar.—A stand used for idols. Purchased. Maker, Gyánu.

DHOLHARA, Mar.—Contains the *Shiva ranchá yatan* in the cradle-shaped swing, which is worshipped by all Hindu married women, during the whole of the month of Chaitra, being the first of the twelve months of the Sháiváhan era. On a day in that month the female members of the family invite the women, particularly caste women to their homes, when sandalwood paste is applied to the arms of each of the visitors, the yellow and red turmeric powders to their cheeks and foreheads, a few flowers are inserted in the hair, and a handful of germinating gram is put into the folds of the *sári*, and finally cocoanut mixed with sugar, sweatmeats, and fruits are given to each visitor. In this way a general gala day is kept among women for one month, each household inviting all the others in succession. The *dolhára* is decorated on the *haladkunku* or gala day by heaping on and round it all the jewelry that a family can spare or borrow. In front is arranged, on small shelves the curios they possess, and suspended along three sides of the altar are the best fabrics belonging to the household, the choicest collection of lamps are placed round and lighted, and a carpet is spread on the floor in front for the visitors to squat on. Price Rs. 6. Purchased. Maker, Gangáram Dullabh.

- ABHISHEKH-PÁTRA, Mar.**—It is suspended on the stand provided for it. Below it is a cup-shaped pot, on which is a plate. In the plate is placed the idol to be washed. Water is poured into the *pátra*, from which it dribbles through the small hole in the end of the pointed bottom. *Mantrás* are recited, and at intervals is poured the *pañchámrit*, consisting of cow's milk, curd, ghee, urine, and dung. Price Rs. 10 for the set. Purchased.
- ABHISHEKH-PATRA, Mar.**—Uses, the same as above. Price Rs. 2-4-0. Purchased. Maker, Rávji Báburáv.
- TÁMHÁN, Mar.**—Used for washing idols. Price Rs. 3. Purchased. Maker, Gyánu.
Another pattern. Price Rs. 3. Purchased.
- TÁMHÁN, Mar.**—Uses, the same as above. Price As. 10. Purchased. Maker, Bábjí Káshirám.
- SAMAI (pair), Mar.**—Open lamps placed one on either side of the stands for holding the idols. Price for the pair Rs. 3-13-3. Purchased. Maker, Bábjí Káshirám.
- NIRÁNJAN (pair).**—Used for burning ghee before the idols. Price Rs. 10 for the set.
Another variety of the above. Uses, the same as above. Price Rs. 10 for the set marked with asterisks. Purchased.
- PYÁLE (pair).**—A pair of cups with plates, one for keeping the sugar which is offered at the end of the *púja* (worship), and another for keeping the *pañchá mrit* (five nectars), or the five products of the cow, with which the idols are washed before they are bathed with plain water. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- UDABATTICHE GHAR (pair).**—A pair of stands for holding the perfumed incense sticks (*udabatti*), which are kept burning before the idols. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- GHANTA, Mar.**—A bell rung at the end of worship. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- ARGHYA, Mar.**—An ablution cup, from which the sacred water is poured in making the offerings. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- HALAKÁRTI, Mar.**—A pair of incense-burners, on which a few grains of rice are placed. Over the rice is placed a piece of camphor and ignited. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- ADNI-SHANKHÁCHI, Mar.**—A tortoise-shaped stand for the conch (*shankh*) shell worshipped prior to commencing worshipping the gods. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- KACHOLE, Mar.**—Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- PYALA WITH TABAKDI, Mar.**—A cup and plate for washing idols. Price Rs. 10 for the set. Purchased. Maker, Gyánu.
- SÁLONKHA, Mar.**—The stand, representing the *yoni* in which the *ling* is placed and worshipped as symbols of Shiva and Párvati. Price Re. 1-8. Purchased. Maker, Gyánu.
- SAMPUSHTA, Mar.**—A box in three pieces for keeping the idols for the night after the evening worship. Is also used as a convenient case for idols when the owner is travelling. Price Re. 1. Purchased. Maker, Tukáram Rámji.
- SANDHECHI PALLI.**—The ablution spoon used during the performance of *sandhya* and other religious rights. Price As. 10. Purchased. Maker, Tukáram Rámji.
Another shape. Price As. 12. Purchased. Maker, Gyánu.
- GANGÁJALI, Mar.**—It is the vessel in which the sacred water of the Ganges (after which it is named) is kept and worshipped along with the idols. The small head forming the stopper is symbolic of the Ganges. Price As. 12. Purchased. Maker, Gyánu.
- DABI KÁPRÁCHI, Mar.**—A box for keeping camphor which is burnt before the idols. Price Re. 1-8. Purchased. Maker, Gyánu.

- DABI, HALAD KUNWÁCHI, *Mar.* Boxes, one for the yellow and the other for the red turmeric powders. These powders are sprinkled over the idols during worship. Price for the pair Re. 1. Purchased. Maker, Gyánu.
- DABI SÁKHARECHI, *Mar.*—A box in which the sugar required for the ceremony at the end of the worship is kept. Price As. 8. Purchased. Maker, Bábáji Káshirám.
- PANCHÁRTI, *Mar.*—A lamp in which clarified butter is burnt before the idols. Price Rs. 1-0-3. Purchased. Maker, Gangáram Dullabh.
- PUJÁPÁTRA.—Used for carrying to the temple flowers, sandalwood-paste, and other ingredients used during worship. Price Re. 1-11-6. Purchased. Maker, Thákur Rámji.
- TULASI VRINDÁVAN, *Mar.*—A flower-pot for nurturing the sacred *tulsi*, *Ocymum sanctum* plant. Price Rs. 2-2. Purchased. Maker Bábáji Káshirám.
- PÁVKÁ, *Mar.*—It is a Gujrathi shape, and is used by the Gujrathis as a support to the thigh while taking meals in a squatting position. Price Rs. 2-8. Purchased.
- SAMAI, *Mar.*—A lamp with a sliding pan and a loop at the end of the staff. Price Rs. 8. Purchased. Maker, Gyánu.
- KHANDIL, *Mar.*—A hanging lamp with a chain. The chain is passed through an iron ring, fixed to the upper beam of a door-way frame and the hook at its end is fitted into the largest of the links. One lamp thus placed in a door-way is sufficient to light two adjoining rooms. Price Rs. 9. Purchased. Maker, Gyánu.
- GALLA, *Mar.*—A pot used by sweetmeat-sellers for keeping change. When the pair of scales are not required for use, they are kept on the top of this pot. Price Rs. 10. Purchased. Maker, Gyánu.

From Poona.

- RÁNJANI.—Used for storing grain. Purchased.
- GHÁNGÁL.—Used for bathing and washing purposes. Purchased.
- TÓP.—Used for keeping milk, *kadhi* (curry), &c. Purchased.
- JHÁRÁ.—Used for frying. Purchased.
- VELNI.—Used for holding rice while it is being served at dinner. Purchased.
- HANDA.—Used for carrying and storing water. Purchased.
- PABÁT.—Used for holding rice (like velni) while it is being served at a large dinner party. Purchased.
- MUDÁLE.—Used for shaping the rice served for the first course. Purchased.
- CHÁLAN.—A sieve. Purchased.
- TAVA.—Used as a frying-pan. Purchased.
- GHÁGAR.—Used for carrying and storing water. Purchased.
- TAPELL.—Used for boiling rice. Purchased.
- KADHAI.—A frying-pan. Purchased.
- PÁTELL.—Used for keeping *kadhi* (curry) or cooking vegetables and curries. Purchased.
- CHUL.—A fire-place. Purchased.
- KÁNÁLE.—Used for decorating the floor on which guests are to squat for dinner. Purchased.
- JÁTNI.—A mill. Purchased.
- KISNI.—Used for slicing cocoanut. Purchased.
- LÁMANDIVA.—A hanging lamp called *khandil*. Purchased.
- TWO TABAKDIS.—Used for keeping sandalwood paste.
- VAJRI.—Used for cleaning the feet by rubbing while bathing. Purchased.
- TWO GADUS.—The same use as Gadva. Purchased.
- PÁTELL.—Used for storing water, or cooking vegetables and curries. Purchased.
- PANCHÉÁLE.—Used for carrying *chatnis* while they are being served. Purchased.
- RAVALI.—Used for washing rice in. Purchased.
- PALL.—Used as a ladle. Purchased.
- KÁLTHA.—Used for frying. Purchased.

- ARGHEPÁTRA.—An ablution spoon. Purchased.
- SAMAI.—An open lamp. Purchased.
- POHARYA.—Used for drawing water from wells. Purchased.
- VÁTI.—A cup. Purchased.
- PANCHPÁTRA.—A drinking-cup. Purchased.
- VILL.—Used for slicing vegetables, &c. Purchased.
- TABAKDI.—Small plate for sandalwood paste.
- THREE TABAKS.—Embossed and ornamented brass plates. Price Rs. 10-8. Purchased.
- DABA.—Embossed copper jar. Price Rs. 15. Purchased.
- DABA.—Embossed copper box. Price Rs. 11. Purchased.
- PANCHPÁTRI.—Embossed water-cup. Price Rs. 11. Purchased.
- JHÁRI.—A drinking-cup. Purchased.
- TWO PYÁLAS.—Water-cups. Price Re. 1-8 and As. 14 respectively. Purchased.
- TWO PALIS.—Ablution spoons. Price Rs. 2. Purchased.
- TÁMBIA.—Water-pot. Price Rs. 6. Purchased.
- KARANDI.—Water-pot. Price Rs. 7. Purchased.
- DEVI.—A brass figure representing the wife of Shiva. Maker, Bápu Moreshwar. Price Rs. 4. Purchased.
- ANPurna.—Another representation of the same. Maker, Bápu Moreshwar. Price Rs. 6. Purchased.
- RÁJÁ BALI.—A fabulous king of Pátál, who was proverbially pious and liberal. On the *pratipada* day in the Divále, Rájá Bali is worshipped by all Hindus, who on that day have their houses thoroughly swept and dusted before sunrise, and the sweepings placed in an old basket, which is given to the servant to take and place with a lamp and a pice or two on the roadside, the servant beating a *batáki* and reciting :—“*Ida pida jao áni Baliche ráj yeo.*” (Let all calamities disappear and Bali's raj be established again.) Bali is then worshipped, and a *kót* or heap of crackers and other fireworks, arranged like a fort and fired, end the ceremony. Rájá Bali is supposed to have lived before Parashurám or Rám. Váman, the fifth incarnation of Vishnu, drove him to Pátál, or an imaginary place below the earth, the kingdom of that region having been eternally assigned to him. Maker, Bápu Moreshwar. Price Rs. 12. *Not for sale.*
- RÁDHA KRISHNA.—Krishna, the eighth incarnation of Vishnu with his mistress Rádha. Maker, Bápu Moreshwar. Price Rs. 19. *Not for sale.*
- RÁM.—The deified King of Oudh, believed to be the seventh incarnation of Vishnu. Maker, Bápu Moreshwar. Price Rs. 10. *Not for sale.*
- RÁDHA.—The mistress of Krishna. Maker, Bápu Moreshwar. Price Rs. 14. *Not for sale.*
- DATTÁTRAYA.—The Hindu Trinity personified. The three heads represent Brahma the Creator, Vishnu the Protector, and Shiva the Destroyer. Maker, Bápu Moreshwar. Price Rs. 5. *Not for sale.*
- BÁLKRISHNA.—Krishna as a babe (*bál*). Maker, Bápu Moreshwar. Price Rs. 9. *Not for sale.*
- MAHÁDEV.—Shiv, the Destroyer, with his wife, Párvati, and his son, Ganesh (the God of Knowledge). Maker, Bápu Moreshwar. Price Rs. 19. *Not for sale.*
- TWO CHAURI DÁNDÁS.—Electroplated. From Poona. Price Rs. 2-8 each. *Not for sale.*
- GULÁBDAN.—Rose-water sprinkler. From Poona. Price Rs. 7. *Not for sale.*
- TWO TABAKS.—Plates for keeping *pán-supári*. From Kaládgi. Price Rs. 4 and Rs. 3-15. *Not for sale.*
- TWO DANTS.—(*Ink-boxes.*) Containing bottles (brass) for black and red ink, sand, and gum Arabií. From Kaládgi. Price Rs. 5 each. *Not for sale.*
- SAMAI.—(*a pair*). Open lamps. From Belgaum. Price Rs. 13-12. *Not for sale.*

From Amod.

- KALLA.—Brass anklet. Price Rs. 2-1. *Not for sale.*
 BARNI.—Maker, Premánand Mádhavji. Price Rs. 2-0-0. Purchased.
 CHHINI.—Maker, Premánand Mádhavji. Used for slicing the dried kernel of the coconut. Price Re. 1-1. Purchased.
 HOOKA-STAND.—Maker, Premánand Mádhavji. Price Rs. 2-8. *Not for sale.*
 LAMP.—Maker, Premánand Mádhavji. Price As. 6. Purchased.
 BARNI.—Maker, Hargorám Harjiwan. Price Re. 1-0-3. Purchased.
 OIL BOTTLE.—Maker, Hargorám Harjiwan. Price Rs. 2-3-0. Purchased.
 HANGING-LAMP WITH MIRRORS.—Maker, Hargorám Harjiwan. Price Rs. 5-1-3. Purchased.
 BELLS.—Maker, Hargorám Harjiwan. Price As. 5 for the pair. Purchased.
 GHUNGRO (BELL). Maker, Hargorám Harjiwan. Price As. 14. Purchased.

From Bhávnagar.

- CHAHANA SANCHO.—A brass tea-urn or 'samovar.' Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. Lent by the Bhávnagar Darbár.
 CHAHANA VASAN.—Tea-set. Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. The whole set consists of one large tray, containing one large-kettle for tea, a milk-pot and a sugar-pot with six small cups and spoons. Lent by the Bhávnagar Darbár.
 TWO BELU.—A set of water-vessels. Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. Lent by the Bhávnagar Darbár.
 WATER-POTS.—A set. Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. Lent by the Bhávnagar Darbár.
 TWO PALU.—Spittoon. Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. Lent by the Bhávnagar Darbár.
 KALASIA.—Drinking-pot (*lota*). Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. These articles are six in number, three of which are made of brass only, and the other three are of brass and copper soldered together. They are used for holding water and milk, and the smaller cups and goblets (*kalsis*) which accompany them serve for drinking purposes. Lent by the Bhávnagar Darbár.
 KALASIA.—Drinking-pots (*lota*). Maker, Kansara Mopánlál Harjiwan, of Sibor, Bhávnagar. Lent by the Bhávnagar Darbár.
 THREE KALASIA.—Drinking-pots (*lota*). Maker, Bhima Bhái. These articles are three in number, and are made of brass only. Lent by the Bhávnagar Darbár.
 THREE KALASIA.—Drinking-pots made of brass and copper soldered together (*lota*). Maker, Bhima Bhái. Lent by the Bhávnagar Darbár.
 SIX PYÁLAS.—Drinking-cups. Maker, Bhima Bhái. These are small and large sized cups and made of brass only. Lent by the Bhávnagar Darbár.
 SHAGDI.—Stove. Maker, Bhima Bhái.
 BAJOTH.—Stool or bench, square shaped. Maker, Bhima Bhái. Used as a table at dinner. Lent by the Bhávnagar Darbár.
 BAJOTH.—Stool or bench, octangular. Maker, Bhima Bhái. Lent by the Bhávnagar Darbár.
 MASHÁL.—Torch. Maker, Bhima Bhái. Its lower thick part is hollow and joined to the upper cylinder. It serves to hold oil, and when the upper part is lighted the oil descends to it when the torch is upturned. In Native States a high functionary when granted a torch considers it as a mark of favour. A barber bears it lighted before him at night-time. Lent by the Bhávnagar Darbár.
 ANKUSH.—Elephant-goad. Maker, Bhima Bhái. Lent by the Bhávnagar Darbár.
 ANKUSH.—Elephant-goad. Maker, Bhima Bhái. Lent by the Bhávnagar Darbár.
 HOOKA.—Pipe. Maker, Bhima Bhái. Answers the double purpose of a smoking-pipe and walking-stick. Lent by the Bhávnagar Darbár.

- COLLECTION OF ELECTRO-PLATED BRASS POTS.—Lent by His Highness Thákur Sáheb of Bhávnagar, Kathiáwár. Maker, Juvánsingji Jasvantsingji.
- FLOWER-POT.—Lent by His Highness the Mahárájá of Baroda.
- COLLECTION OF ELECTRO-PLATED BRASS POTS.—Lent by His Highness the Mahárájá of Baroda.
- COLLECTION OF BRASS POTS.—Exhibited by the Baroda Committee. Price marked on each.—*For sale.*
- COLLECTION OF ELECTRO-PLATED BRASS POTS.—Exhibited by Baroda Committee. Price marked on each. *For sale.*
- CHÁ PAKÁVÁNO LOTO.—A brass pot for preparing tea. Exhibited by the Baroda Committee. Maker, Gopál Umed of Visanagar. Price Rs. 7. *For sale.*
- SURAHÍ.—A water-jar made of zinc. Exhibited by Baroda Committee. Makers, Keshav Bhaichand. Price Rs. 5. *For sale.*
- COLLECTION OF BRASS POTS.—Lent by the Gondal Darbár, Káthiáwár.

ARMS.

The manufacture of Indian arms is now confined almost entirely to supplying the demand created by collectors of curios and others who use them for decorative purposes by displaying them on the walls of their entrance halls, drawing-rooms, &c. Modern arms of quaint and varied shapés, copied from the standard patterns in use from time immemorial, are principally made in Kuch, and a large collection of these is exhibited.

Lent by His Highness the Mahárájá of Baroda.

- GURÁJ.—Contains a sword, a shield, a pistol, a knife, and a set of writing materials.
- DAGGER.
- SWORD.—With a dagger at one end. Maker, Lalu.
- GUPTÍ.—A sword-stick.
- SWORD.—With pistol. Maker, Ráichand Devji.
- ARMOUR.
- HEAD ARMOUR.
- DOUBLE DAGGER.
- SWORD WITH PISTOL.

From Katch.

- 14 JAMBIAS.—Makers, Nur Mahomed, Dáud Ali, Omar, Báu, and Sulemán. *For sale.*
- TWO KHANJIRS.—Makers, Nur Mahomed and Ahmed. Price Rs. 12 and 4 respectively. *For sale.*
- TEN GUPTIES.—Makers, Nur Mahomed, Ahmed Ismail, Báu, and Sulemán. Price marked on each. *For sale.*
- TWO KULANGS.—Maker, Nur Mahomed. Price marked on each. *For sale.*
- TEN KATÁRS.—Hindu daggers. Makers, Dáud Ali, Bau, Sulemán, Harji, and Mahomed. Price marked on each. *For sale.*
- SÍNG.—Horn. Maker, Mahomed Khamisha. Price Rs. 3. *For sale.*
- FOUR ANKUSH.—Iron goads. Makers, Mahomed, Ahmed, and Báu. Price Rs. 8 each. *For sale.*
- 13 DHALS.—Shield. Makers, Ali Ahmed, Dáud, Báu, Suleh Mahomed, and Harji. Price marked on each. *For sale.*
- THREE BHALA PHALS.—Spear-heads. Maker, Ahmed Ismail. Price Rs. 2, 2, and 1 respectively. *For sale.*
- PISTOL.—Maker, Alia Mahomed. Price Rs. 40. *For sale.*
- 12 SWORDS.—Makers, Nur Mahomed, Ahmed, and Suleman. Price marked on each. *For sale.*
- 26 TABARS.—Battle-axes. Makers, Ahmed, Ismail, Alia, Omar, Báu, and Suleman. Price marked on each. *For sale.*

- TEN DHÁS.—Makers, Nur Mahomed, Ahmed, Ismail, Alia, and Báu. Price marked on each. *For sale.*
- SWORD.—With enamelled silver mounting. Exhibited by His Highness Mir Ali Nurád Khán Tálpur, of Khairpur. Price Rs. 977. *Not for sale.*
- LARGE KNIFE.—With gold and silver mountings. Exhibited by His Highness Mir Ali Murád Khán Tálpur of Khairpur. Price Rs. 119. *Not for sale.*
- SWORD HILT.—Maker, Mulji, Govind. Lent by the Gondal Darbar, Káthiáwár.

CUTLERY AND HARDWARE.

- 48 ADKITA.—Nut-crackers. Makers, Ahmed Ismail and Dáud Khamisa. Price marked on each. *For sale.*
- 22 KNIVES.—Makers, Alia, Nur Mahomed, Ahmed, and Dáud. Price marked on each. *For sale.*
- FIVE KNIVES.—Price marked on each. *For sale.*
- TWO PAIRS OF SCISSORS.—Prices As. 8 and 6 respectively. *For sale.*
- SUDI (a pair).—Nut-crackers. Maker, Mulji Govind. Lent by the Gondal State, Káthiáwár.
- SUDI.—A nut-cracker. Maker, Murar Daje of Baroda. Lent by His Highness the Mahárájá of Baroda.
- TIN BOX.—Maker, Ahmed Bora. Lent by the Gondal Darbar, Káthiáwár.
- THREE SUDIS.—Nut-crackers. Makers, Sukha Narbheram and Ranchod Kándas. Exhibited by the Central Committee, Baroda. Prices As. 12, Re. 1-4, and As. 12 respectively. *For sale.*
- IRON BALANCE LAMP.—Maker, Ishvar Trikam. Exhibited by His Highness the Mahárájá of Baroda. Price Rs. 15. *For sale.*
- HOOKEA.—With pipe and a spare pipe. Maker, Kuber Haribháí and Narottam of Surat. Price Rs. 12-8. *Not for sale.*
- HOOKEA BOWL.—Maker, Tuljaram Brijvallabh of Surat. Price Rs. 10. *Not for sale.*

CLASS XXIX.—BASKETWARE.

Bamboo baskets lined with cloth and decorated with lacquer, *khaskhas* baskets, boxes, and fans ornamented with lace and beetle's wings, are specialties of Sávantvádi. Poona turns out *khaskhas* baskets and fans in imitation of the Sávantvádi-ware. The articles are, however, inferior in workmanship, being made of cowdung and paper and coated with a layer of the fragrant *khaskhas* root. At Poona there are ten to twelve Jingars in Vethái Peth and Aditvár, who make *khaskhas* baskets and fans. They are saddlers by trade; but as the demand for native-made saddles has declined, they have taken to *khaskhas* work, there being a considerable demand for articles in this material. They say they came from Bágalkot, and that they speak Gujrathi at home. The average income of a *khaskhas*-ware maker at Poona ranges from Rs. 12 to Rs. 15 per mensem. At the Yerrowda Thana and Ratnágiri jails baskets, chairs, and other articles are made of cane, and in the city of Bombay itself several Chinamen carry on an extensive business in basketware. At Sávantvádi this industry is carried on by the people of the Jingar caste, the number engaged in it being only eleven. Their original craft is that of making saddles, which they practise in addition to the *khaskhas* and embroidery work. They raise capital by obtaining money in advance from the people who order the articles, and obtain raw materials from traders in the local *bazar* on credit, except *khaskhas*, which is found in abundance in the vicinity of Sávantvádi. The prices of the articles they make depend upon the kind and quality of materials used. The working hours are generally from 7 a.m. to 11 a.m. and from 2 p.m. to 6 p.m. The holidays on which they do not work are Ganesh-Chathurthi, Dasra, Divali, and Shimga-Purnima. Their business is slack

during the monsoon, when the sea communication with Bombay and other ports is closed. The raw materials used in the industry, with their prices, are as follows:—(1) *khaskhas*, the root of the *Andropogon muricatus*, at pies 6 per pound; (2) gold lace, Rs. 3 a tola; (3) tinsel, at As. 3 a tola; (4) satin, at Rs. 2 a yard; (5) peacock feathers, at Rs. 2 to Rs. 5 per 1,000; (6) silk, at Re. 1 for six tolas; (7) cloth at As. 3 a yard; (8) lake at As. 2 a tola; (9) gold spangles at Rs. 2 a tola; (10) silver spangles, at As. 4 a tola; (11) beetle's wings, at Re. 1 per 100; (12) iron wire, at As. 3 a reel; (13) thread, at As. 3 a reel. The following is the list of instruments employed in the industry, with their prices:—(1) chisel, cost As. 8; (2) hammer, cost As. 12; (3) hatchet, cost Re. 1; (4) saw, cost Re. 1-4; (5) "gávi" (a kind of tweezers), cost As. 10; (6) pair of scissors, cost Re. 1; (7) needles, cost pies 6. The demand for these articles is daily increasing, because they are now more known to Europeans, who send them to Europe as curiosities. It is difficult to describe the process of manufacturing each article in detail. The general process of manufacturing fans, &c., is as follows:—

Bamboo frames are in the first place made of the shape of the fan required. Upon these are worked the fans with velvet and satin and cloth and *khaskhas*, these being united by means of paste (made of tamarind seeds and white clay called *shadu*.) Wire and thread form the body of the fan. Upon this various devices are worked with gold thread, tinsel, beetle's wings, &c., according to the fancy of the worker. A border of peacock feathers is also put on the fans, which, when completed, are removed from the frames. The handles of the fans are made by Sutaris and Chitáris, and are either lacquered or painted, according to the description of fan for which they are required. Wages of workmen employed on day labour vary from As. 6 to 8. No assistance is received from children. Women make only ordinary fans of *khaskhas*, worth not more than As. 4 each. They also assist the men in the minor details of their professional work. There is no trade guild at Sávantvádi. The total value of articles made in this district in one year is estimated at Rs. 2,500. The workmen do not themselves take their articles for sale, but sell them to individual purchasers on the spot, or to traders, who take them for sale to Bombay, Poona, Belgaum, Goa, and other places.

A FAN.—Maker, Mahádev Bhavána Jingar. A semi-elliptical shaped hand-*pankha* (fan) made of *khaskhas*, embroidered with gold thread and ornamented with beetle's wings and tinsel, with a deep border of crimson satin, holder of wood, painted with figures. Price Rs. 25. *Not for sale*.

PANKHA.—Fan. Exhibited by the Chief of Sávantvádi. Maker, Rámchandra Esu. Price Rs. 16. *For sale*.

GOL-DABA.—Box. Exhibited by the Chief of Sávantvádi. Maker, Mahádev Bhaváni. Price Rs. 11. *Not for sale*.

BOX.—Exhibited by the Chief of Sávantvádi. Maker, Mahádev Bhaváni. Price Rs. 8. *Not for sale*.

BOX.—Contains lacquered toys. Exhibited by the Chief of Sávantvádi. Maker, Govind Krishna. Price Rs. 13. *For sale*.

PANKHA.—Fan. Maker, Mahádev Bhaváni Jingar. Price Rs. 25. *Not for sale*.

CANE FANCY BASKET, CANE PHOTO. FRAMES, AND CANE NEWSPAPER RACK.—Exhibited by the Collector of Ratnágiri. Makers, Prisoners of the Ratnágiri Jail. Price Rs. 6-8 for the set. *For sale*.

CLASS XXXI.—DECORATIVE WORK, INCLUDING CARVING AND ARTWARE.

WOOD-CARVING.

Wood-carving must have been very extensively practised at one time throughout the presidency of Bombay, as may be seen from the carved wooden houses

which are met with in nearly every town, but now the practice is confined principally to Ahmedábád, Surat, and Kánara. One of the most attractive features in the court is the portion of an ordinary native house from Baroda with doors from the old city of Dabhoi. Both are excellent examples of carving.

At Ahmedábád there are above 800 families of Sutárs, who are carvers in wood. The caste is divided into four sections,—Vaishnva, fifteen families; Maivada, 400 families; Gujar, 300 families; and Champánere, 100 families. Of these there are only 75 to 80 who can be classed as skilled artisans, the remainder being capable of only very rough work.

The wood is brought from the Kátpatiás or dealers in wood, who have about 30 shops in Ahmedábád. The money required for the purchase is generally advanced by the customer himself. They work from morning to evening with a rest of two hours at midday. Their instruments are of English make, with the exception of a few scoopers, which are supplied by the local *lohárs* or ironsmiths.

With the exception of a few carvers, who earned a precarious living by carving elaborate flower-stands, picture-frames, card-cases, &c., in blackwood for European demand, the art of wood-carving was almost extinct in Ahmedábád; but by the enterprise of Mr. Lookwood de Forest, an American gentleman, who has started an establishment there for the construction of carved furniture which is exported to New York, a revival has taken place. The establishment is under the management of Mr. Magganbhái Hattishing. About one hundred workmen are employed, who are paid from 12 annas to Re. 1-8 per day. In addition to employing all the best carvers in Ahmedábád, men have been brought from Kadi, Pattan, and Surat. The clever men are from Pattan. The designs for the carvers are drawn out by three *mistries*, Tribhuvan, a first-class man, Jalu, and Ranchord.

A cabinet has been purchased from this establishment, and is exhibited as being a good specimen of modern Ahmedábád work.

At Surat there were about 800 Pársi carvers at the beginning of this century, but many of them have left the business, and several others have migrated to Bombay, where they have shops in the Kalbádevi Road, in which they make and sell desks, glove and work-boxes, card-cases, paper-knives, chess-boards, &c., which are partly carved in blackwood and sandalwood, and inlaid work, and which are known as "Bombay boxes." At present Surat contains only twenty to thirty families of carvers, and not more than half a dozen shops.

Billimora, in the Baroda territory, sends a large collection for sale of the inlaid woodwork.

Wood-carving for houses is still largely carried on at Surat, and there are several workshops where doors, shutters, ceilings, and cupboards may be bought ready-made. A specimen of one of these doors is exhibited in the Court. It is characterised by considerable freedom and boldness of execution—a treatment most suitable to the size of the object decorated. Of the finer and more delicate kind of carving, two specimens are exhibited (Nos 46 and 47).

At Surat a considerable trade is carried on in toys, which consist of figures carved on wood and afterwards decorated by painting, gilding, and then varnished. A few specimens of these are also shown.

At Násik, which is famous for its old carved timber houses, the art of wood-carving is all but extinct. One man, however, was discovered, who said he was a carver, and he undertook to copy one of the windows in the Hingle's *vádú*, or house which is now used as a school. This specimen was exhibited.

In the Kanara district Mr. R. E. Candy, the Collector, reports that Gudegárs, or carvers in wood, are found in the Ankola, Kumta, Honore, Sidápur, and Sirsi subdivisions. They are quite a small community, numbering in all about 200 souls, Sudrás by caste, and came originally from Goa, whence they are said to have been driven by the Inquisition. Those who live above the Gháts speak Kanarese, while those on the coast speak chiefly Konkani. They are fair, middle-sized, intelligent, and quiet, but fond of drink, lazy, and very improvident. They are much employed in painting and decorating temples. They carve in

sandalwood, ebony, and ivory. The tools used are few and simple. Some of them have books with European designs, and they can generally copy anything put before them; but they prefer to work out their own designs. They make, as a rule, a rough sketch first on paper, and then with a pencil trace the design on the wood to be carved. The leading members of the guild are Santáya Shetti at Kumta, Krishnaya at Honore, Shesha at Sidápur, and Manjaya at Bilgi in the Sidápur taluka. They are very fond in their carvings of representing Shiva with the great serpent Vásuki coiled round his neck, Párvati in his lap, and their son Ganpati close by, while all around stand *rhishis*, warriors, and dancing-girls. Another favourite scene is Krishna seated in a tree with the clothes of the Gopis in his possession, while they who have been sporting in the water look up to Krishna imploring him to restore their clothes. The various expressions on the women's faces are excellently portrayed.

The two carved boxes made by Santaya, represent scenes from the Rámáyana, Mahábhárata, and the Puráns. The figures comprise Rám, Sita, Lakshman, Hanuman, the monkey-god, Rávana, his sister Surpanakha, Kumbha-Karna, his brother, and Indrajit, his son, Vishvámitra, Vashishth, Nárad, and other sages. Shiva and Párvati, the Pándavas, and various other fabulous beings are also shown.

Fifteen years ago the Bilgi carvers made a set of chessmen and board for Rs. 150. The black pawns were of ebony and represented Sikh soldiery with the short sword and buckler. The white pawns of sandalwood represented the old East India Company's sepoy in full uniform, with his musket on his shoulder. The kings were kings seated on elaborately carved thrones. The queens were prime ministers (*mantris*) kneeling before the king on one knee. The castles were elephants in full trappings ridden by "*mahouts*." The knights were warriors on horseback, and the bishops were men with drums or tom-tom riding camels. A year was required to get the whole completed. No works of this kind are undertaken except by special order.

One great point in ordering from the gudegárs is to remember that suitable pieces of sandalwood or ebony for carving large works are not easily got. They are mostly obtained from Mysore. Time must, therefore, be allowed, for the gudegárs will not work fast, but again they work safely, and very rarely spoil a carving once begun.

CABINET (*Kapát*).—Maker, Maganbhái Hattising, of Ahmedábád.

PORTION OF A CARVED WOODEN HOUSE-FRONT FROM BARODA.—Exhibited by His Highness the Gackwar. It is from an old house belonging to the Divan family of the Nawáb of Baroda, built before the conquest of Guzáth by the Maráthás. The house is from Baroda, while the doorway is from Dábhói, where it is obtained from an equally old house belonging to a bania.

BRACKET.—Carved by Místri Keshav Lavji. Lent by His Highness the Mahárájá of Baroda.

THREE BOOK-STANDS.—Carved in sandalwood. Maker not known. Lent by His Highness the Mahárájá of Baroda.

WRITING-BOX.—Maker, Maganbhái Hattising of Ahmedábád. Price Rs. 120. *For sale.*

PICTURE-FRAME.—Maker, Maganbhái Hattising of Ahmedábád. Price Rs. 60. *For sale.*

INKSTAND.—Maker, Maganbhái Hattising of Ahmedábád. Price Rs. 40. *For sale.*

KHIDAKI.—Copied from Hingle's *váda* and Raje Bahádar's *váda* at Nasik. Maker, Lanuman Bábjí. Price Rs. 117.

* *From Surat.*

CHANDANI PETI.—Toilet-boxes. Maker, Mulchand Káshirám. Price Rs. 80 and Rs. 40. *Not for sale.*

- DASTANDÁN.—Glove-box. Maker, Fardunji Framji. Price Rs. 14. *Not for sale.*
 CHÁBKÁCHI MUTH.—Handle for a whip. Maker, Rájáráam Dullabhrám. Price Rs. 6. *Not for sale.*
 BARSÁKH NE BARNÚ.—Door. Maker, Pestonji Kátpátio. Price Rs. 40. *Not for sale.*

From Kanara.

- POTHICHI PHALI.—Carved boards or slabs. Maker, Krishnabu Ravalaya. Price Rs. 50 each. Purchased.
 PANKHA.—Fans. Maker, Krishnabu Ravalaya. Price Rs. 20 each. Purchased.
 KÁGÁD KÁPNYÁCHI SURÍ.—Paper-cutters. Maker, Vishun bin Laxuman. Price Rs. 2-8 each. Purchased.
 PETI.—Glove-box. Maker, Sheshagiri Subhanna. Price Rs. 20. Purchased.
 PETI.—Card-case. Maker, Hanmanta bin Somansheti. Price Rs. 8. Purchased.
 CHAURI.—Chauri with handle. Maker, Sheshapa bin Hukkma. Price Rs. 30 each. Purchased.
 PETI.—Card-cases. Maker, Hanmanta bin Somansheti. Price Rs. 7 each. Purchased.
 KÁGÁD KÁPNYÁCHI SURÍ.—Paper-cutters. Maker, Hanmanta bin Somansheti. Price Rs. 2 each. Purchased.
 POTHICHI PHALI.—Carved board. Maker, Ganpati bin Govindsheti. Price Rs. 40. Purchased.
 PETI.—Casket. Maker, Santaya. Price Rs. 475 for pair. Purchased.
 A CARVED SHUTTER.—Maker, Fateh Mahomed Haji. Exhibited by the Katch Council of Administration. Price Rs. 181 -1-1. *For Sale.*
 CHIP JADELI PETI.—A black-wood box. Lent by His Highness the Jám Sáheb of Jámnaagar (Navánagar.) It is a writing-box made of black-wood, inlaid with mother-o'-pearl. Maker, Mona Rajani, carpenter in the Darbár workshop. Price Rs. 44-4.
 WRITING-BOX. *Inlaid with brass.*—Maker, Kala Mulji. Price Rs. 40. Lent by the Morvi Darbar.
 CHAIR. *Black-wood, carved.*—Makers, Ludha Ebrahim & Co., Bombay. Local price Rs. 75. *For sale.*
 FLOWER-STAND. *Black-wood.*—Makers, Ludha Ebrahim & Co., Bombay. Local price Rs. 50. *For sale.*
 CARVED BOX.—Makers, prisoners at the Kadi Jail, Baroda. Price Rs. 25. *For sale.*

IVORY-WORK.

Ivory-carving is practised only to a small extent in the Bombay presidency. Ivory figures are made in Bombay and Surat by Parsi work-box makers, but of late they have taken to using stag-horns instead. These specimens are described under Surat Toys. Combs are made of ivory at Poona, where there are half a dozen shops opposite the temple of Ganapati, in Kasba Peth. Two of them belong to Sonárs, and the rest to Maráthás. Almost all the original workers have left the trade for want of support. The comb-makers have no capital, and raise money by borrowing it at Re. 1-8 per cent. per mensem and Re. 1-8 per cent. commission on the sale-proceeds. The samples have been obtained through the Collector of Poona. An excellent specimen of ivory-carving is sent from Katch in the form of a jewel-box.

MURLIDHAR.—Krishna blowing the flute [*mruli*, a flute]. Maker, Bhiva Mistri of Poona. Price Rs. 50. *Not for sale.*

COLLECTION OF IVORY PAPER-CUTTERS, PEN-HOLDERS, AND PAPER-WEIGHTS.—Exhibited by Shekh Kásammia Munshi (who is the maker) through the Political Agent, Káthiáwár.

JEWEL-BOX.—Sent *for sale* by the Katch Council of Administration. Maker, Punja Shámji, of the Bhuj School of Art. Price Rs. 385-10-1.

TWO PHANIS AND TWO KANVÁS.—Double and single combs. Maker, Náráyan bin Tukárám Khodge, of Poona. Price Rs. 3, 2, and 3. *Not for sale.*

COLLECTION OF CARVED IVORY WORK.—Lent by His Highness the Maharájá of Baroda.

COLLECTION OF IVORY INLAID WORK.—Sent by the Baroda Central Committee. Maker, Sorábji Jámásji Bilimoria. Prices on each article. *For sale.*

A FRAME WITH THREE IVORY FIGURES.—Maker, Lála Mansukh of Baroda. Price Rs. 120. *For sale.*

BOX (CARVED).—Lent by His Highness the Náváb Sáheb of Junagad, Káthiáwár.

LACQUEREDWARE.

A large collection of lacqueredware is exhibited, showing the several varieties executed in the presidency, —from the small wooden toys of Surat, the fruits of Gokák, to the rich lacquered work of Hyderabad, with hunting scenes in outline, delicately tinted on a rich brown ground, and the brilliantly coloured lacquer of Sávantvádi illustrating subjects from Hindu mythology.

The Sind workers are Musalmans, who state that they came originally from Zanzibar. They are very indolent, irregular in their habits, and poor, and the capital they require is borrowed from dealers. From August to November the demand is brisker than during any other time of the year, although the Huzur Deputy Collector, Hyderabad, reports that of late the demand for Sind lacqueredware has decreased, and that the industry is declining. The annual outturn in Hyderabad is only about Rs. 1,000 to Rs. 1,300.

At Sávantvádi there are only half a dozen workers in lacquered-ware, four of them being Sutárs (carpenters) and two Chitáris (painters) or Jíngars. One has capital of his own, while the others either receive advances from customers or obtain the raw material on credit. They work from 7 to 11 in the morning and from 2 to 6 in the evening, stopping all work on *Ganesh chaturthi*, *Diváli*, *Shimga*, and the two eleventh days (*ekádashis*) in the lunar months of *Ashádh* and *Kártik*. Their business is slack during the monsoon for want of communication with Bombay. The demand is reported by the Political Agent to be decreasing, trade in lacquered *toys* having been replaced by European and Chinese toys. The workers are never employed as day-labourers. Their average daily income ranges from As. 8 to As. 14 per head. The annual outturn of lacqueredware at Sávantvádi is said to be about Rs. 2,000, and the articles are sent to Bombay, Poona, Belgaum, Baroda, Dhárwár, Satára, Kolhápúr, Goa, and several other places.

COLLECTION OF LACQUEREDWARE.—From Hyderabad, Sind. Makers, Mahomed Jáfar and Sukhio Undhandás. Price for the set Rs. 79-5. *Not for sale.*

GANJIPHA.—Set of playing-cards in which the ten incarnations of Vishnu are represented. Maker, Gopál Rámchandra, of Sávantvádi. Price Rs. 26. *Not for sale.*

TWO SETS OF TEAPOY LEGS.—Exhibited by the Dasái of Sávantvádi. Price Rs. 5 each.

KHEL.—A set of lacquered toys. Exhibited by the Sir Desái of Sávantvádi. Price Rs. 12.

. HORN-WORK.

Viziadurg, Jaitápúr, and Málvan, in the Ratnágiri district, contain a few Sutár families, who know the secret of shaping bison's horns into cups, plates, animals, and caskets. About thirty years ago the only articles turned out were

trays and caskets for the worship of idols, but of late cups of various shapes, lamp-shades, animals, notably snakes, are made to order for Europeans, which has given a start to the industry. The following samples are obtained through the Collector of Ratnágiri. They are not for sale:—

CANDLE-STICK.—Made of bison horns, ornamented with cobras. Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 50.

FOUR SAMPUSHT.—Caskets for keeping idols. Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Re. 1-8.

TWO COMBS.—Maker, Shaikh Kásammia Munshi of Rajkot.

SNAKES (*a pair*).—Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 12.

SNAKE.—Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 6.

TRAY.—Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 3-8.

KAMAL (or lotus) on a Nandí (or bull) with a cobra. It is used as the seat of Mahadev or Shíva. Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 7.

COWS (*a pair*).—In a sitting posture. Maker, Dádu Mukund Sutár of Viziadurg, Ratnágiri. Price Rs. 8.

FOUR SHOE-HORNS.—Maker, Shaikh Kásammia Munshi of Rajkot.

A CARVED BISON'S HORN.—Lent by His Highness the Mahárájá of Baroda.

A SPOON.—Made of buffalo horn. Lent by His Highness the Jám Sáheb of Jámnagar, Káthiáwár. Maker, Mona Rajani. Price Re. 1-10.

A KNIFE HANDLE.—Of buffalo's horn. Lent by His Highness the Jám Sáheb of Navánagar, Káthiáwár. Maker, Mona Rajani. Price Re. 1-8.

COLLECTION OF HORN-WORK.—Sent by the Political Agent, Káthiáwár. Maker, Shaikh Kásammia Munshi of Rajkot.

DECORATIVE WORK.—(MISCELLANEOUS.)

SURAI.*—A cocoanut mounted on a stand and fitted with a pipe so as to serve as an *attardan*. The cocoanut is inlaid with arabesques in an amalgam of quicksilver and tin. Maker, Nánu Jiva of Sávantvádi. Price Rs. 2-8. *Not for sale.*

DABA.—A cocoanut mounted on a lacquered stand and painted with figures of Hindu deities in medallion, which are divided by painted borders representing flowers. Maker, Gopál Rámchandra of Sávantvádi. Price Rs. 2-8.—*Not for sale.*

PANKHA.—Fan from Poona. Price Rs. 30. *Not for sale.*

RULER.—Made of betelnuts joined together. Maker, Virji Ládha. Lent by the Gondal Darbar, Káthiáwár.

WALKING-STICK.—Made of betelnuts joined together. Maker, Govindji Mekanji. Lent by the Gondal Darbar, Káthiáwár.

PHUVÁRÁNI PUTLI.—A top for a fountain. Lent by His Highness the Mahárájá of Baroda. Maker, Keshav Lavji.

CHANCHI.—Bag for *pán-supari*. Purchased at the Poona Native Art Exhibition. Price Rs. 3-8. *Not for sale.*

A panel of colored chunam wall decoration similar to the Italian "sgraffito," from Broach. *Not for sale.*

CARVING IN MARBLE.

Building being extensively carried on throughout the Presidency, notably at Bombay and Baroda, the carving of the decorative details is executed by a class of natives called Salát, who are Gujrathis, and are found at Bhuj, Mándvi, Kera, Nalia, and Kathora, in Katch, as well as at Jámnagar. There are

about 700 to 750 of them in the Katch State, and about 1,000 to 1,200 at Jámnnagar.

Although most of the work is in stone, marble is used and is obtainable at Davria in Katch, and Káthiawár, but a good deal is imported from Italy.

CHHATRI OR CENOTAPH.—A portion of a sculptured marble chhatri designed by Mr. Griffiths, Superintendent of the Bombay School of Art, and erected by His Highness the Thákur of Bhávnagar in memory of his late wife, is placed in the centre of the wall of the Bombay Court. The detail of the perforated window was elaborated by Rannal Lira of the Bombay School, and the carving executed by Valla Hira, a former student, and now head *mistri* to the Bhávnagar State. A water-colour drawing by Mr. Griffiths shows the picturesque surroundings of the building, which is being erected under the superintendence of Mr. R. Proctor Sims, C.E., the State Engineer, Bhávnagar.

NANDI.—Sacred bull. The *Vahan* or vehicle of Shiva, by Vall Hira, in Sicilian marble. Lent by His Highness the Thákur of Bhávnagar.

KÁCHHAMO.—Turtle. An emblem placed below the bell in a Shivite temple, by Valla Hira in Sicilian marble. Lent by His Highness the Thákur of Bhávnagar.

MAHISHÁSUR MATHANI.—Maker, Daysáram Motiráram of Baroda. Price Rs. 50. *For sale.*

CLASS XXXII.—CARPETS, HANGINGS, TAPESTRY, FURNITURE STUFFS, MATTING, PAPER-HANGINGS.

CARPETS.

Carpets are manufactured only in the jails of the Presidency, such as the Yerrowda Jail near Poona, Thána, and Karáchi. Specimens are shown from the first and last named jails. Those from the Yerrowda Jail are copied from some old Persian carpets discovered in the Asár Mahál, Bijápúr. Two of these are purchased and two are for sale. *Satranjis* or *darris* (cotton carpets) are made at Dhárwár, Belgaum, Ahmednagar, Kaládji, and some of the jails. A few examples are shown.

TWO WOOLLEN CARPETS.—(14' \times 10½' and 15' \times 10½' respectively). Makers, prisoners in the Yerrowda Jail, Poona. Prices Rs. 223 and Rs. 240 respectively. *Not for sale.*

TWO WOOLLEN CARPETS.—(21' \times 16' and 7' 9" \times 11' 9" respectively). Makers, prisoners in the Yerrowda Jail, Poona. Prices Rs. 530 and 160 respectively. *For sale.*

GÁLICHA.—Woollen carpet from Karáchi, Sind. Price Rs. 25. *Not for sale.*

SATRANJI DURRI.—Cotton carpet. Maker, Náthe Sáheb *wallad* Hasain Sáheb of Navalgund, Dhárwar. Price Rs. 20. *Not for sale.*

SATRANJI, DURRI.—Cotton carpet from Kaládgi. Price Rs. 12. *Not for sale.*

CLASS XXXIV.—GOLD AND SILVER WORK.

There is perhaps no country in the world in which gold and silver ornaments are so much in use for personal adornment as India. Every village has its own *sonis* or *sonárs*, who are goldsmiths as well as silversmiths, and every family, no matter how poor, has its ornaments for the female members of the household; and rather than allow them to go without what is considered to be the essential ornaments which custom has prescribed, money is borrowed at ruinous interest, even by those of the higher classes, for the purchase of these articles of adornment.

Besides these ornaments are the silver vessels in use among the wealthier class of natives, and the vases, cups, tea-services, &c., in *repoussé* work for the European market. These were formerly made only in Katch, but now they can be had in Bombay, Poona, Ahmedábád, and Ahmednagar, where Katch silversmiths are employed. Owing to the increased demand for silverwork, its artistic qualities have deteriorated in proportion. Specimens are exhibited by the Darbár from Katch, by Messrs. Cursetji and Sons of Ahmednagar, and by Mr. Terry of Bombay, who has in his employ an excellent Katch workman named Trikamji. From Aden is shown a collection of silver ornaments worn by Arab and Somáli women, deserving of special notice. The work is massive, the execution large and bold in treatment. The belt with bells, the necklace in which large amber beads are introduced, and the armlets and bangles, are splendid specimens of barbaric treatment. The character of the ornament is a curious blending of Indian and Arabic.

In Katch there are about 3,500 *sonis*, or gold and silversmiths, distributed over the province. They say that they were once *vánis*, and state that about a thousand years ago they took to working in gold, and therefore came to be called *sonis* from *sone*, gold. One section among them, called *patni sonis*, claim to be Songadh Rajputs, who at the advice of Sidh-Ráj Jayasing (1094-1143) became goldsmiths, and are called *Patnis*, from having come down from Pattan in Gujráth. *Kansára sonis*, another sect, claim to have once been Kshatriyás, or warriors, and that at a certain time of adversity they took to this calling at the suggestion of their goddess Mahákáli. The third sect, *Vania sonis*, came to Katch from Bhinmal or Shrimal through Gujráth about two hundred years ago. *Márvádi sonis* now found in Katch came there from Márvád about 250 years ago. A few workmen have capital enough to buy gold and silver on their own account, but usually they are the paid servants of the Vania, Bhátia, and Khoja merchants. Some buy worn-out ornaments, which are again worked into new articles. As a general rule in Katch gold and silver is supplied by the customer and handed over to the *sonis* for being worked into ornaments, the latter being paid at As. 4 to Rs. 2 for each *tola* of gold, and As. 1 to 8 for each *tola* of silver. Each section or caste has its own guild or *jamát*, with an alderman, a code of rules, and a fund, which is managed by the alderman and the committee (*panch*) for the purpose of defraying expenses in connection with marriage ceremonies, for the hire of vessels used at feasts, and for the payment of fines. The total outturn of silverware for European use is said to amount to Rs. 5,000 to Rs. 8,000 a year, while the outturn of gold and silver ornaments for native use is as much as 4 to 5 lakhs of rupees a year.

Referring to Aden, the First Assistant Political Resident reports that besides the jewelry and goldsmith's work—the only description of work of which it was considered worth while to forward specimens to the Exhibition—the various handicrafts pursued by the residents in Aden are of the most ordinary description. There are about 79 (Census, 1881) persons working as gold or silversmiths. They are mostly Jews.

The following samples are purchased in BOMBAY from a Gujráth soni. Rámji Bhagwán, who works with about twenty to twenty-five silversmiths, and sells ready-made sets of silver ornaments for the use of Hindus.

LANGAR.—Worn by young girls. Price Rs. 50. *Not for sale.*

ATHÁSIO GAHU.—Worn by Gujráth women of all sects. Price Rs. 40. *Not for sale.*

KADOLI.—Worn by Bhátia and Lohár girls, occasionally Bania girls. Price Rs. 50. *Not for sale.*

ATHÁSIO BAJRI.—Worn by Gujráth women of all sects, and Khoja and Meman women. Price Rs. 54. *Not for sale.*

LANGAR.—Worn by Gujráth women of all sects, and by Khoja women. Price Rs. 39. *Not for sale.*

JHÁNVEL.—Worn by Hindu children. Price Rs. 6 to Rs. 9-8. *Not for sale.*

GANTHAN GHUGRA.—Worn by Gujráth boys of all sects. Price Rs. 22. *Not for sale.*

KHOTHÁRU.—Worn by Kachhi (from Katch) boys and girls. Price Rs. 16. *Not for sale.*

KARDA.—Worn by Bania and Bhátia women and girls. Price Rs. 4. *Not for sale.*

KARDI.—Worn by Bania and Bhátia women and girls. Price Re. 1-4. *Not for sale.*

JODVA.—Worn by Dakshani (*Dekkan*) women. Price Rs. 2-12. *Not for sale.*

JODVA.—Worn by Gujráth women of all sects. Price Re. 1-8. *Not for sale.*

KARDA.—Worn by Gujráth women of all sects. Price Rs. 4-12 to Rs. 7-8. *Not for sale.*

The following sample of silver ornaments worn by Arab and Somali women have been obtained from ADEN.

BARIM, *Arab*.—Waistbelt. A broad silver belt made of a succession of squares, stamped with designs, $2\frac{1}{2}$ to 3 inches wide. On the lower side a number of bells in groups are suspended by chains. Price Rs. 134-4. *Not for sale.*

HARZ, *Arab*.—Necklace. A flat amulet of oblong shape, usually containing verses of the Korán, worn suspended round the neck by a chain, hanging as low as centre of breast. Price Rs. 19-6. *Not for sale.*

MURIAH, *Arab*.—A necklace of beads, hexagonal or round, wreathed in silk, and worn round the neck. Price Rs. 6. *Not for sale.*

HILÁK, *Arab*.—Earring. Worn in the upper or the lower lobe of the ear. Price Rs. 4. *Not for sale.*

SILSILAH, *Arab*.—Necklet. Plain silver cable, worn (round the neck, hanging half-way down the breast. Price Rs. 13. *Not for sale.*

HANSHAH, *Arab*.—Armlet. Consisting of six oblong lockets of silver threaded through rings attached to the upper side by a silver chain. Price Rs. 32-8. *Not for sale.*

ADAÁD, *Arab*.—Armlet. Hollow circular armlet, with overlapping ends, terminating in various shaped pendants. Price Rs. 52. *Not for sale.*

BAZWÁNDI, *Arab*.—Silver bangles, $\frac{1}{2}$ inch thick, having various shaped silver hollow pendants suspended in groups of three and one alternately. Price Rs. 80. *Not for sale.*

HADÁNID, *Arab*.—Hollow circular armlet with designs stamped and a projecting knob. Price Rs. 37. *Not for sale.*

AWÁK, *Arab*.—Silver bracelet usually solid, cut hexagonally with ornamental knobs. Price Rs. 39-4. *Not for sale.*

KURAIT, *Somáli*.—Earrings. Silver bars with a ring at one end and stud at the other, worn in upper part of the ear. Price Rs. 2-6. *Not for sale.*

HÁLKADAYA SILSILAH, *Somáli*.—Earrings resembling signet rings, worn in lower lobes of both ears, a double silver curb chain connecting them round the neck, the loose loops of chain hanging over shoulders in front. Price Rs. 13-8. *Not for sale.*

GILBAH, *Somáli*.—Crescent-shaped necklace studded with circular bosses and stamped with designs having pendants in groups of three; from centre hangs a large pendant; a row of amber runs along the top of the crescent, which is suspended from the neck by a necklace of double rows of beads and rough lumps of amber, among which are placed four balls, called "lozah." Price Rs. 65. *Not for sale.*

ZANUD, *Somáli*.—Hollow circular armlet. Price Rs. 25-2. *Not for sale.*

WAKUF, *Somáli*.—Broad bracelet resembling four flat bangles joined together, stamped with design. Price Rs. 35 14. *Not for sale.*

The following imitation ornaments have been procured from POONA.

The originals are made of gold and silver, while these are of brass.

- MUD.—Head-ornament. Price Rs. 2. *Not for sale.*
 CHANDRAKOR.—Head-ornament. Price Re. 1-4. *Not for sale.*
 PHUL.—Head-ornaments. Price As. 12 to Rs. 2. *Not for sale.*
 KETAK.—Head-ornament. Price Re. 1-4. *Not for sale.*
 KAP.—Earrings. Price Rs. 5. *Not for sale.*
 TONGALE.—Earrings. Price Rs. 2. *Not for sale.*
 BUGDYA.—Earrings. Price Rs. 2. *Not for sale.*
 PÁNBALIA.—Earrings. Price Rs. 2. *Not for sale.*
 BÁLYA.—Earrings. Price Re. 1. *Not for sale.*
 NATH.—Nose-ring. Price Rs. 2-8. *Not for sale.*
 CHUNPATTI.—Necklace. Price Rs. 5. *Not for sale.*
 MOTYÁCHE PENDE.—Necklace. Price Rs. 6-8. *Not for sale.*
 VAJRATIK.—Necklace. Price Rs. 2. *Not for sale.*
 KANTHA.—Necklace. Price Rs. 5. *Not for sale.*
 POT.—Necklace. Price Re. 1. *Not for sale.*
 TÁNDALI PÔT.—Necklace. Price Rs. 4. *Not for sale.*
 THUSI.—Necklace. Price Rs. 7-8. *Not for sale.*
 SARI.—Necklace. Price Rs. 3 and Rs. 4. *Not for sale.*
 CHÁPEKALI MALA.—Necklace. Price Rs. 6. *Not for sale.*
 HABBAR-BEVDI MALA.—Necklace. Price Rs. 7. *Not for sale.*
 VELA.—Armlet. Price Rs. 5. *Not for sale.*
 TULBANDI.—Armlet. Price Rs. 4-8. *Not for sale.*
 BAJUBAND.—Armlet. Price Rs. 3. *Not for sale.*
 PÁTALIAS.—Wristlets (pátalias). Price Re. 1. *Not for sale.*
 GÔT.—Price Rs. 2. *Not for sale.*
 BÂNGDYA.—Bangles. Price Rs. 3-8. *Not for sale.*
 TODHE.—Chains for the wrists. Price Rs. 4. *Not for sale.*
 GAJRE.—Armlets. Price Rs. 2. *Not for sale.*
 KANENE.—Armlets. Price Rs. 12. *Not for sale.*
 ANGTHI.—Ring. Price As. 8. *Not for sale.*
 SALLE.—Rings. Price As. 8. *Not for sale.*
 MOHORECHI ANGTHI.—Ring. Price As. 12. *Not for sale.*
 KHADYACHYA ANGTHYA.—Rings. Price As. 8. *Not for sale.*
 KAMARPATTA.—Price Rs. 2. *Not for sale.*
 VÁLA.—Anklets. Price Rs. 4. *Not for sale.*
 TODHE.—Chains for the ankles. Price Rs. 8. *Not for sale.*
 PAIJAN.—Price Rs. 7. *Not for sale.*
 RANAJODVI.—Toe-rings. Price Re. 1-8. *Not for sale.*
 JODVI.—Toe-rings. Price Re. 1-8. *Not for sale.*
 PHULE.—Toe-rings. Price Re. 1-8. *Not for sale.*
 GEND.—Toe-rings. Price Re. 1. *Not for sale.*
 MASOLIA.—Toe-rings. Price Re. 1. *Not for sale.*
 CHANDRAHAR.—Necklace. Price Rs. 8. *Not for sale.*
 CHANDRAKOR.—One gold ornament from SÁVANTVÁDI. Maker, Jairám Rámchandra Set, sonár. Price Rs. 36-8. *Not for sale.*
 DHARWAR contributes three samples under this heading.
 SONYÁCHI-DABI.—Gold locket. Maker, Rámápa Morabkar of Dhárwar. Price Rs. 75. *Not for sale.*
 RUPYÁCHI-DABI.—Silver locket. Maker, Gopálapa Mudkapa Garag of Dhárwar. Price Rs. 14. *Not for sale.*
 RUPYÁCHA-CHÁKU.—Silver knife. Maker, Gopálapa Mudkapa Garag of Dhárwar. Price Rs. 10. *Not for sale.*
 TABAK, *Mar.*—Used as a plate in which ingredients of *pán-supári* are arranged before being distributed. For ordinary purposes a brass *tabak* is used. A silver one is used only on special occasions, when strangers are invited to partake of *pán-supári*. Price Rs. 50-6. Purchased. Maker, Gangarám Dullabh, Nasik.

ATTARDÁNI, *Hind., Mar.*—Purchased. Maker, Gangáram Dullabh, of Nasik. Price Rs. 18-2.

KATCH sends a large collection of silverware for sale:—

THREE PYÁLAS.—Goblet. Made at Bhuj by Omersing Máwji. Price Rs. 93-13-6. *For sale.*

Goblet. Made at Bhuj by Omersing Máwji. Price Rs. 93-13-6. *For sale.*

Claret-jug. Made at Bhuj by Omersing Máwji. Price Rs. 198-3. *For sale.*

RÁKABI.—Card-tray. Made at Bhuj by Omersing Máwji. Price Rs. 37-10. *For sale.*

TAMBÁKHU PETI.—Tobacco-box. Made at Bhuj by Omersing Máwji. Price Rs. 35-7. *For sale.*

PAUCHI.—Bracelet. Made at Bhuj by Omersing Máwji. Price Rs. 18. *For sale.*

PAUCHI.—Bracelet. Made at Bhuj by Omersing Máwji. Price Rs. 15. *For sale.*

TEA-SET.—Tea-pot, milk-jug, and sugar-basin, by Omersing Máwji, Bhuj. Price Rs. 282-13-6. *For sale.*

TEA-SET.—Coffee-pot, tea-pot, sugar-basin, and milk-jug. Made at Bhuj by Omersing Máwji. Price Rs. 394-10. *For sale.*

PYÁLA RÁKABI, CHAMCHA.—*Three sets.*

1 cup, 1 saucer, 1 tea-spoon. Made at Bhuj by Omersing Máwji. Price Rs. 64-3. *For sale.*

GULÁBDÁNI.—Essence-holder. Made at Bhuj by Omersing Máwji. Price Rs. 50-1-6. *For sale.*

ATTARDÁNI.—Essence-holder. Made at Bhuj by Omersing Máwji. Price Rs. 61-10. *For sale.*

GOLD BROOCH.—Maker, Omersing Máwji, Bhuj. Price Rs. 28-2-6. *For sale.*

CENTRE PIECES.—Maker, Omersing Máwji, Bhuj. Price Rs. 355-4. *For sale.*

FLOWER-HOLDERS.—Maker, Jarádi Davekur Kanji, Bhuj. Price Rs. 10-8 to Rs. 11-2-6. *For sale.*

TOBACCO-BOX.—Maker, Jarádi Davekur Kanji, Bhuj. Price Rs. 15-15-6. *For sale.*

CIGAR-CASE.—Maker, Jarádi Davekur Kanji, Bhuj. Price Rs. 16-1-3. *For sale.*

NAPKIN-RINGS.—Maker, Jarádi, Davekur Kanji, Bhuj. Price Rs. 4-9-6 each. *For sale.*

GOLD LOCKET.—Maker, Jarádi, Davekur Kanji, Bhuj. Price Rs. 28-9. *For sale.*

GOLD LOCKET.—Maker, Harji Ratanji, Bhuj. Price Rs. 28-8. *For sale.*

GOLD SLEEVE LINK.—Maker, Harji Ratanji, Bhuj. Price Rs. 13-13. *For sale.*

TEA-SET.—One coffee-pot, one milk-jug, sugar-basin, and one tea-pot. Maker, Shámji Mukonji, made at Bhuj. Price Rs. 309-3. *For sale.*

TABLE SET.—Maker, Shámji Mukonji, Bhuj. Price Rs. 1,215-6. *For sale.*

SALVERS.—Maker, Shámji Mukonji, Bhuj. Price Rs. 161-10 and Rs. 211-7-6. *For sale.*

BELT.—Maker, Shámji Mukonji, Bhuj. Price Rs. 100. *For sale.*

BISCUIT-TRAY.—Maker, Davkan Kansára, Bhuj. Price Rs. 316. *For sale.*

GULÁBDÁNI.—Essence-holder. Maker, Jetha Dosa, Bhuj. Price Rs. 56-14. *For sale.*

CARDT-RAYS.—Maker, Bhuwan Mowji, Bhuj. Price Rs. 29 each. *For sale.*

LOCKETS.—Maker, Bhuwan Mowji, Bhuj. Price Rs. 5 each. *For sale.*

ATTARDANI.—Enamelled essence-holder. Exhibited by the Katch Council of Administration. Price Rs. 90. *For sale.*

BROOCH.—Enamelled. Exhibited by the Katch Council of Administration. Price Rs. 40. *For sale.*

Mr. Bhimrav Ramrav of BELGAUM sends the following gold ornaments for sale:—

NÁG PHUL.—Gold head-ornament, weighing *tolas* $2\frac{13}{16}$. Price Rs. 48.

PHUL.—Gold head-ornament, weighing *tolas* $1\frac{143}{16}$. Price Rs. 18-8.

PHUL.—Gold head-ornament, weighing *tolas* $1\frac{1}{10}$. Price Rs. 15.

FIVE DHARWAR WARAH—Price Rs. 22-8.

FOUR NEW AREKI WARAH—Price Rs. 20.

CASTING-BING.—Made of six images. Price Rs. 11.

PAUCHIS.—Ornament for the wrist, made up of two images. Price Rs. 11.

From Ahmadnagar.

Messrs. Cursetjee and Sons of AHMADNAGAR sent a large collection of silver articles for sale.

Messrs. Jaffer Suleman & Co. of BOMBAY send the following articles:—

TEA-SET.—Katch work, weighing $254\frac{1}{2}$ *tolas*, containing four pieces—coffee-pot, tea-pot, sugar-basin, and milk-jug. Price Rs. 509. *For sale.*

COFFEE-POT.—Katch work, weighing $74\frac{1}{2}$ *tolas* at Rs. 2 per tola. Price Rs. 149-8. *For sale.*

FIVE CUPS.—Katch work, $54\frac{1}{10}$, $52\frac{1}{2}$, $32\frac{1}{2}$, $32\frac{1}{2}$, $32\frac{1}{2}$ = $205\frac{1}{5}$ *tolas*. Price Rs. 410-2. *For sale.*

CLARET-JUG.—Katch work, weighing 93 *tolas*. Price Rs. 186. *For sale.*

TWO MUGS.—Katch work with covers, weighing $33\frac{3}{5}$, $34\frac{3}{5}$ = $67\frac{3}{5}$ *tolas*. Price Rs. 135-8. *For sale.*

AG-DÁN.—Katch work, weighing 32 *tolas*. Price Rs. 64. *For sale.*

TWO TUMBLERS.—Katch work, weighing $20\frac{1}{2}$, $18\frac{1}{2}$ = 39 *tolas*. Price Rs. 78. *For sale.*

“WAIT.”—Katch work, weighing $90\frac{1}{2}$ *tolas*. Price Rs. 180-8. *For sale.*

TWO SALVERS.—Katch work, weighing $37\frac{3}{4}$, $45\frac{1}{2}$ = $83\frac{1}{2}$ *tolas*. Price Rs. 186-8. *For sale.*

EGG-STAND.—Katch work. Has four cups and spoons, weighing 100 *tolas*. Price Rs. 200. *For sale.*

COLLECTION OF GOLD AND SILVER ARTICLES.—Lent by His Highness the Maharájá of Baroda. *Not for sale.*

JAMBIÁNU MYÁN.—Gold scabbard. Maker, Vasta Velora of Dhoraji. Lent by the Gondal Darbar, Káthiáwár.

CHÁNDLA.—Gold enamelled spangles. Maker Lálbhái Purshottam of Surat. Price Rs. 7-8 for the set. *Not for sale.*

PÁNDADI (One pair).—Gold enamelled pendants for necklace, &c. Maker Lálbhái Purshottam of Surat. Price Rs. 6. *Not for sale.*

TEA-POT.—Maker, Maganbhái Hattising of Ahmedábád. Price Rs. 160. *For sale.*

SILVER KETTLE.—Presented by His Highness Mir Alli Murád Khán Tálpur, of Khairpur. Price Rs. 150. *Not for sale.*

SILVER CUP, WITH COVERS AND SAUCER.—Presented by His Highness Mir Alli Murád Khán Tálpur, of Khairpur. Price Rs. 58. *Not for sale.*

TWO SILVER MUFFINEERS.—Pierced and enamelled. Presented by His Highness Alli Murád Khán Tálpur, of Khairpur. Price Rs. 28. *Not for sale.*

ATTADÁNS.—Enamelled with gold. Presented by His Highness Alli Murád Khán Tálpur, of Khairpur. Price Rs. 30. *Not for sale.*

COLLECTION OF SILVERWARE.—Sent by the Central Committee, Baroda. Prices given on each specimen. *For sale.*

OSTRICH EGG.—Mounted in silver. Exhibited by Mr. G. W. Terry, Bombay. Maker, Trikamji Dámji. *For sale.* Price Rs. 150.

FOUR EMU'S EGGS.—Mounted in silver. Exhibited by Mr. G. W. Terry. Maker, Trikamji Dámji. *For sale.* Price Rs. 95 each.

CLASS XXXV.—TOYS.

COLLECTION OF TOYS (*carved in stone*).—Lent by the Dhrángdra Darbar, Káthiáwár. Makers, Mahádev, Madhu, Jagjiran, and Premchand.

FOUR TOYS MADE OF BEADS.—Lent by the Gondal Darbar. Maker, Nathubháí.

A SPARROW.—Exhibited by the Baroda Central Committee. Maker, Manilál Jetháchand. Price Re. 1. *For sale*.

TWO ELEPHANTS.—Exhibited by the Baroda Central Committee. Maker, Khemchand Chaturbhuj. Price Rs. 7 each. *For sale*.

ELEPHANT FIGHT.—Exhibited by the Central Committee, Baroda. Maker, Khemchand Chaturbhuj. Price Rs. 7. *For sale*.

COLLECTION OF TOYS, LACQUERED FRUIT, AND VEGETABLES.—Lent by His Highness the Thákur Sáheb of Bhávnagar, Káthiáwár. Maker, Dungar Jiva.

14 SPECIMENS OF SURAT TOYS.—Makers, Framji Pestonji Bhamgára, Mulchand Káshirám, Rájárám Dullabhram, and Sorábji Pestonji.—*Not for sale*.

235 TOYS, CONSISTING OF IMITATION FRUITS.—Lent by His Highness the Mahárájá of Baroda.

COLLECTION OF GOKÁK TOYS.—From the Belgaum district, consisting of imitation fruits and figures of animals, Hindu gods, &c.—*Not for sale*.

COLLECTION OF TOYS.—Lent by the Gondal Darbar, Káthiáwár.

SECTION E—FABRICS, INCLUDING APPAREL, TOILET REQUISITES, AND OTHER OBJECTS OF PERSONAL WEAR OR USE.

CLASS XXXVIII.—COTTON FABRICS.

As the Hindus clothe themselves nearly entirely with cotton fabrics, a very extensive industry is carried on throughout the presidency in manufacturing the several articles of dress worn both by males and females, the principal being *sádis* or women's garments, *khans*, or bodice pieces, turbans, and *dhutis* or waist-cloths for men. Ahmedábád is noted for *sádis* and *dhutis*, Yeola for *sádis* and turbans, Sholápur and Ahmednagar for *sádis* and *khans*, and Karáchi for *lungis* (scarves), *susis* (striped fabrics), and *sarpos* (bed-covers).

Hand-spinning is almost an extinct industry. With the exception of a few Mahárs in the Dekkan, who spin a very coarse yarn, nearly all the weavers of cotton fabrics obtain their material from the Bombay mills or from Europe. Cotton fabrics are decorated in two ways—(1) by weaving the designs in the piece, and (2) by hand-printing in one or more colours by means of wooden blocks. Several specimens of both methods are exhibited. Cotton-printing is principally carried on at Ahmedábád, Kaira, Baroda, Broach, Malegaon, Katch, and some of the States of Káthiáwar, where *sádis kholios* (covering for *razais*) and *jájams* are made. The printing of the former is on fine calico, while that of the latter is on a coarser material, resembling canvas (*dangri*), which readily receives the dyes. Three very good specimens were exhibited on the ceiling of the Court; the one immediately over the Baroda doorway from Limadi near Ahmedábád, that in the middle bay from Broach, and the third was sent by the Katch Darbar and is admirable both in design and color. *Jájams* occupy in the native house the same place as the carpet does in that of the European. They are well adapted for ceiling decoration, and are now being introduced for that purpose.

At Ahmedábád about 400 Kanabis, 200 Musalmans, and 300 Khatris are employed in weaving *sádis* and *dhutis*, and there are about 100 shops in which *sádis* are sold and about 150 for the sale of *dhutis*. English yarn numbered 40, 50, and 60 is in use. About a lakh and a half worth of *dhutis* are manufactured in one year.

At Yeola there are about 900 looms for *sádis* and 2,000 for turbans. The *sádis* are woven by the Khattris and Maráthás, while the turbans by Momins, a sect of Musalmans who migrated from Upper India.

At Kaira 400 Hindu and 150 Mussulman houses are employed in cotton-printing. The printing is remarkably well done, clear, and not blurred, and is superior to that of either Ahmedábád or Broach. Bhagvándás Náráyanji, a Khatri, a fine-looking man of about 60, designs and cuts all the blocks in use. TEN CHHIDRIS.—Printed *sádis* for women. Makers, Mohokan Lallu and Dongarsi Talapchand of Ahmedábád. Price for the lot Rs. 14-5.

JÁJAM.—Printed cotton carpet from Broach. Maker, Ibrahim Ahmed. Price Rs. 30. *Not for sale.*

JÁJAM.—Printed cotton carpet. Maker, Avda Karsan. Lent by His Highness the Thakur Sáheb of Bhávnagar, Káthiáwár.

JÁJAM.—Printed cotton carpet. Lent by the Limdi Darbar. Price Rs. 9.

JÁJAM.—Lent by the Kutch Darbar. Price Rs. 10.

KHOLIO.—Lent by the Limdi Darbar. Price Rs. 3.

TWO PHADKIS.—Printed cotton garments worn by Hindu women of the lower classes. Purchased at Málegaum, Násik. Price As. 14.

From Kaira.

COLLECTION OF 41 CHHIDRIS.—Printed *sádis*. Makers, Shaje Kamál, Ali Jamál, Fatebhái Bullakhi, Hiráchand, and Bechardás. Prices ranging from As. 11 to Re. 1-14-9 each. *Not for sale.*

FIVE SHELUS.—Printed scarves. Maker, Bulákhi Parbhudas. Price Re. 1-4 to Re. 1-5 each. *Not for sale.*

TWO KHANDS.—Bodice-pieces. Maker, Bechardás Lálmohan. Price Re. 1-8. *Not for sale.*

TWO TURBANS.—Maker, Bechardas Lálmohan. Price As. 8 each. *Not for sale.*

TEN SÁDIS.—Women's garments. Presented by Colonel Charles Wodehouse, Political Agent, Mahi Kánta. Price Re. 1 each. *Not for sale.*

These *sádis* are made by the Bháwsár community of Pethápúr, a town in the Mahi Kánta, situated about 10 miles from Sádra. They are favourites with the females of Siam, and about three lakhs are exported from Pethápúr to that province annually. A large number is also sold by retail in Gujrat villages.

TWO KHÁRVÁS.—Red cloth. Maker, Haribhai Horaki, of Kotlad, in Kápadvanj subdivision, Kaira. Price Re. 1-4 each. *Not for sale.*

TWO KHOLIOS.—Printed sheets for *rajai* (bed-covers). Maker, Virchand Jerám of Kollad, in Kapadvanj subdivision, Kaira. Price Rs. 3 each. *Not for sale.*

AJRAK.—A printed counterpane. From Karáchi. Price Rs. 4. *Not for sale.*

SEVEN KHANS.—Bodice-pieces of cotton with designs printed in putty. Maker, Laháni Báí of Násik. Price Rs. 16-3 for the set. *Not for sale.*

THREE SAMPLES OF PUTTY-PRINTING FROM ADHOI.—Clothes of this description are worn by Wázirs and other tribes of Katch and Káthiáwár. Lent by the Morvi Darbár. Price Rs. 6-5-4 each.

TWO TABLE CLOTHS.—Cotton printed with gold and silver leaf. Maker, Nurbháí Amirbhái of Ahmedabad. Prices Rs. 10 and Rs. 46-4 respectively. *Not for sale.*

FIVE SUSIS.—At Re. 1-9 each, from Belgaum. *Not for sale.*

FOUR SAMPLES OF TARTAN.—Locally called '*tátin*.' By Gulám Mohomed Mustafa, Broach. Price As. 3 per yard. *Not for sale.*

PATKA.—By Gulam Mohomed Mustafa, Broach. Price Re. 1. *Not for sale.*

LUNGI.—Cotton Sash. From Ruatta, Karachi Sind. Price Rs. 3-3. *Not for sale.*

TEN SUSIS.—Trowser cloth of cotton. Presented by H. H. Mir Ali Murád Khán Tálpur, of Khairpur. Price Rs. 25. *Not for sale.*

CLASS XL.—SILK FABRICS.

Silk fabrics, either plain or mixed with gold thread, are chiefly woven at Yeola. Poona, Ahmedabad, and Surat, and silk fabrics without any admixture of gold are woven at Thana, Saswad, Belgaum, Revadanda in Kolaba, and Sholapur, each containing only a few looms.

Sádis or dresses for women, and *pitámbars* or sacred dresses for men, are the chief articles of trade. *Sádis* are cut into pieces 24 to 30 inches long and sold as bodice-pieces or *khans*.

The silk manufacture of Yeola is one of the most important of Násik industries, and is estimated to support 4,000 families. *Paithanis* (female silk garbs), *pitámbars* (silk cloths or sacred cloths for males and females), *lugdis* (silk *sádis*), *dupettas* (female scarves), and *khans* (bodice-pieces), from Yeola are in considerable demand among the higher classes of natives, not only among the wealthy, who daily wear these fabrics, but also among those who appear in them only on festive occasions. The establishment of the industry at Yeola, which now contains about 925 looms, dates from the beginning of the eighteenth century (1115H.), when one Raghoji Naik, a relative of the present Patel, by the promise of a monopoly, induced a certain Shámdás Válji, a Gujrat Vánia, to bring silk-weavers to settle at Yeola. The monopoly was continued by the Peshwa's Government, and newcomers could not start silk-looms in Yeola except by paying the original settlers a fee of Rs. 350. Of this amount Re. 1-4 went to the Kázi, Rs. 22-8 to the Peshwa's Government, and the remainder to the Gujratí silk-weavers for a caste dinner. Under the British rule the monopoly was at first respected. In 1837 the petition of a Pardeshi, named Bápu, for leave to open reeling and spinning machines in Yeola was rejected by the Assistant Collector, and his decision was, on appeal, upheld by the Collector. A further appeal to the Revenue Commissioner was more successful, and in September 1845 Bápu gained leave to set up a machine in Yeola. On the 26th of January 1848 the Gujratís filed a suit in the Civil Court for damages. The point was decided in their favour, but on appeal the High Court upset the decision (24th June 1864) and put an end to the monopoly. Since that time many classes of outsiders have taken to silk-weaving, and now there are 250 Khattris, 300 Koshtis, 200 Sális, and 25 Musalmans.

All the silk used at Yeola is imported in the raw state. It is received from three places,—China, Bengal, and Persia through Bombay. For trade purposes the workmen divide it into the following six classes:—

- (1) *Aval* (China, a variety of), at Rs. 17 a *sher* of 80 tolas.
- (2) Two varieties, *duem* and *lankein*, at Rs. 16-8 a *sher*.
- (3) *Sim*, at Rs. 16 a *sher*.
- (4) Two varieties, *sot* and *sálbáphi*, at Rs. 12 a *sher*.
- (5) Two varieties, *charám* and *bának*, at Rs. 8 a *sher*.
- (6) Two varieties, *shikárpuri*, worth Rs. 4 a *sher*, and *pamjam*, at Rs. 2-8 a *sher*.

The dealers, who are men of means with capital ranging from Rs. 5,000 to Rs. 4,00,000, make raw silk over to the twister or *rahátkari*, also called reeler, in whose establishment it is sorted, reeled, and twisted. Silk in the twisted state is called *sheria*. It is then handed over to the dyer (*rangdri*). Finally it goes to the weaver, (*mágvála*), by whom it is warped, sized, and woven.

The patterns in these fabrics are mostly taken from their resemblance to certain objects in nature and of daily use, such as *katári*, from the dagger of that name; *bugdí*, from the gold ornament with pearls worn by women in the ear.

At Poona there is a large silk-weaving industry, which has to a great extent competed successfully with Yeola. Four or five hundred looms are at work; of these nearly two-thirds are owned by Musalmans and the rest by Hindus. Among the Musalmans there are two subdivisions,—Mominis and Jhulahás,—and among the Hindus there are three,—Khattris, Koshtis, and Sális. They live mostly in

the Junáganj Peth, now known as Mominpura. The Musalman silk-weavers of Poona originally belonged to Dekkan Hydrábád, Dhárwár, Náráyan Peth, and Gul Makal. They migrated to Poona about two to five generations ago. As a class all the silk-weavers of Poona are mild, hard-working, and sober; the Hindus are, however, more thrifty than the Musalmans. They have to borrow from the silk-dealers of the city the amount required for buying silk yarn and gold thread, and when the fabric is ready they sell it on their own account, paying the amount borrowed to the creditors, who charge 3 per cent. on the proceeds.

The dyers of Poona are all Hindus; they have come from Paithan about four or five generations ago. These people invariably use aniline dyes, and this, together with the inferior and cheaper quality of the silk used, give the Poona silk-traders a decided advantage over the silk-traders of Yeola. Poona silks are sold to the local traders, who send them to Bombay. Demand for Poona silks is steadily on the increase.

Weavers are paid As. 8 to Re. 1-4 a yard for the fabric woven, according to the pattern. The weavers say that they earn about Rs. 15 to 25 a month each. Six *khans* or bodice-pieces are purchased at Poona to illustrate the patterns mostly in request.

At Tanna there are only twelve looms at present in the place of about 4,000, which have been noted by early travellers. A complete collection of the different designs and shades is purchased from C. D. Remedios for Rs. 110-8, who exhibits for sale thirty-three samples at As. 8 each.

LUGDE.—Two silk *sádis* from Belgaum. Price Rs. 55 and 65 respectively. *Not for sale.*

SÁDI.—From Yeola. Worn by native women of the higher classes. The border contains three designs as below:—

(a) Four stripes, called *gomi*, from its resemblance to the underside of a worm.

(b) *Katári*, from its resemblance to the blade of a *kátár*, a weapon.

(c) *Muthede*, from its resemblance to a row of first (*muth*).

(d) The ground is called *phutáni* and *chaukdi*, as there are squares (*chaukat*) resembling a grain of gram. Price Rs. 45. *Not for sale.*

KHAN.—With white ground and border woven without an intermixture of the white weft (*partiv*). The shuttle is turned back as soon as it reaches the inner side of the border, a separate shuttle containing red silk being used for the weft of the border. From the similarity of the flowers in the border to those of the *Rui calatropis gigantius*, it is called *Rui phuli*. It is also called *do gomi* (two *gomis*), from its resemblance to the rudimentary legs of a worm; *mutheddar* and *sadha*, from its ground being plain (*sadhi*.) Maker, Laxuman Vithoba, of Yeola. Price Rs. 4-8.

SÁDI.—Maker, Allibhai Tajbhái, of Surat. Price Rs. 25. *Not for sale.*

PÁCHHO.—Scarf. Maker, Keshavlál Kalyánbhai, of Surat. Price Rs. 5-8. *Not for sale.*

KHAN.—Bodice-piece. From Belgaum. Price Rs. 3-4. *Not for sale.*

KHAN.—Bodice-piece. From Kaládgi. Price Rs. 2-8. *Not for sale.*

COLLECTIONS OF SILKS.—Lent by His Highness the Jám, Sáheb of Jámnagar, Káthiáwár.

ATLAS.—Ten samples of satin. Lent by the Porebandar Darbar. Makers, Tajpál, Shámdani, Murar Nátháni, and Dungarsi Monji.

SILK KINKHÁBS.—Fifty-four samples. Maker, Allibhái Tajbhái, of Surat. Price Rs. 5 per yard. *Not for sale.*

SILK KINKHÁBS.—Two entire pieces. The design in one is called *shingado*, from its resemblance to the fruit of the *Trapa bispinosa*, and that in the other *khapedi*, *phul ne kerí* (slanting lines, flowers, and mangoes). Price Rs. 20 each. *Not for sale.*

PÁNCH PATO.—Or the five-banded (each band in different colour) silk cloth, used for petticoats. Maker, Amritlál Magan Bandhára, of Ahmedábád. Price Rs. 2-14-9. *Not for sale.*

FOUR SILK BORDERS.—From Revadanda, Alibág, woven by the Khatris of that town. Price Rs. 2-13-4 for the set. *Not for sale.*

SILK FABRICS.—15 specimens of fabrics sent by the Baroda Darbar. *For sale.* Price marked on each.

BANDHANA OR KNOT-DYEING.

SÀDI.—With designs produced by knot-dyeing. Maker, Nur Mahomed Sulemán. Price Rs. 100. *Not for sale.*

RUMÁLS (*a pair*).—Two handkerchiefs with designs printed with blocks in imitation of the knot-dyeing process. Maker, Nur Mahomed Sulemán. Price Rs. 4. *Not for sale.*

THREE RUMÁLS.—With designs produced by knot-dyeing. Maker, Nur Mahomed Sulemán. Price Rs. 27 each. *Not for sale.*

CLASS XLIII.—MIXED FABRICS.

There are six varieties of mixed fabrics—(1) cotton with silk, such as *dhutis sádis*, and *khans*; (2) cotton with gold thread, such as *shelds*, *shálus*, and *duppatas*; (3) silk and cotton (*garbhasuti*), where the warp is cotton and the weft silk, including *sádis* and *khans*; (4) silk and cotton in the body of the fabric with gold borders and ends (*garbhasuti jari kindár*), which also consists of *sádis* and *khans*; (5) silk fabrics with gold border (*reshmi jari kindár*), such as *pitámbars* and *paithanis*; and (6) silk and gold fabrics, in which gold is introduced in the body of the textile. This class includes *kinkháb*, *khand* and *bharjari* and *mandili sádis* and *khans* as well as borders and bands, such as *kor*, *kindár tás*, *lappo*, *pallav*, and *gota*.

Kinkháb is a thick silk fabric with gold designs worked into it. *Khands* differ from *kinkháb* in being very much thinner. In weaving *kinkháb*, six layers of fibres are required in the work, while in weaving *khand* only two layers are used.

Borders, *kors*, and *kindárs* are long strips of silk with different designs worked in gold into them, their breadth ranging from half an inch to six inches.

Phits are gold borders with silk for the warp only. *Lappo*, *pallav*, and *gota* are also woven with gold thread for the weft and silk for the warp. The former two are used as the ends of *sádis*, and the latter for decorating bodices, &c., in addition to the borders.

COTTON AND SILK WITH GOLD THREAD.

CHANDRAKALA.—Black *sádi*. Maker, Rájárám Gausa, Yeola. Price Rs. 11-8. *Not for sale.*

LUGDE.—Jámbhali *sádi*. Purple. Maker, Rájárám Gausa, Yeola. Price Rs. 11-8. *Not for sale.*

LUGDE.—*Sádi*. The design is called *chaukati*, from the large squares into which it is worked. Maker, Trimbak Parshurám, Yeola. Price Rs. 17. *Not for sale.*

LUGDE.—*Sádi*. The colour is called *anjiri* (fig-like), and is produced by taking red yarn for the warp and green for the weft. Maker, Trimbak Parshurám, Yeola. Price Rs. 18.—*Not for sale.*

LUGDE.—*Sádi*. The design is called *chanchani*, from the small squares worked into it. Maker, Bálá Malu Koshti, Yeola. Price Rs. 22. *Not for sale.*

THREE SAMPLES OF TURBAN CLOTHS.—Maker, Nathubhai Shamlal, Yeola. Price Rs. 15, 35, and 50. *Not for sale.* The length of a turban ranges from forty to seventy-five yards.

CHANDRAKALA.—*Sádi.* With black ground from Kaládgi. Price Rs. 19. *Not for sale.*

THIRTEEN KHANS.—Bodice-pieces. Maker, Jamnadás Taráchand, Ahmedábád. Price for the lot Rs. 11-9-6. *Not for sale.*

NINETEEN SAMPLES OF DHUTIA.—Garments for men. By Kálidás Trikamdás, Ahmedábád. Price for the lot Rs. 12-8-6. *Not for sale.*
The length of a *dhuti* ranges from four to six yards.

The following collection of fabrics is lent by the Gondal Darbar Káthiáwár:—

EIGHT CHOFÁLS.—By Jiva Ismael Vali Mamand.

FOUR, LUNGIS.—Sashes. By Jiva Ismael.

THERE SAMPLES OF CHEQUERED CLOTH.—By Jiva Ismael and Karson Kála.

TWO GHÁGARPÁTS.—Female apparels. Maker, Jiva Ismael.

THREE PACHEDIS.—Garments. By Vali Adreman and Jiva Ismael.

THREE RUMÁLS.—Handkerchiefs. By Vali Adreman and Jafferji Náthábhái.

THREE SADLOS.—Female garments. By Moraji Devji.

FOUR LUGDÁS.—Female garments. By Karson Kála.

TWO CHOBSAS.—Female garments. By Jafferji Náthábhái.

TWO CHEDAS.—By Karson Kála.

TWO REJAS.—Cloths. By Jafferji Náthábhái.

TURBAN (PAGADI). By Jafferji Náthábhái.

COLLECTION OF FABRICS.—Lent by the Palanpur Darbár.

TWO PÁCHHEDIS.—Scarves. Worn by rich natives as scarves and kamarbands. Lent by His Highness the Jám Sáhib of Navánagar. Maker, Hansraj Puroshottam. Prices Rs. 190 and 150 respectively.

DUPETTA.—Worn as a sash by rich natives on special occasions. Lent by His Highness the Jám Sáhib of Jám Nagar, Káthiáwár. Maker, Nághori Ratansi Hari. Price Rs. 33.

MANDIL.—A turban worn by princes and rich people. Lent by His Highness the Jám Sáheb of Jám Nagar, Káthiáwár. Maker, Ghella Topáni. Price Rs. 175.

ODHANI.—A scarf worn by females. Lent by His Highness the Jám Sáheb of Jám Nagar, Káthiáwár. Maker, Pankh Vir Godhidas. Price Rs. 100.

TWO RENTOS.—Scarves tied round the waist. Lent by His Highness the Jám Sáheb of Jám Nagar, Káthiáwár. Maker, Thakar Dáma Dhiraji. Price Rs. 325 each.

KACHHO.—A waist-band twelve feet long and two broad, used by Arabs and Mukránis. Lent by His Highness the Jám Sáheb of Jám Nagar, Káthiáwár. Maker, Garana Taib Abba, of Navánagar. Price Rs. 2-2.

DUPATTO.—The design on the border is called *leher* (zigzag). Maker, Punja Hira, of Ahmedábád. Price Rs. 32. *Not for sale.*

DHUTIA.—A sash. The design is called *kashí keri* (mango design of Benares). Maker, Ghelábhái Taráchand, of Ahmedábád. Price Rs. 26. *Not for sale.*

SHALU.—A cotton *sádi* with gold design woven in the body of the fabric. Maker, Shaik Ahmedsha Ahmed, of Poona. Price Rs. 130. *Not for sale.*

FABRICS.—A collection exhibited by the Central Committee, Baroda. *For sale.*

NINE KHAISES.—Cotton quilts with silk borders. Presented by His Highness Mir Ali Murád Khán Tálpur, of Khairpur. Price Rs. 232. *Not for sale.*

TEN SUSIS.—Trowser cloth of cotton. Presented by His Highness Mir Ali Murád Khán Tálpur, of Khairpur. Price Rs. 25. *Not for sale.*

FOUR CHADARS.—White cotton bed-covers with silk borders. Presented by His Highness Mir Ali Murád Khán Tálpur, of Khairpur. Price Rs. 112. *Not for sale.*

* NINETEEN SAMPLES OF GANJÁNI.—Maker, Jaichand Nathu of Ahmedábád. Price for the set Rs. 2-4-9. *Not for sale.*

SEVEN GARBH-SUTI KHANS.—Bodice-pieces, silk and cotton, from Belgaum. Price Rs. 18-11 for the set. *Not for sale.*

SIX GARBH-SUTI KHANS.—Bodice-pieces from Kaládgi. Price Rs. 6-12 for the set. *Not for sale.*

TWO LUGDAS, OR SÁDIS (*garbha-sudi, silk and cotton*).—From Kaládgi. Prices Rs. 30 and Rs. 25 respectively. *Not for sale.*

HIMRO.—Silk and cotton cloth. The design is called *tájo dāno ghumru* (golden bells). Price Rs. 8. *Not for sale.*

TWO PITÁMBARS.—Sacred cloths. Makers, Rupása Ganpatsa and Sitáram Monghása, Yeola. Prices Rs. 40 and Rs. 65. *Not for sale.*

SIX KHANS.—Bodice-pieces with different patterns. Makers, Lakshman Vithoba Bandu Gangáram, Bhiva Ráma, Sakharám Lakshuman, and Rupása Ganpatsa, Yeola. Price for the set Rs. 91-12. *Not for sale.*

PAITHANI.—Worn by females. This is a sample made to order to illustrate the pattern. A *paithani* is usually eight to nine yards long and costs Rs. 400 to Rs. 600, when made of this pattern. Maker, Nathubhai Shamlal, Yeola. Price Rs. 200. *Not for sale.*

SÁDI.—Silk fabric with gold border and ends. Maker, Keshavlál Kalyánbhái, Surat. Price Rs. 60. *Not for sale.*

SÁDI (*with gold borders*).—Maker, Sheikh Ahmed Sha Ahmed, Poona. Price Rs. 50. *Not for sale.*

The value of *sádis* depends entirely upon the amount of gold introduced. The borders are increased according as the owner or purchaser is willing to pay for gold for the increased width.

SIX KHANS.—Bodice-pieces from Poona. Price Rs. 26-8 for the set. *Not for sale.*

LUNGI.—Scarf. Maker, a Memon of Ruatta, Karachi, Sind. Price Rs. 37. *Not for sale.*

KINKHAB.

Kinkháb is manufactured at Ahmedábád and Surat. There are about seventy to seventy-five dealers in Ahmedábád, and nearly the same number at Surat. At Ahmedábád *kinkháb* with the woof either of gold or silver only is woven, while at Surat the variety with gold and silver thread, as well as that with silk alone, is manufactured. At Ahmedábád there are about 500 to 600 looms for weaving *kinkháb*, and at Surat about 900 to 1,000. The Ahmedábád weavers are mostly Kanabis, Khattris, Targála, Pinjára, Gola, Gháchi, and Mochi. The Surat weavers of *kinkháb* are of Musalman, Hora, Gola, Khatri, Kanabi, Gháchi, and Koli caste.

A list of the specimens of *kinkháb* and *khand* purchased for the Exhibition is given below. The samples are pieces intended to show the design and width of each of the varieties produced at AHMEDABAD and SURAT:—

KINKHÁB.—The design is called *chasamphul*. Maker, Chunilál Phattechand. Price Rs. 3-4.

KINKHÁB.—Design *chasamphul*, gold on red ground. Maker, Chunilál Phattechand. Price Rs. 2-4.

KINKHÁB.—Pattern *mohor butti*, from its resemblance to the gold *mohar* coin. Price Rs. 2-8.

KINKHÁB.—Pattern *champhul no velo*. Maker, Chunilál Phattechand. Price Rs. 2.

KINKHÁB.—Pattern *keri*, from its resemblance to a mango. This variety with a border is used for petticoats only. Maker, Chunilál Phattechand. Price Rs. 8.

KINKHÁB.—Pattern *keri velo*. Maker, Chunilál Phattechand. Price Re. 1-4.

KINKHÁB.—Pattern *sitáphali kotho*. Maker, Chunilál Phattechand. Price Rs. 4 and Rs. 8.

- KINKHÁB.—Pattern *horjálí*, from its resemblance to the *ber* fruit (*Zizyphus jujuba*). Maker, Chunilál Phattechand. Price Re. 1-8.
- KINKHÁB.—Pattern *káju phalio*, from its resemblance to the *káju* (*Anacardium occidentale*). Price Rs. 2-4.
- KINKHÁB.—Maker, Chunilál Phattechand. Design *mogrio*, from its resemblance to the jessamine flower (*Jasminum sambac*). Price Rs. 4-8.
- KINKHÁB.—Maker, Chunilál Phattechand. Design *mogrio*. Price Rs. 2-4.
- KINKHÁB.—Maker, Chunilál Phattechand. Design *púnd no butto* or leaf ornamentation. Price Rs. 4.
- KINKHÁB.—Maker, Jetha Phulchand. Design *chundadi*, minute squares. Price Rs. 5.
- KINKHÁB.—Maker, Jetha Phulchand. Design *leher* or zigzag. Price Re. 1-12.
- KINKHÁB.—Maker, Jetha Phulchand. Design *bádám velo*, the almond and creeper pattern. Price Rs. 3-2.
- KINKHÁB.—Maker, Jetha Phulchand. Design *mohar*, from its resemblance to the gold coin of that name. Price Rs. 1-12 and Rs. 3.
- KINKHÁB.—Maker, Jetha Phulchand. Design *kothedár* (literally fortified). Price Rs. 4-8.
- KINKHÁB.—Maker, Jetha Phulchand. Design *keri*, or mango. Price Rs. 5.
- KINKHÁB.—Maker, Jetha Phulchand. Design *pán kotha*. Price Rs. 2-12.
- KINKHÁB.—Maker, Jetha Phulchand. Design *námni*, so called from the name of the person for whom it is made being worked into the design. In this piece the name of His Highness the Thákur Sáheb of Bhávnagar is worked in Gujráthi. Price Rs. 4.
- KINKHÁB.—Maker, Jetha Phulchand. Design *zádno kotho* (literally tree fortification). Price Rs. 5-8.
- KINKHÁB.—Maker, Jetha Phulchand. Design *phul kotho*. Price Rs. 6.
- KINKHÁB.—Maker, Jetha Phulchand. Design *áthi pago*, or the footprints of an elephant.
- RUMÁL OF KINKHÁB.—Maker, Chunilál Phattechand. Design *chasam phul*. Used for covering fruits, &c., when sent as presents. Price Rs. 35.
- RUMÁL OF KINKHÁB.—Maker, Chunilál Phattechand. Designs on red ground.
- GÁSHA OR SADDLE-CLOTH OF KINKHÁB.—Maker, Chunilál Phattechand. *Tárá-mandal*, or the string of stars. Price Rs. 75.

The following specimens of *khand* or *bodice-pieces* with gold and silver thread decorations are from AHMEDABAD :—

- KHAND.—Design *phul velo* (the flowering creeper). Maker, Mansuk Dipchand. Price Rs. 9.
- KHAND.—Design *goláb velo* (the creeping rose). Maker, Mansuk Dipchand. Price Rs. 9.
- KHAND.—Design *pándáno butto*. Maker, Mansuk Dipchand.—Price Rs. 4.
- KHAND.—Design *vel pándáno* (or decoration in leaf). Maker, Mansuk Dipchand. Price Rs. 8-8.
- KHAND.—Design *bor veli korddr*. Maker, Mansuk Dipchand. Price Rs. 8-8.
- KHAND.—Design *chandí*. Maker, Mansuk Dipchand. Price Rs. 6-8.
- KHAND.—Design *káju pátána*, from the *káju-nut* (*Anacardium occidentale*) and seven dots.
- KHAND.—Design *háthi*, or elephant. Maker, Mansuk Dipchand. Price Rs. 3-12.
- KHAND.—Design on the border *báz* (the hawk) *ní kor*. Price Rs. 2-10.
- KHAND.—Design on the border *keri* (mango fruit). Maker, Mansuk Dipchand. Price Rs. 2-10.
- KHAND.—Design on the border *vágh phulno* (or tigers and flowers). Maker, Mansuk Dipchand. Price Rs. 2-10.
- TÁLA.—It is a fabric like the *khand*, but is sold in small bits, 2' × 3' for bodices, worn by Gujráth women. Design *mor* (or peacock). Maker, Mansuk Dipchand. Price Rs. 1-2.
- TÁLA.—Design *pari* (or fairy). Maker, Mansuk Dipchand. Price Re. 1-2.

- KHAND.—Design *kājuphul korna*. Maker, Juma Golābchand. Price Rs. 6-4.
 KHAND.—Design *bor jāli*. Maker, Jumna Golābchand. Price Rs. 3-8.
 KHAND.—Design *poput kothāno* (or parrot fortification). Maker, Jumna Golābchand. Price Rs. 5-4.
 KHORJI.—Silk and gold fabric. Maker, Harjiwan Jetha, of Surat. Price Rs. 58. *Not for sale.*
 KHORJI.—Silk and gold fabric. Maker, Allibhāi Tājbhāi, of Surat. Price Rs. 150. *Not for sale.*
 TWO JARIDĀNOS.—Silk and gold fabrics. Maker, Keshavlāl Kalyanbhāi, of Surat. Price Rs. 52-8 and Rs. 63 respectively. *Not for sale.*
 KHAN BODICE-PIECE.—Silk and gold fabrics. Maker, Allibhāi Tājbhāi, of Surat. Design *elchi kotho* in the border. Price Rs. 78. *Not for sale.*
 TWELVE SAMPLES OF KINKHĀB.—Maker, Allibhāi Tājbhāi, of Surat. Price for the set Rs. 29-8. *Not for sale.*
 FOUR SILK "KHAISES."—*Quilts*, with embroidered borders. Presented by His Highness Mir Murād Khān Tālpur, of Khairpur. Price Rs. 520. *Not for sale.*
 THREE BOCHNIS.—Veils worn by females. Presented by His Highness Mir Murād Khān Tālpur, of Khairpur. Price Rs. 14. *Not for sale.*

SILK, GOLD, AND SILVER BORDERS.

At Ahmedābād there are about 100 to 125 dealers in borders (*kor*, *kindr*, *tās*, *lappo*, and *phit*) with gold and silver thread designs in the texture, and about seventy to eighty dealers at Surat, who in both places belong to the Khatri, Vānis, Shrávak, and Kanabi castes. The shops of the Ahmedābād dealers are in the Mānak Chauk, while those of the Surat dealers are mostly in their own houses, situated throughout the town. At Ahmedābād there are about 200 to 250 families, employing 500 to 600 looms, belonging to the Khatri, who alone are the weavers of borders and *khand*. They all live in the Kālupur subdivision of the city. At Surat there are about 500 to 600 families of the Khatri, containing about 1,200 to 1,500 looms, chiefly in Shipwad, Balgempara, and Salapdara. The weavers of borders and *khands* believe that they are the original inhabitants of Ahmedābād, those at Surat having gone to that town five or six generations ago. They wear a Gujrāth turban, a jacket, a long coat, a scarf round the loins, and another scarf over the shoulders. All the dealers and weavers of border and *khand* speak Gujrathi. They are mild and very hard-working, and all of them are vegetarians. About 200 of the Ahmedābād weavers and about 100 of those from Surat have their own tiled, mostly one-storeyed houses to live in; others reside in hired quarters. The silk, the gold thread, and the silver thread are all supplied by the dealers. The dealers obtain the silk from the merchants in raw silk, send it to the different work-people for being sorted, spun, dyed, and sized, and then hand it over to the weavers. The weavers of borders and *khand* work from sunrise to 12 A.M. and from 2 P.M. to sunset. They stop all work on the last day of the lunar month, *amavāsya*; *divālī*, six days; *dasara*, one day; the whole of the month of Shravan; four days of *holī* holidays. There is greater demand than usual for the borders and *khands* during the marriage seasons. For weaving a piece of *kor* or border 120 feet long the weaver receives Rs. 3, together with a piece of the border 5 feet long; for weaving 1,000 feet, Rs. 10 and a piece 100 feet long; for *tās* and *lappo*, Re. 1 a foot, with two-fortieth (*val*) in weight of the flattened gold and silver wire used. For weaving plain *phit* or lace As. 4 for 100 feet; for the *ākda* or zig-zag fringe lace, Rs. 12-8 for 100 *tolas*. The average monthly income of a weaver ranges from Rs. 10 to Rs. 15. Women and children of ten and more assist the males in weaving the borders. In connection with this industry there are four, trade guilds, one for each article, *kor*, *tās*, *pallav*, and one for the three, *phit*, *kindr* and *gota*. When a new man starts the industry in a town he has to pay to the

guild or *mahajan* Rs. 500 for weaving *kor*, Rs. 15 for *tás*, Rs. 60 for *pallav*, and for *phul*, *kinari*, and *gota* Rs. 150, which sums are spent in feeding the members of the *mahajan*. There are no instances in which this rule is broken by "new-comers" or "apprentices," but if one dare to break it the guild has no connection with him and withholds rendering him any assistance whatsoever.

Border of the various sorts, *kors*, *tás*, *pallav*, *lappo*, *phul*, *kindri*, and *gota* of the total value of about a lakh of rupees, is made at Ahmedábád, and of the value of about Rs. 70,000 at Surat, in one year. It is exported to Baroda, Bombay, and other places for sale.

The following specimens have been bought for the Exhibition:—

From Ahmedábád.

- KÖR.—Maker, Mansuk Dipchand. Design *keri khajuri ne toran* or mango, diamond-shaped and three-lobed pendant. Price Rs. 2-12.
- KÖR.—Maker, Lallu Ichha. Design *gota* (round flower) and *toran*. Price Rs. 9-9.
- KÖR.—Maker, Mansuk Dipchand. Design *vatána ne keri* (pea and mango).
- KÖR.—Maker, Mansuk Dipchand. Design *vel pándu, khajuri, ne toran, viz.,* creeper with leaves, angular half-diamonds, and the three-lobed pendant.
- KÖR.—Maker, Mansuk Dipchand. Design *bádlánu, kotha, phul, ne don káknis*. *Bádlánu* means the flattened gold thread; *kotha*, a fortification; *phul*, flower; *kákní*, zig-zag; which means that the design is made up of forms resembling a fortification, flower, and zig-zag lines in flattened thread. Price As. 15.
- KÖR.—Maker, Mansuk Dipchand. Design *vel toran*. Price Rs. 2.
- KÖR.—Maker, Mansuk Dipchand. Design *mográni*, from its resemblance to the flower of the jessamine (*Jasminum sambac*). Price Rs. 2-4.
- KÖR.—Maker, Mansuk Dipchand. Design *sádhí*, plain. Much in demand for tying turbans in Káthiáwár. Price Rs. 11-3.
- KÖR.—Maker, Mansuk Dipchand. Design *bádláni chodániani*, or diamonds woven in flattened wire. In special demand among Native Chiefs for the borders of the Princesses' *sádis*. Price Re. 1-14.
- KÖR.—Maker, Mansuk Dipchand. Design *attu and keri*, or slanting lines and mangoes, used generally by the local patels or heads of villages for borders to the bodices of their women's *sádis*. Price As. 10-6.
- KÖR.—Maker, Jamma Gulábchand. Design *chár khajuri* and *keri*. Price As. 10-6.
- KÖR.—Maker, Jamma Gulábchand. Design *popat ne toran*, or parrots, and the *toran*, a peculiar fringe or three-lobed pendant in use among Hindus. Price As. 13-6.
- KÖR.—Maker, Jamma Gulábchand. Design *bepásháni pagethia do khajuri ne kángro, viz.,* steps alike on either side, with the *khajuri* or the half-diamond shaped ornament, and *kángro*, or the teeth of a saw. Price As. 13-6.
- KÖR.—Maker, Jamma Gulábchand. Design *mor* (peacock), *khajuri* (half-diamond or angle), and *toran*, the fringe hung on the doorways.
- KÖR.—Maker, Jamma Gulábchand. Design *ruperi leher* (silver zig-zag), *do khajuri* (or angle), and *char kákní*. Price Re. 1-3-9.
- KÖR.—Maker, Lallu Ichha. Design *char kotha* (five diamonds), *do akda phul* (hooked flowers), and *torán*. Price Rs. 2-1.
- KÖR.—Maker, Lallu Ichha. Design *bádláni* (or flattened wire), *kotho* (diamonds), and *kákní* (drops). Price As. 15.
- PALLAV.—Maker, Ranchod Mugut. Design *áth-kotha* (diamonds), *char-akda phul* (hooked flowers), *do keri* (mango), *chhe kákní* (drops). Used as the outer end of a *sádi*. Price Rs. 2-8.
- KÖR.—Maker, Ranchod Mugut. Design *jhina* (small), *hira* (diamonds), and *keri* (mango). Price As. 14. Preferred by the richer Nágar and Shrávák Sowkars.
- KÖR.—Maker, Ranchod Mugut. Design *Telia lehar* (elongated zig-zags like the *tíla* or red mark on the forehead of Hindus), *kákní* (drops), and *kángro* (serrations). Price As. 14.

- KÖR.—Maker, Ranchod Mugut. Design *baddi* (flattened wire), *tilia lehar* (as above), and *kakni* (drops). Price As. 8
- KÖR.—Maker, Ranchod Mugut. Design *kakni* (drops). Price Rs. 2. Used as a tape, and sewed on to the bodice.
- KÖR.—Maker, Ranchod Mugut. Design *bara-hira* (diamonds), *khajur* (half diamond or angles), and *keri* (mango). Price Re. 1-9.
- KÖR.—Maker, Ranchod Mugut. Design *chodani* (four-grained or four diamonds in one), *akdo-phul* (hooked flower), *kakni* (drops), and *toran*.—Price Re. 1-10.
- KÖB.—Maker, Gokul Purushottam. Design *gola* (round flower), *akda* (hook) and *toran*. Price As. 12.
- LAPPO.—Maker, Mohola Bhagwan. Design *hirakani* (grains in diamonds or diamonds in diamonds) on red ground in gold, used for bridegrooms' coats. Price Rs. 3-9-9.
- LAPPO.—Maker, Mohola Bhagwan. On white ground and in silver for bridegrooms' coats. Price Rs. 2-7.
- TÁS.—Maker, Mohola Bhagwan. Design *pattis* (striped). Used by Mahomedan Chiefs for trousers and jackets and for flags on red ground. Price As. 12.
- TÁS.—Maker, Mohola Bhagwan. Design *pattis* (striped.) Used by Mahomedan Chiefs for trousers and jackets and for flags on white ground. Price As. 10.
- KINÁB.—Maker, Mohola Bhagwan. Design *lehar* (zig-zag). Used as border for *sadis* and for turbans, intended for bridegrooms. Price Re. 1-5-9.
- CHIHÉRO.—Maker, Mohola Bhagwan. Design *lehar* (zig-zag). Used only for bridegrooms' turbans. Price Re 1.
- KINÁB.—Maker, Mohola Bhagwan. Design *vel* (creeper), and *shingaddo* (the three cornered) fruit of the *shingada* (*Trapa bispinosa*). Used only for the *odhani* or women's scarf. Price Rs. 2-8-3.
- PHIT.—Maker, Mohola Bhagwan. Design *akdo* (hooks). Used in trimming bodices, children's suits, &c. Price Rs. 2-1-6 for this and the next.
- PHIT.—Maker, Mohola Bhagwan. Design *veli* (creeper). Price Rs. 2-1-6 for this and the above.
- PHIT.—Maker, Mohola Bhagwan. Design *akdo* (hooks) in gold thread. Price Re. 1-3-6.
- PHIT.—Maker, Mohola Bhagwan. Design *tin kotha* (diamonds). Used for trimming *sadis*. Price Re. 1-4.
- PHIT.—Maker, Lallu Raichand. Design *veli* (creeper). Price Re. 1-2-3.
- PHIT.—Maker, Lallu Raichand. Design *be-patti* (two-striped) in gold. Price Re. 1.
- PHIT.—Maker, Lallu Raichand. Design *be-patti* (two-striped) in silver. Price As. 7-9.
- PHIT.—Maker, Lallu Raichand. Design *ektar* (one-wire). Price As. 6.
- PHIT.—Maker, Lallu Raichand. Design *gangá-jamni*, *velani* (creeper) with gold and silver thread mixed.
- GOTA.—Maker, Lallu Raichand. Design *sadha* (plain). Price As. 10. On black-ground.
- GOTA.—Maker, Lallu Raichand. Design *sadha* (plain), Price As. 10, on red ground.
- PALLAV.—The design is called *chardani gotani* (four drops and flowers). Maker, Keshavlal Kalyanbhai of Surat. Price Rs. 9-8. *Not for sale*.
- PITNO PATTO (*broad-tape*).—The design is called *be navdani kangravali* (double flowers of nine drops and angular fringe.) Maker, Keshavlal Kalyanbhai of Surat. Price for this and the following lot Rs. 11-15-9.
- COLLECTION OF PHITS (TAPES).—Maker, Keshavlal Kalyanbhai of Surat. Price of the set, including the above, Rs. 11-15-9.

Gold and silver thread is extensively used in embroidery and in the weaving of cotton and silk fabrics, of which a variety is produced at several towns in the presidency.

In the silks and turbans of Yeola, the *shelús* of Poona, the *kinkhúbs*, *dupattas*, *khandís*, and borders of Ahmedabad and Surat, gold and silver thread is introduced in different proportions with the cotton or silk yarns, of which they are mainly formed. The wonderful ductility of gold is seen in the manufacture of silver-gilt thread when a bar of silver covered with gold-leaf is gradually drawn out to a silver thread still coated with gold.

At Ahmedábád there are at present from 1,500 to 2,000; at Surat nearly the same number; at Yeola about 900 to 1,000; and at Poona between 3,000 and 4,000 workers employed in the manufacture of gold and silver thread. The Ahmedábád and Surat workers are Gujráthís; those at Yeola, Sonárs, Musalmáns, Patháns, and Maráthás; and those at Poona, Lád Sonárs, Kokani Sonárs, Khándesh Sonárs, Aher Sonárs, Vaishya Sonárs, Maráthás, and Pardeshís. Artizans from these several towns have settled in Bombay, where they carry on a lucrative trade. Ahmedabad and Surat workers state that their ancestors came from Chámpánér, and that the craft was originally carried on by Musalmans at Delhi and Agra under the patronage of the Moghul Government. A tradition is current that one goldsmith from Chámpánér went to Delhi and happened to see gold and silver thread made, and wanted to learn the art, but could get no information. Feigning blindness, he got himself employment as a coolie to hammer the bars of silver. There he learnt the art of gilding and drawing wire to the required thinness. He afterwards opened a workshop in his native town, from whence the process was carried to Ahmedábád, Paithan in the Nizam's Territory, Surat, Yeola Poona, and Bombay. The industry was first established at Yeola in 1836. At the close of that year, in consequence of a dispute with the local authorities of the old city of Paithan, on the borders of Ahmednagar and the Nizam's dominions, the gold and silver thread workers went and settled at Shegám in Ahmednagar. One of the leading men, Rámchandra Sakhárám Baswande, visited the Memledar of Yeola, and through him obtained leave for the people of Paithan to settle there without the payment of the usual tax payable to the trade guild, and on the 6th January 1837 Rámchandra opened a gold thread factory at Yeola. The Poona workers state that they came from Paithan, Aurangábád, and Ka-ranje in the Nizam's Territory. At Ahmedábád and Surat the gold is bought in foils (*chípa*) at Rs. 20 a *tola*, and the silver from Kentsaras in bars (*pásá*) at Re. 1-4 a *tola*. The silk is obtained from Reshimvállás at Rs. 14 to Rs. 15 a *shér* (35 *tolas*). At Yeola the gold and silver is obtained from Bombay. The gold must be perfectly pure (*shambhar nambrí*). Three kinds of silver are used,—*pátáchi* or English, *netáchi* or Chinese, and *gáuthí* or local. Chinese and local silver are sold mixed with an alloy and can therefore be used without any change, but the pure English silver has to be mixed either with from ten to fifteen-fortieths of Chinese or local silver, or with two or three-fortieths of copper. The best English silver costs from Rs. 108 to Rs. 110 for 100 *tolas* the Chinese costs Rs. 106 to Rs. 107, and the country silver Rs. 104 to Rs. 105 for 100 *tolas*.

At Poona there are four Musulmán Bhora families, named *Gotevale*, who buy old gold and silver fabrics, in which gold and silver thread has been used, and by a certain process separate the two metals, and from them is purchased a large portion of the gold and silver used in that city for the manufacture of the thread.

SOZNIS OR BED-COVERS.

Soznis are cotton and silk fabrics stuffed with cotton to serve as quilts, and the manufacture is a specialty of Broach, the invention being attributed to Hasanbhái Karimbháí, a resident of Mundaphia. The peculiarity of the work consists in each little square bag being woven and united by the loom to its fellows. The operation is peculiar. The weaver sits with his feet in a pit in which there are eight treadles corresponding with and governing the action of the eight heddles above. There is a double layer of fibres in the warp, one white and red and the other green and red, and they are arranged one above the other. By raising with a hook and string, treadles numbered 1 and 3, he

opens the set of red square compartments for stuffing them with cotton wool, and by raising those numbered 6 and 8 he opens the set of green compartments.

When the red warp is on the top of the green, the weaver works his treadles alternately by raising first those numbered 1, 4, 6, and 8, and then those numbered 2, 3, 5, and 7, while, when the green is uppermost, he raises those numbered 1, 4, 5, and 7, and then those numbered 2, 3, 6, and 8.

SOZNI.—From Viramgaum, Ahmedabad. Price Rs 30-0-9. *Not for sale.*

THREE SOZNIS.—From Broach. Maker, Hasanbhái Karimbhái. Prices Rs. 28, 5, and 1 respectively. *Not for sale.*

SOZNI.—Lent by the Pátdi Darbar, Ahmedábád.

CLASS XLV.—EMBROIDERY.

Embroidery is principally carried on at Shikárpur and Hyderabad in Sind, in Katch, in Surat and Bombay, and is executed in various materials, such as silk on cotton, as the soznis of Shikarpur, silk on silk as the "*odhne*," a square sheet worn by the women of Katch; silk, gold and silver thread used singly or together on cloth or satin for various articles of dress, and also for table-cloths, cozies, cushion-covers, &c., as those of Hyderábád. Another kind of embroidery heavy in character called "*bharat kám*" (literally "work filled in"), where, the ornament is first worked in relief in a coarse cotton thread and afterwards covered with gold or silver thread, is extensively made for caps, coats, *masnads*, saddle-cloths, &c. A large quantity of this description of embroidery is manufactured by Dáudbhái in Kálbádevi Road, Bombay, who employs a large number of workmen, who are principally from Delhi.

A species of embroidery made of gold and silver spangles and twisted gold wire is also manufactured, and a specimen is exhibited by His Highness the Rájá Sáheb of Dhrángdra, Káthiáwár.

Most of the specimens sent from Hyderábád, Sind, show decided deterioration in design, color, and mode of execution. The designs are ill composed, there is a want of balance in the distribution of the masses—the coloring is staring owing to the introduction of aniline dyes, and the execution is poor when compared with older work. The round embroidered cushion-covered in gold, silver, and silver and gold on black cloth are, however, beautiful specimens, especially the two where the admixture of silver and gold is happily carried out.

The two large oblong pieces of effective embroideries from Shikárpur worked in silk on coarse cotton ground, with discs in red and interspaces filled with foliated work, taken from specimens brought by traders from Bokhara, are of Tartar origin. This is an evidence of the manner in which the arts in Sind are influenced by those of Central Asia.

From Surat.

TOPI.—Cap. Worn by Musalmans. The pattern is called *hirebandi* (diamond-shaped). Maker, Mahammad Karim Khán. Price Re. 1-8. *Not for sale.*

TOPI.—Cap. Worn by Musalmans. The pattern is called *ardhi butti* (half design). Maker, Mahammad Karim Khán. Price Re. 1-8. *Not for sale.*

TOPI.—Cap. Worn by Musalmans. The pattern is called *Kotháni* (fortified). Maker, Mahammad Karim Khán. Price Re. 1-8. *Not for sale.*

TOPI.—Cap. The pattern is called *ardhi butti*. Maker, Allibhái Tájbhai. Price Rs. 3. *Not for sale.*

TOPI.—Cap. Maker, Keshablál Kalyánbhái. Price Rs. 4-8. *Not for sale.*

JHABLA.—Maker, Abdulla Gulám Nabi. Price Rs. 7. *Not for sale.*

TOPI.—Cap. Maker, Keshablál. Kalyánbhái. Price Rs. 4-8. *Not for sale.*

- KOR.—Border. The pattern is called *shinghi butti* (horn design). Maker, Abdulla Gulám Nabi. Price Rs. 6-8. *Not for sale.*
- KOB.—Border. The pattern is called *jirásál chokdi* (small squares). Price Rs. 6. *Not for sale.*
- KOB.—Border. The design is called *phul kantola*. Maker, Abdulla Gulám Nabi. Price Rs. 4. *Not for sale.*

- BORDER, Kor.—The design is called *badámi ashrafi* (almond decoration). Maker, Abdulla Gulám Nabi. Price Re. 1. *Not for sale.*
- BORDER, Kor.—The design is called *chidiáki* (sparrows). Maker, Abdulla Gulám Nabi. Price Re. 1. *Not for sale.*
- BORDER, Kor.—The design is called *pankha chokti* (fans and squares). Maker, Abdulla Gulám Nabi. Price Re. 1. *Not for sale.*
- TWO PEACOCKS.—Embroidered in gold spangles by Mrs. Jehángir. Lent by Mr. Jehangir Sha Mothábhái.

From Hyderabad, Sind.

- EIGHT TEA-COZIES.—Embroidered in gold, silver, or silk in different patterns. Makers, Mahamed, Saheb, Mahamed Jáfár, Ali Baksh, Kado, and Haji. Prices Rs. 10-8, 7, 7, 9, 8, 4, 2-12, and 8-8 respectively. *Not for sale.*
- CHAIR CUSHIONS.—(*Eight pairs.*) Embroidered in silk, gold, or silver in different patterns. Makers, Haji and Mahomed Saheb. Prices Rs. 10-8, 10, 11, 10, 6-8, 2-12, 14, and 9 respectively. *Not for sale.*
- SLIPPERS.—(*Seven pairs.*) Embroidered in different designs. Makers, Mahomed Haji and Lallu. Price Rs. 18-12 for the set. *Not for sale.*
- TWO CAPS.—Embroidered in gold thread. Makers, Haji Abdolla and Lallu. Prices Rs. 3 and Rs. 3-8 respectively. *Not for sale.*
- SIX TABLE-COVERS.—Embroidered in silver, gold, and silk thread in different designs. Makers, Mahamed Jafar, Mahamed Saleh, Nazar Mahomed, and Bachalshah. Prices Rs. 45, 40, 20, 14, 11, and 78 respectively. *Not for sale.*

From Shikárpúr, Sind.

- TWO BED-COVERS.—Makers, Gul Mahomed and Arab, sons of Kush Mahomed and Bachol, son of Din Mahomed, of Shikárpúr. Prices Rs. 25 each.
- TABLE-CLOTH.—Makers, Gul Mahomed and Arab, sons of Kush Mahomed and Bachol, son of Din Mahomed, of Shikárpúr. Price Rs. 66.
- TWO PARASOL-COVERS.—Makers, Gul Mahomed and Arab, sons of Kush Mahomed and Bachol, son of Din Mahomed of Shikárpúr. Price Rs. 9-8 each.
- SIX DOYLEYS.—Makers, Gul Mahomed and Arab, sons of Kush Mahomed and Bachol, son of Din Mahomed, of Shikárpúr. Price Re. 1 each.

None of the above articles are for sale.

- THREE HANDKERCHIEFS.—Embroidered at Katch. *For sale.* Prices Rs. 15, 15, and 17 respectively.
- HANDKERCHIEF.—Embroidered at Bhuj by Nathubháí. Lent by the Gondal Darbar, Káthiáwár.
- BAG.—(*Bulwo*). Embroidered at Bhuj by Nathubháí. Lent by the Gondal Darbar, Káthiáwár.
- EMBROIDERY.—Eight specimens exhibited by Dáudbhái Musábhái of Bombay. *For sale.*
- SADDLE-CLOTH.—(*Gashia*). Lent by the Dhrángdhra Darbár, Káthiáwár. Makers, Kuber, Lakha, Bogha, and others.
- SADDLE.—(*Palan*.) Lent by His Highness the Thákur Sáheb of Bhávnagar, Káthiáwár. Maker, Premji Mahawji.
- BHARGACHE RUMAL.—A richly embroidered handkerchief. Lent by His Highness the Jám Sáheb of Jámnagar (Navánagar), Káthiáwár. Maker, Moa Kánji Kabanji. Price Rs. 85-10-9.
- GOLD AND SILVER EMBROIDERY.—132 patterns. Lent by His Highness the Mahárájá of Baroda.
- NINE CAPS.—Embroidered. Presented by His Highness Mir Alli Murad Khán Tálpur, of Khairpur. Price Rs. 21. *Not for sale.*
- FIVE BODICES.—Embroidered. Presented by His Highness Mir Alli Murád Khán Tálpur, of Khairpur. Price Rs. 47. *Not for sale.*

CLASS XLVI.—APPAREL.

- POLKA.—Coats. Maker, Keshavlál Kalyándás, of Surat. Price Rs. 85 and Rs. 125. *Not for sale.*
- GHÁGRA.—Petticoat. Maker, Alibháí Tájbháí, of Surat. Price Rs. 100. *Not for sale.*
- JHABLA.—Shirt. Maker, Becharbhái Ganesh, of Surat. Price Rs. 85. *Not for sale.*
- BURKHA.—A covering used by Borah women when out of doors. It serves to cover the whole of the body, allowing the wearer only to look through the gauze opening. Maker, Alibháí Tájbháí, Surat. Price Rs. 25. *Not for sale.*
- NÁTIO.—A cap and cape combined, worn by children, or by men under their turbans. Lent by His Highness the Jám Saheb, Jámnagar, Káthiáwár. Maker, Praga Aháji. Price Rs. 4.
- ANGARKHA.—A long coat from Surat. Made of a silk fabric called *mashru*, of very fine texture; not now woven. The coat is seventy-five years old, and is cut out of a *jama* (Darbár coat) presented by the Nabáb of Sachin to the uncle of the exhibitor. Lent by Rávsáheb Bhimbái Riparám, Assistant Compiler, Bombay Gazetteer.

CLASS XLVII, AND SECTION F, CLASS LIX.—MANUFACTURES OF LEATHER, SHOES, &c.

Leather is largely employed throughout the presidency for making shoes, sandals, pouches, belts, *chargals* (water-bottles), and book-covers, which are more or less ornamented by stamping, perforating, and embroidery. Several specimens of leather-work are exhibited, such as the *chargals* from Dhrángdhra, embossed book-covers from Ahmedábád, leather shields from the same place, shoes, and sandals from Poona, and cigar-cases and embroidered boots from Khairpur, in Sind.

LEATHER SHIELDS.

The manufacture of leather shields from the hide of the rhinoceros and blue bull was one of the most important industries in the presidency during the old fighting days. At Ahmedábád alone about 100 families were engaged in the trade. As shields are no longer required for warfare, and since the working of the Arms Act in 1858, the demand for them no longer exists; a few, however, are made to supply the European demand for curios. A single family—a father and two sons—of the Mochi caste is now employed at Ahmedábád in making them, and show four specimens. The artisan and his two sons obtain the skins from the territories of the Native Chiefs. The brass bosses are obtained from Kadi, in the Baroda territory, at Re. 1-8 for a set of four. The iron rings are locally obtained at about As. 8 for the set, and the copal varnish is prepared at home. The skin is soaked in water and kept in moulds for a month or five weeks. Then it is cleared and scraped with the *randha*, which costs about As. 12. When a number are ready, they are painted, varnished, and finally the bosses and cushions are fitted.

FOUR SHIELDS.—Makers, Purshottam Khushál and Khushál Dhanji of Ahmedábád.

Price Rs. 35, 35, 26, and 26 respectively. *For sale.*

DHAL.—Shield. Lent by the Pátdi Darbár, Ahmedábád. *Not for sale.*

FIVE SHIELDS.—Exhibited by the Katch Council of Administration. Prices

Rs. 3, 6, Rs. 40-14-6, 68-3-4, and 60 respectively. *For sale.*

SHIELD.—Exhibited by the Central Committee, Baroda. Maker, Prema Dukhala.

Price Rs. 10. *For sale.*

NATIVE SHOES.

In the Bombay presidency shoes are made for natives either of leather or of wood, the former being divided into *joda*, *juta*, and *váhána*. The latter are named *khdááva* or *páduka*, and in rare instances are made of brass. The Dekkan tribes generally call their shoes *joda*, of which there are two varieties, made with the heels turned in, named *shiroli* or *brahmani*, or those with single broad rounded toes, and *maráthi*, or those with the double toes divided down the centre. The Gujráthiis, Bhorás, and Musalmans and Pársis call their shoes a *juta*, which has a pointed toe and standing heel. The shoes worn by Musalman women are also called *jutas*, but they differ from the others in being like slippers without heels open at the back. Poona is noted for the *shiroli* or Brahmin shoe and Ahmednagar for the *maráthi* or two-toed shoe. There are seven different sections at Poona who work in leather,—Mochis, who make the Hindustáni shoes; Bengalis, who make English shoes and boots, Katai, who work the leather bottles (*budhalis*); Kokani, workers of sandals; Máng Mochis, or skinners and tanners; Saltankár, or dyers of leather; and Chámhbhars, or makers of the so-called Poona shoes. The last set represents the real local workers. They live mostly in Hatti Mahal. There is a constant demand for their articles, the Poona shoes being much in request among Maratha or Dekkan Hindus of all denominations nearly all over the presidency.

Vahánds (sandals), or the third variety, are made everywhere in the Dekkan, but those from some of the towns in the Ratnágiri district (Lanja, Máivan, Sálpi) are ornamented with brass. There is a large sale for them; particularly during the monsoon, when even the higher class of Hindus prefer them to their *jodas*.

JODA (*Brahmani*).—Maker, Parvati Bin Amrita, of Poona. Price Rs. 7. *Not for sale.*

JODÁ (*Maráthi*).—Maker, the same. Price Rs. 7. *Not for sale.*

THREE PAIRS OF JUTÁS.—Native slippers. Maker, Mahomed Madári, of Surat.

Prices Rs. 3, 2½, and 2 respectively. *Not for sale.*

TWO PAIRS OF RABARIS.—Shoes used by the Jyers. Lent by the Katch Darbar.

Prices Re. 1-10 and Re. 1-14.

A PAIR OF DELHI SHOES.—Lent by the Katch Darbár. Price Rs. 2-12. *For sale.*

A PAIR OF PESAHWAR SHOES.—Lent by the Katch Darbár. Price Rs. 3. *For sale.*

A PAIR OF JUTÁS.—Maker, Punam Chand of Násik. Price Re. 1 and Rs. 2. *Not for sale.*

VAHÁNA.—A pair of embroidered sandals from Ratnágiri. Price Rs. 3. *Not for sale.*

PÁDUKA (*Khaddva*).—Used by the higher castes of Hindus to go to the place of worship after the bath. Made of blackwood and inlaid with mother-of-pearl. Lent by His Highness the Jám Saheb of Jámnagar, Káthiáwár. Maker, Mona Rajani. Price Rs. 15.

KHADÁVA.—Two pairs of wooden shoes. Lent by the Gondal Darbár, Káthiáwár.

LONG BOOTS.—Embroidered. Presented by His Highness Mir Ali Murád Khán Tálpur, of Khairpur. *Not for sale.* Price Rs. 38.

FOUR CHÁRGALS.—Water-bottles. Lent by the Dhrangdra Darbár. Maker, Govind Lava.

PUTTHA.—Fifteen specimens of book-covers, by Gulám Umarbhái, Ahmedábád. Price Rs. 8-14-6. *Not for sale.*

CLASS XLVIII.—HATS AND CAPS.

PAGDIS.

The head-dress of the natives of the Bombay presidency is, perhaps, the most characteristic feature in their costume, assuming as it does quaint and varied shapes, which custom has prescribed to be worn by different castes. *Pagdis* are made on the patterns of the turbans worn by the Dekkan Hindus. Instead of taking the turban, which is from 50 to 80 yards long, and folding it to the required shape, it has of late become customary for natives to buy the *pagdis* ready-made. They look like the turbans, and have the advantage of being cheaper, lighter, and more durable. *Pagdis* are made at Poona and Bombay. At Poona there are four *pagdi*-makers—two Shimpis (tailors), one Támbat, and one Brahmin—who live in Patvekar Ali, in Budhvár Peth. There is only one man in Bombay, in Mugbhát, whose work is equal to that of the best of the Poona men. Inferior varieties of *pagdis* for children have been in use for a long time, but the superior kind, resembling the turban in every respect, was only introduced a few years ago by one Haripant Barvé, a Brahmin of Poona, and it has found such favour among the educated young natives that the annual outturn at Poona in this article is reported to amount to Rs. 5,000, and at Bombay to Rs. 700 to Rs. 800. Cheap and fast-coloured materials are specially woven for *pagdis*, and sold at Rs. 5 to Rs. 6 each, in lengths of about 25 yards each. Each *pagdi* requires only 15 to 16 yards with the rags of native-made paper, as a foundation, sold at 5½ annas a *sher*, and a small quantity of white clay locally obtained. A clay model is first made, on which is pasted a layer of paper and rags. When dry, the clay is removed, and on this form the cloth is wrapped to the shape of the required turban and stitched. The cost of each *pagdi* varies from Rs. 6 to 20 according to the amount of gold and silk introduced. Among the more conservative members of native society, the *pagdi* is still believed to be an inferior sort of turban, useful only when one has to travel in a province containing no professional turban-folders to shape their head-dress after the required fashion.

The following samples have been obtained from POONA :—

PAGDI.—Worn by the Dekkan Brahmins and Chándraseni Prabhus. Of late goldsmiths (*sonárs*), carpenters (*sutárs*), coppersmiths (*kasárs*), and almost all other Hindus wear this turban, particularly when they have given up their caste trades and accepted service as clerks, &c. In the times of the Peshwas, the first two classes only were allowed to wear it, but the restriction no longer exists. Maker, Balvant Vithal, Lokhande. Price Rs. 7-8.

PAGDI.—Worn principally by the Bombay Prabhus. It is also worn by Sonárs, *sutárs*, *páñchkalsis*, and *khatris*. It is, however, named after the Prabhus, and was probably introduced by them from Pattan in Gujráth. A turban intermediate in form between this shape and that of the Brahmans is still in use in Gujrath, known under the name of *Badode shái* (Baroda fashion). This circumstance, together with the fact that the Pattáne or Bombay Prabhus wear a Gujráth shoe, and have in their colloquial language, particularly that of the women, an admixture of Gujráth words, such as *dádar*, *sasra*, *kákbháí*, shows that they came to Bombay (in or near which city alone they are found) from Gujráth. Maker, Balvant Víthal, Lokhande. Price Rs. 47.

MARÁTHA PAGDI.—A shape peculiar to the Maráthas of Kolhápúr. Maker, Balvant Víthal Lokhande. Price Rs. 47.

MARÁTHA PAGDI.—Worn generally by the Maratha *Ghodeválds*, or coachman. Maker, Balvant Víthal, Lokhande. Price Rs. 47.

PAGDI.—Worn by the Bhadvás or drum-beaters attached to a dancing-girl. Maker, Balvant Víthal, Lokhande. Price Rs. 47.

CLASS LII.—OBJECTS NOT SPECIFIED.

CHUDAS.—Broad wood or ivory bangles. Maker, Karsandás Devchand of Broach. Price for the set Rs. 17-11-3. *Not for sale.*

CHUDAS.—Bangles from Surat. Maker, Nannumia Jamálmia and Nurbibi. Price for the set Rs. 20-12. *Not for sale.*

CHANDLA.—Spangles. Maker, Jivakuvar of Surat. Price Re. 1. *Not for sale.*

BOMBAY MANUFACTURES.

SECTION A.—FINE ARTS.

CLASS III.—ARCHITECTURAL DRAWINGS AND MODELS.

Models exhibited by the Bombay Port Trust (loan) :—

Model of the steam dredger *Teredo* in use in Bombay Harbour.

Model of one of the hopper barges working in connection with the above.

Set of models of the beacons lately erected on various points in Bombay Harbour.

Model of the Island of Bombay, exhibited by Mr. Rienzi Walton, (loan).

This model, (made in February 1882, under instructions from the Municipal Commissioner, Mr. E. C. K. Ollivant, C.S., in order to illustrate the surface drainage of Bombay,) was designed and superintended by Mr. Rienzi Walton, M.I.C.E., Executive Engineer, Bombay Municipality, and executed by Harischandra Rávjí, Surveyor.

CLASS IV.—ENGRAVINGS, LITHOGRAPHS, &C.

Lithographs, by Mr. A. P. Cortez, Bombay (loan).

Pink soap-cakes.

Vegetable do.

Carbolic acid cakes.

Almond ditto.

Coal tar ditto.

Superior toilet soap.

Pale soap bars.

Extra, ditto.

Marble, ditto.

White, ditto.

The soap manufactured by this company is much liked by the natives of the Bombay Presidency, and particularly that variety called “vegetable” soap is in much request. Hindus of the orthodox type would not touch a soap made of tallow or animal fat, as it is against the principles of their religion to do so. Such men and women in general, therefore, did not use soap at all, and contented themselves by cleaning their hands with simple earth or the soap-nuts (*Sapindus emarginatus*). Since the production of the vegetable soap the objection to the introduction of that article in the native Hindu household is overcome, and soap is replacing the primitive clay and soap-nut throughout the Presidency.

LXI.—COTTON MANUFACTURES.

YARN AND CLOTH.—Manufactured and exhibited by the Colaba Land and Mill Company, Limited, Bombay, (loan).

Old preparation and yarns from Broach ground cotton :—

No. 1, Cotton and carved sliver.

„ 2, Drawing silver.

Bridles. Exhibited by the Baroda Central Committee (loan). Maker Sateji
Govind. Has pricks which protrude on pressing the key.

CLASS XCVIII.—SPINNING, WEAVING, AND ROPE-MAKING.

Reeds and healds. By F. K. Oldhan.—Reeds and healds are both worked together
in all looms where silk, cotton, jute, or woollen textile fabrics are made.
The machinery for making the same has been imported from England by
the firm Moolajee Jaitha & Co., Bombay. The machinery is worked, and
material prepared exclusively by the natives themselves. The new
industry has only been established since September 1881, and is the only
one of the kind in India, as previous to its establishment all had to be
imported from England and France, and promises to facilitate and take a
very prominent part in the cotton industry.

SECTION H.—FOOD PRODUCTS.

CLASS CXV.—BREAD STUFFS AND ARTICLES MADE THEREFROM.

- Flour and Corn. Prepared and exhibited at the East India Mills by Messrs.
Bapty Brothers, Bombay (Presentation).
Extra superfine flour.
Superfine flour.
Purified semolina (from soft wheat).
Cleaned pollards.
Ditto, bran.
Pure whole meal.
Specimens of cleaned and dressed wheat used in the preparation of above.
Selected white wheat.
Ditto red do. (from the Central Provinces).
Ditto white wheat.
Ditto red do. (from the Delhi and North-Western districts).
Split peas from white peas grown in the Cawnpore district.
Cleaned and dressed "katha" wheat.
Ditto ditto finest hard white wheat.
Semolina, prepared from hard white wheat.
Samples of cheese. Made at the Government farm at Bhadgaon in Khandeish,
exhibited by the Superintendent of the farm. Puneria berries used as a
substitute for rennet (Presentation).

SECTION K.—ETHNOLOGY, ARCHÆOLOGY, AND NATURAL HISTORY.

CLASS CXLIV.—ETHNOLOGICAL COLLECTION.

Turbans or hats. Worn by the natives of India in the Bombay Presidency, and exhibited by the Bombay Committee, Calcutta International Exhibition. (loan.)

BRITISH BURMA.

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE USE OR DECORATION OF DWELLING HOUSES AND OTHER BUILDINGS.

CLASS XXIII.—FURNITURE AND UPHOLSTERY.

- Lacquer betel box, a good example of a pattern and color now obsolete. Lent by the Rangoon Municipality.
- Gilt lacquer tables (Rs. 55, Rs. 28), purchased by the Local Administration, made by Maung Pa, Prome. The effect is obtained by allowing the black lacquer to show through the gilding, which is laid over it, so that the figures and ornaments appear as if drawn in black on a gold ground.
- Gilt lacquer inkstand (Rs. 15) and box (Rs. 28), purchased by ditto.
- Black lacquer panels (Rs. 18) purchased by ditto, made by Maung Pa, Prome. The ornaments are moulded separately and applied with lacquer.

CLASS XXV.—STONE UTENSILS, POTTERY, PORCELAIN, AND
EARTHENWARE.

- Case of kaolin jars, specimens of pottery made from kaolin found near Prome. Lent by J. Anderson, Esq., Prome.
- Flower-holder (Rs. 5), purchased by the Local Administration, made by Shans at Bilin, used to carry flowers in when worshipping at the pagoda.

CLASS XXVI.—METALWARE, HARDWARE, AND CUTLERY.

- Image of Gotama, lent by the Rangoon Municipality, made by Maung Ba, Kemmendine.
- Image of Gotama (sitting position, Rs. 60), purchased by the Local Administration, made by Maung Ba, Kemmendine.
- Image of Gotama (recumbent position, Rs. 60), purchased by the Local Administration, made by Maung Ba, Kemmendine.
- Stand of triangular gongs (Rs. 180), purchased by the Local Administration, made by Maung Tha Aung, Rangoon. These gongs cost Rs. 4-8 and Rs. 3-8 a viss, according as they are more or less burnished.

CLASS XXXI.—DECORATIVE WORK INCLUDING CARVING AND
ARTWARE.

- Carved teak sideboard, made by Maung San of the Institute of Industrial Arts, Rangoon. The back is carved out of a single plank one inch thick. Value Rs. 800 in Rangoon. Lent by the Rangoon Municipality.
- Pair of carved teak wood flower-stands, made at the Institute of Industrial Arts, Rangoon, by Maung Shwe Tha. Value Rs. 90 in Rangoon. Lent by the Rangoon Municipality.
- Carved teak gong stand consisting of two wild men holding a carved stick carrying a triangular gong, lent by the Rangoon Municipality, made at the Institute of Industrial Arts, Rangoon.
- Carved teak sideboard, gong-stand, and gong, lent by Colonel Plant, Commissioner of Tenasserim, made by Maung Ta Lok of Henzada.

- Burmese figures, lent by the Rangoon Municipality, carved by Maung Sen.
- Carved elephant's tusk, lent and carved by Maung Nyaing, Moulmein.
- Ivory paper-knife, the handle of open tracery, through the interstices of which a figure has been carved in the centre : a niello band binds it to the blade ; lent by Maung Po, Prome.
- Pair of carved teak brackets, lent by E. C. Buck, Esq., Secretary to the Government of India, Revenue and Agricultural Department, made by Maung On Gaing, Rangoon.
- Carved teak bowl-stand, made by Maung On Gaing, Rangoon, lent by the Bishop of Rangoon.
- Carved teak steering chair (Rs. 215), purchased by the Local Administration, made by Maung Taung, Rangoon. This class of carving costs about Rs. 10 a square foot.
- Carved shrine of teak (Rs. 320) to hold a sitting and recumbent figure of Gotama, purchased by the Local Administration, made by Maung Tha Yaung. The carving at the back of the image costs Rs. 20 a square foot and consists of intertwining foliage in three planes.
- Carved teak gong-stand, supported by an elephant (Rs. 160), purchased by the Local Administration, made by Maung On Gaing. The elephant is 2½ feet high, lacquered black ; a wreath of foliage encloses the gong.
- Bullock cart carved out of a solid block of teak (Rs. 160), purchased by the Local Administration, made by Maung San. This sort of cart is used on festival occasions.
- Carved teak hall table (Rs. 380), purchased by the Local Administration, made by Maung Pe San of the Institute of Industrial Arts, Rangoon.
- Sideboard back (Rs. 160), purchased by the Local Administration, made by Maung Po Ka of the Institute of Industrial Arts, Rangoon.
- Carved ivory chessmen (Rs. 320), purchased by the Local Administration, made by Maung Nyaing, Moulmein. The pieces consist of king, general, elephant, carriage, knight, and pawn.
- Figure carved in centre of ivory tracery (Rs. 55), purchased by the Local Administration, made by Maung Shwe Go, Moulmein.
- Carved ivory figure of a dancing girl (Rs. 23), purchased by the Local Administration, made by Maung Shwe Go, Moulmein.
- Carved figure of a player (Rs. 25), purchased by the Local Administration, made by Maung Shwe Go, Moulmein.
- Carved ivory dessert knife (Rs. 33), purchased by the Local Administration, made by Maung Shwe Go, Moulmein.
- Two carved ivory paper-knives (Rs. 18 each), purchased by the Local Administration, made by Maung Shwe Go, Moulmein.
- Carved teak gong-stand (Rs. 180), sent for sale by the Institute of Industrial Arts, Rangoon, made by Maung Myat Tha U.
- Carved teak panels (Rs. 27), sent for sale by the Institute of Industrial Arts, Rangoon, made by Maung Myat Tha U.
- Carved teak easy chair (Rs. 20), sent for sale by the Institute of Industrial Arts, Rangoon, made by Maung Myat Tha U.
- Carved ivory paper-weight (Rs. 55), sent for sale and made by Maung Nyaing, Moulmein.
- NOTE.—Wood carving.—The material costs about Rs. 3 a cubic foot in the market, except for very broad planks, which cost more. If any joiner's work has to be done, it should be calculated for at Rs. 2 a day. Carvers obtain from Rs. 3 to Rs. 10 and in one instance Rs. 20 a square foot. Very good work can be obtained for Rs. 6 a square foot.

CLASS XXXII.—CARPETS, HANGINGS, TAPESTRY, FURNITURE-STUFFS, MATTING, PAPER-HANGINGS.

Appliqué hangings (*Salakat Kalaga*), lent by the Rangoon Municipality, made by U. Cha Swe, Rangoon.

Appliqué hangings (Rs. 90, Rs. 75), sent for sale and made by U. Cha Swe Rangoon.

Silk embroidered hangings (Rs. 310), purchased by the Local Administration, made by U. Cha Swe, Rangoon.

Note.—Appliqué hangings or *kalagas*. These hangings are made by cutting figures, foliage, and flowers, and geometrical patterns out of different colored cloths, and sewing them on to a cloth background, which is generally red. They can be made of any size, and commend themselves for the flowing yet graceful lines of the foliage and the grotesque attitudes of the figures. The color effect also is very good. The work can be done on any colored ground that may be chosen, provided a pattern is sent.

Ordinary work can be obtained for 8 annas a square foot and the best at 10 annas a square foot.

The same subjects but in better borders can be obtained embroidered in floss silk on a cloth ground, at a rate of Rs. 6 a square foot. There is only one man at present who is able to do this work.

CLASS XXXIV.—BRONZES ORNAMENTAL WORK IN GOLD, SILVER, AND OTHER METALS.

Gold cup lent by J. A. Bryce, Esq., Rangoon, presented to him by the King of Burma.

Gold harness trappings lent ditto, made by Maung Chwet Ni, Rangoon.

Shan work copper box inlaid with silver. The copper is blackened by mixing with gold and sulphur, lent ditto.

Silver cup, lent ditto, made by Maung Chwet Ni, Rangoon.

Silver box, lent ditto, made at Yemethen in Upper Burma.

Silver niello letpet box, probably of Yunnan work, lent ditto.

Silver gilt box from the border land between Upper Burma and China, lent ditto.

Copper box inlaid with silver, lent ditto.

Silver Shan work lime box and silver pipe, lent ditto.

Paper knife of Moulmein work, ivory handle, having a figure carved through the interstices of the foliage, silver sheath, ivory blade, lent ditto.

Silver sugar basin lent by Major Spearman, Rangoon, made by Maung Chwet Ni, Rangoon.

Silver salt cellars, lent ditto, made ditto.

Silver hair brush handle, lent ditto, made at Prome, old style of work.

Silver medicine box, lent ditto, made at Paungd.

Silver tumbler cover, lent ditto, made at Thayetmyo.

Silver race cup, lent by J. F. Dickson, Esq., Rangoon, made by Maung Po Thet Rangoon, Jeypur gold medallist, January 1883.

Silver-mounted sword, lent by J. E. Bridges, Esq., Bassein.

Shan swords and spear, and Talaing bow, lent by Maung Shwe Maung, Moulmein.

Butter dish and stand, lent by Colonel Plant, Commissioner, Tenasserim, made by Maung Tha Myat, Thayetmyo.

Stamp box, lent ditto, made ditto on the model of a *pa*, or basket used as a travelling box in Burma.

Nest of silver boxes of Shan work, lent by Maung Shwe Maung, Moulmein.

Silver betel-box, lent ditto, made by Maung Shwe Yon. This is of open *repoussé* work with a plain silver lining. The cover is ornamented with gold tracery.

Silver bowl stand of rough Shan work, lent ditto.

Silver bowl, lent by Maung Mo, Moulmein, made by Maung Po Che, Moulmein.

Silver betel-box of old workmanship, very inferior to the present, lent ditto.

Silver cup, a specimen of the best kind of old work, lent by Maung Mo, Moulmein.

Shan betel-box with small cups of modern work and a silver niello lime-box.

Lent by Maung Taw A., Moulmein.

Gold cup on silver stand, lent ditto.

- Gold betel-box of old workmanship, on gold stand, lent by Maung Taw A., Moulmein.
- Old silver bowl, lent ditto.
- Silver bowl stand of rough Shan work, lent ditto.
- Silver betel-box, lent ditto, made by Maung Shwe Shwe, Moulmein.
- Silver Shan work cheroot box, lent ditto.
- Old silver bowl lent by Maung Thaya, Moulmein.
- Oval Shan cheroot box, lent ditto.
- Silver mounted sword and dagger, lent by Maung Hlé, Moulmein, made by Maung Te, Moulmein.
- Old silver bowl, lent ditto.
- Gold lime box, lent by Maung Po Maung, Prome, made by Maung Bya, Prome. The box is lined with silver which is not affected by the lime. The outside cover and sides are made of open gold *repoussé* tracery dyed red in parts.
- Silver bowl, lent by Maung To, Ramree. Made by Maung Shwe Ba in old style with the twelve signs of the zodiac.
- Gold bowl lent by R. Rowett, Esq., Rangoon—presented by the Queen of Burma to Mr. Rowett.
- Silver cheroot case, lent ditto. Bought at Mandalay.
- Silver prize cup, lent by H. Wooton, Esq., Rangoon, Thayetmyo work.
- Silver oval cheroot box, lent by G. E. L. Dawson, Esq., Rangoon. A good example of delicate Shan work.
- Silver-gilt niello cigar case, lent by M. R. Cowie, Esq., Rangoon, made by Maung Po, Shwegyin.
- Silver salt cellars, lent by E. M. Sage, Esq., B. B., P. W. D., made by Maung Shwe Waing, Rangoon.
- Silver drinking cup, lent by Maung Po Myin, Rangoon, made in Moulmein 30 years ago in imitation of English work.
- Silver sugar basin and milk jug, lent by T. A. Bryce, Esq., Rangoon, made by Maung Chwet Ni, Rangoon.
- Silver bowl, lent by Maung An, Bassein. Old work with figures of animals in eight panels.
- Old silver bowl with the signs of the zodiac represented in medallions, lent by Maung Sugale, Bassein.
- Silver betel-box of Shan work, lent ditto.
- Old silver teapot, lent by Maung San U, Bassein.
- Shan work silver tobacco box, lent ditto.
- A pair of swords with carved ivory handles and no scabbards, lent by Maung Nyun Gye, Bassein.
- Silver pot, lent by J. Anderson, Esq., Prome, made at Thayetmyo.
- Silver Shan betel-box bought in Mandalay, lent by Mr. Abraham, Prome.
- Silver powder box and stand, lent by Maung Po, Prome, made by Maung Kwet, Prome.
- Silver bowl, lent by Maung An, Prome, made by Maung Bya, Prome.
- Silver bowl, lent by Maung Pe, Prome, made by Maung Tha Shun, Thayetmyo. This is made in the old style of very low bas-relief.
- Pierced silver bowl, lent by the Bishop of Rangoon, made by Maung Shwe Yon.
- Silver presentation piece, lent by Captain A. G. Schuyler, 2nd D. C. O., made by Maung Po Thet, gold medallist, Jeypur Exhibition, 1883.
- Pierced silver bowl—lining of copper blackened by an admixture of gold and sulphur, lent by R. Rowett, Esq., Rangoon, made by Maung Shwe Bin.
- Piece of silver work lent by the Rangoon Municipality. The kings of Burma use a stand of this pattern, but made of gold, to place their water cups in. *Repoussé* work, pierced work in the *repoussé*, plate tracery figures, figures in the round and in *bas-relief*, and cast work engraved and chased are represented in this piece, made by Maung Shwe Yon.
- Pierced silver bowl on a silver stand, lent ditto, made by Maung Po Thet, gold medallist, Jeypur Exhibition, 1883.
- Silver biscuit box, lent by A. M. Otter, Esq., Rangoon, made by Maung Shwe Yon.
- Shan betel-box used by Shan tribes living between Burma and China, lent by the Rangoon Municipality.

- Niello paper-knife, blade in silver enamel, hilt of niello in an alloy of gold and brass, handle damascened in silver on a matrix of copper blackened by a mixture of gold, lent by the Proprietor, *Rangoon Gazette*, made by Maung Shwe Yon.
- Silver presentation piece, lent by H. H. Mathews, Esq., made by Maung Aung Myat, Thayetmyo.
- Ivory paper-knives lent by T. T. Elmes, Esq., Rangoon, made by Maung Kya Gaing, Rangoon.
- Silver copper pot, lent ditto, made by Maung Po Thet, Rangoon.
- Silver bowl and stand, and silver glass stand made in Mandalay, lent by Rangoon Municipality.
- Model of a pagoda in block tin (Rs. 60). Burmans and Shans sometimes place these models near their houses and worship at them. Purchased by Local Administration, made by Ah Mu, Moulmein.
- Vase and stand in block tin (Rs. 35). The tin is smelted in Mergui. Purchased ditto, made ditto.
- Four plates (Rs. 22, Rs. 10), purchased ditto, made ditto.
- Chinese teapot (Rs. 10), ditto ditto.
- Block tin betel-box (Rs. 24), ditto ditto.
- Ditto card-box (Rs. 15), ditto ditto.
- Ditto sugar-box (Rs. 17), ditto ditto.
- Ditto candlesticks (Rs. 38), ditto ditto.
- Silver bowl (Rs. 95), ditto, made by Maung Tha Shun, Thayetmyo.
- Silver betel-box (Rs. 152), purchased by the Local Administration, made by Maung Chwet Ni, Rangoon.
- Silver niello cup and platter (Rs. 233), purchased ditto, made by Maung Po, Shwegyin.
- Silver cup (Rs. 102), purchased ditto, made by Maung Bya, Prome.
- Silver cup (Rs. 26), purchased ditto, made by Maung Po Nyun, Shwegyin.
- Silver cup (Rs. 26), purchased ditto, made by Maung Tun Hla, Shwegyin.
- Betel-nut cracker (Rs. 4), purchased ditto, made by Maung Tet Tun, Shwegyin.
- Tumbler-stand (Rs. 86), sent for sale by Maung Na To, Kyaukpyu, made by Maung Shwe Ban, Kyaukpyu. This is a sample of Arakanese work illustrating the influence of Indian customs on the work-people.
- Tumbler-stand (Rs. 102), sent for sale by Maung Kraing Aung, Kyaukpyu, made by Maung Kraing Ni, Kyaukpyu.
- Large silver bowl (Rs. 530), sent for sale by J. H. Bryce, Esq., Rangoon, made at the Burmese Artists' Workshop.
- Silver teapot (Rs. 315), sent ditto, made by Maung Chwet Ni.
- Silver bowl (Rs. 202), sent for sale by Maung Po Kin, Moulmein, made by Maung On Gaing, Moulmein.
- Silver tea service (Rs. 465), sent for sale by Messrs. Edmund Jones & Co., Rangoon, made by Maung Shwe Yon, Rangoon.
- Gold lime box (Rs. 122), sent for sale by Maung Aung Se, Rangoon, made by Ma E Byu. A good specimen of filigree work applied to a box.
- Silver centre box (Rs. 1,060), sent for sale and made by Maung Chwet Ni, Rangoon.
- Two gold cups (Rs. 1,000), sent for sale by Maung On Gaing, Moulmein, made by ditto.
- Silver niello spoon and fork (Rs. 41), sent for sale and made by Maung Po, Shwegyin.
- Silver niello wine-glass (Rs. 61), sent for sale and made by a pupil of Maung Po, Shwegyin.
- Silver mug (Rs. 202), sent for sale by Maung Taw U, Akyab.
- Note.*—Silver work is of two kinds, pierced and ordinary. A pierced bowl is lined with a plain, polished, silver one and both are weighed together. The rate is then the same as for ordinary work.
- The best workman charges one rupee for workmanship on a rupee's weight.
- Second class work can be obtained at 14 and 12 annas per rupee's weight for workmanship.

Prices of bowls at rate of one rupee for workmanship.

Dhao, stone used for making lime
 (*chunam*).
Dhao, iron ore.
Abrak (mica), or talc.
 Red stone.

Lime (*chunam*) made of stone.

ALIPURA STATE.

SECTION F.

White earth.

Yellow earth.

PAHRA STATE.

SECTION E.

Tora (match for matchlock).
 White earth.

Yellow earth.

These articles were placed in the Economic Court.

CENTRAL PROVINCES.

SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS

CLASS XIV.—MUSICAL INSTRUMENTS.

Tambur tarabdar, exhibited by Maulvi Safdar Ali, E. A. C. C. P. Rs. 250.

Sitar, ditto ditto ditto. Rs. 250.

Both instruments made at Saugor, and are noticeable for their size, which is very far in excess of that of ordinary instruments of their class. They were designed by the exhibitor for use in congregational (native Christian) worship.

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE
USE OR DECORATION OF DWELLING-HOUSES
AND OTHER BUILDINGS.

CLASS XXV.—STONEWARE, POTTERY, AND EARTHENWARE.

Box (*kalamdan*), soapstone carving from Chanda. Rs. 4.

God (*Ashtbhuj deva*.) Rs. 4.

Made at Chanda.

Waterpot (*lota*), articles turned from soapstone (Bhandara). As. 8.

Plate (*rakabi*). As. 4.

Jar (*Ganj*). As. 4.

Jar (*Gotala*). As. 3.

Lamp (*Samai*). As. 4. Made at Khurai, in the Bhandara district.

Cups (*pigala*), articles turned from soapstone (Bhandara). As. 4 to As. 1-6. Made at Khurai, in the Bhandara district.

Collection of small vessels cut from stone (apparently volcanic). Made in the Kalahandi State and kindly sent by the Superintendent of Affairs, Mr. F. C. Berry, C.I.E. The stone occurs in a hill near the extreme S.-E. corner of the provinces. Rs. 5.

Vases (*barni*), Burhanpur glazed ornamental pottery. Rs. 2.

Teapot (*chadani*). As. 12.

Small vase (*gilas*). As. 6.

Bowl (*gilas*). As. 4.

Dish (*rakabi*). As. 4.

Made at the town of Burhanpur, in the Nimar district. The art is said to be confined to a single family, and the outturn is therefore very small.

A collection of glazed and unglazed articles of earthenware, exhibited by J. H. Glass, Esq., Executive Engineer, Jubbulpur Division. Made at Jubbulpur under the exhibitor's orders of a very fine clay occurring in the vicinity. The articles are considered particularly good of their sort, and bear an excellent reputation.

A collection of cut Jubbulpur pebbles, moss, agates, &c., exhibited by Rahim Baksh, through Municipal Committee, Jubbulpur. Rs. 155.

A collection of cut Jubbulpur pebbles, moss, agates, &c., exhibited by Karim Baksh, through Municipal Committee, Jubbulpur. Rs. 178.

These articles comprising paper-knives, knife-handles, studs, &c., are cut from pebbles found in the bed of the Nerbudda or at places in the neighbouring hills.

CLASS XXVI.—METALWARE AND CUTLERY.

Tray (*pandan*), Bhandara brassware. Rs. 4-8.

Ditto. Rs. 4-8.

Lamp (*samai*). Rs. 15-8.

Image of Mahadeo. Rs. 22-8.

Brass and copper *lotah*. Rs. 3-12.

Betel-nut-cutters (*sarota*). Rs. 2-8 to Rs. 4-8.

Made in the town of Bhandara, formerly of hand-made sheet brass, but now in great part of rolled brass imported from England.

Tray (*pandan*), Nagpur brassware. Rs. 20-8.

Trays, octagonal. Rs. 5. Made in the city of Nagpur.

Round tray (*pandan*). Rs. 3-8.

Ditto ditto, exhibited by Mr. Mukand Bulkrishna Buti. Rs. 20.

Elephant, ditto ditto ditto. Rs. 15.

Fumigating stand (*uabatti*), ditto ditto. Rs. 18.

Ornament, ditto ditto. Rs. 40.

Perfumery box (*chanphulla*), ditto ditto. Rs. 5. Made in Nagpur City.

Brass and copper shield (*dhal*), exhibited by Matadin Kasar, Sitabaldi, Nagpur. Rs. 21.

Plated tray (*pandan*), exhibited by Gulab Kasar, Sitabaldi. Rs. 25.

Cup (*kansaginnu*). As. 5. Sambalpur brassware.

Mirror (*arsi*). Rs. 4-8.

Noticeable for its thinness and for neatness of finish.

Cup (*gilas*). Rs. 2-8. Saugor brassware.

Plate (*tabak*). Rs. 10 and Rs. 8. Saugor brassware. Made in the town of Saugor.

Lotas, Mandla brassware. Rs. 3-8 to As. 12.

Bowls (*katora*). Rs. 2-9.

The brass vessels made at Mandla are considered one of the best manufactures of the province. Ornamental work is not practised, and the specimens exhibited are merely samples of well-made articles in every-day use.

Combined battle-axe and musket (*pharsha*), Nagpur cutlery, exhibited by Mr. Madho Rao Gangadar Chitnavis. Rs. 50.

Sword (*saif*) ditto ditto ditto. Rs. 75.

Ditto (*khanda*) ditto ditto. Rs. 100. Made by Bhopat, cutler of Nagpur city.

Knives, exhibited by Dada Karagir, Nagpur. Rs. 12-8 each.

Pair of marble-handled knives ditto. Rs. 12-8 each.

Betelnut-cutters (*sarota*), Jebra cutlery. As. 10. Made at Jebra, a village in the Damoh district.

Betelnut-cutters (*sarota*), Harda cutlery. Rs. 7 to Rs. 2. Made at Harda, in the Hoshangabad district.

Betelnut-cutters (*sarota*), Timurni cutlery. Re. 1 each. Made at Timurni, in the Hoshangabad district.

CLASS XXIX.—BASKETWARE.

Fan (*vizna*). Chanda bamboo-work. As. 4.

Basket (*petkoli*). As. 6 to As. 2.

Pan-case (*panpuda*). As. 2. Made in Chanda town.

Pan-case (*panpuda*), Bhandara grass-work. As. 8 each.

Trays (*tastardan*). As. 4.

Basket (*tokni*). As. 4. Made at Kamtha, a village in the Bhandara district.

Baskets (*tokni*), Bhandara grass-work. As. 4 each.

Pan-case (*panki chuli*). Re. 1.

Fans (*pankah*). Re. 1 each. Made at Kamtha, a village in the Bhandara district.

Grass *purdah* (*chick*), grass and silk-work. Made at Panchamnagar, in the Damoh district. Of great fineness. Rs. 20.

CLASS XXXI.—DECORATIVE CARVING.

- Carved screen, wood carving, exhibited by Deputy Commissioner, Damoh. Made at Damoh.
- Ornamented patterns (*kharaon*). Made at Sohagpur, in the Hoshangabad district. Apparently a poor imitation of the fine wire-inlaid patterns made at various places in the N.-W. Provinces, wire being replaced by tracing in silver leaf. Rs. 2.
- Carved panels. Rs. 3 each.
- Ivory flowers, ivory carving. Rs. 7. Made in Nagpur city.

CLASS XXXII.—CARPETS.

- Carpet, 15 feet by 10 feet, Jubbulpur carpets. Rs. 117.
- Ditto, 12 „ 10 feet. Rs. 94.
- Ditto, 12 „ 8 feet. Rs. 75.
- Made at the Government School of Industry, Jubbulpur. At their price (Rs. 7 per square yard) they will compare well, it is believed, with any other jail-made carpets of India.

CLASS XXXIV.—ORNAMENTAL WORK IN SILVER.

- Tea-pot, Saugor silver work, exhibited by Rao Venket Rao, through Deputy Commissioner, Saugor. Rs. 90.
- Snuff-box, exhibited by Rao Venket Rao, through Deputy Commissioner, Saugor. Rs. 12-6.
- Fish-shaped *attardan*. Rs. 15.
- Scabbard point (*kothi*). Rs. 9-4. Made in Saugor town.

SECTION E.—FABRICS, INCLUDING APPAREL, TOILET REQUISITES, AND OTHER OBJECTS OF PERSONAL WEAR OR USE.

CLASSES XXXVIII, XL, AND XLIII.—FINE COTTON-SILK AND SILK-COTTON FABRICS.

- Silk bordered cotton cloth (*mira dani lugra*), Nagpur fabrics. Rs. 35.
- Silk, Nagpur fabrics (*kali chandra kala*) bordered cotton cloth. Rs. 15-2.
- Woven in Nagpur city. Fine cotton cloths bordered with red silk are specialties of the Nagpur country, and are largely worn by the better class natives.
- Embroidered *sari*, exhibited by Mr. Mukand Balkrishna Buti. Rs. 80.
- Embroidered *sari* (*lugra lai laridar*), exhibited by Mr. Mukand Balkrishna Buti. Rs. 40.
- Woven in Nagpur city. *Sari* is the name given to a cloth worn by women some thing after the manner of a shawl.
- Loin-cloth (*dhotar*), Nagpur fabrics, exhibited by Mr. Mukand Balkrishna Buti. Rs. 60.
- Embroidered cloth worn by women (*patal golikandi laridar*), exhibited by Mr. Mukand Balkrishna Buti. Rs. 25.
- Ditto ditto ditto ditto. Rs. 500.
- Embroidered scarf (*dopatta laridar*), exhibited by Mr. Mukand Balkrishna Buti. Rs. 700.
- Turban (*pagri*), exhibited by Mr. Mukand Balkrishna Buti. Rs. 30.
- Silk turban (*mandil*), exhibited by Mr. Madho Rao Gangadhar Chitnavis. Rs. 35.
- Embroidered *sari*, ditto ditto ditto. Rs. 75.
- Woven in Nagpur city.

Silk-bordered cloth, loin-cloth (<i>karvati kathi jora dhotar</i>), Umrer fabrics.	Rs. 44 to Rs. 23-6.
Woven at Umrer, a town in the south of the Nagpur district noted, for the excellence of its red dye for silk, due, it is said, to the quality of the water used for dyeing there.	
Silk-bordered cloth for women, Umrer fabrics, exhibited by Mr. Mukand Balkrishna Buti.	Rs. 50
Cotton loin-cloth, exhibited by Mr. Mukand Balkrishna Buti.	Rs. 20.
White silk loin-cloth (<i>Saola</i>), exhibited by Mr. Mukand Balkrishna Buti.	Rs. 60.
Woven at Umrer.	
Fancy cloth (<i>ghilmili doria</i>), Bhandara fabrics.	Rs. 15.

Hukka tube (<i>nari</i>).	„	1-12.

Collection illustrating the process of silver gilt wire drawing at Burhanpur (with photographs), exhibited by Municipal Committee, Burhanpur. Rs. 300.
Made in the town of Burhanpur.

CLASS XXXVIII.—COTTON FABRICS.

Yellow sari, Seoni. Rs. 2-12 and Rs. 2-8.

Red sari. Rs. 3.

Black sari. „ 2-8.

Green sari. „ 2-10.

Woven at Mungelipet, in Seoni district. The cloths included under this head are exhibited as good specimens of the hand-woven cotton cloths made in many places in the provinces, and commonly worn by the village people. The manufacture of the finer qualities is suffering from the competition of European piece-goods, but that of the coarser description of cloths still holds its own.

Loin-cloth (*dhuti*). Re. 1-4.

Woven at Bairaganj, in Seoni district.

Cloth for women's wear (*Chandurpur lugra*), Sambalpur. Rs. 6-8.

Scarf (*pachra*). Rs. 10.

Woven in the town of Sambalpur.

MADRAS AND TRAVANCORE.

SECTION A.—FINE ARTS.

CLASS I.—PAINTINGS.

THE oldest specimens of Hindu pictorial art are fresco paintings, of which fragments still remain in the cave-temples of Ajanta. In these the human figures are generally fairly well drawn, but such accessories as palaces, buildings, hills, rocks, seas, and rivers are rendered in a manner so conventional, that it requires, to render the pictures intelligible, some previous knowledge of the methods or signs adopted. As regards the coloring of these frescoes, it has of late years been greatly injured by "bees, bats, and barbarians," but enough remains to show that it had been executed with considerable skill. Unfortunately the copies of these productions, taken so laboriously by Major Gill, were all lost after their transmission to England in a fire which occurred at the Crystal Palace in 1866; but of late Mr. Griffith, of the Bombay School of Arts, has been engaged in making copies of all that remain, for the Indian Museum at Kensington. These Ajanta frescoes have a double interest, inasmuch as they afford elaborate pictures of the domestic, religious, and social life of the people of the period, as well as examples of the degree of perfection which they had attained in art. Some of the oldest paintings at Ajanta are considered to date back as far as the second century of our era, while the later ones were probably executed in the seventh century. Their value, therefore, as illustrative of the every-day life of the people at that remote period can hardly be over-estimated. The pictures are said to show little knowledge of the science of art, there being a want of attention to perspective and light and shade. The chief aim of the authors of the paintings was evidently to give graphic pictures of scenes or stories which impressed their fancy, irrespective of artistic effect. At the same time, they did not despise grace and beauty in their productions, and they evidently had a considerable knowledge of the art of coloring. Since the time that these works were produced it does not appear that any advance has taken place in pictorial art in Southern India. On the contrary, there has been a decadence, except in quite recent years, when attempts have been made, under European influence, to disseminate some knowledge of the principles and practice of modern art. Of purely native pictorial art, dissociated from industrial productions, there is not a relic at the present day, as we cannot regard as works of art the tawdry productions on talc and paper illustrative of castes and industries, and the more ambitious paintings on ivory, &c., which are often grotesque and more or less vulgar and effeminate. Some of the industrial applications of art, such as the hand-painted palampores of the south, are evidently copies of traditional patterns that have come down from remote times, and show considerable taste in the choice and grouping of colors. The subjects of the patterns on these are generally such as to allow the artist to dispense with attention to perspective and light and shade. As a result, we have these flat pictures, in which the Hindu has always excelled, and which are so appropriate for carpet, shawl, and mural decoration. Paintings in oil, such as those kindly lent by His Highness the Maharajah of Travancore, although executed by indigenous artists, cannot be regarded as purely native productions, inasmuch as they show evidence of their being the outcome of the influence of Western art. If fine art therefore, be regarded as a measure of social progress and refinement, the great mass of the people of Southern India cannot be said to have advanced one iota since the downfall of Buddhism and the revival of the rival creed in the early centuries of our era. The same may be said with reference to the graphic and plastic ornamentation of places of worship, in which we see the crystallised ideas of remote times, covered with crude incrustations of the mythology of later years.

(Lent by the Government of His Highness the Maharajah of Travancore and executed by Ravi Varma, Koil Tamburan of Kilimdnar.)

- 1 Oil painting of Kerala Varmá, Valiya Koil Tamburan of Travancore.
- 1 Oil painting of Her Highness Lakshmi Bháyi, Senior Ranee of Travancore, M.I.O.C.

1 Picture of Krishna in embroidery.			

SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS.

CLASS XIV.—MUSIC INSTRUMENTS.

Music in some stage of development seems to be common to every people, and even the most barbarous races possess some kind of musical instrument. With the Hindus music has always been a favourite art, and the popular god Krishna is generally represented as playing on a flute. Much ingenuity has also been devoted in India to the invention of musical instruments, and these possess a particular interest at the present day, inasmuch as some have remained unaltered for centuries. Beginning with the simpler forms belonging to the rude hill tribes, and proceeding onwards to those in use amongst the more civilised population of villages and cities, we find a most interesting variety, capable of affording much information as to the characteristics of the national music. From this point of

view they have hitherto received little or no attention and a rich field of research therefore remains for the investigation of the ethnologist and musician. As regards Hindu music, some of the older airs are rich in expressive melody, and one reason why the higher class of them does not appeal to European taste lies in the peculiarities of the scale. According to Carl Engel, "the Hindus divided their musical scale into intervals smaller than our semi-tones. They adopted 22 intervals, called *fruti*, in the compass of an octave. The *fruti* may, therefore, be compared to our chromatic intervals. But from an old treatise written by Soma it is evident the common scale of the Hindus had much the character of the pentatonic order of intervals."* In the construction of their musical instruments the natives of India have called into requisition a great variety of substances. The chief of these are reeds, bamboos, gourds, wood, iron, brass, shells, bone, ivory, gut, bladder, and skin. It is impossible to frame a classification of the instruments which will indicate their position in the probable order of their successive invention, but the following is given as an attempt in that direction, in so far as regards the simpler and more primitive types in each class :—

(a)—*Instruments of percussion—*

Drums, tambourines, cymbals, castanets.

(b)—*Wind instruments not depending on reeds—*

Instruments of the trumpet kind, such as horns and flutes and whistles.

(c)—*Wind instruments with reeds.*

Pipes of various kinds with vibrating reeds of cane or reed, and a single tube. Instrument with blow-pipe, leather bag, and chanter, like a bag-pipe. Pipes with two or more tubes inserted into a small bottle-gourd.

(d)—*Stringed instruments—*

Instruments with one string and without a finger-board. Dulcimer with frame and strings of cane. Instruments with finger-board and frets for shortening the strings, the sound being produced by twanging with the fingers or with a piece of wood, bone, &c. Instruments with finger-board, and played with a bow like the violin.

(a)—INSTRUMENTS OF PERCUSSION.

Drum.—The varieties of this instrument are numerous. Some, shaped like a kettle-drum, are made of iron and covered with strong hide; but generally speaking the body of the drum is made of a hollowed section of the trunk or branch of a tree. In the larger drums the ends are closed with sheep skin, but in some of the smaller ones bladder is used. The Tamil names of the several drums are as follows :—

Odal.—1 Foot $7\frac{1}{2}$ inches \times 1 foot $2\frac{1}{2}$ inches, ends closed with sheep skin, ordinary drum shape and laced with rope. Hollowed section of a tree.

Thaval or Dole.—1 Foot $3\frac{1}{2}$ inches \times 1 foot $1\frac{1}{2}$ inches, ends closed with sheep skin, ordinary drum shape and laced with rope. Hollowed section of a tree.

Doliki.—1 Foot $1\frac{1}{2}$ inches \times $9\frac{1}{2}$ inches, ends closed with sheep skin, ordinary drum shape and laced with leather thongs. Hollowed section of a tree.

Mathalam.—1 Foot 7 inches \times $8\frac{1}{2}$ inches, barrel shaped and laced with leather thongs. Hollowed section of a tree.

*Descriptive Catalogue of Instruments in the South Kensington Museum, 2nd edn., page 56.

Pombai.—Two oblong shaped drums, lashed together, both about 1 foot 1 inch in length and about 7 and 6 inches, respectively, in diameter. Made of the hollowed branch of a tree. One is played by beating with the fingers, and the other by rubbing a stick covered with leather. Laced with rope.

Gonthalam.—A pair of kettle-drums turned in the shape of a flower-pot out of the trunk of a tree, 1 foot \times 8 $\frac{1}{2}$ inches; laced with ropes.

Gidikatti.—A pair of miniature kettle-drums, made as above, 6 inches \times 6 inches, laced with leather thongs.

Uduk-kai.—A brass hour-glass shaped drum, 6 $\frac{1}{2}$ inches \times 6 $\frac{1}{2}$ inches, covered with bladder and laced with twine; used in various religious ceremonies.

Uduk-kai.—A smaller plain little drum, used by jugglers and men who exhibit performing monkeys.

Dape.—A tambourine, 1 foot 9 $\frac{1}{2}$ inches, rim of wood 4 $\frac{1}{2}$ inches deep, and covered with parchment.

Dasari Thappa.—Small rude tambourine made of two semi-circular sections of wood joined with iron clasps, 7 $\frac{1}{2}$ inches \times 3 $\frac{1}{2}$ inches, covered with parchment.

Kanjir.—A small tambourine with attached cymbals and rattles, 5 $\frac{1}{2}$ inches \times 3 inches, covered with the skin of a lizard.

Ticri.—A pair of small castanets, made apparently of blackwood (*Dalbergia latifolia*).

Jaler.—A pair of small brass cymbals.

Thalam.—A pair of brass cymbals, each 4 $\frac{1}{2}$ inches in diameter.

Jangani.—A small brass gong, such as is used by beggars.

Chippala.—Two wooden castanets, each with a ring for the finger to hold it, and mounted with two pairs of small brass cimbals and brass rattles.

(b)—WIND INSTRUMENTS WITHOUT REEDS.

Horns.—Some of the hill tribes in Ganjam use a bullock's horn like a trumpet, but of course religious scruples would prevent Hindus generally from using such an instrument.

Sanku.—A conch shell. The conch is usually blown through a small hole made in the spiral end. In the instrument exhibited the spiral is encased in brass, which has a mouth-piece like a trumpet. The other end of the shell is also brass-mounted, and has a large floral expansion, in shape something like the tail of a mythical bird often seen on temples.

Thiruchinnam.—Two thin brass trumpets, each 2 feet 3 inches in length.

Kombu.—A S-shaped brass trumpet, 4 feet 8 inches in length, diameter of bell 6 inches. It resembles in shape the ancient Scandinavian horn, and is used on various ceremonial occasions.

Alkujja.—Whistle made of bamboo, 10 inches long and with 8 holes, very close together.

Pullangolal.—Flute made of bamboo, 13 inches long with 8 finger-holes.

(c)—WIND INSTRUMENTS WITH REEDS.

Mogavine.—A small oboe-like instrument made of hard wood, 11 inches long. The reed in this, as in most of the other reed instruments, is usually made out of the pointed end of the flowering spathe of the cocoanut palm, and is therefore thick and stiff, and harsh in tone compared with reeds made from cane. Sometimes, both in the north and south, sections of the leaf of the palmyra palm are used in making reeds. The mogavine has eight finger-holes in front, all of the same size, and one behind. The upper end is made in a way that leads me to suppose that some mouth-piece originally belonged to it, and the lower end is ivory mounted.

Karna.—A large instrument like an oboe, made out of one piece of blackwood and without the usual metal bell. It has eight finger-holes in front and one behind, and the reed is made of palmyra leaf. The length of the instrument is 18 inches, and the diameter of the bell mouth 4 inches.

Nagasaram.—An oboe-like instrument, made of blackwood and brass-mounted. The upper end, which carries the reed, is made of brass, and the reed is made from the spathe of the palm; length 22 inches. The bell is made of brass turned, and is $3\frac{1}{2}$ inches wide. There are eight finger-holes in front, and two more near the lower end of the tubes on each side.

Surna.—Another variety of the Indian oboe, with seven finger-holes in front and one behind. It is made of one piece of blackwood, and is $11\frac{1}{2}$ inches long and 3 inches wide at the lower end; reed made of palmyra leaf.

Panchama Oththu.—Wooden tube covered with leather and with brass mountings, bell with etched figures. Length $13\frac{1}{2}$ inches; diameter of bell $3\frac{1}{2}$ inches. Reed made of palm spathe. There is only one finger-hole, and the instrument is used as a drone.

Oththu or Suthi.—A wooden tube covered with leather, with only one finger-hole, and brass-mounted. Length 1 foot $10\frac{1}{2}$ inches; diameter of brass bell $3\frac{1}{2}$ inches. Reed made of palm spathe. Used as a drone.

Magidi.—This is the instrument used by the snake-charmer, and consists of a bottle-gourd with a blow-pipe at the smaller end and thin flageolet-like tubes inserted into the bulbous end. The lower ends of the tubes all open into one brass bell. The centre tube has nine finger-holes in front, the three lower of which are partly closed with wax, and one behind. The tube to the left of it has seven finger-holes in its side, some of which are shut with wax. The tube to the right has no finger-holes. Inside the gourd there is a reed for each tube, made by cutting a vibrating tongue in a kind of grass or reed. The centre tube is the chanter or performing tube, and the side ones drones, which are turned to the chanter by means of the wax stopping in the finger-holes. The parts of the instrument are fastened together by means of a black wax.

Thuththi.—This is a rude kind of bag-pipe. The bag is made of a small goat's skin, the blow-pipe being inserted in the place of one fore-leg and the chanter in room of the other. The other natural openings in the skin are closed by internal ligatures. Instruments of the nature of a bag-pipe are of very ancient date and very widely diffused, having been used by the Hebrews, Greeks, Romans, Arabs, Persians, and Hindus, and by most Celtic and Slavonic races. To the ancient Romans it was known as *Tibia utricularis*, and is said to have been a favourite instrument with Nero. Forms of it are still known and used in Italy, France, Germany, Russia and Poland, and in the eastern countries already specified. It was also at one time a popular instrument in Lincolnshire and Northumberland. It is alluded to by Chaucer, and Shakespeare mentions it on several occasions, as in Henry IV, Part I. It has long been cultivated in Ireland, and the drones in the Irish pipe are furnished with keys. It is the national instrument of the Highlands of Scotland, and its music has cheered the Highlander on to victory in every field on which British bravery has been conspicuous. It was the duty of the Highland piper in the field to cheer the clansmen on the march, to lead the van into battle, to alarm them when in danger, to collect them when scattered, to recall the heroism of their ancestors, and to incite them by passionate strains to imitate their example. In peace the bagpipe cheered the festive board, gave life and merriment to the wedding, and at death poured out the wild, wailing notes of the coronach as the body was carried to the grave. The Hindu instrument is a very barbarous one, and capable of playing only a few notes. The reed is made of a piece of cane with a vibrating tongue cut on one side, and there are five holes in the chanter, some of which are partially closed with wax.

Morejing.—This is an iron instrument identical with the Jews' harp, except that the tongue projects $1\frac{1}{2}$ inches behind, so as to give greater facility for holding it in the mouth. The French name of the instrument is *trompe*, and the Scotch *trump*, both evidently identical. The English name of Jews' harp is probably a corruption of the French *jeu-trompe*, or *toy trumpet*. Although only

a toy, yet it is capable of wonderful musical performances, and various marvellous performers on it have from time to time appeared in Europe. Some of these used two or more instruments, "each having a fundamental tone of its own, and consequently different harmonies."

(d)—STRINGED INSTRUMENTS.

(1)—Without a finger-board.

Thunthona.—This may be regarded as in some measure a sort of *trigonon*, with a small drum added to increase the resonance. It is chiefly used by beggars to accompany their recitations, and the pitch can be lowered or raised by means of the tuning peg.

Kinneri.—This instrument is a primitive kind of *vine*. It consists of a wooden bar with the ends ornamented with griffins' heads, &c. Two gourds painted in floral patterns are fixed below the bar. The strings are of wire, two in number, and supported by a bridge. There are five frets for fingering. Length 3 feet 1 inch.

(2)—With a finger-board.

Thamburi.—Is a sort of guitar. The body is semi-globular, made out of jackwood, and both it and the long neck are inlaid with ivory decorated with floral patterns, etched and filled in with black and red pigment. Length 4 feet 4 inches, width 1 foot 2½ inches, depth of body 10½ inches. It has four wire strings and the same number of tuning pegs, which are artistically shaped and adorned with ivory etched. The belly is convex and the bridge of dark wood; and to keep the strings clear of the sharp convexity behind the bridge they are ingeniously passed through bone beads. Originally the body of the thamburi was a gourd, and the instrument has been used by the Egyptians and Assyrians from remote times.

Vine.—The vine appears to be a sort of advanced *kinneri*. The body of the instrument is hollowed out of fine old jackwood, with belly of the same material, and is protracted into a long neck like that of a guitar, but has a gourd at the upper end fixed below to increase the sound. The strings are of wire and seven in number. Four of them are mounted, as in the guitar, over a bridge, and are furnished with a number of frets. Three of the strings run along the side of the neck and have an arched bridge of metal; and the scroll is adorned with a gilded griffin's head. Length of instrument 3 feet 6 inches, depth of body 9 inches, width 11½ inches.

Chittari or Guitar.—Length 4 feet 2 inches, width 10¾ inches, depth 9¾ inches. Originally no doubt the body of this instrument was one of the gourds some of which are ribbed, and the dug-out body of this instrument is adorned with a series of ribs radiating from the posterior single peg, to which all the strings are attached, over the convexity of the instrument, and again converging at the base of the neck. The instrument known as the guitar in Europe is evidently copied from this one; and, curious to say, the Italian name of it is *chittara*, while the Spanish designation is *guitarra*, and the French *guitare*. There can be no doubt that the whole of these names are derived from the same root or word. The strings are of wire and seven in number. Of these six are of equal length and pass over the general nut up to the tuning pegs, but the seventh, at a short distance of the finger-board, passes through a metal peg, and then turns off to a tuning peg in the side of the neck. The finger-board has numerous frets, made of ligatures of twine passing round the neck.

Sorabath.—This instrument has a drum-like body 12½ inches deep, and, inclusive of the neck and scroll, it is 2 feet 10 inches long. It is made out of one piece of wood, and the hollow body, which at first sight appears cylindrical, is found to be traversed by two holes at the base of the neck, and to be cut so as to form thin wings or scrolls. The bottom of the drum-like body is closed with a thin piece of wood, and the belly with parchment. The neck emerges from the body in a deep bracket-like piece, and the actual neck, from the nut to the upper

fret, is only about 8 inches long. The finger-board is inlaid with etched ivory, and the neck behind covered with bright blue cloth with gilt figures on it. Viewed as a whole, the instrument has in shape some resemblance to the figure of a bird, more especially as the neck ends in the gilded head of a bird. There are six tuning pegs and the same number of catgut strings, but four of them are closely arranged in pairs and could hardly be played except as pairs.

Saranghi.—Length 2 feet $3\frac{1}{2}$ inches, width $5\frac{1}{2}$ inches. This is a sort of violin, the whole being cut out of the branch of a tree. The body is hollow, dug out, and the belly covered with skin. It has three catgut strings passing over the bridge, and below these thirteen sympathetic wire strings arranged somewhat like the strings of a harp. It is played on with a bow, consisting of hair stretched on a piece of bent cane.

SECTION D.—FURNITURE AND OBJECTS FOR DECORATION OF HOUSES, &c.

CLASS XXIII.—FURNITURE AND UPHOLSTERY.

These articles, kindly lent by Mr. Whiteside, are admirable specimens of good carving, the work being executed with much fidelity and freedom,

(Carved by Madras carpenters under the superintendence of and exhibited by W. S. Whiteside, Esq., C. S.)

Sideboard. Time of Queen Elizabeth. From a drawing of a sideboard at Cornishead Priory, Lancashire.

Credence. Time fourteenth century. From a drawing in a missal in the Bodleian Library at Oxford.

Bedsted of ancient byzantine pattern. Time twelfth century.

Tea-box. Renaissance design.

CLASS XXIV.—GLASSWARE.

Glass of coarse quality is prepared in various parts of the country for the manufacture of bangles. The chief seats of the industry in the neighbourhood of Madras are the Kalahastri and Venkatagiri *taluks* of North Arcot, and large quantities of the crude glass prepared there are exported to Rangoon and elsewhere. The process followed in its preparation in these places is a very simple one. A kind of saline efflorescence "*soudu man*," which in some places is abundant on the surface of the soil, is collected and placed in pots containing about six Madras measures each. Sixty of these are built into a large clay furnace and baked for some time until the contents have been fused into white frit called "*gazu rai*." During the process the "*soudu man*" loses half its bulk and the crude frit is turned out in the shape of hemispheres, which are sold at the rate of Rs. 10 per candy of 40 maunds. The "*soudu man*" is a natural carbonate of soda which contains sufficient siliceous matter to make the frit. To give it color the "*gazu rai*" is powered and mixed with various metallic substances. To produce a blue glass or "*nilam rai*," a blue powder, probably sulphate of copper, is used; for green or "*paccha rai*," copper filings; for blue red, "*utha rai*," a black stone from Conjeeveram called "*nalla rai*," and for red "*sonne rai*," a stone known as "*chembadi rai*," also from Conjeeveram.* When colored, the glass is broken and fused once more and sold at Kalahastri at the following prices :—

Blue	Rs. 20 per candy.
Green	„ 16 do.
Blue red	„ 14 do.
Red	„ 16 do.

* Cox's North Arcot Manual.

The bangles are sold at from annas 2 to 5 per guthi of 500, and are largely exported. A few bangles have been introduced into this section to show the colours and quality of the glass.

The glass vessels and balls exhibited were made at a remote village in the Trichinopoly district, and were forwarded at the instance of M. R. Ry. Ragunadha Row Dewan Bahadur. The balls, which are so brittle as to hardly admit of being handled freely, are hung up as ornaments in pavilions and houses—some are white, being silvered inside like a looking-glass, and some contain water. Rosewater sprinklers, cups of various shapes, and small squat bottles are also made, but owing to imperfect annealing, or entire neglect of the process are so brittle that the changes in the weather or a slight blow are apt to break them. The color of the glass is various shades of green and claret, and its quality is about the same as that of ordinary French bottle glass. The shapes of some of the cups are quaint and pretty; and as the workmen have attained a certain degree of dexterity, it seems desirable that the industry should be encouraged.

(*Procured through M. R. Ry. Pattabhiram Pillay Avergal, Secretary, Trichinopoly Local Committee.*)

Collection of glass utensils made at a village in the Trichinopoly district.

CLASS XXV.—POTTERY, &c.

The exhibits of ceramic ware are not numerous, as little else is made beyond the common earthen pots of the country. These in Southern India are usually plain terra-cotta and of very graceful shapes. The color is generally red, and the articles well and uniformly fired. In some places the ware is ornamented by simple surface decoration, executed while the clay is moist or by etching after it has been fired. Some of the vessels found in ancient cairns and cromlechs are of great size and excellent finish. One in the museum is 3 feet 6 inches in depth and 8 feet 9 inches in circumference at the bilge. Antique pottery articles are found to vary greatly as to shape, some being flat and broad, others more or less globular, some pear-shaped, &c. In some cases the amphora-like pear-shaped vessels have feet like those figured by Dr. Schliemann in his "Ilios." The clay of which the ancient pottery is made is of very superior quality, and the articles are often ornamented with incised linear and other patterns, very much in the same manner as the pottery found in barrows and cromlechs in Europe and in the ruins of the ancient city of the Trojans. In some cases the external surface of the pottery has a varnished appearance, which was produced by rubbing it with the seeds of *Gyrocarpus Jacquini* and burnishing. Some of the small cup-like vessels of the cairns are covered in the interior with a black lacquer-like varnish. A similar appearance was observed in the pottery found by Dr. Schliemann, varying from a dull black to a rich resinous color. Professor Virchow is of opinion that the most common mode of producing a simple black color was to fire the articles slowly in shut-up places to produce much smoke, which entered into the clay and impregnated it.* In the case of the vessels with rich lustrous black coating, Professor Landerer believes that a coal black color was produced by smearing the vessels with tar or the pissa asphalt of Herodotus before baking, and that when fired, the resin was changed into the fine black varnish.† No doubt some processes of this kind were also known and practised in India. In some modern pottery a species of ornamentation is attempted by covering the red clay with a white ground color and laying on a sort of floral decoration with powdered micaceous earth, which becomes yellowish. This kind of decoration is not fired, and can be easily washed off. In the North Arcot district a white kind of clay is used for making pottery, and yields a very porous and clean-looking ware. At Karigeri, Gudiyatam taluk, this soft pottery receives a pretty green glaze, and is made in various handsome shapes, some of which are imitations of delft ware and other

* Ilios, p. 219.

† Ilios, p. 220.

European manufactures of the fifteenth and sixteenth centuries, patterns having been introduced by Collectors. The color of the glaze is of different shades of green, and it often has a marbled or shaded appearance. The ornamentation is entirely surface decoration, carried out in the plastic clay before the glaze is put on, and consists of various floral and other patterns. One of the water bottles is double, the outer shell being pierced so as to allow air to circulate around the inner. According to Mr. Cox's "North Arcot Manual," great care is taken in preparing the clay for this pottery. After being fashioned on the wheel it is dried for ten days in the shade and two in the sun, and is then baked for twelve hours in a close oven. To produce the glaze, equal parts of (*zangala paché*) verdigris, and bangle-earth (*soudu man*, an alkaline earth) are fused in a furnace till they form a green glaze. "This being powdered and mixed with water, is painted over the vessels, which are then dried in the sun and baked as before." "If half a part of white lead be added to the verdigris and bangle-earth, a yellow glaze is produced. In either case, when the baking has been too prolonged, the glaze assumes a blackish color."

The pottery made at the School of Arts is *Ironstone china*, and of a sand color with pale blue floral ornamentation in relief. This ware is very dense and heavy, and so hard that it will strike fire like a flint. The plated mountings were executed by Messrs. Orr and Co., the well-known jewellers of Madras. The paste from which the articles are made consists of kaolin, quartz, and felspar, and the glaze is lead.

STONE UTENSILS.

Paper-weights and rulers made of the famous *Trichinopoly marble* are exhibited. This stone is of a bluish-grey color and hard, and takes an excellent polish. It consists chiefly of well preserved specimens of shells, belonging to the *Gastropoda* and *Lamellibranchiata*, but contains sometimes pebbles of granite and fragments of fossil wood. The *Trichinopoly marble* is a cretaceous rock, and belongs to what is known as the *Trichinopoly group* of this series, which is confined to the district of that name. The stone is also made into slabs for tables and used for various ornamental purposes in the arts.

2 Sandstone sandal grinding stones.

CLASS XXVI.—METAL-WARE.

The domestic utensils in daily use amongst the people of India are mostly brass, often of very elegant shapes, and usually quite plain. The metal from which the articles are made is an alloy of copper and tin, and therefore not really brass, which is composed of copper and zinc, but a kind of bronze. The alloy used for making edge tools, &c., in the bronze age was composed of copper and tin, and contained, according to Worsæ, 10 per cent. of the latter, whereas the average composition of many ancient specimens found in England show as much as 12 per cent. of tin. The bronze of the vessels found in the Nilgiri cairns was analysed by Mr. Broughton, and the composition of the metal was as follows :—

Tin	29.89	per cent.
Copper	70	do.

It is added, “the old fragments have a large amount of tin, and approach nearly to speculum metal.”* To get a hard bronze alloy the proportions are copper 100 parts, tin 14 parts. This combination, when properly tempered, is capable of taking nearly as fine an edge as steel.† The body of the famous damascened ware of Bidar in the Nizam’s country is a kind of bronze. According to Heyne, it is composed of copper 16 oz., lead 4 oz., tin 2oz.; fused together, and when about to be used it is again melted and 16 oz. of zinc added to every 4 oz. of the alloy. Surgeon-General G. Smith gives the composition of the Bidari metal as 1 of copper to 4 of pewter, and says that when turned out of the mould it has a dull lead color. To give it the dark tinge it is smeared with a powder consisting of chalky earth and sal-ammoniac. According to Heyne, the black color is given by dipping it into a solution of sal-ammoniac, saltpetre, common salt, and blue vitriol. Some of the old gun and bell metals of India are of very superior quality, and the latter at times contain silver.

Plain and Pierced Brass-work.—Specimens of plain brass work in the shape of lamps, &c., are shown by the Hon’ble Goday Narain Gajapathi Rao. The adaptation in one of these of the leaf of the sacred pipul as a reflector is ingenious. Other devices in lamps, some of which are used in religious services, are also exhibited. Various cheap trays in hammered brass simply stamped or of

* Brecks’ “Primitive Tribes of the Nilgiris,” p. 94.

† Spon’s Encyclopædia, page 323.

stamped and pierced pattern are worthy of notice. The chief centre of manufacture of the pierced trays is Tirupati, in the North Arcot district, and the patterns are generally somewhat of the knop and flower pattern, or similar conventional devices, with at times a geometrical figure, a flower, or a mythical animal in the centre. The decoration is also mainly arabesque, the cove fluted, and the margins serrated and of a lace-like pattern. The trays are sold at cheap rates, and some of them are very pretty. A small collection of household ware and a number of articles used in religious worship, from Tanjore, are exhibited.

CLASS XXIX.—BASKET WARE.

The basket ware is of two kinds, one being made in Ganjam by the hill tribes of Kimeri from a kind of grass, and the other of palm leaves at Pluicat. In the case of the Ganjam manufactures some energetic local officer has evidently endeavoured to effect what he considered improvements on the old, simple, native productions, and the result is now before us in the shape of vile imitations of the commonest and most inferior basket-work of Europe. And as if this were not enough, they have also been put in possession of, and taught how to use aniline colors, with unspeakable results. This collection has been brought forward mainly to show how native artistic talent may be led astray and degraded by the efforts of gentlemen who mean well, but are utterly destitute of artistic taste. Some of the nested baskets which are not after a European *muster*, and the mats, are of pleasing patterns, and would be pretty but for the profusion of aniline colors with which they are daubed. The other basket ware exhibited was made at the old Dutch station of Pulicat, north of Madras. The baskets are all very much of the same pattern of work, and generally nested. Until of late years the makers of these baskets used native dyes of sober colors, but now they have taken to the use of aniline pigments with a pertinacity which nothing will stop, until the public taste is sufficiently educated to induce them to refuse to buy such trash. Unfortunately the chief purchasers are passengers and crews of home-going steamers, who buy them as curiosities, regardless of all defects. So fond are the makers of the baskets of the aniline colors, that it was only with the special aid of the Collector that a few articles stained with indigenous dyes could

be got for the exhibition. The Pulicat baskets are made of the leaves of *Borassus flabelliformis*, the palmyra palm, and the cigar-cases of *Phoenix sylvestris*. Some very strong baskets made out of a pale-colored ground rattan are exhibited from Tanjore. The prices, annas 14 and 10 respectively, are high, but the articles, considering their strength and probable durability, can hardly be said to be dear. From the same quarter also a trunk, made of like material, and very strong is exhibited. It is constructed somewhat in the style of a bullock trunk, and strengthened with three twisted bands of rattan. If covered with hide to make it water-proof, it would form an admirable bullock or ordinary travelling trunk.

1 basket made of the leaves of *Borassus flabelliformis* ornamented with tinsel.

CLASS XXXI.—DECORATIVE WORK, &C.

Fans of painted Palm-leaves.—These are made at Chitvail in Cuddapah and elsewhere. The leaf is that of the palmyra palm, and the colors are rather glaring and the patterns roughly finished. From Tanjore there is a much better specimen, with a tale border and silk fringe, and the handle ornamented with small bits of colored glass set in imitation of precious stones.

Nossam Fans.—These are from the town of that name in the Cuddapah district, and are made, apparently, of paper covered with thin cloth. They are furnished with ribs of bamboo radiating from the handle in imitation of the ribs of a palm leaf, from which doubtless they were originally made. The surface of the fan is covered with some pigment so as to give a body to work on, and then the final pattern is laid on with gilt and brilliant color, which give it somewhat the look of lacquer work. The decoration on one side consists of the eyes of the peacock's feathers in their natural colors, and on the other of a floral pattern.

Talc Fans.—Some of these, of very exquisite patterns, were formerly made at Tanjore, but the work now turned out is tawdry in design and badly finished. Cloth fans covered with tinsel ornaments are also made at Tanjore, but on the whole the fan industry there seems to have declined, and the work to have become poor, probably from want of encouragement.

Nossam Dish-mats.—These are hand-painted on thin leather, and some of the pictures, such as those in which dancing-girls are grouped into the form of a horse, elephant, &c., are conceptions which could only have suggested themselves to an eastern mind. The boxes in which the mats are packed are a kind of lacquer-ware, and apparently made of layers of paper and cloth. The patterns of the lacquer are floral, and in relief, and the colors very bright, with much gilding. Native playing cards are also made at the same place and put up in oblong boxes covered with mythological figures in brilliant colors.

Nandyál Lacquer Work.—One old man at this place turns out trays, tables, &c., in lacquer, but his work is generally inferior to that produced in some other parts of India.

Pith-work.—Pith models are made by gluing together and carving into shape the soft white pith found in the stems of *æschynomene aspera*. Several articles of this kind are sent from Tanjore.

Carved Shells of Fruit.—These have conventional floral patterns in relief, very well executed, and in very good taste. They are made by the hill tribes in the Ganjam district.

Carved Wooden Spoons.—These show great patience and care in execution, but are evidently copied from European patterns.

Other Carvings in Wood.—Several specimens of mythological figures, carved in red-wood (*Casalpinia sappan*) are exhibited from Tirupati in the North Arcot district. These are made in large numbers, to be sold to the pilgrims who visit the sacred hill at this place, and although rough in finish, are executed in a free, bold style. The wood is brought from the Balapalle jungles in Cuddapah, and is also made into *lotas*, plates, cups, &c.

A small plate of carved ebony made at Trichinopoly is a fair specimen of that kind of work. In the centre there is a conventional floral pattern disc, the cove is fluted, and the flat margin crowded with flowers and fruit deeply cut and very well executed. There is a humorous little figure of a lion in sandal-wood, made at Soraba in the Shimoga district of Mysore. From South Canara there is an octagonal carved sandal-wood box. The art of carving in sandal-wood in South India is chiefly practised in Mysore, Travancore and Canara, and the style of the work differs more or less in each district. The Canara box is covered with floral and mythological designs in high relief, and the whole shows much patience and care in working out details. A writing desk of carved sandal-wood, sent by a private exhibitor, is apparently Bombay work. The designs are floral and architectural, and the figures, which are in low relief, are extremely well executed.

Carved Ivory.—Putting aside for the present the Vizagapatam work, which is mostly fretwork, ivory-carving in the south is only carried on in Tanjore and

Travancore, and in the former place to a very small extent. From Tanjore there are two loan specimens of bouquets of artificial flowers in ivory. The Travancore work of this class was not examined at Madras prior to despatch, as the Committee were afraid of the risk of damage in packing and unpacking. Its high merits are, however, well known.

Vizagapatam Work.—This collection embraces work-boxes, cardcases, ink-stands, chess-boards, and a number of nick-nacks, made chiefly of sandalwood inlaid with ivory fretwork, tortoise-shell, horn, &c. The surface of the ivory is generally adorned with etching in black of mythological figures very well executed, or with floral forms in light and shade which are copies of European designs. The workmanship of the articles is usually superior, and although expensive, they are much in demand as drawing-room ornaments. A jewel-box, measuring $12\frac{1}{4}$ inches \times $9\frac{1}{4}$ inches \times $7\frac{1}{4}$ inches, is undoubtedly the finest specimen of this kind of work ever exhibited. The exterior of the box is covered with ivory fretwork rivalling lace in the delicacy of the tracery and elaborate nature of the patterns, which embrace floral and mythological figures. The fretwork is laid on a background of tortoise-shell, and the ivory, instead of being etched as usual, is carved out to the minutest detail with great skill and fidelity. Owing to the nature of the work the figures are only in low relief, and the designs are rather stiff; but on the whole the workmanship deserves commendation, both on account of its truthfulness and artistic spirit.

Iron-work.—In former years a considerable industry was carried on in Tanjore and Madura in carved steel and brass-work, and some beautiful examples of old arms decorated in this way are in the hands of private individuals. The style of ornamentation is markedly Dravidian, the figures consisting chiefly of monsters, often most ingeniously posed or grouped, and of arabesques. As regards the work, it is as elaborate and minute in detail and as well finished as Chinese ivory-carving, and worked out with marvellous patience. In fact, some of the older articles surpass the best specimens of Augsburg, and would not suffer from comparison with the carved iron articles of the middle ages in Europe. The art of fashioning iron and brass in this way still lingers in the Madura district, and two specimens of the modern work, kindly lent by the Hon'ble P. P. Hutchins, are exhibited.

Tirupati brassware with copper and silver inlaid.—In this work various patterns are stamped on the brass, and into these figures thin plates of copper or silver are pressed and apparently fixed by hammering the edges of the brass over the other metals, so as to make a sort of dovetail. In fact, it is a rude kind of damascene work. The pieces of copper and silver thus used are introduced into the designs in a very irregular way, and the details of the figures, which are generally mythological or floral, are usually worked out by punched lines in imitation of engraving. The result is a certain barbaric splendour, but the general effect is *bizarre* in the extreme. The ware is chiefly made to be sold to the thousands of pilgrims who proceed to the famous shrine of Tirupati, and as they want something striking for their money, the designs and finish do not usually receive much attention. Some very superior specimens of the work belonging to Mr. Whiteside and executed under his superintendence are shown. Small brass figures of the gods are also made at Tirupati, but the specimens got for the exhibition were so inferior in execution that they could not be exhibited.

Tanjore metal-work.—Is of three kinds, viz. brass graved, brass encrusted with copper, and copper encrusted with silver. Sometimes the brass and copper variety has also figures in tin introduced. In the graved brass-work the first rude impressions are made with a die, and by hammering. The work is then completed by cutting away the brass in the space between the figures, and giving it a granulated appearance with the graver. Finishing touches are also given to the figures. A *lot* of the common globular shape is usually the subject of this kind of adornment, and the ordinary pattern embraces pannels round the bilge with figures from the popular pantheon and chaste conventional floral designs. Examined closely, the figures are seen to be coarsely finished, but the general effect at a little distance is excellent. In the copper and brass-ware the vessels are made of brass and covered with figures of copper, which are fixed on the base metal by hammering

and a sort of dovetail union. After the copper rusts are put on and worked into shape, the figures are finished by the graver and a chisel. The designs on this ware are of the same character as those on the brass graven vessels, but the figures are in bolder relief. The encrusting of copper-ware with silver figures is a modern adaptation of the older art of covering brass with copper figures, and the silver is attached to the copper by the same kind of junction as that employed for fixing copper on brass. But as the metals are more valuable, greater trouble is taken to secure a better finish, and an examination of the silver figures in first-class work shows, that more graver and less die or chisel work is used than in the case of copper or brass. The designs consist, as usual, of mythological figures and floral decorations, which, although in some cases rather crowded, have yet an excellent general effect. In fact, profusion of ornament and intricate details are characteristic of all Hindu work, from the embellishment of a temple to that of a lota, and, in the case of the Tanjore ware, age improves its appearance by deepening the hue of the copper and toning down the color of the silver. Of the specimens exhibited a large octagonal tray with a large circular boss in the centre is specially deserving of attention, and not less so is a large copper pot of the shape usually employed for carrying and storing water. There is a very fine circular tray of copper and silver, and a gem in the shape of an oblong octagonal tray of brass crusted with copper. One form of vessel is remarkable as being almost identical in shape with an earthenware vessel, called a *drinking cup*, which is figured at page 113 of Lubbock's "Pre-historic Times." It is of a tall shape, globular below, contracted in the middle, and expanding at the top. In one of these vessels in brass the decorations, which are very effective, consist of a perpendicular waved lines with floral decorations of copper in the interstices between the curves.

LEAF FANS FROM TANJORE DISTRICT.

1 Chowry made of sandalwood.

CLASS XXXII.—CARPETS, HANGINGS, TAPESTRY, &c.

Mats.—Various substances are used in Southern India for making mats, such as bamboo, rattan, palmyra leaf, date-palm, screw-pine and sedges. A considerable industry in plain and colored mats is carried on at Wandiwash in the North Arcot district, the material used being a species of Cyprus which grows wild on the banks of water-channels, but is also cultivated. When cut, this reed is split, sorted into sizes, and stacked. Several species of sedge appear to be used for mat-making, but the one from which the finest sorts of mats are manufactured at Tinnevely and Pálghat is *Cyperus pangorei*. Tinnevely mats of the first quality are generally uncolored, or with one or two simple bands of red and black at each end, and they may be made so fine that a mat sufficient for a man to lie on can be rolled up and packed into the interior of a moderate-sized walking-stick. The strips of the split sedge used in the Pálghat matting are not so fine as those employed in Tinnevely, and the article is therefore heavier, coarser in texture, and not so flexible. The Pálghat mats are also usually colored with black and red in geometrical patterns. Both these, as well as the Vellore mats, are made on a rude kind of loom, the warp consisting of cords of common twine, separated more or less according to the quality desired. The woof consists of strips of the split sedge dyed, or of the natural hue. The black color is produced by iron, gall-nut powder, and the pods of the babul (*Acacia Arabica*, Willd.). A red dye is got by boiling the split sedge in water with the wood of varthangi (*Casalpinia sappan*, Linn.), and the leaves of kasan (*Memecylon edule*, Roxb). For yellow, which is not so often used, the coloring ingredient is turmeric.*

Carpets.—The carpets and rugs exhibited are few in number, it being impossible to get good specimens from the old seats of the industries on short notice. The exhibits are of three kinds—cotton, wool, and silk.

Cotton Carpets.—These are thick and in short lengths, sufficient for sleeping on. One from Vadavedi in the South Arcot district, is effective and interesting, as the pattern is evidently the outcome of some old design in grass-matting. The colors are black, white, red, and orange, and the general effect is quiet and pleasing. Some carpets of the same class, but of the better quality, are exhibited from Adoni. In these the colors are in narrow stripes, plain or chequered, running across the piece, and rather glaring and inharmonious. Large

* Cox's North Arcot Manual, page 344.

numbers are made and sold, but although effective enough as a purdah or table-cover in a remote corner of a room, they have a tiresome effect if constantly under the eye.

Woollen Carpets.—There is one specimen of an Ellore carpet. Its chief interest lies in the fact that it is an attempt, at the instance of a local firm, to revive an old shade of red which the weavers have for some time given up using, because it is somewhat difficult to produce. A fair specimen of the Ellore type comes from Masulipatam. A small specimen from Iyampet, Tanjore, is well made, but the colors are glaring and the pattern undecided. Three specimens are sent by the Rajahmundry jail; of these the one with the light-colored ground is the most sober as regards colors. A drab wool and silk shawl or mat, striped yellow, from Mysore is worthy of notice.

Silk Carpets.—Two of these, both from Tanjore, are exhibited. One is rather old and faded, and the pattern of the other is too vague and the grouping of colors in the centre trying to the eye. Here, as in the case of the woollen carpets, there was no time to get proper specimens.

FROM KIMEDI, GANJAM DISTRICT.

CLASS XXXV.—TOYS.

Vellore Toys.—These are made out of a light and pale-colored wood called *vépale* which turns well, and is probably that of *Holarrhena antidysenterica*, Wall. The articles are in the shape of miniature cups, goglets, *chattis* and other domestic utensils, and are covered with a beautiful colored varnish or lacquer, which does not suffer from immersion in water, or come off when the toy is put in a child's mouth. The lacquer is composed of lac as a basis, with pigments of different kinds to give the colors. While the toys are revolving in the lathe sticks of various colored lac are applied to the surface. The friction creates sufficient heat to melt the lac, and the pressure causes it to adhere to the wood and leave a finely polished surface.*

FROM GODAVARI DISTRICT.

(Exhibited by the Zemindari of Nidavolu.)

2 Ivory dolls with real jewels, Rs. 100.

2 palanquins with six bearers.

2 ploughs.

2 country carts.

1 native house.

8 dozen figures of various sizes representing various trades and callings.

The whole collection priced at Rs. 90-4.

* For descriptive notice, see Section D, Class 31.

CLASS XXXVI.—OTHER HOUSEHOLD UTENSILS AND APPLIANCES.

(*Exhibited by Muhammad Mahmud Khan Bahadur, Madras.*)

- 1 Bead-work basket.

(*Belonging to the Estate of the Ramnad Zemindari, and permitted to be sent as a loan exhibit: Exhibited by the Court of Wards, Madras.*)

- 1 Blackwood box with a contrivance for concealing the jewelry by a secret folding lappet.

SECTION E.—FABRICS, INCLUDING APPAREL, TOILET REQUISITES, AND OTHER OBJECTS OF PERSONAL WEAR OR USE.

CLASS XLV.—FANCY WORK.

Embroidery.—Some styles of this class of work, such as those used for adorning the hangings of temples, are no doubt of very ancient date in India; but the arts of embroidering muslin, silk, and cloth, as now practised, seem to be of comparatively recent origin in the south, and to have been introduced by the Muhammadans. The Madras work of this kind may be classed as follows;—

- | | | |
|------|--|-------------------------------|
| (a.) | Muslin embroidered with cotton thread. | |
| (b.) | Net | do. silk do. |
| (c.) | Do. | do. silver do. |
| (d.) | Do. | do. gold, or gold and silver. |
| (e.) | Do. | do. gold and beetle's wings.* |
| (f.) | <i>Dungari</i> | do. floss silk. |
| (g.) | Woollen cloth embroidered with silk thread and gold. | |

The embroidered *dungari* is of very recent introduction, having been introduced by Mrs. Carmichael with the object of affording poor Muhammadans occupation. The patterns which originally came from Northern India were got from South Kensington. Embroidery is an art in which the people of India particularly excel owing to the deftness of their fingers, good taste in flat patterns and great patience, and it is very desirable that the work should be encouraged. One exhibit, namely the embroidered cover for an idol, is a fine example of purely Dravidian art, as the pattern is characteristic and worked out regardless of expense with gold lace and pearls.

CLASSES XXXVIII, XL, XLIII, XLVI—COTTON, SILK, MIXED FABRICS, APPAREL, &C.

The exhibits in this class consist of a selection of products of the native loom in silk and cotton, calculated to afford some idea of the fabrics used as clothing by the people of the south. Amongst Hindus everything connected with clothing is more or less regulated by the ancient and rigid laws of caste, so that the

* These are the elytræ of a gorgeous *Buprestis*.

articles in this class also possess more or less of an ethnological interest. The brilliancy of the colors and their grouping in Indian textile fabrics are generally very different from European conceptions, but it will be found that some of their most characteristic designs are, so far as the choice and arrangement of colors are concerned, copies from nature and therefore not unpleasant. The results, however, are often so remarkable that no European would venture to wear articles presenting such combinations, although on a dark-skinned people they do not seem at all out of place, and often have a most picturesque effect. As India is the botanical home of the cotton plant, so from remote ages her people have used its fleecy wool in the manufacture of cloth. From India the art of cotton manufacture travelled to Egypt and Assyria. In the thirteenth century the Italians were making attempts to imitate Indian cotton goods, but it was only in the end of the seventeenth century that the art found a footing in Scotland and England. Various allusions are made in the works of travellers to the cotton manufactures of Southern India. Tavernier, a dealer in precious stones, who travelled in India about the middle, and Dr. Fryer, who visited it in the end of the seventeenth century, both speak of the common cotton manufactures as *Calicuts*, a term derived from the place at which they were originally made. Tavernier* says "*chites* or painted Calicuts, which they call *calmendar*, that is to say, done with a pencil, are made in the kingdom of Golconda and particularly about Masulipatam. These *chites* serve for coverlets for beds, for sofas or table-cloths, after the country fashion, pillow-covers, handkerchiefs, but more especially for waistcoats, as well for the men as women in Persia." With reference to the silk goods of India, Tavernier observes, "they make carpets of silk and gold, others of silk and silver, others all of silk. In the second place, they make satins with streaks of gold and silver; others plain with taffatas after the same fashion." Again, "in the third place, they make *patoles*, which are a sort of silk stuff, very thin, but painted with all sorts of flowers."

The cotton fabrics of the south embrace muslins and chintzes, the latter including palampores.

Muslins.—The finest muslins in the south are those made at Arni, but from want of encouragement the industry has become almost extinct, and specimens are now only made to order. The dress-piece exhibited was got through the Collector, Mr. Price, who has also kindly furnished the following translation of a description by a native of the mode of preparing the yarn and weaving and bleaching the cloth.

"Particulars regarding the yarn used in weaving Arni muslins.—Paruthi cotton, an indigenous plant, five years old, should be made use of, as, if new cotton be used, the threads will be too thick. The people of Chingleput do not know how to spin this five-year old cotton. The Telugu Parayas of Cherivi, Irugalam, Kolladam, Pondavakham, Chettulpakham, of the Tiruvalur Taluk, and Kannavaram and Tiruparantakapuram of the Kalabastri Zemindari are employed in spinning the yarn. The *modus operandi* is as follows:—They pull the cotton with the fingers, collect it into a heap, and beat it exactly as common cotton is beaten by cotton-beaters. The dust is collected, placed on a dry rind of the plantain stem, one cubit long, rolled, tied in four or five places with ropes, and laid by. The whole of the cotton is thus dealt with, and kept tied up in bundles in the rind of the plantain stem. They then spin it by means of wheels. These wheels are similar to the ordinary ones, but their spokes and axle are small. If a spindle is attached to the wheel, the cotton kept tied in the rind of the plantain stem attached to the spindle, and the wheel put in motion, the yarn winds itself on the spindle. 480 cubits of yarn are formed on each spindle, and this is a full day's work. Six sticks are pared off thin, planed and fixed in the ground, and the yarns on the spindle are wound round these with an instrument called *pandai* (a reel-like instrument), and then they are formed into *sidus* (skeins or knots)."

"Thus far the Parayas do the work. Their work ends with forming *sidus*. The subsequent work is performed by the weavers."

"Six hundred of the *sidus* are required to manufacture a piece of muslin. What is called a piece of muslin is 16 yards long and 1½ yards broad. The aforesaid *sidus* are wound upon a *pandai* and starched. While the yarns are still wet, they are wound upon another *pandai*, and when dry they are again starched, and the starching process is thus repeated five times. The starch used is rice starch. This should be filtered through a tight cloth, diluted with fresh water, and then applied. Then sticks are fixed for a distance of 16 yards, and the *sidus* that have been starched are run into warps. They are then attached to the frame and set in a delicate loom and woven. This is called a *padugu*. The articles connected with the loom are similar to those used in the manufacture of ordinary cloths. The whole of the apparatus used in the weaving of the muslin is thin and fine. Starch is not applied to some of the *sidus*, which are wound on a *pandai* and then transferred to a dry reed, as long as a finger (this is called a *kandai* or reel). This unstarched yarn is used as weft. The reel is put into a shuttle made of bamboo and then used in weaving. Three hands are required for weaving the muslin: one should work at the loom, and the other two should stand one on each side of it, and pass the shuttle through. If in the said manner the three persons attend solely to this work, they can weave a cubit a day. To make *padugu* and attach it to the loom will take twenty days. The weaving can be completed in a month or thirty-two days.

					Rs.
"Price of the first sort	200
Do. second do.	150
Do. third do.	100

Do. fifth do.	50
Do. sixth do.	25

Only a few of the weavers at Arni can perform this weaving; all of them cannot.

"The mode of bleaching the muslin.—Muslins of the first, second, and third sorts should not be beaten on stones in washing them. They should be beaten on sand, bundled in the shape of a stone in a strong cloth. They are washed in water from springs excavated in river-beds. After washing the cloth in the aforesaid manner, it is put into a pot containing a mixture made of half a measure of the juice of *thumbai** plant, four measures of water, and five pollams of limestone, and boiled for a *jāman* (7½ Indian hours). This is called the process of boiling or steaming. All this work is done by the *dhobi*, but the weaver is present, and gives directions. After the cloth is boiled, it is taken out, dipped in water, again beaten on a bundle of sand, and left to dry. When it is a little dry, it should again be wetted. After this process is repeated for two days, the cloth should again be boiled. In doing so, the *thumbai* juice and the limestone are not necessary, but fresh water should be made use of. The cloth should again be taken out and steeped for one whole day in four measures of lime-juice. On the following day it should be taken out, dipped

* *Leucas aspera*.

in water, again beaten on a bundle of sand, and (alternately) allowed to dry, and wetted. If the muslin is subjected to this process for ten days, it becomes white. Thus far the work is carried on by means of the *dhobi*. After this the weaver applies starch to the cloth. On the first day it is dipped in starch and dried. On the following day it should be starched and dried in the same way. After doing this for five days, on the sixth day starch should be applied to it little by little by the hand, and allowed to dry. After thus starching the whole of the cloth, it is folded and kept. Twenty days is the time taken up in bleaching the muslin in the aforesaid manner."

Two good specimens of muslin from Chicacole, also formerly the seat of a large industry in this class of goods, are exhibited by the Hon'ble G. N. Gajapathi Row. One of these is white with raised spots, and the other has pink spots. Some excellent specimens of chintz in checked patterns are exhibited from Chingleput. These are deserving of attention on account of the quality of the cloth and the excellence of the dyes.

Some of the older chintz patterns, evidently traditional, from Cuddapah, Chingleput, &c., are very curious and appear to have been executed with stencil or coarse blocks.

Palampores.—The most remarkable of the cotton exhibits are the *palampores*. The palampore, as its name implies, is used as a bed-cover, and some specimens of the older ones are very artistic, both as regards the composition of their complex patterns and their coloring. In some cases the figures are printed on the cloth with wooden blocks, but all the finer palampores are prepared by stencilling and hand-painting. The stencil plates are made of stout pieces of paper. On these the outlines of the pattern are first traced in ink, and then perforated with minute holes in the most accurate manner with a fine needle. The stencil is then complete, and when in use is placed on the cloth and covered with charcoal in very fine powder, which is rubbed so as to make it pass through the minute perforation and leave a tracing. The rest of the work is done entirely by hand, and thus considerable scope is given for the exhibition of individual taste in the selection and grouping of colors. The Kalahastri palampore contains mythological scenes, and full descriptions of these in the vernacular. Some of the more expensive Masulipatam-made palampores are virtually hand-painted pictures on cloth. One exhibited depicts a scene in a forest with a river flowing below.

Silk exhibits.—Silk has long been known and manufactured in India, but the approximate date of its introduction from China is unknown. Cloths are made from silk alone or silk mixed with cotton. Various dyes are used, and gold and silver are often employed to decorate the ends or borders of the higher priced articles. A fine collection of cloths used for making jackets for women is sent from Bellary. The patterns of these, with perhaps a few exceptions, are all purely native, and generally in excellent taste, although the colors are very brilliant. Some white silks, plain and figured, from Conjeevaram are deserving of notice, and so is a thick white scarf with a gold border. Very superior gold-bordered cloths are exhibited from Madura, Chingleput, and Tanjore.

The gold wire used in decorating the Madura cloths is either prepared locally or imported from Europe; the latter is the more brilliant when worked up, and possibly more durable. The gold is most commonly introduced as warp in the borders or spots in the body of the cloth, but when gold ends are wanted it is worked in as weft.

Lace.—Various samples of white lace, black silk and gold lace, and gold lace are exhibited. These have all been made by native girls in mission schools, and are most admirable specimens of this kind of work. The patterns are European, and the industry, if conducted under suitable guidance and with good thread, promises to become of some importance, as labor is comparatively cheap in India and this sort of work admirably suited for the patient and neat-handed Hindu.

1 Rattan box, " <i>Patti</i> ," covered with cloth and cotton and ornamented with cowries	1	8	0
2 Purses	each	0	12 0

The *Kaders* inhabit the Anaimalai hills in the Coimbatore district, and from their great familiarity with the habits of the wild beasts of their native forests, they can track them with as great facility as a dog. They are small in stature, and have a somewhat Negroid type of face, and curly hair, which they tie in a knot behind. They file the four front teeth in their upper jaw to a point as a marriage ceremony. They are useful and reliable as guides, but will not undertake any manual labor or carry loads. They live chiefly by collecting jungle produce and exchanging it for rice and tobacco. Although living constantly in very unhealthy tracts, they do not, so long as they remain there, appear to suffer much from fever; but when brought to the plains, and especially if confined in jail, they get severe attacks of ague and other complaints, the results of malarial poisoning.

APPAREL, JEWELRY, &C., OF THE KADERS OF THE ANAIMALAI,
COIMBATORE DISTRICT.*Jewellery.*

For the head—	For the arm—
7 Brass chains for the hair.	Brass armlets.
2 Combs.	For the wrist—
For the nose—	83 Bangles of various qualities and sizes.
4 Nose-rings.	12 Brass bangles.
For the ears—	For the fingers—
Brass earrings.	6 Rings.
Lead do.	Seal rings.
Bark do.	2 Signet rings.
For the neck—	For the legs—
5 Brass collars.	Leg ornament of small brass bells.
18 Bead chains.	Toe rings.
1 Brass chain.	

Cooking and Domestic Utensils.

2 Sieves.	2 Rice dishes of bamboo.
2 Large ladles of bamboo.	1 Water-pot of do.
2 Small ditto.	

Musical Instruments.

2 Drums.	1 Bugle.
----------	----------

Toys.

1 Top.	8 Seeds of <i>Entada scandens</i> for playing a sort of hopscotch.
2 Fiddles.	

Miscellaneous.

4 Bows and arrows.	1 Fishing basket.
2 Yam diggers.	Models of dwellings—
1 Sling.	1 Hut for the rainy season.
Fishing appliances—	1 Ditto dry weather.
1 Fishing rod and line.	

Lumbadies, called also *Gohur*, *Brinjaris*, and *Banjari*, are a migratory people found all over India, from the Himalaya to Cape Comorin, and have the same physical characteristics, habits, and occupation in all parts of the country. They formerly were, and still are to some extent, the great grain carriers, transporting rice, &c., to the coast, and returning with salt; but the extension of roads and railways has to a considerable extent deprived them of their avocation. The following valuable information regarding them has been contributed by Mr. Macartney, Agent to the Rajah of Sandur, and by the Tahsildar of Harpanahalli through the Collector of Bellary:—

Note on the manners and customs of the Lumbadies.—The race of *Lumbadies* or *Brinjaris* as they are often called, is found in all parts of India. As they bear some points of resemblance to the gipsy tribes scattered over Europe, it would be interesting to know whether they both have a common origin. Though nomadic in their habits, the *Lumbadies* are not averse to forming permanent settlements wherever they can obtain the kind of employment which suits them. The men are less industrious than the women, but make faithful and trustworthy servants, and there is a strong feeling of clanship among them, which respectable natives of other castes rely upon as a safeguard against depredations from the tribe where one of their number is regularly employed. The men are employed in many parts of the country in the carriage of grain on pack-bullocks, and the women supply neighbouring markets with wood, grass, and other jungle products. The rapid extension of railways throughout India of late years has tended to restrict the favourite occupation of the men, and the spread of forest conservancy that of the women, and thus the *Lumbadies* will be forced more and more to avail themselves of agriculture or other manual employments for an honest livelihood. The men are tall and muscular. Their features are regular, and exhibit decidedly more force of character than those of the ordinary Hindu. It is to be expected that such a race so situated will be more or less addicted to lawlessness, and that such is the fact the records of our courts will abundantly testify, though there is reason to believe that the action of a strong government has done much in the way of repressing this tendency to crime.

The women, while young, are generally good-looking. They have an innate love of finery, and affect in their dress a variety of bright colors, which they embroider at great cost of time and labour. Their dress consists of a petticoat of a pattern worn only by them, gathered into a broad elaborately worked band, and tied by a variegated cord, the long ends of which are ornamented with cowries and hang down by the side. The breast and shoulders are well covered by a kind of bodice, which, strange to say, does not extend over the back. This bodice is pieced up with a variety of patterns and colors, and the shoulder bands are richly worked. The culmination of the dress consists of a bordered cloth drawn over the head, and covering the back and shoulders. Their arms and legs are literally covered with wooden, brass, or ivory bangles, and their fingers and toes with heavy rings. They wear also a profusion of beads round their necks, and the upper front locks of their hair on either side are adorned with heavy pendants. It is worthy of remark, however, that this extravagance of ornament is permitted to their married women only. The unmarried must wear much plainer clothing. They are not allowed to embroider their dress, nor to wear pendants from their hair, nor any bangles above the elbow, and further to distinguish them, they must have a string of black beads round the right ankle.

The *Lumbadies* are divided into two main tribes, and these again into several families, as follows:—

<i>Zats.</i>	<i>Bhookyas.</i>
(1) Wodatiya.	(1) Khōlā.
(2) Moodu.	(2) Pātalōte.
(3) Wākādōte.	(3) Rumāwat.
(4) Bānōte.	(4) Khelāwat.
(5) Amgōte.	(5) Dhagāwat.
(6) Vislawāt.	(6) Lenāwat.
	(7) Khernasōte.

Neither of those groups of families can intermarry. A Zāt must marry into one or other of the families of the Bhookyas, and a Bhookya into one or other of those of the Zāts. The children of such marriages are reckoned as Zāts or Bhookyas according as the father is a Zāt or Bhookya. Marriage between cousins is in no case permitted. A man may have more wives than one, but he is prohibited from taking a second, except when his wife brings him no male issue. In such case he may marry his wife's sister, even during the lifetime of the former. To be in a position to marry at all, he is required to be able to give as dowry to the parents of the bride at least forty rupees in cash and four bullocks. If unable to do this, he may, notwithstanding, be permitted to marry her on his entering into an engagement to serve his father-in-law or mother-in-law for such period as may be agreed upon to make up the deficiency. A younger brother may marry the widow of his elder brother if she consents thereto, but the reverse of this rule does not hold good, the idea being that the elder brother is regarded as a father or protector to the family. The re-marriage of widows generally is fully acknowledged.

If a woman be found guilty of adultery with a man of any other caste, she is tied up to a post, whipped, and finally excommunicated. The man who brings any woman of another caste into the community is excluded from familiar intercourse, and the children of such a connection are not admitted to the privileges of the caste until the third generation.

Adultery within the caste with man's wife is punished, as regards the man, by compelling him to take the woman as his wife, to pay to the injured husband the full expenses of his marriage, and a fine, in addition, to the chief who adjudicates the case; as regards the woman, by requiring her to restore all the dresses and ornaments which her husband may have bestowed, and henceforth to become the wife of her paramour. Proved incompatibility between husband and wife is recognised as a cause of divorce, but whoever afterwards marries the divorcee must make good to her former husband the expenses incurred on his marriage. Among the Lumbadies settled here is a case illustrative of this practice: the present husband of the divorcee had to pay Rs. 125 to her former husband before he could marry her.

Betrothals, as among the Hindus everywhere, usually occur at an early age, but there is no age or period of life at which a female may not marry. The ceremony of betrothal is performed in the presence of the chief of the tribe. After distributing sugar and jaggery among the guests, and observing some other peculiar customs, the bride's party advance and throw a yellow powder, extracted from the flowers of the *Butea frondosa*, over the bridegroom and his relatives, and the ceremonial is complete, after which neither of the parties can withdraw from the engagement without incurring a considerable pecuniary penalty. On the coming of age of the bride, the final ceremony is carried out in the presence of a Brahmin as officiating priest, if this is practicable; otherwise, the chief of the tribe officiates.

The settlements of the Lumbadies usually comprise from thirty to seventy, or even more, thatched houses. Each settlement is called a *tandah*, and is presided over by a *naik*, whose office is hereditary and to whom all disputes, whether civil or criminal, are referred for disposal. So complete is this *imperium in imperio*, that recourse is seldom had to our courts in cases where both parties are Lumbadies. The man who ventures to resist the decision of the *naik*, or who solicits the intervention of any of the ordinary courts, is forthwith relentlessly expelled from the tribe, and as he cannot be received into any other without a recommendation from his *naik*, he is *de facto* excommunicated from the caste. The *naik's* emoluments are fees on special occasions and fines in certain cases.

Property is divided equally among sons, but a surviving widow has a claim to maintenance so long as she chooses to remain unmarried. Should there be no children, the widow has a life-interest in the property of her deceased husband. Daughters cannot inherit, but must be supported until they can earn their own living, or until they are provided for by marriage.

The language of this singular people seems to be a corrupt Hindustani. Probably there is a considerable mixture of *patois* and *slang*. Whether it is based on an original language I do not profess to be competent to determine.

When meeting each other on a journey they mutually salute by saying "*Ram! Ram!*" but without raising the hands to the forehead as in the ordinary form of *salaaming*.

The birth of a son is celebrated by rejoicings; that of a daughter is not noticed. The reason assigned for this distinction is that a son is regarded as permanently attached to the family while the daughter will in all probability be alienated from it by marriage.

The Lumbadies recognise the authority of a grand *guru* or chief, who visits each *tandah* every eight or ten years, when he levies a contribution of one rupee or more, according to the circumstances of the family, from each house.

They worship principally Balaji or Vencataramana, but also Hanuman, Krishnaji, and other Hindu deities. They sacrifice goats and sheep, but never buffaloes, to the female deities—Mariammah, Durammah, Tooljammah, Kali, and Ingammah.

They eat the flesh of sheep, goats, pigs, fowls, hares, and deer, but are prohibited that of the ox. The women are not allowed to chew betel-leaf and areca-nut, excepting for three days during the performance of marriage ceremonies, nor are they permitted the use of intoxicating. Their principal festivals are Holi, Theej, Dussera, and Deepavali. During the first two of these the women dress in their best and go about from house to house, where they sing and dance in a circle with a swaying motion, holding in each hand a short dried piece of bamboo with which they strike time.

On the death of any of their tribe, the corpse, if that of a married person, is burnt; if that of a child or unmarried person, it is buried. This singular deviation in their practice has probably originated in some notion of greater purity and innocence in the one case than in the other. As soon as the cremation of the head of a family is over, the pendants from the forehead and all the bangles above the elbow of the new widow are removed. On the third evening after the burning of the body they visit the spot and pour the milk of goats over the ashes, and on the following morning return to examine what animal has there left its foot-marks, and thus determine into what form of life the soul of the departed has transmigrated.

This sketch, though meagre and confessedly incomplete, may still serve as a basis for further investigation. I believe the facts as here stated to be reliable, as I have had most of them from two original and independent sources.

Arzi of Kandi Venkoba Row, Tahsildar of Harpanahalli, to the Head Assistant Collector of Bellary, dated 6th September 1883, No. 326.

In accordance with order No. 158, dated the 22nd ultimo, I have sent by a special messenger articles obtained from the Lumbadies of my taluk, with a list showing their prices.

The Lumbadies have no articles of warfare, snares, or traps peculiar to them.

I have not sent cooking utensils, drinking chembus, and churning staffs belonging to these people, as they are of the same pattern as are ordinarily found in all (Hindu) households.

No musical instruments and fishing appliances are forthcoming.

The Lumbadies ordinarily live in huts made of cocoanut twigs, castor-plant stalks, date sticks, mats, and the Boda grass. I have not sent these materials, thinking that they will be of no use.

The Lumbadies marry girls who have arrived at maturity, but not those who are young. A Lumbady will not marry his younger brother's widow, though there is no objection to his marrying his elder brother's widow. He will not, however, marry if his own wife is alive.

A Lumbady bride should be supplied by her mother's family with all apparel and jewelry. The bridegroom does not provide them, but gives the bride ten ivory armlets. These latter cannot be had for less than twenty rupees. If the bride's family is unable to provide her with the apparel and other articles as aforesaid, the bridegroom deducts from the prescribed marriage fee of forty rupees the value of the apparel, and pays the balance to the bride's family. After wedding the bridegroom is presented with a bullock, a sack, and a pack-saddle. It is a rule that the bridegroom should give the parents of the bride four bullocks, one pack saddle, one sack, and forty rupees in cash. As amongst Hindus and other high caste people, the parents of a Lumbady girl should find her a husband and settle her marriage. Young people are not at liberty to choose their mates. After the village priest examines the names and birth-signs of the would-be bride and bridegroom, in order to ascertain whether there is a happy agreement between the stars under which they were born, the ceremony of betrothal is performed, the expenses thereof being borne equally by both the parties to the marriage. The bridegroom's relatives, as well as the other members of his clan (*tandak*), follow the bridegroom to the place where the bride's father's clan is settled. Both the clans then drink toddy and arrack at their own expense, and distribute jaggery at about one seer a head. The *pinna-paddalu* of the clan (men at the head of a caste) are included in the distribution. Then, at the sole expense of the bridegroom, betel-leaf and areca-nut should be distributed to all the members of the clans. The fee of forty rupees is a settled item of expenditure in every marriage, be the condition of the bridegroom what it may. After the distribution of betel-leaf and nut is over, the whole of this amount, or at least five rupees, is paid to the would-be bride's family. It is then that the date of the marriage is fixed. The marriage season is just before Venayacheturdasi, Dassara and Nagula Chavati. On the day fixed for the wedding the bridegroom, accompanied by a single man, goes to the marriage. No more than two go to the marriage, though they may be ever so rich. Before the bridegroom enters the bride's house he has to pay another fee of two rupees. It is after payment of this fee that he is allowed ingress and not before. If the bride's family is rich, they detain the bridegroom in their house as long as they please, no matter how many months it is. They marry him on an auspicious day and hand over his wife to him. The bride's family should treat their clan on a new-moon day with *pulagam* (a mess made of rice, *dholl*, *gha*, &c.) A beverage should be made of jaggery, blang, poppy-seeds, pepper, cardamoms, and nutmeg. The bridegroom has to bear these expenses, and to pay that very day to the bride's family another fee of eleven rupees. Then all throw the beverage on the *pulagam* and eat it. It is on the third night that the wedding takes place. The wedding is performed in the night, and there is no custom of celebrating it during the day. Black grain and saffron are ground. *Gorantaku* (the leaves of a plant with which women dye their nails) is made into a paste. Both the powder and paste are mixed in water. With this composition the bodies of the bride and bridegroom are rubbed. On four sides water is placed in pots, to which are tied *jilladu* (*Asclepias gigantea*) twigs. The bridegroom is seated in the midst of these pots and the bride's mother bathes him. She then bathes the bride. Oil is not rubbed. After the bath is over a little ghi is rubbed on the head. Near to the aforesaid pots two pestles are planted, one to the east and the other to the west. The bridegroom places in the hand of the bride one rupee and an only areca-nut, holds her hand, and goes round the pestles seven times. The bride's mother follows them, and gives them seven times a pudding made of rice-flour and jaggery. They eat it. From the time the bride and bridegroom begin to bathe till the ceremony of going round the pestles is completed, the village priest (a Brahmin) performs *homum* (an offering by fire), gently burning the twigs of seven trees of different kinds, throwing into the fire castor-oil and sesamum seed and repeating prayers. With the *homum* the ceremonial to be performed that night is over. At this time none of the men of the clan are present, but all the women are there. Some of the women drag the village priest and make much game of him. The village priest, subjecting himself to such fun, gets only a fee of one and a quarter rupees and food and

nothing else. On the second day the same ceremony of bathing is repeated. Cold water only should be used during these two days. The bride and bridegroom will not touch warm water. Immediately after dawn on the third day warm water is poured into the above-mentioned pots, and is used in bathing as before. Meat is then eaten at the expense of the bridegroom, who, thereafter, takes away his wife to his own clan. According to his means, he gives his clan a treat.

The huts which these people (Lumbadies) inhabit are ordinarily very low. They are not provided with doors and door-frames, but a blind is placed against the entrance. The Lumbadies settle themselves on high ground far away from water. If any one or two grown-up persons in the clan die, the huts in the settlement are removed a few yards away lest any mishap should befall the clan. For each clan there is a chief or Reddi. All abide by his orders. Disparaging anybody is a serious fault among these people. The chief of the clan summons a punchayet, enquires, and levies from the delinquent a fine according to his means. If, after confessing his guilt, the delinquent begs that he may be excused, he is absolved from all blame. No one is pardoned unless he thus confesses. If the head of the clan dies, his son succeeds him, having a similar right as one has over a *Reddi mirasi*. The clan is not at liberty to choose its own chief. Since the bringing into use of country carts and the introduction lately of railways, the trade of the Lumbadies ceased. Selling firewood and going as coolies for agricultural and other work now form their principal professions. If any member of the clan goes out hunting and brings game home, all should partake of it. A fine is levied from the huntsman if he alone enjoys it. Meat is not cooked at home. It is prepared in a plain at a distance from home and eaten. They (Lumbadies) return home, concealing the pots in which meat was cooked. The pots are not brought home. Women do not eat meat unless they are old widows. Bachelors, however old they may be, are buried after death, but not burnt. The family in which death takes place goes into mourning for three days. On the fourth day they bathe and feed their caste-people. Thus ends their mourning.

The Lumbadies do not wash their bodies daily. They take a bath once in eight or ten days. After bath the women apply ghi to their hair and plait it.

Each woman provides herself with two petticoats and one upper garment for a year. The petticoats are washed once in fifteen or twenty days. The upper garment is never put in water. Those who desire cleanliness, wash their upper garments once a month.

THE LUMBADIES OF THE BELLARY DISTRICT, THEIR ORNAMENTS, CLOTHING, &c.

Mulcers, Malai Arasers, &c., consist of tribes inhabiting parts of the Palghat taluk of Malabar and some of the other jungles in the hill tracts lying between Tinnevely and Travancore. They are said to be low in stature and pot-bellied, with small head, retreating forehead, flat nose, and long, tangled, black hair. The following interesting information regarding them has been furnished by Mr. V. A. Brodie, Assistant Collector:—

From V. A. BRODIE, Esq., Acting Head Assistant Collector, to the Collector of Malabar, dated Palghat, 30th August 1883, No. 683.

I HAVE the honour to acknowledge the receipt, on the 20th, of your endorsement, dated 17th instant, No. 3372, on copy of a letter, dated 13th idem, No. 350E, from the Vice-President and Secretary of the Madras Committee, Calcutta International Exhibition, 1883, and to forward herewith a list of the articles of jewelry, musical instruments, cooking and domestic utensils, &c., in use amongst the Mulcers of the Palghat Taluk. Of the several articles mentioned in this list, only Nos. 9, 11, 17, 31, 33, and 34 appear to be of any interest as illustrative of race peculiarities, for they alone are made by the Mulcers themselves. All the others are procured by purchase in the bazaars of the low country. I have, therefore, secured only the articles numbered as above. If you think all the articles mentioned in the list ought to be collected, I can easily do so on information from you, as the total price of all is only Rs. 7-3-2.

2. *Apparel*.—It is hardly necessary to allude to articles of apparel, as they are next to none. Children below 8 or 9 generally go stark naked, and adults never wear more than one cloth, which is never changed or washed till worn out. The females occasionally display a weakness for gaudy colors, such as red and yellow, &c., in their cloths.

3. *Ornaments*.—The women indulge in the use of ornaments, which are usually of brass, copper, or lead, and even sometimes made of wood or twisted grasses (*vide* accompanying list). The men wear no ornaments, except, in some instances, a metal bracelet on the right hand. None are manufactured by themselves, except the wooden and grass ones. Of late years a few silver ornaments have come into use amongst them. The list sufficiently describes the musical instruments they use.

4. *Warlike Weapons*.—The Mulcers do not appear to have ever been a warlike race, and their only weapons are bows and arrows and slings, by means of which they kill wild birds and small ground game. For the capture of pig, &c., and other larger game they have recourse to pitfall. Unlike the Wynaad hill tribes, &c., they do not seem to organize hunting parties, and it is curious that neither the net nor the spear appears to be in use amongst them. A very few have now obtained fire-arms.

5. With reference to clause 6 of paragraph 3 of Brigade-Surgeon Bidie's letter, I have not secured models of dwellings, as one could not be obtained, and, besides, the huts are in no way peculiar. They have only one room, of which the walls are split bamboos tied together and thinly plastered with mud to keep out wind and rain. Teak and other leaves are used for thatch. Some of the better sort have their rooms fitted up with sleeping couches of split bamboos, about four feet high, beneath which it is usual to keep a fire burning at nights during wet weather. On these bundles of grass and leaves are arranged like a mattress and a mat spread over all. They live in small villages on the skirts of the hills, or a short distance up them under the jurisdiction of a headman or *muppan* as he is called. Formerly they seem to have dwelt in caves and amongst the rocks, but this is never now the case.

6. *Social Customs, &c.*—Clause 8 of paragraph 3 regarding social customs, &c., of the Mulcers is a difficult one to deal with. There are altogether four castes of them—(1) Urulars, (2) Malayars, (3) Madukers, and (4) Iraval, of whom apparently the Urulars esteem themselves the highest. The two former castes dwell in the Walliar and Elival jungles, and the third and fourth in the Wadakancheri and Kollangode hills. In their customs they seem to have borrowed a little from the Hindus. Thus they observe pollution in the case of births, &c., and whilst they yield the path to Brahmans and Nayars, will not allow Cherumars or Nayadies to approach within about twenty-five yards of them on the ground of defilement. The Urular also will not touch food cooked by a Malayar, though the latter will eat food prepared by the former. Their language is a mixture of Malayalam and Tamil, but almost unintelligible to both Tamilians and Malayalies without previous acquaintance with them. They have no written character of their own, and without exception are unable to read or write any other. They are not migratory.

(a) *Habits.*—In their domestic habits they are very dirty, only putting on new cloths on certain festival days and never changing them till the next, by which time they are generally reduced to rags. Their hair is never cut or combed, and shaving is an unknown usage. Bathing is infrequent, and as they have neither tanks nor wells, they depend upon jungle streams for their water-supply, which must frequently be both scanty and unwholesome in the dry weather. As none know how to swim, they are very timid about fording their jungle streams during the monsoon. They are addicted to the chewing of betel and tobacco, and are immoderate in their use of intoxicating liquors. Indeed, if they possess any cash at all, it is almost certain to be invested in arrack and toddy immediately, and these liquors are commonly an article of barter for the forest produce they collect. Owing to their dirty habits and poor style of living, epidemics, such as cholera and small-pox, work fearful ravages amongst them when they break out. Lately I have heard that a whole village, numbering some thirty persons, near Wadakancheri, has been entirely exterminated by small-pox in a short space of time. Not one now remains to tell the story, and the huts are fast falling into decay.

(b) *Marriage system.*—Females are given in marriage either before or after attaining the age of puberty, and the bride is selected, not by the bridegroom, but by his parents or nearest relatives. When a marriage is arranged, the bridegroom's parents go to the bride's house and there the mother of the bridegroom ties a *thali* (marriage token) consisting of some coloured stones arranged on string round the girl's neck. Within ten or twelve days at most the parents again go to the bride's house accompanied this time by their friends and relatives, and in the case of the wealthier ones with music and take away the bride after paying a sum, varying between 8 annas and 2 rupees, to the bride's father as her value, and giving a new cloth to her mother. At the house of the bridegroom's parents the marriage ceremony is completed by the bride and bridegroom eating together from the same dish in the presence of the parents and relatives. After this, the newly married couple set out together for the house which has been built for them in anticipation of the marriage by the bridegroom's parents, which they subsequently occupy as their own. When, however, the bridegroom is a youngest son, no separate house is put up for him. In that case the young couple take up their residence with the bridegroom's parents. The marriage feast expenses vary according to the circumstances of the parties, between Rs. 2 and 10. A man can have but one wife, but divorce is allowed, when both parties can remarry if the cause is not infidelity. If either party die, also, the survivor is at liberty to remarry. If in the case of a divorce there are children of the marriage, the father must take and maintain the boys and the mother the girls. Infidelity on the woman's side, if proved to the satisfaction of the assembled villagers, is punished with exclusion from the community, for a time at least, of both the offending parties, and the marriage is dissolved for ever, as no husband takes back his wife if divorced for this reason, and indeed she is seldom remarried.

(c) *Burial ceremonies.*—They differ from the Hindu views of pollution by having none for the death of near relatives and parents. If the deceased was an adult, his body is burned; but if under thirteen, buried. In the case of those

who die of small-pox, the body is invariably buried. Everything used by the deceased, such as cloths, hatchet, walking-stick, betel-bag, &c., and even his cooking vessels, is buried or put in the fire with him. After the burial or cremation some boiled-rice, curry, &c., is placed on a leaf by the side of the grave or ashes; the mourners return home, and after smoking some perfumes and meditating upon the deceased for a short time, an oblation of warm water is poured upon the ground. This is the concluding ceremony, and requires to be accompanied by wailing and tears. During the next three days the bereaved house people keep open house for the entertainment of their relatives and friends, and on the occasion of the first new moon after the death, a stone dedicated to the memory of the deceased is placed inside the house, and liquor when procurable is served to all present. Their burning and burial places are always by the side of streams and in the heart of the jungle. Every year on the day of *Karkitaka sunkaramon* (July) a ceremony is performed in memory of their deceased ancestors. On that day a fowl is killed, and some of its blood is sprinkled upon each of the stones that represent deceased ancestors. The flesh is then cut up and cooked, and a portion placed together with arrack or toddy before each stone. This ceremony is explained by the fact that they consider the spirits of the deceased remain in the house and enjoy the feast. They are, therefore, very particular in these observances, for they believe that if no stone is placed for a deceased, or if all honor is not paid to these stones, the spirit of the deceased will be angry and cause them to be destroyed by tigers or other wild animals. If a man be killed and the body not recovered and duly burned or buried, no honor is paid to his memory.

(d.) *Religious forms of thought.*—They can hardly be said to have any religion, as they have no idea of a heaven or hell, but they do believe in the immortality of the soul. The latter is, however, supposed to remain in the house, and must be paid every possible mark of respect, or its anger will result in the sudden destruction of the delinquent. They profess to worship Karuppaswami and Kannimar, but their representatives of these deities are merely stones or heaps of stones put up by themselves in the jungles, and these gods, though able to afflict them during their life, are not supposed to have any power of affecting their destiny after death. Their festival days are Deepavali, Thiruvathera, and Pongal. The chief of these is Thiruvathera, and on that day it is necessary to put on a new cloth and deck themselves out with such ornaments as they possess of the kinds shown in the accompanying list. They are supposed to visit a temple to Karuppaswami or Kannimar once a year, but merely as spectators, and are not allowed to approach very close. They are extremely superstitious and their belief in ghosts and fiends is strong. Each Mulcer believes, also, that both he and his neighbours have many spirits at their command, and consequently if one offend another, it is believed that bad health or even his life may be the penalty. Thus if a Mulcer discover a bees' nest in a tree he will first make a careful examination of the surroundings to see if one of his tribe has been there before him and left his work. If such a work be found, nothing will induce him to touch it for fear of the consequences that may result from the anger of his offended neighbour's spirits. They do not, however, believe that their spirits have any power over Europeans. To counteract the evil influences of demons and spirits, they resort to various ceremonies, of which noise appears to be the most essential element. Other customs and ceremonies are observed upon girls attaining the age of puberty at births, &c., but as they resemble those prevailing amongst the Hindus of this district, no detailed remarks seem to me to be necessary respecting them. They only differ in their greater strictness in such observances and the great length of time they suppose such pollution to last.

(e.) *Offences and punishments.*—In character they appear to be good-natured and inoffensive, and crimes of violence amongst themselves are either of very rare occurrence, or never reach the ears of the police and magistracy. As regards outsiders, however, the Kollangode Mulcers have earned for themselves a bad reputation for highway robbery, and occasionally infest the road between Kollangode and Pollachi to such an extent that travellers will only proceed along it in large bodies. All offences against one another are apparently disposed

of by their *müppans* or headmen, and are punishable by fines, with the exception of the offence of adultery. For this offence, if established, both parties are put out of caste and never re-admitted theoretically, but practically, I believe, the offence is condoned after the lapse of some time. The fines imposed by the *müppan* are apparently invariably paid, and those I questioned seemed quite surprised at the very notion that his orders should be disobeyed. Certainly, disobedience would be dangerous in the jungles, and backed up by the general consensus of his tribe, a headman might apparently inflict even the penalty of death without much danger of the offence being detected and punished, and it is certainly curious that I have never known a Mulcer complaining to this court, or any other, unless pushed into court by his landlord for the latter's own ends.

(f.) *Civil Justice*.—All disputes of a civil nature are, of course, settled by the *müppan*; but they cannot be many, as they have so little property. The same fact accounts for their having no settled rules of inheritance. The property which any Mulcer has acquired during his lifetime appears upon his death to pass into the possession of the other inmates of the house in which he died, but even sons living in other houses of their own would, I presume, get nothing. The post of headman or *müppan* does not appear to be hereditary, but devolves upon the senior member of the community. Between themselves and the proprietor of the forests in which they dwell, the relation of master and slave seems never to have existed, as it did formerly between the landlords and Cherumars, but still the Mulcers are devoted to his service and his orders given through the *müppan* are scrupulously obeyed. To the landlord they take the honey and cardamoms they may collect, receiving in exchange rice and cloths. Also the elephants caught by them in their pits are made over to the landlord who usually rewards a capture by a liberal distribution of liquor and rice, &c. At Vishoo and Onam it is the correct thing to pay the landlord a visit of ceremony, when they usually receive trifling presents.

Food, &c.—The Mulcers are all flesh-eaters, and all except the Urulars will eat beef. The Urulars, however, will not only not eat the flesh of cattle and goats, but do not use milk or touch cowdung. The only domesticated animals they usually possess are fowls, but some few now possess goats, which they secure at night in a kind of bamboo cage raised on posts to a height of about 8 feet from the ground, and as a further protection against tigers and panthers, a fire is invariably kept burning beneath. Their main food is *ragi* and *cholum*, which they get in exchange for the wild products of the forests they collect, or the produce of their own hill cultivation. Every day, however, they are taking to more settled pursuits, and now many get a regular allowance of rice, &c., from their *jenmies* for herding cattle, watching *kallams*, and even for doing manual labor in the fields. In times of scarcity several varieties of roots and fruits are eaten by them, some of which contain poisonous properties in their uncooked state. A list of these roots, &c., in vernacular is submitted herewith, but I am unable to give them their proper English or scientific names; the roots seem to be kinds of yams (*Dioscoreas*).

Occupations.—Formerly they seem to have depended almost entirely for their maintenance upon their success in the chase and in their search for articles possessing exchange value, such as honey, ivory, and cardamoms. To a small extent also they have always cultivated certain varieties of dry crops, such as rali (*Cynosurus coracanus*), avaray (*Dolichos labla*), and tonda (*ricinus palma Christi*.)

For this purpose they fell the jungle at the commencement of the dry weather, and burn it off in March and April. With the first monsoon thunder-showers the seed is sown. They do not prepare the land by ploughing, but the seed is placed in shallow furrows made by drawing such a stick as article No. 31 in the list, sent herewith, along the ground. As it is impossible for them to protect their crops completely from the ravages of wild animals, their crops are usually poor. Every year they are, however, becoming more settled and civilized in their habits, and consequently their livelihood is becoming less precarious. One or two have become forest watchers and receive regular pay;

many others have commenced to work in their landlords' fields, herd cattle or watch crops, for which they receive a regular allowance of rice. The balance of the men now find pretty regular employment as tree-cutters, and both men and women cut and collect firewood. Twenty years hence the collection of forest produce will, I imagine, be only a very minor occupation with them, and few will depend upon it for their maintenance, or even any considerable portion of it.

In conclusion, I have to express my regret that this report should be so sketchy and badly arranged, but I only yesterday got the Tahsildar's report which, by the way, contained very little information. The shortness of the time at my disposal and the pressure of other work must be my excuse for any shortcomings.

*
"MALAI-ABASERS," OR HILL KINGS OF MADURA.

- 2 Caps made of the outer bark of *Antiaris saccidora*.
- 1 Mat made of ditto ditto ditto.
- 1 Basket to be slung on the back.
- 1 Arrow for killing animals,
- 2 Ditto birds.
- 1 Cow.

Cherumers, Parayers, Nayadys, and Mulcers.—The following notes on the other jungle tribes of the Malabar collectorate have been kindly furnished by Mr. A. C. Tate, Special Assistant Collector. The Mulcers have already been noticed in Mr. Brodie's paper.

From A. C. Tate, Esq., Acting Special Assistant Collector, to the Collector of Malabar, Calicut, dated Malapuram, 12th September 1883, No. 711.

IN forwarding the enclosed lists of the articles referred to in letter No. 350E, dated the 13th August last, from the Vice-President and Secretary, Madras Committee, Calcutta International Exhibition, 1883, copy of which was communicated to me with your endorsement No. 3372, under date the 17th idem, I have the honour to state as follows:—

The aborigines known in this division are—(a) Cherumers, (b) Parayers, (c) Nayadys, and (d) Mulcers.

(a.) *Cherumers.*—The Walawanad Tahsildar says that there are two classes among these people, viz. "Kanakka" and "Kutta." The Ernad Tahsildar makes no such distinction, and I presume that those residing in his taluk are all, or the majority of them, "Kanakka." He says that they are Hindus, and worship the gods adored by the higher classes. According to the Walawannad Tahsildar, the "Kutta" acknowledge only their ancestors, whom they worship on a fixed day once in the year. No permanent shrines are set apart for them. On the fixed day for the worship they appear to take four laterite stones to the foot of a tree and place them one over the other three. A quantity of beaten rice, some toddy and arrack are then placed around the stones. Placing a lighted wick over the articles, they are said to leave the place. They appear to do this in order to avoid being attacked by disease. The "Kanakka" sect is reported to especially worship snakes. A laterite stone in the shape of a cone, fixed on another square one, is placed in a grove of trees close to the huts of a family to represent the deity. They worship here on a fixed day once in the year. On the day preceding worship they appear to take only one meal, and also abstain from sensual pleasures. The next morning all bathe and go to the place, carrying with them some raw rice and a cocoanut. These are placed around the stones, together with some milk and ripe plaintains. The worshippers then stand at a distance from the place, about sixteen feet, for some time. The rice and the cocoanut are then removed, and the ceremony terminates. In the evening, they take their meals only after leaving the food untouched for some time as if for the use of their ancestors. The dead of this race, if old, are burned; if young, are buried. The "Kutta" observe ten and the "Kanakka" fifteen days' death pollution. The Ernad Tahsildar says that

they feast their friends on the last day of the pollution, and perform a funeral ceremony (veli) for the salvation of the deceased. They are, as a rule, field labourers, and dependent for their maintenance on the landlords for whom they work. They are said to render all personal assistance towards each other, rejoice with their brethren when they are in prosperous circumstances, and condole with them when in adversity. Among the "Kutta," when a marriage is fixed, the parents of the bridegroom, accompanied by two of their friends, go to the proposed bride's house, carrying with them one rupee, one cloth, and a string of beads. They are there feasted. After taking their meals, the bridegroom's father gives the money to the bride's father. Her mother or another female relation of hers then gives her to the hands of her mother-in-law, who then dresses her in the new cloth and ties the string of beads around her neck. Afterwards they all depart with the girl. In case of a divorce the restoration of this money is insisted upon. There are some differences in the marriage customs of the other sect. The bridegroom attends the ceremony, and the uncles and not parents take prominent parts in the affair. On the appointment of the day for the marriage one rupee is paid to the uncle of the girl selected by the bridegroom's uncle. Two rupees is also paid to him on the marriage-day by the bridegroom, and he brings her away with him. Among the Cherumers in Ernad the bridegroom appears to feast his friends in his house on the seventh day after the marriage. The Tahsildar fixes their ages for marriage in respect of females at eight, and males fourteen. On the attainment of a girl's puberty, she is not allowed to associate with her relations and friends for three days. She is not allowed even to enter the house among the "Kutta" during the period. On the seventh day a feasting of friends takes place among the "Kanakka." They do not touch a female, or her attendant, during her confinement and for fifteen days after, while this restriction extends among the "Kutta" to twenty-eight days. At the end of the prescribed period the former sprinkle water, which they receive for the purpose from a Brahmin, on the females and in the house for their purification, while the latter do the same with the water taken from the well they daily use. The mother among the "Kutta" names the new child on the twenty-eighth day after its birth; among the other class, the Ernad Tahsildar says that this ceremony is performed on the ninetieth day by its maternal uncle or by some such relation, on its mother's side. On this occasion a feasting of the friends and relations also takes place. The Walawanad Tahsildar adds that during the ceremony of naming the child and its first feast in rice, meals are served on four plantain leaves, and a lighted wick and some toddy are placed over it as if for their ancestor's use.

(b.) *Parayers.*—The Ernad Tahsildar does not say anything of their customs. They chiefly reside in Walawanad. The people consider them necromancers. They appear to worship three deities of their own creation, two goddesses and a god. Two stones fixed to the earth in a shrine close to their habitations represent the two former; the other has no visible representation. Their worship consists in placing before these stones a quantity of raw rice in a plantain leaf, together with a cocoanut split into two parts. Subsequently a portion of the rice is removed, ground, and baked. This sweetmeat also forms part of the offerings. These are offered to the goddesses, while toddy, arrack, and prepared fowl are the things offered to the god. The offerings are then removed to their houses, kept for some time for their ancestors' use, and finally consumed by themselves. The bride is selected by the *karnavan* of the bridegroom. He goes to her house, and fixing a day for the marriage, pays eight annas to one of her relations as a pledge for the fulfilment of the contract. On the appointed day, the bridegroom, in company with his relations and friends, goes to the girl's house. In the temporary shed in front of the house erected for the occasion, four plantain leaves are spread, and some beaten rice and a cocoanut placed on each. This is intended to call the blessing on the couple of the god "Ganapati." The girl is then led out by one of the female attendants of the bridegroom, who dresses her in the new cloth which he has brought with him. Betel leaf and nuts are then distributed among the guests assembled, and he pays three or four rupees to one of her relations. The guests are then feasted and music played. They all remain there for two

days, and on the succeeding day the bridegroom and his party depart with the bride, attended by some of her relations, whom the bridegroom feasts for a day in his house. Their customs in confinements of their females are also peculiar. On the approach of the time of the delivery of a female, a temporary shed at a distance from the dwelling-house is erected for the purpose, and the confinement generally takes place there. If by accident the woman is confined in the house, it is subsequently burned. For fifteen days from the date of the confinement the mother and her attendant are considered under pollution, and those who approach them nearer than forty-four feet are also considered polluted and the further use of their present apparel is prohibited. The two females are not allowed to mess with others until the noon of the twenty-seventh day. The new child's naming by an adult member of the family and its first feast in rice take place on the following day, attended by a feast, to which their relations and friends are invited. The shed in question and the ornaments, if any, and the apparel of the two females are all destroyed when they are re-admitted to the house. When a girl attains her puberty, she cannot mingle with others for seven days, or for ten in case her relations wish to give a feast in honour of the event, when she, attended by not less than fourteen females, after bathing, enters the house in procession. The feast continues for two days. They observe fifteen days' death-pollution, and sons of the deceased perform funeral ceremonies for one year (Deksha), abstaining during the time from eating meat and fish, and also from shaving. At the end of the year, food is served in a leaf, and toddy and arrack placed over it. It is then kept for some time, as if for the use of the deceased. The man who performed the one year's ceremony then eats the meal, and drinks the liquor, and also gets himself shaved.

(c.) *Nayadys*.—They live high up on the hills and in secluded places in small huts and caves. They cannot frequent the country parts. When they cry out, standing at a great distance from the houses of the higher classes of the Hindus, the latter appear to give them something in the shape of rice and paddy, gratis or in exchange for small hemp ropes which they make. They appear to worship only their ancestors, to whom they offer cooked rice and toddy. A stone fixed at the foot of a tree represents them. They do so once in the year on a fixed day. They appear to marry when the couple are between ten and twenty years old. The Ernad Tahsildar says that their marriage ceremonies are very remarkable. The bride is placed in a shed erected in front of the hut. The bridegroom and an unmarried brother of his, if any, or one of his bachelor friends (who all stand outside of the shed, so covered as to prevent the girl's seeing them), thrust each through the covering a stick, one of which the girl is asked to catch. She becomes the wife of him whose stick she catches. When the girl attains puberty she is placed in a separate shed for nine days. The females are allowed to touch her during the period on penalty of a bath, but the males are subjected to the same penalty if they approach them ten or twelve feet. Confinements take place also in a separate shed, and fifteen days' birth-pollution is observed. The women are permitted to touch the mother after the fifteenth day, and the men can do so only on the twentieth day, when the child is first feasted and named. They are said to observe death-pollution for fifteen days. They do not perform any funeral ceremony. They sometimes feast their friends at the end of that period.

(d.) *Mulcers*.—They live in jungles and are jungle labourers. They worship a hill deity and their ancestors. They worship them on fixed days once in the year. This duty devolves on the *karnavan* of the family. They serve food on a plantain leaf, and remain for some time in contemplation, and subsequently consume it themselves. The bride is selected by the parents of the bridegroom. Four annas is paid to her father by the bridegroom at the time of the marriage. He brings her away with him. The girl on attaining her puberty is placed for four days in a separate hut. The females are permitted to touch her during the time. She cannot bathe during these days. Confinements also take place in huts, and birth-pollution is observed for twenty-eight days, after which the

child is named and first feasted in rice. The dead are buried. They observe death-pollution only for four days.

CHERUMERS, NAYADYS, &C., OF THE MALABAR DISTRICT.

- 3 Ditto ditto Bunts.
- 2 Ditto ditto Haliyer.
- 2 Ditto ditto Devadiger.
- Ditto ditto Marihaliyer.

Khonds.—The people bearing this name live in tracts of the Eastern Ghat ranges stretching from the Godavari to the Mahanadi. As to their origin, they are evidently a remnant of the primitive population of the country, and their language is purely Indian, as it does not supply its deficiencies from Sanskrit. They are the owners and cultivators of the soil and hunters, and, although living in villages, do not practise any trade. According to Dr. Shortt,* they "have a well-formed globular head, with an expanded, and in some inclined to overhanging forehead, large and expressive eyes, wedge-shaped countenance, prominent molars, flat nose, wide open nostrils, thick lips and sharp chin, having a well covered black and coarse head of hair, with a scanty moustache and beard." They generally go bareheaded, the only covering of the males being a piece of cloth wrapped round the waist. The women have a short piece of cloth passed once or twice round the body, which does not reach below the middle of the thigh, and the bosom is uncovered. Their huts are wattle and daub thatched with grass. Villages are generally surrounded with a fence of plaited bamboo, and sometimes stockaded. They go armed with a *tangee* or axe, and sometimes carry bows and arrows. They were formerly addicted to human sacrifice, called the *meriah* rite. No instance of *meriah* has been known for some years, but there will always be the risk of its recurrence so long as the generation of sacrificing *Khonds* exists. They subsist chiefly on dhol and rice, and eat animals killed in the chase. The men are very partial to liquor, which they make from rice and the flowers of the *Bassia latifolia*. They are also very fond of tobacco, which they smoke in a kind of cigarette made of a rolled leaf filled with cut tobacco. They worship an earth-god, for whom there is a village shrine. Each village has its priest, who may not eat with laymen, but this restriction does not extend to liquor, of which he partakes freely at feasts. The *Khond* system of government is purely patriarchal, and the headman is capable of settling all quarrels in his own tribe; but when the feud affects different tribes, they are often carried on with great atrocity.

Some *Khonds* toys are also sent. The largest of the peg tops is placed upright, and from a distance of two or three yards the smaller ones are propelled to knock it down by placing them on the side of the stick that is the largest and smartly striking the other side of the stick.

I also send a wooden necklace and a grass one. All the above are made by *Khonds* of Limpada Muttah of Goomsur.

* Hill Ranges of Southern India, Part III, p. 12.

APPAREL, &c., OF THE KHONDS OF THE GOOMSUR MALLAHS, GANJAM DISTRICT

(Lent by C. H. Mounsey, Esq.)

<i>Gedige</i> .	<i>Jodantina gundu</i> , <i>antu</i> 50, <i>tuyiti</i> 2, <i>bottu</i> 1.
<i>Nagara</i> with twenty small <i>gejjes</i> .	<i>Vale</i> , a pair.
<i>Yasalu gedige</i> .	<i>Jumki</i> , a pair.
<i>Magali rekhu</i> or <i>uddugedige</i> .	<i>Simhalalatadamuru</i> , a pair.
<i>Hasarukattu jadebille</i> with a screw-head set with <i>pushyaraga</i> stones.	<i>Niladahavali</i> with real pearls, a pair.
<i>Chaurikuppe</i> .	<i>Bugadi</i> , a pair.
<i>Kamalada jadebille</i> .	<i>Chalaki</i> or <i>haradi Gundu</i> 8, and 10 wooden-red-colored beads.
<i>Jadekucheku</i> 2, <i>gundu</i> 2, <i>surayi</i> 2.	

SILVER.

Kalukadaga, a pair.
Kaluruli, a pair.
Gejje 52.
Anavattia or *doddapilli*, a pair.
Kalungaragatu 4.
Gejjepilli, a pair.
Tolusarige or *tayiti sarige*.
Tolubandi.

Kangani, a pair.
Nagamuri, a pair.
Uddihara.
Dabu.
Hanumantana tali.
Lavangadani.
Sunnadakayi with two gold pin heads.
Minupilli, a pair.

CLASS LI.—PERFUMERY.

A collection of perfumery Rs. 15.

CLASS LII.—OBJECTS NOT SPECIFIED.

Collection of combs from Tumkur
 Powder pouch from Chitaldroog.
Chungani or tobacco pipe from Chitaldroog.
 Collection of imitation gold bracelets.

Two bindy wood walking sticks.
 Two junglewood walking sticks.
 Collection of ornamented and carved
 cus-cus hand pankahs.

ARTICLES MADE OF HORN AT BANGALORE.

Real tortoise shell tray.
 Do. paper-cutter.
 Three cigar-holders.
 Eye glass frame.
 Shoe-horn.
 Two tooth combs with round handles.
 Four combs with flat handle.
 Three inlaid tooth-combs.

One tail comb.
 Three long dressing-combs.
 Ditto ditto.
 Two scratchers.
 A card of assorted horn buttons.
 Horn ruler.
 Seven horn mugs. &c., assorted.
 Five walking-sticks with horn handles.

One horn walking-stick.

SECTION F.—RAW PRODUCTS, &c.

CLASS LIII.—MINERALS AND METALLURGIC PRODUCTS.

FORTY-SIX SPECIMENS.

- | | |
|---|---|
| 1 Auriferous slate from Honnali gold mine. | 14 Antimony ore. |
| 2 Auriferous quartz from ditto. | 15 Mica in hornblende. |
| 3 Gold pyrites from ditto. | 16 Mica schist of 3 varieties. |
| 4 Specimens of gold quartz. | 17 Asbestos. |
| 6 Specimens of gold quartz, slate, pyrites, alluvial gold and amalgam from Honnali gold mine. | 18 Felspar. |
| 7 Quartz with specks of metal. | 19 Granite. |
| 8 Rock crystals. | 20 Cornean. |
| 9 Coprolites from Banavar. | 21 Chert or flint with dendritic markings. |
| 10 Glimmer. | 22 Diorite. |
| 11 Flint from the Chitaldroog fort wall. | 23 Opal from Bababudan Hills. |
| 12 Syenite. | 24 Manganese and rock crystal. |
| 13 Corundum. | 25 Jasper clay. |
| | 26 Corundum and actinolite in talcose schist. |

27 Conglomerate stone.	37 Steel ingots.
28 Compact felspar with indurated tale.	38 Granite polished.
29 Mica in quartz.	39 Syenite ditto.
30 Granite.	40 Diarite ditto.
31 Lime kunkur.	41 Hornblende ditto.
32 Limestone.	42 Soapstone ditto.
33 Magnetic iron ore.	43 Porphyry.
34 Iron ore in lump.	44 Quartz.
35 Iron ore in dust.	45 Spotted quartz.
36 Iron ingots.	46 Potstone.

CLASS LIV.—INDIGENOUS TIMBER AND OTHER FOREST PRODUCTS.

Botanical name.	English name.	Canarese name.
Acacia arabica ...	Babool ...	Gobli or Jali.
Acacia (Albizzia Bed) odoratissima.	Bilvara.
Acacia (Sandra Bed) suma. ...	White barked acacia	Banni.
Calophyllum angustifolium (Eratum Bed).	Poon ...	Kuve mara.
Canarium commune (Strictum bed).	Black dammar ...	Kagli mara.
Cedrela toona ...	White cedar ...	Gandagariga mara.
Chloroxylon swietenia ...	Satin wood ...	Hurugalu mara.
Chunoca muttia (Terminalia tomentosa Bed).	Tore matti mara.
Cinnamomum iners (Zeylanicum Bed).	Cinnamon ...	Dalchinni or yellagada.
Conocarpus latifolia (Anogeisus Bed).	Dindiga, dindlu or bejali mara.
Dalbergia sisoides (Latifolia Bed).	Blackwood ...	Bité mara.
Emblica officinalis (Phyllanthus emblica Bed).	Nelli mara.
Erythrina indica (Stricta Bed)	Indian coral tree ...	Hálivana mara.
Hardwickia binata	Karachi cawarada or Asini mara.
Mangifera indica ...	Māngo tree ...	Mavina mara.
Melia azadirachta (Azadirachta indica).	Neem tree ...	Kadbevina mara.
Michelia champaca (Nilagirica Bed).	Sampige mara.
Myrobalan taria (Terminalia belerica Bed).	Tari mara.
Nauclea cordifolia	Arasinatyaga, Benteak or Hetige mara.
Pterocarpus marsupium ...	Kino tree ...	Honne mara.
Santalum album ...	Sandalwood ...	Gandhada mara.
Pemecarpus anacardium ...	Marking nut tree ...	Geru mara.
Sethia indica (Moringa pterygosperma Bed).	Devadari mara.
Soymdia febrifuga ...	Red cedar ...	Síme mara.
Tectona grandis ...	Teak tree ...	Tyagada mara.

Botanical name.	English name.	Canarese name.
<i>Terminalia coriacea</i> (tomentosa Bed).	Kari matti mara.
<i>Terminalia arjuna</i>	Billi matti mara.
<i>Terminalia tomentosa</i>	Matti mara.
<i>Vatica laccifera</i> (Hopea parviflora Bed).	Jalada mara.
<i>Vitex altissima</i>	Malé Nerale mara.
SEVENTY-FOUR SPECIMENS.		
1 <i>Stereospermum chelonoides</i> *	Bili padri maradakayi.
2 <i>Stereospermum suaveolens</i>	Vulunantrimarakayi.
3 <i>Adansonia digitata</i> ...	Monkey bread tree bark.	Magimavurmara.
4 <i>Wrightia antidysenterica</i> ...	Bark of conessi tree	Veppalarginkayi.
5 <i>Chloroxylon swietenia</i> ...	Satin wood tree (bark)	Harugalamarada chekke.
6 <i>Wrightia tinctoria</i> ...	The dyer's wrightia
7 <i>Garcinia pictoria</i> ...	Gamboge tree (bark)	Gurigechakke.
8 <i>Castanospermum Australe</i>	Moreton Bay chesnut.
9 <i>Hura crepitans</i> ...	Sand-box tree
10	Kanchavalada Rayi.
11 <i>Cycas circinalis</i> ...	Broad-leaved cycas fruit	Godae esela.
12 <i>Soyimida febrifuga</i> ...	Redwood fruit ...	Somehannu.
13 <i>Trapa bispinosa</i> ...	Two-spined water chesnut.	Singhara nut.
14 <i>Pongamia glabra</i> ...	Indian beech ...	Ploughi mara.
15 <i>Myristica moschata</i> ...	Wild nutmegs
16 <i>Centrosema plumieri</i>
17 <i>Petalium murex</i> ...	Prickly-fruited petalium seed.
18 Ditto (small) ...	Ditto
19 <i>Martyni annua</i> ...	Tiger's mouth flowers
20 <i>Canarium commune</i> ...	Java almond ...	Kaggalibija.
21 <i>Agavé americana</i> ..	American aloe seed.
22 <i>Ficus racemosa</i> ...	Red-wood fig ...	Atihannu.
23 <i>Ficus indica</i> ...	Banyan fruit ...	Aladahannu.
24 <i>Calamus rotang</i> ..	Rattan seed ...	Bettadabija.
25 Do. a variety ...	Do. ...	Do.
26 <i>Achyranthes aspera</i> ...	Rough chaff flower seed.	Vuttaranibija.
27 <i>Ogimum album</i> ...	Hoary basil seed ...	Náyitulasibija.
28 Do. a variety ...	Do. ...	Do.
29 <i>Caryophyllus aromaticus</i> ...	Clovebud
30 <i>Damia extensa</i>	Kolatigekaya.
31 <i>Terminalia coriacea</i>	Mattibija.
32 <i>Conocarpus latifolia</i>	Dindigebija.
33 <i>Santalum album</i> ...	Sandal-wood seed ...	Gandhadabija.
34 <i>Vatica laccifera</i> ...	Lac tree seed ...	Jalada bija.
35 <i>Lapidium sativum</i> ...	Garden cress
36 <i>Calophyllum inophyllum</i> ...	Alexandrian laurel...	Pinne mara.
37 <i>Sapindus emarginatus</i> ...	Soap-nut ...	Puttrajivibija.
38	Aratavaladakayi.

Botanical name.*	English name.	Canarese name.
39 Butea frondosa ...	Porasum seed ...	Muttugadabija.
40 Gossypium indicum ...	Country cotton seed ...	Allebija.
41 Grewia tilœfolia	Tarekayi.
42 Bambusa arundinacea ...	Bamboo seed ...	Bidarakki.
43 Nigella sativa ...	Small framel flower seed.	Karunsiragam.
44 Strychnos nuxvomica ...	Poison fruit ...	Kasarkana hannnu.
45 Do. ...	Poison nut ...	Do mara.
46 Semecarpus anacardium ...	Marking nut ...	Gerubija.
47 Agati grandiflora ...	Agati seed ...	Atasibija.
48 Hibiscus sabdariffa ...	Red sorrel seed ...	Pulachakire.
49 Anacardium occidentale ...	Cashew nut ...	Gerabija.
50 Psophocarpus tetragonolobus.	Goa bean
51 Canavalia gladiata ...	Sword bean
52 Moringa pterygosperma ...	Horse-radish fruit ...	Noggikayi.
53 Atriplex hortensis ...	Garden orach
54 Menispermum cocculus
55 Amarantus polygamus ...	Country greens ...	Bagisoppu.
56 Do. oleraceus ...	Country green seed ...	Harivesoppu.
57 Emblica officinalis ...	Emblie myrobalan ...	Nellimara.
58 Basella alba ...	Indian tea seed ...	Bilibasaliballi.
59
60 Cocos nucifera ...	Double cocoanut shell ...	Tenginachippu.
61 Dactyloctenium ægyptiacum.	Wild ragi ears and seeds.	Kadu ragi tené, bija.
62	Suppattigehuvvu.
63	Kalluhuvvu.
64 Acacia concinna ...	Soap-nut ...	Sigekayi.
65	Silk cotton ...	Dudikayi and hatti.
66	Margosa
67 Tamarindus indica ...	Tamarind fruit ...	Hunasehannu.
68 Curcuma longa ...	Wild turmeric ...	Kaduarasina.
69	Kachora.
70 Acacia concinna ...	Wild soa-pnut ...	Kadu sigekayi.
71	Watehuli hapla.
72 Feronia elephantum ...	Wood apple ...	Byaladahannu.
73 Ægle marmelos ...	Bael fruit ...	Bilpatrehannu.
74 Chirogiasapida

CLASS LV.—OIL-SEEDS.

Botanical name.	English name.	Canarese name.	Price per seer.
TWENTY SPECIMENS.			
1 Arachis hypogea ...	Ground nut ...	Kadalekayi ...	Pies 6.
2 Argemone mexicana.	Mexican poppy ...	Dattûri ...	Annas 2.
3 Azadirachta indica .	Neem ...	Bévu ...	Do.
4 Bassia longifolia ...	Elopie ...	Hippé ...	Pies 6.
5 Carthamus tinctorius	Safflower ...	Kusumbé ...	Annas 2½.
6 Croton tiglium ...	Croton ...	Nepala ...	Anna.
7 Guizotea oleifera ...	Ramtil ...	Hutchellu ...	Annas 2.

Botanical name.	English name.	Canarese name.	Price per seer.
8 <i>Jatropha curcus</i> ...	Physic nut ...	Maraharalu ...	Pies 6.
9 <i>Linum usitatissimum</i> ...	Linseed ...	Agase ...	Annas 4.
10 <i>Nicotiana tabacum</i> ...	Tobacco ...	Hogesoppu
11 <i>Papaver somniferum</i> ...	Poppy ...	Gasagase ...	Annas 3.
12 <i>Pongamia glabra</i> ...	Kurrenj ...	Honge ...	Pies 3.
13 <i>Raphanus sativus</i> ...	Radish ...	Mullangi
14 <i>Ricinus communis</i> ...	Castor, large ...	Doddaharalu ...	Anna 1.
15 Do. do. ...	Do. small ...	Chitharalu ...	Do.
16 <i>Sesamum indicum</i> ...	Gingelly ...	Achchellu ...	Pies 9.
17 <i>Sinapis Alba</i> ...	White mustard ...	Bilisasive
18 <i>Sinapis ramosa</i> ...	Indian mustard ...	Sasive ...	Annas 2½.
19 <i>Helianthus annus</i> ...	Sunflower ...	Suryakanti ...	Annas 2.
20 <i>Semicarpus anacardium</i> .	Marking nut ...	Geru ...	Pies 6.

CLASS LVI.—OILS.

Botanical name.	English name.	Canarese name.	Operation.
FORTY SPECIMENS.			
1 <i>Aleurites triloba</i> ...	Walnut oil ...	Alalekayiyanne ...	Purgative.
2 <i>Amygdalus communis</i> .	Almond oil ...	Badamiyanne
3 <i>Arachis hypogæa</i> ...	Ground nut oil ...	Kadalekayiyanne ...	Mild laxative.
4 <i>Agremone mexicana</i>	Yellow thistle or Mexican poppy seed oil.	Datturiyanne ...	Purgative.
5 <i>Azadirachta indica</i>	Neem oil ...	Bevinayanne ...	Anthelmintic, useful in making soap.
6 <i>Bassia longifolia</i> ...	Elopie oil ...	Ippeyanne ...	Mild laxative.
7 <i>Canarium commune</i>	Java almond oil ...	Javabadamiyanne
8 <i>Carthamus tinctorius</i>	Safflower seed oil.	Kusumbabijadayanne.
9 <i>Celastrus paniculata</i>	Black oil (oleum nigrum).	Kariyanne ...	Diaphoretic, sudorific.
10 <i>Cinnamomum iners</i>	Cinnamon oil ...	Dalchinniyanne ...	Carminative.
11 <i>Cocos nucifera</i> ...	Cocoanut oil ...	Tenginayanne ...	Nutritive.
12 <i>Croton tiglium</i> ...	Croton seed oil ...	Nepalabijadayanne	Purgative.
13 <i>Garcinia pictoria</i> ...	The Indian gamboge.	Aridaladayanne ...	Emollient.
14 <i>Guizotea oleifera</i> ...	Ramtil oil ...	Hutchchelluyanne
15 <i>Hibiscus sabdariffa</i>	Roselle seed oil
16 <i>Jatropha curcus</i> ...	Physic-nut oil ...	Bhediyaune ...	Purgative, rubefacient.
17 <i>Linum usitatissimum</i> .	Linseed oil ...	Agaseyanne ...	Aperient.
18 <i>Nicotiana tabacum</i>	Tobacco seed oil	Hogebijadayanne	Powerful sedative.
19 <i>Papaver somniferum</i>	Poppy seed oil ...	Gasgaseyanne

Botanical name.	English name.	Canarese name.	Operation.
20 <i>Pongamia glabra</i> ...	Kurrenj oil ...	Hongeyanne ...	Used in rheumatism.
21 <i>Raphanus sativus</i> ...	White radish seed oil.	Bilimullangiyanne	
22 <i>Ricinus communis</i> , major.	Castor oil (large seeds).	Haralenne ...	Purgative.
23 <i>Ricinus communis</i> , minor.	Castor oil (small seed).	Chitharalenne ...	Do.
24 <i>Santalum album</i> ...	Sandalwood oil ...	Gandhadayanne ...	Diuretic.
25 <i>Sesamum indicum</i> ...	Gingelly oil ...	Valenne ...	Mild laxative.
26 <i>Sinapis alba</i> ...	White mustard seed oil.	Bilisasiveyanne ...	Vesicant.
27 <i>Sinapis ramosa</i> ...	Indian mustard oil	Sasiveyanne ...	Ditto.
28 <i>Helianthus annuus</i> ...	Sunflower oil ...	Suryakantibijadayanne.	
29 <i>Cassia auriculata</i> ...	Tanner's cassia oil	Tangadiyanne.	
30 <i>Oleum nigrum</i> ...	Black oil ...	Kariyanne ...	Diaphoretic, sudorific.
31 <i>Solanum rubrum</i> ...	Kachi grass oil ...	Kachihullinayanne.	
32 <i>Hymenodyction excelsum</i> .	Bandara oil ...	Bandarayanne.	
33 <i>Pterocarpus marsupium</i> .	The Indian kino oil.	Honnemaradayanne.	
34 <i>Sethia indica</i> ...	Indian sethia-wood oil.	
35 <i>Hibiscussp.</i> ...	Oil of pundri tree	Pundribijadayanne.	
36 <i>Achyranthes aspera</i>	Oil of vuttarani ...	Uttaraniyanne.	
37 <i>Michelia champaca</i>	Sampigeyanne.	
38 <i>Pterocarpus marsupium</i> .	Kino ...	Honne.	
39	Maradayanne.	
40	Maraginayanne.	

CLASS LVII.—SOAP, TALLOW, WAX AND OTHER OLEAGINOUS SUBSTANCES.

Bees wax in the comb.	Specimen of pot hives for domesticating bees.
Ditto melted and refined.	
Ditto do. and colored.	

CLASS LVIII.—HIDES, HORN, HAIR, BRISTLES.

Bison hide from Shimoga.	Bullock hide from Shimoga.
Buffalo hide from ditto.	

CLASS LIX.—LEATHER AND MANUFACTURES OF LEATHER.

Name.	Price.
	Rs. A. P.
One goat skin, tanned, white, from Chitaldroog 1 0 0
Ditto, do., black, ditto 0 12 0
Ditto, do., green, ditto 0 12 0

Name.	Price.		
	Rs.	A.	P.
One goat skin, tanned, dark blue from Chitaldroog	...	0	12 0
Ditto, do., yellow ditto	...	0	12 0
Ditto, do., red ditto	...	1	0 0
One sheep skin, do., red, from Harihar	...	2	0 0
One goat skin, do., red, from Chitaldroog	...	0	8 0
Ditto, do., ditto	...	0	12 0
Two kid leather bags used by Fakirs	...	2	0 0

CLASS LXII.—SILK, RAW, COCOON AND THREAD.

Cocoon and thread from French Rocks.	Cocoon and thread from Mr. J. L. Macray, E. & A. I. Colony, Sausmond.
Ditto ditto from Kunigal	Ditto ditto from Mr. J. Sausman, Bangalore.
Ditto ditto from Channapatna.	Dyed silk thread from Bangalore.

CLASS LXIII.—WOOL, RAW, AND YARNS.

WOOL.	YARNS.
White from Bangalore Central Jail.	White from Bangalore Central Jail.
Black „ ditto ditto.	Brown „ ditto ditto.
White „ Chitaldroog.	Black „ ditto ditto.
Black „ ditto.	White „ Chitaldroog.
White „ Sira Taluk.	Black „ ditto.
Black „ ditto.	White „ Sira Taluk.
Gray „ ditto.	Gray „ ditto.
Brown „ ditto.	Brown „ ditto.
	Black „ ditto.

CLASS LXVI.—COIR AND MANUFACTURES THEREFROM.

Samples of coir and coir rug from the Bangalore Central Jail.

CLASS LXVII.—OTHER FIBRES AND MANUFACTURES THEREFROM.

Botanical name.	English name.	Canarese name.
Agave americana	American aloe	Budukattalenaru.
Agave americana variegata	Variegated aloe	Bannadakattale.
Fourcroya gigantea	Giant aloe	Masarukattale.
Ditto	Ditto	Ditto.
Sanseveira zeylanica	Bow-string hemp	Manjinaru.
Ditto (species)	Ditto	Ditto jati.
Yucca glaucescens	Adam's needle	Síménaru.
Ditto gloriosa	Ditto	Ditto jati.
Doryanthes palmerii
Musa paradisiaca	Common plantain	Bálénaru.
Do. textilis	Manilla hemp	Ditto.
Grewia oppositifolia

Botanical name.	English name.	Canarese name.
<i>Grewia columnaris</i>
Do. (sp.)
<i>Hibiscus rosa sinensis</i> ...	Shoe flower ...	Dasvaladagida.
Ditto <i>cannabinus</i> ...	<i>Hibiscus</i> hemp ...	Pundinaru.
<i>Pandanus furcatus</i> ...	Screw pine ...	Talnaru.
<i>Ananassa sativa</i> ...	Pine apple ...	Annanas do.
<i>Sanseveira</i> (sp.) ...	Bow-string hemp ...	Manjinaru jati.
<i>Cocos nucifera</i> ...	Coir, or cocoanut fibre ...	Tenginaru.
<i>Crotalaria juncea</i> ...	Sunn hemp ...	Sanabinanaru.
<i>Pandanus furcatus variegata</i> ...	Variegated screw pine ...	Talenaru jati.
<i>Cyperus iria</i> ? ...	Indigenous sedge
<i>Cannabis sativa</i> ...	Hemp ...	Bangigida.
<i>Hibiscus esculentus</i> ...	Okra ...	Bendakainaru.
<i>Ficus benjamina</i> ...	Java fig tree
<i>Triumfetta angulata</i>
<i>Boehmeria nivea</i> ...	China grass, or rhea
<i>Typha elephantina</i> ...	Elephant grass ...	Jambunaru.
<i>Abutilon striatum</i> , var <i>Thompsonii</i>	Thomson's abutilon
<i>Gauzuma tomentosa</i> ..	Bastard cedar ...	Rudrakshimara.
<i>Cordia myxa</i> ...	Sepistan plum ...	Challemara.
<i>Urena sinuata</i> ?
<i>Hibiscus tiliaceus</i> ? ...	Cuba bast ?
<i>Ficus venosa</i> ? Ait
<i>Corchorous olitorius</i> var.
<i>Malachra capitata</i>
<i>Caraya arborea</i>
<i>Ficus</i> (species)
<i>Helicteres isara</i> ...	Indian screw-tree
<i>Hibiscus tricuspidis</i>
<i>Butea frondosa</i> ...	Fibre of roots
<i>Bauhinia vahlii</i>
<i>Caryota urens</i> ...	Fibre of leaf-stalk
<i>Arenga saccharifera</i> ...	Loose fibre from base of leaf-stalk.
<i>Hardwickia binat</i>	Karachimara.
<i>Melia azaderachta</i> ...	Neem fibre
<i>Calotropis gigantea</i> ...	Mudar
<i>Ficus indica</i> ...	Banyan
<i>Andropogon muricata</i> ...	Cus-cus roots

CLASS LXXIII.—LAC.

Lac from Tumkur.

CLASS LXXIV.—GUMS AND RESINS.

Botanical name.	English name.	Canarese name.
THIRTY SPECIMENS.		
1 <i>Eriodendron anfractuosum</i> ...	White cotton ...	Bilihati.
2 <i>Vateria indica</i> ...	White dammar
3 <i>Shorea talura</i>	Jalaridupa.

Botanical name.	English name.	Canarese name.
4 <i>Canarium strictum</i> ...	Black dammar ...	
5 <i>Vaticalaccifera</i> ...	Lac ...	Aragu.
6 <i>Feronia elephantum</i> ...	Wood apple ...	Byala.
7 <i>Azadirachta indica</i> ...	Margoza ...	Bévu.
8 <i>Anacardium occidentale</i> ...	Cashew nut ...	Géru.
9 <i>Acacia arabica</i> ...	Babul ...	Jáli.
10 <i>Mangifera indica</i> ...	Mango ...	Mavu.
11 <i>Spondias mangifera</i> ...	Wild mango ...	Goda.
12 <i>Acacia catechu</i> ...	Catechu ...	Tare.
13 <i>Cochlospermum gossipium</i> ...	Golden silk cotton ...	
14 <i>Butea frondosa</i> ...	Puras ...	
15 <i>Pterocarpus marsupium</i> ...	Kino ...	Honné.
16 <i>Cassia auriculata</i> ...	Tanner's cassia ...	Tangadi.
17 <i>Araucaria excelsa</i> ...	Norfolk island pine ...	
18 <i>Moringa pterygosperma</i> ...	Horse radish ...	Nugge.
19 <i>Aegle marmelos</i>	Bilpatré.
20 <i>Strychnos potatorum</i> ...	Cleaving nut ...	
21 <i>Grevillea robusta</i> ...	Silver oak ...	
22 <i>Garcinia pictoria</i> ...	Gamboge juice ...	
23 <i>Garcinia pictoria</i> ...	Gamboge ...	
24 <i>Maradi (Acacia suma)</i> ...	Maradi ...	Mugali.
25 <i>Conocarpus latifolia</i>	Dindiga.
26	Aromatic gum ...	Halmaddi.
27 <i>Buchanania latifolia</i>	Murkalu.
28	Kalludúpa.
29	Incense ...	Halmaddi.
30	Hagada.

CLASS LXXVI.—OTHER DYEING AND COLOURING MATERIALS.

Scientific name.	Popular name.	Canarese name	Part used.
<i>Swietenia febrifuga</i>	Somechakke ...	Bark.
<i>Sethia indica</i>	Devadarichakke ...	Do.
<i>Todalia aculeata</i> ...	Prickly toddalia	
<i>Bixa orellana</i> ...	Annatto ...	Rangamalékayi ...	Seeds.
<i>Curcuma longa</i> ...	Turmeric ...	Arisina ...	Root.
<i>Cæsalpinia sappan</i> ...	Sappan wood ...	Patanga ...	Bark.
<i>Butea frondosa</i> ...	Pulas flower ...	Muttaga ...	Flower.
<i>Hibiscus rosa sinensis</i> ...	Shoe flower ...	Dasavala ...	Do.
<i>Semecarpus anacardium</i> ...	Marking nut ...	Géru ...	Seeds.
<i>Terminalia chebula</i> ...	Myrobalans ...	Alalekayi ...	Nut.
<i>Morinda citrifolia</i> ...	Indian mulberry root.	Maddi ...	Bark.
<i>Vatica lacifera</i> ...	Lac ...	Aragu ...	From insect.
<i>Hæmatoylon campechianum</i> ...	Log wood ...	Patanga ...	Wood.
<i>Coccinium fenestratum</i> ...	Tree turmeric ...	Marada arisina ...	Root.
<i>Rocella montagnei</i> ...	Lichens of mango tree.	Kalluha ...	Whole plant.
<i>Lichen rotundatus</i> ...	Rock-moss ...	Kallupachi ...	Do.
<i>Ventilago maderaspatena</i>	Poppali ...	Bark.

Scientific name.	Popular name.	Canarese name.	Part used.
<i>Rottlera tinctoria</i> ...	Kamala dye ...	Kapilerangu ...	Leaf.
<i>Wrightia tinctoria</i>	Bephale ...	
<i>Garcinia pictoria</i> ...	Gamboge powder	Aridala ...	Herbage.
<i>Tephrosia tinctoria</i> ...	Ceylon indigo ...	Ceylam nili ...	
<i>Pterocarpus santalinus</i>	Red sandalwood	Honnémara ...	Wood.
<i>Buchanania latifolia</i>	Leaves.
<i>Cassia fistula</i>	Kakke ...	Bark.
<i>Carthamus tinctorius</i> ...	Safflower ...	Kusumba ...	Flower.
<i>Casuarina muricata</i>	Bark.
<i>Cassia tora</i> ...	Oval-leaved cassia	Tagasi ...	Seeds.
<i>Cassia auriculata</i> ...	Tanner's cassia	Tangadi ...	Flower.
Do. ...	Golden cassia	Tangadi ...	Seeds.
Do. ...	seeds.	Tangadichakke ...	Bark.
<i>Rubia munjista</i> ...	Indian madder	Do.
<i>Acacia arabica</i> ...	Gum arabic ...	Kari jali or gobli	
<i>Areca catechu</i> ...	Betel-nut ...	Adiké ...	Nut.
<i>Acacia leucophlœa</i>	Topal ...	Bark.

CLASS LXXVII.—COLORS, PAINT, VARNISHES.

PREPARED LAC FOR LACQUEERING ON WOOD.

Yellow.	Black.	Gold.
Green.	Vermilion.	Brown.

CLASS LXXVIII.—TOBACCO.

Tobacco from Battadapura.

Tobacco from Chitaldroog.

CLASS LXXX.—MATERIALS USED FOR BLEACHING, TANNING, AND CURRYING.

Scientific name.	Popular name.	Canarese name.	Part used.
<i>Acacia leucophlœa</i> ...	Panicked acacia ...	Togral naibela, bili-jali.	Bark.
<i>Butea frondosa</i> ...	Gum of pulas tree	Muttugadabanke...	Gum.
<i>Bauhinia variegata</i> ...	Mountain ebony bark.	Bark.
<i>Calotropis gigantea</i> ...	The mudar	Do.
<i>Pterocarpus marsupium</i>	Kino gum ...	Honnemara-banke.	Gum.
<i>Terminalia chebula</i> ...	Myrobalans ...	Alalekayi ...	
<i>Terminalia belerica</i> ...	Belleric myrobalans.	Tarimara ...	
<i>Acacia arabica</i> ...	Pod of gum arabic tree.	Goblimara ...	
<i>Acacia catechu</i> ...	Catechu ...	Kachu ...	
<i>Casuarina muricata</i> ...	Cassowary-tree, or beef-wood.	

Scientific name.	Popular name.	Canarese name.	Part used.
<i>Hibiscus rosa sinensis</i>	Shoe flower	Flower.
<i>Zizyphus jujuba</i> ...	Jujube tree ...	Yelchemara ...	Bark.
<i>Nyctanthes arbor tristis</i>	Night flowering jesamine.	Do.
<i>Buchanania latifolia</i>	Do.
<i>Quercus infectoria</i> ...	Dyer's oak galls ...	Machikayi ...	Gall-nuts.
<i>Cæsalpinia coriaria</i> ...	Divi divi	Fruit.
<i>Cassia auriculata</i> ...	Tanner's cassia bark.	Tangadi ...	Bark.
<i>Punica granatum</i> ...	Pomegranate ...	Dalimbri ...	Bark.
Do. ...	Bark of the pome- granate root.	Do. ...	Do.
<i>Careya arborea</i> ...	Carey's tree	Bark.

CLASS LXXXI.—OTHER PRODUCTS AND MANUFACTURES NOT
SPECIFIED.

THIRTY-ONE SPECIMENS OF HERBS AND ROOTS ON WHICH FAMINE-STRICKEN
PEOPLE TRIED TO LIVE.

Botanical name.	English name.	Canarese name.
1	Kommesoppu.
2 <i>Aschynomene grandiflora</i>	Agasesoppu.
3 <i>Achyranthus muricata</i>	Akirgorajisoppu.
4	Kolavankisoppu.
5 <i>Amaranthus</i> sp... ..	Country greens (seed)	Haravesoppu.
6	Kariganikesoppu.
7 <i>Bryonia grandis</i>	Tondesoppu.
8	Honnavarikesoppu.
9	Doddagannisoppu.
10	Torsosisoppu.
11 <i>Achyranthus triandra</i>	Ponnagantisoppu.
12	Turchisoppu.
13 <i>Elvolvulus alsinoides</i>	Godaravisoppu.
14 <i>Clitorea ternatea</i>	Vishnukantisoppu.
15 <i>Achyranthus aspera</i>	Utranisoppu.
16	Konesoppu.
17 <i>Amaranthus spinosus</i>	Mulharavesoppu.
18	Kattesoppu.
19	Masmarisoppu.
20 <i>Acacia suma</i>	Mugalisoppu.
21 <i>Amaranthus oleraceus</i> ...	Country greens (seed)	Dantusoppu.
22	Halmullangisoppu.
23	Karihindisoppu.
24	Karisalessoppu.
25	Bilikommesoppu.
26	Kulkoralebija tene.
27 <i>Aloe indica</i>	Kattalesoppu.
28	Koraletene kálu.
29	Gotigadde.
30	Tittagadde.
31 <i>Erythroxylon monogynum</i> ...	Bastard sandal ...	Devadarisoppu.

SECTION G.—MACHINERY AND IMPLEMENTS, MEANS OF
TRANSPORT, &c.

CLASS LXXXII.—RAILWAY PLANT AND ROLLING STOCK,
TRAMWAYS.

Model of a first class metre gauge railway carriage.	Model of a third class metre gauge railway carriage.
Model of a second class metre gauge railway carriage.	Model of a covered metre gauge railway goods wagon.

CLASS LXXXV.—MINING AND METALLURGY.

A SET OF ARTICLES USED BY THE NATIVES FOR WASHING GOLD.

A wooden plate.
An earthen do.

A cup.

CLASS LXXXVII.—ARTILLERY, ARMS, AMMUNITION, WAR
MATERIAL.

A COLLECTION OF THIRTY-SEVEN ANCIENT ARMS FOR SHIELDS.

Slightly curved (<i>talwar</i>) sword, horn hilt with a tiger head.	Flint lock musket with a battle-axe and bayonet attached.
Slightly curved (<i>talwar</i>) sword, brass foil covered hilt.	Combination pistol and battle-axe.
Dagger chased in gold with sheath, and two smaller knives.	" <i>Gada</i> " or heavy club ornamented with golden lines.
Lever dagger of five blades, two of which are double saws.	Combination battle-axe, stake and club.
Hunting knife with ivory handle.	Combination double-edged sword, battle-axe and trident.
Hunting knife with green glass handle with rubies and emeralds set in gold.	Crane-head weapon (called " <i>Singoti</i> " in Canarese).
Knife with opal handle.	Combination musket and " <i>Ankusa</i> ."
Small dagger with green ivory handle.	Brass air gun.
Plain handle dagger.	Flint lock, double barrel, small pistol.
<i>Thabbaru</i> chased in gold with a knife in the handle.	Flint lock, four barrel, brass pistol.
<i>Thabbaru</i> chased in gold with a knife in the handle.	Combination pistol, with two blades.
Dagger, with the images of Srinara-sunha and Garuda carved on the handle.	Long pistol.
Bronze dagger, with the image of Bennekrishna on the handle.	2 Long spears.
Small dagger, with a claw handle.	Long triangular spear.
" <i>Herige cūri</i> ."	Short spear.
	Brass handled felling axe.
	" <i>Puja singoti</i> ."
	2 long muskets.
	Short musket.
	A long spear with plated handle.

CLASS XC.—CARRIAGES, VEHICLES, AND WHEELWRIGHT'S
WORK.

Model of a Vaddar *bandy*.
Do. of a Hallu *bandy*.

Model of another description.

CLASS XCII.—BLACKSMITH'S WORK, LOCK; SAFES.

A COLLECTION OF NATIVE LOCKS.

Iron padlocks from Tumkur.	Brass padlock from Tumkur (price
Brass locks from Bangalore.	12 Rs.)
Brass padlock do.	Brass padlock from Chitaldroog (price
Brass lock from Tumkur by Yellaiva	10 Rs.)
(price 5 Rs.)	
Brass lock from Chitaldroog (price	
12 Rs.)	

SECTION H.—FOOD PRODUCTS.

CLASS CXIII.—SPICES.

Botanical name.	English name.	Canarese name.	Price per seer of 24 Rs. weight.
TWENTY-TWO SPECIMENS.			Rs. A. P.
1 Elettaria cardamomum from Sâgar.	Cardamom ...	Yalakki ...	1 8 0
2 Elettaria cardamomum from Kadur.	Ditto ...	Ditto ...	2 0 0
3 Elettaria cardamomum from Malnad.	Ditto ...	Ditto ...	
4 Elettaria cardamomum from Maddagiri.	Ditto ...	Ditto ...	
5 Cassia lignea ...	Cassia bark ...	Lavangapatte ...	
6 Cinnamomum iners ...	Wild cinnamon leaf.	Lavangayale ...	
7 Piper nigrum from Mal- nad.	Black pepper ...	Karimenasu ...	0 2 6
8 Piper nigrum from Sâgar	Ditto ...	Ditto ...	0 2 0

13 Sinapis ramosa ...	Mustard ...	Sasive ...	0 0 10
14 Curcuma louga ...	Termeric ...	Arasina ...	0 1 0
15 Capsicum annum ...	Common chilly ...	Menasinakayi ...	0 1 0
16 Areca catechu ...	Betel-nut ...	Undadike ...	
17 Ditto from Sira ...	Ditto ...	Jajjadike ...	
18 Ditto ditto ...	Ditto ...	Podiadike ...	
19 Ditto from Kadur ...	Ditto ...	Lavangachur ...	0 12 0
20 Ditto ditto ...	Ditto ...	Ditto ...	
21 Ditto from Birur ...	Ditto ...	Ditto ...	
22 Ditto prepared into pills from Mysore.	Ditto ...	Adike ...	

CLASS CXV.—BREAD STUFFS AND ARTICLES MADE
THEREFROM.

Uncooked specimen of sub-soil used as food.

Cooked specimen of ditto ditto.

CLASS CXVI.—ARROWROOT, TAPIOCA, SAGO.

Arrowroot grown and prepared by Mr. A. B. Thompson, Bangalore.

Raw sago from the Malabar sago palm, extracted in the Lal-Bagh (Caryota
urus).

CLASS CXXVI.—HONEY.

Honey from Chiknayakanhalli Taluk, Tumkur District.

Do. from Devarayadurga forest.

SECTION I.—AGRICULTURE AND HORTICULTURE.

CLASS CXXXVII.—AGRICULTURAL PRODUCTS.

Botanical name.	English name.	Canarese name.
A COLLECTION OF SIXTY-EIGHT SPECIMENS.		
1 <i>Cynosurus corocacnus</i> ...	Ragi ...	Majjigé ragi.
2 Ditto ...	Do. ...	Kari ragi.
3 Ditto ...	Do. ...	Kempu ragi.
4 Ditto ...	Do. ...	Channamudda ragi.
5 Ditto ...	Do. ...	Ginimuti ragi.
6 Ditto ...	Do. ...	Hullubilé ragi.
7 Ditto ...	Do. ...	Sové ragi.
8 Ditto ...	Do. ...	Kuruba ragi.
9 Ditto ...	Do. ...	Bili ragi.
10 <i>Dactyloctenium Ægyptiacum</i> ...	Buffalo head grass seeds	Kadu ragi.
11 <i>Panicum Italicum</i> ...	Italian millet	Bili navane.
12 Ditto ...	Do. ...	Jadé navane.
13 Ditto ...	Do. ...	Kempu navane.
14 Ditto ...	Do. ...	Navane.
15 Ditto ...	Do. ...	Kari navane.
16 Ditto ...	Do. ...	Mabbu navane.
17 Ditto ...	Do. ...	Korale navane.
18 Ditto ...	Do. ...	Kari korale navane.
19 <i>Panicum frumentaceum</i> ...	Little millet	Bili sámé.
20 Ditto ...	Do. ...	Kari sámé.
21 Ditto ...	Do. ...	Mabbu sámé.
22 <i>Panicum miliaceum</i>	Bili baragu.
23 Ditto	Kari baragu.
24 <i>Panicum semiverticillata</i>	Haraka.
25 <i>Holcus spicatus</i> ...	Spiked millet.	Sajje.
26 <i>Holcus sorghum</i> ...	Great millet	Bili jola.

Botanical name.	English name.	Canarese name.
27 Zea mays ...	Maize or Indian corn ...	Jola.
28 Triticum vulgare ...	Wheat ...	Javé godhi.
29 Ditto ...	Do. ...	Hotte godhi.
30 Ditto ...	Common wheat ...	Godhi bhatta.
31 Ditto ...	Wheat ...	Godhi.
32 Bambusa arundinacea, Schreb.	Common prickly bamboo	Bidaru.
33 Arachis hypogea ...	Ground nut ...	Kadalekayi.
34 Cajanus indicus, Spreng ...	Pigeon pea or dhol
35 Cicer arietinum ...	Bengal gram ...	Kempu kadale.
36 Ditto ...	Do. ...	Kari kadale.
37 Dolichos catiang ...	Small fruited dolichos ...	Tadagani.
38 Ditto ...	Ditto ...	Do.
39 Ditto ...	Ditto ...	Do.
40 Ditto ...	Ditto ...	Do.
41 Dolichos biflorus ...	Horse-gram ...	Hurali.
42 Dolichos uniflorus ...	Do. ...	Do.
43 Ervum lens ...	Lentil ...	Massur.
44 Dolichos lablab ...	Cow gram ...	Madanasakkare avare.
45 Ditto ...	Do. ...	Avare.
46 Ditto ...	Do. ...	Do.
47 Ditto ...	Do. ...	Do.
48 Phaseolus mungo ...	Green gram ...	Hesaru.
49 Ditto ...	Do. ...	Hesarubele.
50 Phaseolus minimus ...	Black gram ...	Uddu.
51 Ditto ...	Do. ...	Uddinabele.
52 Coriandrum sativum ...	Coriander ...	Kotambari.
53 Sinapis niera ..	Common mustard ...	Sasive.
54 Sinapis alba ...	White mustard ...	Bilesasive.
55 Trigonella foenum græcum	Fenugreek ...	Menthya.
56 Ditto ...	Do. ...	Do.
57 Piper nigrum ...	Black pepper ...	Menasu.
58 Piper alba ...	White pepper ...	Bilimenasu.
59 Cuminum cyminum ...	Common cummin ...	Jirige.
60 Pimpinella anisum ...	Anise seed ...	Doddajirige.
61 Carum copticum ...	Bishop's weed ...	Oma.
62 Papaver somniferum ...	Opium poppy ...	Gasagase.
63 Sesamum indicum ...	Gingelly ...	Atchellu.
64 Guizotia cleifera ...	Foolish oil seed ...	Hutchellu.

* This work, though long in existence, has only attracted notice since its development and improvement under Mr. Growse's care. It is now probably the most effective of the various kinds of ware manufactured in the provinces.

† This art was only introduced about 12 years ago. The pottery is made of kankar (carbonate of lime), colored black by cow-dung smoke in a closed oven. The ornamentation, which is European in character, consists of fruit, flowers, &c., in relief, which are impressed in moulds and affixed to the surface of the vessel before baking.

- Inkstands, 5, from Saháranpur, exhibited by Municipal Committee, Deoband, as. 7-6, *sale*, maker Ali Baksh of Rampur, district Saháranpur.

- Plates, from Agra, exhibited by Nathu Rám and Jamna Náth, Rs. 2, *sale*, maker Nathu Ram.

* The manufacture of these stone utensils is carried on in the mukallas on the bank of the Jumna, and gives occupation to about 500 men. The stone is brought from the quarries at Tantpur in the Agra district and Rupbas in Bhartpur. The manufactured articles are exported largely, and specially to the east. There is also a large local retail trade. The average profit is calculated at about 6 per cent., and the wages of the workmen are from 2 to 3 annas per diem. Usually Hindus are employed, and the trade, which is increasing, has been carried on for centuries.

(These wares are placed in the Sample Room of the Economic Court.)

† The manufacture of ornamental work in soapstone has been in vogue in Agra for about 30 years, and the delicacy of the carving and the beauty of patterns have acquired for its products a very wide popularity. The same workmen who prepare the well-known inlaid marble work are employed in the carving of soapstone articles. The trade is increasing rapidly.

- Electro scent bottle (*atar dān*), 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Ahiaganj, Re. 1-10, *sale*, makers same as exhibitors.
- Electro-glass with cover and platter, 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Ahiaganj, Rs. 3-3, *sale*, makers same as exhibitors.
- Copper betel case, 2, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, at Rs. 6-6, *sale*, maker same as exhibitor.
- Copper plates, 2 dozen, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, Rs. 2-6 per dozen, *sale*, maker same as exhibitor.
- * Brass *ālams*, 4 pieces, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, Rs. 6-6 to Rs. 7-7-3, *sale*, maker same as exhibitor.
- Brass betel case, 2, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, at Rs. 13, *sale*, maker same as exhibitor.
- Brass dome-shaped, 3, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, at As. 12, *sale*, maker same as exhibitor.
- Brass *lotas*, small (*ghanti*), 4, from Lucknow, exhibited by Bhagwan Das, Ahiaganj, at As. 6, *sale*, maker same as exhibitor.
- Copper plates, 16, from Lucknow, exhibited by Baili Mall, As. 9 to As. 13, *sale*, maker same as exhibitor.
- Copper trays, 2, from Lucknow, exhibited by Baili Mall, at Re. 1-10, *sale*, maker same as exhibitor.
- Brass betel case, dome-shaped, 2, from Lucknow, exhibited by Baili Mall, at Rs. 6-14, *sale*, maker same as exhibitor.
- Brass *lotas*, 2, from Lucknow, exhibited by Baili Mall, Rs. 3-3 to Rs. 5-6, *sale*, maker same as exhibitor.
- Copper betel case, 6, from Lucknow, exhibited by Baili Mall, at As. 13, *sale*, maker same as exhibitor.
- Brass *lota* with cover, 1, from Lucknow, exhibited by Baili Mall, Rs. 2-10, *sale*, maker same as exhibitor.
- Brass chandelier, 2, from Lucknow, exhibited by Sital Das, Ahiaganj, at Rs. 31-14, *sale*, maker same as exhibitor.
- Brass lamp sticks, 2, from Lucknow, exhibited by Sital Das, Ahiaganj, at Rs. 15-15, *sale*, maker same as exhibitor.
- Brass betel case, 2, from Lucknow, exhibited by Sital Das, Ahiaganj, at Rs. 3-3 to Rs. 3-12, *sale*, maker same as exhibitor.
- Brass bread roller (*belan*), 1, from Lucknow, exhibited by Sital Das, Ahiaganj, Re. 1-5, *sale*, maker same as exhibitor.
- Copper goblet, 2, from Lucknow, exhibited by Sital Das, Ahiaganj, at As. 13, *sale*, maker same as exhibitor.
- Copper *lota* with cover, 2, from Lucknow, exhibited by Sheo Parshad, Ahiaganj, at Rs. 2-4, *sale*, maker same as exhibitor.
- Copper plates, 10, from Lucknow, exhibited by Sheo Parshad, Ahiaganj, As. 8 to As. 9, *sale*, maker same as exhibitor.
- Copper tray, 2, from Lucknow, exhibited by Sheo Parshad, Ahiaganj, at Re. 1-10, *sale*, maker same as exhibitor.
- Copper betel case, 1, from Lucknow, exhibited by Sheo Parshad, Ahiaganj, Rs. 14-14, *sale*, maker same as exhibitor.
- Copper dome-shaped, 1, from Lucknow, exhibited by Sheo Parshad, Ahiaganj, Rs. 5-5, *sale*, maker same as exhibitor.
- Brass betel case, dome-shaped, 1, from Lucknow, exhibited by Sheo Parshad Das, Ahiaganj, Rs. 5-5, *sale*, maker same as exhibitor.

* Used in Mohurram processions.

- Brass oil can for torch, 1, from Lucknow, exhibited by Sheo Parshad Ahia-
ganj, Rs. 2-2, *sale*, maker same as exhibitor.
- Brass *hukka* bottom, 1, from Lucknow, exhibited by Sheo Parshad Ahia-
ganj, Rs. 2-2, *sale*, maker same as exhibitor.
- Brass alarms, electro-plated, 5, from Lucknow, exhibited by Sheo Parshad
Ahia-
ganj, at Rs. 2-2, *sale*, maker same as exhibitor.
- Brass box, electro-plated, 1, from Lucknow, exhibited by Sheo Parshad Ahia-
ganj, Rs. 2-9, *sale*, maker same as exhibitor.
- Brass cooking pot (*patel*), 12, from Lucknow, exhibited by Tulsi Ram, Rs. 2-4
to Rs. 9-9, *sale*, maker same as exhibitor.
- Brass candlestick, 6, from Lucknow, exhibited by Tulsi Ram, Rs. 2 2 to Rs. 3-7,
sale, maker same as exhibitor.
- Copper pitchers, 2, from Lucknow, exhibited by Lachman, at Rs. 5-5, *sale*, maker
same as exhibitor.
- Copper *lota*, 12, from Lucknow, exhibited by Lachman, Re. 1-7 to Rs. 4-4, *sale*,
maker same as exhibitor.
- Brass *hukka* bottom, 7, from Lucknow, exhibited by Makhan Lal, Narain Das,
at Rs. 3 3, *sale*, makers same as exhibitors.
- Brass betel case, 1, from Lucknow, exhibited by Makhan Lal, Narain Das,
Rs. 6-6, *sale*, makers same as exhibitors.
- Brass betel case, dome-shaped, 1, from Lucknow, exhibited by Makhan Lal,
Narain Das, Rs. 12-12, *sale*, makers same as exhibitors.
- Copper *lota*, 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 6-6,
sale, makers same as exhibitors.
- Copper tray, 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 6-6,
sale, makers same as exhibitors.
- Copper betel case, electro-plated, 3, from Lucknow, exhibited by Makhan Lal,
Narain Das, Re. 1-10 to Rs. 3-3, *sale*, makers same as exhibitors.
- Copper *hukka* bottom, 1, from Lucknow, exhibited by Makhan Lal, Narain Das,
Rs. 10-10, *sale*, makers same as exhibitors.
- Copper alarm, electro-plated, from Lucknow, exhibited by Makhan Lal, Narain
Das, at Rs. 7-7, *sale*, makers same as exhibitors.
- Brass *hukka* bottom, 2, from Lucknow, exhibited by Baldeo, at Re. 1-5, *sale*,
maker same as exhibitor.
- Phúl (bell-metal) *hukka* bottom, 10, from Lucknow, exhibited by Janki Sukul,
Re. 1-2 to Rs. 4-4, *sale*, maker same as exhibitor.
- Copper *lota* with cover, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, Re. 1-1, *sale*, maker same as exhibitor.
- Copper *lota* with cover, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 11 annas, *sale*, maker same as exhibitor.
- Copper *lota* with cover, 3, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 5 annas to 10 annas, *sale*, maker same as exhibitor.
- Copper *lagan*, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 7 annas, *sale*, maker same as exhibitor.
- Copper tray, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 5 annas, *sale*, maker same as exhibitor.
- Copper plate, 2, from Lucknow, exhibited by Mulchand, Ahia-
ganj, at 4 annas, *sale*, maker same as exhibitor.
- Copper betel case, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 6 annas, *sale*, maker same as exhibitor.
- Copper stand, 1, from Lucknow, exhibited by Mulchand, Ahia-
ganj, 7 annas, *sale*, maker same as exhibitor.
- Copper plates, 2, from Lucknow, exhibited by Baili Mall, at 9 annas, *sale*,
maker same as exhibitor.
- Copper betel case, 3, from Lucknow, exhibited by Makhan Lal, Narain Das,
Rs. 2-2 to Rs. 3-7, *sale*, makers same as exhibitors.
- Copper *lota*, 4, from Lucknow, exhibited by Makhan Lal, Narain Das, at
Rs. 2, *sale*, makers same as exhibitors.
- Copper betel case, dome-shaped, 8, from Lucknow, exhibited by Makhan Lal,
Narain Das, Rs. 4-4 to Rs. 10-10, *sale*, makers same as exhibitors.

- Copper box, round (*pitari*), 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 5-5, *sale*, makers same as exhibitors.
- Copper betel case, 3, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 8-8 to 12-12, *sale*, makers same as exhibitors.
- Copper plate (large), 4, from Lucknow, exhibited by Makhan Lal, Narain Das, at Re. 1-10, *sale*, makers same as exhibitors.
- Copper plates (small), *rikabi* 27, from Lucknow, exhibited by Makhan Lal, Narain Das, at Re. 1-10, *sale*, makers same as exhibitors.
- Kaskut* (mixed metal) *lota*, 6, from Lucknow, exhibited by Anant, Re. 1-3 to Re. 1-5, *sale*, same as exhibitor.
- Kaskut* cups, 4, from Lucknow, exhibited by Anant, Re. 1-1 to Re. 1-5, *sale*, maker same as exhibitor.
- Copper cooking pot (*patel*), 6, from Lucknow, exhibited by Gopinath, Re. 1-10 to Rs. 4-13, *sale*, maker same as exhibitor.
- A nest of 4 cooking pots, 1, from Lucknow, exhibited by Gopinath, Rs. 13-13, *sale*, maker same as exhibitor.
- A nest of 8 cooking pots, 1, from Lucknow, exhibited by Gopinath, Rs. 15-15, *sale*, maker same as exhibitor.
- Copper spittoon, 1, from Lucknow, exhibited by Panna Lal, Rs. 2-6, *sale*, maker same as exhibitor.
- Copper *hukka* bottom, 1, from Lucknow, exhibited by Panna Lal, Rs. 2-2, *sale*, maker same as exhibitor.
- Copper tray, 1, from Lucknow, exhibited by Panna Lal, Rs. 2-11, *sale*, maker same as exhibitor.
- Copper betel case, 1, from Lucknow, exhibited by Panna Lal, 11 annas 1 pie, *sale*, maker same as exhibitor.
- Copper betel-leaf case, 1, from Lucknow, exhibited by Panna Lal, 12 annas, *sale*, maker same as exhibitor.
- Copper *besan* jar with cover, from Lucknow, exhibited by Panna Lal, 12 annas, *sale*, maker same as exhibitor.
- Copper cup, from Lucknow, exhibited by Panna Lal, 6 annas, *sale*, maker same as exhibitor.
- Copper plates, 4, from Lucknow, exhibited by Panna Lal, at 5 annas, *sale*, maker same as exhibitor.
- Copper cooking pots, 4, from Lucknow, exhibited by Rajan, at Re. 1-5, *sale*, maker same as exhibitor.
- Copper dishes, 2 from Lucknow, exhibited by Rajan, Re. 1-10 to Rs. 2-10, *sale*, maker same as exhibitor.
- Copper frying-pan, 1, from Lucknow, exhibited by Rajan, Re. 1-11, *sale*, maker same as exhibitor.
- Copper basin (*task*), 2, from Lucknow, exhibited by Rajan, Rs. 2-11-2 to Rs. 3-5, *sale*, maker same as exhibitor.
- Copper cooking pots (*patel*), from Lucknow, exhibited by Rajan, 15 annas to Rs. 3-3, *sale*, maker same as exhibitor.
- Brass *lotas*, 2, from Lucknow, exhibited by Rajan, Re. 1-7 to Re. 1-12, *sale*, maker same as exhibitor.
- Brass candlestick, 1, from Lucknow, exhibited by Sahai, Rs. 3-5, *sale*, maker same as exhibitor.
- Brass betel-case, 1, from Lucknow, exhibited by Sahai, Rs. 4-15, *sale*, maker same as exhibitor.
- Brass *hukka* bottom, 1, from Lucknow, exhibited by Sahai, Re. 1-5, *sale*, maker same as exhibitor.
- Phul* (bell-metal) spittoon, 1, from Lucknow, exhibited by Sahai, Rs. 21-4, *sale*, maker same as exhibitor.
- Phul pakha* bottom, 1, from Lucknow, exhibited by Sahai, Rs. 2-11, *sale*, maker same as exhibitor.
- Copper cooking pot, 1, from Lucknow, exhibited by Sahai, Re. 1-2, *sale*, maker same as exhibitor.
- Copper betel case, 2, from Lucknow, exhibited by Sahai, Re. 1-14 to Rs. 2-11, *sale*, maker same as exhibitor.

- Copper boxes (*dabbi*), 20, from Lucknow, exhibited by Sahai, 4 annas to 7 annas, *sale*, maker same as exhibitor.
- Copper cups (small), 10, from Lucknow, exhibited by Sahai, 6 annas to 7 annas, *sale*, maker same as exhibitor.
- Copper cooking spoons, 2, from Lucknow, exhibited by Sahai, at 8 annas.
- Copper cooking spoons, small, 2, from Lucknow, exhibited by Sahai, at 8 annas, *sale*, maker same as exhibitor.
- Copper tea-spoons, 2, from Lucknow, exhibited by Sahai, at 2 annas, *sale*, maker same as exhibitor.
- Copper frying-pan, 4, from Lucknow, exhibited by Sahai, Rs. 2-7 to Rs. 3-9, *sale*, maker same as exhibitor.
- Phul* (bell-metal) box round, 1, from Lucknow, exhibited by Sahai, Re. 1-1 to Rs. 4-4, *sale*, maker same as exhibitor.
- Iron bits, 4 sets, from Lucknow, exhibited by Lalta, Re. 1-1 to Rs. 4-4, *sale*, maker same as exhibitor.
- Phul* (bell-metal) platters, 4, from Lucknow, exhibited by Nanhey Mall, Yahia-ganj, Rs. 2 to Rs. 2-6, *sale*, maker same as exhibitor.
- Mixed metal *lota*, 4, from Lucknow, exhibited by Nanhey Mall, Yahia-ganj, Rs. 2 to Rs. 2-6, *sale*, maker same as exhibitor.
- Copper *lota*, 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 5-5, *sale*, makers same as exhibitors.
- Copper betel case, 2, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 6-6 to Rs. 7-7, *sale*, makers same as exhibitors.
- Copper agan (dish), 1, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 6-6, *sale*, makers same as exhibitors.
- Copper plate, large, 3, from Lucknow, exhibited by Makhan Lal, Narain Das, at Rs. 2-2, *sale*, makers same as exhibitors.
- Copper plate, 2 dozens, from Lucknow, exhibited by Makhan Lal, Narain Das, at Rs. 19-2-2 per dozen, *sale*, makers same as exhibitors.
- Copper plate, 10, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 10-0-10, *sale*, makers same as exhibitors.
- Copper *lagan*, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 6-6, *sale*, makers same as exhibitors.
- Copper *lota*, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 10-10, *sale*, makers same as exhibitors.
- Copper tray, from Lucknow, exhibited by Makhan Lal, Narain Das, Rs. 31-14, *sale*, makers same as exhibitors.
- Brass spear, 2, from Lucknow, exhibited by Municipal Committee, at Rs. 4-13, *sale*, maker Sundar Lal.
- * Country oil lamp (*shamadan*), from Jhānsi (Mau), exhibited by District Committee, Rs. 4-4, *purchased*, maker Panchi Tamira of Mau.
- † Country chandelier, from Jhānsi (Mau), exhibited by District Committee, Rs. 13-7, *purchased*, maker Panchi Tamira of Mau.
- ‡ Urn-shaped cups, 2, from Jhānsi (Mau), exhibited by District Committee, Rs. 5-9, *purchased*, maker Salli of Kharon.
- ‡ Urn-shaped cups, small, 2, from Jhānsi (Mau), exhibited by District Committee, Rs. 2-10-6, *purchased*, maker Salli of Kharon.
- ‡ Goblet, small, from Jhānsi (Mau), exhibited by District Committee, As. 15, *purchased*, maker Salli of Kharon.
- ‡ *Ghanti*, brass vessel, small, from Jhānsi (Mau), exhibited by District Committee, Re. 1-5-6, *purchased*, maker Salli of Kharon.
- ‡ *Lota*, large, from Jhānsi (Mau), exhibited by District Committee, Rs. 3-5, *purchased*, maker Salli of Kharon.
- ‡ *Lota* (ganga-jamni), brass ornamented with copper inlaid, from Jhānsi (Mau), exhibited by District Committee, Rs. 3-7-6, *purchased*, maker Shalli of Kharon.

* With single burner for seven wicks ; peculiar to this place and much prized by the natives.

† With 14 branches and burners and one on the main stem, and each burner with room for 7 wicks ; peculiar to Mau and much prized by the natives.

‡ Made of bell-metal. The alloy is supposed to resist the action of acid.

- Bell, from Jhansi (Mau), exhibited by District Committee, As. 13, *purchased*, maker Gungadhar of Mau.
- * *Patwaris'* inkstands, 2, from Jhansi (Mau), exhibited by District Committee, Rs. 11-12, *purchased*, maker Salli of Kharon.
- † Ornaments for cart bullocks, 2 sets, from Jhansi (Mau), exhibited by District Committee, Rs. 4-12-6, *purchased*, maker Debi Sonar of Mau.
- ‡ *Ganj-ka-dol*, containing 21 cooking utensils, viz., 1 *dol*, 1 *bhagona*, 2 *rikabis*, 2 *katoras*, 2 *thalis*, 1 *degchi* and cover, 1 *lota*, 1 glass, 1 *chakla*, 1 *belan*, 1 *tawa*, 1 *chalni*, 1 *chamcha*, 1 *sandasi*, 1 *chinta*, and 2 *taslas*, from Aligarh, exhibited by Municipal Committee, Rs. 22-3, *sale*, maker Sitaram of Atrauli.
- § Cups with covers, 2, from Sultanpur, exhibited by Raja Muhammad Ali Khan, talukdar of Hasanpur, *loan*, maker Gattar, brazier of Bandhna.
- § Small jugs, 2, from Sultanpur, exhibited by Raja Muhammad Ali Khan, talukdar of Hasanpur, *loan*, maker Binda, brazier of Bandhna.
- § Cup with cover, from Sultanpur, exhibited by Raja Muhammad Ali Khan, talukdar of Hasanpur, *loan*, maker Binda, brazier of Bandhna.
- § Cup with cover and tray, from Sultanpur, exhibited by Raja Muhammad Ali Khan, talukdar of Hasanpur, *loan*, maker Binda, brazier of Bandhna.
- § Brass basin with cover and tray, from Sultanpur, exhibited by Raja Muhammad Ali Khan, talukdar of Hasanpur, *loan*, maker Binda, brazier of Bandhna.

CLASS XXVII.—CLOCKS, WATCHES, AND THEIR ACCESSORIES.

- || Astronomical clock, from Benares, exhibited by His Highness the Mahārāja of Benares, *loan*, maker Babu Mulchand, in the service of His Highness the Mahārāja of Benares.

* With figures of Garur. This shape seems to be also used in Madras.

† Made of bell-metal; used by natives at times of festival.

‡ The workmanship of the whole is excellent, and great ingenuity is shown in fitting the whole together, so as to be completely portable and self-containing.

§ These vessels of sharp, well-defined, and artistic outline are made of "sansatais," a much prized alloy, which sells at Rs. 4 a seer.

|| By order of Mahārāja Dhirājā Kāshināresa, Bahādur, this clock was made by Mulchand, clock-maker, in the year 1872 A.D. It is an instrument which with a little trouble gives a great deal of information. Men of science will fully appreciate its advantages, while all will derive benefit from the information it gives. Those who only see its exterior cannot so well appreciate the perfect mechanism of the clock as those who examine and *understand* the variety of information it gives.

The different motions of the sun can be explained only by means of the telescope and other astronomical instruments. With the aid of this clock the computation of years, months, days, minutes, &c., can be easily made, which otherwise would involve an immense amount of labour, and many intricate calculations.

The hour and exact time of sunrise for every day of the year will be known from the letters placed on the side of the clock, showing the rising of the sun. There is a portion of the instrument which indicates days of the week, with the forms of the signs of the zodiac and their names. From this part of the instrument four different facts are made manifest, viz., the day of the week, the forms of the signs of the zodiac, the *muhūrta* and planetary hours.

There is an index-hand, one of the fingers of which points out the number of hours and minutes of the day already expired, and a blue star above the hand points to the exact time of the day. The hours are divided by lines into 4 parts of 15 minutes each, and in the same place the hours of the day according to the native mode are also shown, in which 24 minutes are equal to the *ghati*.

There is a circle in the middle in which the figures of the signs of the zodiac are given. The sun passes over this circle in a year. From the movements of a black needle which passes over this circle, the ascendant or the horoscope and *navans*, &c. This needle passes over the circle in 24 hours. The lines after the signs of the zodiac, to which the needle points, represent the *navansa*, or a 9th part of a sign or 30 degrees.

The names of the signs of the zodiac are written over them, and the 12 signs are divided into three parts, according to their three different properties—moveable, fixed, and common.

The motions above explained are all produced by different parts of the machinery of the clock, which also strikes the hours, half-hours, and quarters. It is wound up once in eight days. The clock is made with reference to the latitude, longitude, and elevation of the city of Benares. (Kindly furnished by Rāja Siva Prasad, C.S.I.)

CLASS XXIX.—BASKETWARE.

- Basket of *sink*, from Pilibhít, exhibited by District Committee, Re. 1, *sale*, makers Native women of Pilibhít.
- Covered baskets of *sink* (small), from Pilibhít, exhibited by District Committee, Re. 1, *sale*, makers Native women of Pilibhít.
- * Tiffin-basket, from Bareilly, exhibited by Superintendent, Central Prison, Rs. 15, *sale*, Prison labour.
- * Tiffin-basket, from Bareilly, exhibited by Superintendent, Central Prison, Rs. 14-14, *sale*, Prison labour.
- † Basket, small, from Rámpur State, exhibited by His Highness the Nawab of Rámpur, As. 4, *sale*.
- † Basket, large, 5, from Rámpur State, exhibited by His Highness the Nawab of Rámpur, Re. 1-14, *sale*.
- * Tiffin-basket, 1, from Meerut, exhibited by Superintendent, Central Prison, Rs. 13-8, *sale*, Prison labour.
- A small basket, from Sultanpur (Oudh), exhibited by Raja Muhammad Ali Khan, *loan*, maker unknown.
- Small baskets, 2, from Bahraich (Oudh), exhibited by Sirdar Jagot Singh, *loan*, makers Village women of Bahraich.
- ‡ Wicker baskets adorned with shells, 4, from Gonda (Oudh), exhibited by District Committee, not priced presentation, makers village women of Bahraich.

CLASS XXXI.—DECORATIVE WORK, INCLUDING CARVING AND ARTWARE.

- Reading desk, from Pilibhít, exhibited by District Committee, Rs. 8, *sale*, maker Midai Lal.
- Papier maché inkstand, from Muzaffarnagar, exhibited by Tahsildar of Jansath, Rs. 8, *sale*, maker Ahmad Baksh, painter of Jansath.
- Carved inlaid box, from Meerut, exhibited by District Committee, *loan*, maker Muhammad Jan of Meerut.
- A pair of shisham wood doors with carved borders, the panel inlaid with brass wire (*tarkashi*), from Bulandshahr, exhibited by F. S. Growse, Esq., C.I.E., Rs. 250, *loan*, maker, Chokhe Lal and Kanhai Lal, carpenters of Mainpuri, assisted by other carpenters of the Bulandshahr district.
- § A pair of carved shisham wood doors, from Bulandshahr, exhibited by F. S. Growse, Esq., C.I.E., Rs. 120 *loan*, makers Chokhe Lal and Kanhai Lal, carpenters of Mainpuri, assisted by other carpenters of the Bulandshahr district.
- A wall-bracket, carved and inlaid with brass wire, from Bulandshahr, exhibited by F. S. Growse, Esq., C.I.E., Rs. 135, *loan*, makers Chokhe Lal and Kanhai Lal, carpenters of Mainpuri, assisted by other carpenters of the Bulandshahr district.
- A model of a temple, carved and inlaid with brass wire, from Bulandshahr, exhibited by F. S. Growse, Esq., C.I.E., Rs. 200, *loan*, makers Chokhe Lal and Kanhai Lal, carpenters of Mainpuri, assisted by other carpenters of the Bulandshahr district.
- A round table of carved shisham wood, from Bulandshahr, exhibited by Kunwar Faiyaz Ali, *Rais* of Pahasu, Bulandshahr, Rs. 35, *loan*, maker Karim Baksh of Shikarpur.
- Artificial flowers, from Aligarh, exhibited by Municipality, Rs. 15, *sale*, maker Miss A. M. Bachman, resident of Aligarh.

* In sample room.

† Made at Bilaspur, in the Rampur State.

‡ Worked by aborigines of the Oudh Forests.

§ Made under the direction of the exhibitor. Both pairs are intended for the new Bulandshahr Town Hall, which is being built at the cost of Raja Bakir Ali Khan, C.I.E., of Pindrawal.

- * Over mantelpiece, from Aligarh, exhibited by Municipality, *loan*, maker Ishri carpenter of Atrauli.
- Drawing-room table, from Aligarh, exhibited by Municipality, *loan*, maker Tara-chand carpenter of village Bhakra, tahsil Koel, district Aligarh.
- Specimen of wood-carving, from Aligarh, exhibited by Municipality, maker Tara-chand, carpenter of village Bhakra, tahsil Koel, district Aligarh.
- Painted box, from Budaun, exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Rs. 9-1, *sale*, maker Karamat Kamamngar, resident of Budaun city.
- Painted box, from Budaun exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Rs. 6-1, *sale*, maker Azim-ullah.
- Painted box, from Budaun, exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Rs. 3-2, *sale*, maker Karamatullah.
- Painted box, from Budaun, exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Re. 1-14, *sale*, maker Karamatullah.
- Painted box, from Budaun, exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Re. 1-4, *sale*, maker Karamatullah.
- Painted paper-made box (*pitari*), from Budaun exhibited by Kazi Habi Hosen, *kais* of Budaun, Member, District Committee, Re. 0-15, *sale*, maker Karamatullah.
- Wooden spoons, 16, and wooden forks, 11, from Budaun exhibited by Shaik Sharf-ud-in, Honorary Magistrate, Budaun, Rs. 5, *sale*, maker Najju Khan, resident of Budaun.
- † Wooden spoons, small, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 31-14, *sale*, maker Nirotam.
- † Pen and ink holder, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 10-10, *sale*, maker Nirotam.
- † Pen and ink holder, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 3-3, *sale*, maker Nirotam.
- † Pen and ink holder, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 10-10, *sale*, maker Nirotam.
- † Small octagonal box, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 17, *sale*, maker Nirotam.
- † Small box, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 5-5, *sale*, maker Nirotam.
- † Small box of six sides, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 12-4, *sale*, maker Nirotam.
- Bookstand, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 8-8, *sale*, maker Nirotam.
- † Plate, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 8-8, *sale*, maker Nirotam.
- Plate, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 21-4, *sale*, maker Nirotam.
- Plate, from Mainpuri, exhibited by Nirotam, carpenter of Mainpuri, Rs. 17, *sale*, maker Nirotam.
- † Small octagonal box, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs. 31-14, *sale*, maker Tejju.
- † Small box, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs. 18-1, *sale*, maker Tejju.
- † Inkstand, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs. 3-3, *sale*, maker Tejju.
- † Plate, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs. 13-13, *sale*, maker Tejju.

* Copy of one side of the car in which the image of Parasnath is carried during the religious festivals held by the Jains in Kurja, district Bulandshahr.

† The art consists of inlaying dark shisham wood with brass wire in designs extremely complex and very artistic. A large quantity has been exported to Europe of late years. The art is largely indebted to Mr. Growse, C.I.E., for its recent development. The sandals, which are fitted with ivory lotus flowers, held between the toes, that open and shut by a spring, according to the movements of the feet, are the articles most in demand.

-
- * Plate, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs 11-11, *sale*, maker Tejju.
 - * Plate, from Mainpuri, exhibited by Tejju, carpenter of Mainpuri, Rs. 9-9, *sale*, maker Tejju.

-

* The art consists of inlaying dark shisham wood with brass wire in designs extremely complex and very artistic. A large quantity has been exported to Europe of late years. The art is largely indebted to Mr. Growse, C.I.E., for its recent development. The sandals which are fitted with ivory lotus flowers, held between the toes, that open and shut by a spring according to the movements of the feet, are the articles most in demand.

- Plate, from Mainpuri, exhibited by Durga Mistri of Mainpuri, Rs. 47-13, *sale*, Mathuri, carpenter.
- Oval tray, from Mainpuri, exhibited by Durga Mistri of Mainpuri, Rs. 37-3-9, *sale*, maker Durga Mistri.

* This art, which has been largely developed of late years, dates from about 200 years ago and is supposed to have been introduced from Multan. The designs are carved in relief in flowers and foliage, and the work is applied to decorate a great variety of articles, as is apparent from this catalogue. Some of the ware is mounted in silver, and in other cases inlaid with silver, ivory and mother of pearl.

 Papier-maché teapots, 2, from Rampur State, exhibited by His Highness the Nāwab of Rampur, Rs. 120, *sale*, makers Agha Mohammad Hosain and Gholam Rasul.
 † Plates (carved white wood), from Sahāranpur, exhibited by Municipal Committee, Rs. 3-8, *sale*, maker Azim Hosain.
 † Plate, from Sahāranpur, exhibited by Municipal Committee, Rs. 2-8, *sale*, maker Abdulla.
 † Picture-frame, from Sahāranpur, exhibited by Municipal Committee, Re. 1-8, *sale*, maker Abdulla.
 † Frame for 3 pictures, from Sahāranpur, exhibited by Municipal Committee, Rs. 2-8, *sale*, maker Tasudduk Hossain.
 † Spoon, from Sahāranpur, exhibited by Municipal Committee, Re. 1, *sale*, maker Ata Husen.
 † Plate, from Sahāranpur, exhibited by Municipal Committee, Rs. 2-8, *sale*, maker Ata Husen.
 † Large picture-frame, from Sahāranpur, exhibited by Municipal Committee, Rs. 6, *sale*, maker Ata Husen.
 † Plank of shisham wood, engraved with words, from Sahāranpur, exhibited by Municipal Committee, Rs. 4, *sale*, maker Ata Husen.
 † Carved almirah, from Sahāranpur, exhibited by Municipal Committee, Rs. 15, *sale*, maker Gholam Murtiza.
 † Carved almirah, from Sahāranpur, exhibited by Municipal Committee, Rs. 4, *sale*, maker Gholam Murtiza.
 † Carved box, from Sahāranpur, exhibited by Municipal Committee, Rs. 15, *sale*, maker Gholam Murtiza.
 † Carved doorway with upper story, from Sahāranpur, exhibited by Munshi Gokulehand of Ambatta, Rs. 75, *sale*, maker Rahim-ulla.
 † Wooden carved door-way with doors, from Sahāranpur, exhibited by Municipal Committee, Rs. 450, *sale*, maker Bansī carpenter of Sahāranpur.
 § *Itrdan*, from Farukhabad, exhibited by Municipal Committee, Rs. 25, *sale*, Designed by Mr. Jasper Nicholls and executed by Messrs. Emam Baksh & Co. of Fatehgarh.
 || Carved doorway, from Farukhabad, exhibited by Municipal Committee, Rs. 125, *sale*, maker Seth Janki Das, Sadh.
 Carved sideboard with stand, from Farukhabad, exhibited by Babu Durga Parshad of Farukhabad, Rs. 300, *sale*, maker Parma carpenter, Farukhabad.

* These articles are prepared in the Jaunpur Government papier-maché factory, which is under the charge of the Collector of the district. There are three boys in the factory at present who were taught by a Kashmiri painter.

† This ware is produced chiefly to suit European tastes. The soft white wood used is procured from the neighbouring forests. But for European support, there would be little demand.

‡ The best shisham wood has been used and the work has been executed under the orders of a sub-committee composed of Lala Nehal Chand, Lala Mitra-Sen, and Munshi Nur Muhammad Ashan, by Bansī carpenter, with the assistance of five and sometimes six carpenters. The whole work was finished within a period of four months at an approximate cost of Rs. 400. (This is the doorway forming the entrance to the North-Western Provinces and Oudh Court).

§ Revolving, the stand having three tiers of arched pigeon-holes.

|| A handsome carved doorway with five painted arches, and brass rods for hanging curtains.

Paper-cuttings, from Farukhabad, exhibited by Lala Sri Kishan Lal, *loan*, maker Mirza Nur Beg, Farukhabad.

A wooden box inlaid with wire, from Etah, exhibited by Raja Shankar Singh of Etah, *loan*.

† Ivory sedan chair (tanjam), from Benares, exhibited by His Highness the Maharaja of Benares, *loan*.

† Ivory howdah, from Benares, exhibited by His Highness the Maharaja of Benares, *loan*.

CLASS XXXII.—CARPETS, HANGINGS, TAPESTRY, FURNITURE STUFFS; MATTING, PAPER HANGINGS.

Carpet, 1, from Bareilly, exhibited by Municipal Committee, Bareilly, Rs. 13-8, *sale*, maker Bahadur Ali.

Cotton rug, 1st quality, 1, from Bareilly, exhibited by Municipal Committee, Bareilly, Rs. 14, *sale*, maker Bahadur Ali.

* The trade is carried on at Khairadi tola, in the suburbs of Agra, where about 20 men are engaged in it. The wood used is mango, of which there is a plentiful supply in the district. The wood is first worked into the required shape, and then it is dyed with shell-lac. Then it is engraved, after which a coating of white-lead is laid over it. All the requisite materials are procurable in the Agra market. Up to the present time there has been no export trade of this lacquer work, but it has a considerable local sale, more especially to Europeans. The estimated profit is about 20 per cent., and the wages paid to the workmen are five annas per day. At present only Muhammadans are employed in this trade, which dates from 1880. Plain lacquering, however, has long been a trade in Agra.

† These are full-sized articles of furniture in carved ivory, of very great beauty and fine workmanship.

- Cotton rug, 2nd quality, 1, from Bareilly, exhibited by Municipal Committee, Bareilly, Rs. 10, *sale*, Bahadur Ali.
- Cotton rug, 1, from Bareilly, exhibited by Superintendent, Central Prison, Bareilly, Rs. 19-8-3, *sale*, maker Jail labour.
- Cotton rug, 1, from Bareilly, exhibited by Superintendent, Central Prison, Bareilly, Rs. 15-8-6, *sale*, maker Jail labour.

- † Counterpanes, 6, from Fatehpur, exhibited by Anwar Khan, Taparganj, Rs. 27-10 *purchased*, maker not known.
- † Floor-cloths, 3, from Fatehpur, exhibited by Anwar Khan, Taparganj, Rs. 31-14, *purchased*, maker not known.
- † Printed ceiling-cloth for *shamiana*, from Fatehpur, exhibited by Anwar Khan, Taparganj, Rs. 60, *purchased*, maker not known.
- ‡ Felt rug (*namda*), worked in colors, from Bahraich, exhibited by Dabari Lal, care of Deputy Commissioner, Bahraich, Rs. 6-6, *sale*, maker not known.
- Carpet, small, 4, from Jhānsi, exhibited by District Committee, Jhānsi, Rs. 32, *purchased*, maker Khaju, carpet manufacturer.
- Carpet, large, 2, from Jhānsi, exhibited by District Committee, Jhānsi, Rs. 160, *purchased*, maker Khaju, carpet manufacturer.
- § Baib matting, 2 pieces, from Shāhjahānpur, exhibited by District Committee, Shāhjahānpur, Rs. 2-2, *purchased*, maker Wafati and Husen Bakhsh of city Shāhjahānpur.

* In these carpets the work is of cotton and the woof and pile of wool. The trade, which was for some time depressed, appears now to be reviving, and large orders have recently been executed for America. Prices are moderate, and many of the patterns are very artistic.

† The floor-cloths of Fatehpur, and the *shamiana* especially, have been exceedingly admired, and have come in a manner as a surprise, Fatehpur never having apparently competed at former exhibitions.

‡ A woollen manufacture similar to and introduced from Mirzapur, but very distinct as to patterns.

§ This matting is made of baib, a grass found along the banks of the Sarda river, near the foot of the hills. It is dried and brought into Shāhjahānpur and there made into matting. The fibre is not as usual twisted into string: it is simply plated together. (Sample Room).

* An art which has sprung up of late years, and seems flourishing. *

† This carpet has from 100 to 144 threads to the square inch. The wool used is the common country wool. The work done per day was about 4 inches, six weavers and a reader being employed.

† This carpet contains 100 threads to the square inch. Wool common country. Three inches a day work done. Six weavers and a reader employed.

§ This carpet is made from very fine soft wool obtained from Lahore. The number of threads in a square inch is 225. The particular point about it is, that it has a cotton backing which is woven in at the same time as the wool. This will ensure the carpet lasting, as on the wooden floors the constant friction wears away the loop of the woollen thread, and accounts for the complaints that the Indian carpets do not wear well, the woollen nap brushing out. This is the first carpet of the class manufactured. The amount of work done was two inches a day, six weavers and a reader being employed.

|| This stair carpet has also 81 threads to the square inch. It has also cotton for the backing as in the fine carpet referred to above.

¶ This carpet is made in a similar way to the woollen ones. The cotton is dyed with native dyes. Work about 3 inches a day is done, five weavers and a reader being employed.

** This is sent as a sample. Aloe fibre is a very strong and lasting fibre, and ought to be well adapted for stair carpeting.

†† These rugs are all 81 threads to the square inch, which is the common quality mostly made.

†† This is a pattern of very fine work: 25 threads being contained in one inch, 625 in the square inch.

§§ These rugs contain but two colors in combination. Four men did four inches a day.

||| A percentage is charged on account of profits in the case of articles supplied to Government or to wholesale dealers. This may ordinarily be fixed at 10 per cent. on the cost of raw material and labour, for sales to retail dealers at 15 per cent. on that cost, and for sales to private individuals 25 per cent.

This may ordinarily be fixed at 10 per cent. on the cost of raw material and labour, for sales to retail dealers at 15 per cent. on that cost, and for sales to private individuals 25 per cent.

† These are the same quality as Nos. 29905-10.

‡ Six men were employed on this *dari*. The work done was four inches a day.

§ These are all country patterns. They are made at the rate of 18 inches a day, two men being employed.

|| This is a new pattern of *pardah*. It will not be so liable to blow about as the common ones.

¶ The material used is the common country munj beaten out by mallets, spun and woven. Seven feet a day is fair work.

** These mats are made by first plaiting the munj and then sewing it together. One man makes a mat in a day.

†† This mat is made out of the fibre of the common country aloe-fibre beaten out with mallets by prisoners. They make about 3 feet in a day. Dye used, indigo.

‡‡ These are made with a long nap similar to the woollen carpets. Aloe-fibre takes any dye most beautifully.

§§ These are made similar to above, but in one color.

- Old Persian carpet, centre of camel's hair ground, 16' x 13', from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 335, *sale*, maker Jail labour.

* The original, of which this carpet is an exact copy, has been in the Jaipur family for over a hundred and fifty years. It was brought to India by one of the early Afghan invaders of Hindustan, and was probably woven at Herat in the early or middle part of the eighteenth century, when Herati carpets were much sought after by the princes and noblemen of the Moghul court, then in its full splendour. This carpet was, with many other valuable gifts, presented by the Moghul Emperor Mahomed Shah to Rajah Jai Singh (who founded the city of Jaipur, making it his capital in lieu of his ancestral city of Amber). It was a reward for having built the celebrated *Jantar-Mantar*, or Royal astronomical observatory, at Delhi in A.D. 1730, which this eminent Indian astronomer, whose family is believed to be descended from KUSHA, the eldest son of the Hindu demigod RAMA, designed and completed for the Emperor in that year.

The original carpet, of which only a slip now remains, measuring some 20 feet by 12 feet, is woven from the finest *Pushm* wool, very similar to that employed in the celebrated Kashmir shawls, with a cotton foundation of twelve threads to the inch.

The design of the border is entirely and purely Persian, consisting, as it does, of alternate medallions and flowers, with a fish on opposite sides. The design of the centre is evidently a mingling of the Afghan with the Persian and Arabic, as is shown by the geometrical outlines filled in with medallions and floral ornamentation. These are so beautifully and harmoniously intermixed that there is no clashing of style; in fact, so cleverly and neatly are the three classes of design intermingled, that only a person thoroughly acquainted with the local peculiarities which, in ancient times, distinguished the patterns of one country from another could detect or separate them. The colors in the original carpet are purely Persian, and are as bright and as beautiful in tone to-day as they were when the carpet was first woven; the tints are, perhaps, a little mellowed by time, but this takes nothing from, on the contrary it rather adds to, their beauty. The deep red groundwork of the centre and dark green of the large border, as also the deep blue-green of the centre leaflets and flowers in the original, possesses a lustre making the wool forming the pile look, to the un instructed eye, like silk. This is partly due to the description of wool used and partly to the ancient method of dyeing.

The medallions in the centre of the carpet, with their connecting geometrical links, leaflets and flowers, are, so far as design and harmony of color are concerned, the most beautiful of any which I have yet seen.

In the carpet now exhibited, and which was woven in the AGRA CENTRAL PRISON by the best weavers, the design has been most accurately reproduced; while the different colors, which blend together so harmoniously (and which have been so much admired by every one who visited the jail while it was on the loom), have been accurately copied, great care having been taken to reproduce the exact shades employed in the original carpet.

The best wool procurable, machine-spun and dyed with fast colors, has been employed in the formation of the pile, while the *warp* or foundation, which consist of twenty threads to the inch, is made of fine, machine-spun Nagpur cotton; in fact, no expense and trouble of supervision have been spared to render this copy as nearly as possible equal to the original.

In weaving ordinary quality carpets, each weaver can with ease weave 72 square inches per day of eight hours; while, with much difficulty, in the carpet now exhibited, each man could get through but 12 square inches, so closely and compactly has each line been beaten home. So well has this been done that the geometrical outlines appear almost as distinct as if drawn on paper with pencil and compass." (By Dr. J. Tyler, Superintendent, Central Jail, Agra.)

(a) For direction as to dyeing of wool for carpet, see page 85 *infra*.

-

* Carpets made by the nomad tribes of western Kurdistan are worked generally in a kind of underground hut. The ground having been excavated to a sufficient depth to afford space for the occupants and shelter from the weather, a small incline, or a flight of clumsy steps gives access to the dwelling. Two beams are then introduced and the work carried on by the women of the family.

It is matter for reflection that many of the carpets which are found to add to the dignity and beauty of the palaces of Europe were made by people whose primitive habits of life were at variance with those of civilized nations, and who needed no schools of art, nor expensive educational process, to stimulate their imagination and direct their art instincts. Underlying this extraordinary intuition in oriental people is a problem difficult of solution. Whether their aptitudes arise from psychological peculiarities, or are due to their religious beliefs, to social characteristics, or to all combined, there can be no doubt that in the particular development of human industry which we are considering, these people remain now, as they have been in all historic times, unrivalled. All civilized nations have admired their productions. The Greeks and Romans shared in admiration of oriental art manufactures, and the finest European designs of the Renaissance were founded on inspirations drawn from the East. In the manufacture of carpets, although all are made on one general plan, certain peculiarities mark each country and each district. For example, in some places the foundation upon which the pile is woven is of cotton; in others, of wool; and in others, again, silk is used. In Kurdistan the foundation is usually of wool, and the pile of goats' hair or camels' hair. Great differences exist in the quality of these materials in different places. The wool of the sheep, as is well known, changes its character according as the habit of the animal is a warm, a cold, or a temperate climate. In Kurdistan and in Khorassan the wool is extremely soft, and in some parts very lustrous. This is due in part to the breed of the sheep, and in part to the pasturage on which they are nourished. Here whole tracts of country are such as Warburton describes in his morning ride after sunrise, when the hoofs of his horse crushed the odour from the carpet of flowers. In many places, also, the fleeces are of varied shades of color, deepening to actual brown and black, and are used in the designs in their natural condition without dyeing, like the ground of the present illustration. This is a circumstance of some technical importance, never as yet, so far as I am aware, much noticed." (*Vincent Robinson's work on Eastern Carpets.*)

- * Carpet, Sarakhs, 15' x 12', from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 500, *sale*, maker Jail labour.
 Carpet No. 3, 10½' x 8', 1, from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 225, *sale*, maker Jail labour.

* Sarakhs on the Attrek, and within the Turcoman frontier, was the source of magnificent carpets, but owing to the famines it has long since ceased to be a centre of production.

The accompanying plate, from a mosque carpet made in this district, shows the design grandly arranged with one centre medallion, terminating in crescent-shaped forms with angle medallions filled with beautiful arabesques. Such carpets were occasionally woven with the design spaced out in compartments, as if for three devotees to prostrate themselves side by side: but the present outline is not unusual, being found on covers of copies of the Koran and, occasionally, in the decoration of stuffs. The color here adopted is, however, unique. The magnificent tawny yellow, with which the greater part of the surface is overspread as with cloud like streaks of a golden sunset, it has been found impossible to produce correctly in the illustration. How this was obtained in the original carpet is uncertain. Skilful dyers have professed themselves unable to procure a like result by any methods now practised in Europe. Either Persian berry or Ipreck may have been the coloring matter used, but alone they would hardly have given the tawny shade, slightly inclining to red, with which the yellow is suffused. Possibly this was produced with kermes and some such mordants as tartar and salts of tin.

The dye stuffs and methods of dyeing used by the Orientals have been the subject of curiosity and admiration to Europeans for centuries. Northern countries appear always to have been at disadvantage in respect not only of a certain inaptitude in harmonising colours in their designs, but also, in comparison with Eastern dyers, in the quality of tone and in the durability of their dyes. The dyer in Europe appears to be too much of a chemist and too little of an artist for the result of his work, however clever and praiseworthy in itself, to be perfectly satisfactory from an art point of view.

The inventive genius of modern chemists has in reality worked the destruction of many of the finest colors applied to textiles, and in all probability is destined to efface utterly many more traditions which were founded in Eastern countries of centuries of sympathetic and continuous observation drawn from natural sources.

The laboratory of the chemist is not the school in which to learn artistic refinements of color. Accordingly we find that the aniline dyes, which are rapidly displacing all others throughout the world, are debasing the finer sense of color everywhere. The discovery of aniline, which arose, not out of a search after the beautiful, but as a result of a distinct branch of scientific inquiry, has the great advantage of appealing to the cupidity of the manufacturer for the reason that it is a cheaper material. This it is which makes its final triumph certain, and the complete disappearance of the older more beautiful and durable dyes only a question of time.

Kermes, one of the dyes used in the mosque carpet here illustrated, was one of the most important ever employed, the best reds being dyed with it until far into the seventeenth century. Known in the East in the time of Moses, it was used in India for silk-dyeing from time immemorial, and remained the most valued dye-stuff for reds until superseded, after the conquest of Mexico by Cortez in A.D. 1518, by cochineal, when the latter gradually took its place owing to its comparative cheapness. This recommendation proved a sufficient temptation then, as it always has done in the history of manufactures, for supplanting more beautiful and more durable materials, if only to be obtained at greater cost. In kermes the durability of the dye, as compared with cochineal, is probably due to the astringent vegetable matter or juice of the oak on which the insect feeds.

The color only attains its full lustre after exposure to the sun's rays. The quality of the water used is known to have a great influence in dyeing operations, and it seems reasonable to suppose that where sunlight and heat play so important a part, natural climatic advantages must be on the side of the oriental dyers.

In the middle ages kermes was in general use all over Europe. The rural serfs in Germany were bound to deliver annually to the convents a certain quantity of it, and a great deal was used in Venice for the red to which that city gave its name. It was used in Poland, whence came one of the carpets illustrated in this book, where kermes was found on the roots of the Scheran thus Perennis in the Ukraine; whilst its employment by the Turks, Cossacks, and Armenians is well authenticated. The Greek and Roman dyers used it. Pliny speaks of it as coccigramum. The Spaniards paid a great part of their tribute to Rome with the grains, which were used in their purple dyes; and Plutarch relates as an instance of the durability of this purple or red that some material dyed with it was 190 years old in his day and yet had lost none of its brilliancy. More recently, Hellot speaks of the red in the draperies of the figures in old Flemish tapestries dyed with kermes as having lasted 200 years, with scarcely any loss of their original tone.

In brief, kermes, which has always been employed by the greatest dyers, is now quite superseded by other and inferior materials. In the carpets illustrated in the present work all the reds are nearly as brilliant as when they were first dyed. Where is the red now made in Europe of which the same is likely to be said two centuries hence?" (*Vincent Robinson's work on Eastern Carpets.*)

* Carpet, Baghdad, 8'4" x 6', 1, from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 300, *loan*, maker Jail labour.

† Carpet, Shiraz, 8' 3" x 6', from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 300, *loan*, maker Jail labour.

Jai Namaz (prayer rug), from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 54, *sale*, maker Jail labour.

* This is one of the most interesting carpets now existing, not merely as a specimen of manufacture full of technical peculiarities, but for the combination of Persian, Mongolian, and Arab features in its design.

In order to trace the strange admixture of these elements in Baghdad work it is necessary to go back to the middle of the thirteenth century, when the city was taken and the Caliphate abolished by Hulaku the Tartar. The influence of the Tartars and Mongols seems to have been strong from that time, throughout all the disasters of Baghdad, until the end of the fourteenth century, when Tamerlane removed the artists and scholars from the cities he captured to Samarcand, and thus spread Arab and Persian ideas and tastes in Tartary, whence again a corresponding reflex of feeling turned to the places he conquered. Baghdad, twice visited by him, was much exposed to Mongolian influences. Subsequently the Persians held possession of the city at different times, and it had a great reputation in the middle ages for fabrics in which representations of animals and birds were introduced, as well as for those in which gold and silver thread were interwoven. Marco Polo mentions that in his day Baghdad was the seat of such manufactures, "richly wrought with figures of birds, beasts, &c." In all these were the lingering traditions of the old Babylonian work to which references are made in the Bible, and again in Josephus (gorgeous with lifelike designs from the Babylonian loom).

The mingling of animal forms had originally a mystic significance. Thus the bird worked so beautifully into this carpet is the *Roc*, or *Angka*, of the Arabs, symbolising power and light. This creature is represented as struggling with the evil spirit, or darkness, in the form of an alligator or dragon (the Mongolian or Chinese dragon.) These are some of the details which the Arabs got from their Tartar conquerors, and we have in this specimen a further and very curious mixture of Persian with Arab ideas in the way in which the cartouches are arranged with floral ornament twisted grotesquely so as to fill the interspaces. In treatment the general feeling of the design, and particularly of the border, is Arabian.

Baghdad, like Mashad, Karman, and Herat, was peculiarly happy in its geographical position, affording, as it did, facilities for obtaining the raw materials necessary for silk and woollen manufactures. Placed on the banks of a great navigable river, only about 300 miles from the Persian Gulf, and in direct communication by caravan with Syria and Persia, the famed capital of the Caliph Haroun-al-Raschid was for centuries a great *entrepôt* between East and West. In the plains, at no great distance from the city were large fertile tracts producing the best kinds of wool, camels' and goats hair and silk were abundant, as were also kermes, pomegranate, and other dye-stuffs.

There was a lavish use of silk in Baghdad work as in that of Herat, and this is well shown in the example illustrated, of which the foundation is formed entirely of that material. Very fine wool is used for the pile, but in certain parts, namely in the outline of the design, which is very minute, silk is introduced with considerable judgment, so as to give a more sparkling local effect." (*Vincent Robinson's work on Eastern Carpets.*)

† In Shiraz, the capital of Fars, or Persia proper, were made some of the most interesting of Persian carpets. Natural as well as artificial peculiarities led to the celebrity which this manufacture attained. The city, situated about 4,500 feet above the level of the sea, was beautifully surrounded with rich and fertile environs supporting flocks of sheep producing the finest wool. It was long the residence of the rulers of Persia, under the dynasty of the Abbasides, sharing this distinction with Ispahan. One of its most conspicuous manufactures, that of carpets, continued until the town was nearly destroyed by an earthquake in 1850. Since these carpets, used to sit upon and to pray upon, were either made for the ruler himself, or for presents to distinguished persons, there was every incentive to the production of fine specimens, and such works as the one here illustrated were the result of patient labour and of keen appreciation of the beautiful, innate as well as cultivated, in the weavers. They may now be regarded in the same category as the tapestries of Europe made during the middle ages and the period of the Renaissance. Both were costly in production, and only fitted for the highest uses to which such fabrics could be put. The one here copied is a fine example of the Persian and Mongol styles contending, yet harmonizing, with each other. The Mongolian element in Persian designs was introduced after the fall of the Salghar dynasty in 1261, when, although the title of Atabeg remained, the province of Fars was really under Mongolian administration.

An ordinary prayer rug, such as is at this day in common use in Mahomedan countries, scarcely offers, excepting in the method employed in weaving it, any point of resemblance to the rug illustrated. The materials of the latter are not the same, while the design and coloring give a never fading interest, which neither time nor familiarity diminish." (*Vincent Robinson's work on Eastern Carpets.*)

- Dari*, Maltese pattern, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 62, *sale*, maker Jail labour.
- Dari*, Ionic pattern, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 62, *sale*, maker Jail labour.
- Dari*, fancy pattern, 8'9" × 6', from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 20, *sale*, maker Jail labour.
- Dari*, fancy pattern, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 25, *sale*, maker Jail labour.
- Dari*, fancy pattern, 8'9" × 6', from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 66, *sale*, maker Jail labour.
- Dari*, fancy pattern, 2, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 50, *sale*, maker Jail labour.
- Dari*, fancy pattern, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 60, *sale*, maker Jail labour.
- Munj matting, diamond pattern, 50' × 4', from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 30, *sale*, maker Jail labour.
- Munj plan, 50' × 4, from Agra, exhibited by Superintendent, Central Jail, Agra, Rs. 15, *sale*, maker Jail labour.
- * Prayer rug, blue and white, from Agra, exhibited by Municipal Committee, Rs. 6, *sale*, maker not given.
- * Prayer rug, betel-leaf pattern, from Agra, exhibited by Municipal Committee, Agra, Rs. 2, *sale*, maker not given.
- * Prayer rug, blue and red with a tree in the centre, from Agra, Municipal Committee, Agra, Rs. 2, *sale*, maker not given.
- Dari* with red, yellow, and blue stripes, from Agra, exhibited by Municipal Committee, Agra, Rs. 25, *sale*, maker not given.
- Dari* with blue and white stripes, and red flowers, from Agra, exhibited by Municipal Committee, Agra, Rs. 8, *sale*, maker not given.
- Dari* with gold thread, from Agra, exhibited by Municipal Committee, Agra, Rs. 13, *sale*, maker not given.
- Dari* with white and blue stripes, from Agra, exhibited by Municipal Committee, Agra, Rs. 4, *sale*, maker not given.
- Dari* with red, blue, and yellow stripes, from Agra, exhibited by Municipal Committee, Agra, Rs. 5, *sale*, maker not given.
- Dari*, flowered, from Agra, exhibited by Municipal Committee, Agra, Rs. 12, *sale*, maker not given.
- † 14 samples of floor-cloth, from Agra, exhibited by Municipal Committee, Agra, Rs. 2, *sale*, maker not given.
- Dari*, flowered, from Agra, exhibited by Municipal Committee, Agra, 7 yards, *sale*, maker not given.
- ‡ Cushions, embroidered, from Agra, exhibited by Municipal Committee, Agra, Rs. 90, *sale*, maker Lala Peary Lal.
- A woollen carpet made in the Rámpur State Jail, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, not known, *loan*, maker Jail labour.

* *Daris* are manufactured at Lohamandi, Nayabasti, and Fatehpur Sikri, and the trade gives employment to about 2,000 persons. A bed *dari* is sold at from 12 annas to Rs. 20 each. Thread for manufacture is procured from local markets. The *daris* are exported in great quantities all over India, and people visiting Agra buy numbers. The average profit is about 5 per cent., and the wages earned by the workmen are about 12 annas 6 pie per diem. The trade is in the hands of the Mahomedans and is increasing steadily.

† The Agra floor-cloths are well known. The cloth used is the ordinary coarse garha, which is manufactured to a great extent in the city. It is stamped by a particular caste of Hindus called Chipis, of whom there are about 2,000 in one *mohalla*. There is an inexhaustible variety of patterns, and every year fresh dyes are invented and utilized in this trade. The usual price is Rs. 2 per than of 7 yards × 1 yard. The trade is flourishing.

‡ This is a sample of the Agra embroidery work. There is not a very large trade in this article. Such articles are only made to order and the trade is falling off.

- * A pair of chicks of *sirki*, bound with red border, from Farukhabad, exhibited by Mr. G. J. Nicholls, Collector, Farukhabad, Rs. 7, *sale*, maker Jail labour.
- Carpet (Kalin), from Moradabad, exhibited by Sub-Committee, Moradabad, Rs. 120, *sale*, maker Niaz Ali of Amroha.
- Woollen carpets, from Basti, exhibited by District Jail, Rs. 19-7-1, *sale*, maker Jail labour.
- Woollen carpets, from Basti, exhibited by District Jail, Rs. 19-7-1, *sale*, maker Jail labour.
- Woollen carpets, from Basti, exhibited by District Jail, Rs. 5-15-9, *sale*, maker Jail labour.
- Woollen carpets, from Basti, exhibited by District Jail, Rs. 23-3, *sale*, maker Jail labour.
- Woollen carpets, 14' x 20", from Allahabad, exhibited by District Jail, Rs. 375, *sale*, maker Jail labour.
- Woollen carpets, black, 10' x 14', from Allahabad, exhibited by District Jail, Rs. 233, *sale*, maker Jail labour.
- Cotton rug, 4' x 7', from Allahabad, exhibited by District Jail, Rs. 24, *sale*, maker Jail labour.
- Cotton rug, 4' x 7', from Allahabad, exhibited by District Jail, Rs. 40, *sale*, maker Jail labour.
- Cotton *dari*, 12' x 24', from Allahabad, exhibited by District Jail, Rs. 50, *sale*, maker Jail labour.

* These chicks, lined with printed calicoes from Kanauj, illustrate an effective house decoration.

Directions for dyeing Wool for Carpets, Agra Central Prison.

1. *Black (kala)* is boiled in a solution of *hurra* (nutgalls) and *kassis* (sulphate of iron), then washed several times and dried in the sun.
 2. *White (safaid)* is steeped in ritha or soapnut for 12 hours, then washed next morning and dried in the sun.
 3. *Dark blue (gari abi)* is made by steeping wool for 12 hours in a solution of *chuna* (lime), it is then washed several times in clean water, dried in sun, and boiled in a solution of *murata* (sulphindrylic acid), which is prepared with *nil* (indigo) and *tezab* (sulphuric acid); this, when ready, is washed in cold water, then in *phitkiri* (alum) solution, and dried in the sun.
 4. *Blue (abi)* is prepared in the same manner with a lesser quantity of *muraba*.
 5. *Light blue (asmani or ferozi)* is prepared in the same way with a lesser quantity of *muraba*.
 6. *Dark green (gari sabz)* is prepared by steeping in lime, washing and drying; when ready it is steeped and pressed in *haldi* (turmeric) for 12 hours; it is then boiled in solution of *muraba* and washed in *phitkiri* (alum).
 7. *Green (sabz)* is prepared in the same way with a lesser quantity of *haldi* and *muraba* and washed in *phitkiri* (alum).
 8. *Light green (dhani)* is likewise prepared in the same way with a still smaller proportion of *haldi* and *muraba*, and washed in *phitkiri* (alum).
 9. *Yellow (zardah)* is made by steeping wool in *chuna* (lime), then washing and drying in sun; when clean it is pressed for 12 hours in *haldi* (turmeric); when it has obtained the proper color it is washed in a saturated solution of *phitkiri* (alum) and dried in the sun.
 10. *Dark red (surkh)* is prepared by pressing wool for 12 hours in *ritha*, then washing and drying; when ready it is boiled in a solution of lac and *tazab* (acid) and *rang* (tiu); it is then cooled, washed several times, and lastly dried.
 11. *Red (gulshan)* is prepared by the same way with weaker solution of lac or *karimdana*.
 12. *Pink (gulabi)* is prepared in the same way with a still weaker solution of dye.
 13. *Orange (basanti)* is prepared by washing the wool in *ritha*, then drying; when ready, it is steeped and pressed in *dhat phul* (the flower of *Butea frondosa*) for three days; then it is washed in a solution of *phitkiri* (alum), and lastly boiled in *lodh*.
 14. *Cream (malai)* is prepared by bleaching the wool thoroughly; when ready, it is steeped in *pili mutti* and pressed for 12 hours; then it is washed several times in boiling milk and exposed to the sun.
 15. *Violet (lakhi or kakrezi)* is prepared by steeping wool in *chuna* (lime) for 12 hours, bleaching next day; when ready, it is boiled in a solution of *karimdana* (lac and *tazab*) acid; it is then washed in *phitkiri* and dried.
- The above are the principal colors, prepared from indigenous dyes, free from aniline, and in the usual native method.

- Cotton *dari*, flowered, 8'×12', from Allahabad, exhibited by District Jail, Rs. 50, *sale*, maker Jail labour.
- Cotton *dari*, small, 4'×7' each, 2, from Allahabad, exhibited by District Jail, Rs. 10, *sale*, maker Jail labour.
- Dari* pattern, 2'×1', from Allahabad, exhibited by District Jail, Rs. 4, *sale*, maker Jail labour.
- Pardahs*, 5'×6', 3, from Allahabad, exhibited by District Jail, Rs. 18-12, *sale*, maker Jail labour.
- Pardahs*, 3'×3', 3, from Allahabad, exhibited by District Jail, Rs. 5-10, *sale*, maker Jail labour.
- Pardahs*, 3'×10', from Allahabad, exhibited by District Jail, Rs. 6-4-4, *sale*, maker Jail labour.
- Munj'mat, 2×1, from Allahabad, exhibited by District Jail, annas 12, *sale*, maker Jail labour.

CLASS XXXIII.—MARBLE AND ALABASTER.

- * 1 large round table with ornamental edges, inlaid, from Agra, exhibited by Agra Municipality, Rs. 600, *sale*.
- 1 round table, grape leaf, from Agra, exhibited by Sada Sukh Lal, Rs. 800, *sale*.
- 1 round table, with flowers, from Agra, exhibited by Sada Sukh Lal, Rs. 300, *sale*.
- 1 table, oblong, from Agra, exhibited by Shaikh Chand, Rs. 150, *sale*.
- 1 round table, from Agra, exhibited by Nathu Ram, Rs. 118, *sale*.
- 1 large round table, with grape leaf, from Agra, exhibited by Agra Municipality, Rs. 600, *sale*.
- 1 writing desk, from Agra, exhibited by Agra Municipality, Rs. 35, *sale*.
- 1 flower vase, from Agra, exhibited by Agra Municipality, Rs. 225, *sale*.
- 1 box, parrot pattern, from Agra, exhibited by Agra Municipality, Rs. 60, *sale*.
- 1 box, parrot pattern, from Agra, exhibited by Sada Sukh Lal, Rs. 25, *sale*.
- 1 box, taj pattern, from Agra, exhibited by Agra Municipality, Rs. 30, *sale*.
- 1 box, taj pattern, from Agra exhibited by Agra Municipality, Rs. 30, *sale*.
- 2 boxes, plain with butterfly, from Agra, exhibited by Agra Municipality, Rs. 50, *sale*.
- 1 box, with a bird on it, from Agra, exhibited by Nathu Ram, Rs. 20, *sale*.
- 1 box, with 2 butterflies, from Agra, exhibited by Nathu Ram, Rs. 25, *sale*.
- 1 box, with a bird on it, from Agra, exhibited by Nathu Ram, Rs. 20, *sale*.
- 1 box, with 2 butterflies, from Agra, exhibited by Nathu Ram, Rs. 15, *sale*.
- 1 box, ornamented edge, from Agra, exhibited by Sewa Ram, Rs. 100, *sale*.
- 1 box, round, from Agra, exhibited by Sewa Ram, Rs. 40, *sale*.
- † 1 box, with butterfly, from Agra, exhibited by Sewa Ram, Rs. 20, *sale*.
- 1 large box, oval, from Agra, exhibited by Sewa Ram, Rs. 75-9-9, *sale*.
- † 1 small box, oval, from Agra, exhibited by Sewa Ram, Rs. 20, *sale*.
- 1 box, oval, from Agra, exhibited by Sewa Ram, Rs. 20, *sale*.

* The manufacture of inlaid marble ware is carried on in the mohullas of Gokulpura, Tajganj, and Partappura, and gives occupation to about 125 men. The materials used are imported from the following places :—

White marble from Makrana in Jodhpur.
 Black marble from Bhensrana in Jajpur.
 Yellow marble from Jaisalmer (Khutla).
 Blood-stone (*litonia*) from the Bombay Presidency.
 Cornelian (*akik*) from Cambay.
 Lapis-lazuli (*lay ward*) from Ceylon.
 Malachite (*dhani frang*) from Afghanistan.

† Jasper (*katuk*) from Gwalior.

‡ Agate (*ghori*) from Jubulpore.

- 1 box, oval, from Agra, exhibited by Sewa Ram, Rs. 35, *sale*.
 2 boxes, oval, from Agra, exhibited by Sewa Ram, Rs. 40, *sale*.
 † 1 box, jasmine, from Agra, exhibited by Sewa Ram, Rs. 12, *sale*.
 1 box, jasmine, from Agra, exhibited by Sewa Ram, Rs. 10, *sale*.
 2 paper-weights, from Agra, exhibited by Agra Municipality, Rs. 15, *sale*.
 2 plates, oval, from Agra, exhibited by Agra Municipality, Rs. 100, *sale*.
 2 plates, round, from Agra, exhibited by Agra Municipality, Rs. 80, *sale*.
 1 plate, from Agra, exhibited by Agra Municipality, Rs. 60, *sale*.
 1 butter-plate, from Agra, exhibited by Agra Municipality, Rs. 3, *sale*.
 1 chess-plate, from Agra, exhibited by Sada Sukh Lal, Rs. 110, *sale*.
 1 round plate, large, from Agra, exhibited by Sada Sukh Lal, Rs. 25, *sale*.
 1 round plate, small, from Agra, exhibited by Sada Sukh Lal, Rs. 15, *sale*.
 1 round plate, oval parrot pattern, from Agra, exhibited by Sada Sukh Lal, Rs. 28, *sale*.
 1 plate, round, from Agra, exhibited by Sadasukh Lal, Rs. 5, *sale*.
 1 plate, round, from Agra, exhibited by Shaik Chand, Rs. 25, *sale*.
 1 chess-plate, from Agra, exhibited by Nathu Ram, Rs. 100, *sale*.
 1 chess-plate, from Agra, exhibited by Nathu Ram, Rs. 125, *sale*.
 1 round plate with parrots, from Agra, exhibited by Nathu Ram, Rs. 48, *sale*.
 1 plate with ornamental edge, from Agra, exhibited by Nathu Ram, Rs. 55, *sale*.
 1 plate with parrots, from Agra, exhibited by Nathu Ram, Rs. 40, *sale*.
 2 plates with ornamental edge, from Agra, exhibited by Nathu Ram, Rs. 50, *sale*.
 1 plate with ornamental edge, from Agra, exhibited by Nathu Ram, Rs. 20, *sale*.
 1 plate with ornamental edge, from Agra, exhibited by Nathu Ram, Rs. 16, *sale*.
 1 round marble plate, from Agra, exhibited by Sewa Ram, Rs. 600, *sale*.
 1 butter-pot, from Agra, exhibited by Sewa Ram, Rs. 50, *sale*.
 1 chess-plate, from Agra, exhibited by Sewa Ram, Rs. 200, *sale*.
 1 round plate, from Agra, exhibited by Sewa Ram, Rs. 50, *sale*.
 1 round plate, from Agra, exhibited by Sewa Ram, Rs. 40, *sale*.
 1 round plate, with 2 parrots, from Agra, exhibited by Sewa Ram, Rs. 40, *sale*.
 1 round plate, from Agra, exhibited by Sewa Ram, Rs. 30, *sale*.
 3 round plate, from Agra, exhibited by Sewa Ram, Rs. 60, *sale*.
 1 plate, small, from Agra, exhibited by Sewa Ram, Rs. 10, *sale*.
 1 plate with ornamental edge, from Agra, exhibited by Sewa Ram, Rs. 70, *sale*.
 1 plate with ornamental edge, from Agra, exhibited by Sewa Ram, Rs. 60, *sale*.
 2 plates with ornamental edge, small, from Agra, exhibited by Sewa Ram, Rs. 60, *sale*.
 1 plate with ornamental edge, small, from Agra, exhibited by Sewa Ram, Rs. 15, *sale*.
 4 paper knives, from Agra, exhibited by Agra Municipality, Rs. 16, *sale*.
 1 inkstand, from Agra, exhibited by Nathu Ram, Rs. 150, *sale*.
 1 inkstand, oval, from Agra, exhibited by Sewa Ram, Rs. 125, *sale*.
 1 inkstand, oblong, from Agra, exhibited by Sewa Ram, Rs. 200, *sale*.
 1 box with grape leaf and ornamental edge, from Agra, exhibited by Agra Municipality, Rs. 50, *sale*.
 3 paper-weights, oval, from Agra, exhibited by Nathu Ram, Rs. 15, *sale*.
 1 paper-weight, from Agra, exhibited by Nathu Ram, Rs. 3, *sale*.
 1 paper-weight, from Agra, exhibited by Nathu Ram, Rs. 4, *sale*.
 2 paper-weights, from Agra, exhibited by Sewa Ram, Rs. 40, *sale*.
 1 *atish-khana*, from Agra, exhibited by Sewa Ram, Rs. 800, *sale*.
 1 model Taj, from Agra, exhibited by Sewa Ram, Rs. 400, *sale*.
 1 model alabaster, from Agra, exhibited by Shunker Lal, Rs. 175, *sale*.

* Porphyry (*samak* from Cabul).

† The manufactured articles are sold at Agra in retail, and the average profit is about 20 per cent. The wages of the workmen are from 8 to 12 annas per day. Both Hindus and Mahomedans are employed in the work. The trade dates from the reign of Akbar, and is on the increase.

CLASS XXXIV.—BRONZES, ORNAMENTAL WORK IN GOLD, SILVER, AND OTHER METALS.

- Brass lamps, 2, from Gorakhpur, exhibited by Municipal Committee, Rs. 16, *sale*, maker Sukh Ram.
- Brass candelabrum with 12 branches for oil burners, 2, from Gorakhpur, exhibited by Municipal Committee, Rs. 50, *sale*, maker Lalman.
- Scent phial of silver, 2, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 5-4, *purchased*, maker Batu Sonar of Mandha, district Hamirpur.
- Silver fish (small), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 2-14, *purchased*, maker Mehndi Sonar.
- Silver fish (small), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 2-14, *purchased*, maker Mehndi Sonar.
- Silver fish (small), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 4, *purchased*, maker Masua Sonar.
- Image of Vishnu (*ashtdhat*), from Hamirpur exhibited by Government, N.-W. P. and Oudh, Rs. 2, *purchased*, maker Bhagwan Das Sonar of Srinagar.
- Image of Krishna, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 16, *purchased*, maker Brindaban Sonar of Srinagar.
- Stand for Krishna, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 2-8, *purchased*, maker Brindaban Sonar of Srinagar.
- Image of Rada with *kamal* and *charanchauki*, from Hamirpur, exhibited by Government N.-W. P. and Oudh, Rs. 2-10, *purchased*, maker Nanhey Bharia of Srinagar.
- Image of Ramchandra, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 4-12, *purchased*, maker Kishan Sonar of Srinagar.
- Image of Sita, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 5, *purchased*, maker Kishan Sonar of Srinagar.
- Image of Balmukand (Krishna), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Re. 0-13, *purchased*, Kishan Sonar of Srinagar.
- Image of Balmukand (ash dhat), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Rs. 4-12, *purchased*, maker Gangā Charia of Srinagar.
- Image of Balmukand (brass), from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Re. 3-8, *purchased*, maker Hira Lal of Srinagar.
- Bell, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Re. 0-4-6, *purchased*, maker Nanhey Bharia of Srinagar.
- Incense-burner, from Hamirpur, exhibited by Government, N.-W. P. and Oudh, Re. 0-3, *purchased*, maker Nanhey Bharia of Srinagar.
- Atar-holder, from Jhansi, exhibited by District Committee, Rs. 43-6-3, *purchased*, maker Parmoby Panigar, Jhansi.
- A gold and silver-gilt betel case with net-work, from Rampur State, exhibited by His Highness the Nawáb of Rampur, Rs. 40 *purchased*, maker Yakub Ali Khan.
- * A gold and silver-gilt hukka with network, from Rampur State, exhibited by His Highness the Nawáb of Rampur, Rs. 30, *purchased*, maker Yakub Ali Khan.
- Betel case, gilt with gold, with 2 keys, from Rampur State, exhibited by His Highness the Nawáb of Rampur, loan Yakub Khan, in the service of the Nawáb.
- Hukka with (*ghungru*) bells, bidri, from Rampur State, exhibited by His Highness the Nawáb of Rampur, loan.
- † Hukka with stand, bidri, from Rampur State, exhibited by His Highness the Nawáb of Rampur, loan.
- Betel case of silver, with plate, from Rampur State, exhibited by His Highness the Nawáb of Rampur, loan.

* The net-work can be taken off by unscrewing.

† Bidri work made at Lucknow.

- * Flower vase, silver gilt, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, Rs. 8, *sale*, Nand Ram, Rámpur.
- * Betel case, silver gilt, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, Rs. 20, *loan*, Nand Ram, Rámpur.
- * Atar holder, silver gilt, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, Rs. 3, *sale*, Nand Ram, Rámpur.
- Silver cup, from Saháranpur, Sirdar Tija Singh, Inspector of Police, Saháranpur, *loan*, maker not known.
- Silver fish, Saháranpur, exhibited by Babu Nand Lal, Revenue Superintendent, Collector's office, *loan*, maker not known.
- Silver rose, from Saháranpur, exhibited by Babu Nand Lal, Revenue Superintendent, Collector's office, *loan*, Rama Nand, son of Makhan goldsmith of Deoband.
- † Silver fish, from Saháranpur, exhibited by Municipal Committee, Deoband, Rs. 15, *loan*.
- † Silver bed, from Benares, exhibited by Goshain Bihari, Puri, *loan*.
- † Tent with ante-chamber, with four silver props, from Benares, exhibited by Sakhi Binayak, Benares, *loan*.
- ‡ Swing with bells, from Benares, exhibited by Municipal Committee, Rs. 50-8, *sale*.
- Image of Gangaji on a crocodile, from Benares, exhibited by Makundi, Re. 1-8, *sale*.
- Image of Annapurna, from Benares, exhibited by Makundi, annas 12, *sale*.
- A horse on wheels, from Benares, exhibited by Makundi, Re. 1-4, *sale*.
- Ditto of Vishnu with arms bearing a shank, chakra, gada and kamal, from Benares, exhibited by Bachu and Makundi, Rs. 4, *sale*.
- A brass box with three partitions, and keys attached to each, from Benares, exhibited by Bachu, Rs. 14-12, *sale*.
- A round box with key, used for keeping ornaments, from Benares, exhibited by Bachu, Re. 1-8-9, *sale*.
- Pándán, from Benares, exhibited by Bachu, Rs. 3-11, *sale*.
- Pancha ghanta, five bells in one handle, used for worship, from Benares, exhibited by Bachu, Rs. 5-4, *sale*.
- Arti (large lamp for 71 lights), from Benares, exhibited by Bachu, Rs. 21, *sale*.
- Two oxen with kamal (lotus), with a water-vessel overhead, from Benares, exhibited by Kashinath and Bachu, Rs. 10, *sale*.
- Brass elephant, from Benares, exhibited by Bachu, Re. 1-12, *sale*.
- Brass horse, from Benares, exhibited by Bachu, Re. 1-6, *sale*.
- Brass censer with five lights, from Benares, exhibited by Ram Charn, annas 12, *sale*.
- An octagonal perforated box to keep ornaments, from Benares, exhibited by Jainarain, Rs. 2, *sale*.
- A small box with notches, from Benares, exhibited by Husnu Kasíra, Re. 1-10, *sale*.
- Gauraiya (Indian pipe), from Benares, exhibited by Husnu Kasíra, Rs. 10, *sale*.
- A box with key (perforated), from Benares, exhibited by Sital Parshad and Matadin, Rs. 12-4, *sale*.
- Chauki, from Benares, exhibited by Bani Pershad and Matadin, Rs. 4, *sale*.
- 4 legs for a bedstead, from Benares, exhibited by Beni Pershad and Matadin, Rs. 6-4, *sale*.

- Raised *hukka* bottom, from Lucknow, exhibited by Bullan Beg, Pul Golam Hosain, Rs. 11-2, *sale*, maker same as exhibitor.

* Bidri work, or as it is here called "raised" and "set" silver work, was no doubt introduced to Lucknow from Bider in the Deccan, but the style of the Lucknow work differs now very much from that of Bider. The metal used is an alloy of copper, lead, and tin, the surface of which is blackened by immersion in a mixture of sal ammoniac, saltpetre, salt, and blue vitriol. In the raised work, or "*zarband*" as it is called, the surface of the metal is diversified with raised patterns, which are then covered with silver leaf; in the set or bidri proper thin silver leaf is damascened into the metal.

The exhibitors where articles are for sale are also the makers who have been helped in having their expenses paid by the Lucknow Municipality.

- Raised *hukka* bottom, from Lucknow, exhibited by Bullan Beg, Pul Golam Hosain, Rs. 10-10, *sale*, maker same as exhibitor.

- Thick rope, white, from Agra, exhibited by Seth Lachman Das, Rs. 8-8, *sale*.

* Cheap ornaments of bell-metal and tin are made in great quantities in Rajamandi and Maltola in Agra. They are exported to the adjoining villages and districts, but the greatest sales are made at the numerous fairs which take place in the city and its neighbourhood. The ornaments are manufactured by Hindus, who form a close trade union. The female figure shows how the ornaments are worn.

† In Economic Court.

‡ Muttra is celebrated for its ropes. They are made of cotton or of silk, or of both, and are famous for being exceptionally strong and good. They are used for all sorts of domestic purposes. About 150 men are engaged in the manufacture, and their profits are estimated at 6 per cent. The usual wages to the workmen are from 2 to 3 annas per day; women also are employed in making the lighter kinds of rope and string.

Cages, 2, from Agra exhibited by Municipal Committee, Rs. 4, *sale*.
 Nut-crackers, 2, from Agra, exhibited by Municipal Committee, Rs. 2-8, *sale*.

* A red dyed cloth, fast and durable. Mau is famous for its manufacture throughout India and exports largely.

† A coarse cloth woven in every village. Is dyed into *kharua* and printed into chintz.

‡ Fast colour and very durable. Used for making petticoats by lower classes.

§ Fast colour and very durable. By Kori classes. (Sample Room.)

|| (Sample Room.)

¶ The Rampur *khes* and *lungis* are not surpassed by any handiwork in India for their fine weaving and cotton. To work on silk is much easier, but it requires great art to make the embroidery on cotton so durable and soft. It is not so good as is done in Benares and Panjab, but it is proof against water and will stand any amount of washing and knocking up by the washermen. The embroidered specimens sent are not new, but have been used for several years, and are sent to show how they last and appear after being in use for some time.

- Handkerchief, small, 2 pieces, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, Rs. 3, *sale*, maker Shah Newaz, weaver, Rámpur State.

* The muslins and cloths of Tanda (Oudh) had a great sale while the Court of Oudh was still flourishing. * Evil times have since in various ways fallen on the weavers.

† Farukhabad and Lucknow are the principal seats of the hand-printing calico chintzes. The dyes used are all native and fast, and are stamped on to the cloth, which latter is mostly English. The variety in pattern appears endless. Few of the patterns are wanting in taste, and the bulk are most pleasing and artistic. The process is a lengthy and elaborate one; the cloth after each impression, and each colour is impressed separately, being sent to the *dhobi*, who fixes the color. The greater part of the year is occupied in the work and *freshly* printed cloths come into the market about October and at no other time. So far the trade not only holds its own against European work, but is said to be increasing.

- Counterpane, 5 pieces, from Farukhabad, exhibited by Municipal Committee, Rs. 10-10, *sale*, maker Girdhari.
- Counterpane, 3 pieces, from Farukhabad, exhibited by Municipal Committee, Rs. 6-12, *sale*, maker Salari.

* These cloths, particularly the 8-thread, are very strong and durable. (Sample Room.)

† (Sample Room.)

‡ This manufacture is carried on in Nai Mandi and Guzri Mansur, muhallas of Agra, and gives livelihood to more than 1,000 men. The thread is made at Agra. There is a considerable wholesale export trade and a large local-retail trade in it. The average profit is about 3 per cent. The wages earned by the workmen are about 2 annas a day. Both Hindus (Kolis) and Muhammadans (Julahas) are employed in it, and it has been carried on in Agra for centuries. The trade received a very great impetus by the opening of the railway.

CLASS XLIII.—MIXED FABRICS.

- † Satin, 2 pieces, from Azamgarh, exhibited by Government, North-Western Provinces and Oudh, Rs. 72-8, *purchased*, maker Shaikh Karim Baksh, Satin merchant, Azamgarh.

* The trade in silk cloths is carried on in muhalla Naya mandi in Agra, and about 300 men and women are employed in it. The average price of a piece of susi (striped cloth) is Rs. 10, and that of dariai 10 annas a yard. The silk is imported from the Punjab and Rampur Baulia. The cloth is exported all over India, as well as sold in retail, in great quantities. The average profit is about 5 per cent, and the wages of the workmen 3 annas a day. The trade is in the hands of the Muhammadans, and is declining on account of the competition with European article.

† The Azamgarh satinettes are of two kinds, called *sangi*, or *tasar* and cotton mixed, and *gutter*, or silk and cotton. The origin of the manufacture dates so far back as 1565 A.D. The ordinary country loom is used. The number of hands employed in weaving a piece is from 6 to 7. The value of the annual outturn is estimated at from 3 to 4 lakhs of rupees.

* Benares is the seat of the most important silk-weaving industry in the provinces, and its embroidered silks and brocades are world-famous. The brocades are woven of silk and silver or silver-gilt threads so displayed as to form patterns, the texture varying greatly, and the value of the fabric depending greatly on the amount of silver thread used. It is estimated that upwards of 2,750 workmen find employment at this beautiful art.

- Necklace (*chik*), from Benares, exhibited by Municipal Committee, Benares, Re. 1-4, *sale*.

* The trade in belts is carried on in Nehchabandan bázár in Agra, and gives employment to about 100 persons. The price varies from annas 2 to Rs. 10 each. The materials are procured from the local markets, except that silk is imported from the Panjab and Rampore Baulia. There a large wholesale export trade, much of which goes to Gwalior and Rájputána. The average profit is 4 per cent., and the wages of workmen is Re. 0-2-6 per day. The trade has been carried on for centuries, but is now falling off.

† This is an imitation of Panjáb work. Caps and small coats of this style are to be had ready-made at Agra.

‡ So called from its resemblance with the mouth of a cow, into which the worshipper puts his hand whilst muttering his prayers.

Sample of muslin work, from Benares, exhibited by Abdurrahim, weaver, *loan*, maker same as exhibitor.
 Quilted cloth, Kashmír made, from Farakhabad, exhibited by Pandit Lachhmi Náyan, *loan*.

* Lucknow *chikan*, or embroidered muslin, is a manufacture carried on principally by women and children at their homes. The muslin is specially manufactured at Lucknow for the purposes of this embroidery. The art was introduced from Bengal, but has grown into prominence since the Mutiny, and now gives employment to over 1,200 people, many of whom have seen better days. The work is in great demand.

† The manufacture, however, of which Lucknow is most noted is its gold embroidery, which is exported to every part of India. Silver is used, either plain or gilt, and is drawn out with extraordinary skill into gossamer threads and then flattened. *Gota* is a braid formed of silver threads interwoven with silk. *Salma* is a spiral, from portions of which *sitaris* or little stars are fashioned by hammering the rings of the spiral into one another. *Kala battun* is a twisted thread of silk and silver or silver-gilt wire. Lucknow materials for embroidery have lately found great favour on the Continent, where embroidery for church purposes is carried on.

- Waistcoat, green, from Agra, exhibited by Municipal Committee, Agra, Rs. 1-4, *sale*.

* This kind of work has been carried on in Agra from time immemorial. It gives employment to about 6,000 persons. The average price of gota is from Re. 1 to Rs. 2-8 per tola. Lace is sold from Rs. 2 to Rs. 15 per yard. Materials for the manufacture are purchased in the local markets, only silk being imported from Peshawar and Rámpur Baulia. There is a large wholesale export trade. The average profit is 6 per cent., and the wages of the workmen are 4 annas a day. Both Hindus and Muhammadans are employed in it, but the majority of the workmen are composed of the latter.

CLASS XLVII.—BOOTS, SHOES, AND SLIPPERS.

- * Shoes, 2 pairs, from Sahāranpur, exhibited by Municipal Committee, Sahāranpur, Rs. 2, *sale*, maker Azim-ud-din of Sahāranpur.

- 1 pair of shoes, plain, from Agra, exhibited by Municipal Committee, Agra, Rs. 3-8, *sale*, maker Midai Lal.

*(Sample Room).

† Inlaid with wire (*tarkashi*).

‡ Inlaid with wire.

§ The trade in shoes is carried on in the mohallas of Nakhasa, Kandhari, and Maithas, and gives employment to about 500 *chamars* (cobblers). The price of a plain pair of shoes is 12 annas, and that of embroidered work is as much as Rs. 10. There is not, however, a large sale of the more expensive kinds, as these are imported from Delhi, where they are sold cheaper because of the gold and silver being more or less alloyed. Unembroidered shoes are exported from Agra to different parts of India. The average profit is said to be about 3 per cent., and the wages of the workmen are about 2 annas a day. The *chamars* work up the leather part of the manufacture, while the embroidery is done by the Muhammadans. The trade is not flourishing. Among the exhibits will be found some shoes from Jalesar, in the Etah district, which are remarkable for their lightness combined with durability. This latter class of shoes is not to be had ready made. They are prepared to order.

- 1 pair of shoes, plain, from Agra, exhibited by Municipal Committee, Agra, Rs. 2, *sale*, maker Midai Lal.
- 1 pair of shoes, net work, from Agra, exhibited by Municipal Committee, Agra, Rs. 3-8, *sale*, maker Midai Lal.

- 1 cap, gold embroidered, from Benares, exhibited by Balbhadar Das, brocade merchant, Rs. 23, *sale*, maker same as exhibitor.

* Used by Bundelas, and is peculiar to this part of the country; worn by all classes in Bundelkhand.

† The cap-sellers of Agra have their shops in the Kinari and the Kashmiri bazars. The men work at their shops, and their women work at their houses. The caps are very commonly hawked about the streets and sarais, and the railway station. About 300 persons are said to pursue the trade. The average profit is about 5 per cent. The wages of the workmen are 2 annas per day, and both Hindus and Muhammadans carry on the trade, which is on the increase. The fashionable and popular shape is the round Bengali style, the *depalri* and *chaugochia* or high crown being nearly out of fashion. The sewing machine has been brought into use, and will, it is feared, injure those of the poorer classes who solely depend upon cap-making for livelihood.

- Caps, *pitāridār* 3, from Benares, exhibited by Haji Azim-ulla, Rs. 135, *sale*, maker same as exhibitor.
- Cap, *pitāridār*, 1, from Benares, exhibited by Haji Azim-ulla, Rs. 35, *sale*, maker same as exhibitor.

Hukka, purple color, from Agra, exhibited by Municipal Committee, Agra, Rs. 4, *sale*, maker not given.

SECTION F.—RAW PRODUCTS AND MANUFACTURES FROM PRODUCTS NOT INCLUDED IN OTHER SECTIONS.

CLASS LIII —MINERALS AND METALLURGIC PRODUCTS.

- † Iron stone, from Lalitpur, exhibited by District Committee, Lalitpur, price, not given, *purchased*.

* This kind of work is carried on in the Naichabandan Bazar, and gives employment to about 60 men. Naichas are sold from 4 annas to 10 rupees each and Painchwanis from Rs. 5 to Rs. 800. The materials for making such articles are procurable from the Agra market; Broj-patri (birch bark) being imported from Kashmir, silk from Peshawar and Rampur Baulia. These pipes are exported largely to Bengal. The average profit is 4 per cent., and the wages of the workmen employed are about 2½ annas a day. The trade, which is in the hands of the Muhammadans, is on the decline, and it is alleged that the increasing use of cigars and pipes among the natives of India, more especially of Bengal, has considerably injured it. There is a tradition that the trade was originated by one Janail Baghdadi many centuries ago, and even now prayers are offered for the welfare of his soul on the last Wednesday of the Muhammadan month Safar.

† From iron mines of mauza Solda in the south of the district. (For Sample Room!) *

CLASS LVI.—OILS.

- * Twenty specimens of oils, from Allahabad, exhibited by Superintendent, Central Jail, Allahabad, Rs. 6, *sale*, made by Jail labour.
- * One bottle of medicinal castor-oil, from Allahabad, exhibited by Superintendent, Central Jail, Allahabad, as. 8, *presentation*, made by Jail labour.

§ Sample Room.

|| The model is designed to show the Allahabad tiles. It represents a prison sleeping apartment.

- Tiles, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 25 per 100, *samples*, made by Jail labour.
- * Allahabad flat tiles, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 35 per 100, *samples*, made by Jail labour.
- * Allahabad half round tiles, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 15 per 100, *samples*, made by Jail labour.
- * Syrian tiles, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 25 per 100, *samples*, made by Jail labour.
- * Syrian tiles, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 25 per 100, *samples*, made by Jail labour.
- * Ordinary bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9 per 100, *samples*, made by Jail labour.
- * Cornice bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9 per 100, *samples*, made by Jail labour.
- * Arch bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9 per 100, *samples*, made by Jail labour.
- * Well bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 18 per 100, *samples*, made by Jail labour.
- * Roofing bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 14 per 100, *samples*, made by Jail labour.
- * Drain bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9 per 100, *samples*, made by Jail labour.
- * Lintel bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9-9 per 100, *samples*, made by Jail labour.
- * Hexagonal bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 18 per 100, *samples*, made by Jail labour.
- * Border bricks, from Bareilly, exhibited by Superintendent, Central Jail, Bareilly, Rs. 9 per 100, *samples*, made by Jail labour.
- † Screens 3' × 2½' × 1½' of white and red sandstone, 24, from Agra, exhibited by Municipal Committee, Agra, Rs. 480, *sale*, maker Shaikh Gullam.

CLASS LXXVI.—DYEING AND COLORING MATERIALS.

- * *Zangar* (verdigris), from Lucknow, exhibited by Muzaffar Husain, Rs. 2-2, *sale*, maker Muzaffar Husain.

CLASS LXXVIII.—TOBACCO.

- * Smoking tobacco, 3 kinds, from Lucknow, exhibited by Mahomad Abbas, Aminabad, Rs. 17-1, *sale*, maker Muhamad Abbas, Aminabad.

SECTION G.—MACHINERY AND IMPLEMENTS, MEANS OF TRANSPORT, APPLIANCES AND PROCESSES USED IN THE COMMON ARTS AND INDUSTRIES, INCLUDING MODELS AND DESIGNS.

CLASS XCII.—BLACKSMITH'S WORK, LOCKS, SAFES, &C.

Lock, from Budaun, exhibited by District Committee, Budaun, *loan*.

* Sample Room.

† This is one of the principal trades in Agra. It is not confined to any creed or caste, and about 2,000 men are known to be engaged in it. The stone comes from Tantpur in Agra and Rupbas in Bhartpur. The white stone of the Dholpur quarries is admirably adapted for this work, but it is so hard that the stone-cutters never use it. The variety of patterns is very great, but the most popular ones are those which are found in the marble screen-work of Fatehpur-Sikri, Etinad-ud-daula, and the Agra Fort. Workmen's wages are very high, being from 5 to 8 annas per day, and the profits are estimated at 12 per cent. The trade is increasing and the manufactures are exported to all parts of India. The average price ranges from Re. 1-8 to Rs. 3 per square foot, according to the pattern selected. The railway freight from Agra to Calcutta is Rs. 2-5 per maund.

(This screen work forms the frontage to the North-Western Provinces and Oudh Court.)

- Lock, from Gonda, exhibited by District Committee, Gonda, not priced, *sale*, maker Mangal Lohar of Dhanepur, Gonda.
 Lock, from Gonda, exhibited by District Committee, Gonda, *sale*, maker Mangal Lohar of Dhanepur, Gonda.
 Lock, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, *loan*, maker not given.
 * Fadlocks, in the form of a horse, from Sháhjahánpur, exhibited by District Committee, Sháhjahánpur, as. 8-6, *purchased*, maker Dahlu Lohar of Tilhar.
 † Padlock, large, from Sháhjahánpur, exhibited by District Committee, Sháhjahánpur, Re. 1-1, *purchased* maker Dahlu Lohar of Tilhar.

CLASS XCVII.—TOBACCO MANUFACTURE AND IMPLEMENTS USED IN THE CONSUMPTION THEREOF.

- Tobacco-cutter, from Lalitpur, exhibited by District Committee, Lalitpur, Rs. 2-11, *purchased*, maker Jhagru of Talbehat.
 Pipe accessories, from Lalitpur, exhibited by District Committee, Lalitpur, Re. 1-8, *purchased*, maker Jhagru of Talbehat.

CLASS XCVIII.—SPINNING AND WEAVING.

- ‡ Miniature model of loom and warp with carpet, from Allahabad, exhibited by Superintendent, Central Prison, Allahabad, *sale*.
 § Carpet loom, from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 40, *sale*.
 Spinning wheel, from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 5, *sale*.

CLASS CIII.—ELECTRO-PLATING.

- || Tea-pot, specimen of electro-plating, from Agra, exhibited by Sundar Lal & Co., Rs. 20, *sale*.
 A flask, from Agra, exhibited by Sundar Lal & Co., Rs. 16.
 Mustard-pot, from Agra, exhibited by Sundar Lal & Co., Rs. 5.
 Milk-jug, from Agra, exhibited by Sundar Lal & Co., Rs. 7.

CLASS CIX.—COTTON-PRINTING.

- ¶ Cotton-printing apparatus, from Agra, exhibited by Superintendent, Central Prison, Agra, Rs. 25, *sale*.
 Cotton-printing apparatus, from Farukhabad, exhibited by Municipal Committee, Farukhabad.

* The lock is opened by inserting the pin in front and by pushing out the tail.
 † The lock is opened by a pin and key. First push the upper portion of the lock in the direction indicated by the arrow: you will find a hole under it: put the pin into it and pass it downward and pull off the spring. When this is done, insert the key and turn it round from right to left.
 ‡ In the Economic Court.
 § To be seen in the centre aisle in full work.
 || This trade has only lately been started at Agra, and is progressing owing to the excellence of the work turned out by the firm of Messrs. Sundar Lal & Co.
 ¶ A native shop from Farukhabad constructed of wooden framework, painted; set up near the exit from the Economic Court, in which men show the work of cotton-printing daily.

SECTION H.—FOOD PRODUCTS.

CLASS CXXIV.—CONFECTIONERY.

- * Sugarcandy, almonds, from Lucknow, exhibited by Nabi Bakhsh, Bash Mandi, Rs. 5-3, *sale*, maker Nabi Bakhsh.
- * Sugarcandy, shells from Lucknow, exhibited by Kasim Ali, Rs. 6, *sale*, maker Kasim Ali.
- * Sugarcandy, *betel*, from Lucknow, exhibited by Kasim Ali, Rs. 4-4, *sale*, maker Kasim Ali.
- * Sugarcandy, *khirni*, from Lucknow, exhibited by Ikram Ali, Rs. 3-2, *sale*, maker Ikram Ali.

CLASS CXXV.—JAMS AND JELLIES.

- * *Petha* preserved, fishshaped, from Lucknow, exhibited by Nabi Bakhsh, Bash Mandi, Rs. 4-12, *sale*, maker Nabi Bakhsh.

- * Fruit chutney, from Lucknow, exhibited by Ikram Ali, Rs. 2-2, *sale*, maker Ikram Ali.
- * Naoratan chutney, from Lucknow, exhibited by Ikram Ali, Rs. 2-2, *sale*, maker Ikram Ali.
- * Pickle (*yamni*), from Lucknow, exhibited by Ikram Ali, Re. 1-3, *sale*, maker Ikram Ali.

SECTION I.—AGRICULTURE AND HORTICULTURE.

CLASS CXXXVII.—COLLECTION OF AGRICULTURAL PRODUCTS.

- † 19 specimens of rice, from Rámpur State, His Highness the Nawáb of Rámpur, *presentation*.

* Exhibited in the Economic Court.

† Placed in the Economic Court. Most of these samples are produced in the Taráí, but those sent to the Exhibition had been procured from Badridán, a town containing a population of 10,000 people, situated on the Naini Tal road about 14 miles from Moradabad, which is a great mart for rice. The enterprising Banjaras of this town buy almost three-fourths of the produce of rice in Taráí and Kumaun and within a radius of 100 miles, which they prepare and export to the Panjáb and Rajputana and the surrounding districts.

The Agricultural Department contributed large quantities of raw produce to the Economic Court.

CLASS CXL.—PROCESSES, IMPLEMENTS, AND MACHINES APPLIED TO AGRICULTURAL AND HORTICULTURAL PRODUCTS.

Wooden corn-mill, from Saháranpur, exhibited by Chajjumul of Nokim, Rs 8, *sale*, maker Sri Ram.

CLASS CXLI.—PROCESSES, IMPLEMENTS, AND MACHINES USED FOR IRRIGATION.

- ¹ Wooden Persian wheel, from Saháranpur, exhibited by Chajjumul of Nokim, Rs. 8, *sale*, maker Sri Ram.
- ¹ Wooden Persian wheel, from Saháranpur, exhibited by Chajjumul of Nokim, Rs. 10, *sale*, maker Sri Ram.
- ² Excavator for excavating or cleaning out wells, from Saháranpur, exhibited by C. C. Sullivan, Esq., Roorkee, *loan*.

SECTION K.—ETHNOLOGY, ARCHÆOLOGY, AND NATURAL HISTORY.

CLASS CXLV.—ARCHÆOLOGICAL COLLECTION.

Ancient Coins.

- ³ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁴ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁵ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁶ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁷ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁸ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ⁹ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ¹⁰ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ¹¹ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ¹² Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ¹³ Coin, from Farukhabad, exhibited by Pandit Lachman Narain, *loan*.
- ¹⁴ Coin, from Farukhabad, exhibited by Mr. G. J. Nicholls, late Collector, Farukhabad, *loan*.

¹ These were sent separate from the extensive series of models and implements exhibited by the Agricultural Department of the province.

² The power of this excavator adapts it to any class of sub-soil foundation, being equally capable of removing sands, clay, kankar, and gravel, however compact or at any depth below water. It can excavate under a well curb at a distance equal to about half the length of the scoop. It can be worked by one man only and by means of a single rope or chain. When the scoop is full, it ascends with the mouth uppermost. Excavators can be made on this principle of any size or capacity desirable. The present is well adapted for well-cleaning. For further particulars apply to C. C. Sullivan, Esq., Roorkee.

³ One goldmohur of Akbar's reign, H. 978.

⁴ One square rupee of Sultan Shah, H. 1020.

- ⁸ Incense burner (*dhupdan*), 2, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ⁹ Stand for shell (*shankha singhasan*), from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁰ Stands for gods to sit on (*singhasan*), 4, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹¹ Back of *singhasan*, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹² Chariot (*rath*), from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹³ Spittoons (*pikdan*), 2, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁴ *Lota* stand from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁵ Cover of box for holding food for the gods, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁶ Vessel used in worship (*panchpatri*), from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁷ Armlet (*baju*), 5, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁸ Plates for offering food to the gods, 2, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ¹⁹ Horoscope (*yantri*), from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ²⁰ Minor case (*darpan*), 2, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.

¹ Large one with copper tip, probably from Nepal. The medium-sized one Benares. Small one Tanjore, also other large one.

² Large one probably from Puri, Jagannath, Bengal; others probably from Benares, Panjab, or Tanjore.

³ From Nepal.

⁴ Largest supposed to have been made at Bida in Aurangabad; others probably from Panjab.

⁵ Used in Rājputana for sipping strong liquors out in small quantities.

⁶ Probably made in the Deccan.

⁷ " made in Pindi Bhetia or Pind Dadan Khan, Panjab.

⁸ Used in the worship of Mahadeva, probably made at Benares, Muttra, or Nadia.

⁹ Probably Benares; used for the shell to stand on in temples.

¹⁰ One with elephant engraved on it is from Nepal. Remainder probably from Nepal.

¹¹ From Benares.

¹² From Jeypur.

¹³ Probably from Pind Dadan Khan.

¹⁴ Fatehgarh.

¹⁵ From Nepal; made of five metals.

¹⁶ Round one, Kedar Kangan *baju*, worn by Nepali jogis.

Two flat ones Mahabir *baju*.

Two with rows of figures of Jagannath.

¹⁷ From Benares or Lucknow.

¹⁸ Small one probably from Benares; large one unknown, probably Muhammadan.

¹⁹ Large one without cups, probably Guzerat or Deccan.

- ¹ Incense burner (*arti*), 3, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ² Gods belonging to Hindu mythology, 20, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ³ Betel-box (*khasdan*), from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.
- ⁴ Ivory carved figures, very old, 7, from Agra, exhibited by Captain Monk Mason, R.A., Agra, *loan*.

CLASS CXLVI.—WEAPONS AND IMPLEMENTS OF THE CHASE.

- ⁵ Matchlock, from Lalitpur, exhibited by District Committee, Rs. 23-6, *purchased*, maker Jhagru of Talbehāt.
- ⁶ Hatchets, 2, from Lalitpur, exhibited by District Committee, Rs. 4-4, *purchased*, maker Jhagru of Talbehāt.
- Spear-heads, 2, from Lalitpur, exhibited by District Committee, Rs. 4-4, *purchased*, maker, Jhagru of Talbehāt.
- ⁷ Hunting knife, from Lalitpur, exhibited by District Committee, Rs. 3-3, *purchased*, maker Jhagru of Talbehāt.
- ⁸ A sword, "Incomparable," from Sitapur (Oudh), exhibited by Rāja Amir Hussan Khan, Bahadur, talukdar, Mahamadabad, *loan*, maker unknown.
- ⁹ A sword taken from the aborigines of Oudh, from Sitapur (Oudh), exhibited by Rāja Amir Husan Khan, Bahadur, talukdar, Mahamadabad, *loan*, maker unknown.
- 1 bow and 30 arrows, from Jalaun, exhibited by District Committee, Rs. 10, *purchased*, makers Imani and Kishori.
- ¹⁰ 2 pistols with bayonets, from Benares, exhibited by His Highness the Maharaja of Benares, *loan*, maker not given.
- A gun, Lahori fashion, from Benares, exhibited by His Highness the Maharaja of Benares, *loan*.
- A gun, enamelled, from Benares, exhibited by His Highness the Maharaja of Benares, *loan*.
- Large heavy gun used by late Maharaja Udit Narain Singh of Benares, from Benares, exhibited by His Highness the Maharaja of Benares, *loan*.
- Sahu Rāja's sword inscribed with the name of Sivaji, son of Sahu, and founder of Mahratta supremacy, from Benares, exhibited by His Highness the Maharaja of Benares *loan*.
- A dagger, from Benares exhibited by His Highness the Maharaja of Benares, *loan*.
- A hand stick, which can be used as a muzzle-loading gun and also as a spear, and has a knife and ramrod inside, with silver mounting, from Rāmpur State, exhibited by His Highness the Nawáb of Rāmpur, Rs. 30, *sale*, maker Imam-uddin of Rāmpur.

¹ Small one from Benares.

² Hanuman, Mahadeo, Ganesh, Panchamukhi Mahadeo, Garur, Kangnath, Devi, Durga, Krishna, Radha, &c., &c.

³ Probably from Benares.

⁴ Probably made at Guzerat, Rajputana or Amritsar. The information as to the names of the articles has been obtained from Pandits of Agra. It is impossible to arrive correctly at the dates of manufacture, but nearly all the things are very old and a number are believed to be unique. Most of the shapes and the style of ornamentation are obsolete now. The collection was made chiefly in the North-Western Provinces and Rajputana, but comprises articles (chiefly used in religious ceremonies) made all over India. Some of the shapes are very similar to some of the plates in Dr. Birdwood's Arts of India.

⁵ Matchlock used by Thakurs and others of Bundelkhand.

⁶ A hatchet carried by native sportsmen.

⁷ The knives made by the artist are preferred by many European sportsmen to English knives. They are much cheaper and have a very keen edge.

⁸ Was granted by Emperor Jahangir to the ancestors of Rāja Amir Hasan Khān.

⁹ Was captured from the aborigines of Oudh by the ancestors of Rāja Amir Hasan Khān during the reign of the Delhi Emperor Nasir-ud-din.

¹⁰ By the shock of the bayonet striking an object the trigger is released and the pistols discharged.

- * A rifle in wooden and leather case with requisite implements, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, Rs. 1,000, *loan*, maker Elahi Baksh, in the service of the Nawáb.
- † A small sword with gold hilt, from Rámpur State, exhibited by His Highness the Nawáb of the Nawáb of Rámpur, Rs. 200, *loan*, maker the Nawáb.
- A large sword with gold hilt, from Rámpur State, exhibited by His Highness Rámpur, Rs. 150, *loan*, maker the Nawáb.
- ‡ Daggers with agate handles, 2, from Agra, exhibited by Inder Singh, Rs. 30, *sale*, maker Inder Singh.
- Daggers with agate handles, 2, from Agra, exhibited by Inder Singh, Rs. 10, *sale*.
- Daggers with agate handles, 2, from Agra, exhibited by Inder Singh, Rs. 12, *sale*.
- 4 Knives, from Agra, exhibited by Inder Singh, Rs. 16, *sale*.
- 4 Knives, from Agra, exhibited by Inder Singh, Rs. 12, *sale*.
- Poniard, from Agra, exhibited by Inder Singh, Rs. 15, *sale*.
- Nepali dagger, from Agra, exhibited by Inder Singh, Rs. 20, *sale*.
- Sword (double-edged), from Agra, exhibited by Inder Singh, Rs. 200, *sale*.
- Sword Gujrat, from Agra, exhibited by Inder Singh, Rs. 15, *sale*.
- Sword Gujrat, from Agra, exhibited by Inder Singh, Rs. 12, *sale*.
- Sword Ispahan, from Agra, exhibited by Inder Singh, Rs. 120, *sale*.
- Kabuli dagger, from Agra, exhibited by Inder Singh, Rs. 20, *sale*.
- Kabuli dagger, from Agra, exhibited by Inder Singh, Rs. 15, *sale*.
- Bow, steel, from Agra, exhibited by Inder Singh, Rs. 30, *sale*.
- Shield steel, from Agra, exhibited by Inder Singh, 35, *sale*.
- Helmet steel, from Agra, exhibited by Inder Singh, Rs. 28, *sale*.
- Chain armour, complete, from Agra, exhibited by Inder Singh, Rs. 120, *sale*.
- § Agate handle sword, with velvet embroidered scabbard, from Lucknow, exhibited by Nawáb Muhammad Mirza Mehndi Ali, Khan Bahadur, *loan*.
- Agate handle knife, with velvet embroidered scabbard from Lucknow exhibited by Nawáb Muhammad Mirza Mehndi Ali, Khan Bahadur.
- Agate handle dagger, with velvet embroidered scabbard, from Lucknow exhibited by Nawáb Muhammad Mirza Mehndi Ali, Khan Bahadur, *loan*.

CLASS CXLVII.—IMPLEMENTS CONNECTED WITH FISHERIES.

- || Fishing reels, 3, from Rámpur State, exhibited by His Highness the Nawáb of Rámpur, *loan*.
- || Fishing line, 8 skeins, from Rámpur State exhibited by His Highness the Nawáb of Rámpur, *loan*.
- ¶ Boat (small), from Bara Banki, Oudh, exhibited by District Committee, Rs. 10, *sale*, makers fishermen of Byramghat on the Gogra.
- ¶ Drag net (large), from Bara Banki, Oudh, exhibited by District Committee, Rs. 6-9-3, *sale*, maker, fishermen of Byramghat on the Gogra.
- ¶ Hand net (small), from Bara Banki, Oudh, exhibited by District Committee, As. 4, *sale*, maker, fishermen of Byramghat on the Gogra.
- ¶ Fence of *narkul* for stopping fish from escaping, from Bara Banki, Oudh, exhibited by District Committee, Anna. 1, *sale*, makers fishermen of Byramghat on the Gogra.
- ¶ Fence of *narkul* for stopping fish from escaping, from Bara Banki, Oudh, exhibited by District Committee, As. 3, *sale*, makers fishermen of Byramghat on the Gogra.

* Every part of the rifle was made at Rámpur. It is an exact copy of an English rifle that was presented to the Nawab.

† Made by Fyaz, well known throughout India as a remarkable sword-maker, who died about 40 years ago. His blades up to this day fetch high prices and are remarkable for their tempering edge.

‡ In this collection the handles and setting of the weapons can alone be claimed as Agra work.

§ This was used by Nawáb Barhan Mulk.

|| Made at Rámpur

¶ Placed in the ethnological section, Economic Court.

-
- * Hemp string with hook, from Bara Banki, Oudh, exhibited by District Committee, As. 11-6, *sale*, makers fishermen of Byramghat on the Gogra.
- Cotton string with hook, from Bara Banki, Oudh, exhibited by District Committee, As. 11-6, *sale*, makers fishermen of Byramghat on the Gogra.
- † *Soya, sirki-ka* from Bara Banki, Oudh, exhibited by District Committee, As. 2, *sale*, makers fishermen of Byramghat on the Gogra.
- † *Ganda, senthé-ka*, from Bara Banki, Oudh, exhibited by District Committee, As. 3, *sale*, maker fishermen of Byramghat on the Gogra.
- ‡ Net on six bamboo poles, with a wooden hook, from Bara Banki, Oudh, exhibited by District Committee, Rs. 1-8, *sale*, makers fishermen of Byramghat on the Gogra.
- ‡ Net on two bamboo poles, from Bara Banki, Oudh, exhibited by District Committee, Rs. 2-2 *sale*, makers fishermen of Byramghat on the Gogra.
- ‡ Bamboo spear with 5 iron blades, Bara Banki, Oudh, exhibited by District Committee, Re. 1, *sale*, makers fishermen of Byramghat on the Gogra.
- ‡ Bamboo poles with 8 iron blades from Bara Banki, Oudh, exhibited by District Committee, As. 4, *sale*, maker fishermen of Byramghat on the Gogra.
- * Fishing rod with hook suspended, from Bara Banki, Oudh, exhibited by District Committee, As. 1-6, *sale*, makers fishermen of Byramghat on the Gogra.
- * Fishing rod with hook suspended, from Bara Banki, Oudh, exhibited by District Committee, As. 1-6, *sale*, maker fishermen of Byramghat on the Gogra,
- * *Tapas* from Bara Banki, Oudh, exhibited by District Committee, As. 3, *sale*, makers fishermen of Byramghat on the Gogra.
- * *Tapas* from Bara Banki, Oudh, exhibited by District Committee, As. 2, *salé*, makers fishermen of Byramghat on the Gogra.
- * *Kirwa bans* from Bara Banki, Oudh, exhibited by District Committee As. 6, *sale*, makers fishermen of Byramghat on the Gogra.
- § Fishing line, from Lucknow, exhibited by Hingan Khan, Rs. 2-2, *sale*, maker same as exhibitor.
- § 41 fishing hooks of different sizes, remarkable for their strength and durability, from Rampur State, exhibited by His Highness the Nawab of Rampur, not given, *presentation*, maker same as exhibitor.
-

§ Sample-room.

TRADE AND MANUFACTURES OF THE PUNJAB.

The following brief summary of the characteristic productions of each district is printed at the foot of a large map of the province exhibited on the east wall of the courts allotted to the Punjab.

1.—DELHI.

An important trade centre, with three converging railways. It is a great centre of the import trade in European piece-goods, and of the export trade in wheat, cotton, and hides; it carries on also an important trade with the North-West Provinces in gram, and is the chief depôt for the large trade which results from the interchange between these provinces and Rajputana—of the sugar produced in the former, for the salt of the latter. It also carries on a large trade in iron, in Indian piece-goods, in rice, and in oilseeds. In 1881-82, 36,874 maunds of cotton were sent to Howrah, and 11,021 maunds to Bombay. There is no considerable manufacture of cotton-goods, of colored cotton-printing very little, tinsel printing is done on English fabrics. The characteristic trades are—

Jewelry.—Especially combinations of precious stones with gold, jade, or enamel, filigree gold and silver work; silver necklaces of mountain and other patterns; gold *babul* work, ornaments studded with minute points separately soldered on—a speciality. Gilt wire drawing and trades connected with gilt thread embroidery, as embossed gold and silver work on cloth or velvet for elephant housings, state carpets, horse trappings, &c. Frame embroidery, as table-covers, tea cosies, slippers, screens, &c. Silk embroidery on net, Cashmere, broad-cloth, &c. Gold and silver lace, and gilt thread and wire ornaments of all kinds, true and false. Fancy shoes, jewelled and gold-embroidered. Glazed pottery, a coarse and very fragile, but semi-translucent, true porcelain—a new and rising trade. Cutting, silvering, and bevelling plate glass for mirrors. Ivory carving, a small trade. Figurines in terra-cotta. Colored models of snakes in terra-cotta. Stone-carving is still good here. Lac and glass bangles. A variety of cheap and flimsy articles of personal adornment.

2.—GURGAON.

At REWARI, a large manufacture of domestic articles and some fancy goods in copper and brass, worth in 1881-82 Rs. 90,525. Muslin *pagris* also at REWARI. Glass bangles at SOHNA. Common carpets at PALWAL and HASANPUR. The slate quarries of Rewari give an outturn of about Rs. 40,000 worth of slates *per annum*.

3.—KURNAL.

At PANIPAT, silver beads. Cutlery articles, fantastically ornamented with brass, as penknives, scissors, *sarotas*, &c., colored glass sometimes introduced. At KATTHAL, *chautahi*, cotton cloth with colored borders, made for exportation to Patiala and the rest of the Punjab.

4.—HISSAR.

Phulkaris.—A curious and characteristic woolen *phulkari* worked here by peasant women; red ground with sampler stitch, archaic patterns. Leather hukkas mounted with brass, copper, or silver. At BHIWANI, good wood-carving, also brass and bell-metal articles.

5.—ROHTAK.

Phulkaris.—Excellent *tanzeb* muslins. Cotton printing in tinsel (exceptionally good). Cotton cloth dyeing—a speciality, at JHAJJAR. The pottery of Jhajjar (unglazed) is very good. At BERI walking sticks and writing boxes.

6.—SIRSA.

Phulkaris.—Cotton, also woollen sampler stitch, embroidered chaddars similar to those from Hissar. Leather and brass hukkas.

7.—UMBALLA.

Large military cantonment, with no special trade. At JAGADHERI, good brass ware for domestic purposes and fancy articles,—an export trade. At DEGA-BASSI and other villages, cotton prints, narrow width unlike any other Punjab districts; many made for and sold in the hills. At SHAHABAD, first-rate seal-engraving and silversmith's work. Crude borax from Tibet is refined in quantities at JAGADHERI.

8.—LUDHIANA.

Both wool and cotton goods, and a considerable corn trade. Cotton *gamrins*, woven small check cloths, suitable for summer clothing. Good shawls, *jameewars*, Rampur chudders, and other woollen fabrics, plain and embroidered. At RAHAWAN, superior padlocks. Shoes are well made in this district for export.

9.—SIMLA.

At BILASPUR, leather and quill work. In Simla Bazar, ornamental furniture and wood work in walnut, &c. At KALKA, basket work in bamboo. At KOTGARH, tea. Coarse woollen fabrics. Neat basket work is done all over the Simla hills with split ringall bamboos. Small trade in these small bamboos with the plains, Delhi, &c., for *nechas* (hukka pipes). Potatoes sent to the plains. Iron smelting on a small scale in the *Kotkhai pargana*. *Pashmina* woollen fabrics at SUBATHU.

10.—JULLUNDUR.

Chief trade sugar, specially at RAHON, formerly noted for its *ghāti* (fine longcloth) and *lūngis*, now transferred to Jullunder. Rising silk manufacture. Woollen trade declined. Coarse blankets and *lois* at BILGAH. At PHUGWARA brass and bell metal goods.

11.—HUSHIARPUR.

Articles of furniture in *shisham* wood, inlaid with ivory (a rising trade). Turned and lacquered wood ware. At MAHALPUR, deer-skin socks, shoes, breeches, preparation of soft leather. Woollen carpets (industrial school). Muslin *dopattas* and *pagris*. Vessels in blue, green, and gray glass (a small trade). Leather and quill work boxes, cigar cases in colored leather sewn with filaments of peacock quills in patterns, like the Bilaspur work. At TANDA, earthen pottery painted in water colors. *Munj* matting and ropes. Brass and bell-metal manufactures at Hushiarpur largely exported to the hills and even to Ladakh. Shoes exported to other districts.

12.—KANGRA.

Centre of the Punjab tea trade. Rice. Honey. Enamelled silver ornaments. Coarse woollen fabrics. At NURPUR, a declining shawl trade. Cotton printing in tinsel in Kangra. The slate quarries of this district are extensive and valuable.

13.—AMRITSAR.

One of the most important commercial towns in the Punjab trading in English, Cashmere, and Central Asian goods. The chief seat of the woollen manufacture. Fine *pashmina*, or shawl wool fabrics, as shawls and their varieties. *Puttoos*, *malidas*, *alwans*, and other woollen cloths. Large numbers of Cashmeres are employed in weaving and embroidery. An increasing trade in *phulkaries*,—cotton fabrics, dark red, blue or black, embroidered with silk; a domestic and feminine industry. Woollen pile carpets; an increasing production. *Kindra-bâf*, silk and gold thread edgings or borders; a large trade. Frame embroidery (*Karchôb*) in gold and colors. Silk weaving, narrow widths-*daryai*. A small quantity of cotton printing. Lapidaries' work—stones impotted from Cashmere and Cabul, &c., agates, cornelians, serpentine, false jade and lapis-lazuli necklaces, bracelets, &c. Inlaid marble similar to the Agra inlay in connection with the Golden Temple. Ornamented embossed copper plates of large size, with foliage in relief, also for the temple. Ivory carving in geometrical open work, paper-knives, combs, &c. Architectural wood carving. Brass ware for domestic use. A considerable production of cast brass articles for export. Copper *niello* tinned, as trays, *samovars*, &c., introduced by Cashmeres and resembling Cashmere and Peshawar work. A small production of fine cotton fabrics, as *ghâtis*, &c. Shoes and tanned hides largely exported.

14.—GURDASPUR.

At DERA NANAK, declining trade in woollen goods, as *jamewars*, *rumals*, and shawls. At BATALA, *susis* and *lûngis* and embroidered shoes, good architectural wood carving. At PATHANKOT, SUJANPUR, SHAHPUR, and DINANUGGER, woollen fabrics, sometimes cotton mixed. At JHABKARA and MARARA, lacquered turnery of good quality. At SRI GOVINDPUR large numbers of wooden combs are made and sold very cheaply. At DHARIWAL, the Egerton Woollen Mills (water-power) make blankets, *lois*, horse clothing, *puttoos* and finer fabrics, as broadcloth, serges, &c At MADHOPUR, Messrs. Lister & Co.'s silk filature; increasing outturn. At SUJANPUR, the Punjab Sugar Company's Mills. At DALHOUSIE is an English brewery; also slate quarries. The silk manufacture of the district is said to promise well.

15.—SIALKOT.

At KOTLI LOHARAN, near Sialkot, koft or damascened iron articles, such as shields, arms, helmets, salvers, caskets, *surahis*, flower-stands, inkstands, pen-cases, &c., damascened in gold and silver. A large production. *Susi*, a checked or striped cotton fabric. At PASRUR, cotton-printing in colours, as floor-cloths, bed-covers, &c., of good quality. Paper is a speciality of Sialkot; but the trade has dwindled owing to the jail manufactory competition. At DASKA, good brass and *kansi* ware for native domestic purposes. At SIALKOT, lawn tennis racquets, riding canes, and similar articles are made. A trade route to Cashmere starts from Sialkot.

16.—LAHORE.

Silk weaving, narrow widths, washable fabrics, from ten annas to four rupees a yard (an increasing trade). *Malidas* and *puttoos* of good quality; but there is no great trade. Glass and lac bangles. Cotton printing in colours. At KASUR, Industrial School, woollen, carpet, and cotton *dari* weaving, lac turnery, inlaid wood, cabinet work, *phulkaris*, and *khes* weaving. At CHUNIAN, brass and leather hookas. At LAHORE, are oil and flour-mills, driven by steam. Candles, sulphuric and nitric acid, superior shoes and saddlery, glass-blowing (lamp chimneys almost exclusively), and glazed pottery are rising industries in Lahore.

17.—GUJRANWALA.

Brass ware for domestic uses. Cotton goods and occasionally a very thin sort of unglazed earthen pottery known as paper pottery. At NIZAMABAD and WAZIRABAD, cutlery of various kinds, including pocket-knives, surgical instruments, &c.

18.—FEROZEPUR.

Corn trade. Superior turned lacquer ware.

19.—RAWALPINDI.

A military cantonment with no special trade. Small petroleum spring in the neighbourhood. Cotton prints of rude execution, but good color, made in some villages. At ATTOCK and PINDGHEB, boat-building.

20.—JHELUM.

At PIND DADAN KHAN, superior brass ware, chased and ornamented. Riding whips and other small articles in leather. Silk turbans (small trade). Common cotton goods as in most districts. At CHAKOWAL and PIND DADAN KHAN, a superior kind of unglazed pottery. The great salt mines of the province are at MIANI near PIND DADAN KHAN.

21.—GUJRAT.

Speciality for chairs of several kinds, camp-chairs, the Capperina chair, and drawing-room chairs. Koft or damascened work on iron similar to the Sialkot work.

22.—SHAHPUR.

At BHERA, cutlery, table-knives, and forks, daggers, scissors, &c., mounted in stone handles; a false jade brought from Cabul, and serpentine from the Salt range largely used. The same artisan is lapidary and cutler. Old English files are forged into blades. Country iron is also used. Architectural wood-carving for doors, windows, &c., elaborately wrought in soft wood. At KHUSHAB, good qualities of *khes*, *lungi*, and other cotton goods, also silk turbans. At SAHIWAL, lac turnery in wood and ivory carving. Goat's hair rope at SHAHPUR, camel-hair rope at KHUSHAB, thick felt rugs at BHERA and KHUSHAB, *lois* at NURPUR.

23.—MULTAN.

Glazed pottery, originally for architectural purposes, tiles, and other details for Musalman tombs; now vases, salvers, &c., also made. A strong *faience*, with bold decoration in dark blue and turquoise. Silver ornaments enamelled in dark and light blue, black, red, and yellow—necklaces, brooches, studs, *solitaires*, &c. Woollen pile carpets, large patterns, bright colors, good texture. Cotton pile carpets. Silk fabrics, with gold introduced. Mixed fabrics, silk and cotton, *suffs*, &c. Pure silk fabrics, soft and washable. Ivory bangles—a purely local trade. Cotton prints at TOLUMBA and MULTAN in good colors. *Kamangari* work, painted bows and arrows. A steam-driven cotton manufactory recently started at MULTAN. Imports, cotton, raw and manufactured, indigo, food-grains, *ghi*, salt, sugar, silk from Bokhara; exports, cotton piece-goods, indigo and sugar. Multan is the centre of the Punjab indigo trade. At KEHROH and SHUJABAD, dyeing; and dyes made there are noted.

24.—MONTGOMERY.

At PAK PATTAN, lac turnery in black poplar wood with incised patterns, toys, bed-legs, spinning wheels, &c. At KOT KAMALIA, colored cotton printing of fine

quality, bright colors and good patterns, floor-cloths, quilts, *purdahs*, dados (*dewargirs*), &c., on locally woven cloth. No export trade in plain cotton.

25.—JHANG.

At CHINIOT, fine architectural wood carving in shisham wood. Brass inlay in decorative patterns on wood. Enamelled silver similar to Multan work is found in the district. Lac turnery (a small quantity). Cotton fabrics as in other districts for domestic uses.

A remarkably skilful locksmith at JHANG.

26.—MOZAFFERGARH.

Basket work in *patta* (dwarf-palm) leaves. *Khes*, woven checked cotton fabrics. *Kamangari* work (painted bows, &c.). Speciality for country ink.

27.—DERA ISMAIL KHAN.

Lacquered wood turnery studded with ivory ornaments, remarkable for exceeding minuteness of line in the scratched decoration. Coarse woollen fabrics, goats'-hair ropes, woollen sacking, &c., are made throughout the DERAJAT Division.

28.—DERA GHAZI KHAN.

At JAUNPUR, lacquered wood turnery. At LEIAH, very superior stout cotton *khes*, woven in checked patterns, dark blue, grey and red. From just across the border, rugs, camel-bags, &c., woven in colored wool in good patterns and ornamented with cowries, are brought; they are known as Biloch rugs.

29.—BANNU.

Large alum manufacture at KOTEKI and KALABAGH. At MARWAL, woollen bed rugs of crude colors. *Phulkaris* as in other districts.

30.—PESHAWAR.

An *entrepot* for trade to and from Kabul importing silk from Bokhara, Kabul wool, fruit, charras, horses, embroideries, Persian silk fabrics, embroidered *postins*, occasionally Russian leather, Russian samovars, and tea canteens in gilded glass and porcelain; snow-leopard, squirrel cat, and other furs, Turkoman carpets, &c. At PESHAWAR, copper-tinned ware as *aftabas* and *chilimchis* of Persian designs, swords and knives, embroidered *postins*, leather belts, mule and camel trunks. Curious decoration in lac, wax, color, and talc powder on cloth, suitable for *purdahs*, table-covers, &c. Fine cotton *lungis*, with coloured silk and gold-thread striped ends. *Bará* rice, a remarkably long-grained variety, grown in the neighbourhood.

31.—HAZARA.

Silversmith's work, rude but characteristic forms, *phulkaris* (perhaps the best in the province). Basket work in wheaten straw.

32.—KOHAT.

The gun-smith's trade lingers in this district. Felts or *numdas*. *Lungis*, in silk and cotton, brilliant colours and good fabric. The patterns of these are characteristic of different tribes, like the Scottish tartans. Trade in salt from mines in this district.

SECTION A.—FINE ARTS.

CLASS I.—PAINTINGS AND DRAWINGS.

THE miniature painting of Delhi is a survival, and to some extent also a revival, of the Persian limning, which was for many years encouraged at the courts of the Mogul Emperors, and was frequently noticed by early European travellers. The artists claim Persian descent, and although they are Musuhmans, do not consider themselves bound by the ordinance which forbids pictorial representation. Many of the portraits are traditional. The features of distinguished personages are repeated so often that the artists are able at will to draw Aurangzeb, Akbar, or Dost Mahomed. They have thus reduced their portrait-gallery to a series of conventional types, which, however, are at once popularly recognized, as the pictures of Mr. Gladstone and Lord Beaconsfield are recognized in *Punch*. The pictures of buildings are produced in response to a European demand for *souvenirs* of Indian scenes. Other drawings in the collection are purely Hindu, and represent the personages of Hindu mythology according to a conventional canon. Others are drawings of the curious Mogul architecture of Lahore, enriched with coloured pottery decoration, and are by students of the Mayo School of Art, Lahore. A curiosity in the series is a piece of embossed ornamental scroll work in paper, produced by the finger nail—one of the numerous examples of futile ingenuity for which India is remarkable.

A collection of Delhi pictures on ivory and paper, historical portraits, views, &c., by Mahomed Husein of Delhi. Prices Rs. 50 to Rs. 200 each. *For sale.*

A collection similar to the above, by Zulfikar Ali Khan of Delhi. Prices from Rs. 24 to Rs. 325. *For sale.*

Forty-one different pictures. Exhibited by Sundar Lal, Delhi. Rs. 1,290. *For sale.*

Twenty-six different pictures of mythology, by Pundit Tota Ram, Lahore. *For sale.*

Eighty-four miniatures on paper and ivory, by Mir Baksh. *For sale.*

View in Wazir Khan's mosque, by Sher Mohamed, Mayo School of Art, Lahore. Rs. 100. *For sale.*

Guru Nanak, founder of the Sikh religion, by Kapur Singh, ditto. Rs. 60. *For sale.*

Going to the fair, by ditto, ditto. Rs. 50. *For sale.*

Portrait of Maharaja Ranjit Singh, by ditto ditto. Rs. 25. *For sale.*

Three miniatures on ivory, by ditto ditto. Rs. 36. *For sale.*

Design for carpet, by Amir Baksh, ditto. Rs. 25. *For sale.*

An embossed nail work, by Meran Baksh, Lahore. Rs. 15. *For sale.*

Two pictures of H. H. the Maharaja of Nabha's horses, exhibited by His Highness Maharajah of Nabha. *Not for sale.* Rs. 105.

Fifteen pictures. Rs. 128. Exhibited by H. H. the Maharaja of Patiala. *For sale.*

One book with pictures of Delhi Emperors, exhibited by ditto. Rs. 360. *Not for sale.*

Picture of the late Maharaja of Patiala, by ditto. Rs. 50. *For sale.*

CLASS II.—SCULPTURE.

Portrait bust of Jawahir Singh, Sikh carpenter, by J. L. Kipling, Principal, Mayo School of Art, Lahore. *Not for sale.*

Portrait bust of Bahadur, lac turner of Pakpattan, by J. L. Kipling, Principal, Mayo School of Art, Lahore. *Not for sale.*

Portrait bust of Fazal Din, Musalman carpenter, by G. F. Pinto, Assistant Teacher, Mayo School of Art, Lahore. *Not for sale.*

CLASS III.—ARCHITECTURAL DRAWINGS.

Colored elevation of the *Chauburji*, Lahore, decorated with enamelled pottery and built by Begam Zeban Nissa, by Allah Din, student, Mayo School of Art, Lahore. *Not for sale.*

Gateway of Wazir Khan's mosque, by Amir Baksh, student, Mayo School of Art. *Not for sale.*

Portion of Wazir Khan's mosque, Lahore, by Mohamed Din 1st, student, Mayo School of Art, Lahore. Rs. 40. *For sale.*

Gateway, Badshahi mosque, Lahore, by Allah Din, student, Mayo School of Art, Lahore. Rs. 25. *For sale.*

Elevation of the Chintgarh near Shalimar Gardens, Lahore, by Amir Baksh, student, Mayo School of Art, Lahore. Rs. 50. *For sale.*

Elevation of the Chiniwalla mosque, by Fazal Din, student, Mayo School of Art, Lahore. Rs. 40. *For sale.*

View in Wazir Khan's mosque, by Mohamed Din. Rs. 70. *For sale.*

Part of side elevation of Wazir Khan's mosque, Lahore, by Golam Mohamed, student, Mayo School of Art, Lahore. Rs. 15. *For sale.*

Set of architectural drawings, by Ghasita Mistri, Public Works Department, Lahore. *For sale.*

Model of summer house now being built at Nabha. Exhibited by His Highness the Rajah of Nabha.

CLASS IV.—LITHOGRAPHS.

Three glazed frames containing lithographs of prize certificates, &c., by Mayo School of Art, Lahore. *Not for sale.*

CLASS V.—PHOTOGRAPHS.

Twelve photographs of buildings in Lahore and Amritsar, by Rai Bahadur Kanhya Lal, M.I.C.E., Executive Engineer, Lahore. *Not for sale.*

CLASS VI.—WORKS OF ART NOT SPECIFIED.

A curious piece of embroidery said to be worked about 80 or 90 years since (probably much more) by the hand-maidens of the Ranis of Chumba. The work is in very fine tapestry stitch, and is the same on both sides, of exquisitely delicate execution but archaic design. The story represented is taken from the "Sri Naid Bhagwat." Bikram (or Bisam) Raja had a son, named Rukmangat, and a daughter, Rukmani. The father wished her to be married to Krisna, and the girl also wished it. Her brother was determined she should marry Raja Sasupal. Rukmani sent a Brahman privately to Krisna to meet her secretly at a certain temple when they could be clandestinely married. Krisna kept the tryst, arriving in his carriage with the usual four horses. The pair were married, and departed in the carriage, and Krisna's brother, Bullibuddhur, followed with the marriage procession. Raja Sasupal arrived on the scene too late to catch the happy pair, but he attacked Bullibuddhur's party, and suffered severe defeat, which is graphically depicted by severed heads and much gore in red silk.

Among works of art not specified in the classification adopted for the exhibition may be mentioned the seal engraving of Harnam Singh and Pertab Singh of Shahabad in the Amballa district. The trade of the *Mohr-Kand*, or signet cutter, is a common one, but it is almost universally confined to engraving vernacular signatures on blood-stone for the use of those who sign their names by

affixing an impression of their seals. The craftsmen mentioned above, however, have carried their practice much further than usual, and can engrave crests, animals, &c., in intaglio both in stone and metal with great skill, and deserve to be more widely known than they are. One of the curiosities of Indian art is the neglect in ancient times of cameo and intaglio cutting by artists who excelled in most other forms of art. Greek and Roman intaglios in cornelian are occasionally found on the frontier, but a few rude Mithraic emblems on stone are the only specimens of the art of native origin.

Seal engravings, by Harnám Singh and Partáb Singh of Shahabad, Amballa district. *For sale.*

3 curious pieces of embroidery said to be worked about 80 or 90 years since by the handmaidens of the Ranis of Chamba. *Not for sale.* Exhibited by Major C. H. F. Marshall, Superintendent, Chamba State.

SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS.

CLASS VII.—BOOKS.

An old Persian book, Khamsa Nizami, exhibited by Mahomed Syad Khan of Delhi. Price Rs. 300. *For sale.*

History of Mecca and Medina, exhibited by Lala Sunder Lal, Dealer in curiosities at Delhi. Price Rs. 50. *For sale, Persian book.*

Quran on 30 pages exhibited by ditto. Price Rs. 1,500. *For sale.*

Collection 5 manuscript books, lent by His Highness the Maharaja of Patiala. Rs. 752. *Not for sale.*

- 1 Gulistan, Rs. 500.
- 1 Karima, Rs. 100, embossed nail work.
- 1 Tofatul Salatin, Rs. 40.
- 1 Masnawi Nasir Ali, Rs. 12.
- 1 Diwan Sinai, Rs. 100.

CLASS XIV.—MUSICAL INSTRUMENTS.

The musical instruments of the Punjab are all of old unvaried, traditional forms except a few that are peculiar to the frontier (as the mandolin-shaped *rabáb*); the others are always the same wherever found. There are two classes, the rough cheap and feeble instruments such as the "*yáktárá*," "*Ring*," &c., used by fakirs, beggars, &c., and the more elaborate, which are usually made of *tún* wood and are inlaid with ivory (as the "*sítár*"), or elaborately painted and varnished (as the "*bín*" and the *táús*.")

A few forms only could be collected for the Exhibition, both time and enquiry being necessary to produce a complete collection.

The most popular of all instruments is the *sítár*, a sort of lute. (It is made in various forms, all having a general similarity. We have the "*madhum*," the "*chárgha*," the "*tarbdár*"—the *madham sítár* is the commonest). It has five, sometimes six, strings of steel and brass; it is a fretted instrument, and the frets (16 in number) are not fixed as in our guitar, but are moveable and are arranged for the particular "*rag*" or melody by the performer. The "*chíngah sítár*" has no frets and only 4 strings. The "*tarbdár*" has an understrung set of five steel wires (as in the "*bín*") which are "sympathetic" or jingle in sympathy with the upper strings. The *táús* is a many stringed instrument, the body being shaped like a peacock; it is played with a bow of black horsehair. The *bín* is an instrument played with the finger guarded by a "*mizráb*" or wire thimble. It consist-

of a long narrow board with the pegs at end and disk fretted and supported on two hollow gourds for resonance. The drone or jingle is given by a set of five "sympathetic strings." There is another instrument called "*bín*," not to be confused with the first described. This is a rude double flageolet inserted into a small gourd. It is played by snake charmers and beggars, and is often distinguished as the "*binjog*."

Other stringed instruments, the psaltery and the "*kanín*" or harp, are now very rare. A quaint and curious instrument is the "*saringí*" or fiddle, a very beautiful specimen of which is in the collection. In this the strings are made of catgut, but the resonance strings are of thin brass wire. Wind instruments capable of variety of tone hardly exist except in the "*bín*," and rude *sarnás* or bagpipe and several small flutes. Various trumpets and horns are used in temple worship and ceremonials, notably an enormous brass trumpet about 8 feet long (made in pieces) used in Kangra. There are also horns, conch shells, &c., but all these give only one or two notes, and are harsh and discordant and not to be accounted as musical instruments at all.

Drums of every form are used from the huge barrel-shaped "*dhol*" to the tabla or pair of small drums and the "*khanjri*," hand tambourine with bells. Kettle-drums of size are also used (*nakára*, *dhaússa* and *naubat*).

The only system of music known is the Hindu, which has a seven-note scale, approximating our own.

The stringed instruments are all tuned to one modification or repetition of the key note (*khirí*), the fourth (*panchem*, though the term means "fifth"), the fifth (*madham*), and the octave below the first string (*larz*).

One *saringí* by Raim Baksh of Shahabad, Umballa District. Price Rs. 20. *Not for sale.*

One *sitar* by the same. Price, Rs. 20. *Not for sale.*

Three *táús* (instrument in the shape of a peacock) by Gholam Kadir of Kapurtalla. Price Rs. 45 each. *Not for sale.*

Two *táús*, like the above by the same maker. Price Rs. 45 each. *For sale.*

Bín, gourd clarinet. Price Rs. 3. *Not for sale.*

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE USE OR DECORATION OF DWELLING HOUSES AND OTHER BUILDINGS.

CLASS XXIII.—FURNITURE AND UPHOLSTERY.

To this class belong in one sense a number of articles mentioned under the head of inlaid work and lacquered wood. The most characteristic form of the trade considered as such is the manufacture of chairs and camp furniture at Gujrat. The large and cumbersome but undeniably comfortable easy chair, known as the Capperina chair, from its introduction by a district officer named Capper and several forms of camp chair are the best known. The trade is an increasing one, as the work is fairly strong and well finished and the prices are moderate. The wood used is shisham. Other articles shewn are by students in the Mayo School of Art, Lahore. The inlaid tables by Nizam Din (of Lahore), and indeed the greater part of the work enumerated under the head of "Inlaid Work" (D. 31) and some of the lacquered work may also be considered as furniture.

Arm chair, green leather cushion, by Ismail Mistry of Gujrat, Rs. 25. *Not for sale.*

Camp easy chair, by the same. Rs. 7. *Not for sale.*

Camp chair, jail model, by the same. Rs. 6. *Not for sale.*

Camp chair, canvas back, by the same. Rs. 6. *Not for sale.*

Camp chair by the same. Rs. 7. *Not for sale.* No. 2927.

Camp chair European pattern, by the same. *Not for sale.* Rs. 6.

Camp chair with adjustable back, by the same. Rs. 6. *Not for sale.*

Camp chair by the same, new fashion. Rs. 6. *Not for sale.*

Ladies' camp chair, by the same. Rs. 6. *Not for sale.*

Camp chair, double canvas seat. Rs. 4-8, by the same.

Another by the same. Rs. 5.

• 1 Teapoy, Rs. 5.

Collection of 10 chairs, ebonized by Karpal Singh, student, School of Art, Lahore. Rs. 100 or Rs. 10 each, *For sale.*

4 Hanging shelves, by Ram Singh, Assistant Teacher, Mayo School of Art, Lahore. Rs. 325 for three or Rs. 75 each and Rs. 60 for the other. *For sale.*

Painted Cabinet, by Mayo School of Art, Lahore. For the Hon'ble Sir Stewart Bayley. The panels are in Hyderabad lacquer, except those at the ends, which are Lahore gesso.

Carved show case containing specimens of the Egerton Woollen Mills Company's manufactures, designed and executed by Sadhu Singh of Dhariwal from a suggestive sketch furnished by the Mayo School of Art, Lahore. *Not for sale.* Materials *deodar* (cedar) mulberry and *shisham*. This case may claim to be considered also in class 31, as wood-carving.

CLASS XXIV.—GLASSWARE.

This art is as yet quite in its infancy. The Hushiarpur workman is almost the only one who works independently with his own materials. Independently that is of foreign aid, for a few glass-blowers at Lahore (and formerly at Patiala) collect fragments of white European glass and melting them down blow cheap lamp chimnies and bottles, &c. A common blow-tube of iron is used and the melting furnace is of mud and very rude; annealing does not seem to be understood.

The want of good material for glass in the province will always be a drawback. Sand and crude soda or *sajji* are all that can be got. The glass produced is not clear in color, and it is full of small bubbles and other impurities. The efforts of the Hushiarpur worker under such difficulties are praiseworthy and he has produced some fair blues, dark and light opaque, also a plum color or manganese purple and a chrome yellow, and some green. All his works are small and he is unacquainted with the process of cleaning with acid.

Glass bangles are made in a few places, and here the transparency of the glass is of no consequence. In Kurnal, rude globes are made for ornament, the inside being silvered with quicksilver and tinfoil, the large aperture necessary for the manipulation is awkwardly covered with orsided.

The Kurnal glass-makers also prepare the large, thin, pear-shaped glass retorts or carboys, in which the native manufacture of sal ammoniac (*naushadar*) is effected.

Silvering glass for mirrors is practised in the old style with mercury and tin-foil at Delhi, and more recently at Lahore: imported plate glass is employed, and the edges are often bevelled by the workmen with the aid of corundum powder.

Collection of glass and lac bangles, by Ghisa of Delhi. Rs. 1-2; and 3 looking glasses from Delhi, by Sarjuddin of Delhi. Rs. 10. *Not for sale.*

Collection of glass vessels from Hushiarpur.

CLASS XXV.—POTTERY.

A striking and beautiful application of glazed pottery to architectural wall decoration is found on the mosques and tombs of Multan, Lahore and other towns of the Punjab, and also in Delhi and Agra. Some idea of the effect of this

scheme of coloring may be gained by reference to the colored drawings of Wazir Khan's mosque and other buildings exhibited by the Mayo School of Art, Lahore. Local legend says the art is of Chinese origin, which is probably true, but it appears to be from Samarcand and Persia that it was directly introduced into Northern India. The variety known as *kashi*, a mosaic of pottery, where each leaf and form is separately cut out and fitted, is no longer practised, and may be said to be extinct. But at Mooltan, although there are but few colors used, glazed *faience* tiles, little inferior to the old work, are produced. This work is perhaps the best now wrought in the province. Originally exclusively architectural, a European demand has led to the production of vases, salvers and other articles for drawing-room decoration. A large selection is shown by Mahomed Azim of Mooltan, and some experimental efforts by another local potter. The colors used are now usually dark and turquoise blue on an opaque, duck-egg textured white enamel slightly tinged with blue.

At Peshawar a rough *faience*, composed of a common reddish-yellow earthen paste or body, covered with a white *engobe* or slip; and a soft, lead glaze, is made. All over Cabul fragments of pottery of a similar manufacture, but better quality, are found. The type piece is a large, shallow circular rice dish. On the frontier this glazed earthenware is used for eating from, a practice which is comparatively unknown elsewhere in India.

The Delhi pottery is of a different type, and the paste or body is not a natural clay, but an artificial composition of pounded felspar stone, held together for moulding by a *marsala* or paste of mucilage. All these articles, therefore, are shapen in moulds, and they are usually exceedingly fragile. When, however, the wares are well burnt, a sort of vitrification takes place. The best examples are semi-translucent, and are, in fact, a true porcelain.

The trade is a rising one, and the demand is so great that nothing but a little energy on the part of the artisans is required for the creation of an important industry.

The paste of some of the old *kashi* work mentioned above is similar in quality, and the Delhi manufacture was probably, like that of Mooltan, exclusively architectural in character. The manufacture of *martabans* or jars for the pickles and preserves which are a local speciality seems to have kept it alive. But it was unknown in England till 1871, when the writer took a quantity of jars, &c., to the exhibition, and it has greatly advanced since that time.

At Delhi a local artisan makes models of snakes, used for distribution to District Officers for the easier identification of the serpents for whose destruction rewards are offered. A collection of these, which are in terra-cotta colored in water colors, is shown.

The terra-cotta figurines made at Kishengarh, Lucknow, &c., are imitated here, and this art, which is really a foreign importation, is now considered a characteristic Indian craft; a series is shown from Amballa.

The highest finish of which unglazed, soft earthenware is capable is displayed in a set of articles contributed by His Highness the Nawab of Bahawalpur.

A small collection of glazed and unglazed ware from Lahore shows the characteristic forms of the pottery usually sold in the bazars of large towns.

The ware from the Lahore School of Art is only experimental in character, and it is not intended to reproduce it.

Examples of *Ghorian* ware, the best of which are interesting relics of the Mogul courts, when Chinese porcelain and Persian imitations of it were imported for Imperial use, are also shown. The white and coloured Chinese porcelain exhibited from Delhi also claims to be considered of historical interest from this circumstance.

It may be worth while to explain, for the benefit of those interested in the usages which allot various occupations to strictly defined castes and races, that the maker of glazed pottery is careful to call himself a *Chinigar* (China-maker) or *Kashigar*, in contradistinction to the Hindu potter by caste, the *Kumbhar*, whose trade it is to make the unglazed water vessels and pipkins in common use,

The former is usually a Musulman, and prides himself on his foreign descent, while the latter occupies a humble place in the ranks of the village commune, and belongs to a caste which has followed the same trade from time immemorial. Glazed and decorated pottery is a distinctly advancing industry, and some of its forms, though oriental in style, are quite new and unlike anything to be found in old indigenous work.

Collection of Delhi pottery, 127 pieces. Prices from Re. 1 to Rs. 7, by Bhola potter, Delhi. *For sale.*

A similar collection (blue tickets), by Bhola potter, Delhi. *Not for sale.*

A collection of 71 pieces Delhi pottery, by Sundar Lal, Delhi. *Not for sale.*

Collection of Peshawar pottery, 70 pieces. *Not for sale.*

Collection of Lahore pottery, glazed and unglazed, by Dulla potter, Lahore.

Not for sale.

Collection of pottery, by Pir Bakhsh potter, Multan. *Not for sale.*

Collection of Mooltan pottery, 124 pieces, by Mahomed Azim potter, Mooltan. *Not for sale.*

Collection of 12 pieces unglazed Bahawalpur pottery, exhibited by H. H. the Nawab of Bahawalpur. *Not for sale.*

Collection of 33 colored terra-cotta models of snakes, supplied to District Officers for the easier identification of poisonous snakes, by Heera Singh, Delhi. Prices from Re. 1 to Rs. 4 each.

Collection of 46 figurines in colored terra-cotta, representing house servants, castes, &c., by Bhowani of Umballa. *Not for sale.*

Collection of 6 ditto, by Heera Singh of Delhi. Rs. 141. *Not for sale.*

Collection of experimental glazed pottery, Mayo School of Art, Lahore. *Not for sale.*

Collection of six articles of Ghorian-ware (ancient). Prices from Rs. 50 to Rs. 130, exhibited by Mahomed Sayed Khan, Delhi. *For sale.*

Collection of six articles old China. Exhibited by Sunder Lal, Delhi. Prices from Rs. 20 to Rs. 250 each. *For sale.*

One dog, terra-cotta, Rs. 4, exhibited by His Highness the Maharaja of Patiala. *For sale.*

1 Buffalo, Rs. 7, ditto ditto.

20 Models of fruit, coloured Rs. 15, ditto, ditto.

1 Model of tree, Rs. 40, ditto, ditto.

1 Terra-cotta group of Krishna on an elephant composed of female figures, Rs. 50, ditto.

1 Terra-cotta bullock model, by Bhowani of Amballa, Rs. 25. *Not for sale.*

CLASS XXVI.—METALWARE.

The first place in this large section naturally belongs to the brass and copper-ware which fill such an important part in native domestic life. It seems to be accepted as an ordinance that brass is prescribed for the cooking and eating vessels of Hindus and copper for Mahomedans. To this broad rule there are, of course, many exceptions. Mahomedans on the frontier, following Persian customs, eat from glazed earthenware, and are said in the large towns to be gradually adopting English and Chinese earthenware and porcelain—a most desirable consummation from the English pottery manufacture point of view, for there are no potting materials in Northern India capable of being made into good earthenware. Poor Hindus use earthen vessels, and an old village site may be discriminated as Hindu or Mahomedan from the large number of shards of *rekabis*, as the earthen-platters are called, which will be found in the former case. These are made by the village potter, and are thrown away after use. At Hindu caste dinners and feasts leaves are used, and within the walls of the sacred Puri in Orissa, during the worship of Jaganath, when all caste rules are

abolished for the nonce, the pilgrims eat the cooked rice served out by the Brahmins from earthenware. These exceptions do not materially affect the general ordinance of scoured brass for the Hindu and tinned copper for the Musulman. It is on this domestic usage that the skill of the Indian metal-worker is founded, and it would be pedantry to attempt to separate purely artistic from merely domestic wares. In the simplest utensils of the native kitchen will be found some touch of the quality that makes the richly-chased *surahi* or *guldāsh* an ornament for the drawing-room or a study for the designer.

The selections of brass ware from Rewari, Jagādhri, Phugwara, Hushiarpur, and Amritsar give a fairly complete representation of the present state of the brass-founders' and chasers' art in the Punjab at the present day. These towns, with one or two others, are growing into note as manufacturing centres in a small way, and export their wares. The custom which formerly obtained was that each village had its own craftsmen in each trade; but the manufacturing system is extending here as elsewhere. Amritsar brass wares are sent as far as Ladākh, and the wares of Jagādhri, Rewari, and Daska are known all over the province. The worker in sheet copper, who fashions his vessels with the hammer, is known as the *thatēra* or beater, or *thatiyar*. His tools are simple, consisting chiefly of differently shaped anvils or stakes, which are frequently supported in the crook of a Y-shaped wooden frame athwart which he sits at work. Some of this hammer work is exceedingly skilful, especially at Delhi, where curved cup-like forms are beaten out of flat plates without a joint. The brass founder, *bhartiya*, uses processes which differ in no essential point from those of Europe: examples of castings fresh from the mould and half-finished are shown from Amritsar.

The *mut* or brass water-jar from that place is one of the largest pieces shown. The engraver or chaser is called *chatera*. He works exclusively with hammer, chisel and punch, and does not use the graver or burin. The tendency of modern chasing is towards a uniform covering of the surface in light lines. Some wares from Jhelam, however, are in a bolder and better style. From Peshawur are sent *aftābas*, which show strongly the Persian origin of their ornament and shape.

The Cashmere style of engraved copper, specimens of which are shown from Amritsar as well as Cashmere, is so characteristic as to be at once recognized. The forms are sometimes filled in with lac grounds of different colors, and the patterns recall those of the Cashmere shawl. A commoner sort of graven work is done on copper after it has been tinned, the red line showing through the dull white.

The metal-bound leather hukka, used extensively by working people and agriculturists, whose avocations subject the cherished pipe to rough usage, seems to be peculiar to this province. Examples are shown from Hissar, Sirsa, and Kasūr, the latter being in perforated brass, silvered, while the former are built up of zones and fillets of metal roughly engraved. The articles used in Hindu worship, such as the *arti* or sacrificial lamp, the *thālī* or dish in which idols are bathed, the spoons for oil and Ganges water, and the idols themselves, are usually imported from Muttra, Benares, or Brindabund, but some are shown from Delhi and Amritsar. There has never been any production of figure casting in this part of India equal in quality to that of the south. The idols from Amritsar are curiously primitive and poor in design. Nor is there any likelihood, now that the Hindu is free from the Moslem yoke, that any improvement will take place in this respect. The upper classes of Hindus care very little for idols of any kind, and the preferences of the lower classes are for the *Dii Semones* of their mythology—personages so monstrosous as not to be capable of really artistic treatment.

A complete enumeration of the various forms of domestic brass and copper-ware would occupy much space, but as the purely decorative wares bought by Europeans are based on things of common use, it may be worth while to mention the names by which they are known in the Punjab. The Hindu brass water-vessel with a spout and handle is called *gunḡa sāgar*—Ocean of the Ganges. The Mahomedan water ewer, of similar form, is an *aftāba*.

The *mokhabba* and the *khuncha* are distinctively Mahomedan,—round covered dishes, frequently represented in wall decoration, sometimes covered, and sometimes shown filled with fruit. The almost universal *motif* for the design of the cover is the Mogul dome, with a final and foliated necking. At Bahawalpur, *mokhabbas* are made in enamelled silver. The *tashtri*, *thál*, *tháli*, *tási*, *parát*, and *rikábi* are names for various sizes of circular salvers down to the last, which has grown to be the equivalent of the English tea-saucer. The *shini* is a very large dish with a small rim. The *abkhora* is the Mahomedan version of the Hindu *bhauka*, a vase-like small water-vessel, which differs from the *lota* in form. The *chah-dáni*, or teapot, is exclusively Mahomedan, and is usually of slender jug-like form, with a spout attached to the body along its whole length, and not fitted with a strainer. Very frequently the arrangements for heating of the Russian *samovar* are adopted for the *chahdáni*, and the large *samovar* itself is made at Amritsur and Peshawar. The *surahi*, or water-goglet, is more common in zinc than in brass or copper, and in porous earthenware than either, but it is sometimes met with in those metals. *Deg* is a cauldron, and *degcha* and *degchi*, smaller stewpans of similar form. *Kaul* is a common form of drinking-cup, so called from its resemblance to the shape of the lily. *Gilds* is the British glass or tumbler made in metal. The *pándán* is a spice-box meant to hold betel-nut and *pán* leaves prepared for chewing; it is usually made in copper with elaborate patterns roughly done in hammered and pierced work. The *pikdán*, or *ugaldán*—Anglice, spittoon—is sometimes a small vessel of the hour-glass, or double lotus form, not so large as a breakfast cup. It is also made in the shape of a wide-mouthed large brass vase. The *martabán*, or jar, usually provided with a cover, is now being made in glazed earthenware for pickles and chutnies, a usage that will doubtless spread, but it is also made in metal. The *mutti* is purely Hindu. It is a large and often very handsome brass vase for water. *Tabalbáz* and *tabalbázi* are large and small sizes of brass whey-bowls, also Hindu. *Katora* and *charma* are Hindu names for small circular saucer-like dishes. *Baltoa* and *gágar* are brass water-vessels taken to the well, and approach the globular form of the earthen *ghurrah*. *Patíla* is the Hindu name for a small stewpan. *Tumbi*, *garwa*, and *garvi* are small water-vessels resembling the *lota*, and a *dabba* is a brass box, while the *dibbha* is a small box, always round. The *guláb-pásh*, or rose-water sprinkler, is best known to Europeans from the pretty silver or silver gilt examples used for aspersion on occasions of ceremony. *Kánsi*, or white brass, is prized for cups and other articles, and a *ganj*, or nest of a dozen well-fitting neatly-finished bowls in this material, is one of the show-pieces of the artificer, and the treasure of the house-keeper. *Phúl* is another name for bell-metal. The consumption of brass and copper in the province may be estimated from the trade returns. In the year 1882-83, there were imported into the Punjab from other parts of India by rail and boat 65,463 maunds of brass and copper worth Rs. 40 per maund of 80lbs. The bulk of the supply came from Howrah—39,734 maunds. From Sindh there were received only 7,940 maunds, from Bombay 1,980 maunds, and from the North-West Provinces and Oudh, *via* the East Indian Railway, 11,232 maunds. The greater part of this supply, which comes in the first place from Europe, was in the form of sheets, and was used for domestic purposes. Rewari, Jandiala, Gujranwala, Jagadhri, Amritsar, Pind Dádan Khan, Kangra, Phagwara, in the Kapurthulla State, and Daska, a tehsil in the Sialkot district, are the places most noted for brass and copper manufacture. Every year the brass-founders recast a considerable quantity of old vessels. These are considered to contain a larger quantity of copper than modern mixtures, and, in the case of sacrificial vessels and images, there is a universal belief that the quality of the metal was improved by the addition of silver and gold. It is doubtful whether any such extravagance was indulged in, but the first remark that a Hindu makes on seeing an ancient casting is that it must contain much precious metal. It is probably owing to this belief, which used also to be common in Europe, and to the preference of old vessels for remelting, and not to any wish to cherish them for their beauty or associations, that the collector finds so few good old pieces for sale.

Collection of 8 objects, copper-ware, by Fakir Chand, of Delhi, consisting of *pāndān*, *changardān*, box and bowl, &c. Re. 0-7-6 to Rs. 4-5. *Not for sale.*

Ditto 17 ditto by Chandu Lal, prices from annas 3 to Rs. 4. *Not for sale.*

Collection of brass toy vessels (32), by Mahomed Wazir of Delhi, price Rs. 4-14-9. *Not for sale.*

Ditto ditto (44) by Bhagwan Das, price Rs. 45-2. *Not for sale.*

Nine native brass scales and a set of weight from Delhi, by Abdul Razak, price from annas 8 to Rs. 2-8. *Not for sale.* Used by Delhi jewellers, gold and silk workers, &c.

Collection of 7 objects, brass-wares, from Jagadhri Umballa district), comprising a bracketed lamp, pair cups, 2 goblets covered, and 2 goblets uncovered, price Rs. 23-5. *Not for sale.*

Collection of 13 objects, brass-ware, from Rewari, Gurgaon district, including hookas, water-vessels, inkstand and pen case, *shama-dān* or large standard lamp, smaller lamps, temple bell, cart bell, confectioner's lamp, &c. Price, Rs. 47-5-6. *Not for sale.*

Four chased brass vessels, by Jessa Singh and Mangal Singh, Jhelam. Price, Rs. 4-4. *Not for sale.*

One *Gunga Sāgar*, Hindu chased brass water-vessel, by the same. Price, Rs. 7. *Not for sale.*

Collection of brass vessels from Phugwara, Kapurthalla State, by Shama and Kirpa, comprising salvers, nest of bowls, water-vessels, Chinese gong, &c. Price, Re. 1-9 to Rs. 10-9. *Not for sale.*

Open-work brass box, silvered, lined with velvet, by Azimulla of Amballa. Price, Rs. 35-13. *Not for sale.*

Two leather hukkas, brass and silver mounted, by Ram Chand, of Fattahabad, Hissar district. Price, Rs. 14 the pair. *Not for sale.*

Ditto by Amra and Mali, of Barwala, same district. Price, Rs. 11. *Not for sale.*

One leather hukka, brass-silvered, by industrial school, Kasur, Lahore district. Price, Rs. 15. *Not for sale.*

Four leather hukkas, brass and silver mounted, and engraved by Amiruddin, of Rania, Sirsa district. Price, Rs. 11 each. *Not for sale.*

Two copper engraved *aftābas* and *chilamchis* (ewers and basins), and a bowl by Haji Malik Rahman, Peshawar. Price, Rs. 50. *Not for sale.*

Six betel-cutters from Kurnal. Price varying from annas 12 to Rs. 2-10. *Not for sale.*

Two brass cups from Bahawalpur. Price, Re. 1 each. *Not for sale.*

Collection of 10 objects, brass-ware, from Amritsar, by Abdul Samad, brazier. Price, Rs. 50.

Two brass plates, lac inlaid, by Abdul Samad, Amritsar, Price, Rs. 16 the pair. *Not for sale.*

One spherical brass lamp, by ditto. Price, Rs. 5. *Not for sale.*

This lamp is so contrived that the oil reservoir inside is always upright.

One pair brass *tombis* (gourds), by Khareti, Amritsar. Price, Rs. 2-9. *Not for sale.*

One native brass inkstand and pen case from Kotgarh (Simla district). Price, Rs. 2-8. *Not for sale.*

Collection of 5 objects brass, and copper-ware, presented by Lala Chandu Lal, care of Lala Hari Chand Jogan Nath, consisting of salver, spittoon, *pāndān*, *katorān*, *aftāba*, and *chilamchi*.

A large brass *mutti* (jar), lent by Rani Kirpadai, widow of Sirdar Bhagwan Singh, Rais of Amritsar. *Not for sale.*

Two brass goblets, exhibited by H. H. the Maharajah of Patiala. *For sale.*

Two cups (mixed metal), kansi. Price, Re. 1, ditto.

One nest of brass cups. Price Rs. 2-9-6, ditto.

One brass jantar (astrolabe). Price, Rs. 80, ditto.

BHERA CUTLERY AND LAPIDARY'S WORK.

It is not easy to determine whether the stone-handled cutlery of Bhera (Shahpur district) should be classed under the head of lapidaries' work or cutlery. The same artizan practises both trades; that is say, he forges and finishes the blade and fashions the false jade or serpentine hilt of *peshqabz* or of the hunting or dinner knife. The green, jade-like stone has not yet been assigned its proper name; it is not true jade, being much softer than that of Silesia or China, nor do authorities on the subject admit it to be *plasma*. It is said to be found near Kandahar, and to be brought down the river Indus on rafts floated with inflated skins to Attock, whence it is carried to Bhera. Other stones resembling serpentine and purbeck marble are used as handles, and also in the fashioning of toys and small objects, as paper-weights, by the lapidary cutlers of Bhera. There is a larger production than finds profitable sale. Old files of English manufacture are sometimes forged into daggers and knives of good quality. But country iron is generally used. The *jauhar* or "water," of Persian smith's work, so much prized on old blades, is imitated by a rough process of etching. A ground of fine lime, mixed with a suitable mucilage, is laid over the blade, and when nearly set, the thumb of the artificer is dabbed over the surface with the effect of removing the lime in fine lines, which have a certain resemblance to the fibre lines of welded and twisted steel. *Kasis*, or sulphate of iron, is then applied, and the lines are bitten in. No expert, however, could be deceived by these marks, in which the grain of the thumb is clearly manifest on close examination.

Swords, and the Afghan knife, or *peshqabz*, are made on the frontier, and some are exhibited by Haji Malik Rahman of Peshawur. It is not easy, however, to decide in some cases whether they are of local or Kabul manufacture. Old blades are now carefully collected, re-hilted, and damascened, and sold to collectors.

LAPIDARY WORK.

Collection of 8 articles of Bhera lapidary work, such as paper-weight, in the form of a tomb, of false jade, whip handles, caskets, by Alla Jawaya, of Bhera, Shahpur district. Prices from Rs. 2 to Rs. 50. *Not for sale.*

Collection of ditto ditto, by Sarajuddin of the same place. Prices from Re. 1 to Rs. 25. *Not for sale.*

A knife handle, by Mahomed Din. Price, Re. 1-4. *Not for sale.*

39 Articles of lapidary work, by Alla Jawaya, of Bhera, Shahpur. Prices from Re. 1-8 to Rs. 50. *For sale.*

3 Models of barracks, by Khoda Baksh, of the same place. Prices Rs. 28 and Rs. 8. *For sale.*

10 Knife handles and 2 caskets, by Mahomed Din, of the same place. Prices, Rs. 7-8 and Rs. 40 respectively. *For sale.*

Collection of 14 articles, such as chess-board, &c. Prices Rs. 2-8 to Rs. 80, by Surāj Din, of Bhera. *For sale.*

1 Marble pen case, Rs. 20-4-9, exhibited by His Highness the Raja of Nabha. Loan. *Not for sale.*

1 Book stand, marble (*rabul*), Rs. 20, exhibited by ditto. *Not for sale.*

1 Jade cow. Price Rs. 6. Exhibited by His Highness the Maharaja of Patiala. *For sale.*

CUTLERY.

A knife, a khukri, and 3 daggers, by Alla Jawaya of Bhera, Shahpur district. Prices from Rs. 3 to Rs. 20. *Not for sale.*

Seven objects cutlery, consisting of bread knife, scissors and knives combined, and 4 table knives, by the same. Prices vary from Re. 1-4 to Rs. 2-8. *Not for sale.*

Collection of 5 objects, cutlery, including hunting knife, pair table knives, and fork and knife. Price Rs. 14 for the lot, by Saraj-ud-din of the same place. *Not for sale.*

Two daggers, 2 forks, and knives, and a bread-knife by Mahomed Din, of Bhera. Price Rs. 25-8. *Not for sale.*

Two pairs scissors, by Alla Jawaya of Bhera. Price Re. 1-4 each.

Matchlock, by Asmuttulla of Ludhiana. Price Rs. 20. *Not for sale.*

Flint gun, by Amir of Kohat. Price Rs. 27. *Not for sale.*

Collection of 46 cutlery objects, containing table knives, forks, and knives, daggers, butter knives, scissors, and knives combined and hunting knives, &c., by Alla Jawaya of Bhera, Shahpur. Price Rs. 140-4. *For sale.*

17 objects of cutlery, by Golam Mohamed of Bhera, Shahpur district. Price Rs. 102 for the lot. *For sale.*

Collection of 44 cutlery objects, by Suraj Din, of the same place. Price for the lot Rs. 169-8. *For sale.*

Collection of 35 cutlery objects by Mohamed Din, of the same place. Price for the lot Rs. 96. *For sale.*

Eight articles of cutlery by Khuda Baksh of the same place. Price Rs. 129. *For sale.*

Collection of 5 cutlery objects manufactured at Peshawur, exhibited by Haji Malik Rahman, general merchant, Peshawur, comprising 2 knives, 1 dagger, 1 sword and one musket. Price Rs. 60, Rs. 30, Rs. 30 and Rs. 18 respectively. *For sale.*

1 Sword stick, Rs. 15. Exhibited by His Highness the Maharaja of Patiala. *Not for sale.*

1 Dagger or knife, Rs. 21. Exhibited by His Highness the Maharajah of Patiala. *For sale.*

CLASS XXIX.—BASKET WORK.

The best and neatest basket work of the province is wrought in the hills, and appears to be, like coarse woollen-cloth weaving, a domestic industry. The *ringall* bamboo is split into fine slivers; and baskets for holding small articles, notably yarn reeds, used in weaving, are neatly made. The *kilta*, a long basket carried on the back, is the most characteristic form, and besides bamboos, other flexible woods are used in its construction. A selection of baskets, including some small and finely finished examples, is shown from Kotgarh. From Kalka an open work variety with broader splints is sent.

In the plains, in the Mozuffergarh and adjoining districts, the *patta* or dwarf palm (*Chamerops ritchiana*) is used in the construction of baskets which are built up in rows of rolls usually in forms resembling ghurrahs and other vessels. Similar articles in dyed fibres are imported into Bombay from Zanzibar.

In the Hazara district, wheaten straw is similarly treated, and made into fancy baskets, card trays, &c., which are decorated with bits of coloured cloth. Examples of both these kinds are exhibited. At Delhi and Umballa tiffin baskets, ladies' work-tables, and waste-paper baskets are made of split bamboo, sometimes rudely dyed. This is a comparatively new and rising trade. But little cane is used, and there are no Chinese basket-makers in the province. The *chhuj*, or winnowing basket, is the type of another form of basket work extensively used in agricultural operations and in domestic life. The long stalks of *munj* are arranged and tied together in rows (the reed will not bend and intertwine), and both string and raw hide are used to tie the fabric together.

Certain castes, such as *Chungars* and others, who also are employed in winnowing corn, have a monopoly of this industry. Bits of coloured cloth and occasionally coloured woollen threads are worked into the reeds on the principle of the familiar mats made in Europe to lie under dishes and hot plates on the dinner table. Cowries are also used for decoration.

Collection of thirteen cane baskets from Delhi by Ram Dhan, including cane table, teapoy, tiffin baskets, flower stands, &c., price Rs. 24-8. *Not for sale.*

Eight palm-leaf baskets from Mozuffargarh district by different makers. Price Rs. 3-13-6. *Not for sale.*

Twelve straw baskets from Hazara. Price As. 8 each. *Not for sale.*

Collection of 20 small and large baskets from Kalka. Price As. 13-6. *Not for sale.*

Collection of fine baskets from Kotgarh, Simla district. Price Rs. 3-6. *Not for sale.*

Ten baskets of mezrai leaf from Khewra, Jhelam district. Price Rs. 7-8. *Not for sale.*

CLASSES XXXI & XXIII.—WOOD INLAID WORK.

Ivory and brass inlay is one of the manufactures of the Punjab which have been revived and extended in the last few years. In the Provincial Exhibition of 1863 this work was hardly represented, except by a few boxes, which did not attract much attention.

Now the workmen of Hushiarpur drive a considerable trade in ivory inlay, especially at the village of Bási Ghulam Husain. Several workmen combine in the work. Shisham (*Dalbergia sissoo*) wood is exclusively employed, and ivory; a small edging of blackened wood is occasionally introduced to set off the ivory.

Brass inlay is also practised in Hushiarpur, but perhaps the best work comes from the Chiniot district. The brass employed is thin plate and has to be cut with precision and neatness. The brass wire inlay of Mynpuri, N.-W. P., and other places is not practised.

Wood inlay is understood to a limited extent by nearly all the more skilful 'mistris' or carpenters of the Punjab. They employ box and other white woods upon shisham, or the latter upon the yellow deodar. But very few specimens are, however, to be seen surpassing the artistic work of the Mayo School of Industrial Art. Ram Sing, the head carpenter there, has done some beautiful work; a box tastefully inlaid, with the geometrical tracery, which is peculiarly adapted for display in this style, are made by some quite young pupils of the school. The Kasur Industrial Society has sent one inlay work, and carpenters in the employ of Rai Kanhya Lal, M.I.C.E., Executive Engineer.

Recently an inlayer of Shahabad in the Amballa district has successfully turned out small wares decorated with the pique inlay so well known in Bombay.

This work is capable of a large development, but there is much danger of its deterioration in quality, by a demand for the work in too great a hurry, as well as for articles at a price which will not pay first-rate work.

CLASS XXXI.—BRASS AND IVORY INLAY IN SHISHAM WOOD:

Collection of five articles of ivory inlay in shisham wood. An octagonal table, walking stick, picture frame, a box, and a pair of sandals (*kharanwan*), exhibited by Kanhya Lal, Hushiarpur. Price Rs. 77-8. *Not for sale.*

Collection of 52 objects, ivory inlay in wood, comprising large and small walking sticks, large and small rulers, brackets, picture frames, sandals, photograph frames, cabinet boxes, teapoy, and brackets with mirrors. Prices from Rs. 2 to Rs. 65. Exhibited by Kanhya Lal, Hushiarpur. *For sale.*

Collection of four objects ditto, by Gonda Mistri of Hushiarpur. A teapoy, cabinet brackets with and without glass. Price Rs. 192. *For sale.*

Collection of twelve objects ditto, by Gangoo Mistri of Basi Golam Hosain, Hushiarpur district; consisting of 3 small cabinets, 4 walking sticks, pair brackets, pair picture frames and a ruler. Price Rs. 181-8. *For sale.*

Collection of 9 objects of ivory inlay in wood, containing a model of tomb, 2 chairs, 3 pair sandals, 2 picture frames and a bracket with mirror. Exhibited by Kanhya Lal Bhábhra of Hushiarpur. Price Rs. 101. *For sale.*

Collection of 7 objects ditto, comprising a cabinet, chouki, 2 pen-cases, picture frame and a pair rulers, exhibited by the same merchant of the same place. Price Rs. 150. *For sale.*

An ivory inlaid bracket with 3 mirrors, Rs. 45 and a pair picture frame, price Rs. 45 and Rs. 12 respectively, by Gonda Mistri of Hushiarpur. *For sale.*

An ivory inlaid cabinet, 2 cabinet doors and picture frame. Priced at Rs. 130, Rs. 35, and Rs. 16 respectively, by Gangoo Mistri of Basi Golam Hosain, Hushiarpur. *For sale.*

An inlaid lady's sewing table by Hira Singh of Bahadurpur, Hushiarpur district. Price Rs. 45. *For sale.*

An inlaid box, by Fazal Din, Student, Mayo School of Art, Lahore. Price Rs. 20. *For sale.*

Ditto by Sundar Sing, student of the same school. Price Rs. 20. *For sale.*

An inlaid and carved cabinet, by Moula Baksh, student of Mayo School of Art, Lahore. Price Rs. 80. *For sale.*

An inlaid table by Thacker Singh, Mistri, exhibited by Industrial School, Kasur. Price Rs. 30. *For sale.*

An inlaid teapoy, by ditto. Price Rs. 86. *For sale.*

An inlaid box by Gurdit Singh, student, Mayo School of Art, Lahore. Price Rs. 20. *For sale.*

Ditto, ditto, by Ram Singh, student of the same school. Price Rs. 20. *For sale.*

Two inlaid dining and writing tables, by Nizam-din Mistri, Lahore. Price Rs. 80 and Rs. 60, respectively. *For sale.*

An inlaid box lent by Rai Bahadur Kanhya Lal, M.I.C.E., Executive Engineer, Lahore. *Not for sale.*

An inlaid and painted side-board designed and made by Ram Singh, Assistant Teacher, Mayo School of Art, Lahore, for E. C. Ruck, Esquire, Revenue and Agricultural Department. The large colored panels are of Hyderabad (Deccan) lacquer. *Not for sale.*

A brass inlaid box, Lala Kanhya Lal of Hushiarpur. *Not for sale.*

A brass inlaid box and four brass panels, by Mohamed Baksh of Chiniot, Jhang district. Price Rs. 57. *Not for sale.*

A brass inlaid camel *kajawa* by Mohkam Din of Chiniot, Jhang district. Price Rs. 30. *Not for sale.*

1 inlaid casket, Rs. 20, exhibited by His Highness the Maharaja of Patiala. *For sale.*

CLASSES XXXI & XXIII.—LACQUERED WOOD.

Native house furniture is exceedingly simple, being limited usually to a bedstead, one or two low stools, a spinning wheel and a few boxes. A part of each marriage outfit in the Punjab is a charpoy, and a quaint, high-backed stool of turned wood ornamented with lac. Very little painting on wood is now done, and the lac surface, obtained by pressing what is virtually a stick of colored sealing wax on an object revolving in the lathe, is a harder and more solid covering than any paint. The heat developed by friction melts the lac; further friction with the dry stem of a palm leaf, held end-wise; and a final application of an oiled rag of muslin, polish a coat of color which resists dust, the great heat of the hot weather, and the damp of the rains. But there are many refinements in this most simple art. In Sindh and in the Punjab layer upon layer of colored lac are laid. Then, with a *stylus*, these coats are scratched through in a manner analogous to Italian *sggraffito* decoration. Supposing red to have been first laid, then green, and lastly black, the black is scratched through for green leaves, the green and black for a red flower, and for a white line all are cut through to the wood. A red and green pattern with white outlines on a black field is thus produced. In the present collection a set of 21 objects, by Suraj-din of Ferozepore, displays the best sort of pattern scratching. A couch, and a bracket, experimental applications of the art to articles of European use by Bahadur of Pakpattan in the Montgomery district, where is a consider-

able industry of lac turnery, is another example. At Dera Ismail Khan fern-like scrolls of almost incredible minuteness are wrought on a black ground in red; much of this work is done by women. The D. I. Khan work is readily distinguished by the application of ivory studs and ornaments, which are fragile to begin with and only loosely fastened. The Hushiarpur work, of which a large series is exhibited, is remarkable for the vividness of its colors, the practice of using metallic grounds, and of filling in scratched outlines with lac of various colors. There are very few villages or towns in which a *kharāddi* or turner is not to be found, but the places mentioned above, with Sahiwal in the Shahpur district, have an export trade. At D. I. Khan the wood used is generally shisham (*Dalbergia sissoo*), and when only the red heart-wood is taken, the ware is proof against insects. The white sap-wood is attacked by worms which find no difficulty in penetrating the lac. This wood, is also used at Hushiarpur. At Pakpattan (Montgomery) the Lombardy poplar (*Populus euphratica*) a white non-resinous, insect-resisting wood, is used. Some lac-turners, like Suraj-ud-din, prefer the common *farash* (tamarisk) to anything else. The wood is light, white, and not liable to suffer from insects.

The painted and gilded bed-legs from Delhi and bows included in this sub-head are only lacquered in the conventional sense of being painted work protected by preparations of resinous varnish, and are here enumerated for the sake of convenience.

Four sets of painted bed legs from Delhi by Mir Mohamed. Price Rs. 32.
Not for sale.

Two sets of painted bed legs from Delhi, by Niamatulla of the same place. Price Rs. 7 each set. *Not for sale.*

Collection of 19 objects lacquer-ware from Dera Ismail Khan, by Yar Mohamed, consisting of boxes, balls, dishes, candlesticks, flower stands, a teapoy and a cigar case. Price Rs. 95. *Not for sale.*

Couch, experimental application of lac turnery to furniture. Bahadur of Pakpattan, Montgomery district. Price Rs. 100. *Not for sale.*

Bracket, ditto ditto, by the same, designed by the Mayo School of Art Price Rs. 100. *Not for sale.*

A goblet and a flower stand, by the same. Price Rs. 2 and Rs. 3 respectively *Not for sale.*

Pair of candlesticks by ditto. Rs. 5. *Not for sale.*

Collection of 10 objects lacquer-ware, exhibited by Kanhya Lal Bhabra of Hushiarpur. Prices from As. 6 to Rs. 10. *Not for sale.*

Collection of 21 objects lacquer ware from Ferozapore, by Saraj-ud-din. Price Rs. 74. *Not for sale.*

72 lacquered toys from Jampur, Dera Ghazi Khan district. Price Rs. 72-12-6. *Not for sale.*

Two painted pellet-bows from Sitapore, Mozuffargarh district, by Mohamed Baksh. Price Rs. 3-12. *Not for sale.*

245 lacquer toys from Sahimal, Shahpur district. Rs. 30-8. *Not for sale.*

Four bed legs by Shaman of Marara, Gurdaspur district. Price Rs. 5-8. *Not for sale.*

Lacquered collection of objects (boxes mostly) exhibited by Kanhya Lal Bhabra of Hushiarpur. Prices from Rs. 1 to R. 20. *For sale.*

Lacquered surahis and vases, by the same. Price Rs. 27. *For sale.*

Collection of 30 articles lacquer-ware from Dera Ismail Khan, by Ashraf. Price Rs. 236 for the lot. *For sale.*

One painted salver, Rs. 5, exhibited by His Highness the Maharaja of Patiala. *For sale.*

One ditto box, Rs. 3, exhibited by His Highness the Maharaja of Patiala. *For sale.*

CLASS XXXI.—WOOD CARVING.

Wood carving in the Punjab is happily still an essentially architectural art, and, excepting at Simla, where, in response to a European demand, there is a production of carved articles for furniture and drawing-room decoration, there is but little of the trivial "fancy work" in which the Indian-woodcarver is supposed to excel. On the doors and windows of native houses the best efforts of the carvers are expended. These are frequently wrought at a distance from the place where they are to be used, and are built into the structure at the will of the purchaser.

The door and window from Bhera (Shahpur district), from Chiniot (Jhang district), and from Batala (Hushiarpur district), give a fair idea of the most characteristic forms. It will be seen the style is Mahomedan. The ornament is severely conventional, and the introduction of panels of framed lattice work, locally known as *pinjra*, ingeniously dove-tailed in geometric designs, gives an Arabic character to the whole. The doorways of Delhi, Lahore, Amritsar, Batala and the older towns of the province include finer work than any here given, but the art is still full of vitality, and all the examples shown are genuine work of to-day produced by no official pressure and not directed or interfered with in any way. The cheapness of this work at present is one of its most remarkable features. As a demand has arisen of late years, the prices have gone up, and will probably rise still higher. But there could be a practically unlimited supply.

Wood-carving occurs incidentally on other objects, and there is no art for which both Sikh and Musalman wood-workers shew more aptitude. It is in large and architectonic treatment of wood, however, that their strength lies: and the best they can do must always be incapable of removal and exportation, and can only be properly appreciated when seen fixed in the picturesque constructions for which it was designed.

Pair carved cabinet, panels from Delhi, by Bhola, carpenter. Rs. 40. *Not for sale.*

A carved door, and a carved window from Bhera, Shahpur district, by Faza Din and others. Price Rs. 113. *Not for sale.*

A carved door and a carved window from Chiniot, Jhang district, by Mobaruk Din Mistry. Rs. 100. *Not for sale.*

A carved almirah, by ditto. Rs. 50. *Not for sale.*

A carved spoon, from Shahabad, by Rahim Baksh. Rs. 2. *Not for sale.*

Pair of carved brackets, from Simla, by Thackan. Rs. 25. *Not for sale.* Also D, Class 23—Furniture.

Pair carved bracket, ebonized, by Thacker Mistry, Simla. Rs. 8. *Not for sale.* Also D, Class 23—Furniture.

7 carved combs, by Mohkam Din of Chiniot, Jhang district. As. 15-6.

Four panels (open work) lent by Rani Kirpadevi, wife of Sirdar Bhagwan Singh, Amritsar, deceased. *Not for sale.*

1 Sandal wood carved box. Rs. 50, exhibited by His Highness the Maharajah of Patiala. *For sale.*

1 Pair wood sandals. Rs. 2 ditto. *For sale.*

1 Flower stand in box wood, perforated, Rs. 7 ditto. *For sale.*

1 Wooden pine leaf. Rs. 5-8, exhibited by ditto. *For sale.*

1 Carved door, by Jamahir of Batala, Gurdaspur district. Rs. 38. *For sale.*

IVORY CARVING.

Ivory carving is not an art which flourishes in the Punjab. At Amritsar great quantities of combs are made—an industry which probably originated with the Sikhs, who are Nazarenes in the treatment of hair and beard, and whose

long locks are confined under their turbans by a comb in ivory or box wood resembling the back-combs of the European ladies' toilette. The ivory combs, paper-cutters, and card cases of Amritsar are ornamented with geometrical open-work patterns of some delicacy of execution, but no great interest in design. Figure work is but seldom wrought in this province in stone or wood, owing to the predominance of Musulman notions, and the only ivory figure-carver of Delhi, Fakir Chand, does not seem to meet with much encouragement.

9 Ivory carvings, consisting of 3 combs, 3 paper-cutters and 3 card cases, by Lalas Davee Sahai and Chumba Mal, shawl merchants, Amritsar. Prices from Rs. 3-4 to Rs. 14. *For sale.*

Collection of 8 ivory carvings from Delhi, by Fakir Chand, Rs. 56. *Not for sale.*

Collection of 6 ivory carvings, from Amritsar, consisting of paper-cutters, &c. *Not for sale.*

Ivory carving. Rs. 44-10-3, presented by His Highness the Rajah of Nabha. *Not for sale.*

2 Ivory caskets. Price Rs. 98-5-9, exhibited by His Highness the Rajah of Nabha. *Not for sale.*

1 Ivory pen case. Rs. 103, exhibited by His Highness the Maharajah of Patiala. *For sale.*

1 Ivory statuette (female figure) Rs. 11, by ditto. *For sale.*

1 Ivory spoon. Rs. 7, exhibited by ditto. *For sale.*

1 Ivory turban straightener (Baz), Rs. 15, exhibited by ditto. *For sale.*

4 Ivory ducks. Rs. 4, by ditto. *For sale.*

2 Sets of ivory chessmen, by ditto. Rs. 26. *For sale.*

Ivory horse, elephant, and lion. Rs. 15, exhibited by ditto. *For sale.*

14 Ivory toys, Rs. 37, ditto ditto.

1 " spice box, Rs. 3, ditto ditto.

7 " mikraz used in making reed pens. Rs. 9 the lot, ditto ditto.

2 " paper knives, Rs. 5-3, ditto ditto.

2 " envelope cases. Rs. 15, ditto ditto.

1 " fan, Rs. 5 ditto.

2 " handled walking sticks. Rs. 21, ditto.

PAPIER MACHE AND PAINTED WOOD, KASHMIR WORK.

Some *qalmdāns* (pen cases) and small wares are made in papier maché in Kashmir and painted in water color afterwards protected by varnish. The words *papier maché* have come to be applied indiscriminately to the whole series of articles decorated with shawl pattern painting, the greater part of which are of wood.

It is perhaps too late to attempt to correct what has now grown into a trade usage.

The work is too well known to need description. Imitations are occasionally produced in the plains, but the articles met with in the course of trade, of which the selection shown on a trophy round the central pillar of the west side of the Court is a fair sample, are purely Kashmir products.

Collection of 20 objects, papier maché and painted wood, from Amritsar, exhibited by Davee Sahai and Chumba Mal, shawl merchants, consisting of trays, tea sets, card, glove and envelope boxes, *surahis martabans*. Prices from Re. 1-4 to Rs. 24. *For sale.*

Collection of 18 objects papier maché, exhibited by Lala Davee Sahai, Prab Dyal, shawl merchant, Amritsar, comprising tea set, pen and card cases, trays,

windows, wall brackets, chessmen, table, boat models, and flower stands, &c. Prices from Re. 1 to Rs. 22. *For sale.*

Collection of 50 objects papier maché from Srinagar, Cashmere, exhibited by Main Saffdur Mogúl, papier maché merchant, containing windows, letter stands, double tables, writing desks, Yarkandi bowls, cigar and pen cases, vases, jewel and-glove boxes, &c. Prices from Rs. 2-8 to Rs. 75. *For sale.*

DECORATIVE WORK.

Under this comprehensive heading, attention may be drawn to the four examples of decorative ceiling work from Amritsar. Of these three are in combinations of plaster modelled by hand in relief, with small mirrors. Sometimes the mirrors are discs separately framed, but in another style small pieces of mirror are framed in arabesque scrolls wrought with great delicacy in white plaster. The mirrors are blown in thin globes, which are silvered on the inside and then broken into fragments. There are numerous examples of this fantastic and beautiful, but laborious, form of decoration in the old buildings of the Punjab; and in Persia also it is well known. The border of an otherwise good specimen in the collection is disfigured by panels in which chenille wool work of crude color has been inserted under the glass—an example of the triviality and vulgarity into which a striving for “novelty” is apt to lead the native craftsman. The gilt and colored plaster work is more serious, and excepting for its tendency to excessive minuteness of detail, there is but little fault to be found with it. The fourth specimen is entirely of wood. This variety is formed of small pieces of wood of geometric forms, such as hexagons, triangles, &c., which are prepared and painted separately and afterwards put up on the ceiling, being held together by strips of raised moulding. The effect is often exceedingly rich, while the work is not nearly so laborious as might be imagined. In Cairo there is a greater variety of pattern than the Punjab can show, where, however, several fine ceilings have disappeared entirely of late years.

The ornamental moulded work in paper shown by the Mayo School of Art may be noted. A wainscot in colored and gilded paper, a screen, and a shield of the arms of the Punjab are specimens of this variety of decorative work. The common paper of the country being very fibrous, is particularly suitable for this purpose, and is easily pressed into moulds with a suitable paste, and when dry and fixed, it is nearly as hard as wood.

Four specimens of ceiling work, Amritsar, cost Rs. 350. *Not for sale.* (Of these three are in embossed, colored, and gilt plaster work, and one in wood.)

Screen in moulded paper, colored, Mayo School of Art, Lahore. *Not for sale.*

Wainscot in moulded paper, colored, and gilt, Mayo School of Art, Lahore. *Not for sale.*

Lunette with the arms of the Punjab in relief. Heraldically colored and gilt. *Not for sale.*

CLASS XXXII.—WOOLLEN PILE CARPETS, WOOLLEN RUGS, FELTS, DARIS, AND MATS.

It has been said that the Punjab jails have injured the indigenous industry of carpet-weaving. It would be more like the truth to assert that they have created such as exists. It was not until the Exhibition of 1862 that the Punjab was known beyond its border for the productions of carpets, and then only by the productions of the Lahore Jail executed for a London firm. There exist no specimens to show that the Mooltan industry, the only indigenous one of the province, was of either artistic or commercial importance. The success of the

Lahore Jail led to the introduction of the manufacture in other jails, and it is now taken up by independent persons. The series here shown by the Punjab jails is of unusual excellence, and includes copies of Persian originals in the possession of the Jeypore State, and the more familiar patterns known as Herati shawl, *rumal*, and others. The qualities vary from the finest counts made, to carpets of a cheaper kind. The Delhi Jail exhibits a reversible rug with a different pattern on each side. The Industrial Schools of Hushiarpur and Kasur display specimens of their production. Messrs. Davee Sahai and Chumba Mal, who have an extensive manufactory at Amritsar, show their own fabrics as well as importations from Bokhara. From Mooltan, colored carpets of great strength and solidity of texture are sent. The characteristic blue and white carpet, which seems peculiar to this indigo-growing centre, and is familiar both in woollen and cotton pile, is not, however, represented. A great improvement has taken place of late years in the Mooltan fabrics.

Haji Malik Rahman, merchant and Honorary Magistrate of Peshawar, shows imported Turkomandi rugs, a small Persian carpet, and large Persian and Turkomandi carpets. The warp of these foreign fabrics is generally of wool and not cotton.

Colored felt rugs are sent from Bhera in the Shahpur district. On the Dhera Ghazi Khan frontier finely colored rugs and camel bags are woven by Biloch women. The texture is somewhat harsh, but the patterns are harmonious and good, and the fabric has great wear-resisting powers. Some of the camel trappings are decorated fancifully with white cowries. Like other fabrics produced by pastoral people, as Central Asian carpets, these are sometimes apt to "buckle," i.e., they do not lie flat. The loom with the carpet on it is rolled up and carried away as the flocks are moved to fresh pastures. It may be noted that rugs and saddle cloths, precisely similar in texture and pattern and in the use of shells as ornamental tassels and fringes, are found in the Balkans. In Central India and the Deccan, the Bunjára women weave clothing, and the pack-saddles of their bullocks in textures and patterns almost identical with this Biloch work.

The Cashmere *gabha* is an embroidered rug formed by cutting out forms in woollen-cloths of various colors, which are inserted and counter-changed like the *opus consutum* of mediæval times, the edges and field being worked in a large 'broidery stitch in suitable colors. Examples of these and of the embroidered *numdas* or felt rugs peculiar to Cashmere are sent. In the latter a square or oblong of felt is worked over in colored silk or wool with a bold outline pattern. This also makes the felt more durable.

Woven cotton *darris* are shown from several jails. A woollen *darri* comes from Peshawar Jail. The cheapness and solidity of these goods are their great recommendation. Dyed cotton so quickly tones down that a somewhat excessive brightness of color is not so objectionable as may at first appear.

Matting is largely made from *munj* and other fibres, but little is exported from the province.

11 Woollen pile carpets of different sizes, by the Delhi district jail. Prices from Rs. 18 to Rs. 406. *For sale.*

2 Carpets (11' x 8' each). Prices Rs. 68-8 and Rs. 39 respectively, by the Peshawar jail. *For sale.*

2 Carpets (9 x 12 each). Price Rs. 131-10 each by the Amritsar district. *For sale.*

Carpet (11 x 8), by the Mooltan district jail. Price Rs. 88. *For sale.*

3 Carpets, from the Dera Ismail Khan jail. Price varying from Rs. 87 to Rs. 150. *For sale.*

A carpet (11 x 8) from the Rawalpindi jail. *For sale.*

A carpet (11 x 8) from the Hissar jail. Price Rs. 58-10-8. *For sale.*

3 Carpets, different sizes, by the Sialkot jail. Price from Rs. 38-2 to 82-4-3. *For sale.*

- 2 Carpets by the Industrial School, Hushiarpur. *For sale.*
 2 Carpets by the Industrial School, Kasur, Lahore district. Price Rs. 39-12 and Rs. 41-4. *For sale.*
 3 Carpets, Jeypore pattern, by the Lahore central jail. Price Rs. 1,000. *For sale.*
 1 Ditto, old shawl pattern, by the same. Price Rs. 200. *For sale.*
 1 Ditto, new shawl pattern, by ditto. Price Rs. 220. *For sale.*
 1 Herati new shawl carpet (12 × 8), by ditto. *For sale.*
 1 Jeypore pattern carpet (13 × 10), by ditto. *Not for sale.*
 2 Carpets, Persian and Turkomandi. Price Rs. 32 and Rs. 92 respectively, exhibited by Haji Malik Rahman. *For sale.*
 6 Turkomandi rugs, exhibited by ditto. Price Rs. 12 each. *For sale.*
 9 Amritsar woollen carpet, exhibited by Davee Sahai and Chumba Mal, Amritsar. Price from Rs. 133 to Rs. 217.
 1 Carpet, silk, from the Nabha jail. Price Rs. 15. *Not for sale.*
 1 Carpet by Davee Sahai and Prubdyal, Amritsar. Price Rs. 40. *For sale.*
 1 Pashmina carpet from Amritsar, by Davee Sahai, Chumba Mal, Amritsar. Price Rs. 200. *For sale.*
 1 Silk carpet, Rs. 50, by ditto, of the same place. *For sale.*
 4 Cashmere gabba, by ditto, Rs. 12 each. *For sale.*
 5 Bokhara carpets, by ditto. Price Rs. 425. *For sale.*
 2 Multan woollen pile carpets, each Rs. 60-8, by Mohamed Yar of Multan. *Not for sale.*
 4 small rugs at Rs. 2-8 each, by ditto. *Not for sale.*
 1 Persian carpet (importation), exhibited by Haji Malik Rahman, Peshawar. Rs. 150. *Not for sale.* This is a particularly fine specimen of the most delicate Persian carpet work.
 1 Bashiri carpet, by ditto. Rs. 200. *Not for sale.*
 2 Felts, by Rahim Baksh of Bhera, Shahpur district. Rs. 25. *Not for sale.*
 2 Biloch rugs, from Dera Ghazi Khan district. Rs. 30. *Not for sale.*
 2 Saddle bags, from the same place. Rs. 40. *Not for sale.*
 A small felt, exhibited by Haji Malik Rahman of Peshawar. Rs. 4. *Not for sale.*
 Samples of palm leaf matting and fans, exhibited by Haji Malik Rahman of Peshawar. Price Rs. 2-6. *Not for sale.*
 1 Woollen carpet, by the Patiala jail. Rs. 18. *For sale.*
 1 Cotton carpet, by ditto. Rs. 12-6. *For sale.*

COTTON DARRIS.

- 2 Darris from the Sialkot jail. Price Rs. 39-12. *For sale.*
 Darri, from the Hissar jail. Price Rs. 14-10-8. *For sale.*
 Darri, from the Industrial School, Kasur, Lahore district. Rs. 28. *For sale.*
 Dari, from the Amballa jail. Price Rs. 19-9. *For sale.*
 Darri, from the Jhelum jail. Rs. 22. *For sale.*
 Darri, from the Gujrat district jail. Rs. 14-10-8. *For sale.*
 Darri, from the Multan district jail. Rs. 18-3. *For sale.*
 Darri, from the Dera Ismail Khan district jail. Rs. 16-5-3. *For sale.*
 1 Darri, Nabha jail, Rs. 15, from the Nabha State. *Not for sale.*
 1 Darri. Rs. 5-8, by the Patiala jail. *For sale.*

CLASS XXXIV.—KOFI OR DAMASCENE WORK.

This art industry is not in a condition altogether satisfactory: it might be improved in its application and in its method, especially by the restoration of the more ancient method of incised or deeply laid damascene. The Punjab work is all made by simply scratching the pattern on a steel or blued-iron surface, and then

the fine gold wire which is caught and held in place for a short length at a time by the rough edges of the style scratch, is first hammered in (*kust*) and then rubbed down with an agate point (*mohari*.) The work is of foreign (probably Persian) origin, and became popular in the Punjab, especially at Lahore, when the demand for inlaid arms and armour for the Sikh nobility was at its height, but the art seems to have been introduced long before that period, *viz.* in Mahomedan times. The best workmen came from Kabul and beyond, and settled at Lahore, and a few of the class still remain, their work being superior both in taste and execution to that of Gujrat or Sialkot. Indeed, they only want to meet with encouragement in the way of good ancient models to copy or take ideas from, to produce excellent work. Modern workers, both at Gujrat and Sialkot, are injured by the want of some reasonable purpose to which to apply their art. At present they snatch at every European article, however worthless, in the shape of ornament, inkstand or platter to copy. Moreover the habit of bargaining and the beating down of prices compels the men to a cheap and superficial sort of work in which the gold is inferior and lightly applied and the design wanting in character, and too diffuse.

Collection of 6 objects damascened work, by Ibrahim, Koftgar, Gujrat. Price Rs. 270. *For sale.*

Six articles of ditto by Asmutulla of Gujrat. Price Rs. 116. *For sale.*

Six articles of ditto, by Hashim Ali of the same place. Price from Rs. 15 to Rs. 30. *For sale.*

Six articles of ditto, by Sultan Mohamad of the same place. Prices varying from Rs. 10 to Rs. 50. *For sale.*

Collection of three shields, a salver, a tray and a bowl, by Mahomed Hosein of Gujrat. Prices Rs. 66, Rs. 23, Rs. 12 and Rs. 7 respectively. *For sale.*

Collection of 6 objects of damascened work, by Mir Din of Gujrat. Price Rs. 90. *For sale.*

Ditto, by Mohamed Ali of the same place. Price Rs. 52. *For sale.*

Ditto, by Abas Ali of the same town. Price Rs. 31. *For sale.*

Collection of 6 objects damascened work from Lahore, by Anuddin, Koftgar. Prices from Rs. 12 to Rs. 35. *For sale.*

Six articles of ditto, by Golom Rasul of Gujrat. Prices Rs. 7 to Rs. 50. *For sale.*

Ditto by Mola of the same town. Price Rs. 99. *For sale.*

A sword belt, by Enuddin of Lahore. Rs. 35. *For sale.*

Six articles by Mohamed Azim of Gujrat. Price Rs. 294. *For sale.*

Ditto, by Shamsuddin of the same place. Price Rs. 98.

Ditto, by Eman Din of Kotli Loharan, Sialkot district. Price 3-14. *For sale.*

Ditto, by Umar Din of the same place. Price Rs. 97. *For sale.*

Ditto, by Alla Din of ditto, Price Rs. 220. *For sale.*

Ditto, by Mohamed Din of ditto. Rs. 370. *For sale.*

Ditto, by Mohamed Hosein of Kotli Loharan, Sialkot district Price, Rs 225. *For sale.*

Ditto, by Golam Jilani of ditto. Price Rs. 425. *For sale.*

Collection of 12 objects damascened work by Kutab Din and Abdul Rahman of Kotli Loharan, Sialkot district. Price Rs. 680. *For sale.*

Six articles by Sultan Bakhsh of ditto. Price Rs. 72. *For sale.*

Four picture frames, and a pair candlesticks, by Sultan Mohomed of ditto. Rs. 24 and 10 respectively. *For sale.*

One pair pen-trays, 1 pair picture frames, and 1 pair small plates, by Ata Mohamed of ditto. Rs. 50. *For sale.*

Six articles, by Mohamed Din of ditto, Rs. 48. *For sale.*

Ditto, by Pirkakhsh of ditto. Rs. 123. *For sale.*

Ditto, by Mohamed Yar of ditto. Rs. 134. *For sale.*

Ditto, by Golam Hosein of Kotli Loharan, Sialkot district. Price Rs. 270. *For sale.*

- Six articles, by Mohamed Baksh of Kotli Loharan, Sialkot district. Rs. 295.
For sale.
- Ditto, by Nabi Baksh of ditto. Rs. 151. *For sale.*
 Ditto, by Golam Hosein of ditto, Rs. 150. *For sale.*
 Ditto, by Navi Baksh of ditto. Rs. 137. *For sale.*
 Ditto, by Nathoo of ditto. Rs. 170. *For sale.*
 Ditto, by Hamiduddin of ditto. Rs. 169. *For sale.*
 Ditto, by Golabuddin of ditto. Rs. 338. *For sale.*
 Ditto, by Charag Din of ditto. Rs. 260. *For sale.*
 Ditto, by Jan Mohamed of ditto. Rs. 140. *For sale.*
 Ditto, by Golum Mohuddin of ditto, Price Rs. 120. *For sale.*
 Ditto, by Ahmad Din of ditto. Rs. 84. *For sale.*
 Ditto, by Golam Mohuddin of ditto. Price Rs. 105. *For sale.*
 Ditto, by Abdul Azis of ditto. Price from Rs. 23 to Rs. 50. *For sale.*
 Ditto, by Ramzan Mistri of ditto. Rs. 203. *For sale.*
 Ditto, by Khushia Mistri of ditto. Rs. 64. *For sale.*
 Ditto, by Mohamed Ashaq of ditto. Rs. 95. *For sale.*
 Ditto, by Mohamed Yar of ditto. Rs. 375. *For sale.*
 Ditto, by Sheikh Ahmad of ditto. Rs. 25 to Rs. 75. *For sale.*
 Ditto, by Sharaf Din of ditto. Price from Rs. 12 to Rs. 45. *For sale.*
 Ditto, by Fez Ahmad of ditto. Price from Rs. 10 to Rs. 34. *For sale.*
 Ditto, by Khurshed Ahmed of ditto. Price from Rs. 20 to Rs. 35. *For sale.*
 Ditto, by Mohamed Ramzan of ditto. Price Rs. 14 to Rs. 80. *For sale.*
 Ditto, by Fazal Din of ditto. Price from Rs. 12 to Rs. 30. *For sale.*
 Ditto, by Khuda Yar of ditto. Price Rs. 15 to Rs. 150. *For sale.*
 Ditto, by Ahmad Yar of ditto. Price from Rs. 25 to Rs. 100. *For sale.*
 Six articles, by Golam Mohamed of Kotli Loharan, Sialkot district. Price from Rs. 26 to Rs. 40. *For sale.*
 Ditto, by Badruddin of ditto. Prices from Rs. 18 to Rs. 100. *For sale.*
 Ditto, by Talah Din of ditto. Price from Rs. 8 to Rs. 65. *For sale.*
 Ditto, by Saraj Din of ditto. Prices from Rs. 10 to Rs. 40. *For sale.*
 Ditto, by Fatteh Din of ditto. Price Rs. 50 to Rs. 150. *For sale.*
 Ditto, by Sharaf Din of ditto. Price Rs. 12 to Rs. 60. *For sale.*
 Ditto, by Eman Din of ditto. Price Rs. 8 to Rs. 60. *For sale.*
 Ditto, by Nur Din of ditto. Price Rs. 40 to Rs. 140. *For sale.*
 Ditto, by Charag Din of ditto. Price Rs. 20 to Rs. 45. *For sale.*
 Ditto, by Mohammed Sharif of ditto. Price Rs. 22 to Rs. 70. *For sale.*
 Ditto, by Golam Mohamed of ditto. Price Rs. 150. *For sale.*
 Ditto, by Nizam Din of ditto. Price Rs. 150. *For sale.*
 Twelve articles, by Ala Mohamed and Sultan Ali of ditto. Prices Rs. 12 to Rs. 150. *For sale.*
 6 Articles, by Mohamed Din of ditto. Price Rs. 12 to Rs. 24. *For sale.*
 Ditto, by Emam Din of ditto. Price Rs. 12 to Rs. 23. *For sale.*
 Ditto, by Ismail of ditto. Price Rs. 122. *For sale.*
 Ditto, by Nizam Din of ditto. Price Rs. 130. *For sale.*
 Ditto, by Charag Din of ditto. Price Rs. 12 to Rs. 24. *For sale.*
 Plate armour by Sharaf Din of ditto. Price Rs. 80. *For sale.*
 6 Articles, by Fazl Ahmad of ditto. Prices from Rs. 35 to Rs. 75. *For sale.*
 2 Sets saucers and surahis and 4 surahis by Sudderuddin of Kotli Loharan, Sialkot district. Price Rs. 200. *For sale.*
 10 Articles, by Sharafuddin of ditto. Prices varying from Rs. 14 to Rs. 150. *For sale.*
 Collection of Koft objects by Buddha of Kotli Loharan, district Sialkot. Prices from Rs. 10 to Rs. 90. *For sale.*
 A helmet by Amirulla of Lahore. Rs. 50. *For sale.*
 Koft work exhibited by Davee Sahai and Chumba Mal of Amritsar. Prices Rs. 1-8 to Rs. 190. *For sale.*
 A helmet by Amirulla of Lahore. Price Rs. 85. *Not for sale.* Copy from a Persian original.

Pair battle-axes, by Enuddin of Lahore. Price Rs. 30. *Not for sale.*

1 Belt clasp, damascened. Price Rs. 9-5. Exhibited by His Highness the Raja of Nabha. *Not for sale.*

1 Shield, 1 dagger and 1 sword, damascened. Rs. 250, Rs. 75, and Rs. 200 respectively, exhibited by His Highness the Maharaja of Patiala. *Not for sale.*

1 Bow, 1 helmet, and 1 salver. Price Rs. 100. Exhibited by ditto. *For sale.*

1 Straight sword. Price Rs. 100. Exhibited by ditto. *Not for sale.*

CASHMERE SILVER WORK, &C.

Collection of fifteen articles of Cashmere silverware, exhibited by Davee Sahai Prubdyal of Amritsar. Prices varying from Rs. 7-8 to 28-8. *For sale.*

Collection of thirty-nine articles of Cashmere silverware, exhibited by Davee Sahai and Chumba Mal of Amritsar. Prices varying from Rs. 8-12 to Rs. 378. *For sale.*

A bottle mounted in silver wire and plate by Nikka, silversmith of Jallandhar. Price Rs. 100. *For sale.*

A silver wire cup by ditto ditto. Price Rs. 50. *For sale.* The cup is of glass.

Glass mounted in silver covered by ditto ditto. Price Rs. 100. *For sale.*

Two goblets, glass, silver-mounted, by ditto ditto. Price Rs. 40. *For sale.*

Pair native woman's shoes in silver, by ditto ditto. Price Rs. 200. *For sale.*

SILVER WARE.

Silver chair (pihri) lent by Lala Kaun Chaund Rais, Amritsar. *Not for sale.*

Silver box with key and lock from Amritsar, by ditto. *Not for sale.*

Silver Nandigan, lent by ditto from Amritsar. *Not for sale.*

Two water vessels, silver gilt. Rs. 132-11, exhibited by His Highness the Maharaja of Patiala. *For sale.*

COPPER, ENGRAVED, ENAMELLED, AND EMBOSSED.

Cashmere copperware enamelled, exhibited by Davee Sahai Prubdyal of Amritsar. Prices varying from Rs. 12 to Rs. 120. *For sale.*

Five articles of ditto, exhibited by Davee Sahai and Chumba Mal of Amritsar. Prices varying from Rs. 6-4 to Rs. 17. *For sale.*

Sixteen articles of Cashmere copper, engraved, exhibited by Davee Sahai Prubdyal of Amritsar. Prices varying from Rs. 2-8 to Rs. 55. *For sale.*

Collection of ditto, exhibited by Davee Sahai and Chumba Mal of Amritsar. Prices from Re. 1-8 to Rs. 22. *For sale.*

Collection of Cashmere copper, engraved, electro-plated, exhibited by Davee Sahai and Chumba Mal of Amritsar. Prices varying from Rs. 7 to Rs. 110. *For sale.*

Pair copper embossed panels, by Uttar Singh of Amritsar. Price Rs. 44. *Not for sale.*

One pair ditto ditto. Price Rs. 14. *Not for sale.*

One ditto ditto, care of Davee Sahai and Prubdyal, Amritsar Price Rs. 21-8. *Not for sale.*

CLASS XXXV.—TOYS.

Model of singing bird in ivory cage, exhibited by His Highness the Raja of Nabha. *Not for sale.*

This is a remarkably skilful copy of the well known "Piping Bullfinch" automaton originally made by Swiss artificers. The artist is a watchmaker employed by the Nabha State, Nathu Mal.

SECTION E.—FABRICS, INCLUDING APPAREL, TOILET
REQUISITES, &c.

CLASS XXXVIII.—COTTON FABRICS.

It is unnecessary for the present purpose to attempt a description of all the cotton manufactures of the Punjab; for, though compared with those of other provinces, they are not very important or extensive, they are very various, and include a number of domestic and common goods.

There is considerable artistic merit in many of the cloths woven in colours. Among these the checked *khes* of Leiah (Dera Ismail Khan district) takes a high place both as to solidity of texture and appearance. From Mozuffergarh good specimens are also shown. The *gamrûns* of Ludhiana are largely used for summer clothing. There are comparatively few combinations of cotton with colored silk and gold edgings, like the *saris* made in the Bombay Presidency at Ahmedabad, Surat, and Yeola; and none of the delicacy of ornamental edging for which the Bombay goods are notable.

Gold ends with bars of color are worked in turban pieces called *lûngis* at many places. The Kohat *lûngi* is richly ornamented with colored silk bars and stripes at the ends, something like the familiar Algerian stripes. The pattern is known as the Burgash *lûngi*, and it is distinctive, like the check of a Scottish tartan, of a particular *khel* or clan, and is adopted as the turban of a frontier regiment first raised by Sir John Coke. The fine *tanzaib* muslins of Rohtak, the highly-glazed *ghâti* or longcloth of Jullundur, which, until the introduction of European goods, was the material for the full dress of persons of quality, and the *chautahis* of Batala, are characteristic examples of the finer class of cotton goods produced in the province.

The *susis* (striped and checked goods) from Batala and Khushab are specimens of one of the most favourite fabrics for native wear.

3 *Ghiras*, by Allahbaksh of Delhi. Rs. 9-15. *Not for sale.*

2 Checked *khes*, by Mohamed Baksh of Mozuffergarh. Price Rs. 7 each. *Not for sale.*

4 ditto, by Jindu of Leiah (Dera Ismail Khan district). Rs. 5-1 each. *Not for sale.*

31 Half pieces *gamrûns* from Ludhiana, exhibited by Partab Singh of Lahore. Price Rs. 92-8-6 or As. 4 to As. 10 per yard. *Not for sale.* A complete set of the patterns now in the market.

5 Pieces of Tanzeb muslin, by Monamanuddin of Rohtak. Price from Rs. 4 to Rs. 20. *Not for sale.*

2 Turbans with gold ends from Rewari (Gurgaon district). Rs. 3-8. *Not for sale.*

1 Piece of longcloth (*ghâti*) by Haji Jhandu of Jullandhur. Rs. 8. *Not for sale.*

2 Pieces ditto, by Gholam Gans of the same place. Rs. 20. *Not for sale.*

2 White and brown *lûngis*, by Haji Jhandu. Price Rs. 75. *Not for sale.*

1 *Kamarband* and *pagri*, by Atai of Kohat. Price Rs. 35. *Not for sale.*

Ditto, ditto, by Guffur of the same place. Rs. 41. *Not for sale.*

A cotton cloth (*sufi*) from Bahawalpur Rs. 48. *Not for sale.*

3 *Lungis* from Ludhiana, exhibited by Madde Mal. Rs. 20-6. *Not for sale.*

1 *Chotai* from Batala (Gurdaspur district), exhibited by Lal Mal. Rs. 23. *Not for sale.*

9 Pieces of *susi* of different patterns and colours, exhibited by Lal Mal of Batala (Gurdaspur district). Rs. 55-9. *Not for sale.*

13 Pieces of check cloth from Khushab (Shahpur district). Price Rs. 26-13. *Not for sale.*

Collection crotchet-work, cotton bags, &c., by Kapur Singh of Patiala. Price Rs. 6-2. *Not for sale.*

A *Chautahi* and a *khes*. Rs. 24-2 and 7-8 respectively. Exhibited by His Highness the Raja of Nabha. *Not for sale.*

36 Sample pieces muslin. Rs. 4-8. Exhibited by His Highness the Raja of Nabha. *Not for sale.*

1 Piece *chautahi*. Rs. 10. Exhibited by His Highness the Maharajah of Patiala. *For sale.*

1 *Khes*, white, 7, ditto ditto.

1 Ditto, checked, Rs. 3-8, ditto ditto.

COTTON FABRICS, PRINTED GOODS, PUNJAB.

There are few crafts more widely practised than cotton printing, which is found in the small villages of remote districts as well as in large towns. At Kot-Kamalia in the Montgomery district and Sultanpur in the Kapurthalla State, two comparatively insignificant places, the best work is produced. Some of these were on the ceiling of the Court. The printing is done, of course, entirely by hand, and the dyes used are indigenous in nearly all cases. The patterns vary considerably. Those of the Umballa district on narrow widths are "all-over" diapers or stripes, and are principally sold in the hills. The Sultanpur work is often in two colors only, a terra-cotta red on a salmon or ivory ground, and is eminently suited for wall hangings, *dados* or *dewargirs*, as they are called by native workmen. Other examples are from Lahore, Mooltan, Hassan Abdal, Sialkot, Amritsar, &c. Among the Kot-Kamalia *purdahs* is an example of hand brush-work, aiding the block in the production of a large tree, as in the hand-painted *persiennes* of a hundred years ago, imported from Persia. The chief native use of cotton print is in the form of an *abra*, a large oblong quilt, which wadded with cotton, forms a winter wrap. It is now, however, largely used for lining the walls of European houses, and no other means of decoration produces so warm and rich an effect at so cheap a rate. The dyes used in the printing protect the cloth from insects, and when tightly stretched they are not found to harbour dust. The trade has greatly improved of late years, and received an impulse from the Punjab Exhibition of 1881-82.

Another variety eminently suited for decorative purposes is the gold and tinsel-printing done at Delhi, Kangra, Rohtak, Lahore, and other places. This is printed with wooden blocks in a *massala*, chiefly composed of glue, which serves as a gold-size, on which gold, silver or tinsel leaf is applied. Fabrics of this kind will not, of course, bear washing. There natives use it for wedding gear, but they are coming into favour for *portieres*, curtains, and panelling in English houses. Another curious variety, which though not cotton printing strictly speaking, may be conveniently noted here, is the lac and color painting on red and blue cotton fabrics produced in the Peshawur district. Blocks are not used, but red, yellow, and other colors in a thick sticky pigment are applied in bold semi-barbaric patterns, on which, as they dry, *adrak* or powdered tale is sprinkled. Examples are shown by Haji Malik Rahman, Honorary Magistrate of Peshawur.

It should be noted that, contrary to common belief, few of the colors used in native cotton printing are permanent. The red from madder, blue from indigo, turquoise from copper, and black from iron are often fairly fast, while greens and yellows are fugitive. No glazing is applied to colored work as in Persian, Masulipatam and, English chintzes. The white *ghati* or 'longcloth' of Rahon, Julundhur, on the other hand, is very highly glazed.

- 2 Bed-covers, by Munna of Delhi. Rs. 3. *Not for sale.*
 6 Cotton prints, by Illahibaksh of Delhi. Price Rs. 6. *Not for sale.*
 8 Pairs of curtains of different sizes, by Chanda Singh of Sultanpore, Kapurthalla. Rs. 2-3 to 21. *Not for sale.*
 20 *Tajims* (floor cloths), of different sizes, by ditto. Rs. 15-12 to Rs. 105. *Not for sale.*
 19 *Dados* or *dewargirs*, different, sizes, by ditto. Rs. 57-12. *Not for sale.*
 Table cloths, *abras*, bed cloths, bed-covers, table-covers, and curtains, &c., by ditto. Rs. 4 to Rs. 30-3. *Not for sale.*
 Cotton prints, Rs. 33. *Palangposh*, *dados*, *abras*, *purdah*, &c. by Alla Yar of Kot Kamalia (Montgomery district), from Re. 1-3 to Rs. 28-2. *Not for sale.*
 Curtains, *abras*, *safa*, exhibited by Patte. Rs. 16-12. *Not for sale.*
 12 *Abras* and a *dado*, by Abdulla of Mozang, Lahore district. Rs. 15 and Rs. 2-8 respectively. *Not for sale.*
 2 *Abras* from Hasan Abdal, Rawalpindi district. Re. 1-2. *Not for sale.*
 Eight cotton prints, *dado*, *palangposh*, &c., by Jhandu of Lahore. Rs. 26-8. *Not for sale.*
 2 *Abras*, from Lahore bazar, exhibited by Gulzari. Rs. 3-7. *Not for sale.*
 5 *Abras* from Amritsar. Rs. 7-7. *Not for sale.*
 * Eight pieces of *abras*, *chintzes*, &c., by different makers, from the Amballa district. Rs. 11-8. *Not for sale.*
 12 Cotton prints from Bahrapore, Gurdaspore district. Rs. 13-11. *Not for sale.*
 5 Pieces from Sialkot. 1 floor cloth, Rs. 5-8, 3 *razai*, Rs. 3-8. and 1 pair *razai*, Rs. 2-4. *Not for sale.*
 5 Lac-painted curtains, exhibited by Haji Malik Rahman of Peshawar. Rs. 7 each. *Not for sale.*
 4 Ditto table cloths, by ditto. Rs. 14. *Not for sale.*
 2 Small window curtains, by ditto. Rs. 4. *Not for sale.*
 3 Ditto Handkerchiefs, by ditto. Rs. 3. *Not for sale.*
 2 Silver prints on cotton from Amritsar. Rs. 6. *Not for sale.*
 12 Tinsel prints from Rohtak Rs. 48-8. *Not for sale.*
 3 Ditto, from Kangra, by Nuran Baksh. Rs. 17-8 *Not for sale.*
 8 Ditto, from Delhi by Kumed Singh and Nathoo Singh. Rs. 56. *Not for sale.*
 2 Ditto, from Lahore, by Golab Mal. *Not for sale.*
 1 Gold ditto, by ditto. *Not for sale.*

CLASSES XXXIX & XLIV.—WOOLLEN FABRICS & SHAWLS.

It is natural that a province situated as the Punjab is with a northern frontier of hill territory, where severe and long winters are the distinguishing characteristics, and having a north-western frontier giving access to the Cabul and Kashmir trade, that the variety of woollen fabrics should be considerable. Excluding carpets as forming a special class, we include under woollen fabrics two main classes of goods:—(1), those in which the "*pashm*" of the shawl-wool goat is employed; and (2), those in which ordinary wool, or camel or goat hair, is employed.

Under the first class, the Kashmir shawls are the most prominent. They are of two kinds: the first is the loom-woven, in which the pattern is produced in the loom itself, by the aid of a vast number of small bobbins carrying the colored *pashm*, the shuttle and cross threads being only used to secure the whole fabric; the second is the cheaper kind, in which the whole of the pattern is embroidered with the needle. The shawls are made in traditional forms, the "*doshala*," or long shawl in pairs, the "*ramál*" or square shawl, and the "*jámiwár*," or shawl always in broad stripes of alternate color, green and white, red and blue, &c.,

The shawl trade is a very fluctuating one. As a rule it may be said that the fabric is too costly in proportion to the appearance it makes. The exports for Kashmir were in value—

Rs. 21,50,000 in 1880.
 „ 10,88,000 in 1881.
 „ 11,31,000 in 1882.

The introduction of the aniline dyes has done a great deal to injure the design and appearance of shawls, especially the coarse crimson known as magenta shawl. Weaving is carried on in Amritsar, where, however, the Chángthán stout wool is obtained, and not the first quality, which never leaves Kashmir.

In Gujrat a little coarse shawl weaving is done, and at Núpúr also, but here, and occasionally at Sialkot, shawl edging only is made. The edge of the shawl has to be stiffer and stronger than the shawl itself, and is woven on a silk ground. There is some likelihood that the "kinára" or edging by itself may become an article of trade, as it might be used for dress trimmings and other purposes.

In Amritsar and Ludhiana, a popular form of shawl, usually plain, is made, and known as the "Rámpúra chaddar." The shawl is of thin, plain, single thread or twist pashm in white, red, and other colors. It may or may not have a shawl border or embroidered corner pieces. The value varies according to quality, and as people are in the habit of demanding cheapness, the use of a soft wool called "wáhábshahi" imported from Kabul to adulterate or replace the real shawl wool, is not uncommon. The name "Rámpur" is derived from the fact that in former years some fine blankets or shawls made of the soft sheep's wool of the Basáhir valley (Upper Sutlej, capital Rámpur) used to be sold at Ludhiána, and the pashm chudders now sold are an improvement on this, but have kept the name.

Other fabrics of pashm or shawl wool are much in demand. Such are the plain cloths called *alwán* or *yák-tara*, which are fine soft cloths, of thin twisted thread, properly speaking unfelted. "Malida," as the name implies, is a thicker cloth of coarser thread, and felted with "rita" (soapnut, *sapindas detergens*) and water till the threads are no longer distinguishable.

The term *pattú* is also applied to pashm plain cloth.

Of other woollen fabrics, the protected hill states of Simla and the British districts of Kangra (including the Kulu valley), Chamba and other hills are the great provinces. The climate there demands woollen clothing, of which a striking example is to be found in the quaint dress of the Chamba "gaddi" or mountain shepherd. It is of coarse but stout and warm grey wool, the ample coat or blouse being secured at the waist by a long girdle of dark brown wool rope felted till all trace of pleating disappears. Among other fabrics, goat blankets, in checked pattern and plain, are often sent down, and these are ornamented with borders and fringes of cotton, often of pleasing design. The hill people everywhere are acquainted with the art of dyeing wool with madder, which gives a dull, deep red, and with yellow from the root of *Anchusa*, and other plants also with black. The browns and greys are natural colors of the wool. The result of the colors in combination is exceedingly picturesque and good. In the plains the ordinary wool weaving is almost confined to dark brown and black blankets, and to goat hair cloth woven into "borás," or stout sacks for grain, &c. A finer blanket or shawl, called "loi," is also much worn by the middle classes in the cold season; it is usually white. Woollen cloth (brown and grey) called "pattu" is made in narrow widths in districts bordering on the hills; it is warm and soft, but does not wear well. From the north-western frontier are woollen fabrics in some variety. The camel has an inner wool or pashm like the shawl goat; and the Central Asian States, as well as Afghánistán, make varieties of "bark" and "urmak," and other camel hair cloth, some of it costly, being fine and close in texture and usually pale stone color and shades of brown, all these being of the natural color of the hair. Good "chogás" or long overcoats, of this material are occasionally to be had. Furs are imported from Kabul, a smooth white fur, a brown, called "sable," but in reality quite different from the Russian sable. The Himalayan fox and otters are common. *Postins* (enumerated under the head of leather) are coats made of sheep's skin with the long hair inside; the skin is carefully tanned and softened and often embroidered in silk. Astrakhan lamb's skins are occasionally to be had; they are of short curly hair, very soft and jet black. They are evidently from very young animals, and it is said the finest are obtained by cutting the young before birth from the dam, which is slaughtered for the purpose, and hence the high price of these skins.

CLASS XXXIX.—WOOLLEN FABRICS.

Three pieces woollen cloth from Peshawar, exhibited by Haji Malik Rahman: 1 malida (shrunk and fulled cloth; and two *alwāns*, Rs. 15 and 40 respectively. *Not for sale.*

Two woollen *doputtas* from Rampore. Rs. 13 each. *Not for sale.*

Puttoo (a woollen cloth) from Kulu. Rs. 5. *Not for sale.*

Three blankets striped, from Kanawar. Rs. 28. *Not for sale.*

One woollen *puttoo*, by Samad Mir of Sujānpore, Gurdaspore district. Rs. 8-2. *Not for sale.*

Two *puttoos* from Amritsar, exhibited by Punjab Government. *For sale.*

Three Herat woollen *chogas* from Peshawar, exhibited by Haji Makli Rahman. Rs. 100. *Not for sale.*

Two woollen *chogas*, exhibited by ditto. Rs. 113. *Not for sale.*

CLASS XLIV.—SHAWLS AND GOLD EMBROIDERY ON SATIN, MERINO, &c.

Twelve articles gold embroidery: table covers, screens, cushions, tea cosy, mantlepiece covers, brackets, chair covers, panel screens, &c., from Delhi, exhibited by Moti Ram, shawl merchant, Delhi. Price Rs. 14 to 90. *For sale.*

Twelve objects ditto ditto, exhibited by Lala Manick Chand, shawl merchant, Delhi. Prices vary from Rs. 15 to Rs. 70-8. *For sale.*

Collection of 13 shawls and gold embroidered table covers, &c., exhibited by the Punjab Government. Rs. 22-8 to Rs. 237-8. *For sale.*

Twelve square shawls, exhibited by Lala Salig Ram of Amritsar. Rs. 35 each. *For sale.*

Collection of Rampore Viceregal shawls, Cashmere scarfs, *jamewars*, pashmina girdles, table cloths, square shawls, *chogas*, cushions, tea cosies, dressing gowns for ladies and gentlemen, *alwāns*, &c. Exhibited by Davee Sahai, Prub Dyal, shawl merchant, Amritsar. Prices varying from Re. 1-14 to Rs. 150. *For sale.*

Three Rampore white shawls, and two embroidered caps from Ludhiana, exhibited by Abdulla Loan, shawl merchant, Ludhiana. Rs. 10 to Rs. 150. *For sale.*

Collection of Rampore shawls (Empress and Viceregal), Cashmere shawls, girdles, turbans, *rumals*, dressing gowns for ladies and gentlemen, &c., exhibited by Davee Sahai, Chamba Mal, shawl merchants, Amritsar. Rs. 7-8 to Rs. 650. *For sale.*

One embroidered dress with front piece, by Khalifa Barkat, of Delhi. Rs. 30. *Not for sale.*

Pair panel screen, by Kallu Mal of the same place. Rs. 17. *Not for sale.*

One *jamewar* and two square shawls, exhibited by Samad Mir of Sujānpore, Gurdaspore district. *Not for sale.* Rs. 18 and Rs. 81.

One saddle-cloth, crimson velvet (*zinposh*), exhibited by Barkat Ram of Lahore. Rs. 250. *For sale.*

One *charjama*, 3 pieces (maroon velvet saddle). Rs. 200. *For sale.* Exhibited by ditto ditto.

One saddle-cloth, gold embroidered, Rs. 250, exhibited by His Highness the Maharaja of Patiala. *For sale.*

One ditto embroidered in colours, Rs. 12, ditto ditto. *For sale.*

Three samples gold embroidery. Rs. 24-11 (*dank-ká-kám*), exhibited by His Highness the Maharaja of Patiala. *For sale.*

Four woven *purdahs*, Rs. 60 each, by Davee Sahai, Chumba Mal, shawl merchants, Amritsar. *For sale.*

Two *rumals* (square shawls) by Abdul Sitar of Dera Nanak, Gurdaspur District. Rs. 40-8 each. *For sale.*

CLASS XL.—SILK FABRICS.

The silk-weaving of the Punjab is carried on at various places, but Lahore and Amritsar are the centres of the ordinary silk pieces called "*gulbadan*." Very fine qualities are not now in demand as they used to be in Sikh times; the texture is poor, and the breadth (the surest sign of poverty) narrow. The Sikh sirdars liked silk with a web of 2,400 threads.

There is no desire to have any lustre on silk; a fine *gulbadan* is known by its stiff, thick fabric, and the surface has a slight downy feel like the surface of a peach. The *gulbadan* is always in stripes, green and crimson, lilac and scarlet, and yellow and crimson are favorite combinations. Plain silk is called "*daryai*," and green of a yellowish cast and a cochineal crimson are the favorite and not very pleasing tints. When two colors are interwoven to give a resemblance to what in Europe is known as "shot silk," the resulting fabric—a by-no-means pleasing one—is known as *dhūp chānw* ("sun and shade").

The native dyers do not show so well in their colors of silks, and it is remarkable that the aniline dyes which might be used in plain fabrics with more advantage, are only occasionally employed, and not nearly so much as they are in embroideries, carpets and shawls, when their sharp and bright tones invariably kill the other colors, and produce a vulgar and inharmonious effect.

The native gentry occasionally use as scarves, squares of twilled silk, usually crimson or scarlet, with a rich gold border and called "*khes*." These scarves are also used for purposes of ceremonial presentation. Silk long-scarves or "*lūngis*" are also made. These are of various colors; yellow being a favorite, and always gold bordered. In Multan and Bahawalpur, almost exclusively, the variegated silks are produced; the patterns are checks or stripes with various sprigs or herring-bone patterns on the stripes; gold thread is frequently introduced. The "*Shuja-khani*" is a silk of this character. Bahawalpur also produces "*sufi*" or mixed silk and cotton fabrics; for according to strict Mohamadan law, it is forbidden to the faithful to wear pure silk. Velvet, though much in use, is not made, and is always imported, either French or Russian.* A number of silk fabrics are imported from the North-Western frontier. Soft silk of Andijan, usually dark-blue and rather hideously spotted in white, crimson and yellow; the "*kanawez*," a sort of "short silk" of Bokhara; the "*durma*" to European eyes most hideous, a pattern of colors in great splashes running one into another are the most commonly seen.

Commercially speaking, the Bahawalpur silks seem the most likely to be attractive; they are certainly well adapted for curtains and the finer class of hangings, but the cost is somewhat high.

Twenty-eight full pieces. Silks (*daryai*) and three silk turbans from Lahore, by Lala Burkat Ram. Price from As. 12 to As. 14 a yard, and turbans Rs. 3-12 each. *Not for sale.* A complete collection of self-colored Lahore silks.

One *kamarband* (girdle) from Kohat, by Atar. Price Rs. 15. *Not for sale.*

Three *lungis* from Peshawar, exhibited by Haji Malik Rahman. Price Rs. 24 each. *Not for sale.*

One *kamarband* (girdle), by ditto. Rs. 6. *Not for sale.*

Two *kulapech* (turbans) and two handkerchiefs (*rumals*) from Jhelam, by Fattah Sher. Price Rs. 16-6 and Rs. 2 respectively. *Not for sale.*

One Persian silk (*khudbāf*) and three *kulapech* (turbans) from Peshawar, exhibited by Haji Malik Rahman. Price Rs. 50 and 24 respectively. *Not for sale.*

* It is said also that this is Persian velvet; whether this is made in Persia, or is a Russian import it is difficult to say.

Two Multan silks, exhibited by Lala Barkat Ram, Lahore. Price Rs. 50 each. *Not for sale.*

Two Bahawalpur silks, by Emam Baksh and Kirbhan. Price Rs. 164. *Not for sale.*

Two Multan silks (*ikhlaïs*) exhibited by Lala Barkat Ram. Price Rs. 50 each. *For sale.*

Three Bahawalpur silks. Price from Rs. 13 to Rs. 120. *For sale.* Exhibited by Punjab Government.

One silk *doputta* from Multan, red. *For sale.*

Two *ikhlaïs* (silks) from Multan. Price Rs. 62.

Two ditto from ditto. Price Rs. 40-8 each. *For sale.*

One ditto from ditto. Price Rs. 35-8. *For sale.*

Two pieces silk, *ghoganto*. Price Rs. 39-8. *For sale.*

bited by His Highness for een. Price Rs. 40-2 and Rs. 16-0-6, respectively, exhi-

Nine pieces *ghas*. ss the Raja of Nabha. *Not for sale.*

Highness the of silk, different colors. Rs. 62-1-6. Exhibited by His

Sample of Maharaja of Patiala. *For sale.*

CLASS of silks. Price Re. 1-8 ditto. *For sale.*

CLASS XLIII.—MIXED FABRICS.

One cotton and wool-cloth (*loi garhhi*), by Samad Mir of Sujampur, Gurdaspur district. Price Rs. 3-8. *Not for sale.*

One *sufi*, silk and cotton, from Bahawalpur. Price Rs. 10. *Not for sale.*

CLASS XLV.—PATOLIS WORK—SMALL SILK WARE.

Almost every kind of small silk-wares falls to the share of the *patoli* or *ilakaband* (called in the South-Eastern districts *patwā*).

His main trade is to make the long netted girdles that are in use as trouser-strings by all classes. These are often made with tassels, prettily bound and divided with gold thread and colored silk.

The *patoli* also makes the silk leader used for leading the horses of the wealthy (*sirdiwāl*), and the "sejband," or cord and tassels used to secure the cover-let to the corners of the bed.

Many kinds of silk ornaments are also made by him. The silken strings used for supporting the coins, amulets, silver plates, and other pendants so universally worn round the neck, are of his making; so also the long silk-tasselled tail, called "parānda," which is plaited into a maiden's hair, and various forms of silk flowers and tassels, variegated with beads and gold tinsel that are worn in the hair or in the ears. The *patoli* also makes, on a small sort of hand loom or frame, a variety of what we may call gimp and edgings for trimming, also silk fringes and tassels; he will imitate perfectly European furniture cord tassels and fringes, weaving the ribbon part of the fringe on his little loom.

He does not work in gold thread, or in making gold ribbons; that is quite a separate trade.

Among the specimens of *patoli*'s work in the collection is some beautifully ornamented furniture for hawking, sent from Kapūrthala.

Delhi, Lahore and Amritsar are the chief places for the *ilakaband*'s work. The last census showed 2,145 persons as silk cord weavers, and 545 makers of girdles only.

Plumes, *sejbands* or ties for native beds, dagger-belt, sword-belt, coat trimmings, rosary fittings, &c., from Delhi, by Illahi Baksh, Patwa. Price from Re. 1-8 to Rs. 8. *Not for sale.*

Four sets of hawk's furniture from Kapūrthala, exhibited by the State-maker, Sawan Mir. Prices Rs. 10-12 to Rs. 64-9. *Not for sale.*

These comprise hawk-hoods, gauntlets, lures, leashes, &c., almost exactly resembling the falconry gear of Europe.

Parāndas or *queues* for the hair of native ladies, *jhumkian* earrings, &c., by Golam Qadir of Lahore. Price from As. 8 to Rs. 5-8. *Not for sale.*

Two cross-belts from Amritsar exhibited by Ramji Dass. Rs. 25. *Not for sale.*

Gold cross-belts, exhibited by Lala Ramji Dass of Amritsar. Prices from Rs. 9 to 15. *For sale.*

Parāndas by ditto. Re. 1-2. *For sale.*

Two *sejbands*, one *azārband* and three pieces of gold lace, and *los* Rs. 38-11-6. Rs. 5 and Rs. 44-10 respectively, exhibited by His Highness the Raja of Nabha. *Not for sale.*

Artificial silk flowers, contained in a glass case, exhibited by His Highness the Maharaja of Patiala. Rs. 10. *For sale.*

One *sejband*, silk and gold (bed ties), Rs. 29, ditto, ditto.

One *parānda* or queue for the hair of native ladies, Rs. 7, ditto, ditto.

One *azārband*, Rs. 3, ditto, ditto.

Two *azārbands*, Rs. 9. *For sale.*

One *jal* (horse neck tassel), Rs. 4-8, ditto, ditto.

One lace tassel, Rs. 2-10, ditto, ditto.

One pair lace earrings, As. 6, ditto, ditto.

One silk plume or crest, ditto, ditto.

One gold cross-belt and girdle, Rs. 15, ditto, ditto.

One belt, gold work, Rs. 25-5, ditto, ditto.

One silk button (*amb*) As. 12, ditto, ditto.

One model of chillies in silk, As. 4, ditto, ditto.

PEASANT EMBROIDERY OR PHULKARI.

These embroideries are of so distinctive a character as to call for special notice. The *phulkari* (literally, flowered work) or silk brodered *chadar* of the Punjab is wrought in many districts, but perhaps best in Hazara, and similar outlying regions, where the traditional patterns are strictly adhered to. Since the Punjab Exhibition of 1881 a considerable trade has arisen at Amritsar, where, and in the neighbouring villages, women of nearly all castes occupy their leisure in this work. The best *phulkaris* are wrought on cotton cloth of country manufacture, dyed in various shades of dark to light red or in indigo to black. The silk used would be called *filoselle* in England, and the colors are usually black, gold, orange, lac, red, somewhat crude green, and recently some raw and unpleasant aniline mauve and magenta hues. There are no curved forms in the patterns, and the stitch, a long and straight one, is carried across the field in diapers, herring bones, chequers and zigzags in such a way that it is unnecessary to trace the pattern first; the spacing being done by eye, and in fine work by counting the stitches of the ground. English Turkey red is occasionally worked upon, but the fineness of the cloth is rather a disadvantage than otherwise; one of the points of this work being the contrast of the lustrous silk with the deep, rich texture of the country-made cotton fabric. None of the modifications indeed which have been tried by people in search of some trivial novelty of treatment have turned out improvements. Industrial and Mission Schools have succeeded in producing Europeanised versions of the *phulkari* of quite astonishing hideousness, and it may be broadly said that the more primitive the district the better the work. In some cases the whole field is hidden by a diaper of gold or orange-colored silk with admirable effect. In others, gold colored lozenges with red flowers are thinly powdered over the dark ground. The variety of pattern, however, is practically as endless as the kaleidoscope, and it is no wonder that this agreeable and comparatively cheap material is greatly in favour for decorative purposes. The *shishadar* (looking-glass) *phulkari* has small, circular, slightly convex mirrors sewn in the pattern, which produce a quaint and fantastic effect.

The same work is applied to feminine garments, as in the bodice, drawers and petticoats. Pretty bags are embroidered in the Hazara district, but as the work is there an exclusively domestic occupation, it is not always easy to procure them. In judging a *phulkari* for texture and workmanship, as it is worked from the back, the back should be examined for evenness and fineness of stitch. No frames are used, and the darning, so to speak, should be without buckle or stretch. At Amritsar the work can be procured on any size or shape of cloth for special uses, if ordered through such firms as Davee Sahai and Chamba Mal, or Davee Sahai and Prub Dyal. The silk varies much in quality, and should be carefully examined by the purchaser.

The prices range from Rs. 5 to Rs. 20 for the ordinary *chadar*. The *chope*, a variety with a deep border and plain field, is effective for some purposes. In the Hissar and Sirsa districts curious and characteristic *phulkari* work is wrought on a rough, country-made, woollen fabric, dyed red, woven in narrow widths and joined down the middle with an open work stitch. The patterns are quaint and archaic, and worked in sampler stitch. Occasionally creatures and objects are attempted in squares and triangles; but simple chequered patterns are more common. These primitive and unpretentious fabrics are in a good tone of color, and have a quality of design in which more ambitious work often fails.

In this section are enumerated the *soznis* or quilts imported from Bokhara into Peshawar, samples of which are shown by Haji Malik Rahman, &c. These plainly show their Turki origin. The patterns are bold and large, wrought in a close stitch on a ground of white cotton cloth. Some of these are old, and the outlines have disappeared. The black lines of all silk embroidery wrought in the East, it may be noted, are the first to decay, as the dye rots the silk. Imitations are made at Shikarpur in Sindh, which has long kept up a trade with Central Asia.

Collection of 8 *phulkaris* from Abbottabad (Hazara district), by Hindu women. Rs. 8 to 14. *Not for sale.*

2 *phulkaris*, by Hindu women, from Sialkot. Rs. 14 and 12. *Not for sale.*

1 pair door curtains from Amritsar, exhibited by Lalas Davee Sahai, Prub Dyal, Shawl Merchants, Amritsar. Price Rs. 26. *Not for sale.*

4 woollen *phulkaris*, two *ghāgras* (petticoats) and one *choli* (bodice) from Husar, by Hindu women. Price Re. 1 to Rs. 9. *Not for sale.*

7 *phulkaris* from Rohtak, by Jat women. Price from Rs. 4-8 to Rs. 8. *Not for sale.*

2 *phulkaris* from Simla. Price Rs. 14. *Not for sale.*

3 pieces *phulkari*, from Bannu district. Price Rs. 50. *Not for sale.*

2 *phulkaris* of domestic work from Lahore, by Hindu women. Price Rs. 16. *Not for sale.*

1 woollen *chadar*, embroidered, from Sirsa, Rs. 6. *Not for sale.*

Collection of 156 *phulkaris*, exhibited by Davee Sahai, Chumba Mal, Shawl Merchants, Amritsar. Rs. 1,331-12. *For sale.*

Collection of 48 *phulkaris* from Amritsar, by Davee Sahai, Prub Dyal, Shawl Merchants, Amritsar. Rs. 445-13. *For sale.*

4 *Soznis*, from Peshawar, exhibited by Haji Malik Rahman, Rs. 30 to 40. *Not for sale.*

1 cotton embroidered *choga* from Peshawar, exhibited by Haji Malik Rahman. Rs. 30. *For sale.*

1 embroidered handkerchief, 1 *choga*, and 1 *angrikha*. Price Rs. 5 and Rs. 95-7 separately. Presented by His Highness the Raja of Nabha. *Not for sale.*

1 table cloth embroidered. Rs. 31, from His Highness the Maharaja of Patiala. *For sale.*

1 Dado embroidered, Rs. 9-4

ditto,

ditto.

CLASSES XLVII & LIX.—LEATHER.

The solid class of leather work, such as saddlery and making of highly finished boots, shoes and gloves, has hardly a place in the Punjab. Shoe-making for rough purposes is everywhere practised: and the different forms of shoes used in different parts of the province are quite characteristic. European boot-making has also been learned in the bazars of the larger towns. Native saddlery is very largely made up, not of leather, but of silk and velvet and embroidery. Nevertheless trappings and stirrup leathers are made of leather, and so are some plain saddles.

Stout leather mule trunks (*yakdān*), secured by tinned iron clamps, and completed by diagonal sewing of coarse thread, are made at Peshawar and elsewhere; they are of great durability, and can be prepared by coating with boiled linseed oil, to resist rain.

In Kangra and Hushiarpur, hides of animals are beautifully tanned with the hair intact, and a fine soft skin of a greenish buff-color is made into trousers, coats, leggings and gloves; the skin is that of the deer. Its local preparation depends on the use of the astringent leaves of the trees *conocarpus* and *rhus cotinus*, which cannot be got except in the lower hill ranges.

In an exhibition, there is little among our provincial leather work that is calculated to make an interesting display, except purely ornamental work. A curious work of this class is produced in Bilaspur state (on the Sutlej), and a little elsewhere also. Black leather is first made into boxes and other forms, then decorated with circles or patterns of green, or red leather, or leather covered with foil, fastened on in the manner of applique work, and then the whole is sewed in designs of white, with thin strips of the tough and flexible quill of the peacock. Very delicately embroidered leather (executed in silk) for belts and military accoutrements of the old powder horn and belt type is made at Peshawar, and a little also in the Hushiarpur district, and some very quaintly pattern belts in colored silk are made in the Derajat.

The embroidery of shoes in gold is a very extensive trade, chiefly practised at Delhi. Among the most fanciful applications of leather is that found at Kasar, Hissar, and other places; vases for the hukka are made of leather and ornamented with brass, and sometimes with green leather and studs of silver; the idea of this work was doubtless suggested by the brittleness of earthen hukka vases, when required to be moved from place to place; and the costliness of brass or silver vessels.

Ordinary leather is tanned chiefly with the bark of the kikar (*Acacia arabica*). In Kangra, catechu and lac are used in producing the native red leather which is in common use. Goat and sheep skins are alone used for this. Black leather is also common, and a fine pale greenish or turquoise blue leather is prepared by dyeing previously bleached thin leather with acetate of copper. The Peshawar "kimukht" is the best kind.

CLASS XLVII.—SHOES.

3 pairs sandals, lent by Major C. H. Marshall, Superintendent, Chumba.
Not for sale.

Sixteen pairs gold embroidered native shoes for men and women, from Delhi, by Sharafuddin. Prices from Re. 1-12 to Rs. 7. *Not for sale.*

Collection of 15 pairs ditto of different sizes and patterns, by Mir Baksh of Delhi. Prices from As. 9 to Rs. 5-8. *Not for sale.*

Collection of (Hushiarpur, Kasur, Cashmere, and Lahore patterns) 11 pairs of shoes for men and women. Prices from As. 6 to Rs. 5-10 from Lahore, by Mulla. *Not for sale.*

Pair man's shoes from Bahawalpur. Price Rs. 7-8. *Not for sale.*

One pair sandals and a pair women's shoes from Peshawar by Haji Malik Rahman. Price Rs. 6 and Rs. 3 respectively. *Not for sale.*

One pair sandals or chaplis and a pair for women (kheri), by Nawab of Kohat. Rs. 8 and Rs. 5 respectively. *Not for sale.*

From Kotgarh 4 hill shoes. *Not for sale.*

Two pairs gold embroidered shoes. Price Rs. 35-4-6. Exhibited by H. H. the Raja of Nabha. *Not for sale.*

CLASS LIX.—LEATHER.

A belt from Peshawur, exhibited by Haji Malik Rahman of Peshawur. Price Rs. 6. *Not for sale.*

Two leather and quill boxes, 1 pen-case, and a belt from Bilaspur (Simla district). Price Rs. 14. *Not for sale.*

Two whips, silver handles, by Alla Din of Jhelam. Price Rs. 2-8. *Not for sale.*

Russia leather (Bulghar), exhibited by Haji Malik Rahman of Peshawur. Price Rs. 32. *For sale.* Imported overland into Peshawur.

*Five sheep-skin coats embroidered (*postins*), exhibited by ditto. Price Rs. 15 to Rs. 35. *For sale.*

Lamb skin (Barai), exhibited by ditto. Price Rs. 35. *For sale.*

Two cat skins (Peshak), exhibited by ditto. Price Rs. 25 each. *For sale.*

Pair mule trunks. Price Rs. 16. Exhibited by ditto. *For sale.*

Ditto Price Rs. 20. *For sale.*

Charjama, saddle, by Isa of Kasur. Price Rs. 100. *Not for sale.*

Taro from Bahawalpur. Price Rs. 10. *Not for sale.*

CLASS XLVIII.—HAT AND CAPS.

Three embroidered caps from Peshawar, exhibited by Haji Malik Rahman. Price Rs. 12-6 and Rs. 4 respectively. *Not for sale.*

Two *kulas* (caps), exhibited by Lala Nand Lal of Lahore. Price Rs. 15 and 13. *Not for sale.*

Collection of 10 caps, by ditto. Prices from As. 2 to Rs. 13. *Not for sale.*

One Bramchhari cap from Lahore. Price As. 12. *Not for sale.*

CLASS L.—JEWELRY.

As it was understood that the leading jewellers of Delhi would exhibit their wares in the jewelry strong room of the Exhibition, it was not considered advisable to invite extensive contributions of articles the safe custody of which entails a heavy responsibility. The comparatively small and inexpensive collection hereafter enumerated displays, however, the most noteworthy peculiarities of the art as practised in the Punjab, excepting that there are no examples of such costly articles as jewelled jade and the combinations of precious stones with gold and enamel which are produced at Delhi. It is an old story that the *technique* of Indian gold and silversmiths is far behind that of Europe in all that concerns neatness of execution. It is also true that, while the workmen of the west are now carefully studying the best examples of all ages, those of the east seem to have given up all effort to produce variety and novelty, and are content to reproduce originals which have become tiresome by constant repetition. The mere search for novelty is apt to lead to triviality and extravagance, and is therefore to be deprecated; but it is impossible to examine a good collection of old Indian jewelry without being struck by the freshness and variety of the designs. This charm has disappeared, and cannot easily be restored.

The most original and characteristic work now produced is to be found in outlying districts, not usually visited by the tourist. In the Kangra district, quaint and curious necklaces and other ornaments are made in silver, enamelled in blue, green, and yellow. In the Hazara district roughly made articles of a similar character are found. Throughout the hill districts there is a great variety

of fanciful silver necklaces, combined sometimes with coral and amber, and more frequently with coins or small enamelled pendants in Persian cartouche forms.

Panipat has a reputation for beads in thin silver. Three necklaces of these were exhibited.

At Mooltan a considerable quantity of necklaces, bracelets, and other ornaments are made in silver, enamelled in dark and light blue, black, red, and an inferior yellow. A collection promised from this town did not arrive in time to be exhibited, but the articles give a fair idea of the craft.

The metal is alloyed with a larger proportion of copper than is usual in Indian work, the better, it is alleged, to resist the heat of the enamel firing. The pattern in the case of *solitaires*, discs for necklaces, &c., is produced by hammering plates of silver into graven dies. The raised line thus obtained is obviously poor and mechanical. In cups and larger articles the spaces to be filled with enamel are cut away by hand, and the work is then true *champlevé*, and has more variety in design.

Small articles are sold by weight at from Re. 1-4 to Rs. 2 per *tola*. A semi-translucent blue and green enamel is made at Bahawalpur.

The better qualities of ordinary silversmith's ornaments are shewn in the articles from Lahore, and there is special excellence of execution in the bracelets by Harnám Singh and Pertáb Singh of Shahabad.

The lapidary work shewn by Sadr Din and Gholam Ahmed of Amritsar includes some pretty arrangements of agates, cornelians, and false jade. The raw material is said to be imported from Cashmere. The light silver bracelets by Mahedju of Amritsar are in the Cashmere style.

Delhi jewelry, seven objects: 1 pair flexible gold bracelets, *chatai* or mat pattern, Rs. 200; one gold necklace, Rs. 175; one gold bracelet, rose pattern, Rs. 65; one jewelled locket, Rs. 40; one silver belt with imitation coins; one ditto, mat pattern, and a silver necklace (imitation coins), by Sobagh Chand of Lahore.

Three silver ornaments 1 enamelled necklace, pair bracelets and head ornament. Price Rs. 22-15-9, Rs. 23-4-3, and Rs. 20 respectively, by Raja Singh of Hazara. *Not for sale.*

Pair silver bracelets, by Mahedju of Amritsar, Cashmere style. Price Rs. 10. *Not for sale.*

Silver necklace from Simla. Price Rs. 10. *Not for sale.*

Pair silver enamelled bangles, toe rings, finger rings, and head ornament from Kangra. Price Rs. . . . *Not for sale.*

Silver and gold ornaments, enamelled bangles, *Paranda* silver, pair earrings, pair head ornaments (*chouks*), and 4 gold earrings (*pipalwatra*) from Lahore, by Jeychund. Price Rs. 121-12. *Not for sale.*

Model hooka mouthpiece, pair armlets (*tadan*), and 4 bracelets (*band*). Price Rs. 5-8, Rs. 23, and Rs. 19 respectively, by Ram Chand of Lahore. *Not for sale.*

Silver necklace and head ornament from Kotgarh. Price Rs. 32-10 and Rs. 16-4. *Not for sale.* Hill pattern.

Three bead necklaces by Sodagar of Panipat. Prices Rs. 15-1-6 to Rs. 33-11. *Not for sale.*

A chiselled silver bracelet (pair), a belt-clasp, necklace and a ring, gold and silver, by Harnam Singh and Partab Singh of Shahabad, Amballa district. Price Rs. 40, Rs. 20, Rs. 30, and Rs. 17 respectively. *Not for sale.*

Samples of fibres, aloe and moonj, Mooltan, from Lahore and Sialkot, used for making paper.

CLASS LXVIII.—PAPER.

- 12 samples of paper from Sialkot, a quire each. *Not for sale.*
 2 samples of paper from Mooltan Jail. *Not for sale.*
 Samples of paper from Lahore Jail. *Not for sale.*

CLASS LXXVI.—DYES.

Collection of dyes from Rohtak, with a descriptive list and recipes for the production of different colours, by H. W. Steel, Esq., C.S., Deputy Commissioner, Rohtak.

Name of color.	Component parts.	How prepared.
STRAW COLOR— Fading color...	Saffron, 2 mashas ... Alum, 1 tola.	Boil the saffron in one chittack of water and having strained it, keep it in a separate vessel; then mix it with 2 seers of pure water, and add one tola alum; then dye the cloth, and after putting starch (or <i>kalaf</i>) put it out to dry. <i>Kalaf</i> is thus prepared. Take a tola of <i>nisbasta</i> or fine flour, and boil it with 4 chittacks of water.
MADDER— Fast color ...	<i>Maeen</i> , 2 chittacks <i>Hur kalan</i> 2 „ <i>Majeeth</i> , 4 „ Alum, 2 tolas. Logwood, 2 chittacks	Grind <i>maeen</i> and <i>hur kalan</i> very fine; add 2 seers water, then dye, and let the cloth be exposed to the sun for four days, immersed in the dye; then wring the cloth, and throw away the water; after this put cloth in 1 seer of water, mixed with 2 tolas of alum, and let it dry for one day. Beat the <i>majeeth</i> very fine, and boil it in 2 seers of water with the cloth, stirring the cloth while the water is boiling; keep it in slow fire for one hour, and then wring it, and wash it in water again; grind the logwood fine, and boil it in 2 seers of water, strain and mix <i>kalaf</i> , and then dye the cloth again.

Name of color.	Component parts.	How prepared.
SAGE GREEN— Fast color ...	<i>Naspal</i> , 4 chittacks Sulphate of iron, 2 tolas. Turmeric, 2 chittacks Alum, 1 tola.	Boil the <i>naspal</i> in 1 seer of water till reduced to 12 chittacks; strain and add $1\frac{1}{2}$ seers of water more, and dye the cloth and wring it; grind the sulphate of iron, and mix it with 2 seers of water, and dye the cloth in it, and dry; then grind the turmeric fine, and mix 2 seers of water and dye; now wash the cloth well with water, then give it a dip in 1 seer of water, to which <i>kalaf</i> and alum have been added.
SCARLET LAKE— Fading color..	<i>Gadh shahab</i> , 4 chittacks. <i>Khattaie</i> , or dry mangoe, 2 chittacks.	Mix the <i>shahab</i> * in 2 seers of water and dye the cloth; then soak the <i>khattaie</i> in 4 chittacks of water mixed with <i>kalaf</i> , and dip the cloth in it.
PEACOCK GREEN OR BLUE— Fading color...	Sulphate of copper, 4 chittacks. <i>Kullai</i> , or quick-lime, 4 chittacks.	* <i>Note</i> .— <i>Shahab</i> is thus prepared: Take a seer of <i>kasumbha</i> and beat it; then put it in some cloth, and hang it on a stand, and pour water in it till it ceases to give yellow color; then wash it and press it; now put it in a kundi or earthen water vessel and rub it with 3 tolas of <i>saji</i> ; then put it again on the stand and pour water on it; when the color comes out, then put into it the filtrate of 6 chittacks of <i>khattaie</i> or unripe mangoe, soaked in $\frac{1}{2}$ seer water and having shaken it, let it stand in a separate vessel; after two hours the sediments will fall down to the bottom; separate the clear water and keep it aside; this water will give a light color; the sediment is a first class tint, which is called <i>shahab</i> —4 chittacks <i>shahab</i> is prepared from one seer of <i>kasumbha</i> . Dissolve the sulphate of copper in $1\frac{1}{2}$ seers of water: then dissolve the lime in another $1\frac{1}{2}$ seers of water, both separately. Divide each into four parts. Take one part of sulphate of copper water, add 12 chittacks of clear water to it and then dye the cloth in it, with lime water; now wash it in 5 seers of water. Take another part of the sulphate of copper water, immerse the cloth in it, then in lime water, and so on for four times, and at last wash it in starch.
VERMILLION— Fading color...	<i>Gadh shahab</i> , 1 seer, <i>Khattaie</i> , 4 chittacks. <i>Dandi har singa</i> , 1 chittack.	Mix the <i>shahab</i> in half seer of water and dye the cloth in it, and after giving it some <i>khattaie</i> water, wring it; then boil the <i>har singa</i> in 4 chittacks of water, strain, and having added the remaining $\frac{1}{2}$ seer of <i>gadh shahab</i> and <i>kalaf</i> , dye the cloth again.

Name of color.	Component parts.	How prepared.
CANARY— Fading color...	Sun flowers, 4 chittacks. Turmeric, 2 chittacks. Alum, 1 tola.	Boil the flowers in water, strain and keep the water in a separate vessel, to which add 2 seers of pure water and dye the cloth, and add the ground alum, or grind the turmeric fine, and 2 seers of water, and dye the cloth after mixing alum with it: wash the cloth with pure water and give <i>kalaf</i> .
DEEP PURPLE— Fading color...	<i>Lajward</i> or English indigo, 1 chittack. <i>Gadh shahab</i> , 6 chittacks. Alum, 2 tolahs.	Mix the <i>shahab</i> in 2 seers of water, and dye the cloth; then put the <i>lajward</i> or indigo in the same water and dye, and put the alum in with the <i>kalaf</i> .
LILAC RED— Fading color...	<i>Kasumbha</i> , 12 chittacks. <i>Khattaie</i> , 4 chittacks. <i>Lajward</i> , 6 mashas.	First make the <i>shahab</i> from the <i>kasumbha</i> as directed above; then add 2 seers of water, and dye the cloth. Soak the <i>khattaie</i> for three hours in $\frac{1}{2}$ seer of water, then put the water in, mix the <i>lajward</i> with the <i>shahab</i> water, and having put the <i>kalaf</i> in, dye the cloth in it.
LEAF GREEN— Fading color...	Turmeric, 1 chittack. Alum, 2 tolas. <i>Rang sardaie</i> , 2 tolas.	Pulverise the turmeric and mix with 2 seers of water, and dye: then wash and wring the cloth; then dissolve 2 tolas of <i>rang sardaie</i> in water, and dye again and give <i>alum kalaf</i> .
VENETIAN RED— Fading color...	<i>Gadh shahab</i> , 4 chittacks. <i>Dandi har singa</i> , 3 chittacks. Alum, 1 tola.	Dye the cloth in <i>shahab</i> with 2 seers of water, wring the cloth, and throw away the water. Boil the <i>har singa</i> in 6 chittacks of water, strain and dye, and put alum and <i>kalaf</i> in it.
DARK PURPLE— Fading color...	<i>Lajward</i> or English indigo, 3 tolas. <i>Shahab</i> , 6 chittacks. Alum, 2 tolas.	Mix the <i>shahab</i> in 2 seers of water and dye, then dissolve <i>lajward</i> or indigo in the same water and dye, and then put alum and <i>kalaf</i> .
SNUFF COLOR— Fading color...	Galls, 1 tola. Sulphate of iron, 1 tola. <i>Shahab</i> , 2 chittacks. Turmeric, 2 „ <i>Naspal</i> , 4 „ Alum, 2 tolas.	Pulverise galls, sulphate of iron, turmeric and alum, each separately. Boil <i>naspal</i> in a seer of water till reduced to 12 chittacks, strain, and add 2 seers more water; dissolve the galls in it, and then dye; wring the cloth and throw the water away; again dissolve the sulphate of iron in 2 seers of water, dye the cloth and let it dry; then mix the turmeric with 2 seers of water and dye and wring it; wash the cloth in pure water and lay it to dry, then dip it in the <i>naspal</i> water to which <i>kalaf</i> has been added, and put some alum in it.

Name of color.	Component parts.	How prepared.
PURPLISH GREY-- Fading color..	Galls, 1 tola. Sulphate of iron, 6 mashas. Alum, 1 tola. <i>Shahab</i> , 1 „	Powder galls very fine, and 2 seers of water and dye the cloth: then dissolve the sulphate of iron in 2 seers of water and dye the cloth again and let it dry; then again put the cloth in 2 seers of water mixed with <i>shahab</i> , then the alum and <i>kalaf</i> with it.
LIGHT GREEN-- Fading color...	Sun flowers, 2 chittacks. <i>Lajward</i> , 1 tola. Alum, 1 „	Boil the sun flowers in $\frac{1}{2}$ a seer of water, strain, and 1 seer and a half more water, and dissolve the <i>lajward</i> in it and dye; then add alum and <i>kalaf</i> .
LIGHT BROWN-- Fast color ...	Galls, 2 tolas. Sulphate of iron, 6 mashas. <i>Shangraf</i> , 1 tola. Alum, 1 „	Grind separately all these into fine powder; first put the galls in 2 seers of water and dye the cloth, wring it; then mix the sulphate of iron in 2 seers of water and dye, and let it dry, then dissolve the <i>shangraf</i> in 1 seer of water, put in alum and <i>kalaf</i> .
GREY-- Fast color ...	Galls, 1 tola. Sulphate of iron, 6 mashas. Alum, 2 tolas. <i>Naspal</i> , 4 chittacks.	Grind galls, sulphate of iron and alum fine; dissolve the galls in 2 seers of water and dye and wring; then dissolve the sulphate of iron in 2 seers of water, dye, and dry; again dissolve the <i>naspal</i> in 2 seers of water and dye after adding the alum and <i>kalaf</i> .
FAINT PINK-- Fading color...	<i>Shahab</i> , 1 tola. Alum, 1 „	Mix the <i>shahab</i> in 2 seers of water, dye and wring; then having added <i>kalaf</i> to pure water give the cloth a dip in it
BLACK BROWN-- Fast color ...	<i>Naspal</i> , 6 chittacks Sulphate of iron, 2 tolas. Al, 6 chittacks. Alum, 2 tolas. Logwood, 2 chittacks.	Boil the <i>naspal</i> in one seer of water till reduced to 12 chittacks, and dye; dissolve the sulphate of iron $1\frac{1}{2}$ seer of water and dye the cloth, and after wringing, add alum and dry. Bruise the alum and boil it together with the cloth in 2 seers of water on slow fire, then wash it in pure water. Boil the <i>lajward</i> in 2 seers of water, strain, and having added the <i>kalaf</i> , dye the cloth in it.
YELLOW OCHRE-- Fading color...	<i>Gadh shahab</i> , 2 chittacks. <i>Dandi har singa</i> , 3 chittacks. Alum, 1 tola.	Boil the <i>har singa</i> in 6 chittacks of water, strain, and keep it in a separate vessel. First dye the cloth in 2 seers of water mixed with <i>shahab</i> ; then dye it in the <i>har singa</i> water, afterwards add some alum with <i>kalaf</i> .

Name of Color.	Component parts.	How prepared.
TERRA-COTTA— Fading color...	<i>Gadh shahab</i> , 1 chittack. <i>Dandi har singa</i> , 1½ chittack. Alum, 1 fola.	Mix the <i>shahab</i> in 2 seers of water and dye, and wring the cloth; then boil the <i>har singa</i> in 4 chittacks of water as above explained, and having strained it dye the cloth, then put the alum with the <i>kalaf</i> .
DARK GREEN— Fast color ...	Indigo, 4 chittacks Turmeric, 2 „ <i>Naspal</i> , 2 „ Alum, 2 tolas.	First prepare the indigo as follows: take indigo 4 chittacks, <i>chunam</i> 4 chittacks, <i>sajji</i> 2 chittacks, treacle 1 chittack; grind the indigo fine, and mix it with 20 seers of water; then having powdered <i>sajji</i> , put it with <i>chunam</i> and treacle; it will be ready on the fourth day. Now dye the cloth and dry it. Dye and dry the cloth thus five times. Now mix the powdered turmeric with a seer of water, dye and dry the cloth, wash it in water, and having wrung it, put it twice in <i>naspal</i> water dyeing the cloth each time, then put in alum in the same <i>naspal</i> water with <i>kalaf</i> , and give the cloth a dip.
PINK— Fading color...	<i>Gadh shahab</i> , 1 chittack. Alum, 1 tola.	Mix the <i>shahab</i> in 2 seers of water, dye, and then put in alum with <i>kalaf</i> .
DEEP PURPLE— Fast color ...	English indigo, 1½ chittacks. <i>Gadh shahab</i> , ½ seer. <i>Khattaie</i> , 2 chittacks.	Dissolve the indigo in 2 seers of water, dye, and dry: then put the <i>shahab</i> in ½ a seer of water and again dye; soak the <i>khattaie</i> in 4 chittacks of water for 3 hours; strain, and mix with the strained water the <i>kalaf</i> , and then dip the cloth in it.
INVISIBLE GREEN Fast color ...	<i>Naspal</i> , 6 chittacks Turmeric, 2 „ Alum, 2 tolas. Indigo, 2 chittacks. Sulphate of iron, 2 tolas.	First dissolve the indigo in water; then add another seer, and dye the cloth and let it dry; mix the turmeric in 1 seer of water and put the cloth in it, and again dye it, and wash it in pure water. Boil the <i>naspal</i> in 1 seer of water till reduced to 12 chittacks; dye the cloth again in this, and having wrung it, put it in 1 seer of water to which sulphate of iron had been added; mix alum and <i>kalaf</i> with the water.
GREY BLUE— Fast color ...	<i>Lajward</i> , 2 tolas ... Alum, 1 tola.	Dissolve the <i>lajward</i> in 1½ seer of water and dye the cloth; then put one tola alum and the <i>kalaf</i> .

Name of color.	Component parts.	How prepared.
LIGHT RED— Fading color...	<i>Shahab</i> , 2 chittacks <i>Dandi har singa</i> , 1 chittack. Alum, 1 tola.	Boil the <i>har singa</i> in 4 chittacks of water and strain; then having put in $1\frac{1}{2}$ seer of water in the <i>shahab</i> , dye the cloth in it; then pour the <i>har singa</i> water over it, and put in alum and <i>kalaf</i> , and dry it.
DELICATE GREEN OR OLIVE— Fading color...	<i>Dandi har singa</i> , 2 Tolas. <i>Lajward</i> , 6 mashas. Alum, 1 tola.	Boil the <i>har singa</i> in 4 chittacks of water; strain and mix it with $1\frac{1}{2}$ seer of water and dye; add 6 mashas <i>lajward</i> to it, and dye the cloth again; then put in alum and <i>kalaf</i> , and let the cloth dry.
AZURE— Fading color...	<i>Shahab</i> , 2 tolas ... <i>Lajward</i> , 1 tola. Alum, 1 "	Mix the <i>shahab</i> with 2 seers water and dye and wring the cloth; then mix the <i>lajward</i> in $1\frac{1}{2}$ seer of water and dye it again, after putting in the alum and <i>kalaf</i> in the same water.
PERMANENT YEL- LOW— Fading color...	Saffron, 2 mashas ... <i>Lajward</i> , 3 " Alum, 1 tola.	Dissolve the saffron in 1 tola of water; then add 2 seers more of water and put in the <i>lajward</i> and dye the cloth; afterwards apply <i>kalaf</i> and alum.
BROWN GREEN— Fast color ...	Sulphate of iron, 2 tolas. Turmeric, 2 chittacks. <i>Naspal</i> , 4 " Alum, 2 tolas.	Pulverise sulphate of iron, turmeric and alum separately; boil the <i>naspal</i> in 1 seer of water till reduced to 12 chittacks; then dye the cloth and wring it. Dissolve the sulphate of iron in 2 seers of water, put in the cloth, and wring and dry it. Mix the turmeric with a seer of water, dye, and wring the cloth and let it dry; then wash it in water, and afterwards apply alum and <i>kalaf</i> .
FAWN COLOUR— Fading color...	<i>Shahab</i> , 2 tolas ... <i>Dandi har singa</i> , 2 tolas. Alum, 1 tola.	Mix the <i>shahab</i> in 3 seers of water, and dye and wring the cloth. Boil the <i>har singa</i> in 4 chittacks of water, strain and use with the <i>shahab</i> water; then dye again in it and put in alum and <i>kalaf</i> .
RED— ...	<i>Shahab</i> , 4 chittacks <i>Khattai</i> , 2 " Turmeric, 1 chittack.	First of all dye the cloth in <i>kasumbha</i> , after adding <i>khattai</i> put it in turmeric prepared for the purpose.
DARK BROWN ...	<i>Naspal</i> , 2 chittacks Turmeric, 2 " <i>Garu</i> , 1 chittack. Alum, 2 chittacks. Color of <i>kuth</i> .	First of all dye the cloth in <i>naspal</i> , then immerse it in <i>kuth</i> , and after drying the cloth, dip it into turmeric and expose to sun; after the cloth has dried, immerse it in <i>garu</i> and finally wring the cloth and expose to sun.

Name of color.	Component parts.	How prepared.
YELLOW, VIVID	<i>Naspal</i> , 4 chittacks... Alum, 2 tolas..	First boil the <i>naspal</i> and dip the cloth into the pot, and then immerse in alum and expose to sun.
BROWN	... <i>Shahab</i> , 1 chittack... <i>Dandi harsinga</i> 2 tolas. Alum, 1 tola.	Dye the cloth first of all in <i>kasumbha</i> or <i>shahab</i> , and when it assumes a light red expose to sun; after the cloth has dried, boil <i>harsinga</i> flowers, and immerse the cloth in the color strained through cloth, and after dipping the cloth in alum water spread it out to dry.
YELLOW	... <i>Naspal</i> , 2 chittacks Turmeric, 1 chittack. Alum, 1 „	Dye the cloth first of all in turmeric and spread out to dry; then boil <i>naspal</i> and immerse the cloth in it, and while wet, put it into alum water, and spread out to dry.

CLASS LXXVIII.—TOBACCO.

1 bottle containing Peshawar tobacco-snuff, exhibited by Haji Malik Rahman, of Peshwar.. Price Re. 1-4. *Not for sale.*

SECTION G.—MACHINERY AND IMPLEMENTS, &c.

KOTAH.

SECTION D.—FURNITURE, &c.

CLASS XXXI.—CARVING AND ARTWARE.

INDARGARH WORK.

Earthen lacquered *surāhis* (*surāhi*).

Wooden lacquered cups (*piala*).

Wooden lacquered cups of different patterns.

INDARGARH WORK consists of wooden cups and earthenware *surāhis* (water jars) lacquered in various colors. They are manufactured at the small town of Indargarh in the Kotah State. The cups are made of the *khirmi* wood, *Mimusops indica*, or *kauki*, which is obtained at Indargarh. The clay of which *surāhis* are made is also found at Indargarh. The cups are made by the "Khati" caste, and the "*surāhis*" by Kumhārs. The lac is first reduced into small thin pieces of about an inch wide and 6 inches long. The cups are revolved in a lathe (*kharād*), and the pieces of lac applied, which, when thus heated by friction, adhere to the wood. The ornamental work on the cups is then made by means of a small fine chisel. Lac when melted is put upon *surāhis* with a small piece of iron. About 1,000 cups of various patterns and 100 *surāhis* are turned out every year.

ETAWAH WORK, CONSISTING OF BUFFALO HORN AND WOOD INLAID WITH
IVORY AND MOTHER-O'-PEARL.

Wooden box, inlaid (*sandug*).

Ditto.

Pen box inlaid (*kalamdān*).

Powder horn, inlaid (*singard*).

Powder flask, inlaid (*kuppi*).

Round topped comb, inlaid (*gol kangā*).

Long ditto (*lambā kangā*).

ETAWAH WORK.—This manufacture is carried on at the small town of Etawah in the Kotah district. The articles are made of some hard wood such as sissu (*Dalbergia sisu*), or of buffalo-horn, inlaid with ivory and mother-o'-pearl, and are principally used for ornamental purposes. There are only very few persons engaged in the manufacture, who belong to the Khati caste, and the work is turned out very slowly; but it is as a rule carefully and strongly made. The articles are principally sold at Kotah, or on private orders from gentlemen in the province, and there is but little demand for the work.

CLASS XXXII.—HANGINGS, &c.

One embroidered rag (*chādar Shergarh*). Made at Shergarh.

SECTION E.—FABRICS, INCLUDING APPAREL, &c.

CLASS XXXVIII.—KOTAH MUSLINS.

Check muslin (*salaidār charkhānā*).

Plain check muslin (*sādā charkhānā*).

Muslin (*adras kā thān*).

Muslin turban (*adras ká págrí*).
 Striped muslin (*doria ká thán*).
 Muslin dupatta (*adras ká dupatta*).
 Muslin dupatta with gold laced edges (*Adras ká kámdár dupatta*).
 Muslin handkerchief (*dasti rímál*).
 Muslin handkerchief with gold laced edges (*kámdár dasti rímál*).
 Black muslin turban (*kálí chunari ká pág*).
 Red ditto (*surk ditto*).
 Muslin turban (*chirá ká pág*).
 Muslin female dupatta (*zenana chunri ká dupatta*).

KOTAH MUSLIN.—This manufacture is carried on at the town of Kotah, by 20 families of the Kataiyá (Koli or Hindu weavers) caste, and Juláhás or Muhammadan weavers. The muslin is woven in hand-loom of a good description, and the thread, which is of cotton, is purchased from Bombay and Calcutta, and is imported from Europe. Women and children of the Hindu weavers are commonly employed in wrapping round the thread in the loom, but weaving is as a rule chiefly done by men. About Rs. 25,000 worth of muslin is annually turned out at Kotah, and of the pieces made turbans are in greatest demand. The weavers sell muslin retail at Kotah, to a small extent, but it is mainly sold wholesale to cloth merchants, who export it to Nimach and other places beyond.

BARAN MUSLIN, locally termed "Baran Chunari," is a pleasing style of work in a variety of colors, executed generally of muslin (imported from Europe) at the town of Baran in the Kotah State. The manufacture is carried on by 108 families of the Khatri caste, and consists of two processes, *viz.*, that of dyeing and tying the cloth into rings and streaks of different colors. When a certain portion of the cloth to be worked upon is wrought into a particular color, it is tied fast with cotton thread so as to keep it from the subsequent colors into which its other portions are steeped. Dyeing, the work of primary importance is solely confined to the male portion of the caste, but the tying of the colored portions, into the several patterns can be done by men.

The above articles have been presented by His Highness the Moháráo of Kotah.

AJMIR.

SECTION G.—MACHINERY, &c.

CLASS LXXXVII.—ARMS.

A sword (*talwár*). A sword of steel manufactured at Sirohi, with ornamented hilt, red leather case and silver tip.

A sword with golden handle and tip, &c. (*talwár*). A sword with gold hilt and green velvet sheath with gold tip and head-piece.

A sword with golden handle (*talwár*). A sword made of steel with metal hilt, inlaid with gold, in green velvet sheath.

Three-barrelled gun (ditto, *tináli*).

Double gun (ditto, *donáli*).

Hindu lady's gauze veil, embroidered with solid laminated gold (*dúpatá zanzana*).

AJMIR.

ORNAMENTS AND JEWELRY.

Jewelry is as much worn by men as by women. It is of the same general style as that of Delhi and Lahore, but there are certain ornaments peculiar to Rajputana, notably the *timmya* and *jhela*. The variety of names does not require to be minutely described. The charge for making ornaments of gold does not exceed 8 annas per tola, while that of silver ranges from 1 anna to 4 annas per tola, according to the quality of workmanship.

Handkerchief (<i>rumal</i>)	1	10	6

Name of artist—Nizamuddin,

PRINTED CLOTH (COTTON MANUFACTURES).

The coarse cloth called *tuku* is largely used for the purpose of printing. The cotton prints of Ajmir are not inferior to that of Jaipur both in print and brilliance of dyes. The favourite color is dark red, the main ingredients used being *al*, the root of the *Morinda citrifolia*, and *manjit* (*Rubia cordifolia*). The color is obtained by dipping the cloth in boiling solutions of the dyes. Varieties of colors are also obtained by the combined use of indigo and turmeric. Generally speaking the color is permanent. Calico printing is done without dipping the cloth in any coloring solution. The cloth is damped and stretched out; the wooden blocks on which the floral patterns project in strong relief are charged with color and then pressed down on the cloth. The bed covers and printed floor-cloths of Nayanagar are the best in the district.

DYER'S CLOTH (COTTON MANUFACTURES).

The process of manufacture is the same as it is elsewhere: the hand-loom is of the simplest and rudest construction. All native cotton fabrics are made in one or other of three styles—

First.—Plain cloth woven with a single thread.

Second.—Cloths with a longitudinal stripe.

Third.—Cloths with diagonal patterns.

The native fabrics are not so conspicuous for regularity of workmanship or softness or fineness of texture as they are for durability.

The varieties of the cloth are very limited, being only 7 in number:—

First.—*Pagris* (turbans). These are generally softer and lighter in texture than other native cloths, the ordinary dimensions being 13 yards long by 10 inches

wide; those made from native thread are used by the rural population selling at the rate of 8 annas a piece. Pagris made from European thread are fine specimens of native muslins with beautiful borders in which gold thread is often tastefully introduced. The ordinary rate is Re. 1-8 per piece, but the price varies according to the quantity of gold thread used in the make. The trade in pagris is rapidly increasing.

Second—Tukri or reza.—These are stiff white cloths made from native thread resembling the *garah* of the Punjab. It is largely used for garments by the rural population, who prefer it solely by reason of its cheapness and durability. The ordinary rate is an anna per yard. It is also extensively used for calico-printing, bed-covers and printed floor-cloth called *jajim*.

Third—Saftah.—This is a kind of coarse muslin of narrow white width usually made from European thread or a combination of European and native thread woven together. It is used for scarfs. The ordinary rate is Re. 1-4 for a piece of 20 yards. The machine-made muslins of Manchester and Bombay have entirely superseded the manufacture of saftah cloth, which in these days is seldom made or sold in this district.

Fourth—Khes.—This fabric is remarkable chiefly as exhibiting a different kind of weaving in Ajmir. The pattern is generally plain: the thread of the weft is so interlined alternately with those of the warp that the make of the fabric appears to be diagonal. It is made by certain cooly weavers from Bhartpur or other places and is chiefly used for upper wrappers (*chadars*), but being made of coarse native thread is far inferior to the Punjab *khes*. The price per piece is Re. 1-4.

Fifth—Dhuti.—This fabric is only a variety of Tukri cloth. The dhuti is a skirt worn round the waist by Hindus. Dhutis are seldom made in Ajmir, as there is scarcely any demand, the people preferring the produce of the Bombay Cotton Mills.

Sixth—Susi.—This is a narrow cotton fabric used only by Muhammadan women for making trousers; it is distinguished by having stripes lengthwise down the piece of a different color from the groundwork. The patterns most common are dark blue with white stripes or blue and red stripe. The fabric is plain woven. The price is Re. 1-4 for a piece of 10 yards.

Seventh—Charkhana.—This is also a kind of check *susi*, the varieties being black and white check or red and blue. It is superior in make to the ordinary *susi*, the rate being Rs. 2 per piece of 10 yards.

LEATHER WORK.

The Khataks or tanners of Ajmir were not many years ago unable to tan leather free from smell. The facilities afforded by railway communication have brought in tanners of a more advanced type from the North-West, and leather now prepared is as good as other ordinary country leather. Being merely agricultural districts, Ajmir and Marwara cannot boast any varieties of leather manufactures beyond the few things required to satisfy the immediate wants of the rural population, viz., *chams* (leather buckets for raising water from wells), shoes, and leather trunks (*jamdani*). Workers in leather are met with in almost every village, but belong to a class of people who will not make the slightest alteration or improvement in the designs bequeathed to them by their ancestors. This is not; however, true of Ajmir city.

Rs. A. P.

- (h.) Specimens of upper primary Scholarship Examination papers set in various circles, in Bengali, Hindi, Ooriya, and Urdu.
- (i.) Upper primary Scholarship and Pass Certificates.

3.—SECONDARY EDUCATION—

- (a.) Short account of the official system of secondary education, with statistical tables, &c.
- (b.) Course of studies and text-books used in middle English and middle vernacular schools in various circles.
- (c.) Rules for the examination for middle scholarships, vernacular and English.
- (d.) Specimens of middle Scholarship Examination papers set in various circles, in Bengali, Hindi, Ooriya, and Urdu.
- (e.) Middle vernacular and middle English Scholarship and Pass Certificates.
- (f.) Course of studies and text-books used in high English schools in various circles.
- (g.) Regulations for the University Entrance Examination, by which junior scholarships are awarded.
- (h.) Specimens of Entrance Examination papers.
- (i.) Junior Scholarship and ordinary Entrance Certificates.

4.—UNIVERSITY EDUCATION—

- (a.) Short account of the University of Calcutta and its affiliated colleges, with statistical tables, &c.
- (b.) Entrance Examination :—Regulations, Examination papers, and Certificates,—see under Secondary Education.
- (c.) Regulations for the First Examination in Arts.
- (d.) Specimens of papers set in the First Examination in Arts.
- (e.) Regulations for the Examination for the Degree of Bachelor of Arts.

- (f.) Specimens of papers set in the Examination for the Degree of Bachelor of Arts.
- (g.) Regulations for the Examinations for Honors in Arts and for the Degree of Master of Arts.
- (h.) Specimens of papers set in the Examinations for Honors in Arts and for the Degree of Master of Arts.
- (i.) Regulations for the Degree of Bachelor in Law, for Honors in Law, and for the Degree of Doctor in Law.
- (j.) Specimens of papers set in the Examinations for the Degree of Bachelor of Law and for Honors in Law.
- (k.) Regulations for the Examinations for a License in Medicine and Surgery, for the Degree of Bachelor of Medicine, for Honors in Medicine, and for the Degree of Doctor of Medicine.
- (l.) Specimens of papers set in these examinations.
- (m.) Regulations for the Examinations for a License in Civil Engineering, for the Degree of Bachelor of Civil Engineering, for Honors in Civil Engineering, and for the Degree of Master of Civil Engineering.
- (n.) Specimens of papers set in these examinations.
- (o.) Papers set in the Premchand Roychand Scholarship Examination.
- (p.) Specimens of every Certificate and Diploma issued by the University.
- (q.) Specimens of University Medals.
- (r.) Specimens of the Academical Costume prescribed for each degree.
- (s.) Calendars of the Universities of Calcutta, Madras, Bombay, and the Punjab.

5.—SPECIAL INSTRUCTION, FEMALE EDUCATION, EUROPEAN AND EURASIAN SCHOOLS, &c.—

- (a.) Short account of schools of special instruction, female education, European and Eurasian schools, &c.
- (b.) Regulations for the Vernacular Mastership Examination of Normal Schools.
- (c.) Papers set in the Vernacular Mastership Examination.
- (d.) Specimens of Certificates issued.
- (e.) Regulations for the Sanskrit Titles Examination.
- (f.) Papers set in the Sanskrit Titles Examination.
- (g.) Specimens of Certificates issued.

6.—REPORT OF THE EDUCATION COMMISSION.

7.—EDUCATIONAL APPLIANCES, MODELS OF SCHOOLS, SCHOOL FURNITURE AND BOOKS.

An indigenous pathshala, or primary school—

An actual pathshala of about 60 native boys and 4 gurus or teachers will be held in a building specially prepared to represent a native school-house. The school will be open for two hours twice a week, on dates to be afterwards notified. The school exercises will comprise only purely indigenous school-work, such as palm and plantain leaf writing, chanting the multiplication table in Bengali, &c. A printed account of pathshalas will be suspended in the building.

Chalk, &c., for writing on ground, or slates (4 specimens). From the Joint-Inspector of Schools, Orissa.

Iron stylus used in palm leaf writing, common (3 specimens). The knife-edge on the head of the stylus is used for cutting the palm leaf. From the Joint-Inspector of Schools, Orissa.

Iron stylus used in palm-leaf writing, good (3 specimens). One of them with ornamented head. From the Joint-Inspector, Orissa.

Reed and bamboo pens used for writing on palm and plantain leaf, and on paper. From the Deputy Inspector of Schools, 24-Pergunnahs.

Indigenous writing slates used in Singbhoom. From the Inspector, Presidency Circle.

Slate-pencils used in Singbhoom. From the Inspector, Presidency Circle.

Sampidi. Wooden boards fastened together so as to form a sort of book, in which petty accounts are kept by shop-keepers. From the Joint-Inspector, Orissa.

Knotted string used by Sonthalis in keeping accounts of rice with their mahajans. The first set of knots, of which there are 12 in this specimen, represents the number of maunds of rice received on loan from the mahajan during the preceding year; the second set of knots, of which there are 10 in this specimen, represents the number of maunds received during the current year; and the third set, of which there is only one, represents the number of shalis, a measure about half a maund. From the Deputy-Inspector, Sonthal Pergunnahs.

Photograph of the Seebpore Engineering College.

Photograph of the Medical College and Hospital.

Photographs of the Dacca and Krishnaghur cricket elevens.

SCHOOL-BOOKS.—Specimens of school-books in the various languages taught in Government and other schools throughout Bengal :—

Bengali—

123 Bengali school-books, on all subjects taught in primary and secondary schools. From the Calcutta School Book Society.

3 Books on Bengali music. From the Inspector, Presidency Circle.

Ooriya—

39 Ooriya school-books. From the Joint-Inspector, Orissa.

24 Ditto ditto. From the School Book Society.

Devanagri—

59 Devanagri school-books. From the Inspector, Behar Circle.

12 Ditto ditto. From the School Book Society.

3 Ditto ditto. Used in Mission schools amongst the Kols of Chota Nagpore. From the Assistant Inspector, Chota Nagpore.

2 Devanagri alphabets, mounted for school use. From the Assistant Inspector, Chota Nagpore.

Kaithi—

Kaithi school-books. From the Inspector, Behar Circle.

Urdu—

Urdu school-books. From the Inspector, Behar Circle.

12 Urdu school-books by Moulvi Ubaid Ullah. From the Author.

9 Urdu school-books. From the School Book Society.

Sanskrit—

Sanskrit school-books. From the Principal, Sanskrit College.

Persian—

25 Persian school-books. From the Principal, Calcutta Madrassah.

Arabic—

30 Arabic school-books. From the Principal, Calcutta Madrassah.

2 Arabic school-books by Moulvi Ubaid Ullah. From the Author.

Mundari and Ho—

13 Mundari and Ho school-books, used in various Mission schools in Chota Nagpore. From the Assistant Inspector, Chota Nagpore.

Oraon—

4 Oraon school-books, used in Mission schools in Chota Nagpore. From the Assistant Inspector, Chota Nagpore.

Sonthali—

12 Sonthali books used in Mission schools. From the Assistant Inspector, Chota Nagpore.

15 Sonthali school books, received from the Indian Home Mission. From the Deputy Inspector, Sonthal Pergunnahs.

5 Rajmahali Paharia school-books, received from the Indian Home Mission. From the Deputy Inspector, Sonthal Pergunnahs.

6 Rajmahali Paharia school-books. From the Revd. Dr. Baumann.

3 Rajmahali Paharia school-books. From the School Book Society.

Tibetan—

7 Tibetan school-books. From the Deputy Inspector, Sikkim.

History of Buddhism, by Baton. A fine specimen of Tibetan block printing. From the Deputy Inspector, Sikkim.

Apparatus used in Tibetan block printing, comprising the blocks, roller, brush, two kinds of ink, and the paper employed. A short account of Tibetan block printing is attached to the exhibit. This apparatus was obtained from the Buddhist Monastery of Pemayantsi, Sikkim.

Lepcha—

3 Lepcha school-books. From the Deputy Inspector, Sikkim.

Khasia—

4 Khasia school-books. From the School Book Society.

Burmese—

5 Burmese school-books. From the Deputy Inspector, Chittagong.

Text-books prescribed by the University of Calcutta for the examinations for its various degrees. Lent by Messrs. Thacker, Spink & Co.

The Tagore Law Lectures, 1870—1883.

Manuscripts in various languages :—

Bengali—

Vidya Sandara.

Santi Parva (Mahabharat).

Satya Narayana.

Mahabharat (fragment).

Santi Parva (Mahabharat).

Kabi Kankar's Chandi.

Birát Parva (Mahabharat).

Dharmer Jágaran.

Part of Vidya Sundara.

Pralhad Charitra.

Satya Narayana.

Mahabharat. Written in 1213 B. S.

Ramayana, 55 years old.

Harinama Mrita, 37 years old; now in course of publication; belonging to Tarini Prasad Neogy.

Oriya—

Bandhodoya. An illuminated palm-leaf book. From the Joint-Inspector, Orissa.
Palm-leaf book containing illuminated extracts from Gitagovind. From the Joint-Inspector, Orissa.

Devanagri—

Muklavali (philosophy). Age 270 years, as appears from date given in manuscript itself.
Vyakaran panini. Over 100 years old.
Vyakaran saraswati. Age 136 years.
Muklavali. 44 years.
Vyakaran-Bhushan. 50 years.
Adhyatma Rāmāyan. 70 years.
Several small manuscripts.

Kaithi—

Suryay Purān. 22 years old.
Legend of Behula. An abstract of the legend in English is annexed to the manuscript.
Sudamacharetra.
5 Miscellaneous manuscripts.

Urdu—

5 Small Urdu manuscripts. From the Inspector, Behar Circle.

Sanskrit—

Chitikāndam (treatise on the maintenance of the sacred fire). 500 years old.
Fragment of the Yayurveda, in Devanagri characters.
Jāgadisi (logic).
Jyotisa sangraha (astrology).
Madanpārijāta (Hindu law). 132 years.
Naishadha charita. 300 years. A Sanskrit poem written on teria-leaf, *Corypha taliera*, in Bengali characters.
Vidagdha mādhyama nātakam. Sanskrit drama in Oriya characters on palm-leaf.
Dāsamukhabadha kānyam. 350 years. A prakrita poem written in Bengali characters on teria-leaf.
Birudāvali. A collection of witty poems written in Maithili character.
Jivānigamasūtram. A Jain work on the origin and destruction of created beings written in Magadhi characters.
Bhaktāmarastotram. 200 years. Jain work containing a hymn in Sanskrit.
21 Sanskrit manuscripts from the Inspector Western Circle.

Persian—

Srimat bhagbat. From the Principal, Calcutta Madrassah.
Gulistan. From the Principal, Calcutta Madrassah.

Arabic—

7 Arabic manuscripts. From the Principal, Calcutta Madrassah.

Tibetan—

Chyang Chhut Landon. Translated from a Sanskrit work of A. D. 1001.
From Baboo Sarat Chandra Dass, Deputy Inspector, Darjeeling.
Pon scripture. A sacred work in U-cha character. From Baboo Sarat Chandra Dass, Deputy Inspector, Darjeeling.

Burmese—

4 Burmese manuscripts. From the Deputy Inspector, Chittagong.

8.—MAPS, CHARTS, AND GEOGRAPHICAL APPARATUS—

- 12 Bengali geography primers and atlases. From the School Book Society.
- Bengali school-map, of the world in hemispheres. From the Inspector, Presidency Circle.
- 2 Small terrestrial globes used in Bengali schools.
- 4 Devanagri geography primers and atlases. From the Inspector, Behar Circle.
- Map of valetine in Devanagri, used in Kol Mission schools. From the Assistant Inspector, Chota Nagpore.
- 1 Ooriya physical geography. From the School Book Society.
- Ripon Atlas in Ooriya. Firsh Ooriya atlas published contains 10 maps. From the Joint-Inspector, Orissa.
- 5 Ooriya geography primers. From the Joint-Inspector, Orissa.
- 1 Urdu geography primer. From the School Book Society.

9.—SPECIMENS OF WORK DONE BY PUPILS IN SCHOOLS—

Handwriting in the various languages taught in Bengal schools—

Bengali—

- Writing on palm-leaves. Three sets of specimens. Writing done with ink. The bamboó pen, the palm-leaf ring in which the written leaves are kept by the scholar, the cloth with which the leaf is cleaned for fresh writing, and the grass mat or dharapat on which the scholar sits are also shewn. This is done in the "palm-leaf class," the lowest class in a pathsala. From pathsalas in 24-Pergunnahs.
- 18 Specimens of palm-leaf writing. From Phulbati School 24-Pergunnahs.
- Writing on paper. Several specimens. Done with a reed-pen in the higher classes of a pathsala. From pathsalas in 24-Pergunnahs.
- Writing on paper. From Reformatory School, Alipore.
- Ditto. From girls, schools of the London Missionary Society, Bhowanipore.
- Ditto. From schools in western circle.
- Mahajani accounts. Specimens of form of keeping accounts in money transactions. From pathsalas in 24-Pergunnahs.
- Zemindari accounts. Specimens of the various headings of accounts in a landed estate (zemindari). From pathsala in Nuddea district.
- Horoscope in Bengali. The drawing-up of horoscopes is taught in tols.
- 6 Specimens of deeds, contracts, &c., in Bengali. From Phulbari school, 24-Pergunnahs.
- 4 Specimens of minute Bengali writing on post cards by pupils of the Dacca Collegiate School.

Ooriya—

- Writing on bamboo-leaf. Written with iron stylus. 14 bamboo-leaves enclosed in 2 palm-leaves. From Talsipore Pathsala, Cuttack.
- Writing on palm-leaf done with an iron stylus :—
 - Ordinary quality (3 specimens). From pathsalas in Cuttack district.
 - Medium quality (3 specimens). From pathsalas in Cuttack district.
 - Best quality. By Bhikari Charan Mahanty, Monda, Balasore district.
 - Best quality. Done with an iron stylus and then rubbed with a red powder. By Chintamani Banigrahi, Guamal, Balasore.
 - Best quality. Done with iron stylus, a beautiful specimen of very fine palm-leaf writing. By Radha Krishna Nunda, Teacher, Parbatipore Pathsala.
- Writing with read or quill pen on paper :—
 - Common (3 specimens). From pathsalas, Cuttack.
 - Medium (2 „). From secondary schools, Cuttack.
 - Best (2 „).

Chitra kabya or poem in pictures. Containing Ooriya verses written in fanciful forms, such as fishes, flowers, &c. By Gobind Missra, Sonakhala, Banpore, Pooree.

Devanagari—

Specimens of Devanagari school-writing of all kinds, plain and ornamental. From pathsalas, middle and high schools, Behar
Specimens of Devanagari school-writing. Reformatory School, Alipore,

Kaithi—

Specimens of all kinds plain and ornamental. From pathsalas, middle and high schools, Behar.

Urdu—

Specimens of all kinds, plain and ornamental. From pathsalas, middle and high schools, Behar.

Sanskrit—

Writing on palm-leaf in Ooriya characters with iron stylus (attached).
Writing on palm-leaf with ink made of lacdye with bamboo-pen (attached).
Writing on paper with bamboo-pen.
Ditto ditto.
Writing on paper with reed-pen.
Ditto ditto.

9 Specimens of Sanskrit writing in Bengali and Devanagari characters.

N.B.—The method of preparing the ink with which these specimens are written is explained on the labels attached to each.

Persian—

25 Specimens of Persian hand writing of all kinds, plain and ornamental. From Calcutta Madrassah.

Arabic—

18 Specimens of Arabic writing, plain and ornamental. From Calcutta Madrassah

Mundari—

15 Specimens of Mundari school-writing done in the mission schools.

Oraon—

Numerous specimens of Oraon handwriting by girls and boys from mission schools.

Sonthali—

Many specimens of Sonthali school-writing by boys and girls, illustrating the work of elementary schools. From pathsalas and primary schools of Sonthal Pergunnahs.

Tibetan—

Specimens of Tibetan school-writing. From Bhutea Boarding School, Darjeeling.

Burmese—

Specimens of Burmese school-writing done in schools of Chittagong Hill Tracts. From Deputy Inspector, Chittagong.

PLANS, MAPS, &C., PREPARED IN INDUSTRIAL, SURVEY, AND OTHER SCHOOLS.

Cadastral survey map of the village Marmul, by Christain Kol lads of the Society for the Propagation of the Gospel and German Missions at Ranchi.

- Cadastral survey map of the village Torar, in Lohardugga, by Christian Kol lads.
 Map of the compounds of the Ranchi Normal and Zillah School, with slip showing scale of drawings by Christian Kol lads.
 2 Plans of the school-house of the Aided English Railway School at Khagoul, Dinapore. These are done entirely by the two girls named on the exhibits.
 Manuscript map of the world in Devanagiri.
 Ditto ditto from Gaya Zillah School.
 Terrestrial globe from ditto.
 Map of Gaya district from ditto.
 Map of a group of villages in Gaya district from Gaya Zillah School.
 6 Maps from St. Paul's School, Darjeeling.
 22 Maps from Jamalpore Railway School.
 1 Map of India (Bengali) from Chitholia School, Pubna.
 1 Map of India (Bengali) from Hugli Normal School.
 Atlas by a pupil of Dhankora Middle Vernacular School, Dacca.
 Map of world by Tara, Circle Pundit, Dacca.
 Plan of Dacca Hospital and map of Parjoor island, by a pupil in Dacca Survey School.
 2 Maps of India from Dacca schools.
 Map of Asia (Bengali).
 Bengali diagram to illustrate the diurnal and annual motions of the earth and the moon's phases. From Phulbati School, 24-Pergunnahs.

DRAWINGS, PAINTINGS, &C., FROM SCHOOLS OF ART AND OTHER SCHOOLS.

- Picture of Cupid's car painted on palm-leaves. The car is made up of female figures. By Gourang Mahapatra, teacher, Talsipore Pathsala.
 Picture of Radha and Krishna. Mostly made of Ooriya letters. By Lukhan Putnaik, Khorda.
 3 Landscape paintings in water colours. From Gaya Zillah School.
 21 Drawings. Ordinary school drawings, not specially done for the Exhibition. From English Railway School, Jamalpore.
 8 Drawings. Ordinary school drawings, not specially done for the Exhibition. From St. Paul's School, Darjeeling.

Exhibits from the Calcutta School of Art. These are intended to illustrate the various kinds of art-work taught in this school, one specimen of each kind being exhibited :—

Studies from life in water colours :—

Head of a native of Gwalior, named Káshirám, by Navakumar Viswas.

Head of a Bengali Baboo, named Prianath Mukherji, by Mahendranth Chaudhuri.

Head of a native of Behar, named Balaram, by Jadubkrishna Bhattacharji.

Head of a native of Behar, by Harináráyan Basu.

Head of a Mahomedan cooly, by Jádab Chandra Chakravarti.

Head of a Gosain, by Jadab Chandra Chakravarti.

Head of a native of Gwalior, by Jadab Chandra Chakravarti.

Ditto ditto, by Krishna Chandra Pal.

Head of a native of Banswarrah, by Barada Kanta Datta.

Studies from life in oil colours :—

Head of a native of Benares, named Thakurdas Banerji, by Naráyandás Mitra.

Head of a native of Gya, named Ramdeen, by Naráyandás Mitra.

Head of a native of Shewta Bandha, Ramessur, by Digbijay Niogi.

Head of a Bengali named Bepin Das, by Nritykālī Mukerji.
Three studies from life in sepia and Indian ink :—
Three ditto in crayons.
Study of nature in water colours.
Ditto ditto.
Ditto ditto in sepia.
Study of flowers in water colours (copies).
Drawings from busts in sepia.
Ditto ditto in crayons.
Ditto casts in sepia.
Ditto ditto in crayon.
Pen and ink sketches.
Pencil sketches.
Architectural drawings.
Mechanical drawings.
Specimens of lithography in chalk work.
Ditto ditto in brush work.
Ditto of drawings of textile fabrics.
Ditto of wood engravings.
Ditto of decorative paintings in tempera colours.
Ditto of decorative paintings in tempera colours, by Bipinbihari Das.
Ditto ditto ditto, by Sasadhar Banerji.
Study of life in sepia—one frame containing three heads.
Study of flowers from nature in water colours.
Study of fruits from nature in water colours.
4 Bas reliefs of heads from antique busts in plaster of Paris.
Model of leaves from nature in plaster of Paris.
Model of a mask from plaster cast in clay.
Models of two hands and two feet from plaster casts in clay.
Model of leaves.
Drawings from casts in crayons.
Drawings of butterflies, &c., prepared for the Indian Museum, by Behari Lal Das, a former pupil of School of Art.

NEEDLE, FANCY, AND OTHER WORK DONE IN GIRLS' SCHOOLS, &c.—

Country basket, from Behar.
5 Specimens of fancy work from schools in Western Circle.
3 Specimens of fancy work from Dacca Girls' School.
Many specimens of miscellaneous fancy work, from girls' schools in Barisal.
17 Specimens of needle-work by Kol girls in mission schools at Ranchi.

GOVERNMENT WORKSHOPS, DEHREE.

The following models, &c., were constructed and prepared at the Government Workshops, Dehree, by order of the Superintending Engineer, Sone Circle :—

1. MODEL OF THE SONE WEIR.
2. MODEL OF FOURACRES' UNDER-SLUICE GATES WITH HYDRAULIC BRAKES.
3. MODEL OF FOURACRES' DREDGER, $\frac{1}{12}$ FULL SIZE.
4. MODEL OF FOURACRES' SHALLOW DREDGER, $\frac{1}{12}$ FULL SIZE.
5. FOURACRES' AUTOMATIC DEEP WELL DREDGER.
6. MODEL OF A LOCK-GATE WITH FOURACRES' PARALLEL VALVE-LIFTING AND OPENING GEAR.
7. SPECIMEN CAS OF BUILDING MATERIALS AVAILABLE AT DEHREE.

(I AND II).—MODEL OF SONE WEIR.

General description.—This weir, constructed at Dehree, to feed the Sone system of canals, is 2.35 miles in length, and provided with three sets of under-sluices. It is built of dry packed rubble, sloped at 3 to 1 on the up-stream, and 12 to 1 on the down-stream side, and further strengthened by two cross walls of rubble masonry 35 feet apart. The foundations of the cross walls and under-sluices rest on walls shown in section on the model. The crest of the weir is 8 feet above the river-bed: a moveable dam two feet in height subsequently erected along the crest has been found useful in increasing the depth of the navigable pool above weir, raising the head of water for supplying the canals and preventing waste.

The discharge of the river at highest flood is 1,026,000 cubic feet per second. The lowest known discharge is 800 cubic feet per second. The head sluices of the main canals on either side of the weir are designed each to discharge 4,500 cubic feet per second. The chief crop protected is rice, and the supply during the rice season is always plentiful.

The weir took five years to build, and cost Rs. 15,35,505.

The model constructed to a scale of $\frac{1}{16}$ shews 30 feet of the weir, with crest shutters and foundations, and one under-sluice adjoining.

Each set of under-sluices forms a moveable weir, containing 22 vents (20.7 feet wide \times 10 feet high). The self-acting shutters were invented by Mr. Fouracres, and the arrangement is peculiar to this weir.

The back shutter is held up by seven tension rods, the centre of pressure being below that of rotation so long as the water does not top the shutter, which will fall if the water rises above that level. It can, however, be held up against a greater head by the chains.

The front shutter is fitted with six struts, each consisting of a rod working in a wrought-iron tube, the tube being perforated so as to fill with water when down, and the head of the rod within the tube being packed with leather so as to form a piston. The packing is loose when the rod is extended, but when forced up against the pressure of the water collected in the pipe, closes tightly on the inner face of the tubing.

Any sluice being open and both shutters down, if it is desired to close it, the catch holding down the front shutter is released, and the head of the shutter, by means of the lever and pulley tackle, raised about 8 inches. The force of the stream then does the rest, the shock being modified and injury prevented by the tube and piston arrangement of the strut.

The front shutter having been raised, the back shutter is easily hauled up. The chamber thus formed by the two shutters can be filled by opening the valve in the front shutter, which last can then be easily lowered. The sluice then remains with the back shutter up and the front one down, such in most of the sluices being their usual position for the greater part of the year.

This project is designed to irrigate 1,295,924 acres, and comprises 218 miles of navigable canals, 148 miles of branch canals, and 1,075 miles of distributaries.

The designs and estimates were prepared by Mr. H. C. Loring of the Bengal Public Works Department, and almost all the work was executed under his immediate supervision.

(III).—MODEL OF A FOURACRES' DREDGER.

This dredger was invented by Mr. Fouracres, and is extensively used on the Sone canal, having been found very efficient in dealing with the sandy deposit of Sone silt.

The model is to a scale of $\frac{1}{16}$ full size, representing a dredger of 16 cubic feet capacity swung on a portable crane and worked from a crab winch, the

power being supplied by a portable engine of 6 horse-power (not shewn), and the whole being carried on an iron barge. Other barges, about five to each dredger, on which the silt is deposited and floated off where required, complete the equipment.

To work the dredger the bucket can be brought over any required spot by means of the rack which gears on the turntable of the portable crane. It is then lowered by unwinding the main chain, the segmental jaws being kept from closing by the catch at the crown of the bucket. The jerk with which the bucket strikes the sand releases this catch, which is then carried upwards by the float attached to it, and the jaws are free to close. The long spear is now firmly jammed into the guide at the jibhead by putting the long lever attached to the latter, and the winch being simultaneously reversed, the jaws are forced into the sand till they close on each other. The spear is then released and the bucket is drawn up, the clutch collar travelling upwards till caught by the hook at the jibhead.

The bucket is now brought over the punt which is to take the silt, and the winch being a second time reversed, the jaws open and the silt is dropped.

A dredger can lift 40 to 50 bucket loads in an hour. Manned by natives only, it is considered to have done a fair day's work when it has cleared 3,000 cubic feet of silt.

The following statement shows the labour employed, and the cost of day's working:—

Labour.			Materials.		
	Rs.	A. P.		Rs.	A. P.
Driver ...	0	4 0	Wood 12 mds. ...	1	6 0
Winchman ...	0	4 0	Castor oil 2 lbs. ...	0	4 0
Fireman ...	0	3 0	Grease 1 lb. ...	0	2 0
Gibman ...	0	2 6	Jute 1 lb. ...	0	1 6
Gipsy winchman ...	0	2 6	Miscellaneous ...	0	2 6
Coolies on punt ...	0	10 6

E.—Octopus, Calcutta ...	6·04 pence=(4 as. '32 pie).	
F.—Fouracres' dredger ...	1·50 pence=(1 anna).	0·98 pence=(11·76 pie).

(IV) —MODEL OF A FOURACRES' SHALLOW WELL DREDGER, OR EXCAVATOR.

The method of working Fouracres' excavator is thus described by its inventor:—

The action of the shallow well or block excavator is very simple. It is slung over the well or place to be excavated or to be sunk by tackle and pulleys worked by a windlass, or any other winding apparatus, from any convenient form of staging or from a boat, barge, flat, or pontoon. If used for deepening channels, rivers, reservoirs, or harbours, it is lowered with the jaws in the open position till it rests on the bottom, the attendants (one or two) step on the platform, and one with his feet releases the spring-crank or catch. The windlass men at once wind up; but the weight of the men keeps the connecting rod and scoop from rising till the jaws have closed; it is then full of sand, gravel, mud, or other soil; then all rise together. The two men step off on the sides of the well or platform, and a full bucket rises to the level. They sway it over the sides of the well, or place being excavated, on a platform, point, or otherwise at the side of the well or place being excavated, and pull smartly at the lever, the jaws open, and the crank catch holds them so, the sand, mud, or soil falls out, and the apparatus is then lowered again and in its proper position to bite another load.

	Rs.	A.	P.
Cost of sinking 1,000 cubic feet of masonry by Mr. Fouracres' excavator; time 3 days ...	7	11	3
Cost of sinking 1,000 cubic feet of masonry by Jham and Driver, native method; time 26 days ...	63	9	0
Cost of sinking 1,000 cubic feet of masonry by Jham as per Captain Goodwyn's rate ...	37	9	0

Cost of one excavator ...	30	0	0

(V).—FOURACRES' AUTOMATIC DREDGER.

This dredger will sink wells to any depth, and is very easily worked. It is considered the best dredger for deep well-sinking.

(VI).—MODEL OF LOCK GATE WITH FOURACRES' PARALLEL MOTION VALVE AND OPENING GEAR.

Constructed and in use on all the Sone canal locks. The opening of the gates is effected by lever and pinion geared into a rack; the pin and socket in which the pinion revolves suits itself to any angle the gate may be in, and is a most simple and effective arrangement.

The valve is opened by a lever, pawl, and ratchet, and closes itself immediately the pawl is thrown out of gear.

The valves are attached to the gate by four parallel links. Directly the valve is lifted the pressure is transferred to the links, and the valves leave the face of the gate; hence there is no friction.

The model is constructed to a scale of $\frac{1}{12}$. This is the design of Mr. C. Fouracres.

(VII).—SPECIMEN OF BUILDING MATERIALS, &C., USED ON SONE CANALS.

DESCRIPTION.	Cost at Dehree per 100 cubic feet.	Cost, deli- vered at Arrah, East Indian Rail- way, per 100 cubic feet.	Cost, deli- vered at Dinapore, East Indian Railway, per 100 cubic feet.	Cost, deli- vered at How- rah, Calcutta, through Arrah, per 100 cubic feet.

BURRAKUR IRON WORKS, BENGAL—

Cast-iron pipes from 3" to 30" diameter.

Cast-iron railway sleepers, Denham-Olphert's patent.

Two cast-iron pulley wheels with wrought iron arms, one 6' and the other 9' diameter.

Cast-iron plates; Indian iron ores; Indian pig-iron; four cast-iron pillars; four cast-iron arches.

Cast-iron railings.

COLONEL BERESFORD LOVETT, R.E.—

Model of ferry boats and raft.

These rough models illustrate the application to native craft of the system of ferrying that is carried out on the river Rhine at Baupart, Bonne, Neiwend, &c.

The boats are anchored in mid-stream by a wire cable one and a half times the breadth of the river.

By manœuvring with the rudders and leaboards, the twin-boat raft is made to describe by the force of the current an arc from bank to bank.

In the case of the single boat this object is attained by shortening or lengthening out the side chains leading from the cable to belaying bits on board.

PUNJAB NORTHERN STATE RAILWAY—

Model of Attock Bridge staging.

ODDH AND ROHILKHAND RAILWAY COMPANY—

Benares Bridge; designs and models of plant for sinking water piers.

Model of a colliery pit-head.

LOCOMOTIVE WORKSHOPS, JAMALPUR, EAST INDIAN RAILWAY—

Model of a locomotive engine applied to working paddles of a steamer.

Model of automatic points and signal; complete set of working parts of a locomotive.

MAJOR SEDGWICK, R.E.

Working Model of a Hill Railway, scale $\frac{1}{4}$ th of full size on the principle of Sedgwick's Patent Hydraulic Lifts for Hill Stations.

These Lift's, in which the carriages are each furnished with tanks capable of holding several tons of water, are worked on the principle of self-acting inclines, by simply weighting the carriages at the top of the incline with water, until they are sufficiently heavy to counterbalance the load on the carriages at the bottom and overcome friction. The speed of the carriages can be accelerated during the run at curves or changes of gradient by simply running water out of the tanks of the ascending carriage in which a small supply is retained for the purpose or can be diminished by running it out from the descending carriage. Should the rope break at any time, the carriages are immediately held by the ploughs in front, which, being raised by the tension of the rope, fall directly the rope breaks, and in falling hitch a second safety rope round stout iron hooks attached to the sleepers or round posts fixed at intervals up the Lift. The safety rope is paid out from two side drums, so as to avoid bringing the carriages up too suddenly.

The Lifts can be worked with a double line of rails, and a rope down the middle of each track, as in the model, or with a single line with a rope down each side, and a short length of double line to enable the carriages to pass each other in the middle of the run. They can be used with vertical shafts as well as with inclines, and can therefore be taken straight up any hillside, however steep. If, however, the vertical height exceeds 2,000 feet, the Lifts should be arranged in stages rising about 1,500 feet each. Where the ascending or descending carriages have passed the first stage, they are then made fast to the rope of the next stage, and so pass straight up or down the Lift. The tanks of the carriages are arranged in a series of steps, so as to keep the floor of each compartment in a horizontal position. The carriages can be worked in pairs; or in trains, by coupling all the ascending and all the descending carriages of a number of pairs together.

On a steep hillside it may be assumed that a weight of 5 or 6 tons of water will raise a load of two tons up any height. The Lifts being exceedingly simple in construction can be used for rough work as well as for perfectly finished lines, and can be made, if necessary, in a very rough form.

When not raising loads, these Lifts can be used, if necessary, to drive machinery by taking a rope from the main drum and putting an additional toothed wheel in or out of gearing each time a trip is made.

G. K. WINTER, ESQ., TELEGRAPH ENGINEER, MADRAS RAILWAYS, ARKONAM.

Block section complete consisting of 2 Winter's block instruments and 2 Winter's and Craik's starting semaphores, 2 counters, and 28 ebonite cells.

These will be joined up as two stations with a section of railway between them.

Winter's electrical inter-communication chains, full size on portable stand, 1 engine bell, and 1 guard van plunger.

Model of Stony and Winter's locking rail switch locks.

Model of Stony and Winter's locking bar switch locks.

Model of Stony's soorkey screen.

Stony's patent punkha wheel.

Two models of Stony's helical excavators.

One model of Stony's enlarging excavators.

One model of Stony's undercutting excavators.

GOVERNMENT TELEGRAPH DEPARTMENT WORK-SHOPS, ALIPORE.

SECTION G.

Apparatus for automatic transmission of the time over 12 lines simultaneously.

Bells with relays made for the Ravi bridge.

Condensers, paraffin.

Ditto., mica.

Commutator for 16 lines.

Direct recorder for examining signallers in signalling.

Duplex apparatus for sending two messages on the same line simultaneously.

Galvanometers.

Galvanascopes.

Indicator for 6 lines.

Insulator and joint detector.

Johnston's patent telephonic apparatus.

Keys for signalling.

Keys for testing.

Lightning dischargers of different patterns.

Portable batteries for testing.

Relays of different patterns.

Receiving instruments (sounders).

Switches.

Short circuiting trembling bells.

Single stroke bells.

Samples of cables 900lb and 750lb guards.

Stays or ties of sizes.

Shunt's electromagnetic.

Telephone exchange switch with indicators for 25 lines.

BENGAL JAILS.

SECTION B.

PRESIDENCY JAIL.

Stereotype plates, in ordinary use, comprising—6 plates Bengal Chalans; 6 plates Assam Chalans; 1 plate form of Table of Prison Statistics for Bengal; 8 plates Sanitary Primer in the new Kaithi-Nagri character; 4 plates Gazette matter in English; Bengali, Kaithi-(Nagri, and Urdu; 4 cheque blocks of Matabhangah Pass.

Quotations and French metal furniture.

Chases, six.

Electro plates, comprising—4 plates cheque forms of the Accountant-General, Bengal; 8 plates cheque forms in use in Bengal municipalities; 4 plates Sanitary Primer in English; 4 plates Grounds for Salt Boat Note forms; 4 plates Grounds for Cheque forms; 12 blocks of Cheques, 7 blocks of Gazette headings; 1 plate book cover; 40 pieces French rule; 1 block Royal Arms 2 blocks certificate diagram.

Quotations and French metal furniture.

Chases, seven.

SECTION C.

ALIPORE JAIL.

Watering cart.

SECTION D.

ALIPORE JAIL.

Portable invalid couch.

Easy chair.

Water clock.

ALIPORE REFORMATORY SCHOOL.

Teapoys, 1 pair.

Tin cabinet.

„ writing case.

Cane chairs, 2.

BHAGULPORE CENTRAL JAIL.

Carpets—

Persian A pattern, 10' × 12' × 8' × 10', 7' × 4', respectively and of different textures.

Persian B pattern ditto ditto.

Ditto ditto (Agra border) ditto ditto.

New shawls ditto ditto ditto ditto.

Old ditto ditto ditto ditto.

Subjee ditto ditto ditto ditto.

Persian shariji pattern (Hyderabad border) ditto.

Purdah pattern 6' × 3' and 4½' × 2', of 10 and 12 stitches to the inch respectively.

Indian cane pattern, 8' × 10' and 7' × 4' respectively.

Tents.

CUTTACK JAIL.

Table-cloths.

Napkins.

HAZARIBAGH CENTRAL JAIL.

Carpets—

12' × 15' New shawl pattern, fine wool.

12' × 15' Persian ditto ditto.

12' × 15' Yarkandi ditto ditto.

12' × 15' Ditto ditto, coarse wool.

10' × 14' Persian ditto ditto.

8' × 12' New shawl ditto ditto.

The carpets are made in this jail entirely by prisoners, under the management of Mr. Pimm, the Jailor. The yarn is procured ready spun from the jail at Bhagulpore, and the cotton for the warps from the Ghosery Cotton Mills, Calcutta. The dyeing of the wool is also done in this jail by prisoners, without any extraneous aid, the dyers being all taught their work in the jail. The dyes used are all vegetable dyes, with the exception of sulphate of iron, which is used in the blacks together with the hurra nut.

The names of the principal dyes are lac-dye, indigo, turmeric, pysar wood, vackum wood, polas flower, lode, hurra, jungal, crimadana; oil, sugar and flour are also used. Cream of tartar, alum, muriatic, sulphuric, and tartaric acids are used as mordants.

Aloe matting—

- Black and white check borders, 1 roll, 34 yards \times 2'.
- Ditto, brown and white checks, 1 roll, 34 yards \times 3'.
- Fancy colours, purple stripes, 1 roll, 34 yards \times 3'.
- Ditto, green do., 1 roll, 36 yards \times 3'.

Aloe door mats—

- 3' 6" \times 1' 9" black border, brown centre.
- Ditto, one-half diamond and green border.
- Ditto, fancy striped borders.

MIDNAPORE JAIL.

Purdahs—

- Prince of Wales' pattern.
- No. 3 ditto.
- No. 5 ditto.
- No. 17 ditto.
- Roman scarf ditto.
- Lucknow ditto.
- Italian ribbon, red ground.
- Ditto blue do.

These purdahs are woven on fly-shuttle looms worked by manual labour of male prisoners in the Midnapore Jail, who have been taught the work while in jail. There is a large demand for these purdahs in Calcutta and in other stations where Europeans reside. The richer natives also purchase them.

Table cloth—

- Diamond pattern.
- Flower do.

Table napkins—

- Diamond pattern.
- Flower do.
- Dusters—Red border, fine.
- Coir mats—Door mats of different varieties.

Coir brush-mats made by manual labour from Maldiva fibre purchased in Calcutta and from country fibre prepared in the jail. Nearly all the prisoners are employed in the manufacture of these mats, which sell at a good price in England as well as in Calcutta.

Coir matting, 5 rolls.

Coir matting is woven in large looms worked by the manual labour of several male prisoners who have learnt the work in jail. The raw material is purchased in Calcutta. The mats and matting are in great demand for covering the floors of passages, stair-cases, &c. The principal purchasers are Europeans and the richer class of natives.

RAJSHAHYE JAIL.

- Colored cotton window curtains.
- Colored door purdahs.
- Cane chairs (Sutherland, Lady Mayo, and Bauleah patterns).
- Cane waste-paper basket.
- Cane tea-table.
- Russa Female Jail—Fancy purdahs.

SECTION E.

ALIPORE JAIL.

Gunny-cloth and gunny-bags.

BHAGULPORE CENTRAL JAIL.

Fine Australian pilot blue cloth.
 Ditto ditto brown do.
 Ditto ditto claret do.
 Medium pilot cloth, blue and red.
 Coarse ditto, blue and black.
 Fine white blankets,
 Black horse blankets, 8' × 7', weighing 8 lb.
 Grey ditto, ditto.
 Do. servants' blankets, 7' × 4½', weighing 4 lb.
 Do. coolie ditto ditto ditto 3 „
 Do. do. ditto 6' × 4½', ditto 2½ lb.
 Oxford cloth.
 Ditto, different quality.

BUXAR CENTRAL JAIL.

Towelling.
 Sheeting,
 Specimens of the different kinds of uniforms made in the jail and supplied to the Police and Jail Departments.
 Specimens of the different kinds of clothing made in the jail for the use of prisoners.

CUTTACK JAIL.

Towels.
 Sheets.

MIDNAPORE JAIL.

Bathing towels, zig-zag pattern,
 Ditto, diamond do.
 Hand towels, zig-zag do.
 Ditto, diamond do.
 Ditto, square do. red border.

RAJSHAHYE JAIL.

Twilled silk and cotton cloth,

RUSSA FEMALE JAIL.

Towelling.
 Horse clothing.

SECTION F.

BHAGULPORE CENTRAL JAIL.

Samples of wools used in making carpets.
 Specimens of wools used in different stages of manufacture.
 Specimens of dyed yarn.
 Ditto of dye stuffs used in dyeing wool.

CUTTACK JAIL.

Specimens of coir string.

HAZARIBAGH CENTRAL JAIL.

Aloe fibre, combed.

Do., uncombed, selected leaves.

Do., do., ordinary do.

Do., coloured.

The aloe fibre is obtained from the plant *Aloe Americana*, which grows wild in many places in this district. Nearly 300 acres have been planted by this jail. Process of manufacture: The leaves are cut and brought into the jail; they are then put through a crushing machine invented by Mr. Pimm, which extracts the juice; they are then beaten by wooden mallets on stones until all the bark and woody matter is nearly cleaned out of them; they are then taken outside to a tank, and further beaten and washed till the fibre is tolerably clean and white. If allowed to remain long after being cut, the fibre will be of a dirty brown colour. It requires great care to clean it and keep its colour. The fibre is spun into twine and made into string: long warps are made of this, 100 to 150 feet in length and woven into matting. It also makes excellent rope, equal to Manilla. The matting is strong, durable, and far superior to coir.

SECTION G.

ALIPORE JAIL.

Oil mill, jail pattern.

Iron oil drum with screw cap.

BUXAR CENTRAL JAIL.

Indigo-pressing cloth.

GOVERNMENT HARNESS AND SADDLERY FACTORY, CAWNPORE.

ACCOUTREMENTS, VALISE EQUIPMENT PATTERN, 1882, ONE SET—

This is a set of the latest pattern of Valise equipment accoutrements as worn by British soldiers.

ACCOUTREMENTS, EXPERIMENTAL NATIVE INFANTRY No. I, ONE SET—

This pattern of accoutrements for Native Infantry has now been disapproved.

ACCOUTREMENTS, EXPERIMENTAL NATIVE INFANTRY No. II, ONE SET—

This pattern of accoutrements for Native Infantry is now under trial, and will, it is believed, be the future pattern for the Native Infantry.

APPOINTMENT AND TOOLS, PIONEERS CAVALRY—

Cases, leather, brown, hand axe, with pocket for 18 nails.

Ditto, ditto, holsters, near for augur and detonators.

Ditto, ditto, holsters, off for gun cotton and augur-handle.

Ditto, ditto, saw and file with two pockets, one for saw set and rule, and one for pincers, with strap for shovel.

Cases, leather, brown, with straps, pick-axe, shovel.

These are for Pioneers of Cavalry Regiments.

SMALL ARMS—

Scabbards, bayonet, common, interchangeable rifle, breech-loading Martini-Henry, long mark II.—This is made entirely in the Government Harness and Saddlery Factory, Cawnpore, and is used by British troops.

HARNESS. AND SADDLERY HARNESS, GENERAL SERVICE AND SADDLERY, UNIVERSAL—

Harness sets, complete, lead near off.—A set of lead harness as used with the Artillery.

Harness sets complete, wheel near off.—A set of wheel harness as used with the Artillery, costing about Rs. 70 for head and 85 for wheel sets.

This is entirely made in the Cawnpur Harness and Saddlery Factory. The leather is prepared in the tannery attached to the factory, and all components are made in the factory.

HARNESS AND SADDLERY, EXPERIMENTAL (FOR HUNGARIAN SADDLES)—

This is a set of harness for Hungarian saddle.

HARNESS AND SADDLERY, EXPERIMENTAL—

Saddles, Hungarian, complete.—These are made from drawings obtained at Berlin and Vienna. The tree is of Indian Bair wood, *Sisiphus jujuba*. The arches are thronged on to the bars, and one saddle is without numnah, as worn by the Russian army; one with felt numnah or pannel, as worn by the Austrian army. The components are modified to suit Indian service and Indian horses.

HARNESS AND SADDLERY, SADDLETREES AND PARTS OF—

Saddletrees, complete (with angle-iron arches) with iron arches universal.—

This is an angle-iron arched saddle tree prepared in lieu of the present flat iron arched saddletree.

MISCELLANEOUS—

	lbs.
Glue, Cawnpore Harness Factory	4
Hides, buffalo, tanned and curried, half hides	34
Hides, buffalo, tanned and curried, skirts	18
Hides, buffalo, tanned butts	34
Ditto, ditto and curried, black, waxed	10
Hides, buffalo, tanned and curried, belt butts	23
Hides, buffalo, tanned and curried, engine hose	18
Hides, cow, tanned and curried, hides	37
Ditto, ditto ditto, for shoes	9
Hides, cow, tanned and curried, bags, ammunition	15
Hides, cow, tanned and curried, collar lining	8
Hides, cow, tanned and curried, black-grained	14
Hides, cow, tanned and curried, black-waxed	36
Skins, goat, tanned and curried
Ditto, ditto ditto, coloured
Ditto, sheep, ditto ditto

These are samples of the leather manufactured at Cawnpore and of the ordinary buffalo and cow hides of the North-Western Provinces, both tanned and curried at the factory.

Frames, wood, for samples of leather (with samples).—This illustrates the different processes of manufacture of leather.

Boxes, wood, with tin fittings (with samples).—Contains samples of tanning and dyeing materials, &c.

Gauges, plough (leather). This leather is for use in gunpowder mills.

BARRACK AND HOSPITAL STORES—

Table leather, rhinoceros—Samples of rhinoceros leather before currying. The rhinoceros was killed in Assam by Colonel Earle, late Military Secretary to Lord Northbrook.

FOREST DEPARTMENT, ANDAMANS AND NICOBARS.

PTEROCARPUS INDICA (Nos. 1 TO 4).

Padouk (Bur.).

COLOR.—From the colour of cedar to that of dark mahogany; frequently deep scarlet

PERFUME.—The same as rosewood.

TEXTURE.—Dense, with scattered pores, much as in American hickory, but somewhat coarser. Saws, planes, bores, turns, and steams well.

SEASONING.—Shrinks very little. Does not expand subsequently with moisture as do teak and most woods. Neither cracks nor warps.

DURABILITY.—Exempt from the attacks of termites and all xylophages except *teredo navalis* and from every kind of rot.

WEIGHT.—Cubic foot weighs 48 to 50 lbs. (seasoned), or about the same as oak.

STRENGTH.—Nearly the same elasticity, toughness, and hardness as American hickory. May be worked into the smallest scantling without the disproportionate loss of strength which teak suffers.

USES.—All the purposes to which teak, mahogany, hickory, ash and oak are applied, esp. fine constructions of unpainted woods, as in tramcars. Also for gun-carriages and parts of machines and implements.

SIZE.—Length of squares up to 60 ft.; siding up to 3 ft. Plentiful in the Andamans.

ARTOCARPUS LACUCHA (No. 5).

Lakuch, Dhaw Berar, Myouk-lok. (Bur).

COLOR.—Uniformly an ochre yellow, deepening to brown on exposure.

TEXTURE.—Close but not dense, with pores like those of padouk but more abundant. Difficult to saw on account of a resinous substance which the heat extracts; planes and bores well.

SEASONING.—Loses a little weight, but appears to suffer no other change in the process.

DURABILITY.—Exempt from the attack of termites and all land xylophages Not yet tested against *teredo navalis*.

WEIGHT.—Cubic foot weighs 45 to 48 lbs. (seasoned), or about the same as light mahogany.

STRENGTH.—The same toughness and hardness as ash, with less weight. The only light wood of India which is very strong.

USES.—The timber being rare in the older provinces has attracted little attention. In Port Blair, it has proved superior to all timbers, native and imported.

SIZE.—Length of squares up to 45 ft.; siding up to 1 ft. 6 inches. Plentiful in the Andamans.

MIMUSOPS INDICA (Nos. 6 & 7).

MOWHA, "BULLET-WOOD."

COLOR.—A uniform madder brown.

TEXTURE.—Dense. Hard to saw until seasoned; planes well; takes an augur. Resists nails.

SEASONING.—Apt to split and crack, if exposed to heat green. Best seasoned standing, by 'girdling' or dividing the sap-wood and felling a year or two after the tree has died. When seasoned, perfectly trustworthy.

DURABILITY.—Resists termites and all xylophages except *teredo navalis*, and every kind of rot.

WEIGHT.—Cubic foot weighs 60 to 70 lbs. (seasoned), or about the same as lignum vitæ.

STRENGTH.—Very great.

USES.—Chiefly for railway sleepers ; also for piles and for house posts.
SIZE.—Length of squares up to 50 ft. ; siding up to 2 ft.
Plentiful in the Andamans.

MESUA FERREA (Nos. 8 & 9).

GANGAW (BUR.), NAGASAR (BENG.), (IRON-WOOD).

COLOR.—As the preceding.
TEXTURE.—Very dense, with abundant fine pores ; medullary ray just perceptible.
Saws well when seasoned ; planes well ; takes an augur. Resists nails.
SEASONING.—As the preceding.
DURABILITY.—Ditto.
WEIGHT.—Cubic foot weighs 70 to 75 lbs. (seasoned).
STRENGTH.—The same as that of sál.
USES.—The same as the preceding.
SIZE.—Length of squares up to 60 ft. ; siding up to 2 ft.
Plentiful in the Andamans.

HOPEA ODORATA (No. 10).

THINGAN (WHITE) (BUR.).

(The red variety is inferior.)

COLOR.—The same as beech.
TEXTURE.—Very dense, with scattered coarse pores ; saws, planes and bores well.
SEASONING.—Varies : the timber of some trees showing no disposition to warp or split, that of others requiring considerable care.
DURABILITY.—Resists xylophages and rot in a high degree, but not absolutely.
WEIGHT.—Cubic foot weighs 60 to 65 lbs. (seasoned), or the same as beech green.
STRENGTH.—Much harder and tougher than oak.
USES.—Preferred by the Burmese for boat hulls, because it steams well, stands exposure to heat and wet, and to the roughest usage, for which reason in particular it lasts longer in a boat than teak. It is eminently suited for ships blocks, bits, capstan-bars, and the like.
SIZE.—Length of squares up to 60 ft. ; siding up to 2 ft. 6 in.
Plentiful in the Andamans.

LAGERSTREEMIA FLOS REGINÆ (No. 11).

PYIMMA (BUR.), BUNGAR, JARUL, NALI DASAL, KADALI PUA,
WUNGA, &c.

COLOR.—The same as that of cedar.
TEXTURE.—Close, with abundant fine pores distributed like those of ash. Saws, planes, and bores well.
SEASONING.—Seasons well, neither warps nor cracks ; shrinks little.
DURABILITY.—Not subject to the attack of xylophages other than termites, and seldom attacked even by them. Exempt from dry rot ; withstands the effect of confined moisture for years.
WEIGHT.—Cubic foot weighs 46 to 48 lbs. (seasoned), or somewhat less than ash.
STRENGTH.—About the same as that of American birch.
USES.—General building purposes. Shingles of this timber, earth-oiled or tarred, are equal to the best ; similarly sleepers. Also for felloes and spokes of wheels, &c.
SIZE.—Length of squares up to 60 ft. ; siding up to 3 ft.
Plentiful in the Andamans.

ARTOCARPUS CHAPLASHA (No. 12).

CHAPLASH, TOUNGPÖENG (BUR), 'WILD JACK.'

COLOR.—A faint yellow.

TEXTURE.—Somewhat open, with abundant large pores. Saws readily and planes smooth. Steams well.

SEASONING.—Seasons quickly. Neither cracks nor warps; shrinks little.

DURABILITY.—Proof against wet and dry rot. Is not attacked by xylophages except termites, and seldom by them.

WEIGHT.—Cubic foot weighs 44 to 43 lbs. (seasoned), or about the same as deal.

STRENGTH.—Between deal and birch.

USES.—For boat building, especially lighters and for general carpentry. Also for tea-boxes, &c.

SIZE.—Length of squares up to 60 ft.; siding up to 3 ft.

Plentiful in the Andamans.

PODOCARPUS LATIFOLIA (No. 13).

THITMIN (BUR.).

COLOR.—Somewhat darker than deal and lighter than birch.

TEXTURE.—Almost as fine as true cedar; works up beautifully.

SEASONING.—Appears to suffer no change beyond slight loss of weight. Desiccates completely.

DURABILITY.—Proof against dry rot. Prone to the attack of various xylophages.

WEIGHT.—Cubic foot weighs 42 to 45 lbs. (seasoned), or about the same as memel pine.

STRENGTH.—The same as cedar, but not quite so brittle.

USES.—For oars and spars. General carpentry (except fixtures). Straight-edges and squares. Fine tea-boxes.

SIZE.—Spars up to 60 feet, tapering from 18 inches to 10 inches.

Plentiful in the Andamans.

ALBIZZA LEBBECK (No. 14).

KOKO (BUR), SIRAS (N.-W. P.), SIRISHA (BENG.).

COLOR.—The same as walnut.

TEXTURE.—Similar to that of walnut, but the pores coarser. Works up well.

SEASONING.—Seasons well.

DURABILITY.—Exempt from dry rot. Prone to the attack of termites.

WEIGHT.—Cubic foot weighs 45 to 46 lbs. (seasoned), or little more than walnut.

STRENGTH.—The same as walnut.

USES.—As a substitute for walnut in the subordinate parts of walnut furniture, such as backs of wardrobes, sides of drawers, &c.

SIZE.—Length of squares up to 50 feet; siding up to 3 feet.

Plentiful in the Andamans.

DIOSPYROS KURZII (No. 15).

"MARBLE-WOOD."

COLOR.—Ebony, with streaks of light umber and gray.

TEXTURE.—The black of the texture of ebony, the light streaks of the texture of hornbeam.

SEASONING.—Difficult. The wood shrinks and warps.

DURABILITY.—The black veins resist decay as ebony does. The light-coloured part is also durable under ordinary conditions.

WEIGHT.—Cubic foot weighs 65 to 68 lbs. (seasoned), or the same as ebony.

STRENGTH.—The same as ebony.

USES.—For ornamental purposes, for sticks, frames, and cabinet work, especially for panels, &c., in conjunction with plain ebony.

SIZE.—Length of squares up to 20 feet; siding up to 12 inches.

Plentiful in the Andamans.

MURRAYA EXOTICA (No. 16).

MEH-KEH (BUR.), 'SATIN-WOOD.'

(Not the 'Satin-wood' of Ceylon.)

COLOR.—The same as box.

TEXTURE.—Ditto, but longer in the grain. Turns well.

SEASONING.—Requires care. After seasoning, not liable to crack or warp.

DURABILITY.—Not tested, but, in all probability, great.

WEIGHT.—Cubic foot weighs 70 to 75 lbs. (seasoned), or about 20 per cent. more than box.

STRENGTH.—Very great.

USES.—For the same purposes as box.

SIZE.—The same as box, but straighter—viz., up to 10 inches diameter and 12 feet length.

Plentiful in the Nicobars.

HETEROPHRAGMA ADENOPHYLLUM (No. 17).

PETTHAN (BUR.).

COLOR.—A deep ochre yellow, turning orange on exposure.

TEXTURE.—Close and even. The medullary rays sometimes just discernible; at others, beautifully variegating the grain. Works well.

SEASONING.—Does not shrink perceptibly. Neither warps nor cracks.

DURABILITY.—Not tested.

WEIGHT.—Cubic foot weighs 48 to 50 lbs. (seasoned), or about the same as oak.

STRENGTH.—About that of hornbeam.

USES.—Cabinet-work.

SIZE.—Heart-wood not above 10 inches diameter. (Sapwood also very fine.) Straight lengths up to 20 feet.

Somewhat rare in the Andamans.

TERMINALIA BIALATA.

THIT LĀET-PYA (BUR.), 'CHUGALAM.'

COLOR.—The colour of old oak, variegated with that of dark walnut.

TEXTURE.—Close, with scattered pores like those of oak. Works up and polishes beautifully.

SEASONING.—Difficult.

DURABILITY.—Good, under ordinary conditions.

WEIGHT.—Cubic foot weighs 50 to 53 lbs. (seasoned).

STRENGTH.—About the same as oak.

USES.—Cabinet-work.

SIZE.—Length of squares up to 60 feet; siding up to 30 inches.
Abundant in the Andamans.

GOVERNMENT SCHOOL OF ART, CALCUTTA.

AGRICULTURAL IMPLEMENTS COLLECTED BY THE GOVERNMENT OF INDIA IN THE REVENUE AND AGRICULTURAL DEPARTMENT.

AGRICULTURAL IMPLEMENTS OF BENGAL.

- Plough, used in the Presidency Division, collected by Babu T. N. Mukharji.
 Yoke for ditto, collected by ditto.
 Rake (*bide*), used in ditto, collected by ditto.
 Harrow (*mai*), used in ditto, collected by ditto.
 Ditto, large, ditto ditto.
 Hook, ditto ditto.
 Sickle, ditto ditto.
 Weeder (*nirán*), ditto ditto.
 Bill-hook, ditto ditto.
 Kural, or instrument for scraping and collecting earth, presented by Babu Kirtti Chandra Chaudhuri, Talukdár of Purulia, Manbhum.
 Plough, presented by ditto.
 Harrow, presented by ditto.
 Yoke (*joyál*), presented by ditto.
 Da and axe, used in the *joom* system of cultivation, sent by the Chittagong Local Committee.
 Spinning wheel (*charká*), sent by ditto.
 Cotton grinder (*charkí*), sent by ditto.
 Nata or implement used in taking out cotton thread from the spinning wheel, sent by ditto.
 Spade (*kodál*), sent by ditto.
 Sickle (*káchi*), sent by ditto.
 Plough, sent by ditto.
 Harrow, sent by ditto.
 Yoke, sent by ditto.
 Maidara, sent by ditto.
 Bow (*dhanu*), used in preparing cotton for spinning after the seeds are taken out.
 American D. E. plough, modified under the direction of A. Weekes, Esq., Collector of Purnia, who states:—"This is a very effective and light plough. I have had it made with one handle (2) handles being an insufferable difficulty with natives), and it is constructed in pieces, so that any piece worn out can be renewed." Sent by the Collector of Purnia.
 Plough from Behar, sent by Babu Nanda Lal Banerji, Behar.
 Yoke, sent by ditto.
 Harrow, sent by ditto.
 Sickle, sent by ditto.
 Weeder, sent by ditto.
 Model of a small plough, made by Biseswar Mistri, and presented by Maharaja Rádhá Prasád Sing of Dumráon, Shahabad.
 Phar for sowing, made by ditto, sent by ditto.
 Two yokes, ditto, ditto.
 Malla for seed, ditto, ditto.
 Harrow, ditto, ditto.
 Gurrows, ditto, ditto.
 Axe, ditto, ditto.
 Grass-cutter (*khurpa*), ditto, ditto.
 Reaping hook (*hasua*), ditto, ditto.
 Toothed reaping hook, ditto, ditto.

Spade (*koddli*), made by Biseswar Mistri, sent by Maharaja Rádhá Prasád of Dumraon, Shahabad.

Two pictures showing how seeds are sown, ditto, ditto.

Models illustrating cleaning of cotton, spinning, and weaving. A very ingenious contrivance which by the turning of a key the models are made to do their respective work, made by Prayag Rám, goldsmith, Dumraon.

Model of a Native Durbar made by ditto.

Ordinary Shahabad plough, exhibited by Messrs. Burrows, Thomson, and Mylne, Bihia, Shahabad.

Hide-rope for irrigation by well, exhibited by ditto.

Sugarcane mill, three-roll, double feed, 10" × 8", exhibited by Messrs Thomson and Mylne of Bihia, Shahabad.

Ditto, squeeze, 8" × 7", exhibited by ditto.

Ditto, two-roll, exhibited by ditto.

These mills have found great favour among the cultivators, to whom they are sold annually by thousands. They have also received many awards and prizes from various Exhibitions and Agricultural Shows. The exhibitors have supplied the following particulars:—

Sugarcane being grown in India in small patches, each cultivator squeezing his own cane and converting the juice into goor (concrete sugar) on or near the field, it was seen that it would be very advantageous to him if an effective machine could be devised which could be readily carried from field to field.

When the Bihia Mill was introduced, the only apparatus used by or within reach of the cultivators were primitive wasteful machines made of wood or stone, wasteful of time, power, and a considerable percentage (in both quantity and quality) of the sugar in the cane.

To secure quantity with economy, it is necessary that friction be reduced to a minimum so as to utilize the fullest proportion possible of the small power which the cultivator has at his command. Quality requires amongst other essentials quick extraction of the juice of whole canes by one passage through the mill, and that all parts with which the juice comes in contact be kept clean. The extreme liability of sugarcane juice to fermentation and the consequent destruction of its crystallizable properties render such conditions very necessary if the sugar which the cane is ready to yield is to be obtained from it. Mr. Alfred Fryer, the inventor of the Concretor, an eminent authority on sugar manufacture, says: "Cane juice from the moment it leaves the shells should be treated with the same care and cleanliness as new milk in a well-ordered dairy."

The native cane mills have most of the serious faults which machines constructed for such a purpose could have. In the Gundi, as generally made, the lower still or base plate is a large block of wood partially or wholly bedded in the ground, having a rectangular recess of considerable size cut in it into which the juice falls as it comes from the rollers. The vessel to receive the juice has consequently to be sunk still deeper in the ground, where it remains, the juice being baled out of it in the other vessels, in which it is carried to the boiling (or evaporating) pan—the canes have to be cut in short lengths, and passed five to ten times between the rollers before the juice is extracted—the wooden bearings and working surfaces being untrue and irregular, cause excessive friction and consequent loss of power. The Kolhu (pestle and mortar arrangement), whether of wood or stone, is open to the same serious objection, with the addition that the cane has for it to be cut into still shorter lengths, *i.e.*, from two to five inches long. The construction and action of such machines greatly reduce the crystallizable properties of the juice, as (1) by cutting the cane into short lengths a large number of cells are exposed to the air, inducing fermentation in each one so opened; (2) by passing partially crushed canes repeatedly between rollers, a further degradation of the juice is caused through the repeated crushings and macerations of the fibres; (3) by this deteriorated juice during its passage to the receiver being in contact with germ-infected surfaces, especially in the trough of the bottom beam, where it gets arrested and churned by the lower ends of the large revolving rollers; (4) by the condition of the receiver, which being seldom washed or cleaned has its inner surface coated with particles in a

continually advancing state of decomposition; (5) by the transfer of the juice from this vessel into a second in which it is conveyed to the evaporating pan, it is exposed to further action of the air and further contact with foul surfaces.

In designing a machine to take the place of the native mills, our aim therefore was to produce one which would remedy the serious defects of those appliances and which would at the same time be adapted to the means of the cultivators, be so simple in construction that the village carpenter or blacksmith might repair it, be made as far as possible of materials which could be got in the villages, not liable to serious derangement by the blundering of people inexperienced in the management of exact machinery, and of such form and size as to be easily portable.

The result of our contriving and experimenting is the *Bihia Mill*, which is so constructed that—

The entire machine can be carried from field to field without taking it asunder or disturbing the rollers and other working parts, thus saving the cultivators the heavy expense they frequently have to incur for carrying the cane long distances.

Except the rollers, all the parts (iron and brass as well as wood-work) can be repaired or renewed in the villages.

The form and arrangement of the frame secures a maximum of stability with a minimum of material and workmanship—the special fitting and securing of the played legs to the upper and lower beams with through bolts enables it to be firmly fixed ready for work in a few minutes by simply making four small holes in the ground six or seven inches deep, and fixing the feet in them; and also fits it to withstand most of the rough treatment which such a machine in such hands is frequently subjected to. A further advantage of this arrangement is that the height of the machine when fixed for work can be adjusted to suit the size of bullock used.

The upper beam is so made that it can be readily removed to get at the rollers and all working parts for cleaning, &c., without disturbing the rest of the machine.

The rollers are of metal; and are made true on their surfaces and journals, the steps also (on which the roller spindles rest), and the bushes (or bearings), are also of metal of novel design so at the smallest cost to reduce the friction to a minimum. These arrangements combined with the small size of the working surfaces, compared with those of the native machines, ensure a much larger proportion of the motive power being available for productive work.

The juice as it leaves the cane runs down the clean iron rollers on to a concave metal plate so made as to catch the whole, and placed at such an angle as to ensure its rapid descent to the receiving vessel, which is placed on or above the ground instead of in it. This admits of its being washed and fumigated every time it is emptied, which is an easy inexpensive mode of checking decomposition, suggested by us, and the only one which can be easily adopted by native cultivators.

To prevent the juice running along the bottom surface of the rollers and down the spindles to the steps and lower bearings, the lower edge of the roller is made with an overhanging lip which ensures the whole of the juice leaving the rollers quickly, free from oil, dirt, and other foreign matters.

A thin rod of round iron is placed below the rollers on the line along which the cane passes, and forms an inexpensive but efficient contrivance for preventing the cane from dropping below the rollers, and getting away unsqueezed—the problem here was to effect this without intercepting the juice, and the plan adopted was found to be the best solution.

To prevent the cane when spread out by squeezing getting between the teeth of the pinion (or toothed wheel), a flange (or shroud) is cast on the latter, which, besides effecting this, strengthens the teeth (or cogs), and reduces the risk of their being broken by rough usage. A recess or groove is provided in the opposite roll or pinion to receive this flange or shroud, and as small bits of cane may lodge in it during the working of the mill, a suitable cleaner is attached to keep it open and free.

The arrangement for lever or driving pole is such that any suitable inexpensive piece of wood or bamboo may be used, and the mill can be easily worked by a single plough bullock with only a boy to put in the cane and keep the bullock going. If the latter be going too slowly, the boy touches him up with the next cane he takes up, so that with trained bullocks no separate driver is needed. In Shahabad and many other districts hundreds of mills are being worked thus.

If good rollers are used, and the frame be properly made, one of these mills will, with moderately fair treatment and very trifling repairs, do good work through eight to ten seasons.

Chhota Nagpur plough, made by Nicodemus Ruchat, and sent by the Ranchi Local Committee.

Chhota Nagpur harrow (*mer* or *patha*), made by Nicodemus Ruchat, and sent by the Ranchi Local Committee.

Chhota Nagpur leveller (*kurur*), made by Nicodemus Ruchat, and sent by the Ranchi Local Committee.

Tigar trap, sent by the Manbhum Committee.

A spinning machine, invented by Baboo Prankristo Mukharji of Baidyabati, district Hooghly. Baidyabati is the seat of extensive jute yarn manufacture, where the primitive spinning machine made of bamboo is still used. This is one of the most useful machines which young Bengal have up to this time been able to turn out. In the neighbourhood of Calcutta labour has now become dear, and the object of this machine is to save it as much as possible. The inventor has succeeded in attaining this object, and there is no doubt this little machine will ere long be received as a boon by the poorer classes engaged in the manufacture of jute yarn. It is simple in construction, and cheap in price.

Seven clay models, representing cultivator's life in Bengal, made under the direction of Babu T. N. Mukharji, by Jadu Nath Pal and his son, Aghore Nath Pal. For sale. Price Rs. 35 each.

AGRICULTURAL IMPLEMENTS OF THE NORTH-WESTERN PROVINCES AND OUDH.

Collected by Babu LACHMAN PROSAD, Superintendent, Government Farm, Cawnpore, by order of Major D. J. PITCHER, Office in charge of North-Western Provinces Exhibits.

PLOUGHS.

Ploughs (*Saharia*), * model. Price Rs. 2.

Plough (*Nagra*), ditto. Price Rs. 2.†

Dahahri plough*. Price Rs. 2.†

Nagar plough‡ (2), ditto. Price Rs. 2-8.†

Bakhar plough, model, both the original size, ditto. Price Rs. 3.†

Duplex plough with iron sole, ditto. Price Rs. 5-4.

Ditto, wooden sole, ditto. Price Rs. 4.

Ditto, model.

Kaisar plough in original wire, ditto. Price Rs. 5.

Ditto, model.

* Model, one-fourth the actual size.

† Price of the one in original size.

‡ Two models, one one-fourth of the original size and the other one-sixth of the original size.

Watt's beam plough, ditto.	Price Rs. 11-8.
B. F. O. Beam plough, ditto.	Price Rs. 15.
Muzaffarnagur plough	} Ditto ... { Varies from Re. 1-8 to Rs. 2-8 according to the weight of sh re and the quality of wood used.

WATER LIFTS.

Twenty-foot chain pump.* Price Rs. 55. The results obtained in comparison with the common country lifts, when worked at the depths best suited to them, are noted in the following table:—

Height of lift.	Description of lift.	Average quantity of water lifted per hour.	Useful work performed per minute in feet-lbs.	Efficiency of the implement assuring the standard work of a man = 2,700 feet-lbs. and of a bullock = 12,000 feet-lbs.	Labour required.
1.	2.	4.	5.	6.	7.
		Cubic feet.	Feet. lbs.		
5'	Chain pump ...	1,600	8,320	.77	4 men.
...	Swing basket ...	464.7	2,416	.22	Ditto.
10'	Chain pump ...	535	5,564	.51	Ditto.
15'	Ditto ...	315	4,914	.45	Ditto.
15'	Dhekli ...	62	967	.36	1 man.
20'	Chain pump ...	272	5,657	.52	4 men.
...	Single mote and inclined bullock run ...	215.7	4,486	.15	{ 2 bullocks. 2 men.
25'	Chain pump ...	197	5,122	.47	4 men.
...	Single mote and inclined run ...	219.9	5,717	.19	{ 2 bullocks, 2 men.
30'	Chain pump ...	125	3,900	.36	4 men.
...	Single mote and inclined bullock run ...	192.3	6,000	.20	{ 2 bullocks, 2 men.

Four-foot chain pump. Price Rs. 50.

* Model, one-fourth the original size.

Steel's lift.* Price Rs. 50.† The results‡ obtained in comparison with the single mote working on an inclined plane are noted below :—

Height of lift.	LABOUR REQUIRED.		AVERAGE QUANTITY OF WATER LIFTED PER HOUR.		USEFUL WORK PER MINUTE.		EFFICIENCY OF THE LIFT.	
	Steel's lift.	Common mote.	Steel lift.	Common mote.	Steel's lift.	Common mote.	Steel's lift.	Common mote.
			cb. ft.	cb. ft.	ft. lbs.	ft. lbs.		
10'	1 man and 1 bullock.	2 men and 2 bullocks.	217	278	2,256	2,891	·15	·09
15'	Ditto ...	Ditto ...	170	268	2,652	4,180	·18	·14
20'	Ditto ...	Ditto ...	159	215·7	3,307	4,486	·22	·15
25'	Ditto ...	Ditto ...	156	219·9	4,056	5,717	·27	·19
30'	Ditto ...	Ditto ...	141	192·3	4,399	6,000	·29	·20

Double mote. Price Rs 60. Compares as follows with the single mote working on an inclined plane. The height of the bullocks in each case was the same, and the capacity of the buckets used in the double mote was 24 gallons, and of that working on the inclined plane 27 gallons.

Height of lift.	AVERAGE QUANTITY OF WATER LIFTED PER HOUR.		USEFUL WORK PER MINUTE.		EFFICIENCY OF THE LIFT.	
	Double mote.	Single mote.	Double mote.	Single mote.	Double mote.	Single mote.
		Cubic feet.		Ft. lbs.		
10'	194	278	2,017	2,891	·13	0·9
15'	181	268	2,823	4,180	·19	·14
20'	170	215 7	3,536	4,486	·24	·15
25'	166	219·9	4,316	5,717	·29	·19
30'	156	192·3	4,867	6,000	·33	·20

Rahat. Model, one-fourth the original size. Price Rs. 8.§
 Single mote and inclined bullock run as used in Cawnpore district. *Vide description.* Price Rs. 8.
 Single mote and inclined bullock run, as used in Upper Doab. Price Rs. 15.
 Ditto ditto Pratabgarh district. Price Rs. 6.
 Dhekli. *Vide description.* Price Re. 1-8.

* Model, one-fourth the original size.

† Price of the one in original size.

‡ The height of the bullocks and the capacity of buckets used were as follows :—

	Height of bullock.	Capacity of bucket.
Steel's lift ...	4' 5"	22 gallons.
Mote working on inclined plane ...	4' 5·5"	27 do.

§ Price of the original size.

SWING BASKETS.

- (a) Beri. *Vide description.* Price As. 3.
 (b) Dogla. Ditto. Price As. 4.
 Sand pumps. (Turo.) *Vide description.*

REAPING AND CUTTING IMPLEMENTS.

- Khurpi—(a) For weeding poppy seed and rice. *Vide description.* Price A. 1.
 (b) For weeding other crops and cutting grass. *Vide description.* Price As. 2.
 Hansia. *Vide description.* Price As. 3.
 Phaora. Ditto. Price Re. 1-4.
 Kudar. Ditto. Price As. 10.
 Kulhari. Ditto. Price As. 12.
 Belcha. Price As. 8.
 Galansia. Price As. 8.
 Chinni. Price As. 6.
 Kachhni. Price A. 1.

SUGAR MILLS AND PANS.

- Muttra Roller Mill. *Vide description.* Price Rs. 18.
 Cawnpore Mill. *Vide description.* Price Rs. 10.
 Wrigley's Double Feeder, consisting of three vertical rollers, the two side ones turning in opposite directions, when the middle one is turned by the bullock, fed with whole canes from opposite sides. Price Rs. 135.
 Fakir Muhammad Spiral Mill. Consists of two spiral rollers, adjustable by a single screw. Price Rs. 115.
 Victor Mill. Consisting of three vertical rollers enclosed in an iron case which prevents dust and other impurities from coming in contact with the juice pressed. Price Rs. 266-14.
 Tried with *Sorghum saccharatum* during the last season, with the following results:—

Names	Labour employed.	Weight of cane crushed per hour.	Weight of juice expressed per hour.	Cost of crushing 100 lbs. of canes.
		lbs.	lbs.	pies.
Wrigley's Double Feeder	1 bullock and 3 boys ...	111.1	51.5	9.1
Fakir Muhammad's Mill	1 bullock and 2 boys ...	85.6	41.8	9.6
Victor Mill ...	Ditto ...	84.0	39.6	9.8
Bihea two-roller Mill ...	Ditto ...	77.7	37.4	10.6

MISCELLANEOUS.

- Yoke used with a plough. Price As. 8.
 Yoke, model one-fourth the actual size.
 Chonga. A funnel of bamboo sometimes attached to the handle of a plough, and the seed is dropped through it into the furrow. Price As. 2.
 Kahalia, model one-fourth the actual size. Price As. 4.*
 Patela, model one-fourth the original size. A beam of wood with two pegs, used for clod crushing and levelling the field after ploughing. It is drawn by one or two pairs of bullocks according to its size, the hauling ropes being attached to the pegs. Price Re. 1-4.*

* Price of the original size.

Dheki.† Price Rs. 2-8.*

Okhli.† Price As. 4.*

Cook's portable Sugar Evaporator.† *Vide description.* Price Rs. 330-15.‡

The following results have been obtained in comparison with the country modes of making sugar:—

Description of apparatus.	Juice boiled in 12 hours.	Amount of sale made.	Labour required.	Cost per maund of rate made (including fuel).	
	Gallons.	Md. Sr.	Md. Sr. Ch.	Rs. A. P.	
Evaporator ...	177½	23 11	4 1 0	2 men and 1 boy	0 12 9
Karahi (flat shallow beam).	55	7 9	1 11 4	1 man and 1 boy	1 4 4
Bel (5 pans) ...	83	10 36	1 39 0	1 man and 1 boy	1 1 10

Charkhi. Price As. 10.

Charkha. Price Re. 1.

Tokri. Basket for earthwork. Price 6 pie.

Oil Press. *Vide description.* Price Rs. 7.

Simplex Chaff by Hunt, Cutter, and Towell. Price Rs. 36-5. Requires three men, one of whom feeds it, and the other two turn the wheel by turns. Can chop 40 maunds of stalks in a day of 10 hours; the country chopper cannot do more than five maunds in a day.

Grinding and kibbling mill, by Litster & Co. Price Rs. 36-3.

Village cart of the Doab. Rs. 30.

Manure cart. Price Rs. 2-8.

Axe used in Nepal.

Cultivator's utensils:—

- (1) Thali. Price Re. 1-1.
- (2) Abkhora. Price As. 13.
- (3) Lota. Price As. 15.
- (4) Katora. Price As. 10-6.
- (5) Kalchuli. Price As. 2-6.
- (6) Katori or Bilia. Price As. 5-9.
- (7) Batoi. Price As. 12.
- (8) Samasi. Price A. 1-6.
- (9) Chimta. Price A. 1.
- (10) Tawa. Price As. 2-3.

DESCRIPTION OF THE NORTH-WESTERN PROVINCES IMPLEMENTS.

MODELS.

PLOUGHS.

Saharia.—Most commonly used in the Cawnpore district; consists of the following parts:—

- (1) Phara, the share.
- (2) Parihari, the sole on which share is shod.

* Price of the original size.

† One-fourth the original size.

‡ Including freight, &c., up to Cawnpore.

- (3) Kurba, the step.
- (4) Paretha, the handle.
- (5) Haris, the barn.
- (6) Haraini, the cross bar to which the yoke is tied.

Nagna—Differs from Saharia in having its kurba and parihari in one instead of in two separate pieces and in having a shorter share.

Dabakri—Differs from the former two in the appearance of its kurba and parihari, and having its handle fixed to the kurba instead of resting on the beam.

Nagar—Used in Bundelkhand on stiff land for cultivating sugarcane. Is drawn by three or pair of bullocks. One made at the Government Farm, Cawnpore, and the other contributed by the Collector of Hamirpur.

Bakhar—Used in tilling soft soils of the *mār*, *kahar parma* species in Bundelkhand, presented by the Collector of Hamirpur.

Duplez—Has two soles, one fitted with a breast to turn over the earth, and the other with an ordinary native share. When fitted with the latter, it is exactly like Saharia, the plough described above. Is intended to serve the double purpose of sowing and turning over the earth.

The price of the original is Rs. 4-4.

Kaisar.—Besides the handle and the beam it has a sole of angle iron, a standard of iron, a breast of sheet iron which turns over the earth, and a share of steel which can be slipped on or off at any time. The price of the original is Rs. 5.

Yoke—Is a model of the one used in the Doab; it consists of *manchi*, the upper bar, *tarmanchi*, the lower bar, *gator*, the inner pegs, *sail*, the outer pegs.

The plough is tied to the yoke by means of a cross bar fitted to the plough beam.

The original costs As. 8.

Karba.—An implement for making irrigation beds. Consists of a flat semi-circular board with a wooden handle. Is worked by two men, one of whom holds the handle, and the other pulls it towards himself by a rope.

WATER LIFTS.

Chain pump. Consists of—

- (a) Iron pipe in two portions (when the length exceeds 6 feet), joined together by flanges cast at one of their ends. The diameter of the lower portion is a little less than that of the other.
- (b) A chain with plugs of wood and iron. It passes through the pipe its plugs closely fitting to the lower portion.
- (c) A wooden stand which supports the pipe when let down into the well.
- (d) A grooved wheel which rests on the stand.
- (e) Handles which are fitted to the axle of the wheel.
- (f) Distributing channel which fits to the mouth of the upper portion of the pipe.

Working.—When the handles are worked the wheel turns along with the chain, each plug of which brings a column of water before it. The price of the one of which it is a model is Rs. 55.

Steel's Lift—Consists of—

- (1) A wooden pillar with a vertical axis of iron.
- (2) A horizontal bar lying between the two wheels.
- (3) Two horizontal wheels supported on and moveable about the axes.
- (4) A yoke which is attached to the lower wheel.
- (5) Four pullies.
- (6) A leather bucket with a tail at the bottom.

- (7). Ropes, one thick and the other thin : the former is tied to the iron hoop of the bucket, and the latter to its tail. Both the ropes are wrapped round the upper wheel; the length of the thinner rope is a little less than that of the other, so that when the bucket reaches the mouth of the well its tail is stretched out, and the water brought in the bucket is poured out through the tail.

Action.—The horizontal bar in its natural position maintains a connection between the two wheels, so that when the lower wheel is turned by the bullock the upper also turns, and the ropes, supposing the bucket to be in the well, are coiled round the wheel as it turns and the bucket raised. When the bucket reaches the mouth of the well, its tail stretches out horizontally, and the water runs out.

As soon as the bucket has emptied itself, the outer end of the horizontal bar is raised a little, the connection between the two wheels is broken, and the weight of the bucket acting on the rope uncoils it, turning the upper wheel until it reaches the water. When the bucket is filled, the horizontal bar is allowed to rest in its natural position. the bullock driven, the two wheels turn, the ropes coil themselves on the upper wheel raising the bucket as before.

The original lift costs Rs. 50.

Double mote—Consists of—

- (1) A wooden support, moveable on an iron pivot.
- (2) A wheel divided in two compartments one above the other, and rigidly attached to No. 1.
- (3) A horizontal bar which is attached to No. 1, and which carries a yoke at its end.
- (4) Eight pullies.
- (5) Two leather buckets, each with a tail at its bottom.
- (6) Four ropes, two thinner than the other. The thick ropes are tied to the iron hoops of the bucket and the thin ropes to their tails. The ropes connected with one bucket are coiled on one compartment of the wheel, and those tied to the other on the other compartment, the two sets being coiled in opposite directions, so that by turning the wheel if one set coils itself the other will uncoil itself.

Action.—Supposing one of the buckets at the mouth of the well and the other in water, when the bullock is moved in a direction, so that the ropes attached to the bucket lying in water are coiled on the wheel, the other unwinds itself and goes down in the well and by the time it reaches water the filled bucket comes to the mouth of the well, and empties itself as in the Steel's lift. The position of the bullock is then reversed and made to move in the opposite direction by which the ropes which brought the filled bucket are uncoiled and the other set coiled, which brings the bucket in a similar way. The original lift cost Rs. 60.

Ordinary well gear—Consists of a wheel moving freely on an axis supported on wooden uprights, a leather bucket, a rope, and a yoke; is worked by two bullocks moving on an inclined plane, and requires two men, one of whom drives the bullocks and the other empties the bucket. The cost of the gear varies considerably according to its strength and the size of the bucket. It ranges from Rs. 6 to Rs. 15.

Rahat, or Persian wheel—Consists of—

- (1) A wooden upright moveable on a pivot and having teeth at its bottom.
- (2) A drum rigidly fixed to an horizontal axis, which is also provided with teeth.
- (3) A horizontal beam which is attached to No. 1.
- (4) A rope holding a number of pots hung over the drum.
- (5) A distribution channel.

Action.—The wooden upright is turned by means of the horizontal beam, and its teeth striking against those of the drum make it revolve on its axis and

thus the pots coming full from the well pour their water in the distribution channel. In Bundelkhand, where it is used, its total cost does not exceed Rs. 8.

Dhekli.—Consists of a beam moveable about a pivot fixed in two uprights.

The end of the beam furthest from the well is weighted by a lump of clay, and to the other it suspends an earthen pot by a rope.

Action.—A man stands near the well, pulls down the rope until the pot reaches the water, and so soon as it gets filled he leaves it, the weight at the other end of the beam serving to pull it up. Is used in low lands where the water is close to the surface. Its total cost does not exceed Rs. 2.

SUGAR MILLS AND PANS.

Rasha Kolhu, or the common sugar mill of the Doab. Consists of—

- (1) *Kolu*, the central piece in which butts of cane are put in.
- (2) *Jat*, the movable rod working in the *Kolhu*.
- (3) *Katar*, the boom.
- (4) *Senna*, the outer upright parallel to *jat*.
- (5) *Patti*, the wood which points *jat* and *senna* at the top.
- (6) *Durahri*, a beam attached to *katar*.
- (7) *Yoke*, attached to *durahri*.

Action.—When the bullock moves round the *katar* revolves round the *kolhu* along with the *senna*, which with the help of *jatti* makes the *jat* revolve and press against the butts of canes put in the *kolhu*. The juice runs out through a spout in the *kolhu*, called *patoka*.

The original costs about Rs. 10.

Muttra Sugar Mill.—Consists of three rollers with cogs at their upper end and plain in the rest. A beam is fitted to the top of the middle roller, which, when turned, turns the other rollers too, and thus crushes the canes which are put in entire.

The original costs about Rs. 15.

Cook's portable Sugar Evaporator.—Consists of—

- (1) An oblong pan with ledges running across its bottom, the alternate ends of which are open, and so there is a continuous channel from one end of the pan to the other. The ledges are hollow and open at the bottom, which gives much more heating surface. The sides of the pan extend beyond the fire line of the furnace, so as to give a cooling surface for the collection of scum.
- (2) A light iron furnace of rockers which can be easily removed from one place to another.

Working.—The can juice is allowed to trickle at one end and winding down round the ledges is clarified, defecated, and evaporated in its course, arriving at the outlet in the state of consistency required.

The cost of the one imported from America had amounted to Rs. 330-15, but the cost of pan of galvanised iron sheet, as now made in the workshops attached to the Farm, amounts to Rs. 35 only.

Zilka Kolhu.—Oil press. Is very similar to the Doab sugar mill, described before, differing from it only in the form of *papihra*, which in the oil press is called *dhekna*, in the form of *machi*, which is workable by one instead of two bullocks, and in having a rod with a point which stirs the seed.

RICE MILLS.

The one for husking small quantities consists of an *akhli*, a large wooden mortar, and a *masal*, a wooden pestle. The paddy is placed in the *akhli*, and beaten by *mussal* which separates the husk.

For husking large quantities a *dheki* is used, which consists of a beam movable on a pivot supported between two uprights and having a club at the end furthest from the uprights. It requires three men to work it, two moving the beam with their feet and one feeding it.

CARTS.

Manure cart, as used in the Unao district. It consists of two wheels of solid blocks of wood, one wooden axle for wheels, two long bars with three cross-pieces forming the frame-work. It costs about Rs. 2, and carries five to seven maunds of manure contained in large baskets. Is drawn by a pair of small bullocks.

Cart used in the Doab for carrying manure and farm produce.—Its principal parts are—

- (1) *Phar*, two pieces of wood which form the frame-work for the whole body of the cart.
- (2) *Manghia*.—Thin bars which lie between the *phars*.
- (3) *Makhari*.—Three cross-bars, which keep the *phars* firm.
- (4) *Murhia*.—Pateta, cross bars in which *khutlis* (wooden uprights) are fixed.
- (5) *Bansa*.—Upper poles fastened to *khutlis* by ropes.
- (6) *Wheels and axle*.
- (7) *Painjni*.—The heavy beams on which the axle pins work.
- (8) *Sugua*.—Cross-bars to which *painjnis* are fastened.
- (9) *Gua*.—Yoke.

Its cost varies considerably. One of medium size costs about Rs. 30, and carries about 20 maunds of goods.

IMPLEMENTS SENT IN ORIGINAL SIZE.

Ploughs.

Muzaffarnagar.	Jhansi.
Meerut.	Chhattarpur.
Bareilly.	Basti.
Cawnpore, Saberia.	Unao, Dabahri.
Allahabad.	Fyzabad.
Jaunpur.	Hardoi.
Jalaun.	Pratabgarh.

Properly speaking, all these implements are grubbers and not ploughs, since none of them turns over the earth. All have the same principal parts, *viz* :—

- A beam (*haris*).
- A handle (*paretha*).
- A sole (*parihari*).
- A share (*phar*).
- A step (*kurha*).

Although all of them differ from one another in their weight and shape, the former is caused chiefly by the strength of the animals and the nature of the soil, *e.g.*, in the Upper Doab, where the cattle are strong and the soil stiff, the ploughs are heavy and strongly built, while in Oudh and Benares Divisions, where the cattle are small and weak, the ploughs are very light and thin, and step and sole much narrower. Difference in shape is due to the causes already stated, as well as to some of the parts being in one instead of in separate pieces; thus, the ploughs from Jaunpur, Jhansi, Chhattarpur, Unao have their *kurha* and *parihari* in one, while others have *paretha* and *kurha* in one, such as those from Meerut, Muzaffarnagar, Bareilly, Jalaun, Hardoi, Fyzabad, Allahabad, Basti, and Pratabgarh.

Duplex.—One with sole and step of iron, and the other with wooden sole and step. The prices of the two are Rs. 5-4 and Rs. 4-4 respectively. Described among models.

Kaisur.—Price Rs. 5, described among models.

Watts.—An American plough furnished with beam to suit native predilection. Price Rs. 11-8 a piece.

B. F. O.—An English plough supplied with beam at Cawnpore. Price Rs. 15.

Manchi.—Yoke, described among models.

Well Gear.

1. *As used in the Upper Doab*.—

The bucket is made of a large circular piece of leather, the rim of which is tied to an iron hoop. The wheel over which the rope passes consists of a flat circular piece of wood moveable on an iron axis.

2. *As used in the Pratabgarh District*.—

The bucket is made of two semi-circular pieces of leather sewed together at the circular part, and having two cross-pieces of wood at the mouth instead of the iron hoop used in the Upper Doab. It is very small and does not hold one-fourth the quantity of water contained in the Doab bucket. The wheel is globular and moves on a wooden axis.

SWING BASKETS.

Beri and *Dogla*.—The former is used in the North-Western Provinces and the latter in Oudh. Both are made of bamboo. The difference is only one of shape, the *beri* being oblong, while *dogla* is circular and shallower than *beri*. Four strings are tied to their corners, two of which are held by one man and two by another who stand opposite each other on the sides of the hole from which water is to be raised. The basket is swung backwards and forwards. At the commencement of each forward swing it dips into the water, and emerging from it carries a quantity of water which it deposits at the head of the distributing channel.

REAPING AND CUTTING IMPLEMENTS.

Khurpi.—Two scrapers, (1) for weeding poppy and rice, and (2) for weeding generally and cutting grass. The blade of the former is much narrower than the other.

Hansiu.—Sickle for reaping.

Kudari.—Pick-axe for grubbing sugarcane and digging out root crops.

Belcha.—Used in gardens for digging up plants.

Phaura.—Mattock.

Kalhari.—Axe.

Garansia.—A chopper for chopping stalks of juar, bajra, &c.

Chinni.—For making incision in poppy heads.

Kachhin.—For scraping off the juice which exudes from poppy heads.

Tokri.—Basket for earth-work.

Charkhi.—For separating seed from cotton. Worked by one woman, who usually turns six pounds of cleaned cotton in a day.

Charkha.—For spinning.

Math and *Mathani*.—Churn and churning vessel.

UTENSILS MOST COMMONLY MET IN A WELL-TO-DO CULTIVATOR'S HOUSE.

Batni for boiling rice and pulses.

Lota, a vessel for water.

Amphora, a drinking cup.

Katora, a cup in which girls carry their bread to field.

Bilia, a cup for pickles, &c.

Saniasi, for holding *hate*n when hot.

Karchi, a spoon.

Tawa, for baking bread.

Chimta, for turning over bread.

Tharia, for putting bread, &c., when eating at home.

SAND PUMPS.

Two, received from W. C. Wilson, Esq., Assistant Engineer.

SUGAR MILLS.

Wrigley's double feeding mill.

Haji Fakir Muhammad's mill, working without cog-wheels.

Three-roller Victor mill, Price in America \$ 55.

Simplex Chaff-cutter by Messrs. Hunt & Towell.

Grinding and Pebbling Mill by Messrs. Lister & Co.

SLEDGE PUMP FOR SINKING PIPES IN MUD OR WET SAND IN MAKING BORINGS.

The sledge pump consists of a cylinder with a valve at the bottom opening upwards. A piston with a valve in it, also opening upwards, moves up and down inside the cylinder, and a rope is attached to the end of the piston rod. The piston is made sufficiently heavy to sink by its own weight. When the piston is raised the foot-valve of the cylinder opens, and sand and water are drawn into the cylinder. When the piston descends the foot-valve closes, so that the sand cannot escape, while the valve in the piston opens, allowing the water to pass through. The piston is raised and lowered three or four times in order to fill the cylinder with sand; the pump is then withdrawn, the steel share on which the valve is fixed is removed, and the sand falls out of the cylinder. Two pumps should be used, one being worked, while the other is being cleaned.

The pump is especially useful for sinking pipes in with sand. If the sand is coarse and no kankar, clay, or loam is encountered, the pipes can be sunk 40 feet in two days.

It can also be used for boring in clay, kankar, or rock, the hard material being broken by means of a heavy jumper attached to the rope, and the debris removed by the pump.

One of the sand-pumps is made for sinking pipes three inches inside diameter, and the other for sinking 2-inch pipes.

They were made by Messrs. Cohen & Co., Agra.

LIST OF THE AGRICULTURAL IMPLEMENTS OF THE CENTRAL PROVINCES.

Collected by J. B. FULLER, Esq., Director, Department of Agriculture and
Commerce, Central Provinces.

Plough of Damoh district (*Hal*). Price Rs. 2.

Seed drill of Damoh district (*Nari*). Price Rs. 2-4.

Ditto Hoshangabad district (*Nari*). Price Rs. 4.

- Plough of Nimar district (*Hal or Nagar*). Price Rs. 5.
 Bullock hoe of Nimar district (*Bakhar*). Price Rs. 4.
 Ditto Damoh district (*Bakhar*). Price Rs. 2-12.
 Seed drill of Nimar district (*Tiphan*). Price Rs. 5.
 Field cart of Damoh district (*Chakra*). Price Rs. 35.
 Ditto Nimar district (*Gari*). Price Rs. 50.
 Sugarcane mill of Hoshangabad district (*Chakki*). Price Rs. 4.
 Ditto Damoh district (*Kolhu*). Price Rs. 4.
 Bucket water-lift of Betul district (*Moth*).
 Persian wheel of Damoh district (*Rahat*). Price Rs. 15.
 Wheel and bucket water-lift of Damoh district (*Rahat*). Price Rs. 5.
 Model pump for use in quarries and mines. Exhibited by Mr. Robert Dunne,
 Lime and Quarry Works, Katni station.
 Rice plough of Bhandara district (*Dhanka nagar*). Price Rs. 3.
 Plough for cold weather crops of Bhandara district (*Gahunka nagar*). Price
 Rs. 4.
 Plough (millet and cotton) of Nagpore district (*Nagar*). Price Rs. 3.
 Plough of Raipur district (*Nagar*).
 Sugarcane plough (used for sowing) of Raipur district (*Santi ka kulu*).
 Plough for cold-weather crops of Raipur district (*Nuhari Nagar*).
 Plough of Sambalpur district (*Sangal*). Price As. 4.
 Bullock hoe of Bhandara district (*Bakkhar*). Price Rs. 2-8.
 Bullock hoe of Nagpur district (*Bakkhar*). Price Rs. 3.
 Double bullock hoe for weeding of Bhandara district (*Daura*). Price
 Rs. 2.
 Bullock hoe of Raipur district (*Bakkhar*).
 Bullock rake of Bhandara district (*Phani*).
 Log harrow of Raipur district (*Kopar*).
 Bullock rake of Raipur district (*Datari*).
 Drill plough for wheat of Bhandara district (*Hari*). Price Rs. 3.
 Treble drill for wheat of Nagpur district (*Tifan*). Price Rs. 3.
 Treble drill for jua for millet of Nagpur district (*Tifan*). Price Rs. 3.
 Treble drill for millet of Bhandara district (*Tifan*). Price Rs. 2.
 Treble drill for millet of Chanda district (*Tifan*). Price Rs. 3.
 Treble drill for wheat of Bhandara district (*Tifan*). Price Rs. 5.
 Sugarcane press of Sambalpur district (*Kusiari ghana*).
 Ditto Bhandara district (*Ghana*). Price Rs. 30.
 Ditto Raipur district (*Charkha*).
 Ditto Nagpur district (*Ghana*).
 Cart of Nagpur district (*Gaonti Gari*).
 Cart of Raipur district (*Gara lobati*).
 Cart of Sambalpur district (*Sagria Gari*).
 Disc wheel cart of Bhandara district (*Lodhi*). Price Rs. 25.
 Cart of Bhandara district (*Bandi*). Price Rs. 25.
 Ditto ditto (*Chiri*). Price Rs. 30.
 Cart for passengers of Nagpur district (*Ringi*).
 Ditto ditto of Bhandara district (*Kachar*). Price Rs. 30.
 Ditto ditto ditto (*Chakra*). Price Rs. 16.
 Covered passenger-cart of Bhandara (*Saiban gari*).
 Ditto ditto ditto (*Jhalam ki gari*).
 Bucket water-lift of Nagpur district (*Moth*).
 Lever water-lift of Bhandara district (*Dhakoli*).
 Ditto ditto of Raipur district (*Tenda*).
 Lever rice-husker of Raipur district (*Dhenki*).
 Oil press of Raipur district (*Ghani*).
 Ditto Sambalpur (*Ghana*).
 Cotton gin of Raipur district (*Charkha*).
 Spinning wheel of Raipur district (*Rata*).

LIST OF THE AGRICULTURAL IMPLEMENTS OF MADRAS.

Sent by W. R. ROBERTSON, Esq., Agricultural Reporter to the Government of Madras, through W. WILSON, Esq., Director of Revenue Settlement and Agriculture, Madras.

- Shaft of large country plough, from Gooty. Price Rs. 5.
- Ploughing part of ditto. Price Rs. 5.
- Stilt of ditto. Price Rs. 5.
- Shaft of small country plough, from Cuddapah. Price Rs. 8.
- Ploughing part of ditto. Price Rs. 8.
- Stilt of ditto. Price Rs. 8.
- Shaft of small country plough from Tinnevely. Price Rs. 4.
- Ploughing part of ditto. Price Rs. 4.
- Stilt of ditto. Price Rs. 4.
- Yoke of small country plough. Price Rs. 4.
- Shaft of Mr. Krishnasamy Mudaliar's improved country plough, from Shiyali. Price Rs. 5.
- Iron part of ditto. Price Rs. 5.
- Stilt of ditto. Price Rs. 5.
- Working part with two shafts and three tines of an implement for harrowing or cultivating, from Cuddapah. Price Rs. 8.
- Stilt of ditto. Price Rs. 8.
- Working part with two shafts of a scraper for weeding, from Anantapur. Price Rs. 5-8.
- Stilt of ditto. Price Rs. 10.
- Working part with two shafts of a large harrow, from Cuddapah. Price Rs. 10.
- Stilt of ditto. Price Rs. 10.
- Working parts with two shafts of a harrow, from Godavari. Price Rs. 3-11.
- Stilts. Price Rs. 3-11.
- Tine. Price Rs. 3-11.
- Working parts with six teeth and two shafts of a large seed drill. Price Rs. 35.
- Stilt. Price Rs. 35.
- Six bamboo tubes with a hopper. Price Rs. 35.
- Supporter to shafts with six hooks. Price Rs. 35.
- Yoke. Price Rs. 35.
- Working parts with three cutters and two shafts of a seed drill, from Anantapur. Price Rs. 3.
- Stilt. Price Rs. 3.
- Bamboo tubes with a hopper. Price Rs. 3.
- A harrow with wooden teeth, from Anantapur. Price Rs. 3.
- Cotton gin, from Tinnevely. Price Rs. 2.
- Two frames, single mote, from Tinnevely. Price Rs. 30.
- Yoke, from Tinnevely. Price Rs. 30.
- Wooden roller, from Tinnevely. Price Rs. 30.
- Iron bucket, from Tinnevely. Price Rs. 30.
- Leather rope, from Tinnevely. Price Rs. 30.
- Neck piece, from Tinnevely. Price Rs. 30.
- A vessel for use in marking heaps of paddy. Price As. .
- Pestle. Price As. 4.
- Goading stick. Price As. 2-6.
- Knife for cutting greens. Price As. 2.
- Weeder, from Karnul. Price As. 2.
- Spade, from Anantapur. Price As. 8.
- Knife, from Anantapur. Price As. 8.
- Sickle, from Cuddapah. Price A. 1.

- Sickle to remove prickly-pear, from North Arcot. Price As. 4.
 Chopper. Re. 1.
 Hatchet. Re. 1-8.
 Leather bucket, from Godáviri. Price Rs. 10-12.
 Double mote model, from Saidápet. Price Rs. 150.
 Double mote, without cross beams and pillars, from Saidápet. Price Rs. 80.
 Gurusamy Mudaliar's ditto, on principle of continuous draught, from Saidápet. Price Rs. 190.
 Single mote, from Saidápet. Price Rs. 30.
 Single pycottah, from Saidápet. Price Rs. 10.
 Double pycottah, from Saidápet. Price Rs. 10.
 Ransome's small iron plough, from Saidápet. Price Rs. 14-8.
 Collin's small combined plough, from Saidápet. Price Rs. 15.
 American pattern plough, medium size, from Saidápet. Price Rs. 17.
 Single stilted Swedish plough, from Saidápet. Price Rs. 18.
 Improved country plough, iron stilted, from Saidápet. Price Rs. 7.
 Swedish plough from Saidápet. Price Rs. 18.
 Pipe plough from Messrs. Massey and Company, from Saidápet. Price Rs. 10.
 Sugar mill, from Saidápet. Price Rs. 30.
 Machine for emptying fields of water, from Malabar. Price Rs. 33.
 Body for emptying fields of water, from Malabar. Price Rs. 33.
 Malabar plough. Price Re. 1-8.
 Yoke, from Malabar. Price Re. 1-8.
 Levelling board, from Malabar. Price Rs. 2-8.
 Bamboo shaft, from Malabar. Price Rs. 2-8.
 Leveling board, from Malabar. Price Rs. 2-8.
 Shaft board, from Malabar. Price Rs. 2-8.
 Malabar sickle. Price As. 3.
 Two Kota axes, from Nilgiris.
 Two bill hooks, from Nilgiris.

LIST OF THE AGRICULTURAL AND OTHER IMPLEMENTS OF THE BOMBAY PRESIDENCY.

Collected by Dr. D. MACDONALD, Secretary and Curator, Victoria and
Albert Museum, Bombay.

The chief agricultural instruments used in the Bombay Presidency are nearly all comprised in the following list:—

The plough is a rudely simple instrument, so light that a man can lift and carry it with ease; it is always drawn by one yoke of oxen. The single bar which forms the yoke called *jokad* is fixed to the necks of the beasts by two pegs which fall in front of each shoulder called *shival*. The neck rope by which it is attached is called the *jokad*, while the rope which attaches the yoke to the pole itself is called *jupani*. The pole itself is called the *isad*. The plough handle is termed *lumani*. *Khadasa* is a piece of wood which joins the *lumani* to the iron running below it. The iron point which portends beyond it and is something like a spear-point in shape, slightly bent downwards, is called the *phal*. It is tightly fixed into the *khadasa*, by means of a wedge of wood called the *pháletu*. Finally, the peg which secures the whole from behind is called the *tiwri*.

Such is the plough which is able to scratch up the dry earth and mix into mud the wet rice field with equal ease and success. Perhaps to an English farmer this instrument, if displayed in London, would appear the most astonishing article in the Exhibition. The other instruments of agriculture are as

primitive. The natives use two kinds of knives or cutting instruments, the first is a kind of sickle, sole substitute for the scythe.

I. The *viva* or *ila*.

II. The *koyati* is somewhat larger and straighter, serves for cutting wood, &c.

III. The hoe, *kudale*.

IV. The *danta*. The plough is first used, then the *danta*, and thirdly the *guthé*. It is a board somewhat heavier than the *guthé* and bending inwards: from the lower part of it protrudes a dozen heavy blunt teeth of wood; a simple pole is attached to the yoke. An Englishman might mistake it for a heavy rake.

V. The *guthé*, which comes next, is a board six feet or more long, with two holes into which a split pole is fixed, to which can be joined the yoke of the plough. On the split portion of the pole a heavy stone is placed, or the man who drives the cattle stands. The *guthé* is dragged along the ground to break up the clods of the earth and smooth the ridges.

VI. Threshing of course takes place out of doors, on a floor of mud beaten hard and flat and of a circular shape. The threshing floor is usually called the *kha* or *angan*. In the centre of the *mala* or field where the *mátani* or threshing is to take place a short upright pole is fixed, called a *tivada*, round which is placed a loose ring made of some creeping plant; it is called a *bhom*; to it is attached one long rope with two or more short ones made of the *ambadi*, which are placed round the necks of the cattle. The straw to be threshed is cast loosely round the centre pole, and the cattle are driven round by a man who in his hands holds a *baddi*, or stick with prongs to turn up the stalks as the cattle keep moving.

The stick used for threshing (*náchni*) is from three to four feet long; after which a heavier club is used called a *khutáwali*.

VII. The seed drill, the manure cart, a *chopane*, or flat stick, for pounding and flattening the earth; the basket or sifter called a *chalan*, with holes of due size, which is moved with a circular motion by two men; the grinding stone *jate*; a few other baskets; and the short list of the agricultural instruments is completed.

The following samples are collected from different places to illustrate the slight modifications in shape they seem to have undergone, and to be able to exhibit a representative group for the whole of the presidency. Kaira and Surat represent the whole of Gujrath; Thanah and Ratnagiri represent the Konkan, including Bombay; Poona represents the Deccan, and Karachi the province of Sind.

Mr. Strip's Water Lift.—This is an improvement upon the ordinary native *kose*. The advantages of the arrangement over the ordinary *kose* are:—

- (a) The native *kose* is worked by the bullocks going up and down an incline, and in this, although it must be admitted that the weight of the bullocks greatly assists them in drawing up the bucket, still much unnecessary time is lost in the backward motion of the bullocks, which is also calculated to be injurious to their constitution. The present arrangement does away with the incline in favour of a circular motion.
- (b) One pair of bullocks works two buckets, which is not possible with the native *kose*.

Mr. Strip's water-lift consists of a drum E 7 in diameter with the axis vertical and working in a pivot L at the ground and M at top. The drum is turned round from right to left and *vice versa* by a lever F, at the end of which is attached an ordinary rope and yoke for a pair of bullocks. The drum is kept in position by four masonry pillars and five wooden beams. There are two leathern buckets, C, D, each holding 50 gallons of water, suspended by ropes, which pass over the pulleys, S, T, and W, X, respectively. The discharging mouths of the buckets are also suspended by ropes, which pass over the pulleys, A, B, and E, F, respectively. The ends of the ropes C, S, T, and A, B, are tied to one of the vertical bars of the drum, so that when the latter is turned from right to left the ropes will coil themselves round the drum and raise the bucket C. The ends of the two

ropes of bucket D pass round the drum in the opposite direction to those of bucket C, are tied to one of the bars of the drum. The consequence of this is that the same motion which raises bucket C causes the ropes of bucket D to uncoil from the drum and lower that bucket. Suppose then buckets C and D are in the positions shewn in the section, the former laden and the latter empty. By turning the drum from right to left bucket C will be raised, and D lowered at the same time till each occupies the position which the other formerly did. C then discharges and D becomes full. The drum has now to be turned from left to right for the full bucket to come up and the empty to go down. The operation is repeated in the same manner as before.

The following points should be attended to in construction:—

- (a) If the well is very deep, a larger drum will be found to be of advantage, as the rapidity with which the buckets move depends upon the diameter of the drum, the length of the lever being the same. It must be, however, borne in mind, that other things being equal, the resistance which the bullocks have to overcome increases in a direct ratio with the diameter of the drum. It will not do therefore to increase the latter if the bullocks are weak.
- (b) The ropes by which the buckets are suspended should be of pukka leather, and the portions near the buckets which are submerged in water had better be iron chain.
- (c) In the native *kose*, the nozzle is made five spans in length. This often requires the driver to give a jerk to the bucket when being emptied, to ensure a complete discharge. With the nozzle six spans in length this trouble is obviated (span 9 inches).
- (d) The ends of the bucket ropes should be so tied to the drum bars that the turning point may not come against one of the pillars; otherwise there will be a difficulty in turning the bullocks round.

The plan is taken from a lift actually constructed by Mr. Strip in his farm at Hansol, but the original cost of the construction might be considerably reduced by building two piers of masonry with a single beam spanning over. This would be as efficient and much less costly than Mr. Strip's four pillars and five beams, and besides would give greater freedom as regards the turning points of the bullocks referred to in section (d), paragraph 3.

A spinning wheel. Sitaram Joshi. It is used for spinning cotton and wool thread, and is worked by the hand. Price Rs. 5.

A drawplate worker's implements A—M. A drawplate worker generally uses 13 tools. They are (a) the stool to support the winch; (b) lod; (c) nippers, (d) chain to go round the winch; (e, f, g,) drawplates; (h) anvil; (i) hammer; (j) tongs; (k) blowing pipe; (l) an iron mould called *atni*, and (m) pincers. He draws gold and silver into plates. Price Rs. 25.

After the gold is purified by the guildier, the drawplate worker (or *pavtekari*) makes into wire by dragging it through the drawplate according to the thickness of the wire he desires to make. For this the bar is heated, and it is thin and pushed through the largest whole in the drawplate (a metal plate pierced by holes of varying sizes), which is set against the wooden uprights fixed in the ground. The point of the bar, when it shows the drawplate, is caught by a pair of strong pincers whose handles are joined by a chain and ring to one of the spokes of a winch. This winch has a drum, one foot in diameter, and three feet long fixed inside sockets, and at right angles to the drum, has three arms which work in a hole about 6 feet by 3 feet and 3 feet deep. When the end of the bar is tightly fastened to the winch, and a workman draws it down laying all his weight on one arm of the winch, and forces down the point of the bar through the whole in the drawplate when the bar has passed through the plate, the point is again hammered, and in the same way is dragged through a smaller hole. This is repeated about twenty times.

A goldsmith's instruments from A to G, consisting of his various implements. A goldsmith generally uses eight implements. They are—(a) the *vegheshari*,

a sort of a fire-place where the gold is softened and purified. When melted it is taken into a mould called *otni* (*b*); then the mould is given shape or roughness removed by *hathodi* (*c*); (*d*) the *fukni* is the blowing used in keeping of the fire in the *vagheshari*. The other implements used are, (*e*) the scissors, *katur*, (*f*) *sansi* or nipper, (*g*), the tongs, and lastly, the mould, usually of brass, on which various kinds of *nakashi* are given. Price Rs. 10.

A wooden sieve. It is a round full-sized wooden sieve used for sifting grain all over the Presidency. Price Rs. 2.

A grinding mill. It is a wooden model of stone grinding mill used in Bomay and all over the Presidency. Price Rs. 3.

A watering machine. A model of a watering machine, water being lifted by man working at the rafter to which the bucket rope is attached.

A watering machine. A model of a peculiar watering machine, the water being lifted by a man working with the bucket (*supdi*).

An oil mill. A model of the native machine for pressing out oil. Price Rs. 10.

A sugarcane mill with two wheels. A machine for pressing out juice from sugarcane. The juice when condensed by evaporation in a large iron pan forms jaggery. Price Rs. 25.

A sugarcane mill with three wheels. This machine has three wheels, thus increasing the strength of the machine to press out juice. Price Rs. 25.

A wooden mortar and pestle. Model of the native mortar for pounding. Price Rs. 3.

A mote with a well. Model of the native water-lift *kosh*, worked by one yoke of oxen. Price Rs. 15.

Persian wheel worked by man. A model of the water-lift where the water is poured down out of the buckets into a sluice as the wheel is turned by men. Price Rs. 6.

Persian wheel worked by bullocks. This is the model of the Persian wheel worked by bullocks. Price Rs. 10.

A manure cart. A model of the cart used by cultivators for conveying manure. Price Rs. 15.

Coppersmith's instruments. The implements used are—*a*, *kharvi*; *b*, *galvan-chi*; *c*, *bhatta*; *d*, *shandan*; *e*, *thokla*; *f*, *mogri*; *g*, *kumpus*; *h*, *chani*; *i*, *katur*; *k*, *hathoda*, large and small. Price Rs. 15.

A stone-cutter's implements. The implements used by a stone-cutter are—*hathoda* and *taki* of various sizes. Price Rs. 7.

Carpenter's instruments. Carpenter's instruments are—*a*, *tasni*; *b*, *randa*; *c*, *kurwat* (saw); *d*, *kurva*; *e*, *kasni*; *g*, *darad*; *h*, *dudhalia*; *i*, *galchi*; *j*, *bit*; *k*, *katkona*; *l*, *sadya*; and *m*, *patasi*. Price Rs. 10.

Silk spinning machine, large. The spinner places a number of skeins on different parts, and from them transfers the thread to a number of small reels. These reels are all arranged in a semi-circle, all facing the same way. He then draws a thread from each reel, and sitting, facing the point, fastens the thread to a spindle and spins, repeating the process till the yarn is finished. Price Rs. 15.

Silk-spinning machine, small. Price Rs. 10.

A weaving machine. It is used for weaving cotton. The parts are the *pajni*, *asadi*, *dhota*, *tura*, *khuta*, and *gaj*. Price Rs. 25.

Gold and silver thread-maker's machine. The parts used are the stand and the *chatti*. Price Rs. 14.

An implement of a hawker in parching rice. This implement is used for making *pow*, a preparation from rice. Price Rs. 6.

Implements for *bhadbhuj*a (a hawker) in parching grain. Price Rs. 6.

Bricklayer's implements. The implements used are—*sandhan*, *sutki*, and *thapil* of various sizes, *olumba*, and *gunya*. Price Rs. 2.

Blacksmith's instruments. A blacksmith's instruments are—*bhatta*, *sandas*, *airam* (anvil), *kumpas*, *chani katur*, *chimta*, *hathoda* of various sizes. Price Rs. 10.

Confectioner's implements. The various implements used are—*a*, sakriha har; *b*, sakriha har (small); *c*, sakriha chitra; *d*, kakun; *e*, kudai; *f*, kowcha; *g*, dowri; *h*, pyala; *i*, panchaptari; *j*, malacha sakricha hair. Price Rs. 25.

Potter's implements. The implements used by a potter are—*a*, khūta; *b*, kathi; *c*, chaka. Price Rs. 5.

A water-lift. Presented by Rao Sahib Bechardas Vehari Das Iesai.

Kean plank. This plank is used for leveling ground.

Indigo planting instrument. This instrument is best adapted to planting indigo.

Sind plough. This is a model of the plough used in the districts of Sind.

A plough (*nangar*). It is a large plough, rather heavy, on account of the share of it being large; it is of strong make, answers well, and used all over Sind.

Pick. It is of rough make, and is used in many parts of the Presidency.

Clod crusher. It is very heavy and of a rough make.

Clod crusher. It is a board about 6 inches long with two holes, into which a split hole is fixed, to which can be joined the yoke of the plough. For crushing the clods a heavy stone is placed on the split part of the pole and the gūthi is dragged along the ground.

Ramm. It is of rough make and heavy, and used in crushing clods.

A manure cart. This is a model of a manure cart used by cultivators to convey manure. It is of a rough make.

A plough. It is a small plough used by the cultivators all over Guzerat.

A hoe for tobacco. It is used by the cultivators for regulating tobacco.

A small tobacco regulator. Same as the ramp for tobacco, but smaller in size.

A cultivator for rice-land. It is used for cultivating land where rice is to be sown.

A seed drill. It is of rough make, and is used all over Guzerat and Kattyawar.

A levelling implement. An implement to level the ground where rice is to be sown.

A rope twister. They are used for twisting rope of the leather mote used in lifting water from a well.

A water-lift. It is used for conveying water to the field by the cultivators; is of a rough make.

A water-lift. It resembles the ordinary chopping implement, and is somewhat of a rhomboid in form, one side being curved up so as to hold water. The cultivator dips this into the pool containing water, lifts it up and lets the water fall in an upper place.

Sub-soil plough. It is a plough for loose sub-soil ground, made at the College of Science, Poona.

This implement is intended to break the sub-soil without bringing it to the surface. It facilitates drainage, deepens the staple, and give the roots of plants access to deeper layers of soil. It is very efficacious in extirpating the Hariali grass (*cynodon dactylon*), which is so very troublesome and otherwise expensive and detrimental to the cultivation.

It consists of a wooden pole, rather bent in the centre. To the end of the pole, furthest from the point where the yoke of the bullocks is fastened, is attached a sub-soiling knife or coulter. The knife is made wholly of iron, and is semi-circular in shape, and is attached to the pole by means of two thick nails driven in opposite directions. By loosening these nails the knife can be lowered or raised according as it is required to go deep or shallow. It can be worked with one, two, or three pairs of bullocks according to the depth at which it stirs the soil. It cuts the soil to a depth of 6 to 18 inches. The work done by this implement is more real than apparent, as it does not cut a wide furrow. It can be made by an ordinary village workman at a cost of about fifteen rupees in three days.

Levelling block. It is a block of wood channeled on its surface.

Plough and its accompaniments (*Nangar*). This is the form of plough used in districts round about Poona.

Ground leveller (*Kulava*). This is an implement to level ground.

Sowing implement (*Pābhār*). An instrument for sowing where the seeds pass down through bamboo tubes.

Weeding implement (*Kolpi*). An implement used in weeding.

Seed coverer (*Rasam*). An implement to cover the seeds used in many parts of the presidency.

Implement for weeding (*Kolpi*). An implement used by cultivators for weeding.

Implement for separating grain from husk (*Dātāle*). It consists of a block of wood in which are driven wooden pegs and the handle.

Implement for furrowing (*Bilungi*). An implement of rough make for furrowing the ground.

A hooked pole (*Kodalē*). An implement to separate grain from husk.

Implement for sewing cotton (*Moghan*). An implement best suited to cotton sewing.

A mote with a well. A model of the native water-lift by one yoke of oxen.

A Persian wheel worked by man. A model of the water-lift where water is poured down by a series of buckets attached to the wheel into a tube which is so constructed as to receive and convey water. The wheel is turned in one direction by men.

A manure cart. Model of the cart used by cultivators for conveying manure.

A plough. It is of a rude make, and is drawn by one yoke of oxen. The single bar which forms the yoke, called Jokad, is fixed to the neck of beasts by two pegs which fall in front of each shoulder. The pole is called Isad.

A mote bucket of leather. It is a circular leather mote bucket, about 4 feet in diameter. At the circumference are a number of holes to pass ropes and thus convert it into a sort of cup which lifts water from the well, and is used in Tannah and many parts of Guzarat.

A levelling instrument. It is of a rough make and heavy, and is used to level the ground of the field.

A sort of rake. It consists of a part in which are fixed a number of wooden pegs to draw over a sown field. In this part is fixed the long pole or the handle.

A scythe. It is a scythe with a wooden handle and used to cut off weed from the fields; is of a semi-circular form.

A wooden turf spade. It is of rough make, consisting of a heavy block of wood, to which is attached a long pole to move it on. It is used for crushing clods.

An implement drawn over ploughed ground. An implement drawn over ploughed ground after the clods are crushed to level and smoothen it.

A flail. It is a thin light bamboo stick with a hook at one end.

Clod crusher. It is of rough make, consisting of a heavy block of wood, to which is attached the pole or handle to move it on, and used for smoothening ploughed ground.

Clod cleaner. It is used in removing hard clods which remain uncrushed by the clod crusher.

An oil mill. A model of the native machine for pressing out oil.

A sugarcane mill with two wheels. A machine for pressing out juice from sugarcane. This juice is condensed by evaporation, and becomes the gur or jaggery.

A sugarcane mill with three wheels. This machine has three wheels, so that more juice can be pressed out in a much less time than that by the one with two wheels.

A hand mill. The ordinary stone mill used by the natives.

Iron pan for boiling sugarcane juice (*Kadhāi*). A pan for condensing sugarcane juice by evaporation.

A pole (*Tvada*). It is a straight pole which is fixed in the centre of the threshing floor.

A ring (*Bhoni*). A ring made of some creeping plants, to be round the Tivda.

A forked stick (*Baddi*). It is a stick for turning up the stalks of the straw in the threshing floor as the bullocks go on moving.

A club. A heavy stick used in threshing.

A wooden sieve (*Chalni*), sent by Sitaram Joshi. It is a round full-sized wooden sieve. The hollow of sieve is of hemp string. It is used for sifting grain.

Photographs showing cotton cleaning, ploughing, &c., as done in Sind, sent by J. A. Murray, Esq., Curator, Karachi Museum.

AGRICULTURAL IMPLEMENTS OF ASSAM.

Sent by E. STACK, Esq., Officer in charge of Assam Exhibits.

Model of an oil mill (*Tel-sál*) received from Barpeta.

Hoe (*Dwar-Bamuni*), made by Mikir goldsmiths of iron, wood, and steel; used by the Mikirs in hoeing lands on the slopes of hills for cultivating early rice and other corns.

Dáo, made by Mikir goldsmiths of iron, wood, and steel; used in cutting jungles and clearing land.

Jhao or *Faranga*, made by Mikir goldsmiths of iron, wood, and steel; used in cutting and splitting wood.

Katari or knife (*Rangkhang*), made by Mikir goldsmiths of iron, wood, and steel; used in preparing betel-nuts.

Hatdáo, made by Mikir goldsmiths of iron, wood, and steel; used in preparing bamboo for house-building and other purposes, and for other domestic works.

Plough with iron share, made in Darang by the Hindus and the semi-hill tribes.

Plough with bamboo share, made in Darang by the Kacharis.

Small size rake, used in thinning plants and clearing weeds.

Large sized rake, used in thinning plants and clearing weeds.

Mallet, used in breaking clods.

Harrow, used in gathering weed and useless jungle.

Boiler (*Lahli*), used in boiling water when attached to a bamboo handle.

Rowna, being a piece of wood cut in the form of a half moon with a handle attached to it, used for gathering corn after being threshed.

Ukhan, a bamboo stick, used for stirring grain when being threshed or dried.

Switch (*Achhari*), an ordinary thick stick made of bamboo, used for driving cattle.

Hoe, made by the Bengali blacksmiths.

Brass sieves, made by the braziers of Darang, used in sifting rice and tea.

Bamboo sieve, made by all tribes, used for sifting rice and tea.

Sugarcane mill, made by the jail carpenter of the Darang Jail.

Wood (*Gechi*), cut from the neighbouring jungles, used as a hoe for digging in cultivation.

Iron purchased from the plains and made into a *dáo* by Garo blacksmiths (Garo—*Ate*); used for cutting jungle

Iron purchased from the plains and made into a *dáo* by Garo blacksmiths (Garo—*Ate*); used for cutting jungle; of different shape.

Iron purchased from the plains and made into a *dáo* by Garo blacksmiths (Garo—*Ate*); used for cutting jungle; ditto of different shape, used as a sickle for cutting rice and grass (*kachi*).

Iron purchased from the plains and made into a *dáo* by Garo blacksmiths (Garo—*Ate*); used as an axe for felling trees (*Rudá*).

The following implements, used by Semas, Lhotas, and Eastern Angamis, have been collected from the Naga Hills:—

The following agricultural implements have been collected from the Khasi and Jaintia Hills..

U Shalylngka (*crowbar*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for digging earth, &c. Price Re. 1-12.

Ka-wait lyng-ngun (*a big dao*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling trees in jooming. Price Rs. 2.

Ka-wait lyngen (*a smaller dao*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling trees in jooming. Price annas 12.

Ka-wait prat (*a pruning*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used in pruning. Price annas 12.

Ka-wait khmut (*a bill-hooked dao*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling smaller trees; it is used also in jooming. Price annas 12.

U Mohkhinheb (*a big hoe*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for turning turfs and digging drains. Price Re. 1.

U Mohkhinheb rit (*a small hoe*), made at Nongkhlaw, Khasia and Jaintia Hills, by Khasia blacksmiths, and used for harvesting potatoe crop. Price annas 5.

U Suar (*a wedge*), made at Nongkhlaw, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for breaking stones and making drains. Price annas 8.

Ka-wait tari (*a knife*), made at Nongkhlaw, Khasia and Jaintia Hills, by Khasia blacksmiths, and used for cutting petty things. Price annas 4.

Ka-wait sydie (*a large dao*), made at Nongston, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling big trees. Price Re 1.

Ka-wait khamrit (*a smaller dao*), made at Nongston, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling small trees. Price annas 10.

Ka-wait tari (*another smaller dao*), made at Nongston, Khasi and Jaintia Hills, by Khasia blacksmiths, and used for clearing shrubs and for cutting small things. Price annas 3.

Ka-tari (*a knife*), made at Nongston, Khasi and Jaintia Hills, by Khasia blacksmiths and used for cutting small things. Price annas 2-6.

Ka-wait lyng ngure (*a big dao*), made at Mylluna, by Khasia blacksmiths, and used for felling big trees. Price Rs. 3-8.

Ka-wait prat (*a pruning dao*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for pruning. Price. Re. 1-8.

Ka-wait khmut (*a bill-hooked dao*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling smaller trees. Price Re. 1-2.

U Sydie (*an axe*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling big trees in jooming. Price Re. 1-8.

Ka-tari (*a knife*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for cutting petty things. Price annas 5.

Ka-lyngkor (*a plough*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for ploughing. Price Rs. 2-8.

Ka-rashi (*a sickle*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for reaping. Price annas 6.

Ka-wait lyngngun (*a big dao*), made at Nongkrem, by Khasia blacksmiths, and used for felling big trees. Price Rs. 3-8.

Ka-wait khmut (*a bill-hooked dao*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for felling smaller ones. Price Re. 1-2.

Ka-wait prat (*a pruning dao*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for pruning. Price Re. 1-8.

Ka-wait rit (*a hatchet dao*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used for cutting smaller things. Price annas 4.

U nar ti khyndew (*a smaller iron implement pointed and fixed to a long wooden handle*), made at Khasi and Jaintia Hills, by Khasia blacksmiths, and used in digging drains, &c. Price annas 5.

U mohkhin (*a hoe*), made at Jaintia Hills, by Syntengs, and used for turning turfs, &c. Price Rs. 2-8.

U sydie (*an axe*), made at Jaintia Hills, by Syntengs, and used for felling big trees in jooming. Price annas 10.

Kawait (*a dao*), made at Jaintia Hills, by Syntengs, and used for felling smaller trees in jooming. Price annas 10.

U mohkhim kyllastong (*a hoe*), made at Nongkhlaw, Khasi Hills, by Khasias, used in turning turfs and digging earth.

U mohkhim sai (*a hoe*), made at Nongkhlaw, Khasi Hills, by Khasias, used in levelling the ground for cultivation.

Ka-wait lyngngum (*a big dao*), made at Mylhēm, Khasi Hills, by Khasias, used for felling trees, and is used for several purposes.

U kara (*a big dao*), made at Mylhēm, Khasi Hills, by Khasias, used in earthing young plants.

Ka-wait prat (*a dao*), made at Mylhēm, Khasi Hills, by Khasias, used in clearing grass jungle.

Ka-wait shyrti (*a pruning dao*), made at Mylhēm, Khasi Hills, by Khasias, used in jooming.

Ka-wait pommur (*a dao*), made at Mylhēm, Khasi Hills, by Khasias, used in making drains, &c.

Ka rashi (*a sickle*), made at Mylhēm, Khasi Hills, by Khasias, used for reaping.

Ka tari (*a knife*), made at Mylhēm, Khasi Hills, by Khasias, used for cutting petty things.

Ka lyngkor (*a plough*), made at Mylhēm, Khasi Hills, by Khasias, used for ploughing.

Ka moi (*a harrow*), made at Mylhēm, Khasi Hills, by Khasias, used for harrowing.

Ka juwar (*a yoke*), made at Mylhēm, Khasi Hills, by Khasias, used for preparing ground for cultivation.

Ka khur, made at Mylhēm, Khasi Hills, by Khasias, used to level and dry the ground after preparation with the harrow.

Ka Dun (*a basket*), made at Mylhēm, Khasi Hills, by Khasias, used for carrying seed.

U dieng shop.

Do krai (*a basket*), made at Mylhēm, Khasi Hills, by Khasias, used for carrying millet.

U prah (*a winnow*), made at Malai Sotnuat, Khasi Hills, by Wars, used for winnowing grain.

Ka shalani (*a sieve*), made at Cherra, Khasi Hills, by Wars, used as a sieve in clearing husks.

U thlong and U synrei (*a mortar and a pestle*), made at Mylhëm, Khasi Hills, by Khasias, used for grinding and husking corn.

U Star (*a colle head strap*), made at Cherra, Khasi Hills, by Wars, used for carrying grains, load, &c.

Ka Byrni, (*a bag*) made at Mylhëm, Khasi Hills, by Bhois, used for carrying grain.

Ka khass lyngdung (*a thapp or basket*), made at Mylhëm, Khasi Hills, by Khasias and Bhois, used for carrying grain.

Ka khop dung (*a thapp or basket*), made at Cherra, by Khasias and Wars, used in carrying millet from the field.

U Shang (*a basket*), made at Jaintia Hills, by Syntengs, used in keeping cleaned rice, &c.

U tyrnem (*a hammer*), made at Nongkhlaw, by Khasias, used for breaking stones in making drains for irrigation

U Suar (*a wedge*), made at Nongkhlaw, by Khasias, used for breaking stones in making drains for irrigation.

U Shalyngka (*a jumper*), made at Nongkhlaw, by Khasias, used for breaking stones in making drains for irrigation.

U Shnot (*a small iron implement pointed and fixed to long wooden handle*, made at Nongkhlaw, by Khasias, used in digging sides of deep drains.

U Sydie (*an axe*), made at Mylhëm, by Khasias, used for felling big trees.

Ka Shamok (*flint and steel*), made at Cherra, by Khasias, used in substitution of matches.

The following agricultural implements have been collected from Kachar:—

Banuk, made at the Kuki villages in Kachar, and used for felling trees. Price As. 6.

Hoe, made at the villages in Kachar, and used for scratching earth for the purpose of sowing seeds. Price As. 3-6.

Dao, made at the Kuki villages in Kachar, and used for cutting purposes. Price As. 12.

Sickle, made at the Kuki villages in Kachar, and used for cutting paddy. Price As. 2.

Lakhai, made at the Kuki villages in Kachar, and used for carrying seeds, &c., at the time of sowing. Price As. 1 of.

Kula, made at the Kuki villages in Kachar, and used as a wicker-fan for clearing or winnowing paddy and corn. Price As. 2.

Dao made at the Kachari villages, and used in cutting purposes. Price As. 6.

Axe, ditto and used for felling trees. Price As. 6.

Axe, another pattern, ditto, and used for felling trees. Price As. 7.

Hoe, ditto, and used for sowing seed. Price As. 2.

Sickle, ditto, and used in cutting paddy and grass.

Price A. 1.

Gail or Pounder, ditto, used in husking rice. Price As. 4.

Kula, sifter, ditto, and used in cleaning corn.

Lakhai, made at the Kachari village, and used in carrying seed at the time of sowing. Price As. 2.

Lakhai, another pattern, ditto, and used in carrying seed at the time of sowing. Price As. 6.

Hoe, made at the Mikir villages, and used in sowing seed. Price As. 8.

Sickle, ditto, and used for cutting paddy. Price As. 2.

Axe, ditto, and used for felling trees. Price Re. 1.

Gail or pounder, ditto, used in husking rice.

MISCELLANEOUS.

“Corrimony” Fence, a new system of wire fencing designed by Thomas Ogilvy, Esq., of Corrimony, Invernesshire, and manufactured by Messrs. William Bain and Co., Patentees, Lochvin Iron Works, Lower Gilmore Place, Edinburgh, sent under instructions of E. O. Buck, Esq., Secretary to the Government of India in the Revenue and Agricultural Department.

MILITARY EXHIBITS.

ONE imitation Armstrong breech-loading 9-pounder rifled gun of 6 cwt. made at Cabul by native workmen in 1870. Lent by the Bombay military authorities.

The gun is constructed on the model of a service Armstrong 9-pounder breech-loader as regards outward appearance, and approximately comes up to it in dimensions, weight, and also in weight of projectiles.

It is, however, not apparently a built-up gun like those in the service (that is, formed of a tube of coiled iron with the several rings or strengthening jackets shrunk on), but is turned out of a single block of wrought iron.

FORT WILLIAM ARSENAL, CALCUTTA.

WALL PIECE.

An enlarged fire-arm mounted on a swivel and placed on the walls of a fort or other fortified place.

It may be said to be obsolete, but is sometimes issued in India. Wall pieces are considered useful after the capture of a native fort to strengthen its defences.

At the late siege of Strasburg the Germans made considerable use of this nature of arm. They still have a small arm of this description in their service. It is a breech-loader on the principle of the Manser rifle, with which the whole of the German army is now armed.

ORDNANCE.

By the term "Ordnance" is understood in the British service any description of warlike stores; but its special signification as used by the artillery comprehends every gun and every projectile fired from a gun; it also signifies a portion of the material forming the equipment of that branch of the military service. "Ordnance" as applied to guns comprehends "smooth-bore" and "rifled," breech-loading and muzzle-loading.

"Smooth-bore" ordnance comprises cast iron and bronze guns, howitzers, and mortars ranging from 112 cwt. to $\frac{1}{2}$ cwt.

Cast-iron guns were first made in England in 1545, but bronze pieces had been made long before that date. In 1717 the so-called brass foundry was established and there the bronze ordnance for the British service has been principally made, some natures, as the $4\frac{1}{2}$ -inch howitzer and mortar having been manufactured from its earliest establishment.

Cast-iron guns were supplied by contractors and proved by Government officials.

The oldest smooth-bore guns in the service were made between 1780 and 1822, when Sir Thomas Bloomfield was Inspector-General of Ordnance, and are known by the name of "Bloomfield guns." They have a considerable amount of ornamentation on the exterior. Generals Sir W. Congreve, Sir A. Dickson, and Millar, Mr. Monk, and Colonel Dundas introduced improvements on "Bloomfield's guns," and the guns made by them bear their names. No smooth-bore guns of cast iron

or bronze for service have been made in England since 1859, when the supersession of smooth-bore by rifled ordnance commenced.

In 1864 the Admiralty proposed the construction of large smooth-bore guns of wrought iron for penetrating iron-clad ships at close quarters. Two natures, 150-pounders and 100-pounders, were made, being built on the Armstrong coil system. Better results were, however, obtained from the rifled guns shortly afterwards introduced, and their manufacture was abandoned.

These were the last smooth-bore ordnance introduced to the service, and the only description made of other materials than bronze or cast iron.

Classification.

All smooth-bore ordnance are classified as follows:—

Cast-iron	...	{	Guns, Carronades, Howitzers. Mortars.	Bronze	...	{	Guns. Howitzers. Mortars.
-----------	-----	---	--	--------	-----	---	---------------------------------

Smooth-bore ordnance are also divided into "Land Service" and "Sea Service," and many pieces were common to both. Smooth-bore pieces for firing solid shot are designated by the weight of the shot in lbs. and of the piece in cwt., as the 68-pounder of 95 cwt.; those for firing shell by the calibre in inches and the weight as before, as the 8-inch mortar of 9 cwt.; the 32-pounder, 24-pounder, and 12-pounder bronze howitzers are, however, exceptions to this rule.

The weights given are only nominal, as there is often a difference of 2 or 3 cwt. between pieces of the same nature.

"Rifled gun," are guns in which two or more spiral grooves are cut by the operation of rifling, so as to give a rotatory motion to the projectile.

The pre-eminence of rifled guns over smooth-bores is established in all armies of the world. Their penetrating power is enormous, as will be seen from reports on rifled guns against armour plates.

Since the year 1600 many rifled cannon had been tried, but they were not introduced before 1854, the date of the Crimean war. The first rifled guns employed by the British Army were a few old cast-iron smooth-bore 8-inch 68-pounder pieces, made oval in the bore and so converted into two-grooved rifled guns on the Lancaster principle. They were used during the Crimean war, but their shooting was very irregular, and the shot frequently jammed in the bore. About this time a number of rifled pieces were tried in England and other countries, and Sir. W. Armstrong brought forward his wrought-iron breech-loading rifled guns, which were officially tried in 1854, and seemed to answer very well. They were tested against smooth-bore bronze guns, and found to hit harder and to carry further, and also to make very much better shooting, it having been proved by experiment that a breech-loading rifled gun could make better practice at two miles than the smooth-bore could at one. A contract was made with the Elswick Ordnance Company, and the manufacture of these guns commenced at the Royal Arsenal, Woolwich, in 1859. The field artillery was equipped with them, and they have been used in the wars in New Zealand and China, and gave very satisfactory results. The breech arrangement was, however, very complicated and liable to get out of order, and it was thought that a simpler arrangement would answer better. This led to the adoption of the present muzzle-loading system, no breech-loading guns having been made since 1864, and the whole of the field artillery is now armed with muzzle-loading guns.

Armstrong's guns are all rifled on the polygroove system, whereas nearly all the muzzle-loading guns in the service are rifled on the Woolwich system, *i.e.*, a comparatively small number of deep grooves. The projectiles on the former system were rotated by means of a lead coating which entered the grooves, and in the latter system by means of soft metal studs.

The introduction of muzzle-loading field guns was followed by the manufacture of heavy guns on the same principle till at present we have the 80-ton gun of 16 inches, the largest gun yet made at the Royal Arsenal, Woolwich, and the 100-ton gun of 17.72 inches, manufactured by the Elswick Ordnance Company at Newcastle on Tyne. It is very likely that for use on boardship, where space is limited, breech-loading guns with a simpler breech arrangement will be adopted, a number having been lately manufactured and introduced to the service. Rifled ordnance is of two kinds, viz., guns and howitzers.

Carriages, artillery, embraces all natures of carriages for transport and service of guns, their ammunition and stores.

Those on which land guns are mounted are of three natures, field (includes mountain), garrison, and siege. Since the introduction of rifled muzzle-loading guns the carriages are made of wrought iron (latterly of steel also), though there are still wooden carriages in the service, but these will eventually be replaced with iron ones. Woolwich possesses one of the finest carriage factories in the world, in which naval as well as military carriages are manufactured. This factory or carriage department of the arsenal as it is called was first organized in 1803, and has gradually developed into a first rate establishment. The system on which all wrought iron carriages in use in the British service are built up is that known as the bracket system. Mortars on service are mounted on what are called beds.

A detailed description of the carriages exhibited will be found on the label of each. They comprise a field, siege, and mountain carriage.

HAND MORTAR.

The box which contains this mortar bears the following inscription :—

“This hand mortar was fired and proved at Woolwich on the 30th December 1881, a period of general peace in Europe, and was presented to the Hon'ble Directors of the East India Company by Lieutenant-Colonel Fyers, Royal Horse Artillery, by whom it was invented. Being a light and simple means of projecting loaded shells at short ranges.”

The lid has also a range table ; $5\frac{1}{2}$ " and $4\frac{3}{4}$ " shells can be fired from it. It is of course only a toy, and was never intended for service. When being fired it was suspended in the iron sling.

CARTRIDGES, CANNON.

These have superseded the obviously clumsy and dangerous method of loading guns with loose powder weighed on the spot out of barrels or receptacles. This, however, appears to have been the practice up to the early part of the 17th century. Paper was then used as an envelope or as it is called in the service a cartridge. This, though an improvement, was still defective, as the paper was not strong enough, and it was superseded by serge cloth or flannel, which terms are used indiscriminately to denote the same thing. The materials at present used for cartridges in the British service are serge and silk cloth, except for the cartridges of the newly introduced 13-pounder gun, and for the very small charges of 4 and 2 oz. for the 7-pounder mountain guns, which are made of shalloon, a material much the same as serge.

Silk cloth, which was at first called “amiantine,” will eventually supersede serge as a material for cartridges. It is made of the refuse of silk, and is stronger than serge, and not so liable to smoulder or “hold fire.” It is therefore safer to use. Cartridges of both materials are shown.

SMALL ARMS.

FLINT LOCK MUSKETS AND CARBINES.

Flint lock fire-arms were introduced into the French Army in 1652, and into the English Army in 1680. They were at first issued to Grenadiers, the match-lock continuing to be the general arm for some years longer. Flint lock muskets continued the arm of British infantry, till as recently as 1839, when percussion arms were introduced, a pattern being sealed in 1841, but 11 years afterwards one regiment stationed in India was still in possession of them, exchanging them for the percussion musket on its embarking for the Burmese war.

The carbine, which was adopted for certain regiments of cavalry; hence called "carabineers," gave way to the percussion carbine about the same time as the flint lock musket was superseded by the percussion arm for infantry.

PERCUSSION ARMS, SMOOTH-BORE AND RIFLED.

The percussion lock was invented by Revd. Mr. Forsyth in 1807, and was then generally adopted for sporting purposes. Arms with the percussion lock were used by the French in 1830, but none were issued to the English army till 1839; but one regiment stationed in India was in possession of flint lock arms as lately as 1852.

Rifle barrels to firearms were known as far back as 1500, but the grooves were without twist. Spiral rifling dates from 1600. The first pattern rifle was not approved in England till 1800. It was light and handy, and had a sword bayonet.

The total length with sword bayonet was five feet, and the weight was 9lbs. 9 oz. The calibre was .618 inch, and twist 1 turn in 10 feet. The ball was first driven into the bore by a small mallet, and afterwards forced home by a strong rammer. The "Brunswick two-grooved" rifle with a belted ball was introduced in 1837.

The "Minie" rifle purchased and served out to the army in 1851 was the arm of the infantry in the Crimean war. A pattern rifled, called the "Enfield," because made at the Royal Small Arms Factory, Enfield, was adopted in 1853, and carbines on the same principle were subsequently made. Enfield rifles were first issued in India to the British regiments which took part in the Persian war of 1857. The Royal Engineers had a special arm, viz, "Lancaster's oval-bore rifle." This rifle continued the arm of the British Army till superseded by the breech-loader about 1866, and a great number were converted from muzzle-loaders to breech-loaders on the principle proposed by Mr. Jacob Snider, junior, the great object of which was to utilise the existing arm. Previous to this a great number of trials had been made of various breech-loading arms, principally carbines. Amongst others "Sharpe's" and "Westley Richards" were issued to cavalry experimentally. "Sharpe's breech-loading carbine" was patented in 1843.

SNIDER BREECH-LOADING ARMS.

Introduced in 1866, and were the first breech-loading arms which were issued to the British infantry, their introduction being hastened by the lessons learned from the Austro-Prussian war of that year. Those issued first were Enfield muzzle-loading percussion rifles converted, but afterwards entirely new arms on this principle were made, steel barrels and interchangeability being also introduced in these new arms. Mr Snider's principle was afterwards applied to several descriptions of rifles and carbines. Interchangeable carbines both for artillery and cavalry were also made. The calibre of the Snider is .577 inch, and the number of grooves is 5. The twist of the rifling is slow.

Sniders are now superseded by the Martini-Henry in the regular British service, but a great number are still in the hands of the militia and volunteers.

It is the recognized arm of all native troops in India. But one kind of ammunition is made for all kinds of Snider arms, rifles, or carbines. Two sizes of Snider rifles are made, the smaller being called the "short pattern;" it is fitted to take a sword bayonet, and the longer one takes the common bayonet.

MARTINI-HENRY BREECH-LOADING ARMS.

Introduced in 1874, a great number of infantry regiments at home being served out with them during that year. The barrel is rifled on the principle of Mr. Henry, an Edinburgh gunmaker, and the breech action is the invention of Martini, a continental gunmaker. Carbines both for artillery and cavalry were introduced about three years later, and the whole of the regular troops of the British army have now been armed with small arms on this principle. The calibre is .45 inch, the number of grooves 7, and the twist rapid, 1 turn in 22 inches.

BAYONETS.

Bayonets were at first made to screw into the muzzle of the barrel, and were awkward as they had to be removed when firing, but the introduction of the socket bayonet in the beginning of the 18th century, which very much resembled the present pattern common bayonet, remedied this defect, and caused the pike to disappear as a weapon of the regular troops.

The present common bayonet for the Martini-Henry rifle is four inches longer than that for the Snider, and was adopted in 1877 in order that the total length of the Martini-Henry (which is shorter than the Snider rifle) with bayonet might be equal to the Snider.

Sword bayonets with various modes of attachment have also been introduced.

Garrison, artillery, Royal Engineers, rifle regiments, and the Sergeants of line regiments are armed with sword bayonets.

The garrison artillery sword bayonet is much longer than the others, and is straight with a saw back and a guard hilt.

The others are alike, and have a plain cross guard: all the guards have an aperture on one side which exactly fits the muzzle of the rifle or the carbine, and together with the spring catch serves to secure it.

PISTOLS, MUZZLE-LOADING, SMOOTH-BORE, AND RIFLED.

The history of pistols is almost a repetition of that of the musket. They formed part of the offensive arms of the first hussars raised in Hungary in the middle of the fifteenth century. The pistol was, however, partly superseded by the carbine. The changes which were introduced in muskets also affected the pistol. Percussion pistols formed part of the arms of some British cavalry regiments until quite recently.

They are now, however, replaced by carbines, which form part of the arms of all British cavalry at present.

REVOLVERS, BREECH-LOADING AND MUZZLE-LOADING.

The first revolvers were simply pistols with four or more barrels, and which revolved round a central spindle or rather were caused to revolve as after each discharge the next barrel was brought under the hammer by turning it round. A cylinder was afterwards adopted and arranged to revolve with the mere action of cocking: such were Colt's first revolvers.

Adams' revolvers were an improvement on this, again, as the mere releasing and pulling the trigger served to cock and discharge the weapon, so that all the chambers could be discharged in quick succession. The percussion arrangement which these had and which necessitated muzzle-loading gave way to the breech-loading central fire, which is the system adopted for all military revolvers.

Revolvers appear to have been used by the navy before their adoption for the army, as the first Adams' breech-loader, which was a conversion from a muzzle-loader, was introduced in 1868 for the navy. It had five chambers.

An entirely new revolver with six chambers and interchangeable was introduced in 1872, also by Adams, and in January 1878 was adopted in supersession of the rifled percussion pistol. Tranter's breech-loading revolver was also introduced in July 1878, but both Adams' and Tranter's are now superseded by the pistol made at the Royal Small Arms Factory, and called the "Enfield revolver," which is a self-extractor, and was approved in 1880. Revolvers were known in the seventeenth century.

Staff sergeants of cavalry and infantry and the British and native officers in the Indian Army are armed with this weapon in addition to their swords.

• SWORDS.

Swords, which are the indispensable weapon of all mounted men, dispute with the spear or lance as to which is the most ancient weapon. The first swords were of bronze, and were short, straight, and heavy. Short cutting swords without points were part of the arms of the Greek cavalry. The sword of the first Roman cavalry was only 13 inches long. Various nations have at all times had their own peculiar patterns. Eastern nations retaining the curved sword to this day. The swords of Highlanders of Scotland were two-edged and perfectly straight; they had a basket hilt which entirely enveloped the hand. This description of sword is still retained in the present Highland regiments. The cavalry sword was formerly more curved than at present, for example the pattern 1822 sword. The cavalry swords at present in the service are as follows :—

Pattern, 1853	Barred hilt of iron.
Do., 1864	Solid hilt of steel.
Do., 1882	Ditto ditto.

The blades of the first two are identical, and that of the last (of which there are two patterns, a long and short one, with about 3 inches difference in the length) is much like the former, but is lighter and better balanced. Pattern 1853 and 1864 can be altered to 1882 pattern.

There are various patterns of swords for Staff Sergeants, drummers, mountain batteries, and for Staff Sergeants of Highland regiments. The blades of all Staff Sergeants' swords, except for Highland regiments, are alike. The sword for drummers and bands of British infantry is short and straight.

Mountain batteries in India and the drummers of native infantry regiments are armed with a long curved sword. The sword or claymore for Staff sergeants of Highland regiments is of the pattern described above.

LANCES.

Lances lay claim to be the oldest weapon of offence. Alexander's cavalry were armed with the lance. During the middle ages the lance was the peculiar weapon of the knight, and none but freemen were allowed to use this weapon. On the invention of gunpowder and its application to firearms the lance fell into disuse. In 1807 Napoleon raised an experimental regiment of Polish lancers, to which he soon added five more Polish and seven French. These have been the model for all lancers of Europe. At Waterloo a regiment of French lancers told severely on the household brigade. At Aliwal they decided the day in our favour. The following are the pattern lances which are or have been recently in the British service :—

- Pattern, 1858, with a bamboo stave and a very unsightly head.
- Do. 1860 with an ash stave and an improved head.
- Do. 1868 with a bamboo stave is the present service pattern

SMALL ARMS.

Martini-Henry rifle—

Barrel, steel.
Bore, .450 inch.
No. of grooves, 7.
Twist of rifling, 1 turn in 22 inches.
Length, 4 feet 1 inch.
Weight (without bayonet), 8 lbs. 12 oz.

Bayonet and leather scabbard—

Common for Martini-Henry.
Rifle, long.
Length of blade, 22½ inch.
Weight of bayonet, 24 oz.
Foresight protector for Martini-Henry rifle.

Snider rifle, long—

Barrel, steel.
Bore, .577 inch.
No. of grooves, 5.
Twist of rifling, 1 turn in 48 inches.
Length, 4 feet 6 inches.
Weight (without bayonet), 8 lbs. 14 oz.

Bayonet and leather scabbard, common for Snider and Enfield rifles, short—

Length of blade, 17 inches.
Weight of bayonet, 18 oz.

Snider rifle, short—

Barrel, steel.
Bore, .577 inch.
No. of grooves, 5.
Twist of rifling, 1 turn in 48 inches.
Length, 4 feet.
Weight, 8 lbs. 12 oz.

Sword bayonet and leather scabbard for Snider and Enfield short rifles (as altered to fit Martini-Henry)—

Length of blade, 22½ inches.
Weight of sword bayonet, 2 lbs. 8 oz.

Enfield rifle, pattern '53, with common bayonet and scabbard—

Barrel, iron.
Bore, .577.
No. of grooves, 3.
Twist of rifling, 1 turn in 78 inches.
Weight with bayonet, 9 lbs. 12 oz.

Enfield rifle, short, pattern '60 with sword bayonet and scabbard—

Barrel, iron.
Bore, .577 inches.
No. of grooves, 5.
Twist of rifling, 1 turn in 78 inches.
Weight with sword bayonet, 10 lbs. 4½ oz.

Martini-Henry artillery carbine—

Barrel, steel.
Bore, .450 inches.
No. of grooves, 7.
Twist of rifling, 1 turn in 22 inches.
Length of carbine, 3 feet $1\frac{1}{10}$ inches.
Weight with sword bayonet, 9 lbs. $4\frac{3}{4}$ oz.

Artillery sword bayonet and leather scabbard for Martini-Henry carbine—

Length of sword bayonet, $31\frac{1}{2}$ inches.
Ditto blade, $25\frac{3}{4}$ inches.
Ditto saw, $9\frac{1}{2}$ inches.
Breadth of blade, $1\frac{1}{8}$ inches to 1 inch.
Weight of bayonet and scabbard, 2 lbs. $2\frac{1}{2}$ oz.
Foresight protector for Martini carbine. The backsight is protected by a cover of leather.

Snider artillery carbine with sword bayonet and steel scabbard—

Barrel, steel.
Bore, .577.
No. of grooves, 5.
Twist of rifling, 1 turn in 48 inches.
Length, 3 feet 4 inches.
Weight with sword bayonet, 9 lbs. 1 oz.

Snider cavalry carbine with cover for backsight and protector for front sight—

Barrel, steel.
Bore, .577 inches.
No. of grooves, 5.
Twist of rifling, 1 turn in 48 inches.
Length, 3 feet.
Weight, 6 lbs. 8 oz.

Enfield artillery muzzle-loading carbine with sword bayonet and steel scabbard—

Barrel, iron.
Bore, .577 inches.
No. of grooves, 3.
Twist of rifling, 1 turn in 78 inches.
Length, 3 feet 4 inches.
Weight with sword bayonet, 9 lbs. 1 oz.
Smooth-bore cavalry percussion carbine, .656 inches bore, with a swivel rammer.
Sharpe's breech-loading cavalry carbine (patented 1843). Issued experimentally only to some regiments of British cavalry between 1860 and 1870.

Smooth-bore flint lock musket with bayonet made in 1857—

The pattern used at Waterloo.

Sapper's carbine and sword bayonet, pattern 1857—

Barrel, iron.
Bore, .577 inch.
No. of grooves, 3.
Twist of rifling, 1 turn in 78 inches.

Brunswick two-grooved rifle with sword bayonet and leather scabbard—

Bore, .74 inches.
Introduced in 1837.
Some were used in the Afgan war, 1841-43.

Smooth-bore carbine known as Victoria pattern. The late Bengal artillery used this small arm.

Smooth-bore percussion wall piece, 95 inch bore.

Enfield revolver, breech-loading (a self-extracting revolver)—

Barrel, steel.
Length, $5\frac{7}{8}$ inches.
Bore, .450 inches.
No. of grooves, 7.
Twist of rifling, 1 turn in 22 inches.
Weight of pistol, 2 lbs. $8\frac{1}{2}$ oz.

Tranter's revolver, breech-loading—

Barrel.
Length, 6 inches.
Calibre, .433 inches.
Rifling { No. of grooves, 5.
 { Twist, 1 turn in 22 inches.
Weight of pistol, 2 lbs. $7\frac{1}{2}$ oz.

Colt's muzzle-loading revolver invented by Colonel Saml Colt, U.S.A., and brought out in 1835—

Calibre, .358 inches.
No. of grooves, 7.
Twist of rifling, 1 turn in 36 inches.
Weight, 2 lbs. 10 oz.

Adams' muzzle-loading revolver, one of the first introduced into the British service for use in the navy—

Calibre, .443 inches.
No. of grooves, 5.
Twist of rifling, 1 turn in 24 inches.
Weight, $2\frac{1}{2}$ lbs.

Cavalry rifled percussion muzzle-loading pistol, 10-inch barrel—

Barrel, iron.
Bore, .577 inches.
No. of grooves, 5.
Twist of rifling, 1 turn in 48 inches.
Weight, 3 lbs. $1\frac{1}{2}$ oz.

Cavalry smooth-bore percussion pistol, 8-inch barrel.

Hooked knife and scabbard with two small knives. One of these is the personal property of each man in native infantry, Assam, and Ghoorka regiments, the Government providing a frog in which to carry them on the belt.
Knife dow. Served out to native followers on the Eastern Frontier. It is the weapon of the hill tribes on that frontier, and is also used by the Burmese for cutting brushwood.

Cavalry sword and scabbard—

Pattern, 1882, O pattern.

Cavalry sword and scabbard, pattern 1853. Is now being superseded by the 1864 and 1882 patterns, which have solid hilts—

Length of blade, 2 feet $11\frac{1}{2}$ inches.

Weight of sword, 2 lbs. $7\frac{3}{4}$ oz.

„ of scabbard, 2 lbs. $1\frac{1}{2}$ oz.

Total weight, 4 lbs. 9 oz.

Sword, pattern 1866, for Staff Sergeants of infantry of the line, with gilt hilt and gilt mounted leather scabbard—

Length of blade, 2 feet $8\frac{1}{2}$ inches.

Weight of sword, 1 lb. $15\frac{1}{4}$ oz.

„ of scabbard, 14 oz.

Total weight, 2 lbs. $13\frac{1}{2}$ oz. ,

Sword or claymore for Staff Sergeants of Highland regiments, with leather scabbard, hilt of sword, and mounting of scabbard steel—

Length of blade, 2 feet $8\frac{1}{2}$ inches.

Weight of sword, 2 lbs. $15\frac{3}{4}$ oz.

„ of scabbard, $12\frac{1}{2}$ oz.

Total weight, 3 lbs. $8\frac{1}{2}$ oz.

Sword for Pioneers, with brass hilt and brass mounted leather scabbard—

Length of blade, 1 foot $10\frac{1}{2}$ inches.

Weight of sword, 2 lbs. $4\frac{1}{4}$ oz.

„ of scabbard, 12 oz.

Total weight, 3 lbs. $0\frac{1}{2}$ oz.

Sword issued to drummers and bandsmen of line regiments, with leather scabbard, pattern 1858.

Length of blade, 1 foot 7 inches.

Weight of sword, 1 lb. 13 oz.

„ of scabbard, $8\frac{1}{2}$ oz,

Total weight, 2 lbs. $5\frac{1}{2}$ oz.

Sword issued to mountain batteries and drummers of native infantry regiments, with scabbard issued to drummers—

Length of blade, 2 feet $6\frac{1}{2}$ inches.

Weight of sword, 2 lbs.

„ of scabbard, 1 lb.

Total weight, 3 lbs.

Lance, pattern, 1868, with bamboo stave. Present service pattern for British lancer regiments—

Length, 6 feet.

Weight, 3 lbs. 14 oz.

Lance, pattern, 1860, with ash stave superseded by the pattern 1868 lance with a bamboo stave—

Length, 6 feet.

Weight, 3 lbs. 12 oz.

ACCOUTREMENTS.

Italian pattern water bottle with leather carriage for mounted corps.
It is made from one piece of wood with the ends let in; the top has a zinc stopper which screws in.

Italian pattern water bottle for infantry and dismounted men.

It differs from the one for mounted men in having a spring on the flat side which slips over the waist-belt.

A carriage is not required with this pattern.

Canvas haversack (white).

For all services except Rifle Regiments, which have the same pattern, but of black canvas.

Belt, shoulder and waist in one, for Mountain Batteries.

Carriage of buff-leather for side drums.

The leather button is inserted between the cords of the drum after it is braced up.

Carriage of brown leather for small side drum, with double spring lock.

TOOLS, &c., FOR INTRENCHING.

Chevaux de frise, complete—

Iron barrel, 6 feet long.

12 spears, each 4 feet $7\frac{1}{2}$ inches long.

Weight complete, 86lbs.

The spears pack inside the iron barrel for transport; used as an obstacle in fortifications at the foot of the counterscarp or elsewhere.

Sap fork—

Used for pushing on the sap rollers (which are usually made of brushwood) in the construction of saps, &c.

Jones' iron bands gabion—

No. of bands, 10.

No. of wood pickets, 12.

Length of each band, 77 inches.

Breadth, $3\frac{1}{4}$ inches.

Each band will support by the buttons and the button-holes a weight of 512 lbs., and the band itself about 1,500 lbs.

Kajawahs, mule or bullock, iron.

Carry the same tools as the wood kajawah, and is for regimental use only.

Kajawahs, mule or bullock (wood).

For transport of picks, shovels, and other intrenching tools. Each kajawah of the pair carries 10 shovels or 10 pickaxes.

For Engineer service only.

INSTRUMENTS, MUSICAL.

Copper bugle, with mouth-piece and chain.

Universal pattern for all services.

Brass trumpet, with mouth-piece and chain.

Issued to Cavalry and Artillery.

Worsted string for bugles and trumpets, green.

Issued to all regiments which have not Royal titles, such as "King's Own," "Queen's Own," "Royal," &c.

Worsted string for bugles and trumpets, "Royal."

Issued only to "Royal Regiments." The "Royal Rifle Corps" and the "Rifle Brigade" have, however, green strings, although Royal Regiments.

Brass side drum, small, ticken cover.

Superseded by the large pattern, but still in use in many regiments.

Brass side drum, large, with ticken cover.

Approved, January 1875, to govern supplies from the trade.

Issued to all Infantry Regiments except Rifles and those designated "Light Infantry."

Side drum sticks—

The same stick is used with both the large and small drum.

GYMNASIA AND FENCING STORES.

Musket with spring bayonet for gymnasia. An unserviceable percussion arm altered.

Pads for fencing "leg."

Guards for fencing "stick."

Lead-cutting sword and scabbard.

Gauntlet for arm.

Gloves, fencing, left hand.

Gloves, fencing, right hand.

Blunt exercise lance.

Gymnasia shoes.

Wire helmet for fencing (land service).

Wire masks for foil practice.

Pads for fencing, body apron.

Jacket leather, fencing, half.

Jacket leather, fencing, whole.

Wilkinson's practice sword for gymnasia. Originally submitted by Messrs. Wilkinson and Son, Pallmall, London.

Pads for fencing, breast or plastron.

Foil for fencing, complete. The best foils were formerly made by "Solingen," a German manufacturer.

Fencing stick, bamboo.

Belt for gymnasia.

Wrought-iron targets, 6 feet \times 2 feet, complete with 2 stays, 4 bolts, nuts and washers. Two targets side by side make a third class target, 3 make a second class, and 4 make a first class.

MISCELLANEOUS.

Infantry pendulum.

One is issued to an Infantry Regiment on its first formation. It is used to accustom recruits to the time when marching, a tap being given on the drum for each vibration.

The long pendulum gives slow, the medium one quick, and the short one double time.

It is practically superseded by the "metronome."

Signalling apparatus.

5-inch heliograph and case. (Pattern for Infantry.)

The heliograph was invented by Mr. H. C. Mance for telegraphing by means of the sun's rays. The Morse alphabet is used. The signals can be read without telescopes up to 50 miles, and in clear weather messages were read up to 80 and 100 miles.

HARNESS AND SADDLERY.

Harness, elephant. Complete equipment for shaft elephant of a heavy battery.

	<i>Detail.</i>				
Bands, throat	1
Breeching	1
Breast plate	1
Chain backband	1
Cruppers	1
Girths	1

Guddelaha—

Large	1
Small	1
Lashings	1
Paeds, saddle	1
Saddle	1
Stirrups, pairs	1
Tracers, chain	2

Hessra, elephant. Complete equipment for lead elephant of a heavy battery.

	<i>Detail.</i>				
Bands, throat	1
Breast plate	1
Cruppers	1
Girths	1

Guddelaha—

Large	1
Small	1
Lashings	1
Pads, saddle	1
Saddles	1
Stirrups, pairs	1
Tracers long	2

General service pack-saddle with litters for the transport of sick and wounded men.

This arrangement is not used in India, the "dhoolie" being used instead.

MACHINES FOR TESTING SIGHTS.

Machine used at the Royal Small Arms Factory, Enfield, for testing sighted barrels.

The barred fixed in the machine is used for testing it should it become or be supposed to be inaccurate.

ORDNANCE.

Cartridges for rifled muzzle-loading guns, &c.

These cartridges are made of silk cloth, or as it was first called "Amiantine," and is made of refuse silk. It is stronger and closer than serge, which it will eventually supersede, and is not liable to smoulder.

Cartridges for smooth-bore guns, &c.

These are made of serge (but silk cloth is also used), which will, however, be eventually superseded by silk cloth.

Service cartridge for 68-pounder smooth-bore gun—

Weight of powder	16 lbs.
Description	R. L. G ³ .

(Actually filled with coal dust.)

Service cartridge for 18-pounder smooth-bore gun—

Weight of powder	6 lbs.
Description	R. L. G ³ .

(Actually filled with coal dust.)

Service cartridge for 24-pounder smooth-bore gun—

Weight of powder	8 lbs.
Description	R. L. G ³ .

(Actually filled with coal dust.)

Service cartridges for 32-pounder smooth-bore gun—

Weight of powder	10 lbs.
Description	R. L. G.

(Actually filled with coal dust.)

Service cartridge for 9-pounder smooth-bore gun—

Weight of powder	3 lbs.
------------------	-----	-----	-----	-----	--------

(Description filled with coal dust.)

Battering cartridges, for 9-inch rifled muzzle-loading gun of 12 tons—

Weight of powder	50 lbs.
Description	P.

(Actually filled with coals.)

Service cartridge for 80-pounder rifled muzzle-loading gun of 5 tons—

Weight of powder	12 lbs.
Description	P.

(Actually filled with coals.)

Service cartridge for 64-pounder rifled muzzle-loading gun of 64 cwt.—

Weight of powder	11 lbs.
Description	P.

(Actually filled with coals.)

ORDNANCE.

Service cartridge for 40-pounder rifled muzzle-loading gun of 35 cwt.—Weight of powder 7 lbs.

Description—R. L. G³.

(Actually filled with coal dust)

Service cartridges for 25-pounder rifled muzzle-loading gun of 18 cwt.—Weight of powder 4 lbs.

Description—R. L. G³.

(Actually filled with coal dust.)

Service cartridges for 6·3-inch rifled muzzle-loading howitzer of 18 cwt.—

Various charges are used with this piece, according to range or effect required.

Weight of powder varies from 4 lbs. to 1 lb.

Description—R. L. G³.

Service cartridge for 9-pounder rifled muzzle-loading gun of 6 or 8 cwt.—Weight of powder $1\frac{3}{4}$ lbs.

Description—R. L. G.

(Actually filled with coal dust.)

Service cartridges for 7-pounder mountain gun of 200 lbs.—

Weight of powder in each—12 oz.

8 „
 6 „

Description—F. G.

(Actually filled with coal dust.)

Brass gun cast in the Afghan Gun Foundry at Herat—

Captured from Sirdar Mahomed Ayub Khan, at Mazra near Kandahar, 1st September 1880.

Brass howitzer cast in the Afghan Gun Foundry at Herat—

Captured from Sirdar Mahomed Ayub Khan at Mazra near Kandahar, 1st September 1880.

Wrought-iron trough or machine for firing Hales' 9-pounder war rocket.

Hales' 9-pounder war rocket (whole).

This is of an obsolete pattern, but represents as regards outward appearance the present service one; service rockets are now painted red.

Hales' 9-pounder war rocket.

(Section.)

Spring spikes for rendering guns temporarily unserviceable by stopping the vent.

(Four sizes for four different guns)

The flat head prevents the spike falling into the gun. The spring can afterwards be compressed and the spike withdrawn.

Common steel spike used to choke up the vent of a gun, so as to render it useless.

Length, 4 inches.

At top, .27 inch.

At point, .1 „

It is driven into the vent as far as it will go, and the top broken off close to the gun.

Jagged spike used to render a gun useless by choking up the vent.

A spring spike can be removed, and a common spike may also be removed, but the jagged spike cannot.

Copper gas check for 9-inch projectile.

Fastened on the base of the shell by a plug and nut to prevent the escape of gas over the projectile on the discharge of the gun. It is slightly convex to the rear and on the discharge is expanded so as to fill up the grooves and lands of the gun.

Copper gas check for 6.3-inch howitzer shell (saucer shaped).

Is attached to the base of the shell by a plug only. This gas check also gives rotation to the shell, as there are no studs on the projectiles for the 6.3-inch howitzer.

Copper gas check for 40-pounder projectiles.

Is attached to the base of the shell by a plug only. Its action is like that of the 9-inch and others.

Common shell for 9-inch 12-ton gun with plug and nut for attaching gas check.

Weight, empty, without gas check, nut, &c., 230 lbs. 9 oz.

Bursting charge of L. G. powder, 20 lbs.

Weight of shell filled with gas check, &c., 252 lbs.

FEROZPORE ARSENAL.

MISCELLANEOUS.

Flag—Triangular crimson flag with green border, is a Sikh khalsa flag taken at the action of Sobran.

Flag, Standard, Cavalry Regiment (and Royal).—One black and one crimson, belonging to the second squadron of the 5th Bengal Light Cavalry, which performed the arduous foraging duties with Sale's force at the siege of Jallalabad after the remaining squadrons of the regiment had been cut down to a man at Jagdalak. The regiment was afterwards disbanded at Peshawar at the mutiny.

Horn—Belonging to the Body Guard of Avitabile, Commander-in-Chief of the Sikhs at Peshawar, taken by Sir W. Gilbert's force.

Flags.—(Scul and crossed bayonets) of the Bengal Volunteers.

Flags, Standard, Cavalry.—Belonging to the 10th Bengal Light Cavalry, who mutinied in 1857 at Ferozapore.

Flags, Infantry Regiment.—Of the 35th Bengal Infantry, Allygarh and Delhi, 1803.

Flags, Standard, Cavalry Regiment (and Royal).—Of the 8th Bengal Light Cavalry, who mutinied at Mian Mir.

Flags, Infantry Regiment.—Of the 57th Bengal Infantry, mutinied at Ferozapore.

Flags, Infantry Regiment—Punjab police.

Flags, Standard Cavalry Regiment (and Royal).—Of the 6th Bengal Light Cavalry, who mutinied at Jullunder.

Flags, Infantry Regiment—Sixth Bengal Grenadiers,

Anti-scorbutic *Amchur and Patwa*.
Weapons for Kahars.

By Brigadier-General H. C. Wilkinson, C.B.

ON THE WEST SIDE OF THE MILITARY ANNEXE.

1. A moving target for musketry practice. This target requires no rope or pulling, and is free from liability to damage. It carries one 6 feet x 2 feet service target, upon which the figure of a man or tiger is outlined.

INSIDE OF THE MILITARY ANNEXE.

2. One set of British cavalry saddlery in "complete marching order," service pattern.

3. One complete set of new pattern British cavalry saddlery in "complete marching order" (about to be introduced into the service). The front arch of this saddle is composed of tubular steel, and the rear arch of flanged steel. These arches are more than three times as strong as the present service pattern.

4. One set of light cavalry saddlery, as worn by the 6th Prince of Wales' Bengal Cavalry.

5. One set of light cavalry saddlery, as worn by the 7th Bengal Cavalry.

6. One set of light cavalry pannels proposed by Colonel Mackenzie for native cavalry and in use by the 3rd Bengal Cavalry.

7. One set of light cavalry saddlery, as proposed by General Wilkinson, with improved canvas water bag.

8. One improved mule pack saddle, with a pair of light wicker mule trunks; light of the pair, 30 lbs.

9. One "bucking bit" invented by Captain H. M'Gee, Riding Master, 14 Hussars. This contrivance prevents a horse from bucking.

10. One "stirrup lantern." This can be used for night-signalling, or in lieu of a torch to show road at night.

11. A new and improved light cavalry sword, latest service pattern (not yet issued to any troops).

12. A pair of spring lances. For use in sword *v* lance and lance *v* lance competition. Designed by Major H. C. Wilkinson, 16th Lancers.

13. Three specimens of Wallace's entrenching tools, service pattern.

14. One officer's service kit, for ordinary campaigning. As recommended (for "medium" weather) by the Cabul Committee on equipment, 1882; total weight under 80 lbs.

15. Some extra items for the use of staff and field officers.

16. One pair of picket lamps. Designed by Major Frank James, Bom. s. c. A lamp for camp use and night-signalling. This light is visible five miles with the naked eye, and about 15 miles with glasses. Cost complete, £3 each.

17. One specimen of a heliograph. Believed to be the first ever used in manœuvring troops. Designed by Major H. C. Wilkinson, Commanding the 16th Lancers, 1870. In signalling with this heliograph, the instrument is not touched, so that when once adjusted the flash remains on the distant station, and is only deranged by the revolution of the earth. In all other heliographs the glass itself is moved to form each signal. This often deranges the adjustment, specially when the instrument stands on soft ground.

EXHIBITS OUTSIDE THE MILITARY ANNEXE TO THE WEST AND NEAR THE BOUNDARY WALLS.

18. Two brick and lime silos. For the ensilage of grass and green forage of all descriptions. Ordinary grass needs no preparation, green barjery, juary, and Indian-corn, &c., must first be cut into short lengths of about one inch. The forage is then placed in the silo and trodden down by the feet of men or cattle; the greater the weight thus applied the better.

When the silo is filled to within one foot of the top, earth of the most clayey nature procurable is placed on it, and such pressure as can conveniently be procured is added, while the earth is rammed to the depth of at least 18 inches. The silo should be loaded expeditiously, when the grass will not shrink above 18 inches or two feet.

It will be seen that the sides of the silo, for the first 5 feet from the top, are perfectly perpendicular; this permits the superincumbent mass of earth to settle down smoothly with the grass without disruption. The cracks that will appear close to the wall all round, caused by this settlement of the grass, must be filled up daily for about a fortnight with moist mud, cowdung, &c. After about a fortnight little change takes place in the ensilaged forage, and if the operation is carefully performed, the grass at the end of six months will be found very little changed from the day it was put in. It is quite as nourishing, and more easily digested than green grass.

Silos may be constructed of any length.

19. A pair of silos constructed (on the same principle), but entirely of earth. These silos cost nothing but manual labour, and if carefully prepared, would be as efficacious as the masonry ones. Great pressure must be applied in each case, and the air must be excluded; if this is done, the ensilage is sure to be successful.

By Private W. Clarke, 17th Leicestershire Regiment.

1 Model of a bridge.

1 Perspective drawing instrument. With the aid of this simple contrivance any object can be drawn in perfect perspective.

CALCUTTA COURT.

SECTION A.—FINE ARTS.

CLASSES I TO VI.

BOUENE AND SHEPHERD, 8, Chowringhee.—Photographs, views, and portraits; Permanent enlargements on paper and porcelain, plain and colored in oil and water colors; oil paintings.

EDMOND (J. M.) AND Co., 27 and 28, Bentinck Street.—Drawings.

MOOKERJEE (J. N.), Art Studio, 185, Bow Bazar Street.—Paintings, engravings, lithographs, scrap and picture books.

MULLICK, PYNE AND Co., 36, Choonam Gully, Colootollah Street.—Playing cards with designs of Hindu gods & goddesses.

NEWMAN (W.) AND Co., LD., 4, Dalhousie Square, Calcutta.—Pictures; Christmas cards; engravings; maps; ball and menu cards.

Pictures.—An aquagraph representing the army under General Roberts on the march from Kabul to Kandahar.

A chromo lithograph—"The Indian Contingent in England."

Six oil colored Plaques of views in Calcutta and the neighbourhood.

Christmas Cards—Engravings and Maps—Ball and Menu cards, &c.

THACKER, PINK AND Co., 5 and 6, Government Place.—Frith's photo-pictures.

TRAIL (D. M.)—Pictures.

SECTION B.—EDUCATION AND APPLICATION OF LIBERAL ARTS.

CLASSES VII TO XV.

BIBLE SOCIETY, 23, Chowringhee Road, Calcutta.—Bibles and other Christian books in oriental languages published by The Religious Tract Society, The Calcutta Vernacular Education Society, and their Indian auxiliaries, &c. Common depôt: Bible and Tract House, 23, Chowringhee Road.

BYSACK (DOYAL CHAND), 6, Lower Circular Road, Bhowanipur.—Vernacular maps.

DATTA (SRIS CHANDER) 11, College Street, Calcutta.—Marking ink and printing ink.

DE NEGRI AND Co., 6, Lower Circular Road.—Millboards, paste-boards, cards, and fancy boxes.

HAROLD AND Co., 3, Dalhousie Square.—Musical instruments.

Harold's solid sympathetic grand square pianos; Schiedmeyer and Soehne's pianos (of Stuttgart); Mason and Hamlin's American organs; Smith's American organs; organista orchestrinas; musical boxes; silvered military band instruments.

JELlicoe (W. E.), Lindsay Street.—Menist's perfect pebble spectacles.

LINDE (F.), 4, Sudder Street.—Indian maps, pamphlets, and telegraph codes.

MUKARJHI (J. N.), Calcutta Art Studio, 185, Bow Bazar Street.—Alphabetical sheets, copy books, and artists' materials.

MURRAY (JAMES), 11, Dalhousie Square, East.—Musical boxes, electrical and scientific instruments.

The electric bells, telephones, transmitters, relays, &c., are all made in Calcutta by native workmen under European supervision.

NEWMAN (W.) AND Co., LIMITED, 4 Dalhousie Square, Calcutta.—Publication printing; book-binding; stationery; surveying and mathematical instruments; optical instruments; artists' materials; stationery requisites.

Instruments.—A 6-inch transit theodolite.

A 6-inch railway transit theodolite without vertical arc, prepared especially for India.

10 and 14-inch dumpy levels with the lines of collimation placed between two pieces of glass, so that the eye-piece can be removed and cleaned without disturbing the thread.

3 & 4-inch prismatic compasses; 100-feet steel measuring tape with nickel figures.

Various sets of scales.

An improved Abney level.

Improved clinometer.

Sets of drawing instruments.

Binoculars, opera glasses.

Astronomical binoculars, &c., &c.

Artists' Materials.—Materials for oil and water-colour painting.

Metal despatch boxes.

Cash boxes.

Copying presses.

Fancy leather goods.

RAMCHAND (HAZARIMAL), 33, Raja's Kuttra, Burra Bazar.—Ivory work.

SMITH (T.), City Press, Bentinck Street.—Stationery, printing, and book-binding.

SOLOMONS & Co.—Meteorological instruments.

THACKER, SPINK AND Co., 5 and 6, Government Place.—Publications, engravings, die-sinking, picture framing, book-binding, stationery.

THOMSON (JOHN), 5, Commercial Buildings.—Black and colored writing, copying and marking inks, sealing wax; of local make.

TRAIL (D. M.), 20, British India Street.—Steel pens, stationery, and printing.

WOOD (J. N. T.), 9, Hill's Place.—Jeypur map in Hindi characters.

SECTION C.—HEALTH.

CLASSES XVI TO XXII.

BATHGATE AND Co., 17, 18, and 19, Old Court House Street.—Drugs and medicines.

BEGG, DUNLOP AND Co., 12, Mission Row.—Dr. Gray's patent improved rapid water filter.

DATTA (SRIS CHANDER), 11, College Street.—Tinctures.

DATTA (SRIS CHANDA), Peacock Chemical Works, College Square, Calcutta.—Pharmaceutical and chemical preparations, stethoscopes.

DATT (S. C.) AND Co., Homœopathic Chemists and Druggists, 30, College Street.—Homœopathic medicines and medical requisites.

DEY (PREOLAL).—Indian non-alcoholic lime-juice.

GHOSHAL (DENO NATH AND Co.), Canning Street.—Medicines, &c.

MITTRA AND Co., 1, Mirzapur Street, College Square.—Medicines.

RAY (TARRAPRASSANA) & DATTA (RAMCHANDRA), Medical College.—Indigenous drugs.

SMITH, STANISTREET AND Co., 9 & 10, Dalhousie Square.—Drugs, medicines.

SOLOMONS & Co.—Spectacles.

WALDIE (DR. DAVID), 3½, Hastings Street.—Drugs.

SECTION D.—FURNITURE AND OTHER OBJECTS FOR THE USE
OR DECORATION OF DWELLING-HOUSES AND
OTHER BUILDINGS.

CLASSES XXIII TO XXXVII.

- ARLINGTON AND Co., 3B, Dalhousie Square.—Plated-ware, cutlery.
 BURN AND Co., 7, Hastings Street.—Raniganj pottery and earthenware.
 CHOTAY LALL, 47, Raja-ka Kuttra, Barra Bazar.—Worked cushions, tables, chairs, table-covers, and a variety of Benares brass ware.
 CLARKE (F. T.), Lindsay Street.—Fancy articles, Indian-made brass work, marble inlaid, silver, copper, ivory work, enamel, garnets, and old arms.
 DATT (RAM CHANDER) AND Co., 79, Clive Street, Calcutta.—Metals, hardware, cutlery.
 DAW (SHIB KRISTO) AND Co., 30, Clive Street.—Metals, hardware, cutlery.
 DESCHAMPS AND Co., 5, Mango Lane.—Furniture.
 Dining room furniture in teak wood, lined claret morocco—comprising a sideboard, 2 whatnots, 6 armchairs, 6 armless chairs, and one table.
 Library furniture in rosewood, richly carved, lined red morocco—comprising one book case, 1 writing table, 1 sofa, 1 armchair, 1 armless chair, and 2 fancy chairs.
 A carved cabinet in rose and sandalwood.
 DUNN AND Co., 47, Bentinck Street.—Furniture.
 EDMOND (J. M.) AND Co., 27 & 28, Bentinck Street.—Furniture, carvings.
 HAMILTON AND Co., Jewellers, Old Court House Street.—Chiming clock, bronzes, marbles, clocks, and watches.
 This exhibit includes a collection of bronzes, porcelain vases of Sevres manufacture, painted by hand with original designs, and ormolu mounted in massive style, marble and bronze columns, a very handsome English clock, and many other works of art. *See also miscellaneous Indian exhibits.*
 KWONG YEU SING AND Co., 28, Waterloo Street.—Chinese and Japanese goods.
 LAZARUS (C.) AND Co., 56-62, Bentinck Street.—Cabinet makers, billiard table manufacturers—
 Buffet, billiard table, 3 drawing room suites, mirrors, sideboard and dinner wagon, almirah, cabinets, dressing table and wash-hand stand. *See also British Court.*
 MURRAY (JAMES), 11, Dalhousie Square, East.—Clocks.
 OSLER (F. AND C.)—Glass Manufacturers, Birmingham, London and Calcutta.
 Glassware of the following kinds:—
 Chandeliers, candelabra, and fountains, electric chandeliers, table glassware, glass tables, bed, couch, sofas, chairs, cheval and toilet glasses and other constructive works in glassware, lamps for kerosine oil, collection of decorative and art pottery by eminent firms, collection of ornamental Venetian and other foreign and British glassware.
 Collection of Venetian and other mirrors.
 RAMCHAND (HAZARIMAL), 33, Raja-ka Kuttra, Barra Bazar.—Ivory toys.
 TOMLIN (J. E.) AND Co., 32, Dharramtollah.—Furniture.
 A mahogany family bedstead, a mahogany clock bracket, an ebonized and gold hukka, an ebonized and gold almirah (*lent by Coomar Indra Chundra Singh Bahadoor, of Paikpara*).

SECTION E.—FABRICS INCLUDING APPAREL, TOILET REQUISITES,
AND OTHER OBJECTS OF PERSONAL WEAR OR USE.

CLASSES XXXVIII TO LII.

- BADHAM BROTHERS, 16, Old Court House Street.—Clothes; hosiery; hats; gloves.

CHOTAY LALL, 43, Raja-ka-Kuttra, Burra Bazaar.—Shawls of Delhi Cashmere, Umritsur, Lahore manufacture; Rampore chadars; gold worked cushions, chairs, table-covers; and a variety of Benares brass ware.

COOKE AND KELVEY, 20, Old Court House Street.—Jewelry; precious stones.

CUMMING (ALEXANDER).—Court robes; Lyons and Chinese silks. Models dressed in court costumes.

CUTHBERTSON AND HARPER, 10, Government Place.—Boots.

DASS AND Co., 70, Old China Bazar Street.—Sola hats.

DASS (C. C.) AND Co., Radha Bazar.—Tailory, hats and caps.

GHOSAL (DENO NATH) AND Co., 25 and 26, Canning Street.—Fancy work.

MITTRA AND Co., 1, Mirzapur Street, College Square.—Ink, perfumery.

MONTEITH AND Co., 21, Old Court House Street.—Boots.

MOOKERJEE (B. D.), Bhowanipur.—Cloth made by Tanti.

MOORE AND Co., 5-2, Esplanade.

Imported Goods.—Silks, velvets, plush, woollen-dress fabrics, cotton-dress fabrics, muslins, mourning goods, costumes, jackets, linings, trimmings, buttons, ribbons, laces, made-up lace goods, silk confections, hosiery, gloves, mittens, fancy wool goods, sunshades, rugs, blankets, coverings, shawls, corsets, under-clothing, fans, belts, handkerchiefs, linen sets, curtains, millinery, flowers, feathers, gentlemen's ties, collars, braces.

Goods manufactured in the country.—Costume, millinery, lace, confections, laces, embroidery, shirts, sleeping suits.

Princes of Wales.—Wax portrait model; grenat dinner costume.

Princess Beatrice.—Wax portrait model; pigeon gray walking costume.

Duchess of Connaught.—Wax portrait model; white bridal costume.

Mrs. Langtry.—Wax portrait model; crevette evening costume.

The following costumes were manufactured in India by Indian labour and entirely from Indian fabrics:—

Princess of Wales.—Wax portrait model; reception costume. Materials made in Benares, British Burma, Burdwan, Berhampur, Calcutta, Trichinopoly, Rajbuhaut, Lukhipur.

Duchess of Edinburgh.—Wax portrait model; walking costume. Materials made in Amritsur, Cashmere, Berhampur, Calcutta, Trichinopoly.

Marchioness of Lorne.—Wax portrait model; summer costume. Materials made in Dacca, Lukhipur, Hughly, British Burma, Calcutta.

Change tea gown.—Materials made in Amritsur, Delhi, Burdwan, Berhampur, Trichinopoly, Calcutta.

Ex-Empress of the French.—Wax portrait model; evening costume. Materials made in British Burma, Calcutta, Trichinopoly, London, Paris, Nottingham.

Indian product millinery.—Specimens of millinery made in the country from European materials; specimens of millinery made in the country by Indian labour and entirely from Indian materials.

NATIONAL Co., 30, Colootollah Street.—Perfumery.

PHELPS AND Co., Civil and military tailors, 15, Old Court House Street, Simla and Lahore.—Embroideries made by native workmen under European supervision.

RAMCHAND (HAZARIMAL), 33, Raja-ka-Kuttra, Barra Bazaar.—Wool and shawl fabrics, shawls, jewelry.

RANKEN AND Co., Calcutta and Simla.—Tailoring, gold embroidery, military accoutrements.

ROY BROTHERS, 30, Colootollah Street.—Perfumery, ink.

SMITH, STANISTREET AND Co., 9 and 10, Dalhousie Square, East.—Perfumery.

WATSON AND SUMMERS, Calcutta, Simla, and Rangoon.—Theatrical wigs, beards, and fancy costume; make-up requisites.

WATTS AND Co., 6, Wellesley Place.—Indian-made boots, shoes and slippers.

SECTION F.—RAW PRODUCTS AND MANUFACTURES FROM
PRODUCTS NOT INCLUDED IN OTHER SECTIONS.

CLASSES LIII to LXXXI.

AHMUTY AND Co. (Ordnance and Marine Contractors to Her Majesty's Indian Government), Proprietors, *Shalimar Steam Rope Works*, near Calcutta.

Of local manufacture.

Coir cables, from 16" to 42" circumference.

Coir rope, from 3" to 18" circumference.

Manilla cables, from 12" to 25" circumference.

Manilla rope, from 3" to 18" circumference.

Western India hemp rope, tarred and untarred, from 3" to 12" circumference.

Manilla and Western India hemp lines of sizes, consisting of signal halyards, lead and loglines, house and marlines, cotton-ornamental pankha line, &c.

Galvanized iron and steel wire rope, from 1" to 7" circumference. A sample piece of 4½" galvanized steel wire rope, fitted with heart-shaped cast-iron dead eyes, as supplied by the firm for the erection of suspension bridges.

CUTHBERTSON AND HARPER, 10, Government Place.—Saddlery, harness.

DATT (NOBIN CHUNDER) AND Co., 19, Dharramtollah Bazaar—Best gum copal varnish, linseed and fish oils.

DATTA (SRI CHUNDRA), Peacock Chemical Works, College Square, Calcutta.—Printing ink.

FORNARO (HENRY), 3, Zig-Zag Lane.—Artificial stones, tiles.

GHOSAL (DENONATH) AND Co., 25, 26, Canning Street.—Raw products.

GHOSE (RAM CHUNDER), 28, Radha Bazaar Street.—Burma cigars.

GREAT EASTERN HOTEL WINE AND GENERAL PURVEYING Co., LD., Old Court House Street—Cigars, tobacco, and cigarettes.

HARTON (W. H.) AND Co., Offices 1 and 2, Strand; Works at Ghosery. Established 1870.—Hawfers, ropes, and matting of coir.

MITTRA AND Co., 1 Mirzapur Street, College Square.—Ink.

MONTEITH AND Co.—Saddlery, harness.

OSLER (F. AND C.), Birmingham, London, and Calcutta.—Alexandra oil for kerosine lamps.

ROY (AMBITA LALL), 35, Burawaritola road, Baliaghatta—Color, varnish, inks.

ROY BROTHERS, 30, Colcotollah Street—Oils.

THOMSON (JOHN), 5, Commercial Buildings—Bar and toilet soaps, refined tallow, &c., of local manufacture.

TURNER, MORRISON AND Co., 6, Lyon's Range, Calcutta.—Stick-lac and shell-lac, lubricating oils and lubricants.

WALDIE (DR. DAVID), 3½ Hastings Street.—Raw products, inks.

WATTS AND Co., Military Saddlers, Harness and Boot Makers, 5, Wellesley place, Tanners, &c., at 15, North Road, Entally.—Harness, gold embroidery, military accoutrements (local make), saddlery (imported).

The gold embroidered horse trappings, harness, and boots are of English material, but the workmanship is entirely local. The exhibit of saddlery is of English manufacture and made by the exhibitors' own makers.

'That noble order of the Yellow Robe

'Which to this day standeth to help the world

*

*

*

'All which is written in the holy Books

'And where he passed and what proud Emperors

'Carved his sweet words upon the rocks and caves:

'And how—in the fulness of the times—it fell

'The Budha died, the great Tathâgato,

'Even as a man, amongst men, fulfilling all:

'And how a thousand thousand crores since then

'Have trod the path which leads whither he went

'Unto Nirvana where the Silence live.'

Edwin Arnold's "Light of Asia."

H. H. Rawul Shri Takht Singhjee, K.C.S.I., Thakur Saheb of Bhow-nagpur.

The late Mr. David Sassoon (painted for the Poona Portrait Gallery).
